#### **CITY OF WARWICK**

FINANCE DEPARTMENT 3275 POST ROAD WARWICK, RHODE ISLAND 02886 (401) 738-2000

March 22, 2011

To the Honorable Mayor, President and Members of the Warwick City Council, and Citizens of the City of Warwick:

We hereby submit the Comprehensive Annual Financial Report for the City of Warwick, for the fiscal year ended June 30, 2010. The report has been prepared in accordance with generally accepted accounting principles (GAAP), adhering to the format promulgated through the Governmental Accounting Board's Statement 34. Responsibility for the accuracy of the data presented, as well the fairness of the representations contained within the report, rests with the City's management. To provide a reasonable basis for making these representations, the City of Warwick has established a comprehensive internal control framework that is designed to protect the government's assets from theft, loss or misuse, and to promote the compilation of reliable financial information for reporting and forecasting purposes. Since the cost of the internal control system should not outweigh its benefits, the City's internal control system has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge, and in all material respects, this report is fair, complete, and summarizes the City's financial position in a comprehensive manner.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical, and Single Audit. The Introductory Section contains this letter of transmittal, an organizational chart, and a listing of City Officials. The Financial Section contains the independent auditor's report, the management discussion and analysis (which should be read in conjunction with this transmittal letter to provide the reader with a greater understanding of the City's net assets and fund activity), the new city-wide financial statements, the basic financial statements of major and non-major funds, notes to the financial statements, and other supplementary information. The Statistical Section provides selected financial and demographic information presented on a multi-year basis.

In conformity with the Single Audit Act of 1996 and the United States Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations", the City is required to submit to an annual audit of all federal grant awards. The Single Audit represents the final section of our report and contains the schedule of expenditures of federal grant awards.

#### **GOVERNMENT PROFILE**

The City of Warwick was established in 1642 and incorporated in 1931. The City has the second largest population in the State of Rhode Island and has total land area of approximately 35 square miles with another 14 square miles of inland water. Located 10 miles south of Providence, in Kent County, the City is centrally located within the State and connected to the northeast corridor by a network of interstate highways, including Interstate 95 and Interstate 295.

The City operates under a legislative charter providing for a nine-member council elected for two-year terms. All legislative powers of the City are vested in the City Council. Members of the Council are elected from each of the City's nine wards. In addition, a Mayor is elected for a two-year term and is the chief executive officer of the City. The Mayor is responsible for the administration and management of all offices, departments, and agencies except as otherwise provided by the City Charter. Duties of the Mayor include appointment of officers and employees of the City, preparation and presentation of the annual budget to the City Council, and the performance of other duties as required by ordinance or resolution. The Mayor has veto power over ordinances passed by the City Council, and may be overridden by a two-thirds vote of the City Council.

#### **PUBLIC EDUCATION**

A five-member School Committee directs the general administration of the City's school system. Three members are elected from designated school districts and two are elected at-large. The School Committee directs and controls all policies affecting the administration, construction, maintenance and operation of the public schools. The School Committee also appoints a superintendent of schools as its chief administrative agent and such other administrative officers as are considered necessary.

The City Charter provides that, based on budget estimates submitted by the School committee, the City Council establishes the School Department's appropriation in total only, and that the School Committee determines the allocation of the amounts appropriated.

The City's school system consists of 17 elementary schools, 3 junior high schools, 3 senior high schools and a career technical center. Most of these schools have been constructed in the last 40 years and the City does not anticipate the need for additional construction of school facilities in the near future, although renovations and additions to existing facilities are ongoing.

There is presently a professional staff of 1,546 in the school system, 1,038 of who are teachers. In the graduating class of 2010 approximately 89% of all high school graduates continued their education by attending two and four year colleges, technical institutes, or other forms of post secondary education.

The following is a summary of the actual school population trends in the City:

Schedule o	<u>f Enrollment</u>
2000	12,375
2001	12,382
2002	12,205
2003	12,078

2004	12,003
2005	11,709
2006	11,385
2007	10,944
2008	10,818
2009	10,525
2010	10,507

During fiscal 2010, the City appropriated \$165,109,068 to the School Department. Final expenditures totaled \$155,460,041 – part of this reduction was due to a corresponding decline in State Aid. Their fiscal 2011 expense appropriation is \$151,194,344. The total fiscal 2011 State Aid for school operations has been budgeted at \$31,032,244.

#### **MUNICIPAL SERVICES**

In addition to its schools, the City provides major public services, certain of which are described below:

#### Executive and Administration

The Mayor with the assistance of the Finance, Personnel and Legal Departments exercises general oversight of the City. The City Clerk's Office is responsible for all record maintenance and supervision of the municipal and probate courts. During fiscal 2010, the Executive and Administrative Divisions expended \$15.3 million, of which \$9.2 million represented debt service. The fiscal 2011 budget has been set at \$13.4 million.

#### Public Safety

A three member Board of Public Safety appointed by the Mayor, oversees the City's Police Department, Fire and Rescue Services Departments and serves as license commissioners for the City.

*Police:* The City Police Department has 240 authorized positions consisting of 163 sworn officers, 23 school crossing guards and 54 civilian personnel. The police station, built in 1975, provides facilities for public safety issues. During fiscal 2010, the Police Department expended \$15.4 million. For fiscal 2011, \$15.3 million has been designated for operations.

Fire and Rescue: The City Fire Department and Rescue Service has 220 authorized positions consisting of 209 uniformed fire and rescue personnel and 11 civilian personnel, staffing eight stations throughout the City. In addition, the East Greenwich Fire District provides service to the southeastern section of the City. Fire and Rescue expended \$19.6 million during fiscal 2010 and \$18.5 million was budgeted for fiscal 2011.

Animal Shelter: The Animal Shelter consists of 4 employees and is responsible for administering care to the animal population. The fiscal 2010 expenditures totaled \$171,775 with \$190,111 budgeted for fiscal 2011.

*Building Inspector:* The City Building Inspection Department consists of 16 authorized positions responsible for insuring compliance with local and state building code ordinances and laws. The fiscal 2010 expenditures totaled \$794,991; \$759,413 was budgeted for fiscal 2011.

#### Social Services

Parks and Recreation: A staff of 16 maintains two indoor skating rinks, an indoor swimming pool with an adjacent therapeutic pool, 7 beaches, 60 athletic fields, 32 basketball courts, 39 tennis courts and 6 parks. They are assisted by the Public Works Field Maintenance Division. The Department is also responsible for regulating the City's three major harbors in Narragansett Bay. During fiscal 2010 the Department expended \$1.6 million. The fiscal 2011 budget has allotted \$1.7 million for recreation.

Warwick Public Library: The City library consists of a main library and three branches. The main facility contains over 225,000 items and provides research services to the City's residents and business community. Total library related expenditures for fiscal 2010 totaled \$2.4 million. These funds supported the acquisition of books and materials as well as an authorized staff of 50. The central library facility serves over 400,000 visitors a year. The fiscal 2011 budget amounts to \$2.4 million.

*Human Services:* This Department provides social and transportation services to the City's seniors at three neighborhood senior centers. It also provides contributive and in-kind support to non-profit organizations in the City. Fiscal 2010 expenditures totaled \$1.8 million, and the fiscal 2011 budget has been set at \$1.5 million.

#### Physical Resources

Planning and Community Development: A staff of 14 provides professional guidance on the physical and social development of the City and administers the Federal Community Development Block Grant Program and the Lead Hazard Reduction Program. Fiscal 2010 expenditures for these programs totaled \$893,071, with \$819,925 allocated for fiscal 2011.

*Tourism, Culture, and Development:* This Department, working closely with the Mayor's Office, assists the private sector in finding suitable facilities in the City. Also, the Department promotes the City and its lodging facilities through general circulation and trade advertising. Fiscal 2010 expenditures totaled \$469,506 and \$569,728 has been set aside for fiscal 2011 operations.

Public Works: An authorized staff of 131 maintains the City's 480 miles of roads, monitors the disposal operations of 30,000 tons of trash per year, maintains the City's fleet of vehicles, maintains approximately 40 buildings, and designs new infrastructure projects. During fiscal 2010 the Department expended \$11.3 million and has been allocated \$11.7 million through the fiscal 2011 budget.

Sewer and Water: These departments operate as enterprise funds, collecting revenue which is sufficient to support their operations. They are responsible for overseeing the City's water and wastewater treatment facilities.

#### **ECONOMIC CONDITIONS AND OUTLOOK**

#### **POPULATION**

The table below shows the City's population trends:

<u>Year</u>	<u>City</u>
2009	84,760
2005	87,365
2003	87,039
2000	85,808
1990	85,427
1980	87,123
1970	83,694
1960	68,504
1950	43,028
1940	28,757
1930	23,196
1920	13,481

#### INCOME LEVELS

According to the US Census Bureau, 2005-2009 American Community Survey, the median family income of the City of Warwick was \$75,029. Median family income in the City increased 33.4% from 1999.

#### HOUSING

According to the US Census Bureau, 2005-2009 American Community Survey, there were 37,465 dwelling units in the City compared to 37,085 dwelling units in 2000.

#### ECONOMIC DEVELOPMENT

*General:* The Warwick Department of Tourism, Culture and Development is engaged in an on-going effort to promote and assist new, existing and expanding businesses. In this capacity, the Department serves as a liaison between City government and the private sector in the location of available land and facilities, and in the determination of available financing.

State Airport: Warwick's premier asset is also its greatest business convenience. Located directly in the heart of the City is T.F. Green Airport, the state's major commercial airport. The Rhode Island Airport Corporation opened a new \$200 million, two-level terminal in September of 1996 augmented with a landscape beautification program on the airport grounds and along its entrance on Post Road. Featuring separate arrival and departure access along with 19 gates and in improved baggage claim area, T.F. Green Airport has already attracted expanded service and increased passenger volume.

#### **MAJOR INITIATIVES**

The City of Warwick maintains a bond rating of A1, as determined by Moody's Investors Service and AA-from Standard & Poor's. These ratings are the result of firm and steady financial planning. They reflect Warwick's strong tax base, consistent financial performance, and manageable levels of bonded debt.

Annually, the City develops a Capital Improvement Plan. This plan serves as a blueprint for capital projects to be undertaken over a five-year period.

#### Open Space/Recreation:

The City remains especially committed to preserving recreational and open space areas. The City has purchased 40.9 acres at the site of the former Rocky Point Amusement Park in the Warwick Neck area. The planning process continues this year as the City moves towards creating a public park on the coastal property. The City is also exploring options to acquire additional acreage at the site so that the scope of the project might be expanded. Additionally, the City has completed construction of a handicapped-accessible fishing pier on historic Gorton's Pond. To fund the project, the City has received a \$150,000 grant from the RI Department of Environmental Management and a private grant in the amount of \$190,000 from the Ross Elkhay Foundation. A small amount of hotel tax money will fund the remainder of the project.

#### T.F. Green Airport and Intermodal Facility:

The City continues to receive additional revenue from airport-related activities. Taxes on airport parking and rental cars generated approximately \$2.24 million in revenue during fiscal 2010. The City also received airport-related funding from the Economic Development Commission. This revenue totaled \$776,029. The state's meal tax also generated approximately \$2.15 million for the City.

This year, construction of the Warwick Intermodal Train Station, known as the Interlink, was completed. Construction costs of \$267 million were funded through a combination of federal and state money. The facility will give Warwick the closest air-rail link in the country and will provide MBTA commuter train service among Warwick, Providence and Boston, with service to Wickford Junction as well. It includes a bus hub, a six-level parking garage for rail commuters and car-rental companies, and a 1200-foot, enclosed, elevated walkway with moving sidewalks over Post Road, that connects T.F. Green Airport to the Station.

It is expected that the Intermodal Train Station will serve as a catalyst for economic development within the Warwick Station Redevelopment District.

#### Public Health:

During fiscal 2010, the City continued to participate in the ER Card program. The program, originally funded through a \$75,000 grant from the Rhode Island Foundation, allows city employees and their immediate family members to enroll in an electronic personal health record and healthcare management system at no cost. Following the success of the pilot program, the program was extended for an additional year.

This innovative program provides doctors, first responders, and other health care providers with around-the-clock access to life saving patient medical information, such as allergies, current medications, previous medical procedures, diseases or chronic conditions, and emergency contact numbers. Additionally the program assists patients in medication management, and will advise them of any unforeseen drug interactions. Its reporting features also allow for timely notification in the event of a drug recall.

The program encourages employees to take proactive steps to ensure good health while also assisting the City in reducing medical expenses.

#### Apponaug Bypass:

The initial phases of the estimated \$30 million Apponaug Bypass have been completed. This innovative transportation project, which includes reconstructing the Apponaug circulator and opening it to two-way traffic, will greatly enhance ongoing efforts to make the area more pedestrian friendly and allow easier access to local businesses.

The project, which is under the jurisdiction of the Rhode Island Department of Transportation (RIDOT), is presently at 75 percent design stage. Planned advertising is for the winter of 2011 and the start of construction is scheduled for the spring of 2012. Project completion is slated for 2014.

#### Public Works:

Warwick continues to lead the state in recycling. The City's automated trash and recycling system has resulted in less waste being sent to the state landfill. The first full fiscal year of City-wide automation was 2007. In that year alone, sanitation tonnage was reduced by 1093 tons - a savings of almost \$70,000 compared to the previous year. During fiscal 2010 our tonnage continued to decline, so the City realized additional budgetary savings.

The City, in cooperation with a group of students from Westerly, Rhode Island, has also implemented a TGIF – Turn Grease Into Fuel – waste cooking oil collection program. Local residents and businesses are encouraged to bring used oil to collection sites throughout the City. Grease that is collected is converted into biodiesel fuel credits for needy families. It's estimated that residential and commercial participation in this program could generate up to 200,000 gallons of biodiesel per year. Credits will be distributed through the City's Department of Human Services, in collaboration with WestBay Community Action.

This program has the added benefit of reducing the amount of FOG – Fats, Oils and Grease – being poured down the drain, where it can damage private septic systems or the city's municipal sewer system.

#### **FINANCIAL INFORMATION**

The City's Comprehensive Annual Financial Report provides detailed information on the City's current financial position. Our Management Discussion and Analysis will provide additional analysis.

#### **BUDGETARY CONTROL**

At least forty five days prior to the start of the fiscal year, the Mayor submits a budget to the City Council for consideration. Before the budget is adopted, a public hearing is held and taxpayers are given the opportunity to comment on the budget. After the hearing, the Council reviews the budget. They have the authority to increase or decrease budget line items. The budget is adopted on an affirmative vote of the majority of the City Council – this vote must occur at least 15 days prior to the start of each fiscal year. If the City Council has not adopted the budget by this date, the Charter stipulates that the Mayor's budget is deemed to have been adopted by the Council.

The operating budget is tracked via a budgetary control system. The system tracks expenditures and encumbrances, and compares them to budget. The report also calculates the amount of appropriation remaining. The Finance Department monitors spending and issues reports to departments to assist them in budget management.

#### **CASH MANAGEMENT**

Cash requirements are strictly monitored, and excess cash is invested in appropriate short term instruments. These investments are intended to maximize investment earnings, while maintaining an appropriate level of liquidity. The pension funds are invested in longer term investments- both bonds and equities- and are managed by consultants, hired to maximize the rates of return. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not represent trends which can be anticipated or recognized as permanent additions to the funds. They are completely dependent on economic conditions, and may never be realized, especially for investments held for the long term.

#### RISK MANAGEMENT

The City is a member of the RI Interlocal Risk Management Trust. This organization was established as a joint venture to provide insurance coverage to local municipalities. The City of Warwick maintains insurance coverage for property, general liability, professional liability, and auto liability. The City self insures for workers compensation. Claim Strategies administers this program.

#### **DEBT ADMINISTRATION**

The ratios of net bonded debt to total assessed (property) valuation and net bonded debt per capita provide useful information when evaluating the City's financial position. These indicators were as follows on June 30, 2010:

Net Direct Bonded DebtRatio of Debt to Assessed ValueDebt Per Capita\$ 54,464,507..45%\$ 642.57

(Please See Statistical Tables For Additional Information)

#### INDEPENDENT AUDIT

Per the Warwick City Charter, and the General Laws of the State of Rhode Island, an independent audit of the City's financial statements and operations has been completed by the firm of Parmelee, Poirier, and Associates, LLC. Their opinion is included within this document.

#### **ACKNOWLEDGEMENT**

The preparation of this Comprehensive Annual Financial Report would not have been possible without the efficient and dedicated efforts of the staff of the Treasury and Finance Divisions. Their competent efforts are greatly appreciated. Special thanks to Mayor Scott Avedisian, Council President Bruce Place, and the members of the City Council for their support in maintaining the highest standards of professionalism in the management of the City of Warwick's finances.

#### INDEPENDENT AUDITORS' REPORT

The Honorable President and Members of the City Council City of Warwick Warwick, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the City of Warwick, Rhode Island (City) as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of the City as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated March 22, 2011 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

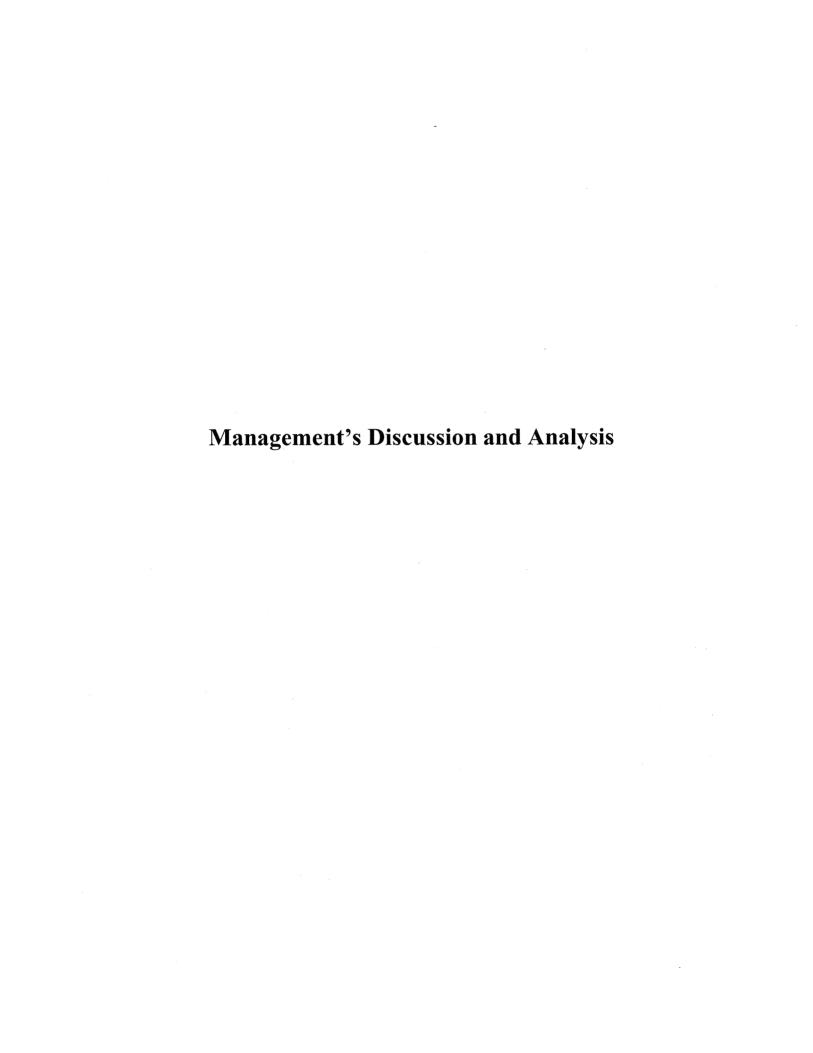

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 16 and 79 through 82 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an

appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133. Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Parmelee, Poirier & Associates, LLP

March 22, 2011

## CITY OF WARWICK, RHODE ISLAND MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)

As management of the City of Warwick, we offer readers of the City of Warwick's financial statements this overview and analysis of the financial activities of the City of Warwick for the fiscal year ended June 30, 2010. We encourage readers to consider this information in conjunction with the additional information that is furnished in the letter of transmittal, which can be found preceding this narrative, and with the City's financial statements which follow.

Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the City's financial position. These tables will reflect governmental activities, business-type activities, and total activities for the 2009 and 2010 fiscal years.

#### FINANCIAL HIGHLIGHTS

The assets of the City of Warwick exceeded its liabilities at the close of the fiscal year by \$79,249,084 (net assets).

The City's total net assets decreased by \$11,696,383 during fiscal 2010, due primarily to an increase in the City's liabilities following the accrual of \$13.7 million in post-retirement healthcare benefits in accordance with GASB45. This liability represents the annual required contribution necessary to fund the total post-retirement liability over a thirty year period. Likewise, in accordance with GASB27, the City also accrued an additional \$6.4.million net pension obligation which relates to the Police I and Fire funding plan mechanism used by the City. These increases were offset by an overall operating surplus in all governmental funds of \$9.3 million.

At the close of the current fiscal year, the City's governmental funds reported *combined* ending fund balances of \$21,265,721, an increase of \$9,337,275 from those of the prior year. This was primarily due to an overall operating surplus, combined with a decrease in reserves following the repayment of the School's cumulative deficit of \$1.8 million.

Fiscal 2010 operating results for the general fund reflected an increase in total fund balance of \$5,666,317, resulting in an ending fund balance of 14,808,460. The fund's ending unreserved undesignated fund balance also increased by \$945,842 to a total of \$6,862,565 or 2.4% of the total 2010 final budgeted expenditures.

The City's overall investment in capital assets (net of accumulated depreciation) decreased by \$4.5 million during this year. Annual depreciation expenditures exceeded additions. Key additions this year included new police and recycling vehicles, a new rescue vehicle, and sewer infrastructure construction projects.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City of Warwick's basic financial statements. The City's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the financial

statements. This report also contains other supplementary information including combining statements for non-major governmental funds, enterprise funds, and other fiduciary funds. Figure 1 below graphically depicts the required elements of the financial report:

# Required Components of the Annual Financial Report Figure A-1

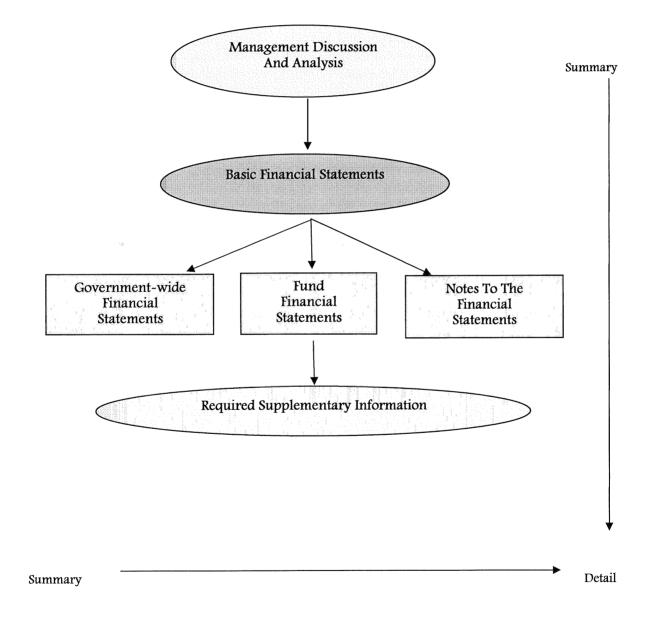

Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

- > The first two statements within the basic financial statement structure are government-wide financial statements that provide both long-term and short-term information about the City's overall status.
- > The remaining statements are fund financial statements that focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements.
  - The *governmental fund* statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.
  - o *Proprietary fund* statements offer short and long term financial information about the activities the government operates like businesses, such as the sewer and water systems.
  - o *Fiduciary fund* statements provide information about assets that are held by the City as a trustee or agent for the benefit of someone or something other than the City itself. The City cannot use these assets to support its own programs.
- > The financial statements also include notes that provide more detailed data about some of the information in the financial statements.
- > The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.
- In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental funds, enterprise funds, and fiduciary funds, which are added together and presented in a single column in the basic financial statements.

Figure A- 2

Major Features of the City of Warwick's Government-Wide and Fund Financial Statements

		Fund Statements			
	Government- Wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds	
Scope	Entire City government (except fiduciary funds)	The activities of the City that are not proprietary or fiduciary, such as police, fire and DPW.	Activities the City operate similar to private businesses such as the sewer system.	Instances in which the City is the trustee or agent for someone else's resources.	
Required financial Statements	Statement of Net Assets Statement of Activities	Balance Sheet Statement of Revenues, Expenditures and Changes in Fund Balance	Statement of Net Assets Statement of Revenues, Expenses, and Changes in Net Assets. Statement of Cash Flows	Statement of Fiduciary Net Assets Statement of Changes in Fiduciary Net Assets	
	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus	
Type of Assets/ Liability Information	All assets and liabilities both financial and capi- tal, and short-term and long-term	Only assets expected to be used up and liabili- ties that come due dur- ing the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capi- tal, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can	
Type of inflow/ Outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and ded- uctions during year, regardless of when cash is received or paid	

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

#### **Government-wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's *net assets* and how they have changed. Net assets – the difference between the City's assets and liabilities – is one way to measure the City's financial health, or position.

- Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as changes in the City's property tax base and the condition of the City's roads.

The government-wide financial statements of the City are divided into three categories.

- Governmental activities Most of the City's basic services are included here, such as education, public safety, library, recreation, social services, public works and general administration. Property taxes, charges for services and state funding finance most of these activities.
- Business-Type activities The City charges fees to customers to cover the costs of certain services it provides. The City's water and sewer systems are included here.
- Component units The City does not have any entities that are deemed to be component units.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's most significant funds – not the City as a whole. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental Funds – Most of the basic services provided by the City are reported in governmental funds, which focus on (1) how money flows into and out of those funds and (2) the balances remaining at year end that are available for spending during the next year. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash

and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations that helps the reader to determine whether or not there are more or fewer financial resources that can be spent in the near future to finance City programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. To facilitate this comparison, a reconciliation between the governmental funds statements and the government-wide statements has been provided.

The City maintains eighty four governmental funds and two are considered major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The two major governmental funds are the General Fund and the School Unrestricted Fund.

The basic governmental fund financial statements can be found on pages 19-21 of this report.

**Proprietary Funds** — The City of Warwick maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its sewer and water operations. Internal Service Funds are used to accumulate and allocate costs internally among functions. The City uses an internal service fund to account for the workers compensation self insurance fund. Because this operation benefits predominantly governmental rather than business activities, the internal service fund has been included within the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 22-24 of this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 25-26 of this report.

**Notes to the financial statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

**Other information** – In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, as well as information concerning the City's progress in funding its obligation to provide pension benefits to employees. Required supplementary information follows the notes to the financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### **Net Assets**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The City's combined net assets (government and business-type activities) totaled \$79,249,084 at the close of the most recent fiscal year.

The largest portion of the City's net assets reflects its investment in capital assets such as land, building, equipment, and infrastructure, less any related outstanding debt. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### City of Warwick's Net Assets June 30, 2010

	Government	mental Activities Business-type Activities			Totals		
	2010	2009	2010	2009	2010	2009	
Current Assets	\$51,380,760	\$46,611,369	\$23,310,482	\$26,054,856	\$74,691,242	\$72,666,225

Long-term Liabilities	139,686,354	121,288,384	166,879,885	177,240,842	306,566,239	298,529,226	
Total Liabilities: Net Assets: Invested in capital assets net of	\$169,646,338	\$154,042,863	\$181,618,729	\$190,386,688	\$351,265,067	\$344,429,551	
related debt	\$64,258,323	\$64,184,519	\$67,391,392	\$63,148,905	\$131,649,715	\$127,333,424	
Restricted	1,433,298	1,947,766	3,094,095	3,010,672	4,527,393	4,958,438	
Unrestricted	(62,378,508)	(45,907,021)	5,450,484	4,542,008	(56,928,024)	(41,365,013)	
Total Net Assets	\$3,313,113	\$20,225,264	\$75,935,971	\$70,701,585	\$79,249,084	\$90,926,849	

An additional portion of the City's net assets represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets may be used to meet the City's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net assets. At the end of the current fiscal year, the City's unrestricted net asset total was negative, due to the cumulative accrual of the other post-employment benefit liability per GASB45 and the accrual of a net pension obligation per GASB27.

### **Changes in Net Assets**

During fiscal 2010, the government's total net assets decreased by \$11,696,383, as indicated below:

City of Warwick's Changes in Net Assets

	Government	Governmental Activities		<b>Business-type Activities</b>		Totals

**Governmental activities**. Governmental activities decreased the City's net assets by \$16,912,151. Key elements of this decrease are as follows:

- 1. Total Governmental Funds reported a combined increase in fund balance of \$9.3 million.
- 2. The City's net assets decreased by \$13.7 million following the accrual of the fiscal 2010 annual required contribution relating to GASB45-Other Post Employment Benefits.
- 3. The City accrued an additional net pension obligation in the amount of \$6.4 million in accordance with GASB27. The City is funding the Police I and Fire Pension liability over a 40 year period, while GASB27 states that 30 years should be the maximum funding period.
- 4. Capital asset additions totaled \$2.6 million while fiscal 2010 depreciation expense amounted to \$9.0 million. This resulted in a net asset decrease of \$6.4 million.
- 5. Net assets decreased due to the \$512,356 increase in the City's compensated absence liability

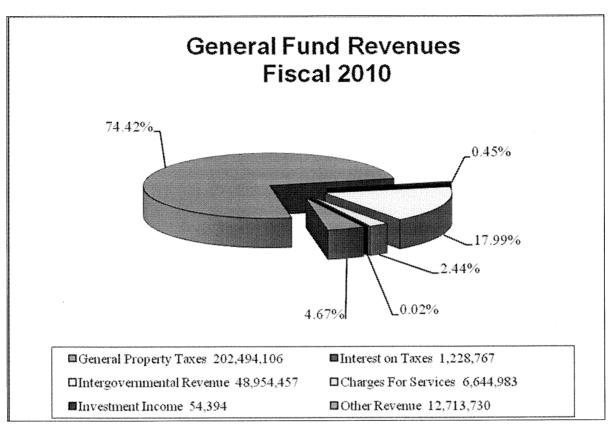

**Business-type activities**. Business-type activities increased the City's net assets by \$5,215,768. The key elements for this increase are as follows:

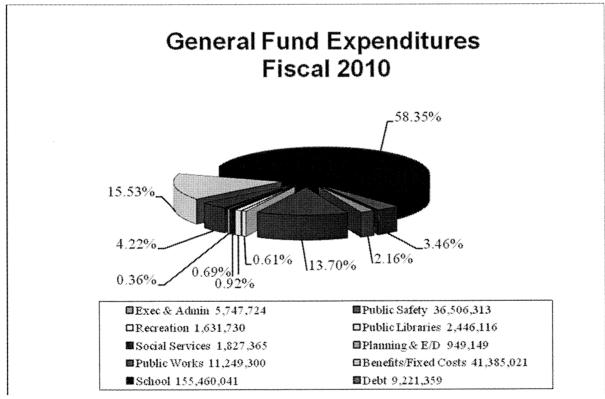

- 1. The Sewer Department had an operating surplus which totaled \$4.2 million. This includes a non-cash depreciation expense totaling \$5.3 million, but does not include the debt principal expense of \$8.9 million which was charged directly to the bonds payable liability account.
- 2. The Water Department reflected an operating deficit of \$1.6 million. Operating expenses exceeded revenues, indicating the need for a rate increase.
- 3. The Enterprise Emergency Fund increased net assets by \$2.6 million. Reconstruction of sewer treatment plant was in process on June 30<sup>th</sup> so all capital assets have been held as construction in progress. When the reconstruction is complete, all capital assets will be transferred to the sewer operating fund and this fund will net to zero. Funding for the project will come from insurance proceeds, FEMA reimbursement, and the City.

#### Financial Analysis of the Government's Funds

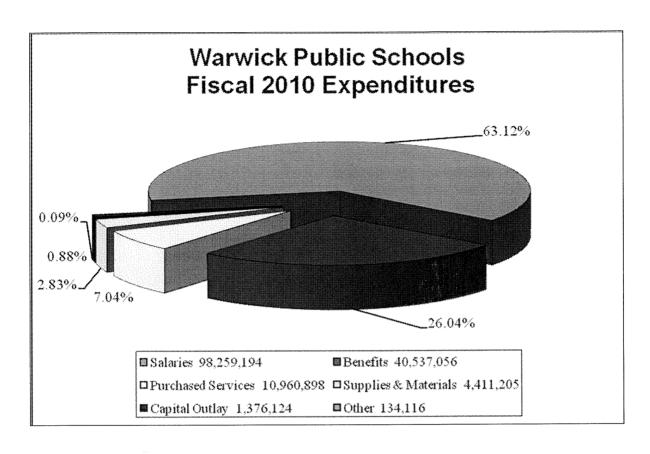

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

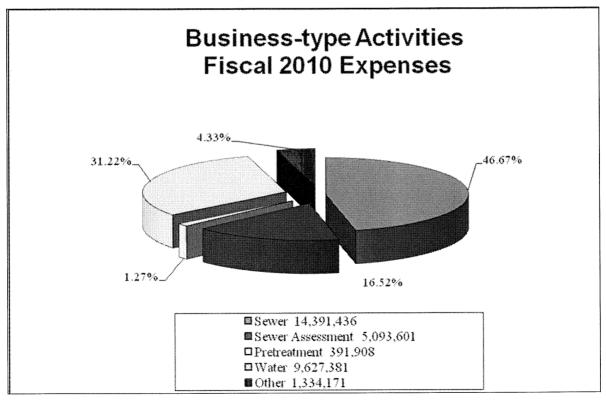

Governmental funds: The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$21,265,721, an increase of \$9,337,275 in comparison with the prior year. This can primarily be attributed to the General Fund operating surplus of \$5.6 million. Also the repayment of the \$1.8 million cumulative School deficit allowed the City to reduce the corresponding reserve account. \$14,548,508 or 68.4% of this the total fund balance represents unreserved fund balance, which is available for spending at the government's discretion. The unreserved portion of the fund balance has increased by \$7,594,771 from that of the prior year. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed.

Note: Transfers to and from other funds have been integrated into their respective categories.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$9,562,565. Total fund balance was \$14,808,460. As a measure of the general fund liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 3.4% of total general fund budgeted expenditures. During fiscal 2010, the unreserved fund balance of the City's general fund increased by \$3,645,842. This is a 62% increase from the prior year unreserved fund balance.

**Proprietary Funds:** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net assets for the Sewer Department amounted to \$51,608,377. The funds invested in capital assets totals \$54,081,305, restricted funds total \$3,094,095, and unrestricted net assets total (\$5,567,023). This negative unrestricted total is representative of the fact that Sewer's cash reserves must increase in order to support the constantly increasing burden of debt principal and interest costs. The Department is in the middle of a massive capital improvement program to sewer a majority of the City. Upon completion of each phase of the program, the department will assess users a "sewer construction charge" to be paid over a twenty year period. This assessment will be applied to debt financing costs. The project has reached an interim phase where debt costs have been incurred, but the corresponding assessment fees have not all been realized.

Net assets for the Water Department totaled \$10,360,826. Of this, \$13,218,020 represents the investment in capital assets while the unrestricted portion totaled (\$2,857,194). Currently all assets are invested in capital. During fiscal 2010 net assets decreased by \$1.6 million – this indicates the need to implement a rate increase which can permanently increase cash reserves to support operations. The Department also cut back on the funding for the infrastructure replacement program.

Unrestricted net assets in the workers compensation internal service fund amounted to \$710,074. Net assets increased by \$419,374 due primarily to a decrease in the claim reserve.

#### General Fund Budgetary Highlights

During fiscal 2010, the City's original budget of \$280,863,000 was increased by \$500,000 to \$281,363,000. The following budgetary adjustments were made during the year:

- The \$500,000 budget transfer represented the re-appropriation of the fiscal 2009 school surplus to the School Department. The prior year education reserve funded this transfer.
- A budget reduction program totaling approximately \$700,000 was instituted during fiscal 2010. Departments were required to reduce their operating budgets to offset reductions in revenue.

#### **Capital Assets and Debt Administration**

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2010, amounted to \$311,620,091 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery & equipment, roads and construction in progress. During this year, the City's overall investment in capital assets (net of accumulated depreciation) decreased by approximately \$4.5 million. It should also be noted that the City's sewer treatment plant and animal shelter were severely damaged following a major flood emergency in March 2010. They were under reconstruction at the time of this report.

Major capital asset additions during the current fiscal year included the following:

- 1. Police Vehicles \$199,800
- 2. Recycling Vehicles \$747,000
- 3. Sewer construction \$1.45 million in new sewer construction.

#### City of Warwick's Capital Assets

	Government	al Activities	rities Business-type Activities		Totals

Additional information on the City's capital assets can be found in Note 2 of the notes to the financial statements of this report.

**Long-term debt**. At the end of the fiscal year, the City had total bonds and loans outstanding of \$192,110,310. It is broken down as follows:

=	General Fund Bonds Payable	\$ 55,841,597.
M	Water Bonds Payable	\$ 2,568,311.
	Sewer Bonds Payable	\$ 19,748,092.
	Sewer SRF Loans Payable	\$ 113,952,310.

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens.

During fiscal 2010, the City of Warwick's general fund general obligation debt reflects a net decrease of \$1,012,419. This decrease was due to principal repayments totaling \$4,920,419 less new general fund debt totaling \$3,908,000. During the year, sewer debt decreased by \$7,775,043, and water debt decreased by \$213,734.

The City's bond ratings are as follows:

State statue limits the amount of bonds a governmental entity can issue to 3% of its total assessed valuation. The current debt limitation for the City is \$360,243,989. As of June 30, 2010 the City's current outstanding general fund debt falls under the debt limitation by \$304,402,392.

Additional information on the City's long-term debt can be found in Note 6 of the notes to the financial statements and in the statistical tables.

#### **Economic Factors and Next Year's Budgets and Rates**

- Warwick's average unemployment rate is 11.5%.
- Median family income in Warwick was \$75,029.
- Warwick ranks second in population among Rhode Island's 39 cities and towns.

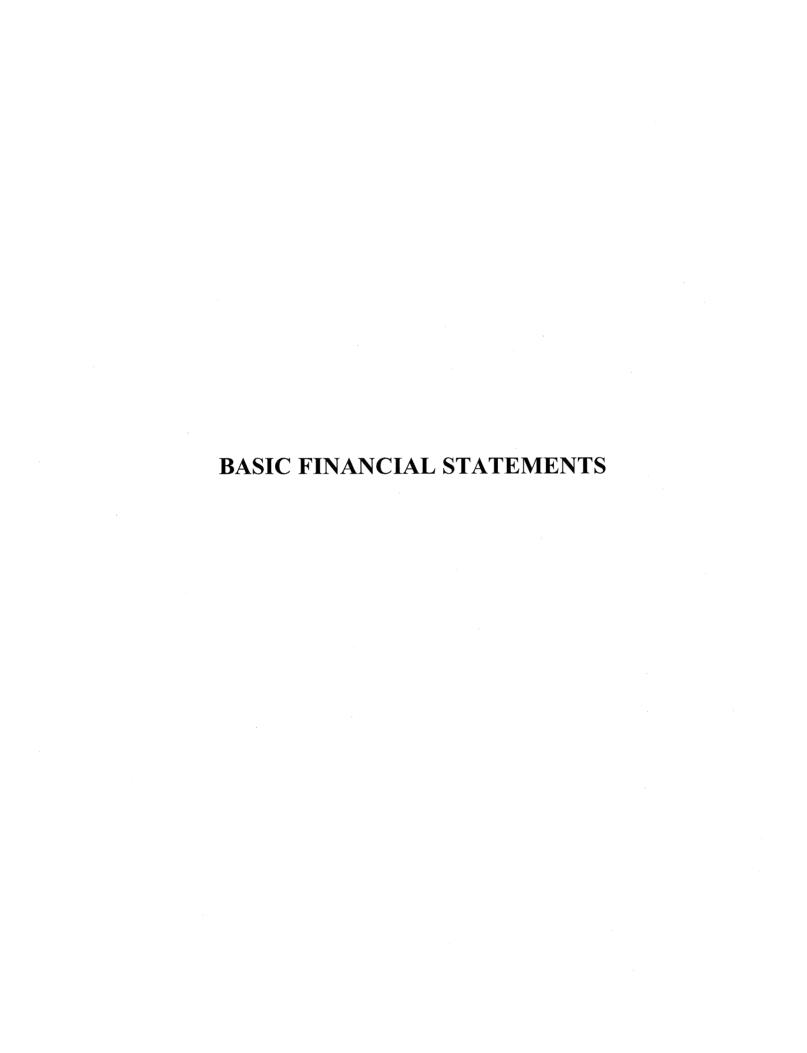

The following factors were considered in preparing the City's budget for the 2010-11 fiscal year.

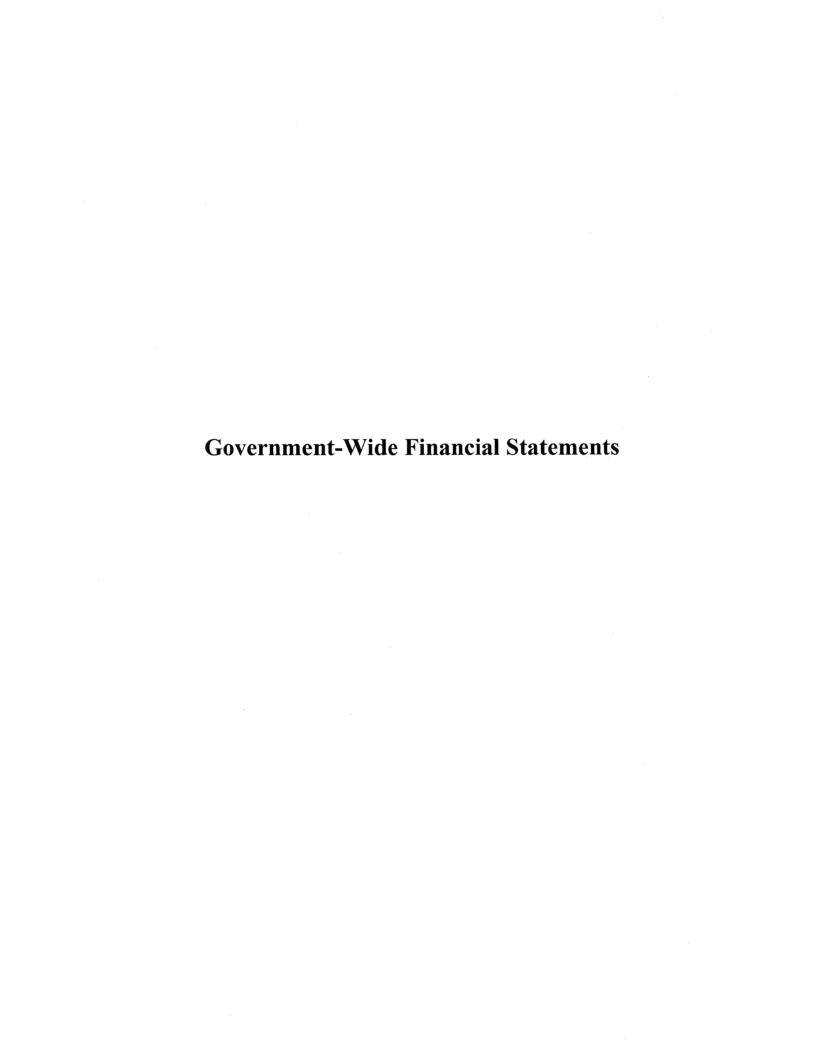

- The School Department budget will decrease by \$13.9 million to \$151.2 million. This decrease was the result of reductions in State Aid and adjustments to the state regulations regarding school funding policies.
- The City continued to participate in a self-insurance program for health care coverage.
- To control tax increases, \$2,700,000 was drawn from the City's fund balance to provide additional funding for the fiscal 2011 budget.

Currently, the unreserved undesignated fund balance in the general fund totals \$ 6,862,565. While the City has maintained its commitment toward ensuring a steady growth for the City surplus, it has been necessary to utilize part of this surplus to ease the burden on its taxpayers. Fiscal 2011 reflected the results of a property revaluation. In response to economic conditions, total assessed property values declined - this resulted in corresponding increases in the tax rates. The City's fiscal 2011 tax rate for residential property increased from \$14.14 to \$17.48, or 23.6%. The commercial and industrial tax rate also increased 23.6% from \$21.21 to \$26.22. The tangible personal property rate increased from \$28.28 to \$34.96, or 23.6%. Per Rhode Island law, the inventory tax was phased out and the motor vehicle tax remained constant at \$34.60.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to the Controller, City of Warwick Treasurer's Office, 3275 Post Road, Warwick, RI 02886-7145.

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2010

Net change in fund balances-total governmental funds	\$ 9,337,275
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This	
is the amount by which depreciation (\$8,992,484) exceeds capital outlay (\$2,623,990) in the current period.	(6,368,494)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(267,049)
Interest expenses in the statement of activities includes accrued interest calculated for bonds payable	61,709
Interest on taxes in the statement of activities includes accrued interest calculated for property taxes not yet paid.	(2,501,784)
Long-term liabilities (including bonds payable, debt issuance, capital leases, compensated absences, accrued retroactive payroll, net pension obligations, and the net OPEB obligations) are not due and payable in the current period and therefore are not reported in the Governmental Funds Balance Sheet	(17,593,182)
The Internal Service Fund is used by management to charge the costs of Worker's Compensation claims. The net revenues (expenses) of the Internal Service Fund is reported with Governmental Activities in the Government-Wide financial statements.	419,374
Change in net assets of governmental activities.	\$ (16,912,151)

Please see Note 12 for a more detailed explanation of the differences between the Government-Wide Financial Statements and the Fund Financial Statements

#### CITY OF WARWICK, RHODE ISLAND Statement of Net Assets Proprietary Funds June 30, 2010

The financial statements of the City of Warwick, Rhode Island, have been prepared in conformity with principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing government and financial reporting principles. The following notes to the financial statements are an integral part of the City's financial statements.

## NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. REPORTING ENTITY

The City of Warwick was established in 1642 and incorporated in 1931. In some matters, including the issuance of short and long-term debt, the City is governed by the general laws of the State of Rhode Island. The City operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police, fire and inspections), public works (sanitation, highways and streets, engineering and building maintenance), education, parks and recreation, social services, and general administrative services.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the City applied the criteria prescribed by GASB Statement No.14, as amended by GASB Statement No.39, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City of Warwick does not have any component units.

### B. BASIS OF PRESENTATION AND ACCOUNTING

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses as appropriate. Governmental resources are allocated to and accounted for in individual funds to demonstrate legal compliance and to aid management by segregating transactions related to specific City functions or activities.

#### Government-Wide Financial Statements

The City's Government-Wide Financial Statements include a Statement of Net Assets and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the City accompanied by a total column. Fiduciary activities of the City are not included in these statements.

These statements are presented using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all the City's assets and liabilities, including capital assets as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Program revenues for the City are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

## NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The City's policy is to first apply restricted resources and then unrestricted resources when expenses are incurred for purposes for which both restricted and unrestricted net assets are available.

Certain eliminations have been made as prescribed by GASB Statement No.34 for interfund activities, payables and receivables. All internal balances in the Statement of Net Assets have been eliminated except those representing balances between the Governmental Activities and the Business-Type Activities, which are presented as internal balances and eliminated in the total column. In the Statement of Activities, Internal Service Fund transactions have been eliminated; however, those transactions between Governmental and Business-Type Activities have not been eliminated.

The City applies to the Business-Type Activities and Enterprise Funds all applicable GASB pronouncements (including all NCGA Statements and Interpretations currently in effect) as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) of the Committee on Accounting Procedure.

### Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for each major governmental fund and nonmajor governmental funds in total. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net assets and changes in net assets presented in the Government-Wide Financial Statements.

All governmental funds are accounted for using the spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which the City has treated as susceptible to accrual are property tax and intergovernmental revenues. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

## Major Governmental Funds:

General Fund – The General Fund is used to account for resources devoted to financing the General services that the City performs for its citizens.

*School Unrestricted Fund* – The School Unrestricted Fund is used to account for the budgeted resources devoted to financing the general operations of the School Department.

Notes to the Financial Statements June 30, 2010

### NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Proprietary Fund Financial Statements

Proprietary Fund Financial Statements include a Statement of Net Assets, a Statement of Revenues, Expenses and Changes in Fund Net Assets, and a Statement of Cash Flows. A column representing Internal Service Funds is also presented in these statements. However, Internal Service balances and activities have been combined with the Governmental Activities in the Government-Wide Financial Statements.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Assets. The Statement of Revenues, Expenses and Changes in Fund Net Assets present increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

### Major Enterprise Funds:

**Sewer Fund** – The Sewer Fund is used to account for sewer use fees and the expenses associated with providing sewer services to City residents.

**Sewer Assessment Fund** – The Sewer Assessment Fund is used to account for special assessments related to the construction of the City's sewer system which are payable over 20 years.

Water Fund – The Water Fund is used to account for water use fees and the expenses associated with water services to City residents.

The City has only one Internal Service Fund as follows:

*Workers' Compensation Fund* – The Worker's Compensation Fund is used to account for the City's self-insured workers' compensation program.

### Fiduciary Fund Financial Statements

Fiduciary Fund Financial Statements include a Statement of Net Assets. The City's Fiduciary Funds are Pension Trusts, Private Purpose Trusts and Agency Funds. Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Agency Funds are purely custodial and do not involve measurement of results of operations.

**Pension Trust Funds** – These funds account for the funding and payment of pension benefits provided to police officers, fire fighters and municipal and school employees.

Notes to the Financial Statements
June 30, 2010

### NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Private Purpose Trust Funds** – These funds account for assets held by the City under various trust arrangements for the benefit of certain individuals and groups.

Agency Funds – These funds account for assets held by the City as agent for various student groups, funds held in probate and funds held in escrow for other parties.

## C. CASH EQUIVALENTS

For the purpose of the Statement of Cash Flows, the City considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

#### D. INVESTMENTS

The City has implemented Government Accounting Standards Board Statement No.31. As such investments are recorded at fair value, except for nonparticipating interest earning investment contracts (i.e. certificates of deposit), which are recorded at amortized cost.

## E. ACCOUNTS RECEIVABLE AND TAXES RECEIVABLE

Accounts receivable and taxes receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables. Property taxes that were levied on June 15, 2009 for the current year and other delinquent balances are recorded as receivables.

#### F. UNBILLED SERVICES RECEIVABLE

Sewer and water revenue is recorded when earned. Customers are billed quarterly. The estimated value of services provided but unbilled at year-end has been included in the accompanying financial statements.

#### G. INVENTORY

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory is generally recorded as expenditures/expenses when consumed.

#### H. CAPITAL ASSETS AND DEPRECIATION

Capital assets are reported in the Government-Wide Statement of Net Assets but are not reported in the Governmental Fund Financial Statements.

All property and equipment is capitalized at historical or estimated historical cost. Donated fixed assets are recorded at the fair market values as of the date received. The City follows the policy of not capitalizing assets with a cost of less than \$10,000 and a useful life of less than one year.

The City has capitalized major governmental infrastructure assets acquired or having significant improvements since June 30, 1980. The City has chosen to apply the standard valuation method rather than the modified approach.

Notes to the Financial Statements
June 30, 2010

## NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Depreciation is calculated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Land improvements	20 years
Buildings	50 years
Roads and resurfacing	20 years
Bridges	50 years
Traffic signals	10 years
Main extensions	75 years
Pumping stations	50 years
Wastewater collection system	50 - 75 years
Hydrants	50 years
Meters	20-40 years
Distribution lines	65 years
Machinery, equipment and furniture	5-30 years
Vehicles	5-8 years

#### I. DEBT PREMIUMS AND ISSUANCE COSTS

In the Governmental Fund Financial Statements, debt premiums and issuance costs are treated as period costs in the year of issue. Debt issuance costs are shown as "other expenditure" and debt premiums are reflected as "other financing source".

In the Government-Wide Statements, debt premiums and issuance costs are deferred and amortized over the term of the debt. Debt premiums are presented as an addition to the face amount of the debt payable whereas issuance costs are recorded as other assets.

#### J. DEFERRED REVENUE

In the Fund Financial Statements, deferred revenue represents funds received in advance of being owed or receivables, which will be collected and included in revenues of future fiscal years. In the General Fund, unearned revenues relate to delinquent property tax balances less amounts due as of the balance sheet date and received sixty days thereafter. In the Sewer Assessment Fund, deferred revenues relate to sewer assessment receivables billed over twenty years.

#### K. PROPERTY TAXES

The City is permitted by State Law to levy property taxes. Current tax collections for the City were approximately 97.9 percent of the total 2009 levy.

The City's fiscal 2010 property taxes were levied on June 15, 2009 (also the lien date) on the assessed valuation as of December 31, 2008. Taxes are payable in full or quarterly, at the taxpayer's option. Installment due dates are July 15, October 15, January 15, and April 15. Taxes not paid by the due date are delinquent and carry an interest charge of twelve percent per annum from July 15. Assessed values for real property are based upon fair market value as of December 31, 2004. A revaluation of all real property must be done every ten years. A revaluation was done during fiscal year 2004 and was effective for the fiscal 2005 property tax levy.

## **NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### L. COMPENSATED ABSENCES

Under the terms of various contracts and agreements, City employees are granted vacation, sick and personal leave in varying amounts based on length of service and bargaining unit. Unused vacation leave is paid upon an employee's termination. Up to one-half of unused sick-leave is paid upon termination, retirement or death depending on bargaining unit. Severance pay and personal days are also paid to terminating employees depending on bargaining unit. The liability is calculated at the rate of pay in effect at June 30, 2010.

The entire compensated absence liability is reported on the Government-Wide Financial Statements. For Governmental Fund Financial Statements the amount of compensated absences has been recorded as a current liability to the extent that the compensated absences have matured (i.e. upon an employee's resignation or retirement). The balance of the liability that has not matured is not recorded in the Governmental Fund Financial Statements.

#### M. ACCRUED LIABILITIES AND LONG-TERM DEBT

All accrued liabilities and long-term debt are reported in the Government-Wide Financial Statements.

For Governmental Fund Financial Statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments and compensated absences paid from governmental funds are reported as a liability in the Fund Financial Statements only for the portion expected to be financed from expendable available financial resources. Long-term debt paid from governmental funds is not recognized as a liability in the Fund Financial Statements until due.

#### N. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures / expenses during the reporting period. Actual results could differ from those estimates.

## NOTE 2 - CAPITAL ASSETS

Capital asset activity for government funds for the year ended June 30, 2010 was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance
Governmental activities:				
Nondepreciable assets:				
Land	\$ 18,680,138	\$ -	\$ -	\$ 18,680,138

Depreciation expense was charged to functions as follows:

Business-type activities:	
Water	\$ 683,542
Sewer	5,249,996

Total business-type activities depreciation expense

## NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

- A. LEGAL DEBT MARGIN The City's legal debt margin as set forth by the state statute is limited to three percent of total taxable assessed value which approximates \$361,232,360. As of June 30, 2010 the City's debt applicable to the debt limitation is under the debt limit by \$305,390,763.
- B. DEFICIT FUND BLANCES The following funds had deficit fund balances as of June 30, 2010:

Capital Leases	(\$1,254,413)
2000 Recreation Bond	(\$427,897)
Injury Fund	(\$4,332)

## **NOTE 4 -CASH DEPOSITS**

**DEPOSITS** – are in various financial institutions and are carried at cost. The carrying amount of deposits is separately displayed on the Balance Sheet of the Fund Financial Statements and the Statement of Net Assets as "Cash and Cash Equivalents".

	Carrying
	Amount
Total deposits	\$ 30,626,350
Add: Petty cash and cash on hand	4,844
Add: Investments classified as cash equivalents	2,405,946
Total Cash and Cash Equivalents Reported	
in the financial Statements	\$ 33,037,140

CUSTODIAL CREDIT RISK - This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The City does not have a formal deposit policy for custodial credit risk, but is governed by the State Laws as described below. As of June 30, 2010, \$35,456,341 of the City's bank balance of \$38,176,633 was exposed to custodial credit risk as follows:

	Bank
	Amount
Insured (Federal Deposit Insurance Fund)	\$ 2,720,292
Collateralized with securities held by pledging	
financial institution or its agent, in the City's name	32,612,261
Uninsured or uncollaterized	 2,844,080
Total Cash and Cash Equivalents Reported	
in the bank	\$ 38,176,633

Under Rhode Island general laws, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to one hundred percent of the deposits that are time deposits with maturities greater than sixty days. Any of these institutions, which do not meet minimum capital standards prescribed by federal regulators, shall insure or pledge eligible collateral equal to one hundred percent of all deposits, regardless of maturity. At June 30, 2010, the City's uncollateralized deposits with depository institutions were \$2,844,080.

## Notes to the Financial Statements June 30, 2010

#### **NOTE 5 – INVESTMENTS**

- A. The City invests in various types of investments, which are stated at fair value, except for non-participating interest earning investment contracts which are recorded at amortized cost. By Charter the Finance Director and Treasurer have the authority to make investments subject to rules and regulations that the City Council may prescribe by ordinance. The Finance Director shall have the authority to purchase and invest prudently in the following investments for funds other than pension funds:
- 1) Obligations of the United States government, and its agencies and instrumentalities.
- 2) Certificates of deposit and other evidences of deposit at banks, credit unions, and savings and loan associations with offices in the State.
- 3) Bankers' acceptance of banks with offices in the State.
- 4) Commercial paper of banks with offices in the State.
- 5) Repurchase agreements whose underlying collateral consists of U.S. government agency securities and U.S. government sponsored corporations, plus the above, and which are offered by banks with offices in the State.
- 6) Money market funds whose portfolios consist of the above instruments, and any other investments specifically approved by the City Council.
- 7) No-load open-end diversified management investment companies incorporated under Rhode Island General Laws designed exclusively for all State government entities, agencies and instrumentalities.

The following is a schedule of the City's investments by classification:

INVESTMENT	FAIR VALUE	RATING
Comparate Equities	\$ 58,508,533	N/R
Corporate Equities  Money Market Funds	51,420	N/R
Mutual Funds - Equity	169,457,476	N/R
Pooled Mutual Funds	15,750,249	N/R
Mutual Fund - Stable Value	7,672,857	N/R
Real Estate Investment Trust	2,314,051	N/R
Immediate Participation Guarantee Contracts	6,665,452	N/R
Bonds & Notes	40,021,803	See Note 5 B
Depository Receipts - Equity	921,021	N/R
MBIA Investment Pool	6,822,509	N/R
State Street Short-Term Investment Fund	1,482,665	N/R
Total Investments	309,668,036	
Less: Investments Classified as Cash Equivalents	(2,405,946)	
Total Investments-Reported in the Financial Statements	\$ 307,262,090	

## NOTE 5 - INVESTMENTS (continued)

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the City's type investments to this risk using the segment time distribution model is presented in schedule 5-B:

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The City has no formal investment policy that limits investment choices for its pension funds.

**Concentration of Credit Risk:** The City does not have a formal investment policy that limits the amount that can be invested with one issuer. Currently, the City has no investments, to which this requirement applies, in any one issuer that represents more than five percent of the total investments.

Custodial Credit Risk: Custodial credit risk for investments is the risk that in the event of failure of the counterparty, the city will not be able to recover the value of its investments or collateral securities that are in passion of an outside party. The City's investment in corporate equities of \$58,508,533 and bonds and notes of \$40,021,083 are held by the investments counterparty in the City's name.

### **NOTE 6 – LONG-TERM LIABILITIES**

#### A. LONG-TERM LIABILITIES

Long-term liability activity for the governmental activities for the year ended June 30, 2010 was as follows:

	Beginning <u>Balance</u>	<u>Additions</u>	<u>Retirements</u>	Ending <u>Balance</u>	Amounts Due Within <u>One Year</u>
Governmental Activities					
Bonds and capital leases payable:					
General obligation bonds	\$ 56,854,016	\$ 3,908,000	\$ 4,920,419	\$ 55,841,597	\$ 5,042,695
Capital lease payable	3,736,392	-	1,891,418	1,844,974	922,487
Plus amortized premium					
on bonds	830,173	-	82,656	747,517	-
Less deferred amount on					
refunding	565,814	-	89,634	476,180	-
Total bonds and capital					
leases payable	60,854,767	3,908,000	6,804,859	57,957,908	5,965,182
Other liabilities:					
Compensated absences	9,927,537	593,024	80,668	10,439,893	618,564
Net pension obligation	21,877,353	6,396,679	76,115	28,197,917	-
Net other post-employment					
benefits obligation	30,606,627	13,733,357	-	44,339,984	-
Accrued retroactive payroll	1,753,587	13,680	64,690	1,702,577	_
Total other liabilities	64,165,104	20,736,740	221,473	84,680,371	618,564
Governmental Activities					
long-term liabilities	\$ 125,019,871	\$ 24,644,740	\$ 7,026,332	\$ 142,638,279	\$ 6,583,746

Payments on the bonds and capital leases payable that pertain to the City's Governmental Activities are made by the Debt Service Fund. The compensated absences liability attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The net pension obligation and net other post-employment benefits obligation attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The accrued retroactive payroll will be paid by the School Unrestricted Fund.

## Notes to the Financial Statements June 30, 2010

## **NOTE 6 – LONG-TERM LIABILITIES (continued)**

Long-term liability activity for the business-type activities for the year ended June 30, 2010 was as follows:

Business-Type Activities	Beginning <u>Balance</u>	4	<u>Additions</u>	<u>R</u>	etirements	Ending <u>Balance</u>	ounts Due Within One Year
Bonds and loans payable:							
Water	\$ 2,782,045	\$	_	\$	213,734	\$ 2,568,311	\$ 217,853

## B. GENERAL OBLIGATION BONDS DEBT SERVICE REQUIREMENTS

The debt service requirements for governmental activities at June 30, 2010 were as follows:

Fiscal Year Ended June 30,	Principal	Interest	Total Debt Service
2011	5,042,695	2,118,792	7,161,487
2012	4,816,889	1,936,792	6,753,681
2013	4,911,015	1,766,920	6,677,935
2014	4,749,139	1,584,101	6,333,240
2015	4,716,762	1,398,172	6,114,934
2016-2027	31,605,097	5,480,090	37,085,187
	\$ 55,841,597	\$ 14,284,867	\$ 70,126,464

## **NOTE 6 – LONG-TERM LIABILITIES (continued)**

The debt service requirements for business-type activities at June 30, 2010 were as follows:

Fiscal Year Ended June 30,	Principal	Interest	Total  Debt Service
2011	1,457,305	918,780	2,376,085
2012	1,457,361	863,999	2,321,360
2013	1,498,235	809,677	2,307,912
2014	1,510,111	752,417	2,262,528
2015	1,542,488	692,665	2,235,153
2016-2026	14,850,903	3,576,896	18,427,799
	\$ 22,316,403	\$ 7,614,434	\$ 29,930,837

### C. CAPITAL LEASE COMMITMENTS

The City of Warwick's capital leases consist of two leases for various vehicles and equipment. The City may purchase leased vehicles and equipment as set forth in the lease agreements. Leases are renewed annually based on the City's appropriation of funds sufficient to pay the obligations under the lease agreements.

Obligations of Governmental Activities under capital leases at June 30, 2010 were as follows:

Fiscal Year	
Ended June 30,	Total
2011	971,294
2012	938,756
Total minimum leasepayments	1,910,050
Less: Amount representing interest	(65,076)
Present value of minimum lease payments	1,844,974

## **NOTE 6 – LONG-TERM LIABILITIES (continued)**

#### D. LOANS PAYABLE

The City of Warwick has entered into fifteen loan agreements with the Rhode Island Clean Water Protection Finance Agency as follows:

LOAN DATE	ORIGINAL E LOAN AMOUNT INTEREST RATE		MATURES		
March 11, 1992	\$ 3,500,0	3.16%	September 1, 1994-2013

<sup>\*</sup>SFR/Stimulus Loan is shown net of \$178,601.10 principal forgiveness.

The City pays an additional 0.5% finance fee on all loans except for the loan dated April 30, 2008.

The loan proceeds are to be used by the City for the extension and upgrade of the sewer system. The Agency pays project invoices certified by the City directly to the contractors or reimburses the City for costs incurred on the projects. As of June 30, 2010, loans payable of \$113,952,310 are reflected in the Sewer Fund. A due from the Rhode Island Clean Water Protection Finance Agency of \$4,406,538 is for undrawn loan amounts, which the City is responsible to draw down and to repay in full.

## **NOTE 6 – LONG-TERM LIABILITIES (continued)**

The debt service through maturity for the above loans is as follows:

Year Ended June 30,	Principal	Interest	Total  Debt Service		
2011	\$ 7,948,725	\$ 2,625,348	\$ 10,574,073		
2012	8,101,310	2,432,373	10,533,683		
2013	8,254,935	2,231,716	10,486,651		
2014	8,413,185	2,025,621	10,438,806		
2015	8,406,898	1,817,411	10,224,309		
2016-2026	72,827,257	8,177,577	81,004,834		
	\$ 113,952,310_	\$ 19,310,046	\$ 133,262,356		

Interest, at the fixed rates indicated above, is calculated monthly based on the loan balances outstanding. The City has not completely drawn down all of the loans as of June 30, 2010. The interest through maturity shown above is based on estimated amortization schedules prepared by Rhode Island Clean Water Protection Finance Agency. The Rhode Island Clean Water Finance Agency loans dated December 30, 2004, December 15, 2005, December 21, 2006, December 12, 2007, April 30, 2008 and October 6, 2009 are revenue loans. The revenue loans are secured by the revenues derived from the operation of the City's wastewater collection system.

## **NOTE 7 – OPERATING LEASES**

The School Department has entered into operating leases for equipment. As of June 30, 2010 future minimum rental commitments under operating leases are as follows:

## FISCAL YEAR ENDED JUNE 30,

2011 4,680
Future minimum rental commitments \$4,680

Rental expenditures related to operating leases were approximately \$35,939 in fiscal year 2010.

Notes to the Financial Statements June 30, 2010

#### NOTE 8 - NET ASSETS/FUND BALANCES

The Government-Wide Financial Statements utilize a net asset presentation. Net assets are categorized as invested in capital assets, net of related debt, restricted and unrestricted.

*Invested in Capital Assets, Net of Related Debt* – This category groups all capital assets into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Restricted Net Assets - This category presents external restrictions imposed by grantors or laws and regulations.

Unrestricted Net Assets – This category represents net assets of the City, not restricted for any project or other purpose.

The following net assets restrictions are included in the Government-Wide Financial Statements:

**Debt service payments** – To restrict net assets held for debt service in accordance with the City's trust indenture.

*Education programs* – To restrict net assets to be used for education programs in accordance with grant agreements.

Community development loans – To restrict net assets to be used for community development loans in accordance with grant agreements.

City clerk records preservation — To restrict net assets to be used for City clerk records preservation in accordance with State Laws.

**Public safety programs** – To restrict net assets to be used for public safety programs in accordance with Federal and State Laws and grant agreements.

In the Fund Financial Statements, reserves and designations segregate portions of fund balance that are either not available or have been earmarked for specific purposes. At June 30, 2010, reservations and designations of fund balance are described below:

**Reserve for Encumbrances** – To reserve for purchase commitments, which have not lapsed at year-end, but do not constitute an expenditure or liability.

Reserve for Claims and Judgments - To reserve a portion of the fund balance for claims and judgments.

Reserve for future years - To reserve funds to use as a revenue source in the 2011 budget.

**Reserve for education** — To reserve funds to be used for future educational purposes in accordance with Article 31.

Reserve for School Restricted Funds - To reserve School State set aside funds.

Reserve for Revolving Loans - To reserve funds held in escrow for home improvement loans.

## CITY OF WARWICK, RHODE ISLAND NOTES TO FINANCIAL STATEMENTS JUNE 30, 2010

#### NOTE 9 - INTERFUND BALANCES

The City reports interfund balances between many of their funds. The totals of all balances agree with the sum of interfund balances presented in the fund statements.

Transfers are used to move revenues from the fund that the budget requires to collect them to the funds that the budget requires to expend them. For example, the transfer of \$120,400,602 is the School Unrestricted Funds appropriation that is budgeted in the General Fund as a revenue source to be transferred to the School and expended.

## CITY OF WARWICK NOTES TO FINANCIAL STATEMENTS JUNE 30, 2010

## NOTE 11 DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS.

"Total fund balances" of the city's governmental funds (\$21,265,721) differs from "net assets" of governmental activities (\$3,313,113) reported in the statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the of the governmental fund balance sheets. The effect of the differences is illustrated below.

#### **Balance Sheet / Statement of Net Assets**

# CITY OF WARWICK, RHODE ISLAND

Notes to the Financial Statements June 30, 2010

### **NOTE 14 – OTHER POST EMPLOYMENT BENEFITS**

#### A. OTHER POST-EMPLOYMENT BENEFITS - CITY

### Plan Description

The City of Warwick administers a single-employer defined benefit healthcare plan. This plan does not include the pension benefits discussed in Note 18. The plan provides medical/drug and dental (police officers only) benefits for eligible retirees and their dependents through the City's group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report.

# **Funding Policy**

Contribution requirements are negotiated between the City and the respective unions. The City is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payments in effect at the time of retirement. For the year ended June 30, 2010, the plan operated on a pay as you go basis and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2010, the City contributed \$7,487,501(estimated) to the plan.

## Membership

At July 1, 2009, membership consisted of:	Town, Police, Fire
Active employees:	746
Retired	<u>749</u>

#### B. OTHER POST-EMPLOYMENT BENEFITS - SCHOOL

#### Plan Description

The Warwick School Department administers a single-employer defined benefit healthcare plan. The plan provides medical/drug benefits for eligible retirees and their dependents through the City's group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report. All benefits terminate at age 65.

Teaching Employees are eligible for GASB Statement 45 benefits after serving the district for 20 to 30 years depending on their date of hire. Other district employees are required to reach age 62 and have 25 years of service. Teaching employees contribute 20 to 60% for coverage depending on their date of hire. Other employees will contribute 20% for coverage. Spouses of teaching employees are not covered by the plan. Souses of other district employees will contribute 20% for coverage. Surviving beneficiaries continue to receive access to the districts medical coverage through COBRA after the death of the retired employee. Survivors are required to pay the full cost of benefits.

# NOTE 14 - OTHER POST EMPLOYMENT BENEFITS (continued)

### Funding Policy

Contribution requirements are negotiated between the City and the respective unions. The City is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payments in effect at the time of retirement. ### NOTE 15 – SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

#### A. LITIGATION

The city keeps a reserve for contingencies of \$600,000 in order to fund potential claims in excess of the insurance policy limits.

During the ordinary course of its operations, the City is also a party to various other claims, legal actions and complaints. In the opinion of the City's management and legal counsel, no prediction of the probable outcome or potential liability, if any, can be made on these matters or these/matters are not anticipated to have a material financial impact to the City's financial statements.

### B. FEDERALLY ASSISTED PROGRAMS -COMPLIANCE AUDITS

The City participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2010 were audited in connection with the accompanying financial statements under the Single Audit Concept and the reports thereon are presented in the Single Audit Section of this report. The amount, if any, of expenditures that may be disallowed cannot be determined but is not expected to be material to the financial position of the City.

#### C. COMMITMENTS

The City has the following contract commitments as of June 30, 2010:

Sewer Fund \$ 1,403,288

#### **NOTE 16 – RISK MANAGEMENT**

The City of Warwick is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years.

On July 1, 1980 the City of Warwick implemented a workers' compensation self-insurance program. Prior to this, the City had purchased commercial insurance for its workers' compensation risks. The workers' compensation self-insurance program was reported as part of the City's General Fund through June 30, 1996. In fiscal 1997 an Internal Service Fund was established.

The City oversees the workers' compensation self-insurance program and claims payment services are provided by Claim Strategies, the third-party administrator. In order to avoid catastrophic losses, the City has purchased excess insurance for losses greater than \$300,000 per occurrence.

The claims liability of \$55,927 reported in the Internal Service Fund at June 30, 2010 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The changes in workers' compensation claims liability are as follows:

		Balance		
	Beginning Fiscal	Claims and Changes	Claims	Fiscal
	Year Liability	in Estimate	Payments	Year End
2003-2004	170,663	857,380	639,790	388,253
2004-2005	388,253	83,033	364,731	106,555
2005-2006	106,555	377,258	370,989	112,824
2006-2007	112,824	450,276	380,759	182,341
2007-2008	182,341	200,923	273,217	110,047
2008-2009	110,047	352,133	213,255	248,925
2009-2010	248,925	356,889	549,887	55,927

#### **NOTE 17 – SUBSEQUENT EVENT**

Management has evaluated subsequent events through March 22, 2011 the date the financial statements were available to be issued. Subsequent events are noted below.

On November 15, 2010, the City issued School Bonds in the amount of \$4,212,000 through the Rhode Island Health and Educational Building Corporation. The bonds are part of a Direct Subsidy Qualified School Construction Bonds Pooled Issue.

On December 28, 2010, the City entered into a Master Lease Purchase Agreement in the amount of \$1,700,000. The lease will be repaid over a five years at a rate of 1.920%.

#### **NOTE 18 – PENSION PLANS**

#### A. CITY EMPLOYEES' PENSION PLAN:

#### Plan Description

The City of Warwick City Employees Pension Plan covers all City employees not covered by other plans. Non-elected employees are eligible to participate after 6 months of employment. Elected officials are eligible on the date they assume their elected position. The City Employees' Pension Plan is a single-employer defined benefit pension plan that was established in 1965. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate, publicly available financial report that includes financial statements and required supplementary information (RSI) for the City Employees' Pension Plan.

As of July 1, 2008 employee membership data related to the pension plan was as follows:

Active members	435
Retirees and beneficiaries	319
Terminated vested investments	23
Non-vested terminated members	24
	<u>801</u>

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions – Members in the plan who have attained age 65 and have reached their fifth anniversary of participation may retire. The normal monthly retirement benefit is equal to 2.50% of final average monthly compensation multiplied by years of creditable service. Final average monthly compensation is one- twelfth of the average of the highest three consecutive years of base compensation. However, no elected member will receive less than one-twelfth of the sum of \$1,500 plus \$200 multiplied by years of creditable service; the sum not to exceed \$5,500. Effective September 1, 1994, the plan compensation is equal to the sum of base compensation and longevity pay. Eligibility for early retirement is after age 55 with at least 10 years of creditable service or any member whose age plus service total 80 or more. Effective September 1, 1994, an elected official is eligible upon attainment of age 55 with at least 6 years of service. The retirement benefit for early retirement is determined under the normal retirement formula above, reduced for commencement prior to age 65. The reduction is equal to 1/2% per month for the first sixty months prior to age 65, plus 1/3% per month for months in excess of sixty. If the sum of the retired member's years of age plus service is at least equal to 80, there is no reduction for early commencement. The provision for late retirement is continued employment beyond normal

# NOTE 18 - PENSION PLANS (continued)

### A. CITY EMPLOYEES' PENSION PLAN (continued):

retirement. The retirement benefit for late retirement is the same as the normal retirement benefit formula determined as of the member's actual retirement date.

Upon termination of employment, a non-elected member is eligible for a benefit deferred to retirement age after 10 years of creditable service. An elected member is eligible after 6 years of creditable service. The benefit is the same as early retirement. For all members except elected officials, the benefit amount determined under the normal retirement formula is increased by 3% per year between termination and retirement. In lieu of receiving retirement benefits, a member may receive in a lump sum payment of his or her accumulated contributions with interest at any time prior to commencement of retirement benefits.

A non-elected member who leaves employment prior to completing 10 years of creditable service or an elected member who leaves prior to completing 6 years of creditable service will receive a lump sum payment of his or her accumulated contributions with interest.

A non-elected member who has completed 10 years of creditable service or an elected member who has completed 6 years of creditable service, and who is totally disabled as determined by the City's medical board is eligible for disability retirement. The disability retirement benefit formula is the same as normal retirement but reduced by worker's compensation payments.

Any married non-elected member with 10 years of creditable service or any married elected member with 6 year of creditable service who dies while still employed after age 50 is eligible for pre-retirement death benefits. The benefit is the same as vested deferred or early retirement with reduction for each month by which benefit commencement precedes age 65 and further reduced to reflect the optional form of payment which provides payments at the same rate to the surviving spouse. A member's surviving spouse may elect to receive a lump sum payment equal to the member's accumulated contributions with interest in lieu of the annuity described above.

Any terminated member with a deferred vested benefit or an active member not eligible for the surviving spouse's annuity described above is eligible for death before retirement benefit equal to one lump sum pay the member's accumulated contributions with interest.

Effective September 1, 1994, a member may, in lieu of receiving one half of his or her accumulated sick pay in cash at termination or retirement, receive a pension service credit for unused sick pay (6 month maximum).

**Funding Policy** – Non-elected plan members contribute 8% of their annual base compensation and longevity compensation and elected plan members contribute 8% of their annual base compensation plus \$20 per month. The City is required to contribute an actuarially determined amount each year. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

# Summary of Significant Accounting Policies

**Basis of Accounting** – The City Employees' Pension Trust Fund I's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

# **NOTE 18 – PENSION PLANS (continued)**

## A. CITY EMPLOYEES' PENSION PLAN (continued):

*Method Used to Value Investments* – Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

# Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension obligation to the City Employees' Pension Plan for the current year are as follows:

Annual Required Contribution	3,973,247
Annual Pension Cost	3,973,247
Contributions Made	(3,973,247)
Increase (Decrease) in net pension obligation	-
Net pension obligation, beginning of year	_
Net pension obligation, end of year	_

Payment of this item is in transit at year-end and therefore accrued in the entity wide financial statements.

The City's annual contribution to the plan was determined as part of the July 1, 2008 actuarial valuation using the Entry Age Normal Actuarial Cost method and is based upon a funding policy which provides for the payment of the normal cost with interest plus an amount which will amortize the February 1, 1988 unfunded actuarial accrued liability as a level percentage of pay over the period ending July 1, 2008. Any subsequent increases or decreases in the actuarial accrued liability attributable to plan changes, changes in assumptions or methods, or experience gains or losses will be amortized as a level percentage of pay over a 20 year period from the date they are determined. The amortization period remaining on the unfunded actuarial accrued liability at July 1, 2008 was 10.5 years on a closed basis. The actuarial assumptions included a) 8% investment rate of return (net of investment expenses), and b) projected salary increases of 5.25% per year, which includes a 0.75% annual merit increase and a 0.5% longevity increase. The assumptions did not include post retirement health insurance benefit increases, which are funded by the City on a pay-as-you-go basis. Assets used for valuation purposes are equal to the market value less half the excess of the market value over the "asset value before adjustment," as defined by the City's pension ordinances. The asset value before adjustment is a component of the annual determination of the cost-of-living increase payable to retirees. The asset value before adjustment for a given valuation date is developed as follows. First, the previous year's asset value before adjustment is increased by 200% of the prioryear actuarial present value of the cost-of-living adjustment provided to retirees as of the current July 1. Next, this value is brought forward to the current July 1 by adding contributions made to the plan, and subtracting benefits and administrative expenses paid by the plan during the plan year. Finally, this amount is credited with interest for the year at a rate equal to the negotiated pay increases for active employees during the year plus 3% to arrive at the current July 1 asset value before adjustment.

## NOTE 18 - PENSION PLANS (continued)

# A. CITY EMPLOYEES' PENSION PLAN (continued):

FISCAL	ANNUAL	PERCENTAGE	NET
YEAR	<b>PENSION</b>	OF (APC)	<b>PENSION</b>
<b>ENDING</b>	COST (APC)	<b>CONTRIBUTED</b>	<b>OBLIGATION</b>
6/30/08	\$3,211,753	100.0%	\$ -

6/30/10	3,973,247	100.0%	-

### Funded Status and Funding Progress

As of July 1, 2008, the most recent actuarial valuation date, the plan was 79.2% funded. The actuarial accrued liability for benefits was \$103,090,691 and the actuarial value of assets was \$81,654,940, resulting in an unfunded actuarial accrued liability (UAAL) of \$21,435,751. The covered payroll (annual payroll of active employees covered by the plan) was \$20,447,173, and the ratio of the UAAL to covered payroll was 104.8%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### B. POLICE PENSION II PLAN:

#### Plan Description

The City of Warwick's Police Pension II Plan covers all City police officers that were appointed after February 1, 1971. The Police Pension II Plan is a single-employer defined benefit pension plan that was established in 1971. There is no separate financial report issued for the pension plan. However, the City Employees' Pension Plan has been audited as part of the City's Pension Trust Funds reported in the City's financial statements.

As of July 1, 2009, employees' membership data related to the pension plan was as follows:

Active members	177
Retirees and beneficiaries	116
Non-vested terminated members	<u>-0-</u>
	293

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

**Benefit Provisions** – Members in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50 percent of annual salary at retirement plus incremental increases of 2 percent per year between the 20<sup>th</sup> and 25<sup>th</sup> years, and annual increases of 3 percent between the 26<sup>th</sup> and 30<sup>th</sup> years. For pension purposes, annual salary includes regular, longevity, and holiday pay.

#### **NOTE 18 – PENSION PLANS (continued)**

## B. POLICE PENSION II PLAN (continued):

A member who is unable to perform active duty as a result of a disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service related disability retirement benefit is 66-2/3% of highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The non-service related benefit is 50% of annual salary.

A member who leaves employment prior to completing ten years of service will receive a lump sum payment of accumulated contributions without interest. For terminations after the completion of ten years of service but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2-1/2 percent of annual salary at termination, multiplied by the number of full years of service, payable on the 20<sup>th</sup> anniversary of employment.

The plan provides death benefits to a participant's spouse and dependents that dies while actively employed. For a service related death, the annual benefit is 50% of the deceased member's highest annual salary, payable to the surviving spouse until death or earlier remarriage. For a non-service related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or earlier remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service related deaths is 75% of the deceased member's highest annual salary and for non-service related deaths 50% of the highest annual salary.

A lump sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Funding Policy – Plan members contribute a percentage of their covered earnings (regular, holiday, and longevity) equal to one third of the actuarially determined contribution rate. The City is required to contribute two thirds of the actuarially determined contribution rate. Administrative costs are net against investment return in the actuarial valuation.

### Summary of Significant Accounting Policies

**Basis of Accounting** – The Police II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments – Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

# NOTE 18 - PENSION PLANS (continued)

#### B. POLICE PENSION II PLAN (continued):

# Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension obligation to the Police II Pension Plan for the current year are as follows:

Annual Required Contribution	2,062,481
Annual Pension Cost	2,062,481
Contributions Made	(2,062,481)
Increase (Decrease) in net pension obligation	-
Net pension obligation, beginning of year	
Net pension obligation, end of year	_

The City's annual contribution to the plan was determined as part of the July 1, 2007 actuarial valuation using the Entry Age Normal Actuarial Cost method and is based upon a funding policy which provides for the payment of the normal cost with interest plus a 20-year amortization of the unfunded actuarial accrued liability as of July 1, 1989 as a level percentage of pay plus 25-year amortizations of changes in the unfunded actuarial accrued liability attributable to plan amendments, changes in actuarial methods or assumptions, and actuarial experience gains and losses as a level percentage of pay. The amortization period remaining on the unfunded actuarial accrued liability at July 1, 2007 was 8.3 years on a closed basis. The actuarial assumptions included a) 8% investment rate of return (net of investment and administrative expenses), and b) projected salary increases of 5.25% per year, which includes a 0.75% promotional increase and a 0.5% longevity increase; and c) cost-of-living increases of 3% annually. The assumptions did not include post retirement health insurance benefit increases, which are funded by the City on a pay-as-you- go basis. Assets used for the purpose of determining the contribution level are equal to the fair market value of assets adjusted to recognize the difference between actual investment return and expected return over a five-year period at 20% per year.

FISCAL YEAR <u>ENDING</u>	ANNUAL PENSION COST (APC)	PERCENTAGE OF (APC) CONTRIBUTED	NET PENSION <u>OBLIGATION</u>
6/30/08	\$2,285,974	100.0%	\$ -
6/30/09	2,369,750	100.0%	-
6/30/10	2,062,481	100.0%	-

# **NOTE 18 – PENSION PLANS (continued)**

# B. POLICE PENSION II PLAN (continued):

# Funded Status and Funding Progress

As of July 1, 2009, the most recent actuarial valuation date, the plan was 104.9% funded. The actuarial accrued liability for benefits was \$139,554,358, and the actuarial value of assets was \$137,152,325, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,402,033. The covered payroll (annual payroll of active employees covered by the plan) was \$13,099,942, and the ratio of the UAAL to covered payroll was 18.3%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### C. POLICE PENSION I AND FIRE PENSION PLAN

## Plan Description

The City of Warwick's Police Pension I and Fire Pension Plan cover all City police officers who were appointed before February 1, 1971 and all permanent members of the City's fire department appointed before May 29, 1992. The Police I and Fire Pension Plan is a single-employer defined benefit pension plan that was established in 1953. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate, publicly available financial report that includes financial statements and required supplementary information (RSI) for the City Employee's Pension Plan.

As of July 1, 2009, employees' membership data related to the pension plan was as follows:

	Police	Fire
Active members	1	87
Retirees and beneficiaries	<u>110</u>	<u>257</u>
	<u>111</u>	<u>344</u>

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

**Benefit Provisions** – **Firefighters** – Participating firefighters in the plan who have completed twenty years of service are eligible for retirement. The normal retirement benefit for fire department participants is 50 percent of highest annual salary plus 1% of salary for each year of service in excess of 20 years (maximum 10). Annual salary includes regular, longevity and holiday pay.

Any firefighter retiring after July 23, 1996 may also irrevocably elect to have his or her pension calculated under the City's Fire II Pension Plan. The Fire II benefit formula is 50% of the final year's compensation, plus 2% for each year of service from 20 to 25 years, plus 3% for each year of service from 25 to 30 years with a fixed 3% compounded cost of living adjustment.

# **NOTE 18 – PENSION PLANS (continued)**

# C. POLICE PENSION I AND FIRE PENSION PLAN (continued):

A participant who is unable to perform active duty as a firefighter, which the Board of Public Safety finds to be permanently incapacitated, is eligible for disability retirement. The service related disability benefit for disabilities involving heart, lung, cancer or other Social Security disabilities is 66-2/3 percent of highest annual salary reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of salary .The other service related and non-service related disability benefit is equal to 50% of highest annual salary.

A member is eligible for a return of contributions without interest for terminations prior to the completion of ten years of service. For terminations after completion of ten years of service but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2-1/2 percent of highest annual salary, multiplied by the number of full years of service, payable on the 20<sup>th</sup> anniversary of employment.

The plan provides death benefits to a participant's spouse and dependents that dies while actively employed. The service related death benefit is 50% of the deceased member's highest annual salary, payable to the surviving spouse until death or earlier remarriage. The non-service related death benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or earlier remarriage. 10% of the deceased member's highest annual salary is payable to each surviving child until the age of 18 (or for life if such child is permanently disabled prior to the member's death). The maximum family death benefit is 75% of the deceased's highest annual salary for service related deaths and 50% of highest annual salary for non-service related deaths. A lump sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

**Benefit Provisions** – **Police Officers** – Benefits provided to remaining active police officers are in accordance with the proposed restatement of Section 15-19 of the City's Code of Ordinances. Retirement, death, and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Funding Policy – Active plan members contribute 7% of their covered earnings (regular, holiday and longevity). The City is required to contribute an actuarially determined amount each year calculated in accordance with its pension ordinances. The statutory contribution level is not determined in accordance with GASB 27 requirements as it includes a 40-year amortization of the unfunded actuarial liability as a level percentage of payroll. Administrative costs are net against investment return in the actuarial valuation.

# Summary of Significant Accounting Policies

**Basis of Accounting** – The Police I and Fire Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

*Method Used to Value Investments* – Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

### **NOTE 18 – PENSION PLANS (continued)**

### C. POLICE PENSION I AND FIRE PENSION PLAN (continued):

The City's annual pension cost and net pension obligation to the Police I and Fire Pension Plan for the current year are as follows:

Annual Required Contribution	19,638,790
Interest on ARC	1,703,156
Adjustments to ARC	(1,819,699)
Annual Pension Cost	19,522,247
Contributions Made	(13,125,568)
Increase (Decrease) in net pension obligation	6,396,679
Net pension obligation, beginning of year	21,289,445_
Net pension obligation, end of year	27,686,124

The City's annual contribution to the plan was determined as part of the July 1, 2007 actuarial valuation using the Entry Age Normal Actuarial Cost method and is based upon a funding policy which provides for the payment of the normal cost plus an amount which will amortize the July 1, 1995 unfunded actuarial accrued liability as a level percentage of payroll over a 40 year period ending June 30, 2035 plus 20-year amortization of experience gains or losses, method changes, assumption changes or plan changes since July 1, 1995 as a level percentage of payroll. This funding policy is based on the City's pension ordinances. The City has funded 100% of the Annual Required Contribution as stated in the City's pension ordinance. The funding policy does not comply with GASB Statement No. 27 that requires the annual required contribution be determined using an amortization period not in excess of 30 years. GASB Statement No. 27 also required amortization payments in a closed plan, such as this one, either be based on a level-payment approach or reflect the expected decrease in future payroll for the closed active group. The above annual required contribution was computed using a 30-year level payment amount as required by GASB. The amortization period remaining on the unfunded actuarial accrued liability at July 1, 1995 was 25 years on a closed basis. The actuarial assumptions included a) 8% investment rate of return (net of investment and administrative expenses), and b) projected salary increases of 5.25% per year, which includes a 0.75% promotional increase and a 0.50% longevity increase; and c) cost-of-living increases indexed in accordance with the base salary increases provided to active employees. The assumptions did not include post retirement health insurance benefit increases, which are funded by the City on a pay-as-you-go basis. Assets used for the purposes of determining the contribution level are equal to the fair market value of assets, adjusted to recognize the difference between actual investment return and expected return over a five-year period at 20% per year.

FISCAL YEAR <u>ENDING</u>	ANNUAL PENSION <u>COST (APC)</u>	PERCENTAGE OF (APC) CONTRIBUTED	NET PENSION <u>OBLIGATION</u>
6/30/08	\$19,775,769	64.6%	\$14,437,574
6/30/09	19,551,645	64.5%	21,289,445
6/30/10	19,552,247	67.2%	27,686,124

# **NOTE 18 – PENSION PLANS (continued)**

### C. POLICE PENSION I AND FIRE PENSION PLAN (continued):

# Funded Status and Funding Progress

As of July 1, 2009, the most recent actuarial valuation date, the plan was 26.6% funded. The actuarial accrued liability for benefits was \$286,514,010, and the actuarial value of assets was \$76,142,283, resulting in an unfunded actuarial accrued liability (UAAL) of \$210,371,727. The covered payroll (annual payroll of active employees covered by the plan) was \$7,606,876, and the ratio of the UAAL/(funding excess) to covered payroll was 2765.5%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

### D. FIRE PENSION II PLAN:

### Plan Description

The City of Warwick's Fire Pension II Plan covers all City firefighters who were appointed after May 29, 1992. The Fire Pension II Plan is a single employer defined benefit pension plan that was established in 1992. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate, publicly available financial report that includes financial statements and required supplementary information (RSI) for the Fire II Pension Plan.

As of July 1, 2009 employees' membership data related to the pension plan was as follows

Active members	131
Retired members and beneficiaries	_3
Total	<u>134</u>

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

**Benefit Provisions** – A member who has completed 20 years of service may retire. Such member shall receive an annual benefit equal to 50% of their last year's salary, plus 2% of average salary for each year of service in excess of 20 up to 25, plus 3% for each year of service from 25 to 30. For pension purposes, annual salary includes regular, holiday and longevity pay.

A member who is unable to perform active duty as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The annual benefit for a service related disability involving any heart, lung, cancer or other Social Security disabilities is 66 2/3% of the member's average salary reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of salary. The benefit for other service related and non-service related disabilities is 50% of the member's average salary.

# **NOTE 18 – PENSION PLANS (continued)**

## D. FIRE PENSION II PLAN (continued):

The plan provides death benefits to a member's spouse and dependents for those members who die while actively employed. The service related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. The non-service related death benefit is 30% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. 10% of the deceased member's average salary is payable to each surviving child until the age of 18 (or for life if such child is permanently disabled prior to the member's death). The maximum family death benefit is 75% of the deceased's average salary for service related deaths and 50% of average salary for non-service related deaths. A lump sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Any member, who terminates employment with 10 years or more of creditable service, but less than 20 years of creditable service, shall receive an annual benefit commencing at normal retirement age equal to 2.5% of average salary multiplied by full years of service at termination.

Any member who terminates employment prior to completion of 10 years of creditable service will receive a lump sum payment of his or her accumulated contributions without interest.

Funding Policy – Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to 1/3 of the actuarially determined contribution rate. The City is required to contribute 2/3 of the actuarially determined contribution rate. Administrative costs are net against investment return in the actuarial valuation. For fiscal year 2009-2010, employees were required to contribute 9.94% and the City was required to contribute 19.89% of covered earnings.

#### Summary of Significant Accounting Policies

**Basis of Accounting** – The Fire II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

*Method Used to Value Investments* – Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

June 30, 2010

### **NOTE 18 – PENSION PLANS (continued)**

#### D. FIRE PENSION II PLAN (continued):

#### Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension obligation to the Fire II Pension Plan for the current year are as follows:

Annual Required Contribution	1,594,677
Annual Pension Cost	1,594,677
Contributions Made	(1,594,677)
Increase (Decrease) in net pension obligation	
Net pension obligation, beginning of year	_
Net pension obligation, end of year	

The City's annual contribution to the plan was determined as part of the July 1, 2007 actuarial valuation using the Entry Age Normal Actuarial Cost method and is equal to the sum of the following a) normal cost with interest and b) the sum of the 20-year amortizations of any changes in the unfunded actuarial accrued liability after May 29, 1992 attributable to plan amendments, actuarial method or assumption changes or experience gains or losses as a level percentage of pay. These amounts are amortized with annual percentage increases equal to the base pay increase assumption. The actuarial assumptions included a) 8% investment rate of return (net of investment and administrative expenses), and b) projected salary increases of 5.25%, which includes a 0.75% promotional increase and a 0.5% longevity increase; and c) cost-of-living increases of 3% annually. The assumptions did not include post retirement health insurance benefit increases, which are funded by the City on a pay-as-you-go basis. Assets used for the purposes of determining the contribution level are equal to the fair market value of assets, adjusted to recognize the difference between actual investment return and expected return over a five-year period at 20% per year.

FISCAL YEAR ENDING	ANNUAL PENSION <u>COST (APC)</u>	PERCENTAGE OF (APC) CONTRIBUTED	NET PENSION <u>OBLIGATION</u>
6/30/08	\$ 1,432,908	100.0%	\$ -
6/30/09	1,535,840	100.0%	-
6/30/10	1,594,677	100.0%	-

### E. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

All Warwick Public Schools certified school personnel participate in the Employees' Retirement System of the State of Rhode Island ("System"), a cost-sharing multiple-employer defined benefit pension plan administered by the State of Rhode Island. The System issues a publicly available financial report that includes financial statements and required supplementary information for the City. The financial report may be obtained by writing to Employees Retirement System of Rhode Island, 40 Fountain Street, Providence, Rhode Island, 02903-1854 or by calling (401) 222-2203.

# **NOTE 18 – PENSION PLANS (continued)**

# E. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND (continued)

#### Plan Description

State Statute establishes the following eligibility and benefit provisions. All City certified school personnel are eligible to participate in the System if they are certified by the Board of Regents, engaged in teaching as principal occupation, and are regularly employed on at least a half time basis. The plan provides a two-tier benefit structure referred to as Schedules A and B.

# Schedule A Benefits

Schedule A benefits are available to members who possessed 10 years or more of contributory service on or before July 1, 2005. Schedule A provides unreduced benefits of 1.7% of earnings for each of the first ten years of service; 1.9% for each of the next ten years; 3.0% per year for each of the next fourteen years; and 2% for the 35th year. Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age sixty-two (62) and a reduced amount thereafter. The reduced amount is equal to the benefit before age sixty-two (62), including cost-of-living increases, minus the member's estimated social security benefit payable at age sixty-two (62). The maximum benefit is 80% of final average earnings after 35 years of service. Such benefits are available to members at least age 60 with 10 years of service, or after 28 years at any age. A different benefit formula applies to State correctional officers who may retire at age 50 if they have 20 years of service. Benefits for all employees are based on the average of the highest three consecutive years' earnings, exclusive of overtime.

On the third January after retirement, a cost-of-living increase of 3% (compounded annually) is provided independent of actual changes in the consumer price index. The plan also provides nonservice-connected disability benefits after five years of service; service-connected disability pensions with no minimum service requirement; vested benefits after ten years of service; survivor's benefits for service-connected death; and certain lump sum death benefits.

# Schedule B Benefits

Schedule B benefits are provided to members who had less than 10 years of contributory service on or before July 1, 2005. For Schedule B members, the plan provides unreduced benefits of 1.6% of earnings for each of the first ten years of service; 1.8% for each of the next ten years; 2.0% per year for years 21 through 25 inclusive; 2.25% per year for years 26 through 30 inclusive; 2.50% per year for years 31 through 37 inclusive and 2.25% for the 38th year. Only single life, and joint and survivor options are available. The maximum benefit is 75% of his or her average highest three (3) years of compensation after 38 years of service. Such benefits are available to members at least age 65 with 10 years of service, or after 29 years of service and age 59. Actuarially reduced retirement is available at age 55 and 20 years of service, the benefit is reduced actuarially for each month that the age of the member is less than sixty-five (65) years.

June 30, 2010

## NOTE 18 - PENSION PLANS (continued)

## E. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND (continued)

On the month following the third anniversary date of the retirement, and on the month following the anniversary date of each succeeding year, a cost-of-living increase of 3% (compounded annually) or the percentage of increase in the Consumer Price Index for all Urban Consumers (CPI-U) as published by the United States Department of Labor Statistics, determined as of September 30 of the prior calendar year, whichever is less is provided for Schedule B members.

#### Funding Policy

Rhode Island general laws set the contribution rates for participating State employees at 9.5% of salary. Annual contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as percentage of participants' payroll. The City was required to contribute 11.25%, 11.89%, and 13.04%, for all full-time employees for fiscal years 2010, 2009, and 2008, respectively. The required contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; and (c) interest on the unfunded frozen actuarial liability. Normal cost is determined using the entry age normal cost method with frozen initial liability. Both employers and employees contribute 1% of the first \$9,600 of salary for survivor benefits. A variety of significant actuarial assumptions are used and these assumptions are summarized below:

- A. *Mortality* 1994 Group Annuity Mortality Tables.
- B. *Investment return* 8.25 percent, compounded annually.
- C. Salary increase Salaries will increase at a rate of 4.5-13.25 percent, compounded annually.
- D. **Retirement age** Teachers are assumed to retire at the later of age 60 with 10 years of service credit or any age with at least 28 years service credit.
- E. Cost of living adjustments Schedule A 3.0 percent compounded annually for members eligible at 9/30/09, 2.5 percent compounded annually for members not eligible at 9/30/09. Schedule B 2.5 percent compounded annually.

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years plus 40% of contributions assessed to employers on payroll not reimbursable through Federal programs. This resulted in contribution rates paid by the State on behalf of the School Department of 8.18% of non-federally reimbursable payrolls totaling \$5,928,125 for the fiscal year ended June 30, 2010.

The School Department does not have any investments or related party investment with the State Plan.

# **NOTE 18 – PENSION PLANS (continued)**

# E. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND (continued)

# Annual Pension Cost and Net Pension Obligation

The School Department's annual pension cost and net pension obligation to the School Employee Pension Plan for the current year are as follows:

# Required Contributions:

FISCAL YEAR <u>ENDING</u>	ANNUAL PENSION <u>COST (APC)</u>	PERCENTAGE OF (APC) CONTRIBUTED	NET PENSION OBLIGATION
6/30/08	\$10,625,301	100%	\$ -
6/30/09	9,658,194	100%	-
6/30/10	9,187,493	100%	-

# F. WARWICK PUBLIC SCHOOLS EMPLOYEE'S PENSION PLAN:

### Plan Description

The School administers the Warwick Public Schools Employee Pension Plan, a single-employer defined benefit public employee pension plan. There is no separate financial report issued for the pension plan. However, the City Employees' Pension Plan has been audited as part of the City's Pension Trust Funds reported in the City's financial statements.

All eligible Warwick Public School employees other than teachers are eligible to participate on the first of the month after completing three months of service. A person is considered eligible if they are a) employed 20 hours or more per week and covered under the collective bargaining unit agreement or b) employed 20 hours or more per week in a non-certified management position or c) an elected School Committee member.

As of July 1, 2010, employee membership data related to the pension plan is as follows:

Active members	440
Deferred vested	16
Retired membership	<u>103</u>
-	<u>559</u>

Participants are eligible for normal retirement at the later of age 62 or 10 years of plan participation or at any age upon the completion of 32 years of service with 10 years of plan participation.

## **NOTE 18 – PENSION PLANS (continued)**

# F. WARWICK PUBLIC SCHOOLS EMPLOYEE'S PENSION PLAN (continued):

The normal retirement benefit is 1.67 % of average monthly earnings times years of participation, plus .33% times average monthly earning times years of participation greater than 20. The normal form of benefit is a life annuity. Average monthly earnings are the monthly average of total compensation for the 3 consecutive years of highest compensation of the last 10 years.

The yearly amount of annuity for a School Committee member who becomes a retired member is \$1,000 plus 4.8% times the salary amount for each plan year in which one made mandatory employee contributions.

The plan also provides death and disability benefits.

# **Funding Policy**

Plan members contribute 5% of earnings during the plan year. The School contributes based on an annual actuarial valuation. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

# Summary of Significant Accounting Policies

**Basis of Accounting** – The School Employees Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

**Method Used to Value Investments** - Investments is reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

# Annual Pension Cost and Net Pension Obligation

The school's annual pension cost and net pension obligation to the Plan for the current year are as follows:

2,195,400
41,154
(117,669)
2,118,885
(2,195,000)
(76,115)
587,908
511,793

## **NOTE 18 – PENSION PLANS (continued)**

# F. WARWICK PUBLIC SCHOOLS EMPLOYEE'S PENSION PLAN (continued):

The school's annual contribution to the plan was determined as part of the July 1, 2010 actuarial valuation.

The actuarially determined contribution was calculated using the frozen initial liability cost method. Under this method, the annual cost is equal to the normal cost, plus amortization of unfunded accrued liabilities over a fixed period of years, selected with the minimum (10 years) and maximum (5 to 30 years) periods. The actuarial assumptions included a) 7% investment rate of return and b) projected salary increases of 3.25% c) no assumed cost-of-living increases. The assumptions did not include post retirement health insurance benefit increases, which are funded by the Schools on a pay-as-you-go basis. Assets used for the purposes of determining the contribution are equal to the current book value of plan assets reported by Aetna, and market value of assets reported by USI Securities, Inc., plus accrued contributions.

FISCAL YEAR <u>ENDING</u>	ANNUAL PENSION <u>COST (APC)</u>	PERCENTAGE OF (APC) CONTRIBUTED	NET PENSION OBLIGATION
6/30/07	\$ 1,664,789	72.1%	\$843,494
6/30/08	1,322,553	115.0%	644,963
6/30/09	1,512,193	103.7%	587,908
6/30/10	2,118,885	103.6%	511,793

The School has an unfunded actuarial accrued liability which is disclosed in the schedule of funding progress.

### Funded Status and Funding Progress

As of July 1, 2010, the most recent actuarial valuation date, the plan was 76.87% funded. The actuarial accrued liability for benefits was \$42,039,713, and the actuarial value of assets was \$32,317,581, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,722,132. The covered payroll (annual payroll of active employees covered by the plan) was \$14,772,043, and the ratio of the UAAL to covered payroll was 65.81%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### **NOTE 19 - PRIOR PERIOD ADJUSTMENT**

#### A. SEWER RENEWAL & REPLACEMENT FUND

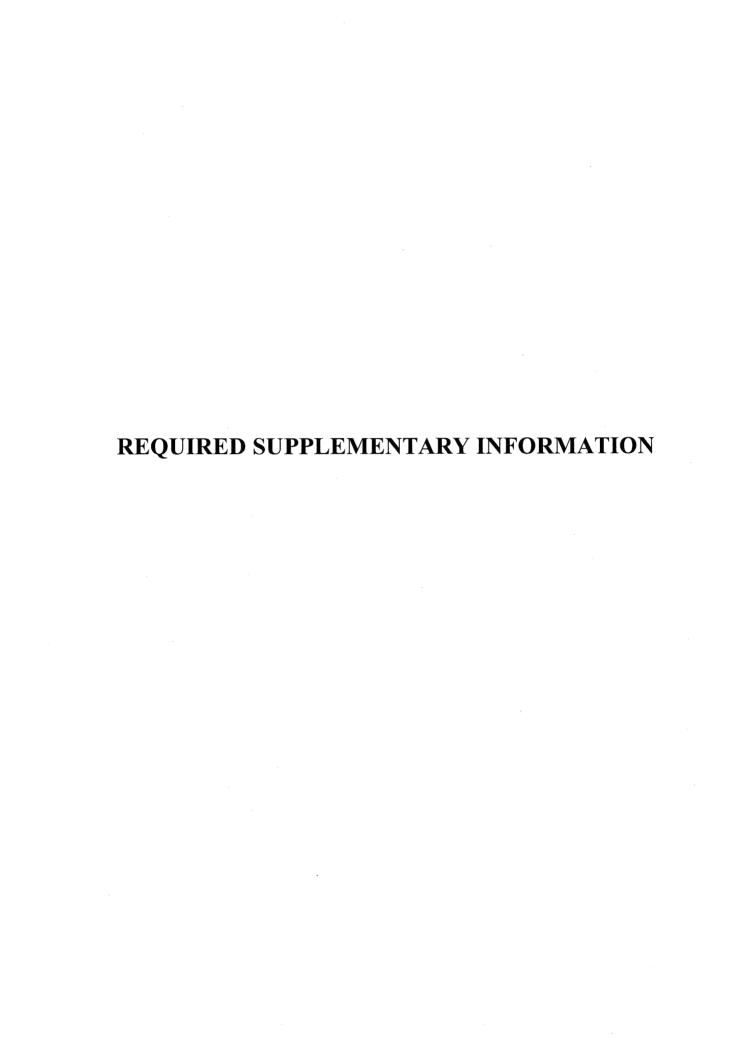

On the June 30, 2009 financial statements the Sewer Renewal & Replacement fund included an expense of \$18,618 for a new computer system that should have been included as a transfer to the Sewer fund and capitalized as a capital asset. The amount was corrected with a prior period adjustment which resulted in an increase of the Sewer Renewal & Replacement Fund's fund balance by \$18,618.

### **NOTE 20 - FLOOD EMERGENCY**

Significant rains between March 29 and March 31, 2010 caused major flooding in the State of Rhode Island. On March 30, 2010, Warwick's wastewater treatment facility was closed after flood waters breached the levee protecting the facility from the Pawtuxet River, which rose 20 feet above its banks. The wastewater treatment facility was inundated with an estimated 70 million gallons of mostly rain and river water, which then mixed with incoming wastewater. The facility had to be pumped out before it could resume sewerage treatment operations. As of April 2, 2010, basic sewerage collection had been restored to the entire City and on April 5, 2010 the Warwick Sewer Authority had restored basic wastewater treatment processes including preliminary treatment and solids collection, as well as disinfection.

The Sewer Authority hired a consultant specialized in disaster recovery of sewerage treatment facilities to assist in the recovery process. The consultant has worked with the Authority to restore the plant to pre-flood conditions. The City has insurance coverage in the amount of 10 million which can be used to rebuild the treatment facility and the neighboring Animal Shelter. In addition, the City has been approved for FEMA for public assistance funds for those expenses not covered by insurance. FEMA will reimburse the City at a rate of 90% of all eligible expenses.

As of June 30, 2010, much of the reconstruction work had not been completed. For the purpose of this report, the existing Fixed Asset Schedule for the Wastewater Treatment Facility has remained intact. Fixed Assets relating to the compromised plant infrastructure will not be removed until reconstruction is complete and the new "replacement" assets are ready to be added to the schedule. In this way we hope to maintain the fair presentation of Sewer's financial statements.

Budgetary Comparison Schedule-General Fund Schedule of Revenues - Budget and Actual For the Fiscal Year Ended June 30, 2010

	Original Budgeted Revenues	Final Budgeted Revenues	Actual Amounts (Budgetary Basis)	Variance

- (1) The information included in the schedule of funding progress was obtained from annual or biennial actuarial valuations at the dates indicated. These were the last actuarial reports available.
- (2) Actuarial valuations are performed on a biennial basis for all pension plans except for the School Employee Pension Plan and Healthcare Plan which have annual valuations.
- (3) The Fire II Pension Plan was established in 1992. Although an actuarial valuation was performed on July 1, 1993, the related contribution formula was not required to become effective until July 1, 1998 per City Ordinance. Prior to July 1, 1998, the total required contribution was 33% of covered payroll with 22% paid by the City and 11% paid by the covered employees. The cap on contributions in the early years of the program was intended to avoid charging the first generation of employees with costs which are expected to be significantly higher than the long term costs of the plan. An actuarial valuation as of July 1, 1997 was completed and was used to determine the contribution requirements for fiscal year 1999.

## CITY OF WARWICK, RHODE ISLAND Notes to Required Supplementary Information June 30, 2010

#### NOTE 1 - SCHEDULE OF FUNDING PROGRESS

The information presented in the required supplementary schedules was determined as part of the annual or biennial actuarial valuations at the dates indicated. Additional information as of the lasted actuarial valuation follows:

	City Employees Pension Plan (1)	Police Pension II Plan	Pension I and Fire Pension Plan
Valuation date	July 1, 2008	July 1, 2009	July 1, 2009
Actuarial cost method	Entry age normal	Entry age normal	Entry age normal
Amortization method	Level percent of payroll over a closed period	Level percent of payroll over a closed period	Level payment over a closed period
Average amortization period	10.5 years	8.3 years	28 years
Asset Valuation method	Market value of assets less half the excess of the market value over the "asset value before adjustment", as defined by the City's pension ordinances	Fair market value of assets adjusted to recognize the difference between actual investment return and expected return over a five year period at 20% per year	Fair market value of assets adjusted to recognize the difference between actual investment return and expected return over a five year period at 20% per year
Actuarial assumptions: Investment rate of return Projected salary increases	8%, per annum (net of investment expense) 5.25% annually	8%, per annum (net of investment and administrative expenses) 5.25% annually	8%, per annum (net of investment and administrative expenses) 5.25% annually
Cost of living adjustments	An annual increase on July 1 if the plan's cumulative investment return as of the previous July 1 has exceeded a target level based on negotiated salary increases for active employees	3% annually	Index in accordance with the base salary increases provided to active employees

## CITY OF WARWICK, RHODE ISLAND Notes to Required Supplementary Information

#### June 30, 2010

#### **NOTE 1 - SCHEDULE OF FUNDING PROGRESS (continued)**

The information presented in the required supplementary schedules was determined as part of the annual or biennial actuarial valuations at the dates indicated. Additional information as of the lasted actuarial valuation follows:

	Fire Pension II Plan		Public School Employees Pension Plan	
Valuation date	July 1, 2009		July 1, 2010	
Actuarial cost method	Entry age normal		Frozen initial liability	
Amortization method	Level percent of payroll over a closed period		Level percent of payroll over a closed period	
Average amortization period	30 years		8.81 years	
Asset Valuation method	Fair market value of assets adjusted to recognize the difference between actuinvestment return and expected return over a five year period at 20% per year	al	Current book value of plar by Aetna and market value by USI Securities plus acc	of assets reported
Actuarial assumptions: Investment rate of return Projected salary increases	8%, per annum (net of investment and administrative expenses) 5.25% annually		7% per annum 3.25% per annum	
Cost of living adjustments	3% annually		None	
Participant information	Active employees Retirees & beneficiaries	131 3 134	Active employees Terminated/Inactive Retirees	440 16 103 559

#### CITY OF WARWICK, RHODE ISLAND Notes to Required Supplementary Information June 30, 2010

#### NOTE 2- BUDGETARY DATA AND BUDGETARY COMPLIANCE

In accordance with the Warwick City Charter, the City has formally established budgetary accounting control for the General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. The General Fund is subject to an annual operating budget submitted and approved by City Mayor and adopted by the City Council. The City Council must hold a public hearing on the budget prior to adoption and may make changes to the budget. The General Fund Budget must be finally adopted no later than June 8th. Should the City council take no formal action on or prior to such day, the budget as submitted by the Mayor, shall be deemed to have been finally adopted by the City Council. The School Unrestricted Fund is subject to an annual operating budget approved by the School Committee and City mayor and adopted by the City Council. The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the reappropriation of accumulated surpluses to the extent necessary. The City's General Fund and School Unrestricted Fund annual operating budgets are in conformance with the legally enacted budgetary basis, which is not in conformance with accounting principles generally accepted in the United States of America. The accompanying budgetary comparison schedules are reflected on the budgetary basis. The difference between the budgetary basis and the accounting principles generally accepted in the United States of America basis is explained below.

The City of Warwick makes use of an encumbrance system. Encumbrances are commitments related to unperformed contracts for goods or services. When a purchase order or commitment is placed, the City reduces the amount of the budgetary authority remaining in a budget category and records an encumbrance. When goods or services are received, the encumbrance balance is reduced and an expenditure and liability is recorded. The City's outstanding encumbrances at year-end are carried forward as a reservation of fund balance.

Appropriations in addition to those contained in the annual operating budgets, except for the purpose of meeting a public emergency, are made upon the recommendation of the City Mayor and by a resolution adopted by the favorable votes of at least five members of the Council. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Director of Finance, subject to approval of the Mayor, may at any time transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department or agency. At the request of the Mayor and within the last three months of the fiscal year, the Council may by resolution transfer any unencumbered appropriation balance or portion thereof from one office, department or agency to another. The level at which General Fund expenditures may not legally exceed appropriations is at the department level. The Schools Unrestricted Fund, a Special Revenue Fund, does not have a legal level of control over expenditures, except that total expenditures may not exceed available revenues. Appropriations which are not expended or encumbered lapse at year end.

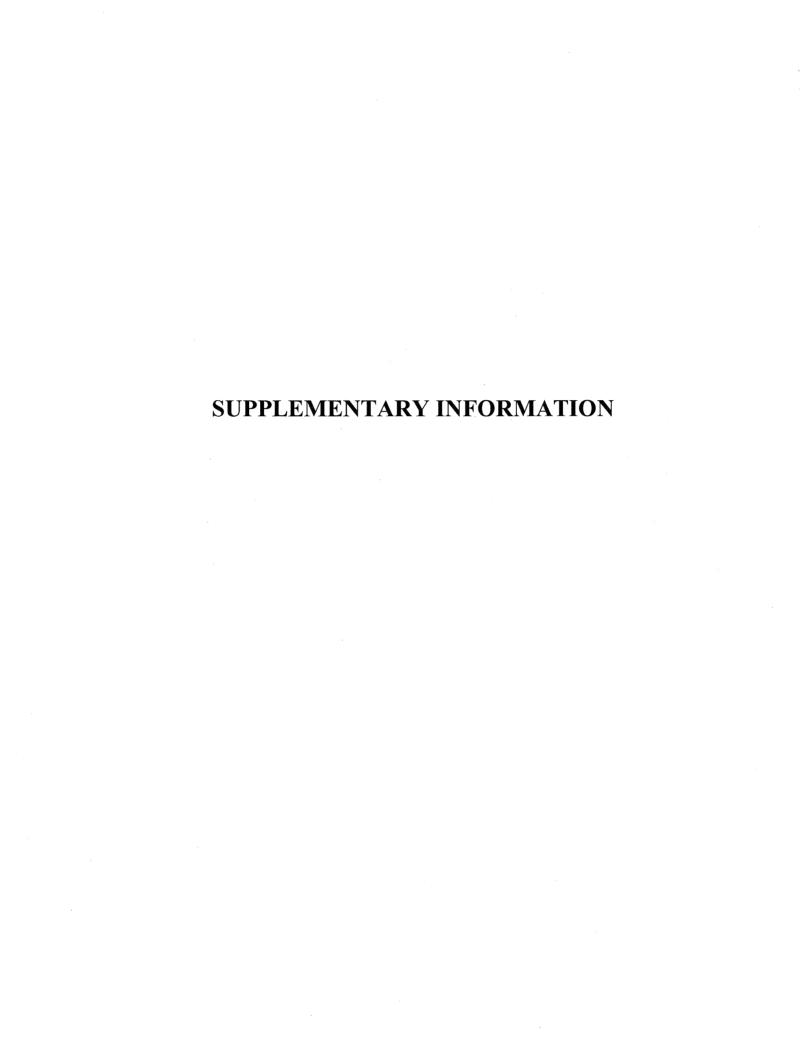

#### CITY OF WARWICK, RHODE ISLAND

#### Notes to Required Supplementary Information June 30, 2010

#### COMBINING FUND FINANCIAL STATEMENTS NON-MAJOR GOVERNMENTAL FUNDS

## THE FOLLOWING FUNDS OF THE CITY ARE REPORTED IN THIS SECTION:

# Special Revenue Funds are used to account for resources allocated to specific purposes. A Special Revenue Fund remains in existence as long as governmental resources are allocated to its specific purposes.

#### School Restricted Funds -

Various funds established to account for the receipt and disbursement of State and Federal grants for education.

**School Lunch Fund** – Accounts for the fees, Federal reimbursements and related expenditures for the lunch program.

Community Development Block Grant - Established to account for the annual Entitlement Community program of the US Department of Housing and Urban Development and related expenditures addressing housing and community development needs throughout Warwick. It provides assistance to the low and moderate income population of the City of Warwick.

**Home Improvement Loan Program** - Established to account for revenues and expenditures for Community Development Block Grant seed program. It allows residents to obtain affordable home improvement loans to improve properties that meet certain requirements.

**Drug Seizure Fund** – Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

Local Law Enforcement Block Grant – Established to account for funding from U.S. Justice Department Local Law Enforcement Block Grants program and related expenditures enhancing law enforcement services and public safety.

**Open Space Land Dedication Fund** – Established to account for residential subdivision fees and related expenditures for public recreation land acquisitions in districts containing these subdivisions.

Warwick Public Library Restricted Fund – Established to account for receipt and disbursements of grants/donations and related expenditures for library operations.

**Warwick Health Initiative Fund -** Established to account for grant funding from the Rhode Island Foundation for the ER Card Program.

**Senior Center Gift Shop** – Established to account for receipts and expenditures related to the operation of Pilgrim Senior Center.

Community Benefit Fund – Established to account for ETICAM fees reserved for emergency response personnel training and acquisition/lease of emergency response vehicles, equipment and supplies.

JAG Grant – Established to account for grant proceeds received from the US Department of Justice for the purpose of enhancing law enforcement operations and public safety.

Excess Hotel Tax Fund – Established to reserve economic development portion of state hotel tax exceeding current year tourism related expenditures.

**Special Detail Fund** – Established to account for proceeds from Police Special Detail assignments and related expenditures.

**Rescue Services Fund** – Established to account for the rescue service fees and any related expenditures.

Emergency Operations Fund – Established to account for the revenues and expenditures associated with the March 2010 Flood Disaster.

**Mooring Fee Reserve Fund** – Established to account for waterfront safety fees and related expenditures.

City Clerk Restricted Fund – Established to account for fees and expenditures related to the enhancement of the vital statistic and land evidence systems.

**State Asset Forfeiture Fund** – Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

**Sewer Connection Grants** – Established to account for the receipt and disbursement of funds relating to a grant program which assists residents with the cost of new sewer connections.

**Lead Reduction Program Fund** – Established to account for a grant received from the US Department of Housing and Urban Development. Expenses relate to oversight and monitoring of lead reduction programs for low and moderate income residents of the City of Warwick.

**Debt Service Fund** – Established to record principal and interest payment on long-term debt.

#### The Capital Project Funds

account for all resources used for the acquisition and/or construction of capital items by the City and School except those financed by the Proprietary Funds Types of Trust Funds.

# STATISTICAL SECTION

The Statistical Schedules differ from other financial Statement presentations because they generally disclose more than one fiscal year and may present non-accounting data such as social and economic data and financial trends of the City.

### STATISTICAL SECTION

This part of the City of Warwick, Rhode Island's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

#### **Contents**

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the City's financial position has changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader understand and assess the factors affecting the City's ability to generate its most significant local revenue sources, the real and personal property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

# **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and Members of the City Council City of Warwick Warwick, Rhode Island

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Warwick (City), as of and for the year fiscal ended June 30, 2010, and have issued our report thereon dated March 22, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered City of Warwick's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency in internal control over financial reporting. Finding: 2010-1 A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the City in a separate letter dated March 22, 2011.

The City of Warwick's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the City's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the City Council, the School Committee and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable President and Members of the City Council City of Warwick Warwick, Rhode Island

#### **Compliance**

We have audited the compliance of the City of Warwick (City), with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City's compliance with those requirements.

In our opinion, the City, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

#### **Internal Control Over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on a major federal program

in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the City Council, the School Committee, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# SECTION II – FINDINGS RELATING TO THE FINANCIAL STATEMENT AUDIT AS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

A. Significant Deficiency in Internal Control

#### Finding 2010-1 Financial Reporting

#### Criteria

Accounting systems are designed and dependent upon compliance with established policies and procedures for authorizing and recording transactions properly and consistently in accordance with generally accepted accounting principles.

#### **Condition**

During our audit it was noted that the internal balances between the City's General Fund and the School Department's fund activity were not in balance at the end of the fiscal year June 30, 2010. This situation has required the School Department to record an unreconciled liability on their financial records so the internal balances in the financial statements will be in balance.

#### Cause

The School Departments prior Controller resigned in February of 2010 and the School Department was not able to fill that position May of 2010. The prior Controller took with him the institutional knowledge that was required to reconcile the complex activity that is part of the internal balances of the School Department and City's General Fund. At this time the City and the School Department are working together to reconcile their balances.

#### **Effect**

The financial statements liabilities could be materially misstated.

#### Recommendation

We recommend that the City and School Department work together to resolve this outstanding issue and then on a monthly basis reconcile the internal balances so at the end of the fiscal year all accounts will be in balance.

## Schedule of Findings and Questioned Costs For The Fiscal Year Ended June 30, 2010 (continued)

#### A. Significant Deficiency in Internal Control Reported (continued)

Finding 2010-1 Financial Reporting (continued)

#### Management Response - City

The City recognizes the importance of balancing inter-fund accounts and has adhered to internal control procedures which should ensure that all School transactions have been properly recorded. On the city side, the majority of our School transactions are recorded on a cash basis. Before wiring funds, we require a signed warrant from the School Department, along with a detailed account breakdown which is used for journalizing the transactions. The transactions are journalized on a timely basis, and our cash accounts are balanced regularly to ensure that the transfer of funds was correct. Additionally, to assist in the reconciliation process, the City will also process adjusting journal entries at the request of the School Department. Then, each month, the City forwards budgetary and trial balance reports to the School Department. These reports provide complete and detailed year to date transaction information and should provide the basis for balancing the inter-fund accounts. As a final step, we will now request that the School Department send a formal reconciliation report back to the City after reviewing the monthly reports. Further, to alleviate future inter-fund reconciliation issues, the City has recommended that the School Department alter its internal accounting procedures concerning the proper recording of cash transactions and the appropriate use of the inter-fund account. If these changes are implemented, the reconciliation process should be less complicated.

In terms of the reconciliation problem encountered this year, we feel that it was an accounting error more than a control issue. Subsequent information has revealed that the basis of the problem centered around a year end accrual that was not classified properly. We feel confident that the financial statements have been presented fairly.

#### Management Response - School Department

As mentioned above, Management was not able to dedicate adequate resources to the Due to/Due from reconciliation process for fiscal 2010 due to transition of staffing and other state mandated projects. However, Management recognizes the importance of reconciling with the City on a timely basis and has now committed resources to resolve the difference for fiscal 2010. School Administration and the City of Warwick are working together to reconcile the Due to/Due From on a monthly basis. It is anticipated that both of these tasks will be completed no later than June 30, 2011. It is Management's intent to perform the reconciliation process more timely going forward.

## Notes to Schedule of Expenditures of Federal Awards June 30, 2010

- 1. **General -** The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal programs of the City of Warwick, Rhode Island.
- 2. **Basis of Accounting** The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.
- 3. **Determination of Type A, Type B and Major Programs -** The determination of Type A and Type B federal programs was based upon the expenditures for all federal programs for the City of Warwick. As such, the threshold for determining Type A vs. Type B programs is determined at the entity level. For the fiscal year-ended June 30, 2010, grants with expenditures exceeding \$445,646 were determined to be Type A programs and all other grants were considered Type B programs. The following programs were considered major programs:

CFDA Number(s)	Name of Federal Program or Cluster
	Community Development Block Grant Cluster
14.222	Community Development Block Grant/Entitlements Grant
14.253	ARRA - Community Development Block Grant
	Special Education Cluster
84.010	Title I Grants to Local Educational Agencies
84.389	ARRA-Title I Grants to Local Educational Agencies
	Special Education Cluster
84.027	Special Education Grants to States
84.173	Special Education Preschool Grants
