Independent Auditor's Report

The Honorable President and
Members of the Town Council
Town of Tiverton
Tiverton, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Tiverton, Rhode Island (Town) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Tiverton, Rhode Island, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Emphasis of Matter

As discussed in Note 1 to the financial statements, in 2015, the Town adopted new accounting guidance, *GASB No. 67, Financial Reporting for Pension Plans and GASB No. 68, Accounting and Financial Reporting for Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Tiverton, Rhode Island's basic financial statements. The introductory section, other supplementary information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules included in the other supplementary information section are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules included in the other supplementary information section are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated, December 8, 2015, on our consideration of the Town of Tiverton, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Tiverton, Rhode Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

The management of the Town of Tiverton, Rhode Island (herein, The Town), offers readers of the Town's financial statements this narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented herein conjunction with additional information found within the financial statements.

The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body that provides guidance on how to prepare financial statements in conformity with generally accepted accounting principles (GAAP). Users of these financial statements (such as investors and rating agencies) rely on the GASB to establish consistent reporting standards for all governments in the United States. This consistent application is the only way users (including citizens, the media, legislators and others) can assess the financial condition of one government compared to others.

Financial Highlights

- ❖ The Town's primary governments net position increased \$6,205,742 as a result of this current year's operations. This increase was attributable to various factors including reduction in pension liabilities associated with the State pension plans.
- ❖ The government-wide assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$6,644,159. The net position of business activities increased by \$1,568, while the net position of Governmental Activities increased by \$6,204,177.
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$54,341,120 a 7.5% increase from the prior year, while revenues collected were \$53,503,594 a 1.5% increase over the prior year.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$12,895,968. Of this amount \$1,860,460 or 14.4%, is unassigned in the general fund and available for use within the Town's designation and fiscal policies. \$2,323,296 is available for School expenditures and \$8,267,294 is set aside for the remaining nonmajor governmental funds.
- ❖ At the end of the current fiscal year, the general fund unassigned fund balance was \$1,860,460, or 4.5% of the total general fund expenditures and transfers out for the fiscal year. The current year's expenditures and transfers exceeded revenues and transfers by \$464,149. On a budgetary basis expenditures exceeded revenues and transfers by \$425,994. The School department unrestricted fund ended with a combined fund balance of \$2,323,296 or 7.9% of the current year budget. The current year's revenue and transfers exceed the current year expenditures by \$628,801.

Implementation of New Standards:

For the year ending June 30, 2015, the Authority implemented the following pronouncements issued by the GASB:

- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*
- GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*
- GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

Implementation of New Standards (Continued):

The implementation GASB Statements No. 68 and 71 represented a significant change in the accounting and reporting of pension expense and the related liability. For the first time, the Authority recognized its long-term obligation for pension benefits as a liability to more comprehensively measure the annual costs of pension benefits. The implementation of this Statement also expanded pension related note disclosures and required supplementary information. As a result of this change in accounting principle, the Authority has restated its beginning net position within the business-type activities. See "Note 15 Restatement" for more information.

The implementation of GASB Statement No. 69 had no material reporting impact for the Town.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

The government-wide financial statements provide both long-term and short-term information about the Town as a whole. The fund financial statement focus on the individual components of the Town's government, reporting the Town's operations in more detail than the government-wide statements. Both representations (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison and enhance the Town's accountability. An addition part of the basic financial statements are the notes to the financial statements. The report also contains other required supplementary information as well as additional supplementary information to the basic financial statements themselves.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. The statements provide both short-term and long-term information about the Town's financial position, which assists in assessing the Town's economic position at the end of the fiscal year.

The *Statement of Net Position* presents information on all of the Town's assets and liabilities along with any deferred inflows and/or outflows of resources, with the difference between the two reported as Net Position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples would include uncollected taxes and earned, unused compensated absences.

Both government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's business activities include the Land Acquisition Fund and the Cafeteria Fund.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

Government-wide financial statements (Continued)

In the statement of activities, the operations of the Town are presented in a format that reports the net expense and revenues of its individual functions - the objective being to report the relative burden of each of the Town's functions to the tax payers. Revenues offsetting related functional expenses are separated into three categories: charges for services, operating grants and contributions, and capital grants and contributions.

The government wide financial statements are reported on pages 18 through 21.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories-governmental funds, proprietary funds and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Special Revenue Unrestricted Fund, which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the supplementary section of this report.

The basic governmental fund financial statements are presented on pages 22 and 23.

Proprietary Funds - The Town's proprietary funds are used to report financed business-type activities provided to the general public (enterprise funds). These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The Town has two enterprise funds, the Land Acquisition Fund and the Cafeteria Fund. Both are considered to be major funds for financial statement process.

The basic proprietary fund financial statements are presented on pages 26 through 28.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 29 and 30.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

Governmental Funds (Continued)

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 31 through 76.

Other Required Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required supplementary information presents schedules detailing certain pension information, as well as, budgetary comparison schedules for the general fund and the school unrestricted fund to demonstrate compliance with their respective budgets. Required supplementary information is presented on pages 77 through 98.

Supplementary Information - The combining statements referred to earlier in connection with non-major governmental funds, as well as other information, are presented on pages 99 through 137.

Statistical Section - Information contained in the section has not been subject to audit procedures but is included as additional analysis and can be found on pages 138 to 143.

Government-wide Financial Analysis

Analysis of the Town of Tiverton's Net Position

As noted earlier, the Town's net position may serve over time as a useful indicator of a government's financial position, and an important determinant of its ability to finance services in the future. The Town's governmental activities assets plus deferred outflows exceeded liabilities plus deferred inflows by \$2,844,292 as of June 30, 2015. This represents a current years' increase of \$6,204,177. Listed below is a comparison of the current and prior fiscal years.

	Governmental		Business-Type		Total		\$ Change

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

The Town's net position invested in capital assets, net of related debt comprises \$20,601,102 of total net position. This amount consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

In addition, a portion of the Town's net position totaling \$1,748,749 represents resources that are subject to external restriction in how they may be used. Unrestricted net position, totals \$(15,705,692), and represents the remaining amount available to be used to meet the government's ongoing obligation to citizens and creditors.

Changes in Net Position

The following analysis provides a summary of the Town's operations for the year ended June 30, 2015. Governmental activities increased the Town's net position by \$6,204,177 for the current period, while business-type activities increased the Town's net position by \$1,565. Overall the Town's current year's net position increase was \$6,205,742.

In the current fiscal year, the Town's governmental fund financial statements ended with a net increase in the overall fund balances of \$2,091,716. The increase in the overall fund balance is primarily a result of proceeds from issuance of long term debt related to the Library Bond. These funds received covered costs from the prior year and current year associated with the construction of the Library.

In the statement of activities, expenditures for capital items are not recorded as expenses, but shown in the balance sheet as capital assets, with depreciation shown as a current year expense which resulted in a net increase of \$7,382,450. Bond payments are not recorded as expenditures but shown in the balance sheet as a reduction in long-term liabilities; this resulted in an increase to the Town's net position of \$1,980,000. Other changes were due to an increase in the Town's other post-employment benefits of \$966,821 a decrease in the Town's net pension obligation of \$5,071,399, and an increase from the fiscal year 2014 Landfill closure and post closure liability of \$3,174,724.. The overall effect was an increase in the Town's net position of \$6,204,177.

The following page presents the Changes in Net Position for the current year's activity.

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

Financial Analysis of the Town of Tiverton's Funds

Governmental Funds - The focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$12,895,968. Of this amount \$1,701,625 or 13.2% is unassigned and available for use within the Town's designation and fiscal policies. The remainder of the fund balance is categorized at various commitment levels as follows.

	2015	2014	\$ Change
Nonspendable for			
Prepays	\$ 160,410	\$ 181,343	\$ (20,933)
Restricted for			
Educational programs	1,314,953	1,482,706	(167,753)
Public safety programs	75,681	449,471	(373,790)
Public works	381,412	-	381,412
Health and human services	2,390	17,838	(15,448)
Committed for			
Public safety programs	611,788	955,582	(343,794)
Public works programs	6,547,883	6,076,206	471,677
General government	174,792	93,000	81,792
Capital projects	380,008	54,986	325,022
Various school renovation projects	1,131,415	239,655	891,760
Health and human services	7,944	8,390	(446)
Culture and recreation	431,354	383,158	48,196
Unassigned	<u>1,675,938</u>	<u>861,917</u>	<u>814,021</u>
 Total fund balances	 <u>\$ 12,895,968</u>	 <u>\$ 10,804,252</u>	 <u>\$ 2,091,716</u>

Proprietary Funds - The Town's proprietary fund statements provide the same type of information as presented in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds are \$297,275.

General Fund Budgetary Highlights:

The original budget for the fiscal year ended June 30, 2015 was adopted at the financial town referendum in the amount of \$47,892,651. No changes were made to the final budget amount however transfers were authorized between expenditure line items.

Actual revenues reported were less than budgeted amounts by \$43,214, due principally to a short fall in tax revenues in the amount of \$284,025. Rescue billings ended the year with a positive variance of \$104,500.

Actual expenditures resulted in a favorable variance over the budget in the amount of \$246,219. The favorable amounts were in varying departments including \$104,830 related to public safety.

The total excess of expenditures and other financing sources over revenues and other financing uses on a budgetary basis was \$425,994.

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

Municipal budgeting is a process that includes forecasting revenue and expenses over one year in advance. While we can be reasonably assured of contractual expenses, debt service payments, and other planned expenditures, it is difficult to project all unexpected circumstances. Keeping a close watch on expenditures as the year progresses allows us to anticipate and prioritize other needs as they may arise. In addition to monitoring all financial transactions, a budget can be used as a management and planning tool.

The Town of Tiverton's Capital Assets

The Town's investment in capital assets for its governmental and business-type activities amounts to \$55,304,447 net of accumulated depreciation at June 30, 2015. Included are land, building and improvements, motor vehicles, furniture and equipment and infrastructure.

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>		<u>Total</u>		<u>\$ Change</u>

Additional information on the Town's capital assets is located in Note 7 of the notes to the financial statements. Increase in governmental activities infrastructure as of June 30, 2014 due to current year restatement to include sewer line not added in 2002. See restatement note for details.

The Town of Tiverton's Debt Administration

At the end of the current fiscal year, the Town's Governmental Activities had a total bonded debt of \$36,410,000. Of this amount, 100% comprises bonded debt backed by the full faith and credit of the government. The following is a summary of the Town's long-term debt.

	Debt Administration						
	<u>Governmental Activities</u>		<u>Business-Type Activities</u>		<u>Total</u>		<u>\$ Change</u>

TOWN OF TIVERTON, RHODE ISLAND

Management's Discussion and Analysis

For the Year Ended June 30, 2015

The Town of Tiverton's Debt Administration (Continued)

The State of Rhode Island imposes a limit of 3 percent of the fair value of all taxable Town property on the general obligation debt that a municipality can issue. The Town of Tiverton's limit is \$58,351,504 at year-end. The Town's outstanding general obligation debt is \$36,410,000 at year-end, which is \$21,941,504 under the State imposed limitation.

Economic Factors and Next Year's Budgets and Rates

Similar to previous budget years, we strive to maintain and control expenses, ensure revenues are consistent with projections and adhere to the budget favored by the electors. A withdrawal from our unreserved general fund of \$595,806 was required to balance the FY15 budget. In keeping with our desire for the most favorable outcome, we deferred a few discretionary items in the budget. However, revenue projections overall came up \$43,214 short. So while FY15 proved to be a challenging year, we were still able to mitigate the withdrawal from the unreserved general fund to \$425,994.

The Town Council adopted a resolution in June 2015 to address our growing road and paving concerns. Operating expense accounts ending the fiscal year with an available balance in excess of \$500 were, by resolution set aside into a restricted account for our paving needs; thus a total of \$182,760 will be available to enhance our paving efforts in FY16.

The town continues to fully fund the Police Pension ARC, having planned and contributed \$700,000 in FY2015, \$163,366 more than the Annual Required Contribution. We continue to see positive progress in our funding status, and as of FY15, the plan is funded 67%.

Our new library was officially opened in May 2015. While the total price tag tops \$10 million, together with the Library building committee, the town was able to secure favorable financing that included 60.9% reimbursement from the State Library Construction program.

FY16 will continue to challenge the Town Administration, as another elector budget was passed which requires another withdrawal from unreserved general fund in the amount of \$360,000. Municipal expenses which include \$408,397 for capital and non-recurring expenses total \$18,021,173. This represents nearly 38% of the total budget. The remaining 62% is budgeted for Educational expenses and totals \$29,455,785. Through November 30, 2015, we have expended 32% of the budget and recognized just over 50% of our projected revenue.

We have also just been approved to refinance two of our existing school bonds from 2006 & 2007. As part of this process we were subjected to a Moody's rating review. As a result of the FY15 withdrawal from our UGF, another projected withdrawal from FY16, and the potential for future elector budgets, something of great concern to the rating agency, we were issued a rating of A1. Furthermore, we were unable to participate in the pooled refinance and rating. While the Charter does not allow for withdrawals that would cause the unreserved general fund to fall below 3% of our operating budget, this should serve as warning to our taxpayers. In the long run, lowered ratings result in higher costs.

Request for Information

The financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the Town's finances and to show the Town's accountability for the tax dollars received. If you have questions about this report or need additional financial information, contact Denise G. Saurette, Town Treasurer, Treasurer's Office, Town of Tiverton, 343 Highland Road, Tiverton RI 02878.

Reconciliation of Governmental Fund Balances
to the Net Position of Governmental Activities

June 30, 2015

Total governmental fund balances	\$ 12,895,968
Assets used in governmental activities are not financial resources and, therefore, are not reported in the funds	
TSB - net pension asset	3,712,154
MERS - net pension asset	1,677,177
Capital assets, net	55,304,447
Other pension related liabilities are not available to pay for current-period expenditures and, therefore, are deferred outflows of resources in the funds	2,382,854
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred inflows of resources in the funds	6,317,370
Other pension related assets are not available to pay for current-period expenditures and, therefore, are deferred inflows of resources in the funds	(4,012,060)
Long term liabilities relating to bond premiums amortized over the life of the bond	(456,358)
In the statement of activities, interest is accrued on outstanding long-term debt whereas in governmental funds interest is not reported until due	(339,822)
Long-term liabilities are not due and payable in the current period and, therefore are not reported in the governmental funds	
Bonds and notes payable	(36,410,000)
Capital leases	(999,757)
Compensated absences	(1,062,674)
Other postemployment benefits	(5,798,478)
ERS - net pension liability	(16,540,458)
Police net pension liability	(4,826,071)
Landfill closure and postclosure care costs	<u>(9,000,000)</u>
Net position of governmental activities	<u>\$ 2,844,292</u>

The accompanying notes are an integral part of this statement.

TOWN OF TIVERTON, RHODE ISLAND

Reconciliation of Governmental Funds Statement of Revenues, Expenditures, and
Changes to Fund Balance the Statement of Activities

For the Year Ended June 30, 2015

Net change in fund balances - total governmental funds	\$ 2,091,716
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period	7,385,384
Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in deferred inflows of resources	3,830,477
The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items	(4,756,871)
Bond premiums for long term debt are amortized over the course of the payable but are not reported as an expenditure on governmental fund statements	35,762
In the Statement of Activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest, is not reported until due	10,131
Some expenses reported in the Statement of Activities, such as compensated absences, do not require the current financial resources, and therefore, are not reported as expenditures in the governmental funds	46,301
The other postemployment benefit expense reported in the Statement of Activities requires the use of current financial resources and is not reported as an expenditure in the governmental funds	(966,821)
The net pension related expense reported in the Statement of Activities requires the use of current financial resources and is not reported as an expenditure in the governmental funds	1,702,822
The landfill closure and post closure expense reported in the Statement of Activities requires the use of current financial resources and is not reported as an expenditure in the governmental funds	<u>(3,174,724)</u>
Change in net position of governmental activities	<u>\$ 6,204,177</u>

The accompanying notes are an integral part of this statement.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies:

The basic financial statements of the Town of Tiverton, Rhode Island (the "Town") have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental entities (U.S. GAAP). In certain instances, summaries of the Town's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

A. Financial Reporting Entity

The Town of Tiverton was founded in Massachusetts in 1694 and in Rhode Island in 1746. The Town is governed largely under the Tiverton Home Rule Charter. The Town operates under an elected Town Council, School Committee, Budget Committee, Town Clerk, and Town Treasurer form of government. The Town Council operates with assistance from a Town Administrator while the School Committee has assistance from a Superintendent of Schools. Both the Town Clerk and Town Treasurer have appropriate support staffs. The Budget Committee operates from the start of January until the annual Town Financial Referendum is held in early May. The Town provides the following services: Public Safety (police, fire, traffic safety, inspections, zoning and building), Public Works (recreation, sanitation, highways and streets, engineering and building maintenance), Education, Social Services, and General Administrative Services.

This report includes all of the funds of the Town of Tiverton. The reporting entity for the town consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the Town applied the criteria prescribed by Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by GASB Statement No. 61, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town has no reportable component units.

B. Government-Wide Financial Statements

The government-wide statement of net position and statement of activities display information about the Town as a whole. They include all funds of the Town except for fiduciary funds and distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The government-wide statement of activities presents a comparison between expenses and program revenue for each function of the Town's governmental activities. Program revenues include a) fees, fines and charges paid by the recipients of goods or services offered by the programs and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

C. Fund Financial Statements

Fund financial statements of the Town are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

Total assets plus deferred outflows, liabilities plus deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and total assets plus deferred outflows, liabilities plus deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Fund types used by the Town and a description of the funds comprising each are as follows:

1. Governmental Funds

Governmental funds are used to account for operations that supply basic government services. The Town uses the following governmental funds:

- a. **The General fund** is the primary operating fund of the Town and is always classified as a major fund. It is used to account for and report all financial resources not accounted for and reported in another fund.
- b. **Special Revenue funds** are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.
- c. **Capital Projects funds** are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays.
- d. **Debt Service funds** are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.
- e. **Permanent funds** are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the Town's programs. The Town does not have any permanent funds.

2. Proprietary Funds

Proprietary funds are used to account for business-like activities provided to the general public (enterprise funds) or within the government (internal service funds). These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Both of the Town's enterprise funds, Land Acquisition Fund and Cafeteria Fund, are major funds. The Land Acquisition Fund is used to account for the purchase of land for use by the town and fees and the expenses associated with maintaining the land for future use. The Cafeteria Fund is used to account for the school lunch program and expenses related to providing breakfast and lunch to Tiverton students. The Town has no internal service funds.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

C. Fund Financial Statements (Continued)

3. Fiduciary Funds

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. These funds are as follows:

Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

Pension Trust Fund - is used to account for funds that are to be used for the payment of retirement benefits to former employees. The Pension Committee oversees this fund.

Private-Purpose Trust Funds - are used to account for funds that are held by the town under various trust arrangements for the benefit of certain individuals.

D. Measurement Focus and Basis of Accounting

1. Government-Wide Financial Statements

In the Government-Wide Financial Statements the Statement of Net Position and Statement of Activities, the governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. In determining when to recognize intergovernmental revenues (grants and entitlements), the legal and contractual requirements of the individual programs are used as guidance. Revenues are recognized when the eligibility requirements have been met.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between fiduciary fund types. These charges have been reclassified as other receivables or other liabilities.

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services, fines, or privileges provided, 2) operating grants and contributions and 3) capital grants and operations. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

D. Measurement Focus and Basis of Accounting (Continued)

2. Fund Financial Statements

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types accounted for using a "current financial resources" measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types and Fiduciary Fund Types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net assets) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net assets.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges for services. Operating expenses for enterprise funds include the cost of operations and maintenance, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

All Governmental Fund Types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate however, that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

In applying the "susceptible to accrual" concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, amounts must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore revenues are recognized based upon the expenditures recorded.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

D. Measurement Focus and Basis of Accounting (Continued)

2. Fund Financial Statements (Continued)

For the other type, revenues are virtually unrestricted as to purpose of expenditure and revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the "available" criteria.

All Proprietary Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

E. Financial Statement Amounts

1. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, time and demand deposits and short-term investments maturing within three months from the date of acquisition.

Under Rhode Island general laws, depository institutions must insure deposits of municipalities or pledge eligible collateral equal to 100% of deposits maturing in greater than 60 days. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of date of maturity. The Town complied with these requirements.

2. Investments

Investments are government securities, commercial paper and various types of corporate stocks and bonds held in the Governmental and Fiduciary Fund types, which are recorded at fair value. Fair value is determined wherever possible, by use of published quoted amounts, where quotes are not available, formal valuations are obtained.

When discounts or premiums are present, the Town will capitalize and amortize the amount over the period of the related investment.

3. Receivables

Accounts receivable are recorded in the General, Special Revenue and Enterprise funds. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

4. Property Taxes

The Town is permitted by state law to levy property taxes. Current tax collections for the Town were 97.29% of the total December 31, 2013 levy. The Town's fiscal 2015 property taxes were levied in July of 2014 on assessed valuation as of December 31, 2013.

Upon levy, taxes are billed quarterly and are due on July 1, October 1, January 1, and April 1. Assessed values are established by Tax Assessor's Office and are currently calculated at 100% of assessed value for real estate and 100% of market value for motor vehicles.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

5. Capital Assets

Capital assets in Governmental Fund type operations are accounted for using the "current financial resources" measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, curbs and gutters, streets and sidewalks, and drainage systems), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets (retroactive to January 1, 1979) is included as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are recorded as expenditures as incurred.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Estimated Description</u>	<u>Lives (years)</u>
Autos and information processing equipment	5
Trucks	8
Equipment	10
Heavy Equipment	25
Buildings, infrastructure, water lines and fire hydrants	40
Sewer mains and certain water assets	75-100

6. Vacation, Sick Leave, and Other Compensated Absences

Town employees are granted vacation and sick leave in varying amounts. Upon retirement, termination, or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay. The amount recorded is that unused days earned at the current rate of pay. For governmental activities the general fund is used to satisfy this liability as it becomes due, while the transfer station enterprise fund accounts for all settlement of business-type liabilities for compensated absences.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

6. Vacation, Sick Leave, and Other Compensated Absences (Continued)

Town employees are entitled to vacation based on length of service. Up to two weeks of vacation days (10 days) are allowed to carry over to succeeding years only with written permission of the Department Head and the Town Administrator. Town employees are entitled to 18 sick days per year of service accruing at the rate of 1.5 days per month cumulative to two hundred (200) days. For all employees hired on or after January 1, 2009, Town employees are entitled to 15 sick days per year of service accruing at the rate of 1¼ day per month cumulative to one hundred fifty (150) days.

Police employees are entitled to vacation based on length of service. Vacation days must be used within the fiscal year. Police are entitled to sick leave at the rate of 17 working days per year. Sick days shall be accumulative to 145 overall working days.

Fire employees are entitled to vacation based on length of service. Vacations may be taken by the employee in accordance with his desires so that all personnel will be able to apply for their vacation days by the 15th of June of each year. Sick leave shall be earned at a rate of 1¾% working days for each full calendar month of service; provided, however, that sick leave shall not accrue in excess of 21 working days per calendar year, and further provided, however, that sick leave shall not accrue in excess of 145 working days.

Public Works employees are entitled to vacation based on length of service. Up to 25 days of vacation are allowed to carry over to succeeding years. Public Works employees are entitled to 1.25 sick days per month worked. Sick leave cumulative to 3 days.

7. Long-Term Liabilities

For long-term liabilities, only that portion, which is matured, is reported as a fund liability of a governmental fund. All long-term liabilities are reported in government-wide financial statement of net position.

8. Deferred Inflows of Resources (formerly known as 'deferred revenue')

In the governmental fund financial statement, deferred inflows of resources represent funds received in advance of being owed or receivables which will be collected and included in revenues of future fiscal years.

In the General fund, deferred inflows of resources relate to revenue that is measurable, but not available.

In the Special Revenue funds, deferred inflows of revenues represents amounts received in advance of expenditures incurred for certain grants.

In the government-wide financial statements revenue is recorded when earned. Therefore, for these statements deferred inflows of resources represents only unearned revenues.

9. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for fund expenditures and/or expense are recorded in order to reserve portions of applicable appropriations, is employed in the governmental and business-type funds.

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

10. Equity Classifications

A. Government-Wide Statements

Equity is classified as net position and displayed in three components:

- **Net investment in capital assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** - Consists of net positions with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- **Unrestricted** - All other net positions that do not meet the definition of "restricted" or "net investment in capital assets".

B. Governmental Fund Financial Statements

The Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- **Non-spendable** - amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact
- **Restricted** - amounts that have been restricted to specific purposes either by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- **Committed** - amounts constrained to specific purposes by the Town, using its highest level of decision-making authority
- **Assigned** - amounts that are intended by the Town to be used for specific purposes, but are neither restricted nor committed
- **Unassigned** - amounts available for any purpose; these amounts are reported only in the general fund.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

10. Equity Classifications (Continued)

B. Governmental Fund Financial Statements (Continued)

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council is the highest level of decision making authority and a meeting of the Town Council is required to establish, modify or rescind a fund balance commitment.
- b) For assigned fund balance: The Town Administrator and Treasurer are authorized to assign amounts to a purpose and with authorization given by the Town Council.
- c) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when an expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

11. Revenues, Expenditure and Expenses

Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred. Revenues and expenses of proprietary fund types are recognized using the full accrual basis of accounting. Revenue is recognized when earned and expenses as incurred.

12. Program Revenues and Expenses

In the statement of activities specific revenues are allocated to program expenses due to their direct relationships. Collections for licenses, fees, tickets and fines are among some of the revenue sources that are program revenues. Indirect expenses are not allocated to functions in the statement of activities.

13. Bond Premiums

In the Governmental Fund Financial Statements, bond premiums and debt issuance costs are treated as period costs in the year of issuance. Debt issuance costs are shown as an "expenditure" and bond premiums are reflected as an "other financing source".

In the Government-Wide Statements, bond premiums are deferred and amortized over the term of the related debt. Bond premiums are presented as an addition to the face amount of the bonds.

14. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefitting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

15. Pensions

Employees' Retirement System Plan (ERS)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System plan (ERS) and the additions to/deductions from ERS' fiduciary net position have been determined on the same basis as they are reported by ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Municipal Employees' Retirement System (MERS)

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees' Retirement System (MERS) of Rhode Island and additions to/deductions from MERS' fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Teachers' Survivors Benefit Plan (TSB)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Survivors Benefit plan (TSB) and the additions to/deductions from TSB fiduciary net position have been determined on the same basis as they are reported by TSB. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Police Pension Plan

(a) Basis of Accounting The Plan's financial statements are prepared using the accrual basis of accounting and in accordance with generally accepted accounting principles that apply to governmental accounting for defined benefit plans. Employer contributions are recognized when made, because there are no required due dates for contributions. Other additions are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan document. Plan expenses, other than benefits and refunds are recognized on the accrual basis in accordance with generally accepted accounting principles.

(b) Plan Expenses Certain expenses are paid from the assets of the Plan and are recorded as administrative expenses on the financial statements. These expenses include actuarial fees, auditing expenses, benefit payment processing fees, legal fees and other miscellaneous expenses.

Additionally, investment manager fees and investment consulting expenses are recorded as investment expenses.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 1. Summary of Significant Accounting Policies (Continued):

E. Financial Statement Amounts (Continued)

15. Pensions

Police Pension Plan (continued)

(c) **Fair Value of Investments** Plan investments are reported at fair value. The Plan's custodian provides pricing for all Plan investments. Plan investments in market-traded securities, including U.S. government and agency securities, municipal and corporate bonds and debentures, and common stock are reported at last quoted sales/bid prices provided by independent pricing vendors. These holdings are valued by investment managers in accordance with the authoritative guidance on fair value measurements and disclosures. Valuation policies and procedures are generally described in the investment managers' financial statements. Cash equivalents are valued at cost, which approximates fair value.

(d) **Income Taxes** Pursuant to a determination letter received from the Internal Revenue Service (IRS), the Plan is exempt from federal income taxes. Although the Plan has been subsequently amended, management of the Board is of the opinion that the Plan, as amended, meets the IRS requirements and, therefore, continues to be tax exempt.

16. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

F. Implementation of New Accounting Principles

For the year ending June 30, 2015, the Authority implemented the following pronouncements issued by the GASB:

- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*
- GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*
- GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*

The implementation GASB Statements No. 68 and 71 represented a significant change in the accounting and reporting of pension expense and the related liability. For the first time, the Authority recognized its long-term obligation for pension benefits as a liability to more comprehensively measure the annual costs of pension benefits. The implementation of this Statement also expanded pension related note disclosures and required supplementary information. As a result of this change in accounting principle, the Authority has restated its beginning net position within the business-type activities. See "Note 14 Restatement" for more information.

The implementation of GASB Statement No. 69 had no material reporting impact for the Town.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 2. Budgetary Data and Budgetary Compliance:

The Town adopts an annual budget for the General Fund at the annual Financial Town referendum based on recommendations from the Budget Committee. The Town Council with some restrictions can transfer budgeted amounts within and among departments and to authorize emergency expenditures. Any revisions that alter total expenditures must be approved by the taxpayers by a vote at the Financial Town referendum. Management cannot make any transfers without prior Council approval. There were no supplemental budgetary appropriations during the fiscal year. The School Unrestricted Fund is subject to an annual operating budget approved by the School Committee and adopted in total by the Town Council as part of General Fund budget. The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund and Special Revenue - School Unrestricted Fund's annual operating budgets are prepared on the budgetary basis of accounting which is not in conformity with Generally Accepted Accounting Principles. The budget to actual presentation in required supplementary information is reflected on the budgetary basis. The only Special Revenue fund that has a legally enacted budget is the School Unrestricted Fund. Therefore, the budget and actual figures presented for Special Revenue Funds in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual only include this fund.

The Town does not budget for the combined Special Revenue Funds or the Capital Project Funds, since budgetary control is maintained on an individual basis. Since grant periods may differ from the Town's fiscal year, a comparison of budgetary information may not be meaningful and has not been presented in the accompanying financial statements.

Note 3. Stewardship, Compliance and Accountability:

Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$58,351,504 based on the December 31, 2013 assessment. As of June 30, 2015 the Town's debt is under the debt limit by \$21,941,504. In addition to the bonding authority granted under §45- 12-2 of the RI General Laws, the Town of Tiverton can authorize bond issues pursuant to a special act of the RI General Assembly. Bond issues authorized by a special act of the General Assembly are normally not subject to any legal debt limit, but are subject to financial constraints such as the Town's ability and willingness to service the bonded debt. See the statistical section for computation of the legal debt margin.

Note 4. Cash and Investments:

Deposits:

The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments:

Investment of all idle funds is made through national banks or trust companies, providing that the financial conditions and integrity of these institution or institutions are verifiable and can be monitored. The investment of funds are in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 4. Cash and Investments (Continued):

Interest Rate Risk:

The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations:

The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits:

This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2015, the Town owned bank balances of \$14,477,929 were fully insured within each financial institution or through a third party collateralization agreement. Information on the Town's book balance of \$15,282,490 is provided below.

Investments:

This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and investment of the Town consist of the following at June 30, 2015:

Cash and Cash Equivalents		
Deposits with financial institutions	\$	15,282,490
Investments		
Certificate of Deposits	\$	1,533,777
Government Securities		544,881
Municipal Bonds		230,908
Corporate bonds		474,411
Equity		8,343,582
Fixed Index Annuities		1,098,792
Fixed Income		4,233,658
Total Cash and Investments	\$	31,742,499

Cash and investments are classified in the accompanying financial statements as follows:

Statement of Net Assets		
Cash and cash equivalents	\$	14,294,227
Investments		6,886,740
Fiduciary Funds		
Cash and cash equivalents		988,263
Investments		9,573,269
Total Cash and Investments	\$	31,742,499

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 4. Cash and Investments (Continued):

Interest Rate Risk:

Type of Investment	Fair Value	Investment Maturities (in Years)			
		Less Than 1 Year	1 - 5 Years	6 - 10 Years	Over 10 Years
Certificate of Deposits	\$ 1,533,777	\$ 176,399	\$ 745,542	\$ 611,836	\$ -
Government Securities	544,881	131,034	-	220,747	193,100
Municipal Bonds	230,908	-	230,908	-	-
Corporate Bonds	474,411	-	368,856	-	105,555
Equity	8,343,582	8,343,582	-	-	-
Fixed Index Annuity	1,098,792	1,098,792	-	-	-
Fixed Income	<u>4,233,658</u>	<u>4,233,658</u>	-	-	-
Total	<u>\$ 16,460,009</u>	<u>\$ 13,983,465</u>	<u>\$ 1,345,306</u>	<u>\$ 832,583</u>	<u>\$ 298,655</u>

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the town's debt type investments to this risk using the segment time distribution model is as follows:

Credit Risk:

The Town's investment policy allows for investments in obligations of the U.S. Government and its agencies, state and municipal obligations, corporate debt securities, preferred stock, corporate debt, preferred stocks convertible to equities, repurchase agreements and commercial paper. These allowed investments are subject to the following limitations; at the time of purchase all investments must have a rating of A or higher from Moody's or a comparable established rating agency, fixed income investments must be rated at least Baa2 or its equivalent by at least one recognized bond rating service and at least 80% of the fixed income portfolio must carry a rating of A, and commercial paper must be rated P-1 or A-1 by Standards & Poor's or Moody's, respectively.

Moody's Average Rating	Bonds and U.S. Treasury Securities
Aaa	\$ 413,846
Aa2	54,008
A1	52,610
A2	307,935
A3	105,555
Baa1	266,161
Baa2	<u>50,085</u>
	<u>\$ 1,250,200</u>

Totals	\$ 23,574,761	\$ 23,574,761

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 6. Property Taxes

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation.

All property taxes for fund statement purposes are recognized in compliance with NCGA Interpretation-3 (Revenue Recognition - Property Taxes), which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. The Town does not use an allowance method for bad debts. It directly writes off receivables as they become uncollectible as per state law.

Note 7. Capital Assets

The Town defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). The following schedule list prior year balances and current year activity for all Governmental Fund capital asset transactions.

Capital asset activity for the fiscal year ended June 30, 2015 was as follows:

	Balance July 1, 2014	Increases	Decreases	Balance June 30, 2015
<u>Governmental Activities:</u>				
Capital assets not being depreciated:				
Land	\$ 4,166,486	\$ -	\$ -	\$ 4,166,486
Construction in progress	1,866,621	-	1,421,607	445,014
Subtotal	6,033,107	-	1,421,607	4,611,500
Other Capital Assets:				
Buildings and improvements	48,027,185	9,349,515	29,740	57,346,960
Motor vehicles	5,427,266	296,380	-	5,723,646
Infrastructure	15,719,803	236,584	-	15,956,387
Machinery and equipment	2,872,769	1,162,949	-	4,035,718
Subtotal	72,047,023	11,045,428	29,740	83,062,711
Accumulated Depreciation:				
Buildings and improvements	14,462,526	1,078,971	29,740	15,511,757
Motor vehicles	3,864,722	279,138	-	4,143,860
Infrastructure,	10,273,885	679,728	-	10,953,613
Machinery and equipment	1,559,934	200,600	-	1,760,534

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 8. Long-Term Debt (Continued):

Maturities of long-term debt for the year ending June 30, 2016 through 2029 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 2,305,000	\$ 1,707,388	\$ 4,012,388
2017	2,475,000	1,546,440	4,021,440
2018	2,550,000	1,444,247	3,994,247
2019	2,645,000	1,331,325	3,976,325
2020	2,735,000	1,224,846	3,959,846
2021-2025	13,265,000	4,192,285	17,457,285
2026-2030	8,725,000	1,182,831	9,907,831
2031-2035	<u>1,710,000</u>	<u>148,050</u>	<u>1,858,050</u>
	<u>\$ 36,410,000</u>	<u>\$ 12,777,412</u>	<u>\$ 49,187,412</u>

The Town and school has entered into capital leases for various equipment. The following is a schedule of the minimum future payments as of June 30, 2015:

<u>Year End</u>	<u>Town & School Lease Payments</u>
2016	\$ 230,341
2017	221,693
2018	181,042
2019	146,590
2020	110,514
Thereafter	<u>109,577</u>
Future minimum rental payments	999,757
Interest portion of payments	<u>107,235</u>
Obligation under capital leases	<u>\$ 1,106,992</u>

As of June 30, 2015, all capital leases are scheduled to be paid off as of June 30, 2022.

The Town and school has entered into various operating leases for rentals of office copy equipment. Operating lease expenses totaled \$29,686 for 2015 for the governmental funds. The following is a schedule of minimum lease payments:

<u>Year End</u>	<u>Town & School Lease Payments</u>
2016	\$ 20,484
2017	6,047
2018	<u>865</u>
Future minimum rental payments	27,396
Interest portion of payments	<u>-</u>
Obligation under operating leases	<u>\$ 27,396</u>

Notes to the Financial Statements

June 30, 2015

Note 9. Landfill Closure and Postclosure Care Costs

The Town accounts for its closure and post-closure care costs under GASB Statement No. 18. This Statement is based on the October 9, 1991, U.S. Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Facility Criteria", which establishes closure requirements for all municipal solid waste landfills (MSWLF's) that receive solid waste after October 9, 1991. The EPA rule also establishes thirty-year post-closure care requirements for MSWLF's that accept solid waste after October 9, 1993. The effect of this EPA rule and similar state laws or regulations is to obligate MSWLF owners and operators to perform certain closing functions and post-closure monitoring and maintenance functions as a condition for the right to operate the MSWLF in the current period.

State and Federal laws and regulations require the Town to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after its closure.

The most recent study performed by the PARE Corporation in September 2014, had estimated that at the current land filling rate (3,000 tons/year) the Tiverton landfill will reach capacity sometime during 2016 or 2017. PARE's opinion of probable construction cost to cap the landfill, in 2014 dollars, is approximately \$9.0M. This cost accounts for construction materials and labor, engineering fees, permitting, inspection, certification, and storm water management. However it should be noted that this is an approximate cost, and the actual cost to close the landfill will be based on the availability of materials and economic climate at the time of closure. The cost of many of the materials used in landfill capping, specifically the petroleum-based products like the plastic capping material, are tied to highly volatile commodities markets, and therefore, are very difficult to predict prior to the actual landfill closure.

To fund the landfill closure costs, the Town has restricted all net funds received from the pay-as-you-throw trash bag program. For fiscal years 2014 and 2015, the Town has set aside \$398,656 and \$414,442 respectively. As of June 30, 2015, the Town has accumulated \$6,302,077 in the Landfill Closure Capital Project Fund.

Note 10. Other Post Retirement Benefits

Plan Description

In addition to the pension benefits described below, the Town provides post-employment health care benefits in accordance with Town union contracts. These benefits are for continued full family or individual health care for the employee groups as described below.

Plan Types

Medical: Blue Cross Classic/Blue Cross Blue Shield RI or Healthmate Coast to Coast
Dental: Delta Dental of Rhode Island
Life: \$50,000 Term Life Insurance

Eligibility - Medical, Dental

Police employees: 20 years of service or attainment of age 55, whichever comes first. Fire employees: Any age with 20 years.
School employees: Age 55 with 20 years of service
Town Employees: Age 58 with 10 years, (those hired after July 1, 1993 shall not receive retiree medical coverage). Members covered by the Teamsters contract shall receive retiree medical insurance upon attainment of age 58 with 25 years of service, which shall end upon attainment of age 65 (those hired after July 1, 1994 shall not receive retiree medical coverage)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 10. Other Post Retirement Benefits (Continued)

Benefit/Cost Sharing - Medical

Police Employees: Family and Individual plans employee pays \$900.00 per year.*
 Fire Employees: Individual Plan employee pays \$520 per year, Family Plan employee pays \$1,040 per year.*
 Town Employees: Members of Teamsters Union, no cost sharing, all others pay a fixed deductible amount.*
 School Employees: Individual Plan, 25% to 50% based on age & service, Family Plan 25% to 50% based on age and service.*

* Co pays may differ depending upon the contract the employee retire under and date of retirement. This co pay could increase to \$1,000 for single employees and \$2,000 for families.

Benefit/Cost Sharing - Dental

Police Employees: None
 Fire Employees: None
 Town Employees: None
 School Employees: Individual Plan, 25% to 50% based on age & service, Family Plan 25% to 50% based on age and service.

Eligibility - Life Insurance

Town Employees: The Town does not provide life insurance in retirement.
 School employees: Age 55 with 20 years of service until the age of 65.

Membership

	Medical	Dental	Life
Active	276	276	211
Retirees	123	71	34
Total	399	347	245

Funding Policy

Contribution requirements are negotiated between the Town and the respective unions and employees. For the fiscal year ended June 30, 2015, the plan operated on a pay as you go basis and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2015 the Town contributed \$1,286,220 to the plan. The Police and Fire personnel have agreed to contribute to the OPEB cost.

Annual OPEB Funded Status and Net OPEB Obligation

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio	Covered Payroll	UAAL as a % of Covered Payroll
7/1/2012	-	24,492,216	(24,492,216)	0%	N/A	N/A
7/1/2013	-	24,689,939	(24,689,939)	0%	N/A	N/A
7/1/2014	-	21,366,918	(21,366,918)	0%	N/A	N/A

Annual OPEB Funded Status and Net OPEB Obligation (Continued)

Annual OPEB Cost and Net OPEB Obligation: Below are the required pension obligation presentations per GASB 45 for the fiscal year ended June 30, 2015.

Annual required contribution	\$ 2,773,466
Interest on OPEB obligation	338,216
Adjustment to annual required contribution	(363,894)
Amortization of actuarial (gains)/losses	<u>(1,216,272)</u>
Annual OPEB cost	1,531,516
Employer contributions	<u>1,392,728</u>
Increase (decrease) in OPEB obligation	138,788
Net OPEB obligation beginning of year	<u>4,831,657</u>
Net OPEB obligation end of year	<u><u>\$ 4,970,445</u></u>

Required Contributions:

<u>Years Ending June 30</u>	<u>Town's Portion of Annual Required Contributions</u>	<u>Percentage Contributed</u>
2013	\$ 2,485,785	52.01%
2014	\$ 2,542,567	50.59%
2015	\$ 2,773,466	49.80%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include types of benefits provided at the time of each valuation and the historical pattern of sharing benefit cost between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Below are the actuarial assumptions used to project future cost of the plan.

Valuation Date	July 1, 2014
Interest Rate	3.5%
2014 Medical Trend Rate	5%
2014 Dental Trend Rate	5%
General Inflation Assumptions	2.5%
Annual Compensation Increases	3%
Actuarial Value of Assets	Market Value
Amortization of UAAL	30 Years
Remaining Amortization Period	24 Years

Note 11. Pension Plans

Effective July 1, 2012, the State administered retirement system which covers local teachers and certain municipal employees was modified to include both defined benefit and defined contribution plan components.

Employees' Retirement Defined Benefit Pension Plan (ERS)

General Information about the Pension Plan

Plan description - Certain employees of the Town of Tiverton, Rhode Island (Town) participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions - The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans covering state employees and teachers reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at five-year intervals.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2015, Town teachers were required to contribute 3.75% of their annual covered salary. The state and the Town are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Town; the rates were 9.19% and 13.41% of annual covered payroll for the fiscal year ended June 30, 2015 for the state and Town, respectively. The Town contributed \$1,892,289 and \$1,338,127 for the fiscal years ended June 30, 2015 and 2014, respectively, equal to 100% of the required contributions for each year.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Employees' Retirement Defined Benefit Pension Plan (ERS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2015, the Town reported a liability of \$16,540,458 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the Town as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the (name of Teacher Unit were as follows:

Town proportionate share of the net pension liability	\$ 16,540,458
State's proportionate share of the net pension liability associated with the Town	<u>11,342,554</u>
Total net pension liability	<u>\$ 27,883,012</u>

The net pension liability was measured as of June 30, 2014, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014. The Town proportion of the net pension liability was based on a projection of the (Name or Teacher Unit) long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2014 the Town proportion was 0.67955856%.

Subsequent to June 30, 2014 (the measurement date), litigation challenging the various pension reform measures enacted in previous years by the General Assembly (2009, 2010, and 2011) was settled. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly.

The amended benefit provisions in the newly enacted legislation and settlement agreement have not been reflected in the determination of the net pension liability at June 30, 2014 (the measurement date). These amended benefit provisions are summarized below:

- Employees with more than 20 years of service at July 1, 2012 will increase their employee contribution rate from 3.75% to 11% and participate solely in the defined benefit plan going forward – service credit accruals will increase from 1% to 2% per year.
- Employees with more than 10 but less than 20 years of service at July 1, 2012 will receive an increased employer contribution to the defined contribution plan.
- Retirees as of June 30, 2015 will receive two \$500 stipends; the interim cost of living increases will occur at 4 year rather 5 year intervals.
- Minor adjustments were made to the actuarial reduction for employees choosing to retire early.

These amendments are not considered to have a material effect on the net pension liability had they been retroactively applied to the calculation of the total pension liability at June 30, 2013 rolled forward to June 30, 2014. An actuarial analysis of the pension settlement provisions enacted by the General Assembly and approved by the Court indicated that the funded ratio at June 30, 2014 for teachers (determined on a funding basis) decreased from 59.6% to \$58.2%

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Employees' Retirement Defined Benefit Pension Plan (ERS) (continued)

For the year ended June 30, 2015 the Town recognized gross pension expense of \$1,938,318 and revenue of \$788,490 for support provided by the State. At June 30, 2015 the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources	
Contributions subsequent to the measurement date	<u>\$ 1,892,289</u>
Deferred inflows of resources	
Change of assumptions	\$ 585,895
Net difference between projected and actual earnings on pension plan investments	<u>1,424,310</u>
Total	<u>\$ 2,010,205</u>

\$1,892,289 reported as deferred outflows of resources related to pensions resulting from the Town contributions in fiscal year 2015 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	\$ 439,030
2017	439,030
2018	439,030
2019	439,030
2020	82,953
thereafter	171,132

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 6.50%
Investment rate of return	7.50%

Mortality – male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2013 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Employees' Retirement Defined Benefit Pension Plan (ERS) (continued)

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium-term (10 year) capital market return assumptions developed by eight investment consulting firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission's investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

Asset Class	Target allocation	Medium-term expected real rate of return
Global Equity	38%	6.05%
Private Equity	7%	9.05%
Equity Hedge funds	8%	4.75%
Absolute return hedge	7%	2.95%
Real Return	14%	3.85%
Real Estate	8%	4.45%
Core Fixed	15%	0.25%
Cash	3%	-0.50%
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year-horizon return expectations.

Discount rate - the discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Employees' Retirement Defined Benefit Pension Plan (ERS) (continued)

Sensitivity of the net pension liability (asset) to changes in the discount rate - the following presents the net pension liability (asset) calculated using the discount rate of 7.5 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

1.00% Decrease (6.5%)	Current Discount Rate (7.5%)	1.00 Increase (8.5%)
\$ 20,714,879	\$ 16,540,458	\$ 12,280,381

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report

Defined Contribution Pension Plan

Defined Contribution Plan Description:

Employees participating in the defined benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute 1% of annual covered salary. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

As previously indicated in the disclosure of recently-enacted pension legislation, the employer contribution for certain qualifying employees will increase slightly beginning in fiscal 2016.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Town of Tiverton, Rhode Island recognized pension expense of \$359,308, for the fiscal year ended June 30, 2015.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at <http://www.ersri.org>.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Municipal Employees' Retirement Defined Benefit Pension Plan (MERS)

General Information about the Pension Plan

Plan Description - The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org

Benefits provided – For general employees prior to June 30, 2012 the plan provided retirement benefits equal to 2% of a member's final average salary multiplied by the number of years of total service up to a maximum of 75%. Such benefits are available to members at least age 58 with 10 years of service or after 30 years of service at any age. Benefits accrued at June 30, 2012 are protected under the Rhode Island Retirement Security Act until it is exceeded by the member's full years of service credit, including service after June 30, 2012, multiplied by the average of five consecutive years of compensation. Effective July 1, 2012 the retirement age will mirror the Social Security Normal Retirement Age not to exceed age 67. Members will receive a benefit accrual of 1.0% per year based on the five-year average compensation.

Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age sixty-two (62) and a reduced amount thereafter. The reduced amount is equal to the benefit before age sixty-two (62), including cost-of-living increases, minus the member's estimated social security benefit payable at age sixty-two (62).

Prior to June 30, 2012 police and fire personnel may retire at age 55 if they have 10 years of service or after 25 years of service at any age. An option may be elected to provide a 20 year service pension with a benefit equal to 2.5% for each year of service up to a maximum of 75% for police and fire personnel. Benefits are based on the average of the highest three consecutive years' earnings, exclusive of overtime.

The new retirement age will be 55 years old with 25 years of total service or for members with five years of service but less than 25 years of service the new retirement age will mirror the Social Security Normal Retirement Age not to exceed 67. Police officers or firefighters, that are at least 45 years old, have 10 or more years of contributing service and are eligible to retire prior to age 52 under the law in effect on June 30, 2012, may retire at age 52.

As of June 30, 2012 members will continue to have a frozen benefit accrual of 2.0% per year for a standard 25 year with any age and out plan; 2.5% for a standard 20 year with any age and out plan. Effective July 1, 2012 the optional 20 and 25 year with retirement at any age plans have been eliminated. The benefit accrual for all plans will be 2.0% per year based on the five-year average compensation, exclusive of overtime. Police and fire employees may retire with a reduced pension benefit if they have 20 years of service and are within five years of their retirement eligibility. The actuarially reduced benefit will be calculated based on how close the member is to the eligibility date that is prescribed in the Rhode Island Retirement Security Act.

The plan also provides survivor's benefits; and certain lump sum death benefits.

Plan members are vested after five years of service.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Municipal Employees' Retirement Defined Benefit Pension Plan (MERS) (continued)

An optional cost-of-living provision may be elected for police and fire personnel and general employees. The Cost of Living Adjustment (COLA) has been suspended for any unit whose funding level is less than 80%. The COLA provision can be reviewed in a five-year interval. When the funding level of a plan exceeds 80% funded eligible retirees may receive a COLA annually effective on their date of retirement plus one month.

The COLA will be calculated as the five (5) year smoothed investment rate of return less 5.50%, with a 0.00% floor and a 4.00% cap. For police and fire units, COLA will be delayed until the later of age 55 or three years after retirement. For general employee units, COLA will be delayed until the later of the Social Security Normal Retirement Age or three years after retirement. The COLA will be applied to the first \$25,000 of benefits indexed annually.

The plan also provides nonservice-connected disability benefits after 5 years of service; service-connected disability pensions with no minimum service requirement.

Employees covered by benefit terms

At the June 30, 2013 valuation date, the following employees were covered by the benefit terms:

Retirees and Beneficiaries	84
Inactive, Nonretired Members	40
Active Members	<u>144</u>
Total	<u>268</u>

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees are required to contribute 1% of their salaries. Public safety employees are required to contribute 7% of their salaries. The Town contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town contributed \$641,192 to their general employee MERS plan in the year ended June 30, 2015 which was 14.34% of annual covered payroll and contributed \$113,606 to their rescue employee MERS plan in the year ended June 30, 2015 which was 10.93% of annual covered payroll.

Net Pension Liability (Asset) - The total pension liability was determined by actuarial valuations performed as of June 30, 2013 and rolled forward to June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2014 measurement date (June 30, 2013 valuation rolled forward to June 30, 2014)

Actuarial Cost Method	Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used.
Amortization Method	Level Percent of Payroll – Closed
Equivalent Single Remaining Amortization Period	21 years at June 30, 2014

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Municipal Employees' Retirement Defined Benefit Pension Plan (MERS) (continued)

Actuarial Assumptions

Investment Rate of Return	7.50%
Projected Salary Increases	General Employees - 3.50% to 7.50% ; Police & Fire Employees - 4.00% to 14.00%
Inflation	2.75%
Mortality	<ul style="list-style-type: none">• Male Employees, MERS General and MERS P&F: 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000.• Female Employees, MERS General and MERS P&F: 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000.
Cost of Living Adjustments	COLA is equal to the average five-year fund asset performance (percent) greater than 5.5% up to a maximum of 4% - the COLA is to be applied to the first \$25,000 of benefits, indexed over time. COLA is delayed until the latter of Social Security eligibility age or 3 years after retirement except for MERS Police and Fire for which the COLA is delayed until the later of age 55 or 3 years after retirement. A 2% COLA is assumed after January 1, 2014.

The actuarial assumptions used in the June 30, 2013 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium-term (10 year) capital market return assumptions developed by eight investment consulting firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission's investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Municipal Employees' Retirement Defined Benefit Pension Plan (MERS) (continued)

Asset Class	Target allocation	Medium-term expected real rate of return
Global Equity	38%	6.05%
Private Equity	7%	9.05%
Equity Hedge funds	8%	4.75%
Absolute return hedge	7%	2.95%
Real Return	14%	3.85%
Real Estate	8%	4.45%
Core Fixed	15%	0.25%
Cash	3%	-0.50%
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year-horizon return expectations.

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Teachers' Survivor Defined Benefit Pension Plan (TSB)

Plan description - Certain employees of the Town of Tiverton, Rhode Island (Town) participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Eligibility and plan benefits - the plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

Highest Annual Salary	Basic Monthly Spouses's Benefit
\$17,000 or less	\$ 750
\$17,001 to \$25,000	875
\$25,001 to \$33,000	1,000
\$33,001 to \$40,000	1,125
\$40,001 and over	1,250

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Teachers' Survivor Defined Benefit Pension Plan (TSB) (Continued)

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 Child	Parent and 2 or more Children	One Child Alone	Two Children Alone	Three or more Children Alone	Dependent Parent
150%	175%	75%	150%	175%	100%

Contributions - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits. The Town contributed \$18,364 and \$18,189 for the fiscal years ended June 30, 2015 and 2014, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2015 the Town reported an asset of \$3,712,154 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2014, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014. The Town proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2014 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2014 the Town proportion was 2.98594898%.

For the year ended June 30, 2015 the Town recognized pension expense of \$(286,145) – an increase in the net pension asset. At June 30, 2015 the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources	
Contributions subsequent to the measurement date	\$ 18,364
Deferred inflows of resources	
Net difference between projected and actual earnings on pension plan investments	\$ 485,815

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Teachers' Survivor Defined Benefit Pension Plan (TSB) (Continued)

\$18,364 reported as deferred outflows of resources related to pensions resulting from the Town contributions in fiscal year 2015 subsequent to the measurement date will be recognized as an addition to the net pension asset for the year ended June 30, 2016. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	\$ 121,454
2017	121,454
2018	121,454
2019	121,453

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 13.50%
Investment rate of return	7.50%

Mortality rates for male and female teachers were based on 97% (males) and 92% (females) of rates in a GRS table based on male and female teacher experience, projected with scale AA from 2000.

Cost of living adjustment – eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment – for valuation purposes, a 2.75% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2013 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium-term (10 year) capital market return assumptions developed by eight investment consulting firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission’s investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Teachers' Survivor Defined Benefit Pension Plan (TSB) (Continued)

Asset Class	Target allocation	Medium-term expected real rate of return
Global Equity	38%	6.05%
Private Equity	7%	9.05%
Equity Hedge funds	8%	4.75%
Absolute return hedge	7%	2.95%
Real Return	14%	3.85%
Real Estate	8%	4.45%
Core Fixed	15%	0.25%
Cash	3%	-0.50%
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year-horizon return expectations.

Discount rate - the discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability (asset) to changes in the discount rate - the following presents the net pension liability (asset) calculated using the discount rate of 7.5 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

1.00% Decrease (6.5%)	Current Discount Rate (7.5%)	1.00 Increase (8.5%)
\$ 3,181,262	\$ 3,712,154	\$ 4,242,968

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

Note 11. Pension Plans

Police Pension Plan

(1) Plan Description

(a) Plan Administration

The Policemen's Pension Plan of the Town of Tiverton (the Plan) is a contributory, single employer, defined benefit plan. Washington Trust Wealth Management is the trustee of the Plan's investment funds. All funds remain in custody of Washington Trust Wealth Management which is also responsible for maintenance of primary accounting records.

Administration of the Plan is the responsibility of the Town Administrator. Accordingly, he reviews the records of the Plan, prepares and accumulates the actuarial data, and prepares periodic reports for submission to the Town Council. The costs of administering the Plan are paid by the Plan. All members of the Police Department of the Town of Tiverton are covered by this Plan.

Article 15 of the Regulations of the State grants the authority to establish and amend the benefit terms to the Police Pension Board of Trustees (PPB).

The Board of the Police Pension Plan, consists of five members - Town Administrator, Police Chief, Town Treasurer, Town Council Member, and the President of the Police Union. The Town Council Member is the only member of the Board who is appointed by the Town Council.

(b) Plan Membership

At June 30, 2015, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	26
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>30</u>
Subtotal	<u><u>56</u></u>

(c) Benefits Provided

The Plan provides retirement as well as death and disability benefits. Participants in the Plan are eligible for retirement on the earlier of their 55th birthday or upon completion of 20 or more years of service. The normal retirement benefit is equal to 2.5% of average compensation multiplies by the years of credited service for the first 20 years plus an additional 2% for years in excess of 20 years, subject to a maximum of 75% of average compensation. Those personnel hired after 7/1/2012 are eligible for retirement at the earlier of 55th birthday or upon 25 years of service.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Police Pension Plan (Continued)

Participants are eligible for disability benefits after 7 years of service or immediately if the disability results from performance of duties. The benefit is 66.67% of average compensation or 50% if disability is due to non-occupational causes.

Death benefits will be paid to the beneficiary in the amount of \$400 for each year of service, subject to a minimum of \$2,000 and a maximum of \$8,000. After retirement, this benefit will be reduced by 25% per year but not less than \$2,000.

(d) Contributions

The Town establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2014, the active member contribution rate was 10 percent of annual pay, and the Town's contribution rate was 56.7 percent of annual payroll.

The contributions made to the plan for the fiscal year ended June 30, 2015 were \$979,257 which consists of employer contributions of \$800,000 and employee contributions of \$179,257.

(2) Investments

(a) Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Police Pension Board (PPB) by a majority vote of its members. It is the policy of the PPB to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2015:

<u>Asset Class</u>	<u>Target Allocation</u>
Equities	80.0%
Fixed income	17.0%
Cash and cash equivalents	3.0%
Total	100.0%

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Police Pension Plan (Continued)

(b) Concentrations

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in diversified mutual funds, external investment pools, and other pooled investments are excluded. As of June 30, 2014, the Plan had no investments in any one organization that represented 5% or more of the Plan's net position restricted for pension.

(c) Money-Weighted Rate of Return

For the year ended June 30, 2015 the annual money-weighted rate of return on Plan investments, net of investment expense, was unavailable. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the end of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

(d) Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

At June 30, 2015, there were no deposits subject to custodial credit risk.

(e) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investment. At June 30, 2015, there were no deposits subject to custodial interest rate risk.

(f) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. As of June 30, 2015, the Plan has no single issuer that exceeds 5% of total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in diversified mutual funds, external investment pools, and other pooled investments are excluded.

(g) Credit Risk

Credit risk is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations to the Plan. There are no Plan-wide policy limitations for credit risk exposures within the portfolio. Each portfolio is managed in accordance with an investment contract that is specific as to permissible credit quality ranges, the average credit quality of the overall portfolios, and issuer concentration.

(h) Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment or a deposit. At June 30, 2015, there were no deposits subject to foreign currency risk.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Police Pension Plan (Continued)

(i) Derivatives

Derivatives are financial instruments whose values depend upon, or are derived from, the value of something else, such as one or more underlying investments, indexes or currencies. Derivatives may be used both for hedging and to enhance returns. Derivatives may be traded on organized exchanges, or individually negotiated transactions with other parties, known as over-the-counter derivatives. Derivatives involve special risks and costs and may result in losses to the Plan. The successful use of derivatives requires sophisticated management, and, to the extent that derivatives are used, the Plan will depend on the investment managers and their advisors to analyze and manage derivatives transactions.

Certain commingled funds held by the Plan at the year-end were permitted through their individual investment guidelines to use derivative instruments, including forwards, futures, swaps, and options. Disclosures about derivative holdings of the commingled fund managers can be found in their respective audited financial statements. The plan did not directly own any derivatives as of June 30, 2015.

(3) Net Pension Liability of the Town

The components of the net pension liability of the Town at June 30, 2015, were as follows:

Total pension liability	\$ 14,604,337
Plan fiduciary net position	<u>(9,778,266)</u>
Town's net pension liability	<u>\$ 4,826,071</u>
Plan fiduciary net position as a percentage of the total pension liability	66.95%

(a) Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	N/A
Salary increases	3.50 percent, including inflation
Investment rate of return	7.50 percent, net of pension plan investment expense, including inflation

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period ended June 30, 2015.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 11. Pension Plans

Police Pension Plan (Continued)

(3) Net Pension Liability of the Town (Continued)

(b) Discount rate

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance as of 7/1/2014	\$ 14,002,853	\$ 8,848,568	\$ 5,154,285
Changes for the year:			
Service cost	315,103	-	315,103
Interest on total pension liability	1,733,891	-	1,733,891
Differences between expected and actual experience	(699,268)	-	(699,268)
Changes in assumptions	-	-	-
Contributions - employer	-	800,000	(800,000)
Contributions - employee	-	179,257	(179,257)
Net investment income	-	698,683	(698,683)
Benefit payments	(748,242)	(748,242)	-
Administrative expense	-	-	-
Net changes	601,484	929,698	(328,214)
Balance as of 6/30/2015	\$ 14,604,337	\$ 9,778,266	\$ 4,826,071

(c) Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the Town, calculated using the discount rate of 6.00 percent, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.00 percent) or 1-percentage-point higher (7.00 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Plan's Net Pension Liability	\$ 6,517,128	\$ 4,826,071	\$ 3,404,723

(d) Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2014, the Town recognized benefits paid of \$748,242. At June 30, 2015, the Town did not report deferred outflows of resources or deferred inflows of resources related to pensions.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 12. Commitments and Contingencies

a. Commitments:

1. Old Stone Bridge Project

The Town has entered into an agreement with Rhode Island Department of Transportation for the Old Stone Bridge Beautification Project. The State has agreed to reimburse the Town up to but not exceeding Two Million Six Hundred Fifty Nine Thousand Dollars (\$2,659,000) for the cost of the Project. In fiscal year 2015, the Town of Tiverton incurred approximately \$13,704 worth of expenditures for the "Rehabilitation of Old Stone Bridge" and \$2,800 for the acquisition and site preparation of the "Gas Station Parcel."

b. Contingencies

1. Faulkner v. Tiverton, pending in Newport County Superior Court

This case concerns the wrongful termination/whistle blower. Plaintiff turned in his supervisor to authorities and was terminated as a result. However, Plaintiff was correct in advising the Town that his supervisor was committing wrongful acts. Liability is clearly against the Town and damages roughly estimate \$20,000 - \$40,000.

2. Bay Street Contamination

This case concerns the contamination, by coal gasification waste fill, of approximately 100 residential properties and Town streets and a Town playground in a several block area of the Town abutting Fall River. The Town was named a Potentially Responsible Party by RIDEM, due to its ownership of the streets and playground.

In 2005, over 100 residents sued the Fall River Gas Company in four different lawsuits in federal court in Rhode Island and Massachusetts and in Rhode Island Superior Court. These cases were consolidated in the United States District Court for the District of Rhode Island as CORVELLO et. al. v NEW ENGLAND GAS COMPANY, and are case numbers: 05-221T, 05-274T, 05-370T, and 05-522T. The Town of Tiverton was brought in as a Third Party Defendant by Southern Union. In September, 2009, the parties settled the Federal Court case.

The Town of Tiverton received \$550,000 to be used to remediate roadways and right of ways with contamination levels exceeding industrial standards. RIDEM is requiring this remediation be completed within five years as part of a sewer system installation. Some of the streets that were to be remediated also contain mercury from a hat factory that used to be in the neighborhood. Mercury contamination was discovered several years ago and partially cleaned up by EPA. The term "partially" is used because EPA stopped at the property line and did not investigate or remediate adjacent lots or streets.

(Continued)

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note. 12. Commitments and Contingencies (Continued)

b. Contingencies (Continued)

2. Bay Street Contamination (Continued)

The EPA, on October 24, 2011, served Tiverton with a Notice of Potential Liability with respect to the Bay Street Mercury Site. Notwithstanding the legal language contained in such Notice, this action is actually the result of actions taken by the Town, requesting that EPA become involved (again) with the cleanup of the mercury. Over the course of 2012, the Town, using some of the settlement funds, worked with the EPA to clean up the mercury contamination. The EPA cleaned up private property and the Town cleaned up public property, basically the unpaved portions of A Connelll Street. The EPA has now certified that the cleanup is complete as to the mercury.

The Town does not foresee further substantial liability for further cleanup. The Town may voluntarily undertake cleanup of some the areas of contamination underneath the paved areas of some of the streets. The Town will also always have some incremental cost to use appropriate safety protocols, and may face some localized cleanups over time, in the impacted area. The Town expects the remaining settlement funds to be sufficient for such expenses.

TOWN OF TIVERTON, RHODE ISLAND

Notes to the Financial Statements

June 30, 2015

Note 14. Fund Deficit

The following funds had deficits at year end:

Old Stone Bridge	\$ 184,273
Wastewater Management	249

It was further noted that the deficit related to Old Stone Bridge has been recuperated as of November 2016 and the deficit related to the Wastewater Management fund was an outstanding receivable related to electricity costs that was received in 2016.

Note 15. Restatement

The following were the restatements that occurred at the Government-Wide level based on prior year misstatements as well as changes in accordance with new GASB standards.

	<u>Governmental Activities</u>	
Beginning balance, July 1, 2014	\$	11,170,726
To remove net pension obligation in accordance with GASB 68		1,667,990
To record 2002 sewer line as fixed asset net of accumulated depreciation		3,110,625
To record police net pension liability in accordance with GASB 68		(5,154,285)
To record ERS net pension liability in accordance with GASB 68		(17,400,835)
		2,940,193
To record MERS net pension asset in accordance with GASB 68		<u>305,701</u>
Beginning balance, July 1, 2014, restated	\$	<u><u>(3,359,885)</u></u>

Note 16. Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, management has evaluated events that have occurred subsequent to June 30, 2015 and through December 8, 2015, the date of which the financial statements were issued.

As of December 8, 2015, the Town did not have any significant subsequent events to disclose.

Required Supplementary Information

Notes to Required Supplementary Information - Reconciliation of Differences Between
Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

For the Year Ended June 30, 2015

The accompanying Statement of Revenues and Expenditures (GAAP or Budgetary Basis Non-GAAP) present comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2015 is presented below:

	<u>General Fund</u>	<u>School Unrestricted</u>
Excess (deficiency) of revenues and other sources over expenditures and other uses (Non-GAAP Budgetary Basis)	\$ (425,994)	\$ 628,801
State contribution to teachers' pension plan revenue on behalf	-	1,359,857
State contribution to teacher's pension plan expense on behalf	-	(1,359,857)
Increase (decrease) in 60 day accrual	<u>(38,155)</u>	<u>-</u>
Excess (deficiency) of revenues and other sources over expenditures and other uses (GAAP)	<u>\$ (464,149)</u>	<u>\$ 628,801</u>

Notes to Police Pension Plan Required Supplementary Information

For the Year Ended June 30, 2015

Notes to the Schedule:

Valuation Date:

Actuarially determined contribution rates are calculated as of June 30, 2015.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percent-of-payroll
Remaining amortization period	22 years
Asset valuation method	Market plus receivables
Inflation	Contribution as a percentage of payroll
Salary increases	3.50%
Investment rate of return	7.50%, net of administrative expenses paid by the Trust
Retirement age	The rate is 50% at first eligibility, then the rate is 10% per year thereafter, with 100% at age 55 (or first eligible if later)
Mortality	Assumed life expectancies were adjusted as a result of adopting the RP-2000 Healthy Annuitant Mortality Table
Disability	Annual rates of disability increase males from age 25 to .03% to age 60 at .90% and in females from age 25 at .05% to age 60 at 1.21%
Turnover	None
Cost of living adjustments	1.3% increase each year
