To the Honorable Town Manager,
Members of the Town Council, and
Citizens of the Town of Smithfield, Rhode Island:

The Comprehensive Annual Financial Report of the Town of Smithfield, for the fiscal year ended June 30, 2009 is submitted herewith. This report was prepared by the Town's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Town. We believe the information, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial positions, results of operations and cash flows of the Town. All disclosures necessary to enable the reader to gain maximum understanding of the Town's financial affairs have been included.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Single Audit and Statistical. The Introductory section includes this transmittal letter, the Town's organizational chart and a list of principal officials. The Financial section includes, under the new Governmental Accounting Standards Board Statement No. 34, the Independent Auditors' Report, the Management Discussion and Analysis, the basic financial statements, required supplementary information, and other supplemental information. The Statistical section includes selected financial and demographic information generally presented on a multi year basis.

The Town is required to undergo an annual Single Audit in conformity with the provisions of the Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments". Information related to this Single Audit, including the schedule of expenditures of federal awards, and independent auditors' reports on the internal control structure and compliance with applicable laws and regulations, are included in the Single Audit section of this report.

The Town of Smithfield is a Rhode Island municipal corporation which provides the following services to its residents: general administrative services, public safety, public works, parks and recreation, social services and education.

GOVERNMENT PROFILE

The Town of Smithfield was settled in 1636 and later incorporated as a town in 1730. The Town, primarily a residential community, comprises 26.7 square miles of land, 1.1 square miles of water and is situated 11 miles northwest of Providence, the State capital. Smithfield is bounded by the Town of North Smithfield on the north, by the Towns of North Providence and Johnston on the south, by the Town of Lincoln on the east and the Town of Glocester on the west.

GOVERNMENT PROFILE (Continued)

The Town operates under a charter form of government, which provides for a five members Town Council, which is responsible for enacting local legislation; and an appointed Town Manager who executes the laws and the administration of the town government. The Town Council is granted all powers to enact, amend or repeal ordinances relating to the Town's property, affairs and government as well as the authorization of the issuance of bonds or notes by ordinance. Members are elected at-large for two (2) year terms.

GENERAL

Except as provided below, under Rhode Island law the Town may not, without special statutory authorization, incur any debt which would increase its aggregate indebtedness not otherwise excepted by law to an amount greater than 3% of the taxable property of the Town. Deducted from the computation of aggregated indebtedness is the amount of any borrowing in anticipation of taxes authorized by law and the amount of any sinking funds maintained by the Town. The 3% debt limit of the Town is \$87,083,852 based on net assessed valuations of \$2,902,795,067 as December 31, 2007. As of June 30, 2009, the Town has no debt outstanding under the 3% debt limit provision; all outstanding debt has been authorized by special act of the Rhode Island State Legislature and referenda approved by the Town Electorate.

STATE SCHOOL AID

Pursuant to Rhode Island General Laws Sections 16-7-15 et seq., as amended, the State provides school operations aid to each municipality and school district in the State, subject to annual appropriation by the General Assembly. The statutes provide for reimbursement of school expenditures based on a formula which adjusts the reimbursement ratio based on the relative equalized evaluation of property and median family income of a community relative to the state as a whole. The Town's School Department received \$5,206,279 in fiscal year ended June 30, 2009 and budgeted \$5,031,655 for fiscal year ending June 30, 2010.

The State provides construction aid to Rhode Island municipalities for the cost of building new public schools. All buildings constructed since July 1, 1949 are eligible for assistance of a minimum of 30% of the full cost of such buildings. Such assistance level may be further increased by a formula which takes into account the equalized assessed valuation and debt service burden of the particular municipality. For the fiscal year ended June 30, 2009, the Town received \$353,668 in such construction aid and the Town budgeted \$320,000 for fiscal year ending June 30, 2010.

In addition to school operations assistance and school construction aid, municipalities in Rhode Island receive additional aid through the State General Revenue Sharing program. The program which has a distribution formula similar to the Federal Revenue Sharing Program, replaces various State grant and aid programs as of July 1, 1987. For the fiscal year ended June 30, 2009 the Town received \$742,742 in aid and did not budget any aid for the fiscal year ending June 30, 2010.

EDUCATION

A five-member School Committee that is elected at large at the regular biennial elections for staggered four-year terms directs the general administration of the Smithfield School System. The School Committee determines and controls all policies affecting the administration, maintenance, and operation of the public schools in the Town. The School Committee appoints a Superintendent as its chief administrative agent; submits a detailed budget of expenditures and revenues to the Town Council and, once the school budget has been approved, determines the allocation of the amount appropriated. The cost of operating the Town's School System for the fiscal year ended June 30, 2009 was \$31,628,496. The School Department budget for fiscal year ending June 30, 2010 is \$32,437,157. The cost per student is \$12,379 shared by the Town and the State of Rhode Island in the form of School Operations Aid.

The Town has an elementary school (PK-5), a middle school (6-8) and a senior high school (9-12). As of October at the beginning of each school year, the student enrollment in the Smithfield School System for the past eleven years has been and is as follows:

EDUCATION (Continued)

<u>FISCAL YEAR ENDING</u>	<u>ENROLLMENT</u>
1999	2,757
2000	2,735
2001	2,704
2002	2,687

2005	2,659
2006	2,625
2007	2,609
2008	2,599
2009	2,555

MUNICIPAL SERVICES

The Town provides major public services, which are detailed as follows:

WASTEWATER FACILITIES

The Town maintains all sewer lines and pumping stations within the Town in accordance with the State of Rhode Island's base plan. The Town sewer system extends to approximately 80% of the Town's residents. It was completed at a cost to the Town of \$11,400,000 which was financed through general obligation bonds, which matured in 1998, exclusive of Federal and/or State grants in aid.

The Wastewater Division operates as an Enterprise Fund, with all operations funded from user fees and assessments. This provides a meaningful measure of the financial position and results of operations of the system, and also provides information necessary for calculation of future rate changes. The distribution of the accounts is as follows:

	<u>Accounts</u>	<u>Units</u>
Residential	4,635	5,316
Commercial	317	2,700
Industrial	24	269
Total	<u>4,976</u>	<u>8,285</u>

User charges are assessed each year in an amount necessary to cover the projected operating expenses and debt service of the Sewer Authority for that year. For the fiscal year ended June 30, 2009 residential users were charged a flat rate of \$275 for the year.

In fiscal year ended June 30, 2003, the Town contracted with the firm, Veolia Water North America to operate the Town's wastewater treatment facility over the next ten years. There are approximately \$7.5 million dollars in capital improvements that were performed at the sewer plant and pumping stations which was financed through a certificate of participation agreement.

SANITATION

Weekly rubbish and garbage collection is provided by the Town through the use of private contractors. For the fiscal year ended June 30, 2009, the Public Works Department expended \$963,888 for these services. For the fiscal year ending June 30, 2010 the approved budget is \$975,000.

PUBLIC WORKS

The Town of Smithfield's Department of Public Works provides a full range of services including street construction and maintenance, snow removal and maintenance of Town facilities. Total expenditures for the fiscal year ended June 30, 2009 totaled \$1,992,401 and budgeted \$2,260,195 for fiscal year ending June 30, 2010.

PUBLIC SAFETY

The Town of Smithfield Public Safety Department provides fire prevention, emergency medical rescue, police patrol, investigations, community education and animal control functions.

The Police Department consists of 41 full-time police officers and approximately 3 auxiliary officers. In addition, there are 12 civilian full-time and 6 civilian part-time employees of support personnel including dispatch and animal control. The Police Department expended \$4,766,078 for fiscal year ended June 30, 2009 and budgeted \$4,682,195 for fiscal year ending June 30, 2010.

The Fire Department has 3 fire stations staffed by 49 full-time fire fighters and support personnel of 5 full-time employees. The Fire Department expended \$4,592,393 for fiscal year ended June 30, 2009 and budgeted \$4,661,320 for fiscal year ending June 30, 2010.

PUBLIC LIBRARIES

The Town operates two public libraries, Greenville Public Library and East Smithfield Public Library. For the fiscal year ended June 30, 2009 the combined allocation from the Town was \$1,156,009 and budgeted \$1,187,734 for the fiscal year ending June 30, 2010.

EMPLOYEE RELATIONS

The Town of Smithfield currently employs 166 full-time employees exclusive of those employed by the School Department. The School Department employs 230 certified employees and 87 full-time and part-time non-certified employees.

The current status of union contract for municipal and school employees is as follows:

Police Department	3 year contract expires June 30, 2010
Fire Department	3 year contract expires June 30, 2010
Police Civilian Employees	3 year contract expires June 30, 2011
Public Works Employees	3 year contract expires June 30, 2011
Town Hall Employees	3 year contract expires June 30, 2011
Teachers	3 year contract expires August 31, 2011
Custodians	3 year contract expires June 30, 2010
Teacher Para-Professionals & Clerical Employees	3 year contract expires June 30, 2012

FINANCIAL INFORMATION

A detail understanding of the financial position and operating results of the Town is provided in the Comprehensive Annual Financial Report (CAFR). The Management's Discussion and Analysis starting on page 3 of the CAFR provides additional information to assess the Town's financial condition.

INTERNAL CONTROLS

In developing and evaluating the Town's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization, procedures and records that are concerned with the safeguarding of assets and the reliability of financial records and consequently is designed to provide reasonable assurance that:

Transactions are executed in accordance with management's general or specific authorization.

Transactions are recorded as necessary (1) to permit preparation of financial statements in conformity with generally accepted accounting principles or any other criteria, such as finance – related legal and contractual compliance requirements applicable to such statements, and (2) to maintain accountability of assets.

Access to assets is permitted only in accordance with management's authorization.

The recorded accountability of assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

The definition of accounting control presumes reasonable, but not absolute, assurance that the objectives expressed in it will be accomplished by the system. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits to be derived. The benefits consist of reductions in the risk of failing to achieve the objectives implicit in the definition of accounting control.

All internal control evaluations occur within the above framework. We believe that the Town's internal accounting control adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

DEBT ADMINISTRATION

The ratios of net bonded debt to assessed valuation and the amount of bonded debt per capita are useful indicators of the Town's debt position to municipal management, citizens and investors. This data for the Town at June 30, 2009 is as follows:

	AMOUNT	RATIO OF NET BONDED DEBT TO ASSESSED VALUE	DEBT PER CAPITA
Net Bonded Debt	\$9,250,000	0.31%	\$441.04

The Town's bond ratings as of June 30, 2009 are as follows:

- Moody's: Aa3
- S & P: AA-

CASH MANAGEMENT

The intention of the cash management system is to limit the amount of funds placed in accounts where low or no interest is paid. Idle cash is invested in various instruments with staggered maturity dates, depending on the anticipated cash requirements during the period. All funds are protected by Federal Insurance and full collateralization at each of the Town's banking institutions.

RISK MANAGEMENT

The Town's properties are insured by the Rhode Island Interlocal Risk Management Trust. This agency was established for the primary purpose of providing insurance to local government entities. The following coverage is provided to the Town of Smithfield: worker's compensation, general liability, automobile liability, public buildings and public officials' liability insurance.

INDEPENDENT AUDIT

In accordance with Town's Charter, the Town's independent Certified Public Accountants, Parmelee, Poirier & Associates, LLP have completed an audit of the accounts and financial statements, and their opinion is included herein.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Smithfield for its comprehensive annual financial report for the fiscal year ended June 30, 2008. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

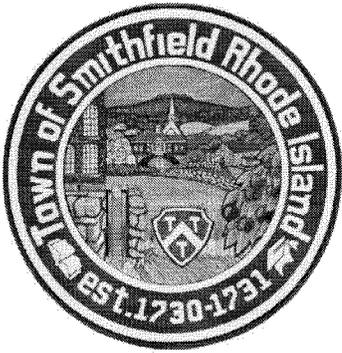

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the Comprehensive Annual Financial Report on a timely basis could not have been accomplished without the efforts and dedication of the competent staff of the Department of Finance. I would like to express my appreciation to the Town Controller, my staff and other personnel from various departments who assisted in its preparation. Also, I would like to thank the Town Manager and the Town Council for their interest and support in planning and conducting the financial operation of the Town in a dedicated and responsible manner.

Respectfully Submitted,

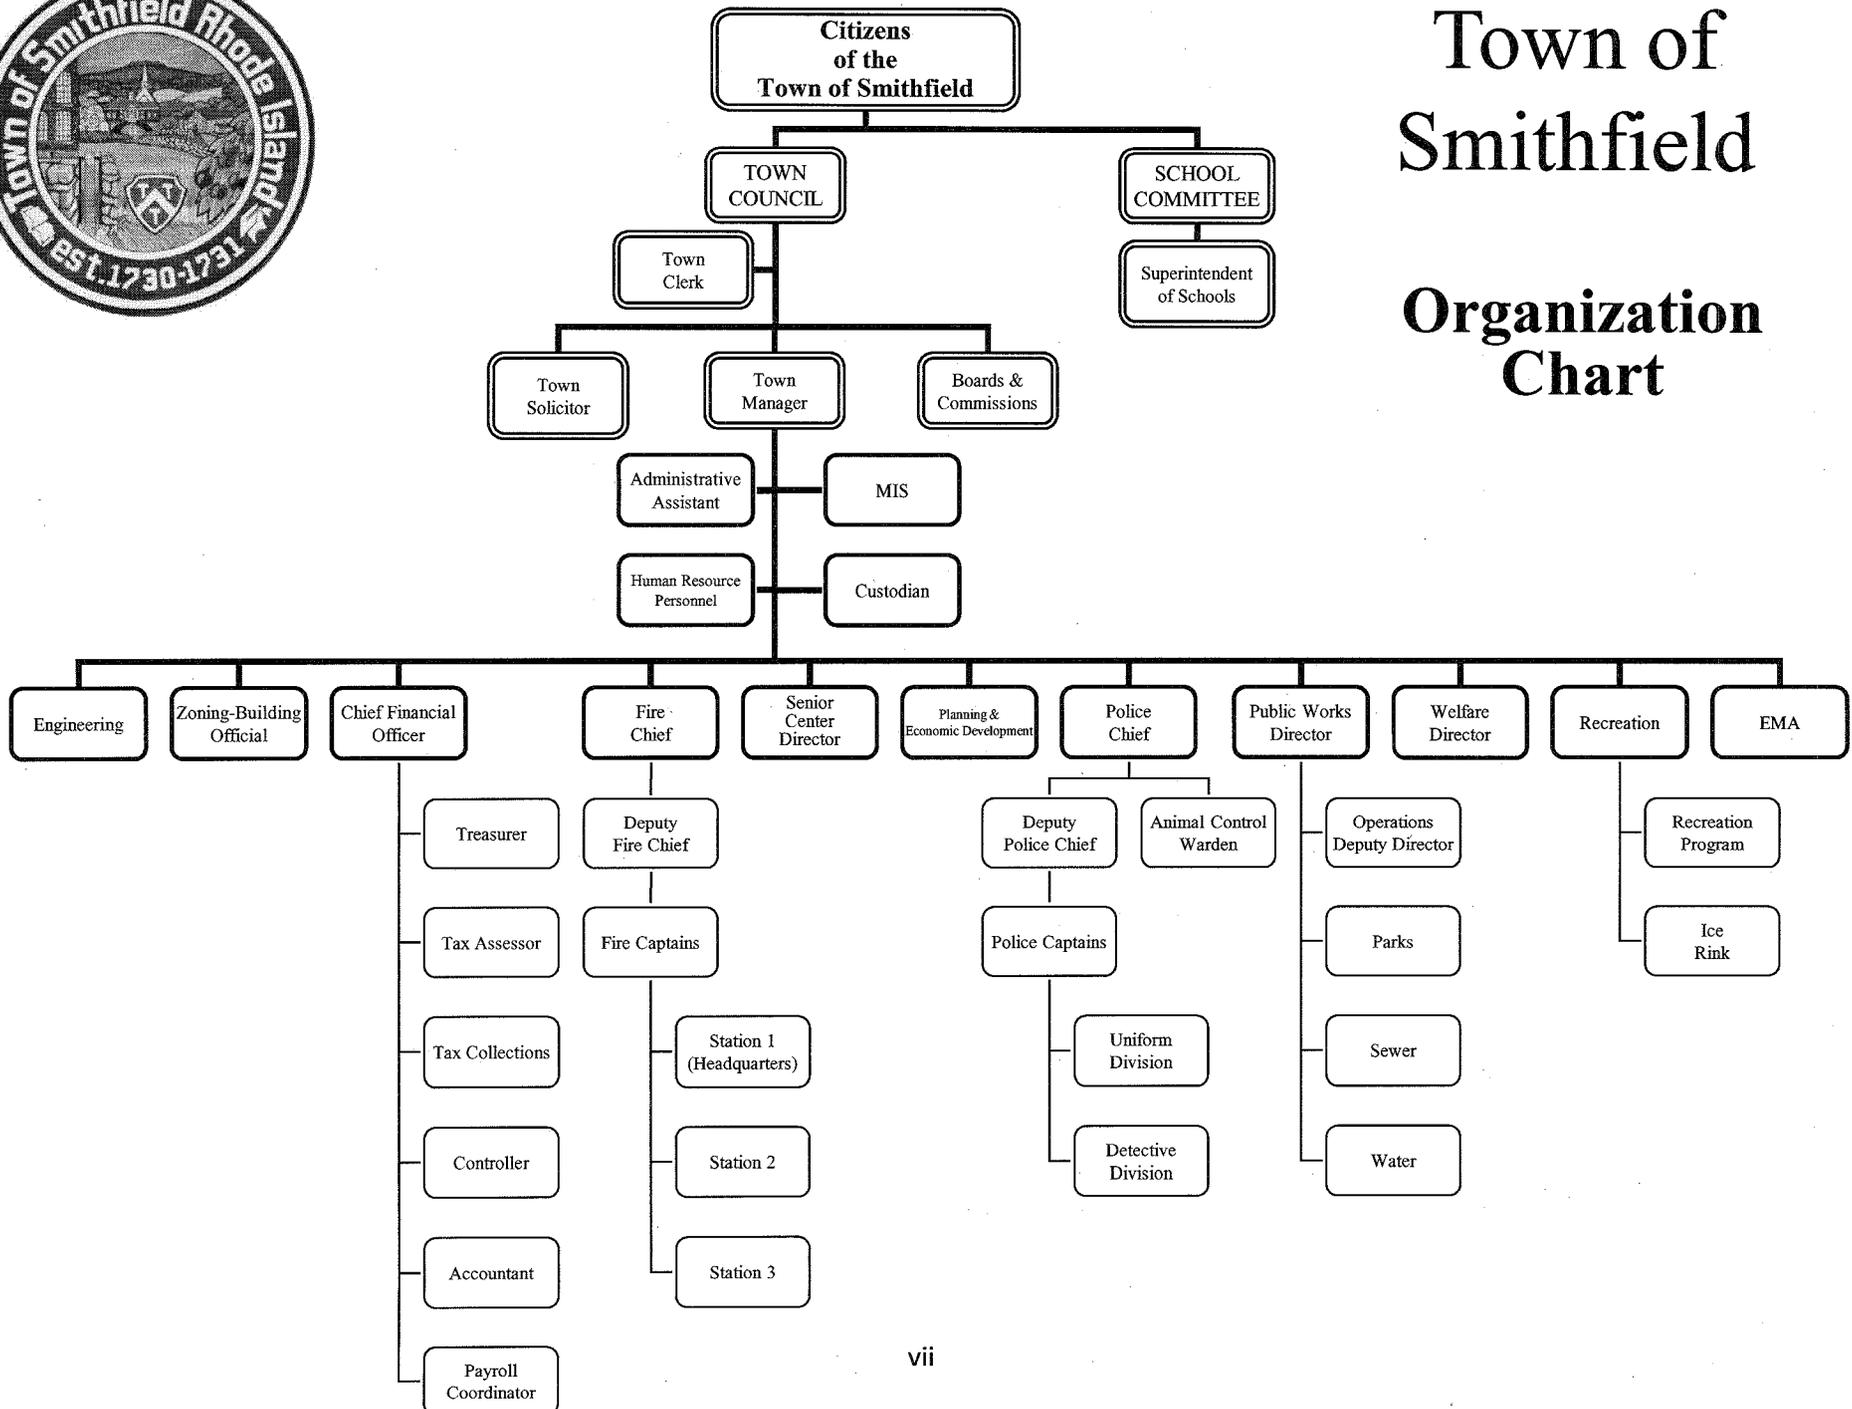

Randy R. Rossi

INDEPENDENT AUDITORS' REPORT

The Honorable President and
Members of the Town Council
Town of Smithfield
Smithfield, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Smithfield, Rhode Island (Town) as of and for the year ended June 30, 2009, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Smithfield, Rhode Island's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "***Government Auditing Standards***" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of the Town of Smithfield, Rhode Island as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 12 (e) to the basic financial statements, the Town adopted GASB Statement 45 as of July 1, 2008.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 1, 2009 on our consideration of the Town of Smithfield, Rhode Island's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis, and pension information on pages 3 through 11 67 through 68 respectively, are not a required part of the financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual non-major fund statements, budgetary comparison schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the Town. The combining and individual non-major fund statements, budgetary comparison schedules and schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole. The statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

TOWN OF SMITHFIELD, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2009
(Un-audited)

Our discussion and analysis of the Town of Smithfield, Rhode Island's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2009. Please read it in conjunction with the letter of transmittal and the Town's financial statements that follow this section.

Financial Highlights

- ❖ The Town's net assets increased \$5,294,755 as a result of this year's current operations. On a government-wide basis the assets of the Town of Smithfield exceeded its liabilities at the close of the most recent fiscal year by \$62,081,224. Net assets of Governmental Activities increased by \$3,658,145 or 11.7%, which included prior period adjustments of \$845,809, while net assets of business activities increased by \$2,482,419 or 10.1%.
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$66,328,077, a 2.7% increase from the prior year, while revenues collected were \$71,623,501 a 7.5% increase. This increase was mainly due to an increase in our property tax base and grants and contributions in the fiscal year ended June 30, 2009.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$17,315,141. Over 23.1% of this amount, \$3,997,317 is unreserved and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general fund unreserved fund balance was \$3,048,528, or 5.0% of the total general fund expenditures for the fiscal year. The current fiscal year's expenditures and transfers exceeded revenues and transfers by \$359,766. On a budgetary basis revenues exceeded expenditures and transfers by \$996,895.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information. The Town's basic financial statements and other supplementary information provide information about the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Assets* presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

TOWN OF SMITHFIELD, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2009
(Un-audited)

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's major business activities include the Smithfield Sewer Authority and the Water Supply Board.

The government wide financial statements are reported on pages 12 through 13.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories—governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, School Special Revenue Unrestricted Fund and the Log Road Fund, which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has seven enterprise funds. The Smithfield Sewer Authority, which accounts for the Town's sewer system; the Water Supply Board, which accounts for the Town's water system; the Smithfield Ice Rink, which houses an ice rink and associated facilities; the School Lunch Program, which accounts for School Lunch operations; the East Smithfield and Greenville Public Libraries, which account for Library operations, and the East Smithfield Neighborhood Center, which accounts for the Neighborhood center rental.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Smithfield Sewer Authority and Smithfield Water Supply Board, since they are considered to be major funds of the Town. The Smithfield Ice Rink, School Lunch Fund, East Smithfield and Greenville Public Libraries, and the East Smithfield Neighborhood Center, which are not major funds, are presented in the non-major proprietary funds combining schedule.

The basic proprietary fund financial statements are presented on pages 17 through 20.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The largest portion of the Town's net assets \$42,713,576 consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

The remaining balance of unrestricted net assets may be used to meet the government's ongoing obligations to its citizens and creditors.

Analysis of the Town of Smithfield's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2009. The Town first implemented GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments for the fiscal year June 30, 2003. Therefore, comparative data is now available and is presented in the following schedules. Governmental activities increased the Town's net assets by \$2,812,336 for the current period with prior period adjustments accounting for an increase of \$845,809 for a total increase of \$3,658,145, which is an overall increase of 11.7% in the Town's governmental net assets, while business-type activities increased the Town's net assets by \$2,482,419, accounting for 10.1% increase in business-type net assets. Overall the Town's net assets increased by \$6,140,564, which is an 11.0% increase over the prior year's net assets.

The net change in fund balance for the fiscal year ended June 30, 2009 was an increase of \$999,870 for the Towns governmental fund types. In the statement of activities, expenditures for capital items are not recorded as expenses but shown on the balance sheet, which resulted in an increase of \$1,548,754 net of depreciation to the net assets; also revenues from the increase in deferred revenues are not recorded as revenues in the fund financial statements but in the statement of activities this resulted in a increase of \$716,424. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets, which increased net assets by \$1,685,000.

Reductions in net assets included an increase in the Town's net pension obligation of \$437,442, and the adoption of GASB 45 which resulted in a decrease in net assets of \$869,132.

The following page presents the Changes in Net Assets for the current year's activity.

Financial Analysis of the Town of Smithfield's Funds

Governmental Funds - The focus of the Town of Smithfield's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$17,315,141. Approximately 23.1% of the total amount, or \$3,997,317 constituted unreserved fund balances. The remainder of the fund balance is reserved because of future commitments.

Additional information on the Town's long-term debt can be found in Note 6 of the Notes to the Financial Statements on pages 38 through 41 and on pages 98 through 100.

The Town's general obligation bond rating as assigned by Moody's Investors Service in 2009 is Aa3 and AA- by S&P. The State of Rhode Island imposes a limit of 3 percent of the fair value of all taxable Town property on the general obligation debt that a municipality can issue. The Town of Smithfield's limit is \$87,083,852 at year-end. The Town's outstanding general obligation debt is \$9,250,000 at year-end, which is \$77,833,852 under the State imposed limitation.

Economic Factors and Next Year's Budgets and Rates

Smithfield is known as the Apple Valley for orchards. In the 20th century, the Town transformed into a suburban community with a solid industrial and commercial base. Residential accounts for 71.87% of the tax base while commercial and industrial account for 21.81% of the tax base.

EMPLOYMENT

Since Smithfield is easily accessed via Interstate 295 and U.S. Route 44 and is strategically located 50 minutes from Boston and 10 minutes from Providence most employment opportunities extend outside the Town. The principle employers are the Fidelity Investments, Town of Smithfield and Bryant University.

HOUSING

At the end of September 2009 the median sale price for single family homes in Smithfield was \$227,500 and the median price of all sales was \$214,500.

TOWN OF SMITHFIELD RHODE ISLAND
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2009

Net change in fund balances-total governmental funds		\$ 154,061
<p>Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:</p>		
<p>Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays of \$2,853,201 and other capitalized expenses of \$841,254 exceed depreciation (\$2,148,685) and adjustments of \$2,984 in the current period.</p>		
	1,548,754	
<p>Property taxes that are not collected in the current period and do not represent current financial resources are deferred in the fund financial statements, however they are recognized as revenues in the statement of activities.</p>		
	716,424	
<p>Amortization of bond premiums in the current period do not represent current financial resources, however they are recognized as revenues in the statement of activities</p>		
	42,598	
<p>Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available.</p>		
Loss on disposal of capital assets	(669)	
Principal payments made on long-term debt	1,685,000	
Decrease in capital leases	87,336	
Net increase in compensated absences	(114,594)	
Net increase in the other post employment benefit obligation	(869,132)	
Net increase in the net pension obligation	<u>(437,442)</u>	<u>350,499</u>

Notes to Financial Statements

TOWN OF SMITHFIELD, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009

1. REPORTING ENTITY

In accordance with the requirements of Statement No. 14 of the Governmental Accounting Standards Board, *The Financial Reporting Entity*, the accompanying basic financial statements present the Town of Smithfield, Rhode Island (the primary government). The activities discussed below are included in the Town's reporting entity because of the significance of their operational or financial relationships with the Town.

The Town complies with generally accepted accounting principles (GAAP). Generally accepted accounting principles (GAAP) includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide Statement of Net Assets and Statement of Activities, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Proprietary funds also apply the same principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of these notes.

Primary Government

The Town is a municipal corporation governed by a Council/Town Manager form of government with a five-member Town Council headed by a Council President.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14. Under GASB Statement No. 14, the financial reporting entity includes both the primary government and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

Test 1 - The primary government appoints the voting majority of the board of the potential component unit and is able to impose its will on the potential component unit and/or is in a relationship of financial benefit or burden with the potential component unit;

Test 2 - The potential component unit is fiscally dependent upon the primary government; or

Test 3 - The financial statements would be misleading if data from the potential component unit were not included.

The following entities were considered for classification as component units for fiscal year 2009:

- * Smithfield Public Schools
- * Greenville Public Library
- * East Smithfield Public Library
- * East Smithfield Neighborhood Center

Based upon the application of those criteria, the Town has included the Smithfield Public Schools, Greenville Public Library, East Smithfield Public Library and the East Smithfield Neighborhood Center as part of the reporting entity. The Smithfield Public Schools are deemed to have no separate legal status from the Town. As a result, the financial data of the Smithfield Public Schools has been included as Special Revenue Funds with the Town's financial statements. There are no potential component units for which the Town exercises oversight responsibility which are not included herein. Therefore, the reporting entity is limited to those departments which comprise the Town's legally adopted jurisdictions and the Smithfield Public Schools, Greenville Public Library, East Smithfield Public Library, and East Smithfield Neighborhood Center described above.

TOWN OF SMITHFIELD, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009

1. REPORTING ENTITY (Continued)

The Greenville Public Library

The Greenville Public Library provides services to residents generally within the geographic boundaries of the Town. The Greenville Public Library is included within the reporting entity because the government approves the Greenville Public Library's budget and provides a major portion of the funding for operations.

East Smithfield Public Library

The East Smithfield Public Library provides services to residents generally within the geographic boundaries of the Town. The East Smithfield Public Library is included within the reporting entity because the government approves the East Smithfield Public Library's budget and provides a major portion of the funding for operations.

East Smithfield Neighborhood Center

The East Smithfield Neighborhood Center provides services to residents generally within the geographic boundaries of the Town. The East Smithfield Neighborhood Center is included within the reporting entity because the government approves the East Smithfield Neighborhood Center's budget and provides a major portion of the funding for operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recently Issued Accounting Standards

The Town will adopt the following new accounting pronouncement in future years:

- GASB Statement No. 51 - Accounting and Financial Reporting for Intangible Assets, effective for the Town's fiscal year ending June 30, 2010.
- GASB Statement No. 53 - Accounting and Financial Reporting for Derivative Instruments, effective for the Town's fiscal year ending June 30, 2010.
- GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions, effective for the Town's fiscal year ending June 30, 2011.

The impact of these pronouncements on the Town's financial statements has not been determined.

Basis of Presentation

Government-Wide Financial Statements

The statement of net assets and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds and component units that are fiduciary in nature. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, receivables and payables.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a) Total assets, liabilities, revenues, or expenditures/expenses of that individual, governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets, liabilities, revenues, or expenditures/expenses of the individual, governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for certain purposes.

Capital Project Funds

Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Permanent Fund

Permanent Fund are used to account for assets held by the Town pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

Proprietary Fund

Proprietary funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the Proprietary Funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenues. All other revenues of the Proprietary Funds are considered non-operating sources of revenue.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds (Continued)

Fiduciary Funds (Not included in government-wide statements)

Agency Funds

Agency funds account for assets held by the Town in a purely custodial capacity. The reporting entity includes four agency funds. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations. The agency funds are as follows:

- Pupil Activity Funds
- Probate Court
- Street Lighting
- Soil Erosion

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Brief Description</u>

Measurement Focus

On the government-wide Statement of Net Assets and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- (a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes as available if they are collected within 60 days after year end.
- (b) All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.
- (c) Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

TOWN OF SMITHFIELD, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

All proprietary funds, fiduciary funds and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

All Governmental Fund Types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter, (generally defined as 60 days after the close of the fiscal year) to be used to pay liabilities of the current period

Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Amounts reported as program revenues include charges to customers or applicants for goods, services or privileges provided and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Investments

Investments are stated at fair value in accordance with GASB No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

For purposes of the statements of cash flows, all highly liquid investments with a maturity of three months or less when purchased (e.g. short-term commercial paper) are considered to be cash equivalents.

Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes and intergovernmental grants and aid. Business-type activities report service fees as its major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivables are based upon historical trends and the periodic aging of accounts receivable.

Inventories

For Governmental Fund Types, disbursements for inventory-type items are not recorded as assets but have been recorded as an expenditure at the time individual inventory items were purchased. Inventories of the Town's Enterprise Funds are stated at the lower of cost (first in, first out) or market.

TOWN OF SMITHFIELD, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Vacation, Sick Leave and Other Compensated Absences

It is the policy of the Town to permit employees to accumulate a limited amount of earned but unused vacation and sick leave benefits, which will be paid to the employees upon separation from Town service. Compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts not expected to be liquidated with expendable available resources are reported as long-term debt in the government-wide financial statements. Long-term debt and other obligations financed by the proprietary funds are reported as liabilities in the appropriate funds.

Short-Term Interfund Receivable/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or serviced rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Advances to Other Funds

Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriations.

Fund Balance Transactions

The reappropriation of prior year's unexpended balances for certain accounts in the General Fund is reported as a transfer of fund balance in the current year.

Prepaid Items

Prepaid items are accounted for under the allocation method whereby a prepaid asset is established at the date of payment and subsequently amortized over the accounting periods expected to benefit from the initial payment.

Property, Plant and Equipment

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. The capitalization threshold is any individual item with a total cost greater than \$10,000.

TOWN OF SMITHFIELD, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Depreciation of all exhaustible fixed assets is recorded, as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	3 - 60 years
Land improvements	10 - 15 years
Equipment	3 - 60 years
Sewer lines and treatment and pumping plant	5 - 60 years
Vehicles	5 - 15 years
Infrastructure	15 - 65 years

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- (a) Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (b) Restricted net assets - Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- (c) Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Process

The Town Council conducts a hearing on the proposed budget submitted by the Manager in April of each year, based upon requests submitted by Town departments and municipally supported agencies. The Council then makes modifications and its recommended budget is placed before the Financial Town Meeting.

The Financial Town Meeting of the Town of Smithfield, Rhode Island is held annually in May. Eligible Smithfield residents, who must be registered voters, determine the tax levy for the coming fiscal year as the result of their vote upon the proposed municipal budget. Each activity of the budget may be debated and voted upon. Increases in the Council-recommended budget require an 80% favorable vote (commonly referred to as the "80% Rule") to open discussion. Following discussion, a simple majority is required for approval. Budget reductions require a simple majority to discuss or authorize.

The Town Moderator, who is appointed by the Council, conducts the Financial Town Meeting. The Town Council sits as the Budget Committee, and responds to questions along with the Town Manager and staff regarding the recommended municipal budget. The moderator conducts the meeting, ensures that the Rules of Order are enforced, and provides adequate opportunity for discussion upon each issue.

Based on state statutes, the School Committee is authorized to spend funds up to the total amount appropriated for the Unrestricted Fund, which is considered the fund level. The budget of the School Unrestricted Fund is prepared annually and submitted to the School Committee for approval. The amount of the annual transfer from the Town's General Fund to the School Unrestricted Fund is ultimately determined through the adoption of the General Fund budget.

Town ordinances require an annual budget for the General Fund. The practices used in the preparation of budget differ in certain respects from the presentation of the actual results of operations prepared in accordance with GAAP. The actual results of operations, for purposes of the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual on Budgetary Basis - General Fund has been adjusted to a basis consistent with the Town's budget.

Certain annual appropriations are carried over to next year's budget. There were \$2,805,243 of supplemental budgetary appropriations made during the fiscal year ended June 30, 2009.

Amendments to operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Finance Director has authority to make or approve such transfers within departments. The Town Council has the authority to amend the budget.

Adjustment for pension contribution made by State of Rhode Island on behalf of employees	1,633,992	1,633,992
Transfer to Literacy – Special Revenue Fund.....	<u>(140,494)</u>	<u>(140,494)</u>
Statement of Revenues, Expenditures, and Changes in Fund Balances	<u>\$33,144,428</u>	<u>\$32,417,982</u>

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

3. CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments: Investment of all idle funds must be made through national banks or trust companies, provided that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution can not exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The Town invest operating funds primarily in shorter-term securities, money market funds, or similar investment pools, although the Government does not have a formal policy relating to a specific investment related risk.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2009, \$ -0- of the Town's balance of \$29,776,814 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The town did not have any debt type investments that were exposed to credit risk as defined by GASB 40.

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The town does not have any investments that are subject to interest rate risk for the fiscal year ended June 30, 2009. If applicable, information about the exposure of the town's debt type investments to this risk is reported using the segment time distribution model.

4. TAXES AND ASSESSMENTS RECEIVABLE

Taxes are assessed each December 31, and the levy thereon may be paid in full on or before September 30, or quarterly, on or before September 30, December 31, March 31, and June 30, without penalty, at the taxpayer's option. A 12% annual penalty is imposed on all overdue taxes.

Unpaid property taxes at June 30, 2009, include delinquent installments of the current and prior years. The Town does not record interest earned on delinquent taxes until payment is received.

The allowance for uncollectible accounts is based on that portion of current and delinquent taxes receivable, which is estimated to be doubtful of collection. This provision does not constitute an abandonment of claim or the cessation of collection effort.

Net property taxes levied for the fiscal year 2009 were based on an assessed value of approximately \$2,902,795,067 at December 31, 2007, and amounted to \$44,064,150. Collections through June 30, 2009 amounted to \$39,986,078, which represents 90.74% of the total tax levy. The percentage collected through August 31, 2009 was approximately 97.51%.

The Town recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the Codification of Government Accounting and Financial Reporting Standards. Unpaid property taxes as of June 30, 2009 are recorded as a receivable (net of an allowance for uncollectible property taxes of \$4,238,954 and amounted to \$4,316,982. Those net property taxes receivable which were not collected within the 60 days immediately following June 30, 2009 are recorded as deferred revenue, net of allowance and amounted to \$1,262,809 at June 30, 2009. Property taxes recognized as revenue for the fiscal year ended June 30, 2009 due to their collection within the 60 days immediately following June 30, 2009 amount to \$2,980,553.

During the year ended June 30, 2009 the Town received \$3,542,317 from the State of Rhode Island as payment in accordance with legislation regarding the phase-out of motor vehicle tax. Under the law, excise tax on motor vehicles and trailers are being phased out over an eight-year period commencing with fiscal year 1999-2000. The phase-out program freezes the tax rate at \$39.00 which was the rate in fiscal year 1997-1998.

The State of Rhode Island has also passed legislation to phase-out wholesale and retail inventory tax over a ten-year period effective July 1, 1999. The phase-out of this tax will be supplemented through an increase in General State Aid. The General State Aid will be increased from the effective rate of 1% on June 30, 1998 to 4.7% on June 30, 2009.

User charges are assessed each year in an amount necessary to cover the projected operating expenses of the Sewer Authority for that year.

The allowance for uncollectible accounts of the Sewer Authority (\$39,593) is based on that portion of sewer assessment and user charges and miscellaneous accounts receivable which is estimated to be doubtful of collection, or which may be abated due to appeals now under consideration.

6. LONG-TERM LIABILITIES

(a) General

All of the Town's general obligation debt (now outstanding or authorized but unissued) has been authorized pursuant to the General Laws of Rhode Island or special acts of the State legislature. Each special act provides for approval thereof by the electors of the Town. After referendum approval has been secured, the borrowing must be authorized by resolution of the Town Council, adopted by vote of a majority.

The Rhode Island General Laws provide that no Town or town shall without special statutory authority, incur any debt which would increase its aggregate indebtedness beyond three percent of the taxable property of the Town or town. Tax anticipation notes are not included in the computation of debt limit. Debt may be incurred in excess of the three percent limit with the approval of the state director of administration. All of the Town's bonds and notes outstanding or authorized but unissued debts are either specifically excepted from the three percent debt limit or are within such limit.

The current three percent debt limit of the Town is \$87,083,852, based on the net assessed valuation at December 31, 2007 of \$2,902,795,067. There is no debt presently outstanding pursuant to this limitation.

Authorized But Unissued Debt

The Town has a total of \$11,540,000 in authorized, unissued debt consisting of the following authorizations:

Payments made in fiscal 2009 totaled \$101,341, of which \$14,005 was interest and \$87,336 was the present value of the future minimum lease payments.

7. SHORT-TERM DEBT

At August 11, 2008, the Town issued a \$2,635,000, 2.96% Bond Anticipation Note with a maturity date of July 8, 2009. The note proceeds were used to purchase land for school, library and related purposes. The Town intends to finance the payment of short-term debt outstanding at the end of the period as a rollover of the obligation.

10. DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

"Total fund balances" of the town's governmental funds \$17,315,141 differs from "net assets" of governmental activities \$34,982,522 reported in the statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

11. DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES

The "net change in the fund balances" for governmental funds \$154,061 differs from the "change in net assets" for governmental activities \$2,812,336 reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

11. DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES. (Continued)

(1) Because some property taxes will not be collected for several months after the town's fiscal year ends, they are not considered as "available" revenues in the governmental funds.

Property taxes	\$ 716,424
----------------	------------

Interest expense in the statement of activities differs from the amount reported in the governmental funds for two reasons. Accrued interest and bond premiums are added to the bonds payable, and bond issuance costs are reported as expenditures in governmental funds while in the government-wide financial statements they are capitalized and amortized over the life of the bond.

Accrued interest	\$ 11,546
Amortization bond premiums	31,052
Total expenditure adjustment	<u>\$ 42,598</u>

(2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

Capital outlay	\$ 3,694,455
Depreciation expense	(2,148,685)
Depreciation adjustment	2,984
Difference	<u>\$ 1,548,754</u>

When a loss is realized for the disposal of capital assets the loss is not recognized on the governmental funds and is only recorded on the statement of activities.

Loss on disposal of equipment	\$ (669)
-------------------------------	----------

(3) Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources, while certain cash flow items that represent long-term liabilities are recognized as current revenues, however in the statement of activities which is presented on the full accrual basis of accounting, expenses and liabilities are recorded regardless of when financial resources are available.

12. RETIREMENT PLANS & POST EMPLOYEMENT BENEFITS

(a) Municipal Employees' Retirement System of the State of Rhode Island

The Town of Smithfield participates in the Municipal Employees' Retirement System of the State of Rhode Island ("System"), an agent multiple employer defined benefit plan. The System includes a normal plan for general employees and both a normal and optional plan for police personnel. All full-time Town and non-certified School Department general employees participate in the System.

The payroll for employees covered by the System for the year ended June 30, 2009 was \$6,645,189 and the Town wide payroll was approximately \$31.4 million.

Plan Description

State Statute establishes the following eligibility and benefit provisions. The System generally provides retirement benefits equal to 2 percent of final average salary per year of service with a maximum benefit of 75 percent of final average salary. Final average salary is the three highest consecutive years of earned salary exclusive of overtime, bonuses or severance pay. Such benefits are available to members at least age 58 with 10 years of service or after 30 years regardless of age. The plan also provides non-occupational disability benefits after 5 years of service, occupational disability benefits with no minimum service requirement, survivors' benefits, and certain lump sum death benefits. Employees are vested in their retirement benefits on completion of 10 years of service. Benefits are established by State Statute.

MERS is an agent multiple-employer Public Employee Retirement System that acts as a common investment agent for participants. The Municipal Employee's Retirement System of the State of Rhode Island issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of Rhode Island Employee Retirement Board, 40 Fountain Street, Providence, RI 02903.

Funding Policy

MERS members are required to contribute 7% of their annual covered salary. The Town is required to contribute at an actuarially determined rate; the current rate is 5.43% of annual covered payroll. The contribution requirements of plan members and the Town are established and may be amended by State Statute.

Annual Pension Cost

For 2009, the Town contributed \$376,777 for MERS. The required contribution was determined as part of the June 30, 2005 actuarial valuation using the entry age normal cost method with frozen initial liability. Significant actuarial assumptions included (a) a net investment return of 8.25 percent compounded annually, (b) projected salary increases of 4.5-8.5 percent compounded annually, (c) 3 percent per year cost-of-living adjustments, (d) mortality rates based on the 1994 Group Annuity Mortality Table and (e) a retirement age of 65 or completion of service requirements, if later. The actuarial value of MERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. MERS unfunded actuarial accrued liability is being amortized using the weighted average method over a 25-year period.

12. RETIREMENT PLANS & POST EMPLOYMENT BENEFITS (Continued)

(b) Employees' Retirement System of the State of Rhode Island

All Town of Smithfield, Rhode Island certified school personnel participate in the Employees' Retirement System of the State of Rhode Island ("System"), a cost-sharing multiple-employer public employee retirement system. The payroll for employees covered by the System for the year ended June 30, 2009 was \$16,066,786. The Town's total payroll was approximately \$31.4 million.

Plan Description

State Statute establishes the following eligibility and benefit provisions. All Town of Smithfield, Rhode Island certified school personnel are eligible to participate in the System if they are certified by the Board of Regents, engaged in teaching as principal occupation, and are regularly employed on at least a half time basis. Employees who retire at or after age 60 with 10 years of credited service or after 28 years of credited service regardless of age are entitled to a retirement benefit. The retirement benefit is equal to 1.7 percent of their final average salary for each year of credited service up to 10 years, plus 1.9 percent of their final average salary in excess of 10 years through 20 years, plus 3.0 percent of their final average salary in excess of 20 years up to the 34th year of service, plus 2.0 percent of their final average salary for the 35th year, up to a maximum benefit of 80 percent of their final average salary. Final average salary is the three highest consecutive years of earned salary exclusive of overtime, bonuses, or severance pay. Employees are vested in their retirement benefits on completion of 10 years of service. Retirees' benefits are adjusted annually by 3 percent compounded to allow for increases in cost of living. Cost of living adjustments begin on the January 1st following the third anniversary of an employee's retirement. There were no changes in the method, and assumptions in the June 30, 2006 actuarial valuation to determine plan cost. The System also provides death and disability benefits. The System also provides pre-retirement benefits at a minimum of 17% of salary for non-occupational disabilities after 5 years of service and at 67% of salary for occupational disabilities regardless of service. Surviving spouses are also eligible for both pre and post-retirement benefits with minimum amounts established under varying circumstances.

Funding Policy

Rhode Island general laws set the contribution rates for participating State employees at 9.5% of salary. Annual contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as percentage of participants' payroll. The Town was required to contribute 11.89%, 13.04%, and 11.62%, for all full-time employees for fiscal years 2009, 2008, and 2007, respectively. The 2009 contribution rates are based on the State of Rhode Island's FY 2009 Pension Reform Reconciliation. The required contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; and (c) interest on the unfunded frozen actuarial liability. Normal cost is determined using the entry age normal cost method with frozen initial liability. Both employers and employees contribute 1% of the first \$9,600 of salary for survivor benefits. A variety of significant actuarial assumptions are used and these assumptions are summarized below:

- A. **Mortality** – 1994 Group Annuity Mortality Tables.
- B. **Investment return** – 8.25 percent, compounded annually.
- C. **Salary increase** - Salaries will increase at a rate of 4.5-13.25 percent, compounded annually.
- D. **Retirement age** - Teachers are assumed to retire at the later of age 60 with 10 years of service credit or any age with at least 28 years service credit.
- E. **Cost of living adjustments** – 3.0 percent compounded annually beginning on the January 1st following a participant's third anniversary of retirement.

(b) Employees' Retirement System of the State of Rhode Island (Continued)

Funding Policy (Continued)

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years plus 40% of contributions assessed to employers on payroll not reimbursable through Federal programs. This resulted in contribution rates paid by the State on behalf of the School Department of 10.17% of non-federally reimbursable payrolls totaling \$1,633,992 for the fiscal year ended June 30, 2009.

The School Department does not have any investments or related party investment with the State Plan.

The amounts contributed to the plan are as follows:

<u>Years Ending June 30,</u>	<u>Employee</u>	<u>Town's Portion Of Annual Required Contributions</u>	<u>Percentage Contributed</u>
2009	\$1,526,347	\$1,927,304	100%
2008	\$1,497,146	\$2,106,950	100%
2007	\$1,468,540	\$1,841,864	100%

In accordance with GASB 27, "Accounting for Pensions by State and Local Governmental Employers," the Town has determined that there are no assets or liabilities relating to the funding requirements of the plan.

Trend information showing the System's progress in accumulating sufficient assets to pay benefits when due is presented in the State of Rhode Island's Employee Retirement System's June 30, 2007 annual financial report, which may be obtained from the administrative offices of the State of Rhode Island Retirement Board, 40 Fountain Street, Providence, Rhode Island. This report is the most recent report available from the State who administers the Plan.

(c) Police Pension Plan

Plan Description

Police officers hired prior to July 1, 1999 were covered through June 30, 2006, under a single employer defined benefit pension plan which is administered by a private insurer. Plan participation commences on the first day of the month following the date the employee is hired. For the year ended June 30, 2005, the plan was comprised of sixty-four participants: twenty-four active, five disabled, and thirty-five retired participants. Fourteen of the twenty-four active participants had sufficient service to be vested at June 30, 2005. This is based upon the most recent actuarial report dated July 1, 2005.

Normal retirement benefits are paid at 2.5 percent of final average salary multiplied by service up to 20 years plus 2 percent of final average salary multiplied by service in excess of 20 years, not to exceed 75 percent of final average salary. Final average salary is defined as the average annual salary for the three (3) consecutive years producing the highest such average in the last ten (10) years preceding normal retirement date. The normal retirement dates are as follows:

Plan Description (Continued)

- Police employed prior to December 1, 1987 - the earlier of age 55 or completion of 20 years of service;
- Police employed on or after December 1, 1987 - completion of 20 years of service;

As of July 1, 2006, all active police officers were transferred to the Municipal Employees' Retirement System of the State of Rhode Island (the "System").

Summary of Significant Accounting Policies

The Police Pension Trust Fund is prepared on the accrual basis of accounting. Contributions from the Town and participants are recognized as revenue in the period in which employees provide service to the Town. Investment income is recognized as earned by the pension plan. Investment in securities is valued at fair value. Benefits and refunds are recognized when due and payable in accordance with the terms of the each plan. Dividend income is recorded on the ex-dividend date.

Contributions and Reserves

As a condition of participation in the plan, members of the police department were required to make contributions each year at 13% of their pay. The collective bargaining agreement between the Town and police provided that the Town would contribute no more than 18.3% of police department payroll to the plan, plus an additional \$1,048,000. Total contributions for the year ended June 30, 2009 were \$1,048,000. Plan administrative cost are paid from plan assets.

Unfunded Actuarial Accrued Liability:

The Unfunded Actuarial Accrued Liability is unavailable as of date of this report. An actuarial valuation has not been performed for the plan. The actuarial cost method used to calculate the unfunded liability was the Frozen Initial Liability Cost Method. Under this method there are two components of annual cost: (1) the Amortization of unfunded actuarial accrued liability and (2) the Normal Cost, which is computed to spread the balance of the total liability over the average future working period of current active plan participants. The unfunded actuarial accrued liability is computed when this method is first applied, using the Entry Age Normal cost method. From that point forward, it is not recalculated, but instead updated with Normal Cost, employer contributions, interest, and any changes due to plan amendments or changes in assumption.

(c) Police Pension Plan (Continued)

Police Pension Effective FY 2000 for New Hires

Effective fiscal year 2000, new hires of the Town of Smithfield Police Department participate in the System, an agent multiple employer defined benefit plan. The System includes a normal plan for general employees and both a normal and optional plan for police and firemen. All full-time police employees hired after July 1, 1999 participate in the System. In addition, as of July 1, 2006, all active police officers were transferred to this plan.

The payroll for employees covered by the System for the year ended June 30, 2009 was \$2,369,282 and the Town wide payroll was approximately \$31.4 million.

Plan Description

The eligibility and benefit provisions are established by State Statute. The System provides retirement benefits to employees at or after age 55 with 10 years of service or after 20 years of service with no restriction on age. The monthly benefit is calculated at 2.5% of the member's final average compensation for each year of service, up to a maximum of 30 years (75% maximum).

Final average salary is the three highest consecutive years of earned salary exclusive of overtime, bonuses or severance pay. The plan also provides non-occupational disability benefits after 5 years of service, occupational disability benefits with no minimum service requirement, survivors' benefits, and certain lump sum death benefits. Employees are vested in their retirement benefits on completion of 10 years of service. Retirees' benefits are adjusted annually by 3%, not compounded, to allow for increases in the cost of living.

Contributions Required and Contributions Made

Police personnel are required by State Statute to contribute 9% until the maximum benefit (75 percent of final average salary) is accrued. The Town is required to contribute based on an actuarially computed amount and as provided by State Statute for each participating municipality. The actuarial method used is the entry age normal cost with part of each municipality's unfunded actuarial liability funded over a fixed amortization period and the balance funded over the projected future payroll of active members. Due to large fluctuations in the contribution rates of certain municipalities, the plan has adopted a procedure which would allow a unit the option of paying a smoothed contribution rate. The smoothed contribution rate equals the previous fiscal year's contribution rate plus the greater of 2% or one eighth of the increase in contribution rate plus the cost of any benefit improvements. The actuarially determined contribution amount for the Town was determined as described above and was based on an actuarial valuation as of June 30, 2009.

The annual required contribution for the Town which equals the annual pension cost for the year ended June 30, 2009 was \$506,315. This contribution represents 21.4% of covered payroll. Employees were required to contribute \$214,320. This contribution represents 9% of covered payroll.

There were no current year changes in actuarial assumptions, benefit provisions, or actuarial funding method that would significantly affect the contribution requirements. Significant actuarial assumptions and other actuarial information are presented in the following required supplemental information.

(d) Fire Pension Plan

Plan Description

Fire department employees are covered under a single employer defined benefit pension plan, which is administered by a private insurer. Plan participation commences on the first day of the month following the date the employee is hired. For the year ended June 30, 2009, the plan was comprised of 81 participants: 53 active, 3 terminated vested, 5 disabled, and 20 retired participants. 27 of the 54 active participants had sufficient service to be vested at June 30, 2009.

Normal retirement benefits are paid at 2.5 percent of final average salary multiplied by service up to 20 years plus 2 percent of final average salary multiplied by service in excess of 20 years, not to exceed 75 percent of final average salary. Final average salary is defined as the average annual salary for the three (3) consecutive years producing the highest such average in the last ten (10) years preceding normal retirement date. The normal retirement date is the first day of the month coincident with or next following the earlier of the attainment of age 65 or completion of 20 years of service.

Summary of Significant Accounting Policies

The Fire Pension Trust Fund is prepared on the accrual basis of accounting. Contributions from the Town and participants are recognized as revenue in the period in which employees provide service to the Town. Investment income is recognized as earned by the pension plan. Investment in securities is valued at cost. Benefits and refunds are recognized when due and payable in accordance with the terms of the each plan. Dividend income is recorded on the ex-dividend date.

Contributions and Reserves

As a condition of participation in the plan, members of the fire department are required to make contributions each year at 7.5% of their pay. The collective bargaining agreement between the Town and the fire department personnel provides that the Town will contribute no more than 19.6% of fire department payroll to the plan. Accordingly, for the year ended June 30, 2009, the Town and plan participants contributed 19.6% and 7.5% of covered payroll, respectively. Total contributions for the year ended June 30, 2009, were \$763,222. The contributions based on an accrual basis were comprised of a Town contribution of \$550,611 and an employee contribution of \$212,611. Total covered payroll for the year ended June 30, 2008 was approximately \$2,691,863. Plan administrative cost are paid from plan assets.

The actuarial cost method used to calculate the unfunded liability was the Frozen Initial Liability Cost Method. Under this method there are two components of annual cost: (1) the Amortization of unfunded actuarial accrued liability and (2) the Normal Cost, which is computed to spread the balance of the total liability over the average future working period of current active plan participants. The unfunded actuarial accrued liability is computed when this method is first applied, using the Entry Age Normal cost method. From that point forward, it is not recalculated, but instead updated with Normal Cost, employer contributions, interest, and any changes due to plan amendments or changes in assumption.

Financial assumptions were as follows: investment return 8.5%, prior year's expenses increased by 4%, salary increases 5.5%.

12. RETIREMENT PLANS & POST EMPLOYMENT BENEFITS (Continued)

(e) Post Retirement Benefits

Plan Description

In addition to the pension benefits described above, the Town provides post employment health care benefits in accordance with Town contracts. These benefits are for continued full family or individual health care for the employee groups as described below. Retiree medical coverage is only to age 65, while dental continues post-65.

Town Hall Employees, Police and Fire

Members of this group are eligible for full coverage of medical and dental benefits if they were hired before 1996, and 85% of full coverage if hired after 1995. 20 years of service must be attained for full eligibility.

School

Members of this group are eligible for full coverage after 28 years of service with at least 15 years with the Town. 50% coverage is offered after age 60 with 20 years of service if hired before June 20, 1989. Employees hired after July 1, 1992 receive benefits limited to \$5,000 annually.

Membership

At July 1, 2009, membership consisted of:

Active Town Employees receiving benefits	151
Active School Employees receiving benefits	323
Retired, disabled, beneficiaries and survivors – Town Employees	43
Retired, disabled, beneficiaries and survivors – School Employees	<u>70</u>
Total	587

Funding Policy

The Town pays for the other post-employment benefits on a pay-as-you-go basis. The annual medical & dental benefits premium cost for fiscal year ended June 30, 2009 was \$572,187 for Town employees and \$595,135 for School employees totaling \$1,167,322.

(e) Post Retirement Benefits

Funding Status and Funding Progress

Currently, post employment benefits are paid for on a pay-as-you-go basis (an unfunded scenario). The Town's pay-as-you-go cost for fiscal 2010 is projected to be \$1,455,607. The normal cost for fiscal 2009 under the unfunded scenario with a 3.50% discount rate is \$933,583.

The Town has not yet set aside any money to pre-fund the post employment benefits. Therefore, there is a large unfunded actuarial accrued liability for benefits already earned by employees and retirees. This amount is \$26,277,276 as of July 1, 2009 under a 3.5% discount rate. This would lead to a \$1,328,139 amortization payment required for fiscal 2010 under a 30-year increasing funding schedule.

14. RISK MANAGEMENT

Health Care

The Town provides medical and dental coverage for all eligible employees of the Town and their dependents. The Town participates in a healthcare collaborative entitled The Government Health Group of Rhode Island, Inc. (The Group). The Group is a not-for-profit organization formed to provide programs of health insurance and dental insurance coverage to Rhode Island cities, towns and other governmental units, which is governed by a Board of Directors. Upon joining the Group, members execute a member agreement that outlines the rights and responsibilities of both the members and the Group. Members of the Group participate in the Group's health insurance plan administered through Blue Cross Blue Shield of Rhode Island and dental insurance plan administered through Delta Dental of Rhode Island.

Using rates calculated by both Blue Cross Blue Shield of Rhode Island and Delta Dental of Rhode Island, the Group sets annual contribution rates for the subscribers of each member for each plan offered. The Group agreement requires that those contribution rates be set at a level sufficient, in the aggregate, to satisfy the funding requirements of the Group. The contributions of each member are deposited into separate health and dental pools which are used to pay for claims, reinsurance and all administrative expenses. The Group agreement provides for an annual independent audit of its financial statements. The Group retains certain levels of insurance risk and acquires reinsurance for specific losses in excess of \$300,000.

Unemployment

The Town is self-insured for unemployment benefits. There were no incurred but not reported claims outstanding as of June 30, 2009.

14. RISK MANAGEMENT (Continued)

Other Insurance

The Town receives coverage for its property and liability expenses and for its workers' compensation expenses through the Rhode Island Interlocal Risk Management Trust. During the fiscal year ended June 30, 2009, the Town paid premiums of \$162,303, \$216,486, and \$0 for its workers' compensation coverage, property and liability coverage, and for special police liability coverage, respectively. At June 30, 2009, the trust held reserves for future payments of open cases. The trust is obligated to make payments on the Town's behalf without any further obligation of the Town, unless the Town's applicable limit of liability were exhausted by the size of the loss or the nature of the loss would fall outside the parameters of the trust policy.

At June 30, 2009, the Town is unable to estimate the potential exposure for outstanding claims, which may fall outside the parameter of the trust policy.

15. DEFERRED COMPENSATION PLAN

The Town offers its municipal employees a deferred compensation plan established in accordance with the provisions of Internal Revenue Code Section 457 (g). The Town has not reported these plans in its financial statements in accordance with GASB No. 32 since the Town does not have fiduciary responsibility for this plan. The plan, available to all municipal employees, permits the deferred of a portion of the employee's salary. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

During the year ended June 30, 1999, the Town implemented the Governmental Accounting Standards Board, Statement No. 32, "*Accounting for Internal Revenue Code Section 457 Deferred Compensation Plans.*" All assets and income of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries. As a result, deferred compensation investments and the perspective liabilities have been omitted from the Town's financial statements.

Prior to implementing GASB 32, all amounts of compensation deferred under the plans, all property and rights purchased with the amounts, and all income attributable to those amounts, property or rights were (until paid or made available to the employee or other beneficiary) solely the property and rights of the Town (without being restricted to the provisions of benefits under the Plan), subject only to the claims of the Town's general creditors. Participants' rights under the Plan were equal by those of general creditors of the Town in an amount equal to the market value of the deferred account for each participant.

16. CONTINGENT LIABILITIES AND LITIGATION

The Town has no established liability based on attorneys' estimates of pending matters and lawsuits in which the Town is involved. In addition, there are other pending matters and lawsuits in which the Town is involved. The Town estimates that the potential claims against the Town not recorded in the accompanying basic financial statements resulting from such litigation would not materially affect the basic financial statements.

The Town has received federal and state grants for specific purposes that are subject to audit by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Town officials believe such disallowances, if any, would be immaterial.

There are several lawsuits pending against the School Department. School Department officials estimate that liabilities, if any, against the Town from such litigation not covered by insurance will be immaterial.

20. RELATED PARTIES

The Town reviews its records on an annual basis to determine if any related party transactions exist that would represent a conflict of interest with parties related to its officers and department heads. No such transactions were noted in the fiscal year ended June 30, 2009.

21. SUBSEQUENT EVENTS

The Town issued a Bond Anticipation Note, maturing July 7, 2010, at an interest rate of 2.96%, to pay off the existing \$2,635,000, 4.3% Bond Anticipation Note maturing July 8, 2009.

In July 2009, the State of Rhode Island began busing the Smithfield School Departments' special needs and out-of-district students. As a result, six less buses were required as part of the bus contract with DATTCO. The School Department re-negotiated the contract in August, 2009 with a different pricing agreement and new contract end date of June 2012.

22. PRIOR PERIOD ADJUSTMENTS

The Town previously reported the Accrued Retirement Plan fund as a Fiduciary fund when in fact it is a special revenue fund only subject to Town restrictions. A reclassification from Fiduciary Net Assets to Governmental Activities Net Assets in the amount of \$845,809 will record this fund in the proper location for Financial Statement purposes.

TOWN OF SMITHFIELD, RHODE ISLAND

SINGLE AUDIT SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and Members of the Town Council
Town of Smithfield, Rhode Island

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Smithfield, Rhode Island as of and for the year fiscal ended June 30, 2009, which collectively comprise the Town of Smithfield, Rhode Island's basic financial statements and have issued our report thereon dated December 1, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Smithfield's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Smithfield's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Smithfield's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Town of Smithfield's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Town of Smithfield's financial statements that is more than inconsequential will not be prevented or detected by the Town of Smithfield's internal control.

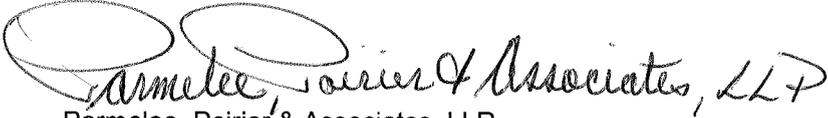

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Town of Smithfield's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matter

As part of obtaining reasonable assurance about whether Town of Smithfield's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Town Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Honorable President and Members of the Town Council
Town of Smithfield, Rhode Island

Compliance

We have audited the compliance of Town of Smithfield, Rhode Island, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The Town of Smithfield's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Town of Smithfield's management. Our responsibility is to express an opinion on the Town of Smithfield's compliance based on our audit

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Smithfield's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town of Smithfield's compliance with those requirements.

In our opinion, the Town of Smithfield, Rhode Island, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the Town of Smithfield is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Town of Smithfield's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Smithfield's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a

federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Town Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
