Executive Administration Organizational Chart

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

December 29, 2016

Providence City Council
Providence City Hall
25 Dorrance Street
Providence, Rhode Island 02903

Honorable Members,

Rhode Island state law requires that all general purpose, local governments publish a complete set of audited financial statements within six months of the close of each fiscal year. This report fulfills that requirement for the fiscal year (FY2016) that ended June 30, 2016.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Accountants and advisers from BlumShapiro have issued an unmodified ("clean") opinion on the City of Providence, Rhode Island's financial statements for the year ending June 30, 2016. A copy of their independent auditor's report is located at the front of the financial section of the report.

Management's discussion and analysis (MD&A) immediately follow the independent auditor's report and provide a narrative introduction, overview and analysis of the basic financial statements. The MD&A is intended to complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The capital city of Providence was founded in 1636 and incorporated in 1831. It occupies a total land area of 18.1 square miles and an additional 1.9 square miles of water; is located at the head of Narragansett Bay on the Providence River, and is the major population, financial, educational, governmental, and industrial center of Rhode Island. Situated on the Boston-Washington Interstate 95 corridor, with proximity to multi-billion dollar markets and multi-million population centers, residents and businesses have ready access to all major forms of transportation, including AMTRAK, Providence & Worcester Railroad, T.F. Green International Airport, the Port of Providence and Interstates 95 and 195. Multi-modal transportation has most recently been expanded with the opening of Interlink, increasing commuter rail service connections with the Massachusetts Bay Transit Authority.

Providence has the largest population of Rhode Island's 39 cities and towns with 178,036 residents (2010 Census,) up 2.5 percent from 173,618 in 2000 (2000 Census). The demographic profile for the city is as follows: Caucasians 49.8 percent; Hispanics 38.1 percent; African Americans 16.0 percent; Asians 6.4 percent; and Native Americans 1.4 percent.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

The City has a Mayor-Council form of government; a Home Rule Charter was adopted in 1980 and became fully effective on January 3, 1983. City government is responsible for providing such services as: general government, community development, administrative services, public safety, sanitation, public works, planning and development, workforce development, recreation, parks, and public education. The City adopts an annual budget for the General Fund, and separately for the Providence Public School District. The legal level of control is by Department.

Facing Structural Deficit

Upon taking office in January 2015, Mayor Jorge O. Elorza commissioned a review of the City's finances. An analysis conducted by Public Finance Management (PFM) included a baseline forecast and financial projection for the City through fiscal year 2021.

The baseline financial forecast showed an annual shortfall that grows to \$13.5 million in FY2018 and reaches \$17.2 million in FY2019, before slightly declining to \$15.4 million in FY2020 as revaluations increase revenue, and then starts moving upward again – reaching \$19.1 million in FY2021. Escalating pension and healthcare costs, the loss of tens of millions in state aid and little tax revenue growth are among the factors that drive the City's projected deficit over the next five years and beyond.

Assuming no policy adjustment, the PFM report projects total revenue at \$463.3 million in FY2017 and \$477.2 million in 2021. Similarly, the report projects city expenditures to reach \$496.3 million by 2021. Real estate tax collection, tangible tax collection, excise tax collection, State PILOT Revenues and School Debt Construction Revenues are included as five key revenues sources which, combined, represent 82.9% of the City's revenue in FY2017 and 83.2% for projected revenue in FY2021.

Without intervention and corrective action, the City would face a structural deficit in the range of \$11 million to \$19 million annually resulting in a potential cumulative deficit of \$85 million by 2022.

On May 21, 2015, Mayor Elorza said the following of the PFM report and its implications for the City, "The report is in, and it shows us that Providence still has a structural deficit in the range of \$11 to \$19 million a year and that gap will continue to widen if we do not begin to immediately address the problem. We need to fix the structural budget imbalances that stand in the way of lasting fiscal strength instead of just kicking the can down the road and letting the problem grow worse."

The Mayor added that he is "committed to doing whatever it takes to provide a firm foundation for our city" and that he is "confident that Providence's stakeholders are up to the challenge."

FY2016 Budget

During his budget presentation to the City Council, Mayor Elorza discussed how the City was still struggling to fully recover in the wake of challenging financial times and emphasized a need for tough decisions and fiscal responsibly. The budget for FY2016 was signed into law on Thursday, June 11, 2015 and focuses on setting Providence on a firm path for the future.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

The FY2016 budget held the line on commercial real estate taxes and did not raise property or car taxes. Costs were offset with a modest raise in fees for building permits and business licenses as well as added revenue streams from the expansion of parking meters throughout the city. The FY2016 budget also placed significantly less onus on one-time revenue sources.

FY2016 budget took a number of steps to promote and facilitate investment and business in the city, including creating a Liaison Business Facilitator position in the City's Economic Development office to assist potential investors and developers.

Mayor Elorza also created a Chief Innovation Officer position to improve efficiency throughout city departments, allowing them to better serve the public. It also increased line items for snow removal by 13% and street sweeping by 10%.

The FY2016 budget included a 2% increase in revenue through growth of the tax base, a modest increase in certain permitting fees (bringing the City in line with other municipalities in Rhode Island) and several items of new tax revenue, including \$500,000 from port equipment that was not previously on the tax rolls.

The FY2016 budget also fully budgeted changes to account for the City's required deficit reduction payments, all of which were made in a timely manner.

Development and Infrastructure

FY2016 saw a number of significant infrastructural investments throughout the City and also helped pave the way for increased development going forward.

Transportation Improvements – FY2016 saw the substantial completion of road paving under the City's \$40 million bond. The City has also completed phase three of its Downtown Circulator project, aimed at improving Downtown streets for all users. Additionally the City has been working closely with State transportation and public transit officials on the redesign of the 6-10 Connector highway, the Downtown Bus Hub in Capital Center, and the Downtown Transit Connector bus service.

Parking Meters -- The City has converted all single and multi-space parking meters to accept credit cards, making them more efficient and convenient. A Pay-By-Cell option is set to be introduced in January 2017. The City also received a modest increase in parking meter revenue from extended hours and the addition of several hundred parking spaces in commercial areas throughout the City.

Land of Opportunity -- The land that was freed up by the relocation of I-195 presents a once-in-a-lifetime opportunity for Providence and Rhode Island to create the economy of the future. The Elorza administration worked with State leaders, the City Council and the I-195 Commission to develop a standardized tax stabilization agreement for the district that will provide prospective developers with a clearer understanding of the incentives available to them when considering an investment on this land. Three projects have applied for stabilizations under this program. The City also entered into a memorandum of understanding with the I-195 Commission to assist with the review of projects proposed for

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

the I-195 land. To date, one project, the Bowen Center at Johnson and Wales University has been completed. Two other mixed-use projects have been approved. Elsewhere in the City, there has been a substantial uptick in development proposals, with hundreds of new dwelling units and six hotels either under construction or in the development review process.

Neighborhood Development – In FY2016 Mayor Elorza and Council President Aponte announced the Providence Neighborhood Revitalization Act, a tax incentive program aimed at revitalizing neighborhoods, supporting women- and minority owned business and putting Providence residents to work. The program encourages economic development in the city's under-invested, low- to moderate-income neighborhoods by providing developers transparency and predictability. Nineteen of Providence's twenty-five neighborhoods have been designated as Opportunity Neighborhoods, eligible for the Neighborhood TSA.

Food Access Grant Program -- In November 2015, Mayor Elorza announced a Healthy Food Access Grant program, which offered businesses and community initiatives funding to help increase local food production and consumption, and increase access to, and affordability, of healthy foods, especially in areas with limited healthy food access.

Providence Design Catalyst -- With support from the Rhode Island School of Design, DESIGNxRI and Social Enterprise Greenhouse, the City offered the Providence Design Catalyst. The program provided grants up to \$35,000 to design-driven small businesses in the capital city looking to grow. Design is one of the fastest growing sectors locally and nationally. While the city's design talent continues to brew, sustaining and growing these creative entities is important to ensure a strong and active sector in Providence. This successful program will be replicated upon funding identification.

Port Expansion -- Last year, ProvPort secured a 14-acre parcel owned by the City which it will lease from 2015 to 2036 at a rate of \$140,000 per year. The expansion allowed ProvPort to increase capacity to accommodate a temporary structure that housed workspace for the construction of offshore wind turbines. Mayor Elorza is also seeking opportunities to expand commerce and better utilize the City's deep water channel. This year, the City worked with the State to craft a bond referendum that would allow land acquisition for the expansion of ProvPort to waterfront land north of Thurbers Avenue. The bond was approved by voters in November 2016.

Improving Public Service through Innovation

Mayor Elorza sees a necessity to invest in innovative and proactive resources to improve efficiency and effectiveness of city government. Mayor Elorza has clearly mandated the need to be more efficient with the resources that currently exist in the city to ensure that we are giving taxpayers the most from the services for which they are currently paying.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

Department of Innovation -- Early in his tenure, Mayor Elorza established a Department of Innovation. Innovation is about constantly improving the way the City operates and delivers service to the public. From LEAN programming, to process improvement and customer service related practices, the Department of Innovation leads the city workforce in a commitment to constant improvement and works closely with the Mayor and his Administration to implement changes.

Mayor's Center for City Services (MCCS) -- Upon taking office Mayor Elorza undertook a restructuring and refocusing of the Mayor's constituent service arm to provide a more streamlined, responsive and customer service oriented experience for residents seeking assistance from the City. Through innovative partnerships and systems the Mayor's Center for City Services is improving the speed and effectiveness of city services. In 2016, center staff assisted with and closed over 9,000 constituent cases.

PVD311 Hotline and Mobile Application -- In March 2016, the Elorza Administration launched the 3-1-1 hotline and PVD311 mobile application with the objective of making it easier to request city services. The tools connect constituents directly with City Hall and are results of the City's efforts to make local government more open, accountable, and responsive.

Mayor's Center for City Services' Community Office Hours -- The Community Office Hours initiative enabled the Mayor's Center for City Services to expand to every corner of Providence to better connect with residents. To date Community Office Hours have been held in twenty-five Providence's neighborhoods with visits to local grocery stores, farmers markets, and community events.

Customer Service Training -- The City partnered with AMICA to provide customer service training to MCCS staffers as well as other points of contact throughout city government. The City also added tools to help the public interface with City Hall, including wayfinding signs throughout the building, an information desk that is staffed by an MCCS representative by the first floor entrances to City Hall. In May, the City announced that 60% of municipal employees had gone through customer service training with expectations of reaching 100% by 2017.

CodeRED Emergency Notification System -- The Providence Emergency Management Agency and the City attained the CodeRED Emergency Notification System to alert Providence residents in emergency situations. The service allows emergency officials to notify residents and businesses by telephone, cell phone, text message, email and social media regarding time-sensitive emergency information.

Parks, Recreation and Healthy Communities

Considering the positive effects of a healthy and active lifestyle, as well as the benefits readily available from nutritious food options for residents, Mayor Elorza has committed substantial resources to programs which can have a direct impact. The Department of Recreation, Providence Parks Department, Office of Healthy Communities and numerous community partners work together to provide healthy opportunities for residents of all ages and to make it easier for residents to make healthy lifestyle decisions.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

Expanded Summer Recreation -- Mayor Elorza's administration was pleased to offer a wide range of activities for kids and support for families through its robust and affordable summer recreation programs in 2016. Led by Director of Recreation Services Michael Stephens, Parks and Recreation Superintendent Wendy Nilsson, and recreations staff from across the city, the line-up offered diverse and affordable programming including weekly sports camps, specialty camps, a new international day camp, and full day camps. In addition to continuing all previous Summer Recreation programs, the 2016 line-up introduced all new programs. With the City's efforts to address summer learning loss, day camps and sports camps provided campers literacy programming to enhance reading skills.

Fall Recreation Program -- For autumn 2015, Providence offered its first Fall Recreation Program with options that included more than 30 programs for residents of all ages. Youth activities included volleyball, kickball, karate, cheerleading, flag football, afterschool homework help, as well as arts, craft and nature programs. All were offered to city residents free of charge.

Winter Swim Program -- During the winter of 2015, the City introduced a swim program which included free swim lessons and activities at Pleasant View Elementary School. The program gave children the opportunity to learn to swim and remain active and engaged during the winter months.

Citywide Parks and Sports Fields Improvements -- Mayor Elorza spearheaded significant investments in renovations and improvements to parks and sports fields throughout the city to make them more inviting and accommodating to the residents that rely on them for exercise and play. Major projects included John Donigian Memorial Park, Collyer Park, Bucklin Street Park, and Roger Williams Park. Dozens of new signage in parks throughout the city were also installed.

Midnight Basketball -- For young adults, Mayor Elorza collaborated with community partners and other Rhode Island towns and cities to expand the Summer Midnight Basketball League. The Rhode Island Midnight Basketball league utilized several recreational parks and facilities throughout the city from 9 p.m. to midnight. With the primary objective of promoting camaraderie and athletic competition, the league was incredibly successful and featured teams representing Pawtucket, East Providence, Central Falls and North Providence.

Summer Meals Program -- With the assistance of Federal, State, and local community partners, and the U.S. Department of Agriculture (USDA), Providence offered free and nutritious meals to the children under the age of 18 through the Summer Food Service Program. Taking into consideration the population of students who depend on free or reduced meal options during the school year, offering this program during the summer months ensured that youth with limited access had an opportunity eat a healthy meal. The program was offered at 32 parks throughout the city and provided 48,000 meals, as well as 49,000 lunches and 38,000 breakfasts at 58 additional enrolled sites.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

Substance Abuse Prevention --The Healthy Communities Office worked to conduct a range of educational programs to reduce youth use of alcohol, tobacco and other drugs. A Prescription Drug Take Back Day was held in partnership with the DEA in Providence, again having one of the most successful take back events throughout the state. The Healthy Communities Office also organized informational events such as community addiction prevention forums and healthy community celebrations at local recreation centers.

Sustainability

In July 2015, Mayor Elorza became a leader on climate action by signing the Compact of Mayors, joining what is now a coalition of over 400 cities worldwide committed to tracking and reducing greenhouse gas emissions and preparing for the impacts of climate change. The City's Office of Sustainability has updated the City's sustainability plan to include these new goals and report progress on implementation. The City is leading by example in a number of areas and is now increasing its capacity to engage residents and businesses in taking action that will improve our environment, save money, and build stronger communities.

SustainPVD Initiative -- In July 2015, Mayor Elorza launched SustainPVD, a community-wide sustainability initiative to make Providence a greener, healthier, more livable city. It seeks to educate, empower, and connect residents, businesses, institutions, and municipal government to achieve the goals set forth by *Sustainable Providence*. The Mayor kicked off this initiative by joining the Compact of Mayors, a global coalition of local leaders pledging to reduce and track GHG emissions. The launch also coincided with an update of the Office of Sustainability's website under the new SustainPVD branding, a new SustainPVD e-newsletter, and SustainPVD social media channels (Facebook and Twitter).

LED Streetlight Conversion -- The City is under contract with the Partnership for Rhode Island Streetlight Management (PRISM) to purchase and convert all 17,000 of the City's streetlights to LEDs. It is estimated that this will save the City approximately \$2.4 million annually on distribution charges, energy costs, and maintenance. It will also result in higher quality lighting throughout the city and reduce the City's municipal carbon footprint by 25 percent.

Municipal Energy Efficiency Projects -- Since 2010, the City has completed lighting retrofits, gas conversions, and other energy efficiency and conservation measures throughout City-owned buildings and schools. These conservation measures have resulted in considerable savings. With a \$1.2 million low interest loan from the Rhode Island Infrastructure Bank, five city-owned buildings will undergo upgrades that will reduce energy consumption in the five buildings by greater than 40%, saving more than \$400,000 after debt service over the useful life of the improvements. With similar upgrades, twelve school buildings have decreased their energy use and have seen improvements in their ENERGY STAR scores. The City also released a comprehensive municipal energy report in April 2016.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

Renewable Energy -- In April 2016, Mayor Elorza announced the launch of Solarize Providence, a three month effort to generate over 250 new solar projects in the city for an additional installed capacity of over 1.5 MW. The program offered steeply discounted prices for Providence residents and business to install solar on their property. The City also became the sixth 'Rhode Island Energy Champion' as part of National Grid's ongoing Rhode Island Energy Challenge: Find Your Four! Campaign grassroots outreach efforts helped the City reach its goal of signing up over 3,200 residents for the Challenge

SustainPVD Ambassadors -- In the spring of 2014, the City was awarded a grant to pilot a Recycling Ambassador Program. In August, SustainPVD Ambassadors were recruited and trained in both energy efficiency and recycling. Throughout the fall, the energy ambassadors supported the Find Your Four! residential energy conservation campaign by canvassing and attending events throughout the community. The recycling ambassadors developed a community-based marketing strategy to improve recycling rates in the Washington Park neighborhood and helped Providence Public Schools incorporate recycling tours into new science curriculum.

Stormwater Management Study -- Through funding from the RI Department of Environmental Management, the City led phase II of a stormwater management utility district study. In 2013, six municipalities at the head of the Narragansett Bay began exploring regional solutions to a wide range of shared challenges including flooding, stormwater pollution, and degraded drainage infrastructure. Phase I of the study, completed in 2014, provided a planning level assessment of the feasibility of a regional stormwater utility district for municipalities. Phase II helped define the utility's scope and governance and provided detailed guidance on the steps to implement a regional stormwater management district. Phase II has concluded, and Mayor Elorza has expressed support for proceeding to Phase III, which would establish the management district.

FY2016 Projected Surplus

The City is expecting to report a surplus of approximately \$10.3 million for FY2016. The FY2016 surplus included the required \$4.3 million payment that was appropriated for deficit reduction, as well as, a steady increase in tax collections of approximately \$2 million and departmental revenues, including an additional \$2 million in building permits and inspection fees, along with additional state PILOT of \$3 million, LED streetlight conversion rebates of \$1.8 million, along with expenditure reductions in self-insured medical, debt-service and various departmental spending.

The City made its earliest 100 percent ARC funding in the past eighteen years for FY2016, with payments paid by July 25, 2016, thereby earning the City nearly \$150,000 in pension interest credits, thus a savings to the general fund in FY2016.

With the expected \$10.3 million surplus for FY2016, the City's cumulative deficit will be reduced to approximately \$3.1 million. It should be noted that the FY2017 appropriation for deficit reduction is budgeted at \$6.1 million and assuming the FY2017 results of operation leads to a year-end balanced budget, as is expected, the City will have successfully eliminated the cumulative deficit 3 years earlier than planned under a deficit reduction plan that was approved by the City Council and the RI Auditor General in 2016, resulting in a cumulative surplus of approximately \$3.0 million at year-end June 30, 2017.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

We have made strident efforts in increasing our FY2016 budget to reflect an additional \$5 million in medical expenditures, given that the prior 3 years running medical expense has surpassed budget by \$3.0-3.5 million annually. Building upon this change in FY2016, the FY2017 budget was further enhanced to support current increased expenditures, based upon current trend.

The City continues to regularly review non-essential spending and vacant positions to ascertain additional savings opportunities, where practical and possible.

Debt Administration

Outstanding government- and business-type activity bonds at June 30, 2016 totaled \$556,177,000. (Note 7 of this report represents more detailed information about the City's debt position.) The City has the following bond ratings:

Moody's Investor Services –	Baa1
Standard and Poor's –	BBB
Fitch –	BBB-

Long-Term Financial Planning

As part of the annual budget process, the Finance and Planning Departments develops a five-year Capital Improvement Plan, the first year of which is the Capital Improvement Budget. This is to be submitted to the City Council and adopted along with the City's budget. This plan identifies costs and financing methods for capital projects the City expects to fund over the next five years.

The FY2017 Capital Improvement Budget included \$1 million for miscellaneous capital projects administered by the Department of Public Works. For FY2017, the Finance and Planning Departments are compiling a more comprehensive five-year plan that projects needs through FY 2022. The plan will address funding for roads, sidewalks, sewer and stormwater infrastructure, school facilities, and parks and recreation facilities.

Further, in recognition of the City's continued structural deficit and the Administration's desire to offer structural solutions, a 10-year fiscal Plan for the City was commissioned. With a grant from the Federal Government and local philanthropic support, the Administration presented a report in April of 2016 that provided a series of recommended options to get the City to structural surpluses by the end of the plan. These long-term recommended options are currently under review and consideration and have been assigned to smaller workgroups for further evaluation and development of implementation, where possible.

CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

Acknowledgment

The preparation of this report could not have been accomplished without the dedication and hard work of the Finance, Planning & Development, Policy and Communications professionals who work for the City of Providence. I would like to express my appreciation and gratitude to all of the staff members who assisted and contributed to its preparation. I also appreciate the assistance and dedication of the audit team at BlumShapiro.

Finally, I would like to thank Mayor Jorge O. Elorza and the Providence City Council for their steady and responsible stewardship of all aspects of City government.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robin Muksian".

Independent Auditors' Report

To the Honorable Mayor and Members of the City Council
City of Providence, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Providence, Rhode Island, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Providence, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Providence, Rhode Island, as of June 30, 2016 and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 3 to the financial statements, during the fiscal year ended June 30, 2016, the City adopted new accounting guidance, GASB Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Prior Period Adjustment

As discussed in Note 16 to the financial statements, the beginning net position for governmental activities and business-type activities has been restated in order to correct transactions incorrectly recorded in prior years. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12, the budgetary comparison information on pages 62 through 67 and the pension schedules on pages 68 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Providence, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, statistical section and Annual Supplemental Transparency Report are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the Annual Supplemental Transparency Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the Annual Supplementary Transparency Report are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2016 on our consideration of the City of Providence, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Providence, Rhode Island's internal control over financial reporting and compliance.

Blum, Shapiro & Company, P.C.

Cranston, Rhode Island

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

This Management's Discussion and Analysis of the City of Providence, Rhode Island's Basic Financial Statements provides a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2016.

Financial Highlights – Primary Government

Government – Wide Highlights

Net Position – The liabilities of the City's governmental activities exceeded its assets for the fiscal year ending June 30, 2016 by \$1,157 million (presented as "total net position"). Of this amount, a negative of \$1,362 million was reported as "unrestricted". The net investment in capital assets was \$204 million. The assets of the City's business-type activities exceed its liabilities by \$269 million. Of this amount, \$239 million represents the City's business-type activities net investment in capital assets.

Change in Net Position – The City's total net position decreased by \$29.8 million in fiscal year 2016. Net position of governmental activities decreased by \$52.4 million, while net position of business-type activities increased by \$22.6 million.

Fund Highlights

Governmental Funds – Fund Balances – As of June 30, 2016, the City's governmental funds reported a combined ending fund balance of \$62.9 million, a \$7.9 million increase from the prior year. Of the total fund balance reported, a negative \$3.2 million represents "unassigned fund balance".

Long-Term Obligations

The City's total long-term obligations related to its government activities had a net increase of \$116 million during the current fiscal year.

The total long-term obligations of the City's proprietary activities increased \$34 million during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Providence's basic financial statements. The City's basic financials statements include three components: 1) government – wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional supplementary information (budget schedules) and other supplementary information (combining financial statements). These components are described in this next section of this analysis.

Basic Financial Statements

The basic financial statements include two types of statements that present different views of the City's financial information. These statements are the **Government-Wide and the Fund Financial statements**. These financial statements are accompanied by **Notes to the financial Statements**, which provide detailed information about financial statement items.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the city's operations in a manner similar to a business operating in the private sector. The statements provide short-term and long-term information about the City's financial position, which assists in assessing the City's economic condition at the end of the fiscal year. These are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. In other words, they follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include two statements:

- The *Statement of Net Position* presents all of the government's assets and liabilities, with the difference between the two reported as "net position." Over time, increases or decreases in the City's net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.
- The *Statement of Activities* presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported, as soon as, the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (such as, uncollected taxes and earned, but unused vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the above financial statements have separate sections for two different types of the City's programs or activities. These activities are defined below:

- *Governmental Activities* – The activities in this section are supported mostly by tax revenues and intergovernmental revenues (federal and state grants). Most services normally associated with City government fall into this category, including the executive, legislative and judicial, financial administration, human resources, public safety, building inspections, public works, recreation, parks, schools, public property, planning, other general government, judgment and claims, retirement costs, debt service, and other employee benefits.
- *Business-Type Activities* – These functions normally are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The City's business-type activities include the operations of the Water Supply Board and The Providence Public Building Authority. The City does not have any discretely presented component units.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other local Governments, the City uses fund accounting to ensure and demonstrate compliance with finance-regulated legal requirements.

The fund financial statements focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. All of the funds of the City can be divided into three categories: (1) governmental, (2) proprietary, and (3) fiduciary. It is important to note that these fund categories use different accounting approaches and should be interpreted differently. The three categories of funds are described below:

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Fund Financial Statements (continued)

1. *Governmental Fund Financial Statements* – Most of the basic services provided by the City are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed, short-term view of the City's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the City.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The City has four governmental funds considered to be major funds for financial statement presentation. That is, each major fund is presented in a separate column in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances. The City's four major governmental funds are comprised of the following: (1) the General Fund, (2) the School Fund, (3) the School Grant Fund, and (4) the Capital Projects Fund. All nonmajor governmental funds are presented in single column. The basic governmental fund financial statements can be found immediately following the government-wide statements.

2. *Proprietary Fund Financial Statements* – These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge fees for services provided to outside customers, including local governments, which are known as enterprise funds. Proprietary funds provide the same type of information as the government-wide financial statement, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. There is no reconciliation needed between the government-wide financial statements for business-type activities and proprietary fund financial statements. The City has two major enterprise funds: The Water Supply Board and the Providence Public Buildings Authority. Financial statements for the Providence Public Buildings Authority may be obtained from the City of Providence Finance Department.

The Internal Service Fund is maintained to account for the self-insured health claims and potential legal claims of the City.

The basic proprietary fund financial statements can be found immediately following the governmental fund financial statements.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Fund Financial Statements (continued)

3. *Fiduciary Fund Financial Statements* – These funds are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the City's own programs. The accounting used for fiduciary funds is similar to that used for proprietary funds. They use the accrual basis of accounting.

The City's fiduciary funds are comprised of the Employee Retirement Fund, various Private-Purpose Trust Funds, and Agency Funds.

The fiduciary financial statements can be found immediately following the proprietary fund financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund basis financial statements. The notes to the financial statements can be found immediately following the fiduciary fund financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes budgetary comparison schedules for the general and school funds – the only governmental funds for which legal budgets are adopted annually. In fiscal year 2016, there were no significant modifications to the budgets originally adopted for each fund.

Other Supplementary Information

Combining Financial Statements and Schedules

Combining financial statements are presented for nonmajor governmental funds and combining schedules are presented by individual grant within the school department. These are presented following the required supplementary information. The total columns of these combining financial statements and schedules are presented in the applicable fund financial statement.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Government-Wide Financial Analysis

Net Position

As noted earlier, net position may serve as a useful indicator of the government's financial position over time. The City's combined net position (government and business-type activities) totaled a deficit of \$889 million at the end of 2016, compared to a deficit of \$838 million at the end of the prior year.

The largest portion of the City's net position, \$443 million, reflect its investment in capital assets, like land, buildings, equipment, and infrastructure (roads, bridges, and other immovable assets) less any outstanding related debt used to acquire that asset. The City uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets can not be used to liquidate these liabilities.

Restricted net position of \$42.3 million primarily represents water restricted funds that are subject to external restrictions on how they may be used. Internally imposed designations of resources are not presented as restricted net position.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Changes in Net Position

The City's net position decreased by \$52.5 million for governmental activities and increased by \$22.6 million for business-type activities for a combined decrease in net position of \$29.8 million. General fund revenues increased due to the success of increased tax collections and higher than budgeted departmental revenues, while expenditures for healthcare and pension costs came in higher than the budgeted amounts. Business-type activities increased due to large commitment to the replacement of infrastructure included in water rates in FY2016. Approximately 48.7% of the City's total governmental revenues were generated from taxes and payments in lieu of taxes, which is comparable to the prior year. 40.68% of revenues resulted from grants and contributions, including Federal Aid, which is an increase over the prior year. There were slight decreases in both, charges for various goods and services, which provided 6.3% of total revenues, while other revenues and investment and rental income accounted for 4% of total revenues, respectively. The City's expenses cover a range of services. The largest expenses were for school, public safety, retirement costs, and employee benefits. Revenues from business-type activities in fiscal year 2016 exceeded expenses by \$22.6 million. The Business-type activities reported an increase in revenue of 6.7%, while expenses increased 1.2% from the prior year.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

Business-Type Activities

The business-type activities increased the City's net position by \$22.6 million. This resulted primarily from a \$13.7 million increase in net position of the Water Supply Board. Additionally, there was an increase of net position of \$8.2 million by the Providence Public Building Authority, and an increase of \$749 thousand from the school lunch program all contributing to the overall increase.

Financial Analysis of the City's Individual Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was a negative \$3.2 million, an increase of \$10.2 million from negative \$13.4 million the prior year. The increase in fund balance is due to an overall increase in revenues collected of \$25 million more than prior fiscal year offset by overall increases in expenditures of \$6.8 million, over the prior fiscal year. Other financing sources amounted to \$125 million, an increase of \$3million over the prior fiscal year. Increases in tax collections, fines and forfeitures, and other revenues offset the increases in expenditures and other financing sources for the fiscal year ending June 30, 2016. As a measure of the general funds' liquidity, it may be useful to compare both unassigned fund balance and total fund balance.

School Grants-Fund Balance – The school grant funds account for federal and state grants received and expended by the school system. The fiscal year 2016 school grants fund balance is reported at \$4.6 million, which is a \$2.2 million increase over fiscal year 2015. The inclusion of all state aid in fiscal 2016 was included in the School's general fund and excluded from the school grants fund.

School Fund – The school fund ended the year with a \$0 fund balance in accordance with City charter regulations. The expenditures were \$367 million as compared to \$361 million in the prior year. The inclusion of all state aid in fiscal 2016 was included in the School's general fund and excluded in the school grants fund.

Capital Projects Fund-Fund Balance – The capital projects fund accounts for resources to be used for the acquisition or construction of capital assets for housing and community improvement activities in the City, other than those financed by proprietary funds. The fiscal year 2016 capital projects fund balance is \$2.7 million. The \$2.5 million decrease from fiscal year 2016 is attributable most notably to capital outlays related to completion of the \$40 Million Road Bond Paving Initiative.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. As discussed in the business-type activities above, the City's proprietary net position increased by \$22.6 million as a result of operations in the individual enterprise funds. This increase is primarily from a \$13.7 million increase in net position of the Water Supply Board, an increase of net position of \$8.2 million by the Providence Public Building Authority, and a \$749 thousand increase in the school lunch program for fiscal year 2016.

CITY OF PROVIDENCE, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016

General Fund Budgetary Highlights

The general fund incurred an uncombined surplus in FY 2016 of \$9.7 million. This will decrease the cumulative uncombined general fund balance to a negative \$12.1 million. The GASB 54 requirement for combining funds shows a cumulative general fund balance as a negative \$3.2 million. Total general fund revenues and transfers for the fiscal year were \$468 million and total general fund expenditures and transfers for the fiscal year were \$459 million.

Further details of favorable and unfavorable variances of revenue and expense items can be found in the Required Supplementary Information on pages 62 through 72 of the fiscal year 2016 Comprehensive Annual Financial Report.

The City's investment in capital assets for its governmental activities as of June 30, 2016 amounts to \$1,115 million, net of accumulated depreciation of \$440 million, leaving a net book value of \$675 million. This investment in capital assets included land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the City, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items.

The authority of the City to incur debt is governed by federal and state laws, which restrict the amounts and purposes for which a municipality can incur debt.

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the City Council.

The City's total outstanding notes and bonds decreased by \$3 million during the current fiscal year.

The 2004 State legislative session authorized the City to issue variable rate debt and to participate in interest rate swaps. The City is developing policies that will set guidelines and procedures and define permitted instruments. It will set participant requirements and limitations on exposure, as well as ongoing management and reporting requirements.

The City of Providence maintains the following ratings from Wall Street's credit agencies for general obligation debt: a Baa2 rating from Moody's Investors Service, a BBB rating from Standard and Poor and a BBB- rating from Fitch. The City of Providence continues to perform long-term strategic planning in a pro-active attempt to control costs: examples of these costs are health insurance, pension costs, education, salaries and benefits and debt service. The City has negotiated with all of its unions to increase employee contributions for health insurance.

Additional information on the City's long-term debt obligations can be found in Notes 7 and 8 to the Financial Statements.

Requests for Information

This financial report is designed to provide a general overview of the City of Providence's finances for all of the City of Providence's citizens, taxpayers, customers, and investors and creditors. This financial report seeks to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: City of Providence, Finance Department, Providence City Hall, 25 Dorrance Street, Providence, RI 02903.

CITY OF PROVIDENCE, RHODE ISLAND
BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED)
JUNE 30, 2016
(In Thousands)

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position (Exhibit I) are different because of the following:

Fund balances - total governmental funds	\$ 62,868
--	-----------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Governmental capital assets	\$ 1,114,767	
Less accumulated depreciation	<u>(440,106)</u>	
Net capital assets		674,661

Other long-term assets are not available to pay for current-period expenditures and, therefore, are not recorded in the funds:

Property tax receivables greater than 60 days	22,983
Accounts and other receivables	1,890
Deferred outflows:	
Difference between expected and actual experience	939
Changes in assumptions	46,262
Changes in projected and actual investment earnings	38,388
City contributions made subsequent to the measurement date	20,402

Internal service funds are used by management to charge the costs of risk management to individual funds. The assets and liabilities of the internal service funds are reported with governmental activities in the statement of net position.

1,414

Long-term liabilities, including bonds payable and deferred outflows of resources, are not due and payable in the current period and, therefore, are not reported in the funds:

Bonds and notes payable	(154,772)
PPBA debt	(294,314)
Unspent PPBA bond proceeds	11,554
Unamortized bond premium	(4,963)
Interest payable on bonds and notes	(5,127)
Compensated absences	(34,896)
Claims and Judgements	(31,441)
Capital lease	(16,350)
Net OPEB obligation	(270,979)
Net pension liability	(1,195,385)
Deferred inflows:	
Differences between expected and actual experience	(5,012)
Changes of assumptions	(7,008)
Changes in projected investment earnings	(14,886)
Changes in proportion and differences between employer contributions and proportionate share of contributions	<u>(3,551)</u>

Net Position of Governmental Activities (Exhibit I)	<u>\$ (1,157,323)</u>

The accompanying notes are an integral part of the financial statements

CITY OF PROVIDENCE, RHODE ISLAND
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
GOVERNMENTAL FUNDS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2016

(In Thousands)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:

Net change in fund balances - total governmental funds (Exhibit IV) \$ 6,098

Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital outlay 18,950
 Depreciation expense (24,990)

In the statement of activities, only the gain on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus the change in net position differs from the change in fund balance by the cost of the assets sold. (2,893)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:

Property tax receivable - accrual basis change 19
 Accounts and other receivables - accrual basis change (3,530)
 Change in deferred outflows:
 Difference between expected and actual experience (381)
 Changes in assumptions 46,746
 Changes in projected and actual investment earnings 25,579
 City contributions made subsequent to the measurement date (953)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of

long-term debt and related items are as follows:

Issuance of notes payable and capital leases (6,507)
 Bond principal payments 15,602
 Note payable and capital lease principal payments 4,845
 PPBA debt principal payments 22,368
 Unspent PPBA bond proceeds (11,400)
 Amortization of premiums 569

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Compensated absences 1,278
 Accrued interest 311
 Net OPEB expense (35,927)
 Change in net pension liability (106,330)
 Claims and judgements (1,002)
 Deferred inflows:
 Differences between expected and actual experience (5,012)
 Changes of assumptions 1,193
 Changes in projected investment earnings 5,052
 Changes in proportion and differences between employer contributions and proportionate share of contributions (3,551)

Internal service funds are used by management to charge costs to individual funds. The net revenue of certain activities of internal services funds is reported with governmental activities. 1,414

Change in Net Position of Governmental Activities (Exhibit II) \$ (52,452)

The accompanying notes are an integral part of the financial statements

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

1. SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Providence, Rhode Island (the City) was incorporated in 1832. The City covers 18.5 square miles located in southeastern New England, at the head of the Narragansett Bay on the Atlantic sea coast. The City is approximately 45 miles from Boston and approximately 3 1/2 hours from New York by automobile or rail.

The City operates under a Mayor-Council form of government. A Home Rule Charter was adopted in November 1980 and became fully effective on January 3, 1983. The Mayor is elected by the voters of the City to a four-year term. City Council members are also elected to four-year terms, which coincide with the term of the Mayor. Most department heads and other City officials are appointed by the Mayor.

The City complies with generally accepted accounting principles (GAAP), including all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

All dollar values disclosed herein are in thousands (000 omitted).

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- a. The primary government is legally entitled to or can otherwise access the organization's resources.
- b. The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- c. The primary government is obligated in some manner for the debt of the organization.

The criterion has been considered and the blended component units discussed below are included in the City's reporting entity because of the significance of its operational or financial relationships with the City.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Individual Component Unit Disclosure

The component unit provides services entirely or almost entirely to the City or otherwise exclusively or almost exclusively benefits the City, even though they do not provide services directly to it. The component unit has been reported as if it was part of the primary government through a method of inclusion known as blending. A description of the component unit, criteria for inclusion and its relationship with the City is as follows:

Providence Public Buildings Authority

The Providence Public Buildings Authority (“PPBA”) was created by an act of the Rhode Island General Assembly and was empowered by resolution of the Providence City Council on August 13, 1987, and by resolution of the Public Finance Board, created under Section 42-10.11 of the General Laws of Rhode Island, on February 12, 1988. Membership is comprised of 5 members appointed by the Mayor and approved by the City Council. The PPBA is presented as a blended enterprise fund.

The purpose of the PPBA is to acquire, construct, maintain, renovate, repair and operate public facilities and public equipment through the use of public financing for the City. These activities are structured as financing leases between the PPBA and the City. The future payments to be received on these leases is presented as “Due from Primary Government” on the PPBA Statement of Net Position. These activities allow the PPBA to provide for the conduct of the executive, legislative and judicial functions of the government. The PPBA is obligated to pay the principal and interest on any financing solely from the rents, revenues and receipts derived under the lease agreements with the City or from receipts on the disposition of the assets being financed. The PPBA’s administrative expenses are paid on an annual basis by the lessee in the form of additional rent.

Complete financial statements of the PPBA can be obtained through the City of Providence Finance Department, City Hall, Providence, Rhode Island 02903.

The Providence Redevelopment Agency

The Providence Redevelopment Agency (“PRA”) was formed on December 20, 1946 pursuant to R.I.G.L. 45-31 (the Act) by a duly enacted resolution of the City Council of the City. Under the Act, the PRA constitutes a body corporate and politic, exercising public and essential government functions, and having a distinct legal existence from the City. As such, the PRA has the authority to acquire, develop as a building site, administer, sell and lease property, has the power of eminent domain, and the power to issue bonds, notes and other evidence of indebtedness. The PRA does not have the power to levy taxes.

The PRA was created to eliminate and prevent blighted and substandard areas and replace such areas through redevelopment of well-planned, integrated stable, safe and healthful neighborhoods.

The Powers of the PRA are vested in eight members, including the Mayor of the City ex officio, five members appointed by the Mayor of the City and two members who are also members of the City Council, appointed by the City Council. All appointed members of the PRA must be resident electors of the City. The PRA is presented as a blended special revenue fund.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Government-Wide Fund Financial Statements

The Statement of Net position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The effect of inter-fund activity has not been removed from these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and proprietary funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year when levied for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred as under accrual accounting, however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due (matured).

Property taxes when levied for, intergovernmental revenue when eligibility requirements are met, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual (measurable) and so have been recognized as revenues of the current fiscal period, if available. All other revenue items, primarily permits and fees, are considered to be measurable only when cash is received by the City.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position. Proprietary funds distinguish operating revenues and expenses from non-operating items.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and the government's internal service funds are charges to customers for sales and services. Operating expenses for proprietary funds, including both enterprise funds and internal service funds, include the cost of operations, maintenance, sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Revenues from charges for services of the Providence Water Supply Board are recognized on the accrual basis, net of estimated uncollectibles. Depending upon consumption, metered water sale customers are billed monthly, quarterly or annually for water usage. Large commercial customers and other local water suppliers are billed more frequently.

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- d. Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures/expenses of that individual, governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- e. Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures/expenses of the individual, governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The City reports the following major governmental funds:

- The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *School Fund* accounts for operations of the Providence school system. Revenue is derived primarily from State and Federal Aid and transfers from the City.
- The *School Grants Fund* accounts for federal, state, and private grants received and expended by the school system

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

- The *Capital Projects Fund* accounts for resources to be used for the acquisition or construction of capital assets for the housing and community improvement activities in the City.

The City reports the following major proprietary funds:

- The *Water Supply Board* accounts for the activities of the Providence Water Supply Board.
- The *Providence Public Buildings Authority* accounts for the activities related to acquisition, construction and leasing of capital assets to the City.

Additionally, the City reports the following fund types:

- The *Internal Service Fund* is used by management to charge the costs of self-insurance and legal claims to individual funds.
- The *Pension Trust Fund* accounts for the activities of the City of Providence Employees Retirement System, which accumulates resources for pension benefit payments to qualified employees.
- The *Private-Purpose Trust Fund* is used to account for resources legally held in trust for the benefit of individuals, organizations or other governments.
- The *Agency Fund* accounts for assets held by the City in a purely custodial capacity. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations.

Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Pension Plan Accounting

Employees’ Retirement System of the City of Providence

The Employee Retirement Plan (Pension Trust Fund) is reported on the accrual basis of accounting. Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Administrative costs are financed through investment earnings.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value, based on value of underlying assets.

Funding Policy

The City makes contributions at the discretion of management.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the cash flow statement, the City considers certificates of deposits and highly liquid short-term investment funds with original maturities of three months or less, when purchased, to be cash equivalents, including amounts reported as restricted.

Investments

Investments and pooled fixed income investments are stated at fair value, based on quoted market prices.

Property Taxes

The City's property tax is levied each year on July 1 based on the assessed property value, as of the prior December 31, for all real property, tangible property, equipment and motor vehicles located in the City. Assessed values of real property were established by the City Assessor's office at 100% of appraised market value based on 2012 State mandated statistical updated valuations less exemptions. Assessed values of tangible property and equipment and motor vehicles are determined annually at 100% of market value, and a \$1,000 exemption on motor vehicle assessments. Payments on the gross levy are due in equal quarterly installments in July, October, January, and April. Property taxes attach as an enforceable lien on property when levied.

Allowance for Collection Losses

The allowance for possible loan losses is maintained at a level believed adequate by management to absorb potential losses for outstanding loans. Management's determination of the adequacy of the allowance is based on an evaluation of the portfolio, past loan loss experience and current economic conditions.

All trade and property tax receivables for governmental and proprietary funds are reported net of an allowance for uncollectibles. The property tax receivable allowance of \$35,607 is equal to 58.2% of outstanding property taxes at June 30, 2016.

Inventories and Prepaid Assets

Proprietary fund inventory is stated at the lower of weighted average cost or market using the first-in, first-out method. Inventory consists primarily of materials and supplies. Inventory is not maintained in governmental funds, but is recorded as an expenditure at the time of purchase. Inventory on hand at year-end is not material.

Any material payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined by the government as all computer equipment and assets with an initial, individual cost of more than a range of \$5,000 to \$100,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital asset, as applicable.

Capital assets of the governmental activities are depreciated using the straight-line method over the following estimated useful lives:

Assets	Year
Buildings	45
Building improvements	20
Public domain infrastructure	45
System infrastructure	30
Vehicles	6
Office equipment	7
Computer equipment	5
Machinery and equipment	15

Capital assets are reported as expenditures and no depreciation expense is reported in the governmental fund financial statements.

Property, plant and equipment of the business-type activities and proprietary funds are depreciated using the straight-line method over the following estimated useful lives:

	Water Supply Board
Buildings, source of supply, structures, and improvements	5 - 75 years
Improvements other than buildings	3 - 75 years
Machinery and equipment	3 - 50 years

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds from project specific debt issued over the same period.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Self-Insurance

The City is self-insured in most areas of risk, subject to certain third-party “stop loss” coinsurance. Self-insured risks include general liability, property and casualty, workers’ compensation, unemployment and employee health insurance claims. Claims incurred but not paid, including those which have not been reported, are accrued as long-term obligations in the government-wide and internal service fund financial statements. Obligations are paid out of the General Fund and the Internal Service Funds.

Compensated Absences

Under the terms of various contracts and policies, employees are granted vacation and sick leave based on length of service. The City’s policy is to recognize the cost of vacation and sick leave in governmental funds when paid (matured). The liability for vacation and sick leave is recognized when earned in the government-wide and proprietary fund financial statements. For governmental activities the general fund is used to satisfy this liability as it becomes due, while each enterprise fund accounts for all its settlement of business-type liabilities for compensated absences.

Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond proceeds, premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payments of bond principal are recognized as expenditures as it comes due.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows related to pension in the government-wide and business-type activities, enterprise funds statements of net position. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred inflows of resources related to pensions in the in the government-wide and business-type activities, enterprise funds statements of net position. A deferred inflow of resources related to pension results from

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). For governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, loans receivable and other receivables. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available. The City also reports a deferred charge on refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Fund Equity

In the government-wide and proprietary fund financial statements, net position is classified in the following categories:

Net Investment in Capital Assets

This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

Restricted Net Position

This category represents the net position of the City, which are restricted by outside parties or enabling legislation.

Unrestricted Net position or Deficits

This category represents the net position of the City, which do not meet the definition of “restricted” or “invested in capital assets, net of related debt”. Deficits require future funding.

Governmental fund equity is classified as fund balance. Fund balance is classified into one of the following five categories: non-spendable, restricted, committed, assigned, or unassigned. These categories are defined below.

Non-spendable Fund Balance

This includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. “Not in spendable form” includes items that are not expected to be converted to cash.

Restricted Fund Balance

This includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance

This includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

changes the specified use by taking the same type of action it employed to previously commit those amounts usually through city ordinance. The City Council is the highest level of decision-making authority for the City of Providence and utilizes City Ordinances to vote on the City's budget and resolutions proposed by the various committees.

Assigned Fund Balance

This includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. The City of Providence does not currently have a spending policy regarding the order in which restricted, committed, assigned, and unassigned fund balances are spent when more than one amount is available for the expenditures incurred. Accordingly, by default, the City is following the policy prescribed by GASB Statement No. 54 which specifies that fund balance is reduced first by committed, then by assigned, then by unassigned when expenditures are incurred for purposes for which any unrestricted fund balance could be used.

Unassigned Fund Balance

This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

Fund Balance Flow Assumptions

The City of Providence does not currently have a spending policy regarding the order in which restricted, committed, assigned, and unassigned fund balances are spent when more than one amount is available for the expenditures incurred. Accordingly, by default, the City is following the policy prescribed by GASB Statement No. 54 which specifies that fund balance is reduced first by committed, then by assigned, then by unassigned when expenditures are incurred for purposes for which any unrestricted fund balance could be used. In all situations, the City considers restricted fund balance to be used first when available and when expenditures are incurred that meet the requirements of the

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

(Amounts expressed in thousands)

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The City employs the following procedures in establishing the General Fund budgetary data reflected in the accompanying required supplementary information:

- At least sixty days prior to July 1, the Mayor submits a proposed operating budget for the upcoming fiscal year to the City Council. The operating budget includes proposed expenditures and the means of financing appropriations over expected revenues.
- The final budget is legally enacted through passage of an ordinance.
- The Mayor is authorized to make minor transfers of budgeted amounts between departments. Significant budget revisions or transfers must be approved by the City Council.

The General and School funds are the only governmental funds that have legally adopted annual budgets. The “actual amounts” presented in the accompanying schedules are presented on a budgetary basis.

The budget for the School Fund is prepared annually and approved by the Providence School Board. The amount of the annual transfer from the General Fund is ultimately determined through the adoption of the General Fund budget. This appropriation does not lapse at year-end.

Excess of expenditures over appropriations

- The executive, legislative and judicial line was overspent by \$2,291
- The public safety line was overspent by \$1,072
- The recreation line was overspent by \$32

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

Deposits

The City’s custodial credit risk policy is in accordance with RI General Laws, Chapter 35-10.1, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to 100% of time deposits with maturities greater than sixty days. Any of these institutions which do not meet minimum capital standards prescribed by federal regulators will insure or pledge eligible collateral equal to 100% of deposits, regardless of maturities.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Investments

The City policy for pension investments is under the oversight of the Board of Investment Commissioners. The Board contracts with an investment advisory firm and approves any new investment vehicles presented by the consultant. The Board follows all applicable state statutes and Section 17-189 of the City Ordinance, which states, "The Board of Investment Commissioners is authorized and empowered to execute the disposition and investment of the funds which are within its control in any securities and investments as would be acquired by prudent persons of discretion and intelligence in these matters, who are seeking a reasonable income and the preservation of their capital."

Interest Rate Risk

The City does not have a formal investment policy for its pension funds that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The City's policy is to limit its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

Concentrations

The City's policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific issuer.

Custodial Credit Risk

Deposits

This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$124,088 of the City's bank balance of \$167,486 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$	-
Uninsured and collateral held by pledging banks trust department, not in City's name		<u>124,088</u>
Total Amount Subject to Custodial Credit Risk	\$	<u><u>124,088</u></u>

The City adopted new accounting guidance, GASB Statement No. 72, *Fair Value Measurement and Application*. The new disclosure is presented below:

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The City has the following recurring fair value measurements as of June 30, 2016:

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Investments by fair value level:				
U.S. Government Securities	\$ 11,452	\$ 11,452	\$	\$

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities.

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Business-Type Activities:					
Bonds payable:					
Revenue bonds - water	\$ 78,174	\$ 30,000	\$ 4,629	\$ 103,545	\$ 3,893
PPBA - City	306,682	10,000	22,368	294,314	28,749
PPBA - Bond premiums	21,434	152	1,836	19,750	
Total bonds and notes payable	<u>406,290</u>	<u>40,152</u>	<u>28,833</u>	<u>417,609</u>	<u>32,642</u>
PPBA - PAP notes*	145,356	58,123		203,479	
Net pension liability	43,269	7,097		50,366	
Net OPEB liability	<u>6,671</u>	<u>1,187</u>		<u>7,858</u>	
Business-Type Activities Long-Term Liabilities	<u>\$ 601,586</u>	<u>\$ 106,559</u>	<u>\$ 28,833</u>	679,312	32,642
Less PPBA Eliminations				<u>(517,543)</u>	<u>(28,749)</u>
Business-Type Activities Long-Term Liabilities				<u>\$ 161,769</u>	<u>\$ 3,893</u>

*Amount represents internal loans between the City and the PPBA and is therefore eliminated on the entity-wide statements. The \$223,229 difference between business type PPBA eliminations and governmental PPBA eliminations consists of \$203,479 of PAP loans between the City and PPBA and \$19,750 of net bond premium.

The Water Supply Board long-term debt is general obligation debt of the City. However, because it is the intent of the City to have the Board meet the debt service requirements of this debt, such amounts are recorded in the enterprise funds of the City. Similarly, debt of the PPBA that will be met by the Water Supply Board has been recorded as the Water Supply Board's debt.

Debt service requirements for bonds and notes payable at June 30, 2016 were as follows:

Governmental Activities				PPBA				Total Government Entity-Wide			
Year Ending June 30,	Principal	Interest	Total	Year Ending June 30,	Principal	Interest	Total	Year Ending June 30,	Principal	Interest	Total

PPBA Eliminations

The Providence Public Building Authority (PPBA) issues long-term bonds for the acquisition and construction of capital assets. Upon acquisition or completion, these capital assets are leased to the City. Because the PPBA is included as a blended component unit in the accompanying statements, the capital assets and related debt are reported as part of the governmental activities and business-type activities columns in the government-wide statements as presented below. The respective amounts in the PPBA statements have been eliminated in the business-type activities column in order to properly reflect the debt and assets. The annual requirements to amortize the debt payable at June 30, 2016 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2017	\$ 28,749	\$ 12,320
2018	28,644	10,977
2019	28,119	9,872
2020	25,048	8,830
2021	23,830	7,779
2022-2026	105,074	24,812

2032-2036	2,705	263
Total	\$ 294,314	\$ 79,476

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

The City and the Water Supply Board entered into lease agreements with the PPBA relating to various capital projects. In connection with these lease agreements, the PPBA issued revenue bonds that will be repaid by the Water Board with the Water Quality Protection Charge. The City repays the PPBA as lease payments from general revenues. The PPBA debt to be repaid by the proprietary funds has been shown as debt in those funds' financial statements. PPBA debt to be repaid by the City is presented as debt of the governmental activities in the government-wide statement of net position.

Debt Limit

Except as explained below, under Rhode Island law, the City may not, without special statutory authorization, incur any debt which would increase its aggregate indebtedness not otherwise excepted by law to an amount greater than 3% of the taxable property of the City. Deducted from the computation of aggregate indebtedness is the amount of any borrowing in anticipation of taxes authorized by law and the amount of any sinking funds maintained by the City. The current outstanding debt of the City subject to the 3% debt limit is \$35.0 million and the current 3% debt limit of the City is \$334.4 million based on taxable property as of December 31, 2015, of approximately \$11.1 billion, leaving a remaining borrowing capacity of approximately \$299.4 million.

The State of Rhode Island General Assembly (General Assembly) may, by special act permit the City to incur indebtedness outside the 3% debt limit. Bonds issued either within the 3% debt limit or by special legislation adopted by the General Assembly authorizing the City to incur debt are subject to referendum by the electors of the City. On June 30, 2014, the total outstanding debt of the City issued outside the 3% debt limit was \$48.9 million, excluding water bonds and sewer bonds which are deemed self-supporting.

In addition to debt authorized within the 3% debt limit and debt authorized by special act of the General Assembly, Rhode Island General Laws Section 45-12-11 authorizes the State Director of Administration, upon petition by a municipality, to authorize such municipality to incur indebtedness in excess of the 3% debt limit whenever the Director shall determine that the sums appropriated by the municipality or its funds available are insufficient to pay the necessary expenses of the municipality. The City has not requested the State Director of Administration to authorize indebtedness of the City under Section 45-12-11.

(Amounts expressed in thousands)

8. LEASE COMMITMENT

Property and equipment carried at approximately \$98,000 with approximately \$97,000 in accumulated depreciation, in the governmental activities is being acquired under capital lease arrangements.

The City is obligated under various capital and operating leases to make the following aggregate annual lease payments: Lease expenditures approximated \$2,030 for fiscal year ended June 30, 2016.

<u>Year Ending June 30,</u>	<u>Operating</u>	<u>Capital</u>
2017	\$ 2,030	\$ 4,010
2018		5,577
2019		3,119
2020		3,119
2021		1,638
2022-2023		<u>1,232</u>
Total payments	<u>\$ 2,030</u>	18,695
Less interest		<u>(2,345)</u>
Principal Balance		<u>\$ 16,350</u>

9. RESTRICTED ASSETS AND RELATED LIABILITIES

The State of Rhode Island enacted the Public Drinking Water Protection Act of 1987 (the Act) that empowers suppliers of public drinking water to levy a surcharge (the Water Quality Protection Surcharge) of \$0.01 per hundred gallons of water for all customers. The Act was amended numerous times and effective July 1, 2002, the surcharge increased to \$0.0292 per hundred gallons of water for all customers. In addition to the increase, the Water Supply Board will retain 36.1% of the surcharge in its Water Quality Protection fund, remit 57% to the State Water Resources Board and retain 6.9% for general operations.

The restricted assets are pooled with the cash and cash equivalents and investments of other funds maintained by the City. The earnings from pooled cash and cash equivalents and investments are allocated in proportion to each funds' balance.

11. DEFINED BENEFIT PENSION PLANS

The City contributes to two defined benefit pension plans - the Employees' Retirement System of the City of Providence (ERS), a single employer plan; and the Employees' Retirement System of the State of Rhode Island (the System), a cost-sharing multiple employer plan. The ERS is presented in the accompanying financial statements as a pension trust fund. A separate financial statement is not issued. The System is not included in the basic financial statements.

A. Employees' Retirement System of the City of Providence (ERS)

Plan Description

ERS is a single-employer defined benefit pension plan that covers most management employees of the City, except school teachers. The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Cost-of-living adjustments (COLA) are provided to retirees and beneficiaries at varying percentages ranging from 0% to 3%. Benefits are paid at varying amounts not to exceed 100% of final compensation for Class A (city) employees or 100% of final compensation for Class B at age 60 (police and fire). Final compensation is the average of the highest three years of base compensation including longevity pay earned by a member during his total service as an employee.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

ERS is governed by an Employee Retirement Board provided by the Providence Home Rule Charter. The ERS consists of elected officials, management and employee representation and provides for establishing rules and regulations and is responsible for the administration and operation of the city employee retirement system. The Board has the discretion and authority to interpret the Plan and to determine the eligibility and benefits of Participants and beneficiaries pursuant to the provisions of the Plan. On all such matters, the decision of a majority of the then members of the Board shall govern and be binding upon the Employer, Participants, and beneficiaries.

Membership of the ERS plan consisted of the following at July 1, 2015, the date of the latest actuarial valuation:

Inactive plan members or beneficiaries currently receiving benefits	3,094
Inactive employees entitled to but not yet receiving benefits	432
Active employees	<u>3,012</u>
Total	<u><u>6,538</u></u>

Contributions

Class A members and police officers are required to contribute 8% of their salary to the Plan. Class B members, other than police officers, are required to contribute 9.5% of their salary to the Plan. The Mayor and City Council contribute to the Plan at a rate of \$350 per year. Additionally, the City shall contribute from time to time amounts sufficient with the contributions of elected officials to provide the special pensions granted to them.

Basis of Accounting

Financial statements are prepared using the accrual basis of accounting for the defined benefit pension plan. Plan member contributions are recognized in the period in which they are due. Employer contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments

Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. Investment income is recognized as earned.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Investment Policy

The City policy for pension investments is under the oversight of the Board of Investment Commissioners. The Board contracts with an investment advisory firm and approves any new investment vehicles presented by the consultant. The Board follows all applicable state statutes and Section 17-189 of the City Ordinance, which states, "The Board of Investment Commissioners is authorized and empowered to execute the disposition and investment of the funds which are within its control in any securities and investments as would be acquired by prudent persons of discretion and intelligence in these matters, who are seeking a reasonable income and the preservation of their capital." The following is a representation of the Board's adopted asset allocation strategy:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*	Weighting
Domestic Equity	39.25%	6.49%	-2.20%
International Developed Markets Equity	13.25%	7.16%	-5.50%
International Emerging Markets Equity	1.50%	9.46%	-5.50%
Core Fixed Income	29.00%	1.68%	4.40%
Hedge fund, GTAA, risk parity	13.00%	3.60%	26.70%
Private Equity	4.00%	11.04%	-15.30%
Total Portfolio	100.00%		2.60%
Long-Term Inflation Expectation			3.50%
Long-Term Expected Nominal Return			6.10%

* Long-Term Returns are provided by Segal Group, Inc. The returns are geometric means.

Rate of Return

For the year ended June 30, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 2.60%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the Retirement System at June 30, 2016 were as follows:

Total pension liability	\$ 1,318,341
Plan fiduciary net position	<u>(333,287)</u>
Net Pension Liability	<u>\$ 985,054</u>
Plan fiduciary net position as a percentage of the total pension liability	25.28%

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.5%
Salary increases	3.5%
Investment rate of return	8.00%

Mortality rates were based on the RP-2014 Employee and Healthy Annuitant Mortality Table with MP-2014 improvement projections backed out to a base year of 2006 and projected generationally with scale BB2D, set forward 1 year post-retirement.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return are developed. Best estimates of the real rates of return for each major asset class are included along with the pension plan's long-term target asset allocation. Since the rates term rates shown above are geometric averages. The impact of asset allocation and rebalancing is not reflected in the expected return. An expected rate of return of 8.00% was used.

Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	<u>Increase (Decrease)</u>		
	<u>Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Net Pension Liability</u>
	<u>(a)</u>	<u>(b)</u>	<u>(a)-(b)</u>

(Amounts expressed in thousands)

Sensitivity in the Net Pension Liability

The following presents the net pension liability of the City, calculated using the discount rate of 8.00%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.00%) or 1 percentage point higher (9.00%) than the current rate:

	<u>1% Decrease in Discount Rate (7.00%)</u>	<u>Current Discount Rate (8.00%)</u>	<u>1% Increase in Discount Rate (9.00%)</u>
Net Pension Liability as of June 30, 2016	\$ 1,133,633	\$ 985,054	\$ 860,777

Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the City recognized pension expense of \$108,377. At June 30, 2016, the City reported deferred outflows and inflows of resources related to pension from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 990	\$ 3,494
Changes of assumptions	48,755	
Net difference between projected and actual earnings on pension plan investments	24,976	
Changes in proportion and differences between employer contributions and proportionate share of contributions	<u>2,528</u>	<u>2,528</u>
Total	<u>\$ 77,249</u>	<u>\$ 6,022</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended June 30,

2017	\$ 18,732
2018	18,732
2019	18,732
2020	<u>15,031</u>
Total	<u>\$ 71,227</u>

(Amounts expressed in thousands)

B. Employees Retirement System of the State of Rhode Island

Effective July 1, 2012, the State administered retirement system which covers local teachers and certain municipal employees was modified to include both defined benefit and defined contribution plan components.

Plan Description

The Employees' Retirement System (ERS) Plan (the Plan) was established and placed under the management of the Retirement Board for the purpose of providing retirement allowances for employees of the State of Rhode Island under the provisions of chapter 8 - 10, inclusive, of Title 36, and public school teachers under the provisions of chapters 15 - 17, inclusive, of Title 16 of the Rhode Island General Laws.

The Plan covers most State employees other than certain personnel at the State colleges and university. The Plan also covers teachers, including superintendents, principals, school nurses, and certain other school officials in the public schools in the cities and towns. Membership in the Plan is mandatory for all covered state employees and teachers.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

City covered payroll under the plan during 2016 was \$148,594.

Benefits Provided

The Plan provides benefits based on various eligibility dates, final average compensation (FAC), and years of service credit. For members eligible to retire as of September 30, 2009, their FAC will be based on the highest three consecutive annual salaries. FAC for all other members will be based on the highest five consecutive years of salary. Members vest in the benefits after five years of service. Retirement eligibility dates vary based on years of service as of June 30, 2012. Eligibility, benefit calculations for current retirees, and retirement dates are detailed in the Employees' Retirement System of Rhode Island Actuarial Valuation as of June 30, 2015 which can be located on the ERSRI website under reports and publications. Active employees with more than 20 years of service at July 1, 2012 will receive a retirement benefit equal to 2% of the monthly FAC. All other active employees (i.e. less than 20 years of active service at July 1, 2012) will receive a benefit of 2% for years of service up until June 30, 2012. The benefit drops to 1% for service after June 30, 2012. A defined contribution plan was added for all employees with less than 20 years of service at July 1, 2012.

Death and disability benefits are provided under the Plan. After retirement, death benefits are based on the form of annuity elected. In addition, a lump-sum death benefit is payable upon the death of any retired member, regardless of option elected. This lump sum is equal to a percentage of the lump-sum death benefit that was available to the member at the time of retirement. Percentages depend upon the number of years retired when death occurred. A member is eligible for disability retirement provided they have at least five years of service or if the disability is work-related. Ordinary disability is the benefit payable under the retirement formula. Accidental disability benefits are $66 \frac{2}{3}$ of salary for members who are permanently and totally disabled from engaging in any occupation as determined by the Retirement Board.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Contributions

Rhode Island general laws set the contribution rates of participating employees at 10.75% of salary (3.75% to the defined benefit trust and 7.0% to the defined contribution plan) effective July 1, 2012, except that those employees with more than 10 years of service but less than 20 years of service as of July 1, 2012 are eligible for a higher rate of contribution into the defined contribution plan.

Actuarially determined contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as a percentage of participants' payroll. The actuarially determined contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; (c) interest on the unfunded frozen actuarial liability; and a percentage of payroll contribution into the defined contribution plan. Normal cost is determined using the individual entry age cost method with frozen initial liability.

As prescribed by Rhode Island general law, the State pays the entire portion of the actuarially determined contribution attributable to the costs of contributions deferred by the State in prior years, plus 40% of contributions assessed to employers on payroll not reimbursable through federal programs. This resulted in a contribution rate paid by the State on behalf of City teachers of 9.41%. The City's contribution rate was 13.73%.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Teachers' Pensions

At June 30, 2016, the City reported a liability of \$260,697 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the City as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of the pension liability	\$ 260,697
State's proportionate share of the pension liability associated with the City associated with the City	<u>178,100</u>
Total Net Pension Liability	<u><u>\$ 438,797</u></u>

The net pension liability was measured as of June 30, 2015, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015. The City proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2015 the City's proportion was 9.47%

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

For the year ended June 30, 2016, the City recognized gross pension expense for the teachers' Plan of \$20,402 and revenue of \$13,837 for support provided by the State. At June 30, 2016, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$	\$ 1,697
Changes of assumptions		7,008
Net difference between projected and actual earnings on pension plan investments	14,689	14,886
Changes in proportion and differences between employer contributions and proportionate share of contributions		1,023
City contributions made subsequent to the measurement date	<u>20,402</u>	
Total	<u>\$ 35,091</u>	<u>\$ 24,614</u>

The \$20,402 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. The proportionate share reported as deferred inflows of resources related to pensions will be recognized over 7.47 years in pension expense as follows:

Year Ended June 30,

2017	\$ (2,866)
2018	(2,866)
2019	(2,866)
2020	2,096
2021	(1,576)
Thereafter	<u>(1,847)</u>
Total	<u>\$ (9,925)</u>

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 13.5%
Investment rate of return	7.50%

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

Mortality - male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2014 valuation rolled forward to June 30, 2015 and the calculation of the total pension liability at June 30, 2015 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 23 sources. The June 30, 2015 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return*</u>
Global Equity:	38.00%	
US Equity		6.93%
International Developed		7.32%
International Emerging Markets		9.52%
Equity Hedge Funds	8.00%	3.98%
Private Equity	7.00%	9.99%
Core Fixed Income	15.00%	2.18%
Absolute Return Hedge Funds	7.00%	3.98%
Infrastructure	3.00%	5.70%
Real Estate	8.00%	4.85%
Other Real Return Assets:	11.00%	-
Master Limited Partnerships		4.51%
Credit		4.51%
Inflation Linked Bonds		1.24%
Cash, Overlay, Money Market	3.00%	7.80%
Total Portfolio	<u>100.00%</u>	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS

(Amounts expressed in thousands)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) calculated using the discount rate of 7.5 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

	<u>1% Decrease in Discount Rate (6.50%)</u>	<u>Current Discount Rate (7.50%)</u>	<u>1% Increase in Discount Rate (8.50%)</u>
Net Pension Liability as of June 30, 2016	\$ 326,912	\$ 260,697	\$ 206,491

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued ERSRI financial report.

Teachers Defined Contribution Pension Plan

Plan Description

Employees participating in the defined benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute 1% of annual covered salary. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after 3 years of service. Benefit terms and contributions required under the plan by both employee and employer are established by the General Laws, which are subject to amendment by the General Assembly

Amounts in the defined contribution plan are available to participants in accordance with the Internal Revenue Service guidelines for such plans.

The City’s School District recognized pension expense of \$1,556 for the fiscal year ended June 30, 2016.

The System issues a publically available financial report that included financial statements and required supplementary information for plans administered by the system. The report can be obtained at <http://www.ersri.org>.

Other City Pension Costs

The City is required to make contributions to the National Pension Plan of the Laborers’ International Union of North America, a multi-employer plan. The pension cost incurred by the City for these purposes amounted to \$2,721 for the year ended June 30, 2016.

**CITY OF PROVIDENCE, RHODE ISLAND
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2016**

(Amounts expressed in thousands)

12. OTHER POST EMPLOYMENT BENEFITS (OPEB)

Plan Description

The City's Post-Employment Medical Benefit Plan is a single-employer defined benefit postretirement health insurance program administered by the City. The City provides for a portion of the lifetime health care benefits to substantially all retired employees and their spouses. Health care benefits are provided through the City's self-insured health insurance program covering both active and retired employees. The financial activity of these programs is reported as an internal service fund. The Plan does not issue a separate financial report. These benefits are provided for and amended under various provisions of Rhode Island General Law, City Ordinances and the terms of collective bargaining agreements.

OPEB Funding Policy

The contribution requirements of plan members and the City are established and may be amended through provisions of Rhode Island General Law, City Ordinances and through collective bargaining. The required contribution is based on pay as you go financing requirements. The plan can cover 100% of the costs of the benefit, however, retirees and their spouses are potentially required to fund a portion of the Plan costs depending upon the class an employee has been assigned and their date of hire. Current employee co-share for the retiree health insurance benefit requires a co-share of .01 of final average salary with a maximum limit of \$400.

The following is a current census of the City benefit participants as of July 1, 2014:

	(not in thousands)
Active members	4,765
Retirees	4,499
	<hr/>
Total	9,264
	<hr/> <hr/>

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of occurrence of future events. Assumptions include future employment, mortality, and healthcare and other benefit cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as accrual results are compared with past expectations and new estimates are made about the future.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the City's net OPEB obligation:

	Other Post Employment Benefits (OPEB)
Annual recommended contribution (ARC)	\$ 64,724
Interest on net OPEB obligation	9,731
Adjustment to annual recommended contribution	<u>(8,861)</u>
Annual OPEB cost	65,594
Contributions made	<u>(30,042)</u>
Increase in net OPEB obligation	35,552
Net OPEB obligation, beginning of year	<u>243,285</u>
Net OPEB Obligation, End of Year	<u><u>\$ 278,837</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for June 30, 2014, 2015 and 2016 were is presented below:

Fiscal Year Ending	Annual OPEB Cost (AOC)	Actual Contribution	Percentage of AOC Contributed	Net OPEB Obligation
6/30/14	\$ 65,830	\$ 29,620	45.0 %	\$ 209,481
6/30/15	62,938	29,134	46.3	243,285
6/30/16	65,594	30,042	45.8	278,837

Projections of the benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.0% rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.5% initially, reduced by decrements of .5% to an ultimate rate of 5% after five years. Both rates included a 3.5% inflation assumption. The actuarial value of the assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at July 1, 2014, was 30 years.

(Amounts expressed in thousands)

Required Supplemental Information - OPEB

The schedule of funding progress, presented below, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Funding Status and Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Liability (AAL) Projected Unit Credit (b)	Funded Ratio (a/b)	Covered Payroll (c)	UFAL as a % of Covered Payroll ((b-a)/c)
7/1/12	\$ -	\$ 1,190,552	0%	\$ 260,546	457%
7/1/13	-	1,032,887	0	267,341	386
7/1/14	-	980,674	0	270,706	362

Schedule of Employer Contributions

Fiscal Year Ended	Annual Required Contributions	Actual Contribution	Percentage ARC Contributed
6/30/14	\$ 65,210	\$ 29,620	45.4%
6/30/15	62,189	29,134	46.8
6/30/16	64,724	30,042	46.4

13. CONTINGENCIES

The City is involved in numerous lawsuits, claims and grievances arising in the normal course of business, including claims for property damage, personal injury and personnel practices, disputes over property condemnation proceedings and suits contesting the legality of certain taxes. In the opinion of City officials, the ultimate disposition of these matters will not have a material adverse effect on the City's basic financial statements. Included in the government-wide financial statements is a provision for claims that are deemed probable.

The City participates in a number of federally-assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. In the opinion of City officials, liabilities resulting from such disallowed expenditures, if any, will not be material to the accompanying basic financial statements.

The City is committed under contracts for outstanding projects approximating \$10.6 million as of June 30, 2016.

CITY OF PROVIDENCE, RHODE ISLAND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2016

(Amounts expressed in thousands)

14. RELATED PARTY TRANSACTIONS

The City leases certain properties from the PPBA. The estimated future minimum lease payments required under these agreements coincide with the principal and interest payments on bonds issued by the PPBA. The leases terminate between 2018 and 2035. The City, in turn, subleases a portion of this property to the School Department. At the expiration of the leases, the City, at its option, can purchase the properties for a nominal amount (see Notes 6 and 7).

15. RISK MANAGEMENT

The City is self-insured in most areas of risk; due to “stop loss” insurance, the city is responsible for a maximum of \$1million per claimant per year for health care claims. Self-insured risks include general liability, property and casualty, workers’ compensation, unemployment and employee health insurance claims. The City does, however, purchase commercial insurance for all buildings leased from the PPBA. The City’s Counsel defends the City in any lawsuits that arise from the normal course of operations. At no time during the past three years have insurance settlements exceeded coverage.

The City’s health insurance program provides coverage to the City’s employees and retirees through United Healthcare and Blue Cross - Blue Shield of Rhode Island (BCBS). In 1997, the City first went to a self-insured program with BCBS and United Health Care. BCBS and United Health Care act as third-party agents for the City in the payment of the various claim plans used by the City. Costs incurred for the operation of BCBS and United Health Care plans are accounted for in an internal service fund. Costs to the City are paid by all funds based on “working rates” established by a third party medical consultant.

The City is required to record liabilities for self-insured claims if it is probable that a loss has been incurred and the amount can be reasonably estimated. The City has established a liability based on historical trends of previous years, where available, and attorney’s estimates of pending matters and lawsuits in which the City is involved.

Changes in the risk management liability for the fiscal years ended June 30, 2016 and June 30, 2015 are below. Legal claims and incurred but not reported claims for health benefits are recorded in the City’s internal service fund. Accrued workers’ compensation claims are recorded on the entity-wide statements. This schedule presents the activity for all self-insured risks.

	<u>2016</u>	<u>2015</u>
Beginning of the year	\$ 38,982	\$ 39,639
Incurred claims	105,452	103,264
Less: payment of claims attributable to events of both the current and prior fiscal years:		
Health, legal and workers' compenation	<u>104,018</u>	<u>103,921</u>
Total	<u>\$ 40,416</u>	<u>\$ 38,982</u>
Legal Claims	\$ 29,988	\$ 28,638
Health - IBNR	6,340	6,308
Workers' Compensation	<u>4,088</u>	<u>4,036</u>
Total	<u>\$ 40,416</u>	<u>\$ 38,982</u>

CITY OF PROVIDENCE, RHODE ISLAND

(Amounts expressed in thousands)

16. RESTATEMENT

The City has determined that certain transactions were recorded incorrectly in a prior year.

School Grants Fund

The beginning fund balance of the School Grants Fund has been restated to record a prior period adjustment for revenue that had been earned in prior years but had not been recognized in those periods.

Governmental Activities

The beginning net position in the government-wide financial statements was overstated due to construction in progress (CIP) being overstated in a prior year. The assets originally recorded in the CIP account had been transferred to the appropriate fixed asset categories; however, the CIP was never reduced by those amounts. Additionally, the beginning net position in the government-wide financial statements was understated due to the failure to recognize revenue in the School Grants Fund as mentioned above.

	<u>Governmental Activities</u>	<u>School Grants Fund</u>
Net position as previously reported at June 30, 2015	\$ (1,084,453)	\$ 2,409
Adjustments:		
To remove construction in progress from Governmental Activities capital assets	(22,227)	
To add revenue from prior years that had not been recognized	<u>1,809</u>	<u>1,809</u>
Net Position as Restated as of July 1, 2015	<u>\$ (1,104,871)</u>	<u>\$ 4,218</u>

Contributions as a percentage of covered-employee payroll	48.47%	46.93%	44.42%

Notes to Schedule

Valuation date: July 1, 2015
Measurement date: June 30, 2016
Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level dollar for the 1995 deferral liability and increasing 3.5% per year for the remaining unfunded liability.
Remaining amortization period	Market value of assets as reported by the City less unrecognized returns in each of the last five years plus the discounted contribution paid by the city in the following year. Unrecognized return is equal to the difference between the actual market return and the expected market return and is recognized over a five-year period, further adjusted, if necessary, to be within 20% of the market value.
Inflation	3.5%
Salary increases	3.5% per year before reflecting increases due to longevity
Investment rate of return	8.00%, net of pension plan investment and administrative expenses, including inflation.
Cost of living adjustments:	1 0-year freeze as of January 1, 2013 and 3% thereafter.
Benefit changes:	There have been no changes in benefit provisions since GASB 67/68 implementation
Assumption changes:	The actuarial assumptions used to reflect the assumptions proposed in the Experience Investigation for the Five Year Period Ending June 30, 2011 submitted to the Board on April 2, 2012, with the following exception: The retirement rate for Class B participants is 100% at age 60.

*Note - This schedule is intended to show information for ten years. Additional information will be added as it becomes available.

**CITY OF PROVIDENCE, RHODE ISLAND
SCHEDULE OF INVESTMENT RETURNS
LAST THREE FISCAL YEARS***

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Annual money-weighted rate of return, net of investment expense	2.60%	3.30%	17.50%

CITY OF PROVIDENCE, RHODE ISLAND
SCHEDULE OF THE CITY'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY
LAST TWO FISCAL YEARS
(In Thousands)

	<u>2016</u>	<u>2015</u>
City's proportion of the net pension liability	0.76%	0.76%
City's proportionate share of the net pension liability	\$ 260,697	\$ 231,542
State's proportionate share of the net pension liability associated with the City	<u>178,100</u>	<u>158,779</u>
Total	<u>\$ 438,797</u>	<u>\$ 390,321</u>
City's covered-employee payroll	\$ 148,594	\$ 153,873
City's proportionate share of the net pension liability as a percentage of its covered-employee payroll	57%	66%
Plan fiduciary net position as a percentage of the total pension liability	57.60%	61.40%

Notes:

1.) The amounts presented for each fiscal year were determined as of the 6/30 measurement date prior to the fiscal year-end.

2.) This schedule is intended to show information for ten years. Additional information will be added as it becomes available.

CITY OF PROVIDENCE, RHODE ISLAND
SCHEDULE OF THE CITY'S CONTRIBUTIONS
LAST TWO FISCAL YEARS
(In Thousands)

	<u>2016</u>	<u>2015</u>
Actuarially determined contribution	20,402	20,634
Contributions in relation to the actuarially determined contribution	\$ <u>20,402</u>	\$ <u>20,634</u>
Contribution deficiency (excess)	\$ <u><u>-</u></u>	\$ <u><u>-</u></u>
City's covered-employee payroll	\$ 148,594	\$ 153,873
Contributions as a percentage of its covered-employee payroll	13.7%	13.4%

Notes:

1.) Employers participating in the State Employee's Retirement System are required by RI General Laws, Section 36-10-2, to contribute an actuarially determined contribution rate each year.

2.) This schedule is intended to show information for ten years. Additional information will be added as it becomes available.

**Supplemental, Combining and Individual
Fund Statements and Schedules**

**Nonmajor
Governmental Funds**

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Neighborhood Housing Fund – is used for Administrative and Program Expenses primarily related to Housing Repair Loan Programs and Downpayment/Closing Assistance Programs. Also income related to Tax Stabilization Agreements.

Federal Funds Fund – is used to account for Administrative and Program Expenses and Program Income primarily related to the following federally funded programs: Community Development Block Grant, Emergency Shelter Grant and Housing Opportunities for Persons with Aids.

PEDC Fund - is used to account for Administrative and Program Expenses and Program Income primarily related to loans and grants for business start-ups, expansion, and operating costs (Industrial, Commercial and Operating Accounts).

PRA Fund – Is used to account for Administrative and Program Expenses and Program Income primarily related to the sale, rent and upkeep of Providence Redevelopment Agency controlled land and buildings. Expenses related to implementation of redevelopment projects.

Other P&D – is used to account for Good Faith Deposits – Deposits to secure vacant lots of the PRA until closing. There is also the Lead Fund which is primarily for expenses and income related to federally funded programs that supply loans to homeowners for remediation work, income from federal grants and City Bond dollars.

Other Special Revenue Funds – is used to account for various smaller special revenue funds used by the City.

Skating Rink – is used to account for the operations of the Skating Rink.

WDO – is used to account for proceeds received from the federal government for workforce development services.

Capital Proceeds Fund – is used to account for various smaller operations. It primarily consists of a Trust Fund that has spending stipulations for various City operations, and proceeds received for public safety and seizure.

Permanent Funds

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Other Nonmajor Governmental Funds - Other Nonmajor governmental funds are used to account for permanent trust funds.

City of Providence, Rhode Island
Notes to Supplementary Information – Annual Supplemental Transparency Report (MTP2)

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a new supplemental schedule required by the State of Rhode Island, as a result of newly enacted legislation, Article 8 of the Appropriations Act (2016 House Bill 7454 sub A as amended). This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) on the Division of Municipal Finance website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's (or Town's) budget and accounting system. To report these costs, the City (or Town) made reasonable allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups

Group A - This item includes compensation (salaries, longevity, stipends, clothing, shift differential, out-of-rank, holiday pay, and bonuses) and benefits (medical and dental insurance, pension contributions, OPEB (pay-go and ADC contributions) for the primary work force of the department (Police Department: Police Officers, Fire Department: Fire Fighters, Education Department: Certified Employees, and Other Departments: All Employees).

Group B - This item would only include compensation (salaries, longevity, stipend, clothing, shift differential, out-of-rank, holiday pay, and bonuses) and benefits (medical and dental insurance, pension contributions, OPEB (pay-go and ADC contributions) for administrative and civilian dispatch employees in Police and Fire Departments and Non-Certified employees for Education Department.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>. (Documents pertaining to the Transparency Portal will be posted in January 2017)

Statistical Section

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate *own-source revenues* (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.
