INDEPENDENT AUDITORS' REPORT

The Honorable President and Members of the Town Council Town of Exeter Exeter, Rhode Island

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Exeter, Rhode Island (Town) as of and for the year ended June 30, 2010, which collectively comprises the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated December 17, 2010 on our consideration of the Town's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 11 and 37 through 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

+ association, LLP

Parmelee, Poirier & Associates, December 17, 2010

Management's Discussion and Analysis For the Year Ended June 30, 2010 (Unaudited)

As the management of the Town of Exeter, we offer readers of the Town's Financial Statements this narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2010. Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the Town's financial position. These tables will reflect governmental activities for the 2009 and 2010 fiscal years.

Financial Highlights

- The assets of the Town of Exeter exceeded its liabilities at the close of the most recent fiscal year ended by \$7,072,495. Of that amount, \$1,736,908 may be used to meet the Town's ongoing obligations to citizens and creditors in accordance with the Town's fund designation and fiscal policies.
- ❖ The Town's total net assets increased by \$862,460 or 13.9% through current year activities. This increase was mainly due to favorable General Fund spending and Capital Asset additions such as infrastructure.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$1,870,943. Over 75.9% of this amount, \$1,420,943 is unreserved and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general fund's unreserved fund balance was \$636,546, or 4.8% of the total general fund budgeted expenditures for the fiscal year. The current fiscal year's general fund revenues and transfers exceeded expenditures and transfers by \$227,718 on a GAAP basis.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information.

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Assets* presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public works, public safety, health and welfare, conservation and development, parks and recreation, and planning and zoning. The Town had no business activities as of June 30, 2010.

The government wide financial statements are reported on pages 12 and 13.

Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds. For Fiscal Year 2010 the Town does not have any proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Management's Discussion and Analysis For the Year Ended June 30, 2010 (Unaudited)

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, which is considered to be a major fund. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 17 and 18.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 19 through 36.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary information is presented on pages 37 through 42.

The combining statements referred to earlier in connection with non-major governmental funds, proprietary funds and internal service funds are presented on pages 43 through 58.

Government-wide Financial Analysis

Analysis of the Town of Exeter's Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Exeter, assets exceeded liabilities by \$7,072,495 as of June 30, 2010. The largest portion of the Town 's net assets (75.4%) consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

Management's Discussion and Analysis For the Year Ended June 30, 2010 (Unaudited)

TOWN OF EXETER'S NET ASSETS

| | Governmental | | | | | |

| Unrestricted | | 1,736,908 | | 1,244,074 | | |
| Total net assets | \$ | 7,072,495 | \$ | 6,210,035 | | |

A portion of the Town's net assets, \$5,335,587, represents capital assets owned net of related debt. The remaining balances of unrestricted net assets \$1,736,908, may be used to meet the government's ongoing obligations to its citizens and creditors. As of June 30, 2010, the Town of Exeter reports positive balances in all of the categories of net assets for the government as a whole.

Analysis of the Town of Exeter's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2010. Governmental activities increased the Town's net assets by \$862,460.

TOWN OF EXETER'S CHANGES IN NET ASSETS

| Net assets - Ending | \$ | 7,072,495 | \$ | 6,210,035 | |

Financial Analysis of the Town of Exeter's Funds

Governmental Funds - The focus of the Town of Exeter's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$1,870,943. Approximately 75.9% of the total amount, or \$1,420,943 constituted unreserved fund balances. The remainder of the fund balances was reserved for future commitments.

Reserved Fund Balances:

Contingency appropriations

\$ 450,000

General Fund Budgetary Highlights

The final amended budget for the Town's General Fund was total revenues and transfers from other funds of \$13,287,042 and total expenditures and transfers to other funds of \$13,287,042. Actual total revenues of \$13,511,757, transfers from other funds of \$17,573 and total expenditures of \$12,694,025 and transfers to other funds of \$607,587 resulted in a budgetary surplus of \$227,718.

Revenues:

Intergovernmental revenues - were over budget by \$142,503. The Town receives State aid for motor vehicles, which was under budget by \$161,475 due to State budget cuts, but unanticipated FEMA Flood revenues, which were not budgeted, came in at \$287,260.

Licenses and permits – Permit revenues were over budget by \$43,309. New building and improvements in the Town of Exeter has increased permit collections.

Interest and investment income – interest was under budget by \$29,698 as a result of decreases in interest rates.

Fines and interest on late payments - were over budget by \$47,894. For the current fiscal year, there was a favorable collection rate for property taxes. Additionally, the declining economy has resulted in more Town residents paying taxes subsequent to the due date.

Other Revenue - was over budget by \$50,247 due to unclaimed property revenue from the State in the approximate amount of \$30,000, with another \$12,000 coming from CDBG loans from the General Fund paid back in the current year.

Expenses:

General Governmental expenses – were under budget by \$42,809. Town advertising expense had a favorable variance in the amount of \$23,934, mostly due to the media selection process to reduce the cost of advertising to the Town. Blue Cross/Dental expenses were under budget by \$21,211 due to a favorable claims year. Town pension contributions were over budget by \$40,192 due to the inclusion of both 2009 and 2010 contributions. The Town reserve fund yielded a built in surplus of \$50,000, as the Budget included a \$50,000 increase to the reserve fund balance.

Public Works expenses – were over budget by \$68,042. Due to the Flood mentioned in Intergovernmental revenues above, there were excess costs in the amount of \$80,564 charged to the Public Works department. It should be noted that revenues from the Flood exceeded expenditures, and the Town ended the fiscal year with more revenues than direct costs attributable to the Flood.

The Town of Exeter's Capital Assets

The Town of Exeter's investment in capital assets for its governmental activities amounts to \$6,818,596, net of accumulated depreciation at June 30, 2010. Included are land, intangible assets, infrastructure, building and improvements, motor vehicles, machinery and equipment, and office furniture and equipment (which is fully depreciated as of June 30, 2010).

TOWN OF EXETER'S CAPITAL ASSETS AT YEAR END NET OF ACCUMULATED DEPRECIATION

| | 2010 | 2009 |
|----------------------------|-------------|-------------|
| | | |
| Land | \$ 253,701 | \$ 253,701 |
| Intangible assets | 3,450,000 | 3,450,000 |
| Buildings and improvements | 1,497,024 | 1,543,986 |
| Motor vehicles | 204,105 | 140,527 |
| Machinery and equipment | 521,330 | 592,516 |
| Infrastructure | 892,436 | 612,394 |
| | \$6,818,596 | \$6,593,124 |

Additional information on the Town of Exeter's capital assets is located in Note 6 of the notes to the financial statements. The Town intends on reporting infrastructure assets as required with a full historical disclosure in subsequent reporting periods.

Management's Discussion and Analysis For the Year Ended June 30, 2010 (Unaudited)

The Town of Exeter's Debt Administration

At the end of the current fiscal year, the Town of Exeter had a total bonded debt of \$1,120,841. All bonded debt is backed by the full faith and credit of the Town.

TOWN OF EXETER'S OUTSTANDING DEBT AT YEAR END BOND'S, NOTES AND CAPITALIZED LEASES PAYABLE

| | 2010 | | | 2009 |
|----------------------------------|-------------|-----------|---------|-----------|
| D 11'. 1'1 1 1 | Φ | (42.050 | Ф | (72 477 |
| Public library bond | \$ | 643,950 | \$ | 673,477 |
| Development rights bond | | 476,891 | | 493,303 |
| Land acquisition costs | | - | | 25,000 |
| Landfill post-closure care costs | | 450,160 | | 452,180 |
| Compensated absences | | 67,331 | | 33,537 |
| Capital lease obligation | 362,168 435 | | 435,383 | |
| | \$ | 2,000,500 | \$ 2 | 2,112,880 |

The Town's general obligation bond rating as assigned by Moody's Investors Service in August 2007 is A1, and Standard and Poor's is A+ with positive outlook due to the substantial tax base increase. Several of the Town's bonds are insured and thus hold a Triple A credit rating from both Moody's and Standard & Poor's.

The State of Rhode Island imposes a limit of 3 percent of the fair value of all taxable Town property on the general obligation debt that a municipality can issue. The Town of Exeter's limit is \$23,950,572 (based on net assessed valuation at December 31, 2008 of \$798,352,402) at year-end. The Town's outstanding general obligation debt is \$1,120,841 at year-end, which is \$22,829,731 under the State imposed limitation.

Additional information on the Town of Exeter's long-term debt can be found in Note 7 of the financial statements and on pages 60 through 62.

Management's Discussion and Analysis For the Year Ended June 30, 2010 (Unaudited)

Economic Factors and Next Year's Budgets and Rates

The Town of Exeter's total general fund budget for fiscal year 2010-2011 is \$12,744,376 which is a decrease of \$542,666 under the fiscal 2009-2010 budget of \$13,287,042. Of the Town's 2010-2011 budget, \$2,441,106 or 19.2% is budgeted for the general government and \$10,303,270 or 80.8% is budgeted for education. The State of Rhode Island is budgeted to contribute \$155,389 in State aid.

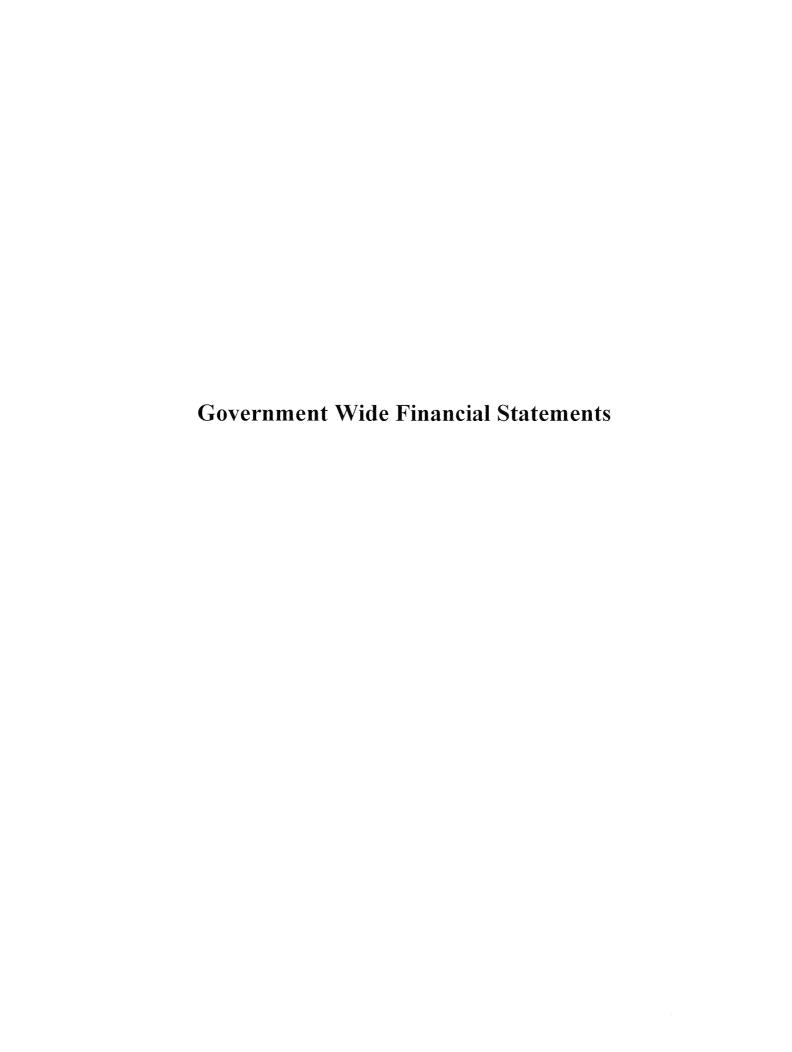

The Town's tax rate for fiscal 2010-2011 is \$13.49 per thousand, with 16.08% allocated for general government and 83.92% allocated for education. For fiscal 2009-2010 the Town's tax rate was \$14.16 per thousand with 12.02% allocated for general government and 87.98% allocated for education. The decrease in tax rates from \$14.16 to \$13.49 resulted in a \$0.67 decrease or 4.7% decrease in the tax rate.

Requests for information

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Town of Exeter, 675 Ten Rod Road, Exeter, RI 02822.

TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Exeter, Rhode Island, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The government's significant accounting policies are described below.

FINANCIAL REPORTING ENTITY

The Town was founded in 1742. The Town is governed largely by the Town Charter, which was adopted as of January 6, 1997 with amendments through November 4, 2008. In some matters, including the issuance of short and long-term debt, the Town is governed by the general laws of the State of Rhode Island. The Town operates under a Town Council form of government. The Town provides various services including a public library, public works, social services, and general administrative services.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No.14. Under GASB Statement No.14, the financial reporting entity includes both the primary government, which is the Town of Exeter and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

<u>TEST 1</u> - The primary government appoints the voting majority of the board of the potential component unit and

- * is able to impose its will on the potential component unit and/or
- * is in a relationship of financial benefit or burden with the potential component unit;
- TEST 2 The potential component unit is fiscally dependent upon the primary government; or
- <u>TEST 3</u> The financial statements would be misleading if data from the potential component unit were not included.

The accompanying financial statements present the Town's primary government and certain component units which are financially dependent on the Town. The Town's component units are as follows:

Blended component units; The Exeter Public Library is governed by a board of trustees appointed by the Town Council. The library's trustees govern the library in accordance with applicable state laws. For financial statement purposes, the Exeter Public Library is reported as if it were part of the Town's operations because its purpose is to provide library services to the citizens of the Town and is dependent upon the Town for some of its financial resources.

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF PRESENTATION

Government-wide financial statements - The statement of net assets and the statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds are reported in the statements of fiduciary net assets and changes in fiduciary net assets). The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund financial statements - Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- (b) Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

GOVERNMENTAL FUND TYPES

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund - is used to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally restricted to expenditures for specified purposes.

Capital Projects Funds - are used to account for financial resources that will be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary or Trust funds).

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GOVERNMENTAL FUND TYPES (continued)

Permanent Funds – are used to account for assets held by the Town where the principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

PROPRIETARY FUND TYPES

These funds account for operations that are organized to be self-supporting through user charges. For the year ended June 30, 2010 the Town had no proprietary funds.

FIDUCIARY FUND TYPES

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. *Fiduciary Fund types are not part of the reporting entity in the Government-wide financial statements*. These funds are as follows:

Pension Trust Fund - is established to provide pension benefits to Town employees. The principal revenue source for this fund is employer contributions.

Private Purpose Trust Funds and Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

BASIS OF ACCOUNTING

Measurement Focus – Government Wide Financial Statements

In the government wide financial statements the Statement of Net Assets and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash.

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

Measurement Focus – Fund Financial Statements

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types and Expendable Trust Funds are accounted for using a "current financial resources" measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types, Private Purpose Trust Funds and Pension Trust Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net total assets.

All governmental fund types and agency funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus – Fund Financial Statements (continued)

In applying the "susceptible to accrual" concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, monies must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded.

For the other type, revenues are virtually unrestricted as to purpose of expenditure and nearly irrevocable or revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the "available" criteria.

In accordance with Governmental Accounting Standards Board (GASB) Statement #20, the Town of Exeter has elected to apply to all Proprietary Fund Types all applicable GASB Pronouncements, as well as the following pronouncements issued on or before November 30, 1989: FASB Statements and Interpretations, APB opinions and ARB's unless these pronouncements conflict with or contradict GASB pronouncements.

CASH AND CASH EQUIVALENTS - For purposes of the Statement of Cash Flows, the Proprietary Fund Types consider all highly liquid investments with maturity of three months or less when purchased to be cash equivalents because they are available to the Proprietary Funds on demand.

INVESTMENTS – are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental and Fiduciary Fund Types, which are recorded at fair value.

RECEIVABLES - are recorded in the General, Special Revenue, and Enterprise Funds. Where appropriate an associated allowance for uncollectible accounts has been established. Property taxes, which were levied on July 1, 2008 of the current year and other delinquent balances, are recorded as receivables.

INVENTORIES – are maintained on a periodic system and are stated at cost (first in, first out method of inventory valuation). Inventories in the Governmental Fund Types are recorded as expenditures when consumed.

CAPITAL ASSETS - in Governmental Fund type, operations are accounted for using the "current financial resources" measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, curbs and gutters, streets and sidewalks, and drainage systems) are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the Town has chosen to prospectively report infrastructure assets as part of the

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

CAPITAL ASSETS (continued)

governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are charged to expenditures as incurred.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| <u>Description</u> | Estimated Lives (years) |
|--------------------------------|----------------------------|
| Buildings and improvements | 40 |
| Motor Vehicles | 5 |
| Machinery and equipment | 10 |
| Office furniture and equipment | 3-10 |

DEFERRED REVENUES - represent funds received or billed in advance of being owed, or receivables, which will be collected and included in revenues of future fiscal years.

RESERVED FUND BALANCES - Reserved fund balances represent amounts, which the Town is contractually obligated to pay but has not as of the balance sheet date received the goods or services.

FUND EQUITY - The unreserved fund balances for Governmental Fund Types represent the amount available for use in future operations. The reserved fund balances/retained earnings for Governmental Fund Types and Proprietary Fund Types represent the amount that has been legally identified for specific purposes. Unreserved retained earnings for Proprietary Fund Types represent the net assets available for future operations or distribution.

Notes to Financial Statements June 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

REVENUES, EXPENDITURES AND EXPENSES - Revenues for Governmental Fund Types are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for Governmental Fund Types are recorded when the related liability is incurred. The Town will make use of available restricted resources first when determining expendable funds. Revenues and expenses of Proprietary Fund Types are recognized using the full accrual basis of accounting. Revenue is recognized as earned and expenses as incurred. Operating revenues are defined as those revenues generated from fees and assessments, all others are deemed non-operating. It is the Town's policy when both restricted and unrestricted funds are available to reduce a liability to first use restricted resources.

PROGRAM REVENUES AND EXPENSES - In the statement of activities specific revenues are allocated to program expenses due to their direct relationships. Collections for licenses, fees, tickets and fines are among some of the revenue sources that are program revenues. Indirect expenses are not allocated to functions in the statement of activities.

PROPERTY TAXES - The Town is permitted by state law to levy property taxes. Current tax collections for the Town were approximately 97.63% of the total 2009 levy .The tax rate of the Town is established by the Town Council. The Town's fiscal 2010 property taxes were levied on July 1, 2009 on assessed valuation as of December 31, 2008. Failure to mail payments by due dates will result in a lien on taxpayer's property, and eventually to the sale of the same. A statistical revaluation of all property was completed December 31, 2008 as per State requirements.

VACATION, SICK LEAVE, AND OTHER COMPENSATED ABSENCES - Under the terms of various contracts and agreements, Town employees are granted vacation payouts in varying amounts based on length of service. For Governmental Fund Types accrued compensated absences are presented as a current liability for those amounts expected to be paid with current financial resources. In governmental funds compensated absence expenditures are only reported when matured. For those compensated absences not to be paid with current financial resources the liability is recorded in the Statement of Net Assets of the Government-Wide Financial Statements.

INTERFUND TRANSACTIONS - Inter-fund transactions except advances are accounted for as transfers. Nonrecurring or non-routine transfers of equity between funds are considered transfers.

ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

TOWN OF EXETER, RHODE ISLAND

Notes to Financial Statements June 30, 2010

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

LEGAL DEBT MARGIN - The Town's legal debt margin as set forth by State Statute is limited to three percent of total taxable assessed value that approximates \$23,950,572. As of June 30, 2010 the Town's debt is under this limit by \$22,829,731.

NOTE 3 - FUND EQUITY

Reserved Fund Balances: As of June 30, 2010 the Town has reserved \$450,000 of General Fund balance to be designated for contingency appropriations.

Deficit Fund Equity: As of June 30, 2010 deficit fund balances consisted of the following:

| Wastewater Management Grant | \$4,633 |
|-----------------------------|---------|
| Energy Efficiency Grant | \$4,615 |
| Public Works/Roads | \$6,844 |
| Computer Upgrades Fund | \$2,882 |

The Town anticipates funding these deficits through future revenue requests and budget appropriations.

NOTE 4 – CASH AND INVESTMENTS

<u>Deposits</u>: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

<u>Investments</u>: Investment of all idle funds must be made through national banks or trust companies, providing that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution can not exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

<u>Interest Rate Risk</u>: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

<u>Concentrations</u>: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

NOTE 4 – CASH AND INVESTMENTS (continued)

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2010, all of the Town's balance of \$2,370,329 was insured or collateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and investments of the Town consist of the following at June 30, 2010

Cash and Cash Equivalents

Statement of Net Assets

Deposits with financial institutions \$ 2,370,329

Investments

| Common stock | 707,810 |
|----------------------------|--------------|
| Total Investments | 707,810 |
| Total Cash and Investments | \$ 3,078,139 |

Cash and investments are classified in the accompanying financial statements as follows:

| Statement of 1vet 2133cts | |
|---------------------------|--------------|
| Cash and cash equivalents | \$ 1,768,709 |
| Fiduciary Funds | |
| Cash and cash equivalents | 601,620 |
| Investments | 707,810 |
| | |

Total Cash and Investments \$ 3,078,139

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Town did not have any debt type investments that were exposed to interest rate risk as defined by GASB 40.

<u>Credit Risk</u>: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The town did not have any debt type investments that were exposed to credit risk as defined by GASB 40.

TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements June 30, 2010

NOTE 5 - PROPERTY TAXES

The Town's property tax is levied each July 1, for its next fiscal year on the assessed valued listed as of the prior December 31, for all real property, tangible property, and motor vehicles located in the Town. Assessed values of real property and tangible personal property were established by the Town Assessor's office at 100% of appraised market value as of December 31, 2008. The Town completed a statistical revaluation of real property and tangible personal property as of December 31, 2008. The assessed values were effective for the property tax levy beginning with fiscal year 2009-2010. The assessed value of motor vehicles is determined annually at 100% of retail market value, net of State of Rhode Island credit. Taxes are due in equal quarterly installments on August 1-15, November 1-15, February 1-15, and May 1-15 during the fiscal year.

The Town entered into a contractual relationship with a law firm to act as a collection agency to pursue delinquent tangible and personal property accounts. The Town has forwarded past due accounts for collection. At June 30, 2010, a reserve of \$80,456 has been established for the property taxes considered uncollectible.

An automatic lien is placed on the taxpayer's real property if payment has not been received by the due date. Interest is charged on past due accounts at a rate of 12% per annum calculated on the unpaid portion of the total tax.

In the governmental fund financial statements unpaid property taxes at year end are recorded as property taxes receivable and those property taxes receivable which were not collected within 60 days immediately following year end are recorded as deferred revenue. Deferred revenue at June 30, 2010 consists of \$463,912 of property taxes not collected within 60 days following year end, net of allowance of \$80,456, resulting in \$383,456.

Net property taxes levied for the fiscal year 2010 were based on an assessed value of approximately \$798,352,402 at December 31, 2008 and amounted to \$11,763,351. Total property tax recognized for the current fiscal year, including \$56,019 collected within 60 days following year end, amounted to \$11,690,500, which represents 99.5% of the total 2009 tax levy. Tax abatements for the year ended June 30, 2009 totaled \$46,464.

| TOTALS | \$ 1,120,841 | \$ 276,431 | \$ 1,397,272 | | | | | | |

Amounte

Accrued Compensated Absences - Town employees receive vested rights to paid vacation and sick time at the end of their year of full-time employment with no pro rata payment if employment is terminated before the completion of a full year of service. An expenditure/expense is recognized each month as benefits are used, consistent with the standards established by GASB 16.

TOWN OF EXETER, RHODE ISLAND

Notes to Financial Statements June 30, 2010

NOTE 8 - CAPITAL LEASE

The Town entered into lease agreements as lessee for financing the acquisition of a International Plow Truck for the Public Works Department for fiscal year 2010. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments. Property and equipment includes \$730,752 of leased equipment and accumulated depreciation of \$268,182 as of June 30, 2010; vehicles include \$315,114 of leased equipment and accumulated depreciation of \$115,834.

The future minimum lease obligation and the net present value of these minimum lease payments as of June 30, 2010 are as follows:

Year ending June 30

| 2011 | \$ 172,300 |
|-----------------------------------------|-------------------|
| 2012 | 141,225 |
| 2013 | 57,941 |
| <u>2014</u> | 23,382 |
| Total minimum lease payments | 394,847 |
| Less: Amount representing interest | (32,679) |
| Present value of minimum lease payments | <u>\$ 362,168</u> |

NOTE 9 - INTERFUND RECEIVABLES AND PAYABLES

Interfund receivable and payable balances at June 30, 2010 are as follows:

| | D | ue From | Due To | | |

TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements June 30, 2010

NOTE 10 - DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

"Total fund balances" of the Towns' governmental funds \$1,870,943 differs from "net assets" of governmental activities \$7,072,495 reported in the statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

Balance Sheet/Statement of Net Assets

However, the statement of net assets includes those capital assets among the assets of the Town as a whole. Cost of capital assets \$8,805,131 \ (1,986,535) \) Because the focus of governmental funds is on short term financing, some assets will not be available to pay for current-period expenditures. Those assets (for example receivables) are offset by deferred revenues in the governmental funds and thus are not included in the fund balance. Also some expenditures in the governmental activates do not reflect current period charges. TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements June 30, 2010

NOTE 11 - DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES

The "net change in the fund balances" for governmental funds of \$480,630 differs from the "change in net assets" for governmental activities of \$862,460 reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Statement of Revenues, Expenditures, and Changes in Fund Balances/Statement of Activities

| | Total ernmental Funds | Revenues/ | | Capital- related Debt Items (2) Transactions (3) | | Debt | Statement of Activities Totals | | |
|-------------------------------------|-----------------------------|-----------|--------|--------------------------------------------------|-----------|------|--------------------------------------|----|------------|
| Revenues | | | | | | | | | |
| Property taxes | \$ 11,690,500 | \$ | 43,978 | \$ | - | \$ | - | \$ | 11,734,478 |
| Intergovernmental revenues | 1,528,627 | | - | | ~ | | - | | 1,528,627 |

| Other revenue | 321,895 | | - | | | | | | 321,895 |
| Total revenues | 13,902,607 | | 43,978 | | - | | - | | 13,946,585 |
| Expenditures | | | | | | | | | |
| Current: | | | | | | | | | |
| General government | 1,454,639 | | 33,794 | | 56,804 | | - | | 1,545,237 |
| Public works | 646,429 | | - | | 139,044 | | - | | 785,473 |
| Public safety | 2,553 | | - | | - | | - | | 2,553 |
| Social services | 311,920 | | - | | - | | - | | 311,920 |
| Public health and welfare | 13,170 | | - | | - | | - | | 13,170 |
| Education | 10,345,266 | | - | | - | | - | | 10,345,266 |
| Capital outlay | 314,637 | | - | | (314,637) | | - | | - |
| Long-term obligations: | | | | | | | | | |
| Principal | 252,857 | | - | | | | (252,857) | | - |
| Interest | 80,506 | | - | | - | | - | | 80,506 |
| Total expenditures | 13,421,977 | | 33,794 | | (118,789) | | (252,857) | | 13,084,125 |
| Net change for the year | \$ 480,630 | \$ | 10,184 | \$ | 118,789 | \$ | 252,857 | \$ | 862,460 |

(1) Reductions in deferred revenues that provide current financial resources to governmental funds are not reported as revenues in the statement of activities.

| Deferred revenue property tax | \$ 43,978 |
|-----------------------------------|--------------|
| Total deferred revenue adjustment | \$ 43,978 |

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources, while certain cash flow items that represent long-term liabilities are recognized as current revenues, however in the statement of activities which is presented on the full accrual basis of accounting, expenses and liabilities are recorded regardless of when financial resources are available.

| Accrued compensated absences | \$ 33,794 |
|------------------------------|--------------|
| Total expenditure adjustment | \$ 33,794 |

(2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

| Capital outlay | \$ 314,637 |
|----------------------|---------------|
| Depreciation expense | (195,848) |
| Difference | \$ 118,789 |

(3) Repayment of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the city as a whole, however, the principal payments reduce the liabilities in the statement of net assets an do not result in an expense in the statement of activities.

| Principal payments made | \$ 252,857 |
|-------------------------|---------------|
| | \$ 252,857 |

TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements

June 30, 2010

NOTE 12 - EXETER-WEST GREENWICH REGIONAL SCHOOL DISTRICT

The Exeter-West Greenwich Regional School District (School District), a legal entity that is separate from the Town of Exeter, was formed by the Towns of Exeter and West Greenwich through an agreement dated July 1, 1965. The School District consists of grades Kindergarten through grade 12. The junior/senior high school and all other school buildings are owned by the School District. A complete financial statement of the School District may be obtained through the Superintendent's office.

In accordance with the founding agreement, three members of the six member governing board of the School District are elected by the voters of each of the Towns of Exeter and West Greenwich. The Towns are annually assessed an apportionment of operating and capital expenses based on student enrollment. The assessment to the Town of Exeter for fiscal year 2010 was \$10,345,266.

The Town of Exeter is legally obligated to fund their share of the School District's budgets as voted. The Town of Exeter is also contingently liable for their proportional share of the School District's bonded debt approved at a joint School District meeting.

Long-term debt of the Exeter-West Greenwich Regional School District which the Town is contingently liable for their proportional share is as follows at June 30, 2010:

|--|

| General obligation bonds | \$ 2,075,000 |
|--------------------------------------|---------------------|
| Loans payable | 5,775,000 |
| Certain accrued compensated absences | 105,521 |
| Capital leases payable | 28,007 |
| Total Long-Term Debt | <u>\$ 7,983,528</u> |

NOTE 13 - LANDFILL POSTCLOSURE CARE COSTS

GASB 18, Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs, requires the recognition of closure and postclosure costs of landfills as long-term liabilities. State and federal laws and regulations require that the Town perform certain maintenance and monitoring functions for 30 years after its landfill has been closed. The estimated liability as of the 2008 Fiscal Year was \$736,290, which was reported in the Town's financial statements as a long-term debt. This revised estimate is made up of capital lease costs for a bulldozer and excavator in the amount of \$233,460, and survey, site preparation and remedial work in the amount of \$502,830. The Public Works department will complete the closure plan at reduced costs, with the capital lease addition purchasing equipment to complete the plan. For Fiscal Year 2010, capital lease payments for the above mentioned equipment totaled \$44,200, leaving a capital lease balance of \$95,623; payments for survey, site preparation and remedial work totaled \$2,020, leaving a closure cost balance of \$450,160. The total estimated postclosure cost at June 30, 2010 is \$545,783.

TOWN OF EXETER, RHODE ISLAND

Notes to Financial Statements June 30, 2010

NOTE 14 - COMMITMENTS AND CONTINGENCIES

At June 30, 2010, the Town had several lawsuits pending and had been placed on written notice of potential claims. The Town intends to vigorously pursue its claims and/or defend its position with respect to each matter. In the opinion of the Town's legal counsel, the Town's liability with respect to these cases, if any, was not determinable. It is the opinion of Town management, based in part on the advice of legal counsel, that settlement on the above lawsuits will not materially affect the Town's financial position.

NOTE 15 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town maintains insurance covering each of those risks of loss.

The Town is insured under a statewide municipal risk management pool. Rhode Island Inter-Local Risk Management Trust, Inc. (the Trust) requires annual premiums based on the pool's experience. The Trust offers to Rhode Island Cities and Towns general liability and workers compensation insurance which is self-sustaining through member premiums and is reinsured through commercial companies to reduce its exposure to large losses. The agreement with the Trust states that for premiums paid by members, the Trust will assume financial responsibility for members losses up to the maximum amount of insurance purchased, less deductible amounts. If a single loss is above the Trust's retention and reinsurance coverage the excess liability reverts to the member organization against which the claim was originally made.

Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 16 - PENSION PLAN

Plan Description and Funding: The Town maintains a defined contribution plan, the Town of Exeter Money Purchase Pension Plan, for retirement benefits for all eligible full-time employees. The plan was established by the Town Council effective January 1, 1985. The plan provides for employer only contributions with benefits beginning at normal retirement age. Contributions were at the rate of 5% of total compensation. Eligibility requirements call for employees to be 21 years of age and have completed 1 year (12 month period and 1,000 hours) of service. Contributions made by the Town on behalf of eligible employees vest in accordance with a vesting schedule documented within the retirement plan. Fiscal Year 2010 contributions relating to the 2009 year amounted to \$30,596, which is made up of an initial contribution of \$29,350 and a catch-up contribution of \$1,246, while contributions relating to the 2010 year amounted to \$33,836. Changes to the accrual period resulted in both years contributions being included for Fiscal Year 2010. For the Fiscal Year 2010, distributions to retired/terminated employees totaled \$17,510. Interest earned on the Plan amounted to \$815.

TOWN OF EXETER, RHODE ISLAND Notes to Financial Statements

June 30, 2010

NOTE 17 - RELATED PARTIES

The Town of Exeter reviews its records on an annual basis to determine if any related party transactions exist that would represent a conflict of interest with parties related to its officers and department heads. No such transactions were noted in the fiscal year ended June 30, 2010.

NOTE 18 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 17, 2010, the date the financial statements were available to be issued. As a result of this review no material subsequent events were noted.

NOTE 19 – PRIOR PERIOD ADJUSTMENT

For the Fiscal Year ended June 30, 2010, the Emily J Anthony agency funds assets held in trust has been decreased by \$74,748. This decrease was due to the fact that the Town has been determined not to be the fiscal agent. The funds are held in the Bank of America's name and they are the fiscal agent.

REQUIRED SUPPLEMENTARY INFORMATION

The information provided herein contains schedules which the Town deems necessary to provide additional disclosures.

TOWN OF EXETER, RHODE ISLAND Note to Budgetary Comparison - General Fund June 30, 2010

Budgetary Basis of Accounting: The General Fund annual operating budget is in conformity with the legally enacted budgetary basis, which differs from accounting principles generally accepted in the United States (U.S. GAAP) in several regards. Budgets are adopted on the modified accrual basis of accounting, except that budgetary revenues include subsidies from fund balance previously recognized under U.S. GAAP and budgetary expenditures when legally binding orders (encumbrances) are placed.

Budgetary adoption: It is the responsibility of the Town Council to advise a proposed budget for the town for the following fiscal year no later than 10 days prior to the Financial Town Meeting held to adopt said budget. Public hearings are conducted on the recommended budget and the final recommended budget is legally enacted through an ordinance at the Financial Town Meeting. All budget appropriations except an appropriation for capital expenditures, lapse at the end of the fiscal year. An appropriation for a capital expenditure shall continue in force until the purpose for which it was made has been accomplished or abandoned; an appropriation is considered abandoned if two fiscal years following the date of appropriation pass without any disbursement from or encumbrance of the appropriation.

Budget control: The level of budgetary control for the General Fund (that is, the level at which expenditures cannot legally exceed appropriations) is fixed by resolution of the Annual Financial Town Meeting. The resolution authorizes the Town Council to spend within the total sum appropriated for municipal purposes. While this restrictions prohibits spending in excess of the authorized budget, the policy enables the Town Council to use the Fund Balance within the overall appropriations budget to offset over expenditures that may arise within a specific budget account.

AUDITOR'S REPORTS AS REQUIRED BY GOVERNMENTAL AUDITING STANDARDS

Parmelee Poirier & Associates, LLP

Certified Public Accountants

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and Members of the Town Council Town of Exeter Exeter, Rhode Island

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Exeter, Rhode Island (Town) as of and for the year fiscal ended June 30, 2010, and have issued our report thereon dated December 17, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matter

As part of obtaining reasonable assurance about whether Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain other matters that we reported to management of the Town in a separate letter dated December 17, 2010.

This report is intended solely for the information and use of management, the Town Council, others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
