To the Honorable President and Members of the Town Council and Citizens of the Town of Gloucester:

We hereby submit the Comprehensive Annual Financial Report for the Town of Gloucester (Town), for the fiscal year ended June 30, 2017. The report has been prepared in accordance with generally accepted accounting principles (GAAP), adhering to the format promulgated through the Governmental Accounting Board's Statement 34. Responsibility for the accuracy of the data presented, as well the fairness of the representations contained within the report, rests with the Town's management. To provide a reasonable basis for making these representations, the Town has established a comprehensive internal control framework that is designed to protect the Town's assets from theft, loss, or misuse, and to promote the compilation of reliable financial information for reporting and forecasting purposes. Since the cost of the internal control system should not outweigh its benefits, the Town's internal control system has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge, and in all material respects, this report is fair, complete, and summarizes the Town's financial position in a comprehensive manner.

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial, Statistical and Single Audit Section. The Introductory Section contains this letter of transmittal, the Town's Organizational Chart, a listing of Town Officials and the prior year's Certificate of Achievement for Excellence in Financial Reporting. The Financial Section contains the independent auditor's report, the Management Discussion and Analysis (which should be read in conjunction with this transmittal letter to provide the reader with a greater understanding of the Town's net assets and fund activity), the government-wide financial statements, the basic financial statements of major and non-major funds, notes to the financial statements, and other supplementary information. The Statistical Section provides selected financial and demographic information presented on a multi-year basis. A Single Audit section has not been included in this presentation. Due to the new Uniform Guidance standards adopted by the town, Gloucester was not required to have a Single Audit performed. Federal funds are reported within the body of the financial statements. Gloucester was part of a pilot group for the state of Rhode Island. The Annual Supplemental Transparency Report (MTP2) is a new supplemental schedule required by the State of Rhode Island. As a pilot community, Gloucester has provided information consistent with newly enacted legislation to allow for data consistency and comparability among Rhode Island cities and towns.

Government Profile

The Town of Glocester was founded in 1639, incorporated as a Town in 1731, and is a rural community in northwest Rhode Island located approximately 15 miles northwest from Providence. It is connected to the southeast corridor by a network of highways, including Interstate 295 and Interstate 95. The land area of the Town of Glocester is 54.6 square miles, which includes 2.3 square miles of inland water, and is mainly composed of residential, farm, orchard, and woodland areas. The Town attracts many tourists and vacationers to its lake areas and to the Village of Chepachet which is listed as a Historic District on the National Register of Historic Places. The businesses in the Town are primarily service, retail, and construction.

The Town operates under a Home Rule Charter adopted in 1991 providing for a Town Council form of government with a five-member Town Council, elected at-large for terms of two years, and headed by a Council President. All legislative powers of the Town are vested in the Town Council by the Charter including all powers to enact, amend or repeal ordinances relating to the Town's property, affairs and government (which include the power to create offices, departments or agencies of the Town, preserving the public peace, health and safety, and establishing personnel policies) except such powers as are reserved by State Law and to be considered annually at an all-day referendum. The budget board submits a budget, town and school, to the town council. The town council votes to approve the budget questions to be acted on by the voters. The annual budget question is presented to the voters as a result of a charter revision passed in November 4, 2014. The voters approve the ordering of any tax, making appropriations, authorizing the issuance of bonds, providing for an annual audit of the Town's accounts and transacting any other business pertaining to the financial affairs of the Town.

The Town Council is supported and advised by various Boards and Commissions some of which are: Planning Board, Zoning Board, Budget Board, , Board of Contracts & Purchases, Board of Canvassers, Recreation Commission, July 4th Ancients & Horribles Parade Committee, Senior Center Board, and the Juvenile Hearing Board. Board members are volunteers appointed by the Town Council at various intervals for specific terms,

Component Unit

The Glocester Land Trust (Land Trust) has been presented as a component unit of the Town in the accompanying government-wide financial statements. Further information regarding the purpose of the Land Trust and the definition of component unit is provided in Note 1, page 29 of the financial statements.

Public Education

The public school system of the Town consists of two elementary schools, grades kindergarten through 5, and is served by the Glocester School Department. Grades 6 through 12 are served by the Foster-Glocester Regional School District of which the Town of Glocester and the Town of Foster are member communities. The Foster-Glocester Regional School District was incorporated and its fiscal authority established by Acts of the General Assembly in 1958 and 1959. The general administration of the Glocester School Department is directed by a six-member School Committee whose members are elected at-large with three members being elected at each regular biennial election. These six members of the Glocester School Committee along with the three School Committee members from the Town of Foster are ex-officio members of the Foster-Glocester School Committee.

The Gloucester School Committee determines and controls all policies affecting the administration, maintenance, and operation of the public schools in the Town. The School Committee appoints a Superintendent as their chief administrative agent and such other administrative officers as deemed necessary. The school committee submits a budget of expenditures and revenues to the budget board. The Town of Gloucester prepares an annual budget for voter approval at the all-day referendum. The Gloucester elementary school budget is adopted when approved by the voters. Upon approval, the School Committee determines the allocations of the amounts appropriated. The Foster-Glocester Regional School District holds an annual Financial Town Meeting on the third Tuesday in March. The regional budget is adopted at the Financial Town Meeting and the appropriation for Gloucester is included in the Gloucester budget for consideration at the all-day referendum.

The Town Charter provides that, based on budget estimates submitted by the Gloucester School Committee, the Town Council establishes the Gloucester School Department's appropriation in total only. The School Committee determines the allocation of the amount appropriated.

The Town of Gloucester's school system consists of two elementary schools, Fogarty Memorial and West Gloucester Elementary School. The elementary schools provide learning for kindergarten through grade five.

Ponaganset Middle School provides education for students in grades six through grade eight. Students in grades nine through twelve attend Ponaganset High School. Both the middle and high schools are physically located in the Town of Gloucester near the border of Gloucester and the Town of Foster.

The cost of operation of the Town's elementary school system for fiscal year 2017 was \$9,605,204. In fiscal year ending June 30, 2017, the Town paid \$10,371,037 to the Foster-Glocester Regional School District (FGRSD). The Town will pay \$10,263,158 to the FGRSD for fiscal year 2018, a .04% decrease. The FGRSD appropriation for 2018 budget decreased by \$158,097. This included increases for operations \$50,218 and a decrease in debt of (\$158,097). Cost of operations is based on actual enrollment of students attending FGRSD from the Town of Gloucester and the Town of Foster. A change or shift in actual enrollment from the estimate used to prepare the budget causes an increase or decrease in the budget.

The Fogarty Memorial and West Gloucester elementary schools were constructed in 1975 and 1991 respectively. There is presently a staff of 86 full and part time employees. There are 57 of whom are teachers and professional staff, 52 of which are full time. The full time support staff consists of 26 employees and 3 part time workers. The Gloucester average per pupil expenditure for 2014 is \$17,422 as listed by the Rhode Island Department of Education. Transportation costs for K-12 are included in the per pupil cost.

The Ponaganset Middle School building was completed in August 2007. The Ponaganset High School South building was constructed in 1960 and the Ponaganset High School North building was constructed in 1965. Both the North and South buildings were renovated in 2010. There is presently a staff of 175 in both schools based on the latest information provided by RIDE. Per 2014 state statistics, the average per pupil expenditure amounts to approximately \$16,437. In the graduating class of 2015, 64% and 34% of all high school graduates continued their education by attending four- and two-year colleges, respectively. Two percent enlisted in the military.

The following is a summary of the actual school population trends in the Town.

During fiscal year 2017, the Gloucester School Department expended \$9,935,798. This included \$9,605,204 in the General Fund and \$295,113 in several special revenue funds. Their fiscal 2018 expense appropriation for operations is \$9,845,807. The fiscal 2018 State Aid for school operations has been budgeted at \$2,415,228.

Town Services

In addition to its schools, the Town provides major public services, certain of which are described below:

Executive and Administration

The Town Council exercises general oversight of the Town. The Office of the Town Clerk, the Department of Finance which includes Human Resources and the Town Solicitor provide direct assistance to the council with daily operations. The Town Clerk's Office is responsible for all record maintenance and supervision of the probate court. During fiscal 2017, the Central Administration and Financial Administration groups expended \$1,398,762. This amount includes \$801,580 in Central Administration expense (page 127); \$597,182 in Financial Administration expense (page 128). Included in this total are transfers of \$5,000 (page 134) to the pavilion project and \$1,500 for the comprehensive plan from Central Administration. The fiscal 2018 budget has been set at \$1,607,390.

Public Safety

Police: The Town Police Department is responsible for Public Safety and has a force of 15 full-time sworn officers, including the Chief, Captain, Lieutenant, 2 Sergeants and 10 police officers. The department also has 5 full- and 1 part-time Dispatchers. The Chief of Police is the Town's Public Safety Officer. The Dispatchers address police and three independent fire districts. The police station, built in 1990, provides facilities for public safety issues. During fiscal 2017, the Police Department expended \$2,236,251. This includes department expense of \$2,106,930 (page 129), a transfer of \$28,227 for radio and equipment maintenance reserve, and grant related transfer expenses of \$1,237. For fiscal 2018, \$2,199,965 has been designated for police operations. Emergency Management operations fall under the duties of the Chief of Police. There is a part time employee devoted to the coordination of these activities for the town. The financial commitment for fiscal 2017 was \$9,082 less than anticipated due to a vacancy during the year. The fiscal 2018 budget includes \$17,679 for EMA operations, which is now fully staffed training and recruiting a volunteer team for readiness operations if needed.

Office of Animal Control: The Police Department is also responsible for the Office of Animal Control which has 1 full- and 2 part-time Animal Control Officers. They are responsible for the care of animals in their custody, encouraging adoptions, and the general protection of the public against stray and wild animals. During fiscal 2017, the Office of Animal Control expended \$91,951 (page 129). For fiscal 2018, \$97,587 has been allocated for operations.

Fire and Rescue: Fire protection and rescue services in the Town of Gloucester are provided by three separate political entities created by State statute: the Harmony Fire District, the Chepachet Fire District and the West Gloucester Fire District. Each district is responsible for the acquisition and maintenance of fire equipment, facilities and stations in the respective areas served by the districts. There is one station in each of the Harmony and Chepachet districts. There are two stations in the West Gloucester district. The districts are independent of the Town of Gloucester and the Town is not directly responsible for their expenditures nor does the Town derive any income from their operations. By statute, the fire districts have separate ad valorem taxing powers on the real property situated in the area served by each district. Staff includes approximately 85 volunteers, 23 per diem EMT's, and 2 full-time employees.

Building/Zoning Office: The Building/Zoning Officer and 4 part-time inspectors are responsible for insuring compliance with state and local building code ordinances and laws. The budget for the Building/Zoning Office is included with the Central Administration total. In Fiscal 2017, the building and zoning department expenditures were \$168,877 (page 126). For Fiscal 2018, the budget allocation for this department is \$182,165.

Social Services

Parks and Recreation: The Town employs a part-time Recreation Director who oversees activities at 2 Town beaches, 3 parks and various other recreational locations. Housed within the parks are 2 little league fields, 2 softball fields, 4 tennis courts, 4 basketball courts, 3 playgrounds, and walking trails. The Town also uses the facilities at the schools for basketball, tennis, and baseball programs. The 4th of July Ancients & Horribles parade, held in the Village of Chepachet, is a major event for the Town. This Parade is the second longest running Independence Day parade in Rhode Island celebrated for 90 consecutive years. Attendance has been upwards of 10,000 spectators annually. During fiscal 2017, the Recreation Department expended \$106,561. The Town made a contribution for the Independence Day parade of \$14,000 in Fiscal 2017 (page 134). For fiscal 2018, \$131,191 has been allocated for recreational activities and \$14,000 has been budgeted for the parade.

Libraries: There are two libraries (Glocester Manton Free Public Library and Harmony Library in the villages of Chepachet and Harmony, respectively) which operate independently from Town government. Each library is governed by a Board of Trustees. The Glocester Manton Free Public Library offers a collection of over 25,316 items and the Harmony Library offers 43,014 items. As members of Ocean State Libraries, they both provide and promote open access to a broad range of informational, educational, cultural, and recreational materials and services including access to the collections of all Rhode Island Public Libraries and 72,856 electronic materials (E-books, audio-downloadable, and video-downloadable). To further their mission, the libraries maintain membership in the Ponaganset Regional Libraries Network which was established to promote an awareness of library resources and services available to the residents of the Towns of Foster and Glocester through resource sharing and inter-library cooperation among the school and public libraries. Total library related expenditures for fiscal 2017 were \$201,819 for Manton Free Public Library and \$209,776 for Harmony Library.

The Town contributed \$153,631 to the Manton Free Public Library and \$193,282 to the Harmony Library in 2017. These funds supported the acquisition of books and materials as well as an authorized staff of 4 librarians (2 full- and 2 part-time) holding master's degrees in Library and Information Services and support staffs of 10 part-time employees. Both libraries serve approximately 40,000 visitors per year. Budgeted Town aid for fiscal 2018 is \$157,426 for the Manton Free Public Library and \$197,002 for the Harmony Library. Together, both libraries circulate 68,000 items per year, a per capita circulation of 6.8. Nearly half of Glocester's residents are registered borrowers of its libraries. In addition, Glocester Manton Free Library offered 231 programs that were attended by 2,379 people. Harmony Library offered 260 programs that were attended by 3,158 people. Both libraries offer public use computers, hand held devices, wireless printing, and wi-fi access. The Glocester Manton Free Public Library has 14 public-use computers, three hand held devices, wireless printing, and Wi-Fi access. During the 2017 fiscal year, Harmony Library had 1,743 users of public computers and 3,728 wireless sessions. Glocester Manton had 2,801 users of public computers and 3,224 wireless sessions

Human Services: The Human Services department provides transportation for Town residents to doctor offices, medical facilities, and for shopping trips for senior citizens and citizens with disabilities. It also operates a food bank and provides information assistance and emergency energy funds for residents in need. Fiscal 2017 expenditures totaled \$33,385. This includes department expense of \$31,885 (page 132) and transfers \$1,500 (page 134) to Emergency Energy Fund. The Human Services department has \$37,684 budgeted for fiscal 2018.

Senior Center: Social services including a lunch-time meal-site and various daily activities and programs are provided to the Town’s seniors at our senior center building completed in 2007. Fiscal 2017 expenditures totaled \$142,334 (page 132). \$172,031 is budgeted for fiscal 2018. The senior center membership consists of Gloucester residents as well seniors from nearby towns. Neighboring Burrillville residents make up a significant number of members at the Gloucester senior center. Acknowledging the service provided to their residents, Burrillville has made a contribution towards operations since 2016. They have pledged to continue to do so in the Fiscal 2018 budget.

Physical Resources

Planning and Community Development: The Town Planner provides guidance on the physical development of the Town. The budget for the Town Planner is included in the Central Administration total budget. Fiscal 2017 expenditures for the Town Planner’s Office totaled \$113,483 (page 126). This includes a transfer of \$1,500 (page 134) for the comprehensive plan. For fiscal 2018, \$120,621 is budgeted for the planning department.

Public Works: An authorized staff of 15 full-time and 2 part-time employee maintains 97.6 the Town’s 148.8 miles of roads [38.3 miles of the 148.8 miles are state roads] and 3 bridges, monitors the disposal operations of 2,568 tons of trash and 1,380 tons of recyclables per year, maintains the Town’s vehicles and equipment, and maintains 10 buildings. During fiscal 2017, the Department expended \$1,654,472. This amount includes \$1,544,472 (page 131) in department expense and budgeted transfers (page 134) of \$110,000 to the Storm/snow related reserve account. For fiscal 2018, \$1,938,519 has been allocated for public works.

Water and Sewer: There are no Town water or sewer systems. Homes and businesses are served by, and the Town intends to continue to rely on, private wells and septic systems.

Employment

The census bureau provides information based on (NAICS) industry code for the Town. Based on reported information for 2013, Gloucester had 137 private business and industrial firms subject to the payment of employment security taxes. During that period, the annualized payrolls for those entities totaled \$26,213,000 and the average number of persons employed was 824. The governmental census data is no longer provided in the same format for comparison. Reviewing the commercial tax entities from assessor's data, it appears there are new businesses during 2017. In the future, a comparison of data from the assessor will serve as an indicator of employment opportunities within the Town of Gloucester.

Economic Development

General: Assessed values as of December 2016 for the town are \$1,034,547,472. The net assessed value has increased from the prior year with a 10% value increase. The town completed a statistical revaluation which reflects the increased values. The Gloucester Business Association (GBA) meets monthly and is engaged in an on-going effort to promote and assist new, existing and expanding businesses. This organizational presence provides an environment conducive to attracting and maintaining business type activity in the town.

Navigant Credit Union: The Town has been successful in attracting Navigant Credit Union of Smithfield to develop a new branch in Chepachet. This new branch opened in August 2012 and employs approximately 8 people. Navigant Credit Union helps provide residents with additional opportunities for personal and business financing. The Credit Union spent an estimated \$1,000,000 to construct this new branch. They reused an existing site so that no greenspace was disturbed in order to create the facility. Navigant continues to be a good neighbor in Gloucester partnering with community organizations in town.

Factory Mutual Insurance Company: The Town's largest taxpayer, Factory Mutual Insurance Company (FMIC), headquartered in Norwood, Massachusetts, is an engineering and research (testing facility) company for insurance providers and general businesses. FMIC occupies a 2,500 acre site in West Gloucester.

In 2003, the company spent approximately \$89 million in refurbishing and replacement of their facilities and expanded their operations. The number of employees at the site increased from 40 to 88 with that expansion. At that time, they entered into a 20 year payment-in-lieu-of-taxes (PILOT) agreement with the Town. Total payments from that original agreement will amount to \$27,937,500. As part of the original agreement, FMIC paid \$1,630,500 in fiscal 2014, and will pay \$1,671,000 in fiscal 2015. Included in the agreement was the transfer to the Town of 98 acres of land valued (at that time) at \$466,884 to be used for public purposes.

The company expanded their facilities again in the summer of 2009, spending another \$45 million. The project included a new "natural hazard" testing facility (75,000 sq. ft.) which included a 10' by 10' earthquake simulation table and other natural disaster testing equipment. A new water treatment plant was constructed which allows reuse of the water used during the testing procedures. A 17,000 sq. ft. warehouse was also constructed. The number of employees increased to 96. The town has received \$2,363,899 in fiscal 2017 and is to receive \$2,419,801 in fiscal 2018.

The company spent another \$2 million to build an addition to the hydraulics laboratory and office space. The work was completed as of April 2013. The PILOT agreement was amended to include this addition on June 20, 2013 and will provide an additional \$781,884 in tax revenue from Phase 3 from 2013 through 2021. The additional taxes received due to Phase 3 for fiscal 2017 was \$55,902. This will increase by \$55,902 for fiscal 2018 and thereafter. Recently FMIC has received approval for a multi-million dollar expansion. Groundbreaking is expected during fiscal 2018. Additional revenue for the expansion will favorably impact tax revenue in the years.

CVS Corporation: The CVS Corporation estimates that \$4,500,000 has been spent to construct a state-of-the-art retail store at the intersection of Routes 102 and 44. This store has been designed to mimic the architectural features of the historic structures in Glocester. 26 people were employed at the store when it opened in July 2007. CVS continues to service Glocester residents with prescription and retail activities.

There are several projects at various stages of approval underway in Glocester. The Bella Vista project is currently underway with approval for 35 residential duplexes on 36.15 acres. Spring Grove is a 36.89 acre project with plan approval for six lots. Glacier Ridge has a proposed plan to create a twenty lot business park. First estimates are to be completed in four phases.

Chepachet village often referred to as the center of town is undergoing several changes. The former state police building has been purchased by a private developer. A retail store has been completed in the village. The Town of Glocester constructed a new pavilion in the Chepachet Village. The property was donated to the town by the Kent family with the understanding a town structure would be built there. Partnering with the State of RI DEM providing a \$100,000 grant combined with \$50,000 of town funds set aside to match the grant, the pavilion was completed. What once had been a vision by some came to fruition during fiscal 2017. Additional funding in the 2018 budget has been provided to enhance the structure with landscape improvements to be completed next year. The GBA promoted the use of the pavilion with the first of what may be an annual scarecrow decorating event. Judging took place at the pavilion. Scarecrows were seen along route 44 in the village with one even landing on the lawn of Glocester Town Hall. The cover photo taken by Susan Harris, deputy town clerk, provides the reader with a seasonal picture of town hall. The scarecrow event attracted many visitors and residents enjoying the village during the fall foliage season. A tree lightning event coupled with Thursday Holiday shopping took place during December. Seasonal farmer's markets may be found at the pavilion in the future. This Chepachet village is blossoming as traditions begin and take on a new look from the showcase pavilion in the center of town. Additional events are planned during the year utilizing the pavilion as a gathering place.

Major Initiatives

Standard and Poor's rating service provided an upgrade to the Town of Glocester in August 2014. The rating on the Town's general obligation debt improved from 'AA' to 'AA+' with a stable outlook. The report stated that the upgrade reflected the Town's continued strong budgetary performance and flexibility as well as a strong liquidity position. Reserves have been maintained over the last three years. The administration continues to be committed to preserving the Town's unrestricted fund balance.

At the November 2, 2004 general election, the taxpayers approved a change to the Town Charter to include a policy of maintaining an unassigned general fund balance at 12% (minimum) of proposed operating expenditure. Fiscal 2017 provided favorable results increasing the total governmental fund balance by \$567,534 or 6.95% over last year. The unassigned fund balance at June 30, 2017 is \$4,899,808 an increase of \$456,336 from the prior year. The unassigned fund balance is 16.89% of general fund expenses budgeted for fiscal year 2018. This exceeds statutory requirements.

The town completed the second year of a five-year commitment to school renovation projects. The town is eligible to receive state reimbursement of 35% for approved school improvement projects due to the lifting of a state moratorium for school housing aid. In 2015, both the town and the school department committed \$1,500,000 towards school renovations. The remaining fund balance assignment of \$900,000 towards the estimated \$4,000,000 capital school building improvements is included in the 2017 comprehensive financial report. The town and school have each provided an appropriation of \$300,000 for the projects during 2017. The town remains steadfast to finance the projects from existing funds rather than to incur additional debt. The most recent example of planning for improvements through operations is the transfer station project completed in 2015. The project was completed on time and within budget by setting aside funds over a two-year period.

Annually, the Town develops a six year Capital Improvement Plan. This plan helps identify and serves as a blueprint for major capital projects expected to be undertaken in the next six years. This long-range planning is essential in addressing the future development and growth of the Town. The Town has continually funded its capital requirements aggressively and maintains a pay-as-you-go funding for most of its capital needs, limiting additional borrowing requests.

The Town remains committed to preserving recreational and open space areas. The Gloucester Land Trust (presented in the government-wide financial statements as a component unit) owns a total of 2,242 acres with an estimated value of \$8,001,800 as of June 20, 2017. This reflects values recorded by the tax assessor.

The Town received a \$671,000 grant from the United States Environmental Protection Agency (USEPA) in January 2007. This funding has been used to demonstrate the application of innovative storm water management techniques. This project began in 2007 and focuses on issues to improve water quality and encourage sustainable redevelopment in the Village of Chepachet. This project will result in the installation of a wet vegetated treatment system to be located adjacent to a portion of Chepachet River Park near Oil Mill Lane which will improve drainage and encourage in-fill development and business expansion. It was completed by May, 2013. The storm water project is being coordinated with the Rhode Island Department of Transportation (RIDOT) to collect and treat runoff water from state owned roads in the village. It will help alleviate storm water flooding problems as well as better treat runoff water to improve water quality.

The Town remains committed to maintaining the high quality of public education, allocating approximately 75% of tax revenue to education. At the November 2, 2004 general election, the voters of the Towns of Foster and Glocester approved a \$45,720,000 bond to finance the acquisition of land for and the construction of a new middle school and for the renovation of the Ponaganset High School and Ponaganset Middle School. The work was completed in September 2010.

At the November 2, 2004 general election the voters approved a \$2,215,000 bond to finance the acquisition of land for and the design, construction, furnishing and equipping of a Senior Center. In addition, the Town budgeted \$270,000 for the project and also received over \$275,000 in grants and donations to help cover the cost. The 8,000 square foot Senior Center opened in January 2007 and serves as an activity center for the Town's 1,865 senior citizens. Final cost on the project was \$2,711,710.

In a collaborative effort with the Town, the Rhode Island Department of Transportation began construction in 2008 of over \$3,000,000 in infrastructure improvement to Chepachet Village. These improvements include drainage reconstruction, new brick treatment sidewalks, benches, period lighting, street trees, and road reconstruction and intersection reconfiguration. These improvements will make the village safer, more pedestrian friendly and move traffic safely through the village. These improvements have helped spur further investment into the businesses and residences in Chepachet by improving the business climate of the village. The round-about intersection is close to completion at the stop light at routes 44 and 102. Plans continue to be worked on in conjunction with the Town and the State of Rhode Island.

The Glocester Town Hall, built in 1935, has, since 2008, undergone numerous renovations in order to benefit from energy efficiency, improve the comfort for occupants, and to remedy years of deferred maintenance. Annual improvements have been completed since 2008. Generators, exterior doors, attic insulation, and new floors are some of what has been completed to maintain the building. Started in 2012, with a \$300,000 grant from the US Department of Energy, the town installed geothermal heating to replace a steam boiler. The geothermal system has been fully completed during 2017 installing additional wells to provide heat and cooling throughout town hall. During 2017, the exterior window trim and cupola were painted. Funds for continued improvements to the building have been set aside in capital during 2018.

The Town commissioned an actuarial study as required by the Governmental Accounting Standards Board Statement # 45 [Other Post-Employment Benefits (GASB 45)]. The study was completed by USI Consulting Group and a report was issued on July 1, 2012. An update was prepared July 2017. Further information regarding Other Post-Employment Benefits is provided in Note 14 on pages 66 and 67 of the financial statements. The town will be ready to implement the new GASB statement during 2018. The notes have been included for 2017.

Financial Information

The Town's Comprehensive Annual Financial Report provides detailed information on the Town's current financial position. Our Management Discussion and Analysis will provide additional analysis.

Budgetary Control

The legal level of budgetary control is at the fund level. The Town observes the following charter procedures in establishing the General Fund budgeting data reflected in the required supplementary information:

- The Town Council appoints a Budget Board of seven members from the qualified electors of the Town.
- Each Department, Commission, Office and Agency submits a written detailed budget to the Budget Board no later than January 2nd in each year.
- The Budget Board holds budget hearings at which the various Departments, Commissions, Offices and Agencies justify their requests.
- The Budget Board submits to the Town Council, no later than the third Thursday in March, its recommendations regarding all requests for appropriations together with revenue estimates and the projected tax levy required to support the budget recommendation.
- The Town Council reviews recommendations of Budget Board and makes such changes as it deems appropriate.
- The Town Council holds a Public Hearing (at which taxpayers are given an opportunity to comment on the budget) on its preliminary recommended budget at least 21 days prior to the All-day referendum. The voters have the authority to approve or reject the budget questions.
- The Town Council, by affirmative vote of the majority, adopts the recommended budget for the ballot for the all-day referendum.
- The final Budget is approved or rejected by the voters and a Tax Levy is set by resolution by the Town Council based on the vote of the people.

Progress against both the expense and revenue operating budgets is tracked using budget-vs.-actual comparison reports. The general ledger tracks expenditures and encumbrances, and revenues, and compares them to budgeted amounts. The comparison report calculates the amount of appropriation and revenues remaining. The Treasurer's Office monitors both spending and revenues and issues monthly reports to departments to assist them in budget management. The Town's Budget Board reviews the progress against the budget quarterly and sends a report regarding its findings to the Town Council.

Reserves and Fund Balance

The Town adopted a Fund Balance Policy on June 16, 2011 to comply with GASB Statement No. 54 which required new categories for fund balance. The categories are non-spendable, restricted, assigned and unassigned which are more fully described in Note 1 of the financial statements. The policy authorizes and directs the Department of Finance to prepare financial reports which accurately categorize the assigned fund balance.

Cash Management

Cash requirements are strictly monitored, and excess cash is invested in appropriate short term instruments. These investments are intended to maximize investment earnings, while maintaining an appropriate level of security and liquidity.

Risk Management

The Town is a member of the Rhode Island Interlocal Risk Management Trust. This organization was established as a public entity risk pool to provide insurance coverage to local municipalities. The Town of Glocester maintains insurance coverage for property, general liability, public officials' liability, auto liability, workers compensation, and medical and dental coverage. General liability and public officials' liability coverage is \$5,000,000. Further information is provided in Note 17 on page 68 and Note 20 on page 70 of the financial statements.

Debt Administration

The ratios of net debt service to budget, net bonded debt to total assessed (property) valuation and net bonded debt per capita provide useful information when evaluating the Town's financial position. These indicators were as follows on June 30, 2015, June 30, 2016, and June 30, 2017:

	Net Direct <u>Bonded Debt</u>	Ratio of Bonded Debt <u>to Assessed Value</u>	Debt per <u>Capita</u>
June 30, 2015	\$2,445,000	0.27%	\$251.23
June 30, 2016	\$2,030,000	0.22%	\$206.22
June 30, 2017	\$1,825,000	0.17%	\$185.39

(Please see statistical schedules 5, 9, 12 and 14 for additional information)

Independent Audit

Per the Town of Glocester Charter, and the General Laws of the State of Rhode Island, an independent audit of the Town's financial statements and operations has been completed by the firm of Baxter Dansereau & Associates, LLP. Their opinion is included within this document.

Reporting Achievement

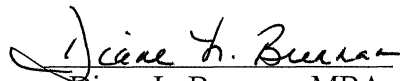

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Glocester for its comprehensive annual financial reports for the fiscal year ended June 30, 2016. This was the eleventh consecutive year that the Town has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

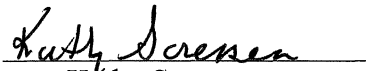

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

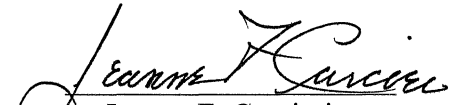

Acknowledgment

The preparation of this Comprehensive Annual Financial Report would not have been possible without the efficient and dedicated efforts of the staff of the Department of Finance and all of the employees of the Town of Gloucester. Their initiative, enthusiasm and proficiency are greatly appreciated. Special thanks to Council President George O. Steere, Jr. and the members of the Town Council for their support in maintaining the highest standards of professionalism in the management of the finances of the Town of Gloucester.

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of Glocester
Glocester, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Glocester, Rhode Island (Town) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Town of Glocester, Rhode Island as of June 30, 2017, and the respective changes in financial position thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-19 and 91-94 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Glocester, Rhode Island's basic financial statements. The introductory section, combining nonmajor fund financial statements, other supplementary information, the Annual Supplemental Transparency Report, MTP2 and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements, other supplementary information and the Annual Supplemental Transparency Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the other supplementary information and the Annual Supplemental Transparency Report, MTP2 are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 26, 2017, on our consideration of the Town of Glocester, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Glocester, Rhode Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

TOWN OF GLOCESTER, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

Management of the Town of Gloucester provides this Management's Discussion and Analysis of the Town of Gloucester's Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of Gloucester is for the fiscal year ended June 30, 2017. We encourage readers to consider this information in conjunction with the Town's financial statements that follow.

Financial Highlights

- In fiscal year 2017, the Town's General Fund's revenues and other financing sources of funds exceeded expenditures and other uses of funds by \$567,534. The School Unrestricted expenditures and other financing uses exceeded revenues and other financing sources by \$473,314 during fiscal 2017.
- As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$15,035,880. The general fund unassigned fund balance of \$4,899,808 represents 33% of this total.
- On a government-wide basis, the assets and deferred outflows of the governmental activities exceeded its liabilities and deferred inflows at June 30, 2017 by \$22,639,509.
- There was increase in net position of \$165,422 in the governmental activities. Favorable budget to actual activity as seen later in this report were the most significant changes. The net position of the Town's component unit increased by \$26,507, or .3%, to \$7,583,677. The net position of business type activities, decreased by \$7,727, or 12.1% to \$55,931.
- The Town's Government-wide operating expenses were \$28,836,727. This is a \$251,205 increase from the prior year. The changes are due to the focus of long-term economic conditions that are included in the statement. These changes are illustrated in note 10 of the notes to financial statements found on page 53.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information and a statistical section. The statistical provides comparisons of selected information for the last 10 fiscal years. The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

TOWN OF GLOCESTER, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner similar to that of private-sector businesses. All of the resources the Town has at its disposal are shown, including major assets such as buildings and infrastructure. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflow of resources. A thorough accounting of the cost of government is rendered because the statements present all costs, regardless of when cash is received or paid. They provide both long-term and short-term information about the Town's overall financial status. They are presented on the accrual basis of accounting where revenues and expenditures are recognized in the period they occur as opposed to the period in which they are collected or paid.

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information, which shows how the Town's net position changed during the fiscal year. All changes in the net position of the Town are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

The *Statement of Activities* distinguishes functions of the Town which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all, or a significant portion, of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, public works, education, social services and recreational services. The Town's one component unit is the Gloucester Land Trust. The Gloucester Schools lunch program is the Town's only business type activity.

The government-wide financial statements are reported on pages 20 through 21.

Fund financial statements – A *fund* is a grouping and self-balancing set of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. With the exception of the School Lunch Fund, which is a proprietary fund, all of the funds of the Town are governmental funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the government-wide financial statements and the fund financial statements (governmental funds).

Information is presented separately in the *Governmental Fund Balance Sheet* and in the *Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances* for the General Fund, the School Unrestricted Special Revenue Fund, and the Capital Reserve Fund, which are considered major funds. Data from all other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements on pages 99 through 118 in this report. The individual funds within the component unit have been summarized into the data presented.

Proprietary Funds – The Town charges customers for services it provides, whether to outside customers or to other units within the Town. These services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The School Lunch Fund is the Town's sole proprietary fund.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 28 and 29.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are found on pages 30 through 90.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary information is presented on pages 91 through 100.

Government-wide Financial Analysis

The Town adopted the provisions of Governmental Accounting Standards Board Statement No. 34 – *Basic financial statements and management's discussion and analysis for State and Local Governments* as of July 1, 2001, one year ahead of the required deadline and four years ahead of the deadline for reporting major general infrastructure assets. The decision to choose early implementation also included financial information regarding our component unit the Gloucester Land Trust. Comparative data for the current and prior years is presented on the following pages in this report.

Analysis of the Town of Gloucester's Net Position

The Town's net position may be a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. On a government-wide basis, the assets and deferred outflows of the Town exceeded its liabilities and deferred inflows at June 30, 2017 by \$22,639,509 a decrease of \$165,422 or .74% from the prior year. The most significant change is due to the recognition of deferred outflows and inflows when compared to the prior year.

Current assets increased by \$783,154 or .47%, from 2016.

Net Capital assets decreased by \$125,130 due to annual depreciation costs that was more than additions.

Other liabilities increased by \$185,029 due to increases in accrued liabilities and the current portion on long-term debt.

Long-term liabilities in the current year increased by \$1,601,105 from 2016. This was due mostly to the Town's net pension liability increase offset by decreases in bonds payable. See note 9 to the financial statements for additional detail.

Net investment in capital assets increased from the prior year by \$86,184.

The largest portion, \$16,257,611 or 72%, of the Town's net position consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any outstanding debt used to acquire these assets. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

An additional portion \$2,643,015 of the Town's net position represents resources that are subject to external restriction on how they may be used. The remaining balance of the Town's unrestricted net position may be used to meet the government's ongoing obligations to its citizens and creditors.

As of June 30, 2017, the Town of Glocester reports positive balances in all three categories of Net Position for the government as a whole.

Financial Analysis of the Town of Gloucester's Funds

Governmental Funds

The Town implemented the provisions of Governmental Accounting Standards Board Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54) in fiscal year 2012. GASB 54 establishes criteria for classifying fund balances into specifically defined classifications and clarifies the definitions for governmental funds. GASB 54 defines the following five categories of fund balance:

Nonspendable – items that cannot be spent because they are not in a spendable form or legally or contractually required to be maintained intact..

Restricted – items that are restricted by external parties or imposed by grants, laws or legislation.

Committed – items that have been committed by formal action by the entity's highest level of decision-making authority.

Assigned – items that have been allocated by committee action where the government's intent is to use the funds for a specific purpose.

Unassigned – items that have no restrictions placed on them.

The focus of the Town of Gloucester's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year. The Fund Balance section of the Balance Sheet for Governmental Funds is presented in the format required by GASB Statement 54.

General Fund

The total fund balance has increased by \$567,534. The category breakdown of the fund balance is listed below.

Committed

- *Education:* The town has committed \$180,000 for an anticipated loss in local state education aid. This is to plan for a future reduction. The town has committed an \$115,000 towards future proration cost increases due to population shifts from one district to another at the regional schools.
- *Capital Projects:* The Town has committed \$300,000 towards school building renovations and improvements. A commitment of \$340,315 for capital items has been included in the fiscal 2018 budget. Both have been approved by the voters.

Assigned

- *Administration:* The assignment for Revaluation Reserve decreased by \$25,164 from \$316,050 in 2016 to \$290,886 in 2017 and the Comprehensive Plan increased by \$1,500 from \$33,695 in 2016 to \$35,195 in 2017. Future technology increased by \$33,591 to \$125,050 from \$91,459 in 2016. The assignment of \$1,508 for Tree Planting remains unchanged from 2016.
- *Public safety:* The assignment for Radio Equipment increased by \$6,816 from \$64,741 to \$71,557. The assignment for Police Equipment Maintenance increased by \$7,511 from \$39,851 in 2016 to \$47,362 in 2017. An assignment of \$43,000 for mobile radios and \$36,800 for portable radios was done to plan for future technology upgrades for public safety. This is an increase of \$13,800 in 2016. The Town self-insures for damage to police equipment and maintenance on radio towers.
- *Public Works:* The assignment for Storm Related Services decreased by \$59,097 from \$341,152 in 2016 to \$282,055 for the fiscal year ended June 30, 2017.
- *Recreation:* The assignment for Senior Center Dues increased by \$1,323 from \$6,584 in 2016 to \$7,907 in 2017. Amounts are to supplement activities and events at the Senior Center
- *Matching state grant funds:* The \$50,000 reserve for grant matches remains unchanged.
- *Contractual obligations:* The assignment for Accrued Compensated Absences decreased by \$43,058 from \$499,185 in 2016 to \$456,127 in 2017. The \$168,260 assigned for OPEB obligations increased by \$46,005 from \$122,255 in 2017. These funds are outside the OPEB Trust.
- *Employee benefits:* The amount assigned for Health Insurance increased by \$4,558 from \$382,920 in 2016 to \$387,478 in 2017. This amount is to smooth fluctuations of health insurance costs. Working rates are derived through the RI Interlocal Risk Management Trust operating a self-insurance health program for the Town of Glocester.
- *Education:* The Town assigned \$900,000 for school building renovations and improvements. This is for the remaining three years of a five-year project funded by the school and the town with funds set aside. These projects have preliminary approval from the Rhode Island Department of Education for reimbursement from school housing aid funds for at least 35% of the costs. Total cost estimates are \$4,200,000. The school has assigned the remaining balance from their cumulative fund balance towards the plan as well. The voters passed the fiscal 2018 budget committing an \$300,000 on the town side and the school side towards year two of the plan.

Unassigned

The General Fund Unassigned fund balance in 2017 is \$4,899,808. This is a increase of \$567,534 from the unassigned fund balance of \$4,443,472 in 2016. The unassigned fund balance is 16.89% of the fiscal 20178 budget.

School Unrestricted

Restricted

- *Education:* This amount decreased by \$249,627 from \$1,190,772 in 2016 to \$941,148 in 2017. Restricted funds are for educational use only and the reduction is due to use of the restricted for operations in 2017.

Assigned

- *Contractual obligations:* The assigned amount of \$180,274 for OPEB did not change from 2016 to 2017. This amount exceeds the amount needed to cover the School's cumulative Net OPEB Obligation.
- *Employee benefits:* The assigned amount for Sick Day Buy-Out for certified employees remained the same \$375,250 in 2017. This amount is for payments to certified staff when they retire.
- *Medicaid expenditures:* This amount increased by \$12,336 from \$362,264 in 2016 to \$374,600 in 2017.
- *Education:* The \$1,819,044 amount is for operational expenses of \$919,044 which includes \$300,000 for capital improvements for fiscal 2017. The balance \$900,000 is for the capital costs of school building improvements and renovations for years three to five. This commitment was made by the town and the school over a five-year period.

Capital Reserve Fund

Committed

Capital projects: This restricted fund balance decreased by \$167,184 from \$1,072,475 in 2016 to \$905,291 in 2017. The most significant project completed during 2017 was the pavilion. The town committed \$1,182,308 for capital projects in 2018.

Other Governmental Funds

Non-Spendable

Perpetual care: The amount of non-spendable reserves remained the same at \$3,100 for the fiscal year ended 2017.

Restricted

- *Administration:* The total administration has decreased to \$26,654 in 2017. This is a decrease of \$6,823 from the amount of \$33,477 in 2016. The recycling grant decrease and the historic records increase make up the majority of the decrease.
- *Public safety:* The amount restricted in *Public safety* is \$12,414 for 2017. This is a decrease of \$32,970 from 2016. The Bramley grant decrease of \$26,615 for drug and alcohol prevention is the largest change in this category. The animal shelter had a decrease of \$4,604 and the MEDS program with a decrease of \$914 make up the balance.
- *Recreation:* The restricted amount decreased by \$9,748 from the amount in 2016. The total restricted portion of the recreation category is \$68,077 for 2017. The parade account decreased by \$9,975 and a slight increase of senior center donations of \$227 increase make up the changes.
- *Social Services:* The social service restricted amount for 2017 is \$347,287. This is an increase of \$45,036 from 2015. The change is due to a \$87,127 increase in the CDBG program due to early loan repayments and a decrease in the septic loan program of \$41,705 are the changes.
- *Education:* This restricted fund balance for 2017 is \$34,016. This represents a decrease of \$2,356 from \$34,016 in 2016. The change is largely due to a decrease of \$3,068 in professional development category for 2017. There is a modest increase in library donations of \$1,000.
- *Capital Projects:* This restricted fund balance increased by \$797,215 from 2016 to \$1,206,230 in 2017. Capital improvements are reported in this category. The change is due to roads projects, school projects, the pavilion, and the purchase of recreational land,
- *Perpetual Care:* This restricted amount remained the same at \$9,087 in 2017. This is to maintain cemetery property.

General Fund Budgetary Highlights

Revenues

Total revenues reported in 2017 were more than budgeted amounts by \$320,874 or 1.3%.

General Property Taxes collected exceeded budget by \$143,489 or 0.6%. Included in taxes collected was \$2,363,899 from Factory Mutual Insurance Company from a payment-in-lieu-of-taxes (PILOT) agreement, which commenced in 2003.

Revenues from *licenses, fees and fines* were \$372,429 or \$86,429 over the budget amount. This is primarily due to favorable revenue from building permits and realty tax collections

Interest and investment income was greater than budget by \$6,399 or 7% due to additional revenue from interest on taxes.

Expenses

Total expenditures and other financing uses in the Town's General Fund were less than the amount budgeted by \$687,462. Salary and benefits made up the most significant savings in each area. These include savings in *central administration* of \$60,000; *financial administration* savings of \$72,000; *public safety* net savings of \$107,000 with 85% for personnel and training; *public works* net savings of \$334,000 with 50% for salary and benefits with the balance for fuel savings, purchased services, and disposal fees; *recreation* \$38,500; *human services* of \$21,000; *other operational expenses* savings of \$55,000 for insurance and negotiations. The treasurer, tax assessor, planning, public works and public safety offices had personnel changes due to retirements or resignations during 2017. Favorable fuel costs, lower costs for tipping fees and purchased services were additional factors creating budgetary savings.

The increase in *Land* was for a purchase of recreational property during 2017.

The increase of \$64,739 in *Construction in Progress* was due to the outdoor pavilion in Chepachet Village.

The \$65,653 decrease in *Land Improvements* was due to annual depreciation costs.

The \$275,435 decrease in *Buildings & Improvements* was due increased depreciation.

The \$4,899 decrease in *Motor Vehicles* was due to the purchase and disposal of vehicles

The \$26,641 decrease in *Office Furniture/Equipment* was due to annual depreciation costs.

Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

The \$54,848 decrease in *Machinery & Equipment* was the net effect of purchases and disposal of equipment and an increase in depreciation expense.

The \$87,393 decrease in *Infrastructure* was due to the road paving costs as compared to depreciation.

The Town of Gloucester's Debt Administration

The Town did not issue any new debt in 2017. The Town made payments on debt principal of \$257,747. The outstanding General Obligation debt decreased to a total of \$1,825,000 at June 30, 2017. All outstanding debt is backed by the full faith and credit of the government, including the Town's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt was approved by a vote of the citizens.

The following is a summary of the Town's long-term General Obligation Bond debt.

Town of Gloucester
Outstanding Debt
General Obligation Debt

	<i>June 30, 2016</i>	<i>June 30, 2017</i>
	Govern- mental Activities	Govern- mental Activities
Open Space (Land Trust)	185,000	125,000
Senior Center	1,455,000	1,350,000
Fogarty Elementary School Roof	390,000	350,000
Totals	\$ 2,030,000	\$ 1,825,000

In August 2014, Standard & Poor's Ratings Services raised its rating on the Town's general obligation debt from 'AA' to 'AA+' with a stable outlook. Standard & Poor noted strong budgetary performance and flexibility, a strong liquidity position, low overall debt, and strong management practices of maintaining a minimum 12% fund balance reserve as factors contributing to the upgrade.

Except as provided below, under Section 45-12-2 of the General Laws of Rhode Island, the Town may not, without special statutory authorization, incur any debt, which would increase its aggregate indebtedness not otherwise excepted by law to an amount greater than 3% of the taxable property of the Town. Deducted from the computation of aggregated indebtedness is the amount of any borrowing in anticipation of taxes authorized by law and the amount of any sinking funds maintained by the Town. The 3% debt limit of the Town for 2017 was \$28,060,361 [based on the net assessed valuation at December 31, 2015 of \$935,345,367]. As of June 30, 2017, the Town had \$1,825,000 in outstanding bonds and notes issued within the 3% debt limit leaving a borrowing capacity of \$26,235,361.

The State legislature may, by special act, permit the Town to incur indebtedness outside the limitations imposed by the 3% debt limit. Special legislation adopted by the Legislature authorizing the Town to incur debt is subject to referendum by the electors of the Town. As of June 30, 2017, the town has no outstanding debt outside the 3% debt limit.

In addition to debt authorized within the 3% debt limit and debt authorized by special act of the Legislature, Rhode Island General Law 45-12-11 authorizes the Rhode Island State Director of Administration, upon petition by a municipality, to authorize such municipality to incur indebtedness in excess of the 3% debt limit whenever the Director shall determine that the sums appropriated by the municipality or its funds available are insufficient to pay the necessary expenses of the municipality. The Town has never requested the State Director of Administration to authorize indebtedness of the Town under section 45-12-11.

Under Rhode Island law, the Town may borrow in each fiscal year in anticipation of the receipt of the proceeds of the property tax due in such fiscal year, an amount that shall not exceed the total tax levy of the then current fiscal year. Tax Anticipation Notes must be payable not later than one year from the date of issuance. The Town has not issued Tax Anticipation Notes since fiscal year 1999.

Additional information on the Town of Glocester's long-term debt can be found in footnote 8 of the financial statements on pages 48-49.

TOWN OF GLOCESTER, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2017
(Un-audited)

- The Town's total general fund budget for fiscal year 2018 amounts to \$29,017,726. The portion for education is \$20,301,974 or 70%, and \$8,715,752 or 30%, for general fund activities.
- The unassigned fund balance in the general fund increased in 2017 due to positive operating results. The unassigned fund balance is 16.89% of proposed expenditures for 2018, which is above the 12% minimum required by the Town Charter.
- Since December 2000, per Rhode Island General Law 44-5-11.6, municipalities in Rhode Island are required to perform full revaluations on all "ratable" property every nine years and statistical revaluations every three years for the years in-between. A full revaluation was performed as of December 31, 2010, which affected fiscal year 2012. A statistical revaluation was completed in 2014. The Town of Glocester completed a statistical revaluation during Fiscal 2017 for the Fiscal 2018 tax year.
- Net assessed values for fiscal year 2018 are \$1,034,537,472 an increase of \$99,192,107 over 2017. In fiscal year 2017, the assessed values were \$935,345,365. This is the result of the statistical revaluation completed in 2017.
- The State of Rhode Island has a 4% tax cap for all municipalities. Glocester's increase for 2017 was 2.2 % and has decreased by .64% for 2018. This is well below the allowable increase. The Town's tax rates for 2016, 2017 and 2018 are listed below. The tax on *Motor vehicles* has been frozen by the State of Rhode Island at \$24.37. Rates are per \$1,000 of valuation. The decrease in rate is due to the revaluation for 2018.

TOWN OF GLOCESTER, RHODE ISLAND
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2017

Net change in fund balances-total governmental funds \$ 717,421

Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:

Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital additions exceed depreciation expense in the current period.

Capital Outlay	\$ 944,387	
Depreciation Expense	<u>(1,069,517)</u>	(125,130)

Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the statement of activities. (105,055)

Some expenditures reported in the governmental funds that require the use of current financial resources are not reported as expenditures in the statement of activities. This is the net effect of those activities. 883

Changes in the Town's Net Pension Assets, Deferred Outflows of Resources related to pension plans or Net Pension Liability and Deferred Inflows of Resources related to pension plans result in an increase or decrease to the pension expense reported in the Statement of Activities.

Also, under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available.

Notes to Financial Statements

TOWN OF GLOCESTER, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Glocester, Rhode Island (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities. In certain circumstances, summaries of the Town's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

The Town complies with generally accepted accounting principles (GAAP). Generally accepted accounting principles (GAAP) include all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide Statement of Net Position and Statement of Activities, Financial Accounting Standards Board (FASB) pronouncements have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Proprietary funds also apply the same principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

Reporting Entity

The Town of Glocester was incorporated in 1731. The Town is governed under a Home Rule Charter adopted in November, 1991. The Town operates under a Town Council form of government with a five-member Town Council headed by a Council President.

A six-member School committee, all elected at large, is vested with legislative authority over the public school system. The Superintendent of Schools, appointed by the School Committee, is the chief executive officer for the school system. The school system provides elementary education to Town residents.

The accompanying financial statements present the government and its component unit. In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units," and by GASB Statement No. 61 "The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34". A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town's discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the Town. Through the application of GASB Statement No. 61, GASB Statement No. 39 and No. 14 criteria, the Glocester Land Trust (the Land Trust) has been presented as a component unit of the Town, hereinafter referred to as a "component unit", in the accompanying government-wide financial statements. The Land Trust is included in the Town's reporting entity because of the significance of its operational and financial relationships with the Town.

Discretely Presented Component Unit Disclosure – The Glocester Land Trust is a component unit and is reported in a separate column to emphasize that it is legally separate from the Town but is included because the Town is financially accountable for and is able to impose its will on the organization. There is a financial benefit or burden relationship to the primary government. The Town of Glocester is able to impose its will in the component unit as the Town appoints all seven trustees of the Glocester Land Trust and can also remove them. Unless otherwise indicated, the notes to the basic financial statements pertain only to the primary government because certain disclosures of the component unit are not significant relative to the primary government. A description of the component unit and its relationship with the Town is as follows:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

Glocester Land Trust (the Land Trust) – Established on July 1, 1987 – The purpose of the Land Trust is to acquire, hold and manage real property and interests in real property situated in the Town of Glocester, consisting of open space and agricultural property. Upon termination or dissolution of the Land Trust, title to all remaining funds, land and land rights will vest with the Town. The Land Trust does not issue separate financial statements and has a June 30 fiscal year.

Recently Issued Accounting Standards

The Town implemented the following accounting pronouncements for the year ended June 30, 2017:

- GASB Statement No. 74 – Financial Reporting for Postemployment Benefit Plans Other than Pension Plans - effective for the Town’s fiscal year ending June 30, 2017.
- GASB Statement No. 77 – Tax Abatement Disclosures - effective for the Town’s fiscal year ending June 30, 2017.
- GASB Statement No. 78 Pensions Provided through Certain Multiple-Employer Defined Pension Plans - effective for the Town’s fiscal year ending June 30, 2017.
- GASB Statement No. 80 GASB Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14 - effective for the Town’s fiscal year ending June 30, 2017.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 75 - Accounting for Postemployment Benefit Plans Other than Pension Plans - effective for the Town’s fiscal year ending June 30, 2018.
- GASB Statement No. 81 - GASB Statement No. 81, Irrevocable Split-Interest Agreements - effective for the Town’s fiscal year ending June 30, 2018.

The impact of these pronouncements on the Town's financial statements has not been determined.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

Government – Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for component units that are fiduciary in nature. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to inter-fund activities, receivables and payables.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes.

Capital Project Funds

Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Basis of Presentation (Continued)

Permanent Funds

Permanent Funds are used to account for assets held by the Town pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

Proprietary Funds

Proprietary Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the Proprietary Funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenues. All other revenues of the Proprietary Funds are considered non-operating sources of revenue.

Fiduciary Funds

Fiduciary Funds include a Statement of Net Position and a Statement of Changes in Net Position. The Town's Fiduciary Funds include an OPEB Trust Fund. Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Funds are accounted for on an "economic resources" measurement focus and the accrual basis of accounting.

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Brief Description</u>
-------------	--------------------------

Major:

General Fund:	See above for description
---------------	---------------------------

Special Revenue:	School Unrestricted - This fund accounts for the operation and maintenance of the West Glocester and Fogarty Memorial Elementary Schools. Revenue Sources: Town funded appropriation State of Rhode Island: Annual aid to education
------------------	---

Capital Project:	Capital Reserve Fund - This fund accounts for monies utilized for capital improvements set forth in the Capital Program approved at the Financial Town Meeting.
------------------	---

Proprietary:	School Lunch - This fund is used to account for the activities of the lunch programs at the West Glocester and Fogarty Memorial Elementary Schools.

Permanent: Perpetual Care Fund.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below, and utilize the accrual basis of accounting.

TOWN OF GLOCESTER, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes, franchise taxes, licenses, and interest as available if they are collected within 60 days after year-end. Substantially all other revenue of the governmental funds is recognized utilizing the modified accrual method of accounting, and as such, it is recognized as earned.
- b) The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government wide financial statements the Statement of Net Position and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions should be recognized when the exchange takes place. . Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions should be recognized in accordance with the requirements of Section N50.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Amounts reported as program revenues include charges to customers or applicants for licenses, fees, goods, services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

TOWN OF GLOCESTER, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal operation. The principal operating revenues of the enterprise funds are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise funds include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as non-operating revenues and expenses.

Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based on historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts totaled \$360,000 for property taxes. Business-type activities report usage fees as its major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end but not yet received. Allowances for uncollectible receivables are based upon historical trends and the periodic aging of accounts receivable.

Deposits and Investments

Cash and cash equivalents are carried at cost. The Town's cash and cash equivalents consist of cash on hand, demand deposits, money market accounts, and short-term investments with original maturities of three months or less from the date of acquisition. Substantially, all of the Town's cash and cash equivalents are held in public deposit institutions or collateralized government investment pools, which are available on a daily basis.

Investments are stated at fair value. Investment income is recorded in the fund which it was earned.

Prepaid Items

Prepaid items, where applicable, are accounted for under the allocation method whereby a prepaid asset is established at the date of payment and subsequently amortized over the accounting periods expected to benefit from the initial payment. Prepaids recorded in governmental funds do not reflect current appropriated resources, resulting in non-spendable fund balance.

TOWN OF GLOCESTER, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, Plant, and Equipment

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, long-lived assets are accounted for as capital assets. All fixed assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. The capitalization threshold is any individual item with a total cost of greater than \$5,000.

Infrastructure assets include primarily roads and bridges. All known infrastructure assets are included in this report and there are no infrastructure assets reported using the modified approach.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Classes</u>	<u>Useful Life</u>
Land improvements	5 - 30 years
Buildings and improvements	5-100 years
Motor vehicles	4-20 years
Machinery and equipment	5-30 years
Office furniture and equipment	3-20 years
Infrastructure (roads and bridges)	3-40 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

TOWN OF GLOCESTER, RHODE ISLAND
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accrued Compensated Absences

Under the terms of various contracts and policies, Town employees are granted vacation and sick leave based on length of service. The amount recorded is the unused days earned at the current rate of pay. The Town's policy is to recognize the cost of vacation and sick leave in governmental funds when paid and on the accrual basis in proprietary funds. Since the Town's policy is to pay certain accrued compensated absences when employees separate from service with the Town, the amount of earned but unpaid vacation and sick leave relating to governmental fund employees is recorded as a long-term liability in the government-wide financial statements.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Interfund Transfers

The principal purpose of interfund transfers is to provide a financing source to various funds that may not have the ability to cover all operating costs with revenue generated by the fund.

Bond Issuance Costs

In the governmental fund financial statements, bond issuance costs are treated as period costs in the year of issue and shown as expenditure.

Deferred Outflows of Resources

Represent a consumption of net position or fund balance by a government that is applicable to a future reporting period.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and/or balance sheet can report deferred inflows of resources. Deferred inflows of resources represent the acquisition of net position or fund balance that applies to a future period and which will not be recognized as an inflow of resources (revenue) until a later date.

Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a) Net Investment in capital assets - Consists of capital assets (including restricted capital assets) net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b) Restricted - Consists of net positions with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c) Unrestricted - All other net positions that do not meet the definition of "restricted" or "Net investment in capital assets".

Fund Financial Statements

The Town has adopted and implemented the provisions and requirements of the Governmental Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- ***Non-spendable*** – are balances that are not in a spendable form or are legally or contractually required to be maintained intact or are permanently precluded from conversion to cash. Examples are prepaid amounts, inventories, endowments and permanent funds.
- ***Restricted*** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- ***Committed*** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- ***Assigned*** – are balances intended for a specific purpose and are constrained by the government's management but are neither restricted nor committed.
- ***Unassigned*** – is the amount of fund balance in the General Fund that has not been restricted, committed, or assigned to a specific purpose within the General Fund. It includes spendable amounts not subject to any intended use or constraint. It is the residual classification for general fund and is available for any purpose. The balance is not precluded by a management decision, law or constitutional provision in the general fund.

Fund Financial Statements (Continued)

The Town adopted a Fund Balance policy on June 16, 2011. The Gloucester School Department adopted a Fund Balance policy on May 17, 2011. Both set classification policies and procedures for the above noted level of fund balance reporting for the funds for which they are responsible.

As a result of the passage of a charter review, the Town of Gloucester general fund budget is approved at an all-day referendum. At this time, the voters are also asked to vote to commit funds for specified purposes from the fund balance. Each item to be committed is addressed as an individual question to be approved by a majority vote of the people which in turn is creates a resolution. The summary below details the procedure for the budget as it relates to the fund balance categories as defined by GASB.

- a) For committed fund balances, the referendum is the highest level of authority to designate or undesignated committed funds or to modify or rescind committed funds. A vote by the residents is needed to commit or to un-commit funds.
- b) For assigned fund balances in the General Fund: The Town Council is authorized to assign amounts to a purpose and under the same authority remove the assignment. For assigned fund balances in the School Unrestricted Fund: The Gloucester School Committee is authorized to assign amounts to a purpose and under the same authority remove the assignment..
- c) Order of expenditure of funds by classifications: Expenditures may be incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. Composition of the ending fund balance is determined by applying the following: In those instances where both restricted and unrestricted amounts are available, restricted amounts will be considered to have been spent first [as allowed and in compliance with stated and specified terms or requirements], followed by committed amounts, followed by assigned amounts, and then unassigned amounts.
- d) Minimum unassigned fund balance: An adequate level of unassigned fund balance is essential to mitigate current and future risks and to ensure service levels. Specifically, amounts are and will be held in unassigned fund balance for:
 - Economic uncertainty (i.e., to cushion the Town against fluctuations in revenues and costs due to economic conditions),
 - Extreme events (i.e., allows the Town to respond quickly and decisively to events such as natural disasters, catastrophic accidents, etc.)
 - Working capital (i.e., to cushion the Town against revenue shortfalls or expenditure fluctuations associated with routine Town business) (e.g., property tax revenues are received quarterly, but the Town delivers police services year-round).

Fund Financial Statements (Continued)

Per the Town's Home Rule Charter, Article VIII, Financial Procedures, Section C8-13 Minimum cash reserve: "The minimum unreserved general fund balance the Town shall maintain shall be not less than 12% of the total annual Town proposed expenditures for the next fiscal year."

It is anticipated that this is a level sufficient to provide for the required resources to ensure short-term cash availability when revenue is unavailable or unanticipated expenditures (including emergencies) occur. If the unassigned fund balance falls below the minimum parameter, the Town Council will adopt a plan and a time frame in which to bring the unassigned fund balance into compliance with the Town's Home Rule Charter.

Pensions

For purposes of measuring the net pension liability, net pension asset, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town of Glocester, Rhode Island's various pension plans (described in more detail in Note 12) and additions to/deductions from the pension plans fiduciary net position have been determined on the same basis as they have been reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. BUDGETARY PROCESS

(a) Adoption

The Town has formally established budgetary accounting control for its General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. It is the responsibility of the Town Budget Board to: a) Receive and examine all requests for capital and operating expenditures submitted by the Departments, Commissions, Offices and Agencies of Town government, including the School Department; b) Hold such hearings as may be necessary to provide the opportunity for all Department Heads, Town Officials and Agencies submitting estimates to appear before the Board to explain and justify their requests. The Board shall provide opportunity for any citizen who desires to do so to address the Board on any pertinent matter consistent with the procedural rules established by the Board; and c) Submit to the Council no later than the third Thursday in March its recommendations regarding all requests for appropriations which have been submitted for its review together with revenue estimates and the projected tax levy required to support the budget recommendation. The Council shall review the recommendations of the Budget Board and make such changes in the various expenditure requests as it sees fit, provided, however, that the Council shall not have the authority to change any item in the School department expenditure request except the overall total amount. The Council shall hold a Public Hearing on its preliminary recommended budget prior to its adoption, which hearing must be at least 21 days prior to the all day referendum. The Council shall adopt a recommended budget for presentation to the all day referendum, not later than 15 days preceding its date. The recommended budget is approved or rejected by the voters at the all day referendum.

2. BUDGETARY PROCESS (Continued)

(a) Adoption (Continued)

The General Fund and School Unrestricted Fund annual operating budget amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The legal level of control for the General Fund is at the fund level and the School Unrestricted Fund is at the fund level. Amendments that would change the total appropriation must be approved by the voters at the all day referendum. There were no supplemental budgetary appropriations in fiscal year 2017. Appropriations which are not expended or encumbered lapse at year end. As a result of the passage of a charter review, the Town of Glocester general fund budget is approved at an all-day referendum. The first vote was on May 19, 2016 for the fiscal 2017 budget.

(b) Reconciliation - Budgetary to GAAP

The Town Charter requires annual budgets for the General Fund and Special Revenue - General School Activities. The practices used in the preparation of the 2017 budget differ in certain respects from the presentation of the actual results of operations prepared in accordance with GAAP. The actual results of operations, for purposes of the Statement of Revenues, Expenditures, Other Financing Sources (Uses) - Budget and Actual on a Budgetary Basis -General Fund, and Special Revenue Fund -School Unrestricted Fund, have been adjusted to a basis consistent with the Town's budget for 2017. See Pages 81 through 84.

3. DEPOSITS AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and cash equivalents".

Investments: Investment of all idle funds is made through national banks or trust companies, providing that the financial conditions and integrity of the institution or institutions are verifiable and can be monitored. The investment of funds must be in direct obligations of the United States Government and "money market instruments" rated "A" or better. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Town minimizes its exposure to interest rate risk by investing in short-term, highly liquid investments.

Concentrations: The Town practice is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

3. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2017, \$ -0- of the Town's balance of \$15,679,998 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and investments of the Town consist of the following at June 30, 2017:

<i>Cash and Cash Equivalents</i>	
Deposits with financial institutions	\$ 15,259,019
Total cash and cash equivalents	15,259,019
<i>Investments</i>	
Institutional Mutual Funds	420,979
Total Investments	420,979
<i>Total Cash and Investments</i>	\$ 15,679,998

Cash and investments are classified in the accompanying financial statements as follows:

<i>Statement of Net Position</i>	
Cash and cash equivalents	\$ 15,259,019
<i>Fiduciary Funds</i>	
Investments	420,979
<i>Total Cash and Investments</i>	\$ 15,679,998

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The town does not have any investments that are subject to interest rate risk for the fiscal year ended June 30, 2017.

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The Town did not have any debt type investments that were exposed to credit risk as defined by GASB 40 as of June 30, 2017.

4. TAXES RECEIVABLE AND UNEARNED REVENUE

The Town's property tax is levied each July 1, for its next fiscal year on the assessed values listed as of the prior December 31 (lien date), for all real property, tangible property, and motor vehicles located in the Town. Assessed values of real property and tangible personal property were established by the Town Assessor's office at 100% of appraised market value as of December 31, 2015. The assessed value of motor vehicles is determined annually at 100% as established by the State Vehicle Value Commission.

An automatic lien is placed on the taxpayer's property if payment has not been received by the due date. Interest is charged on past due accounts at a rate of 8% per annum calculated on the unpaid portion of the total tax. Taxes are due in full by August 1, or at the option of the taxpayer they may be paid in quarterly installments on the first working day of August, November, February, and May following the levy date.

Net property taxes levied at the May 17, 2016 at the all day referendum for the fiscal year 2017 were based on a net assessed value of approximately \$935,345,365 at December 31, 2015 and amounted to \$21,705,394.

The Town recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the Codification of Governmental Accounting and Financial Reporting Standards. Unpaid property taxes as of June 30, 2017 (\$724,393) are recorded as a receivable, net of an allowance for uncollectible property taxes of \$360,000. Those net property taxes receivable which were not collected within the 60 days immediately following June 30, 2017 are recorded as deferred inflow and amounted to \$392,385 at June 30, 2017. Property taxes recognized as revenue for the fiscal year ended June 30, 2017 (due to their collection within the 60 days immediately following June 30, 2017) amounted to \$331,718.

In the government-wide financial statements, deferred revenues represent funds received in advance of being earned, or receivables which will be collected and included in revenues of future fiscal years.

In fiscal year 2007 the Town issued the \$750,000 School roof bond issue under the Maximum Aggregate Indebtedness provision (3% Debt Limit) of the Rhode Island General Laws 45-12-2. All other Town debt has been incurred through special statutory authority which consists of approval by the legislature and voter referendum. The Town is not obligated in any manner for special assessment debt, nor is there any special assessment debt outstanding.

(c) Loan Payable

The Town entered into a loan agreement with RI Clean Water Finance Agency in the amount of \$250,000 on February 22, 2001, which was completely drawn down by April 1, 2011. The loan is used to establish the Community Septic System Loan Program through which the Town provides subsequent loans to homeowners for the repair or replacement of failed septic systems. Loans are serviced on behalf of the Town by the RI Housing Mortgage Finance Corporation. The loans to the homeowners bear interest of 4% of which RI Clean Water Finance Agency and RI Housing Mortgage Finance Corporation both receive a 1.5% service fee.

(c) Loan Payable (Continued)

The Town entered into another loan agreement with RI Clean Water Finance Agency in the amount of \$300,000 on October 7, 2010 to further fund the Community Septic System Loan Program. Loans are serviced on behalf of the Town by the RI Housing Mortgage Finance Corporation. The loans to the homeowners bear interest of 2% of which RI Clean Water Finance Agency receives a 0.5% service fee and RI Housing Mortgage Finance Corporation receives a 1.5% service fee. The loan must be completely drawn down by January 1, 2021.

Payments of principal and service fees are made to RI Clean Water Finance Agency quarterly from the funds collected from the repayment of loans to homeowners less the service fee due to RI Housing Mortgage Finance Corporation. As a result, there is no debt service schedule and the debt service to maturity information has not been provided.

The loans are not a general obligation of the Town and are subject to and dependent upon appropriations being made by the Town for such purposes.

(d) Loan Payable

The town entered into a promissory note agreement with individuals to purchase property located at 1605 Snake Hill Road, Glocester RI in the amount of \$200,000.00 on July 8, 2016. The total purchase price of the property was \$325,000. The loan will be paid in five installments of \$40,000.00 starting on July 8, 2017. The note is interest free unless borrower is in default in the event of default a rate of 7% per annum is charged on the unpaid principal.

NOTE 9: DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION

(1) When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the town as a whole.

Cost of capital assets	\$ 34,039,164
Accumulated depreciation	(15,956,553)
	\$ 18,082,611

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (for example receivables) are offset by deferred revenues in the governmental funds and thus are not included in the fund balance.

Accrued interest	\$ (9,167)
Unearned revenue	466,003
Adjustment of deferred inflow	392,385
	\$ 849,221

Long-term liabilities applicable to the town's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term are reported in the statement of net position.

Bonds & loans payable	\$ 2,185,062
Landfill post-closure costs	213,400
Accrued compensated absences	1,008,154

The Teachers Survivors Benefit plan has a net pension asset balance at the end of the year.

Net pension asset	\$ 863,206

Deferred inflows and outflows of resources are amounts used under GASB 68 in developing the annual pension expense. Deferred inflows and outflows arise with differences between expected and actual experiences and changes of assumptions. The portion of these amounts not included in pension expense should be included as deferred outflows or inflows to be recognized in future periods.

10. DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES (Continued)

- (1) Because some property taxes will not be collected for several months after the town's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Also, non-monetary transaction such as Town acquisition of tax sale properties are not recorded on the fund statements but are recorded in the statement of activities.

Property taxes	\$	(45,499)
Other		(59,556)
		(105,055)

Interest expense in the statement of activities differs from the amount reported in the governmental funds because interest payments are recognized as an expenditure when paid in the governmental funds while in the statement of activities they are recognized when accrued.

Accrued interest		883
	\$	883

- (2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decrease by the amount of depreciation expense charged for the year.

Capital outlay	\$	944,387
Depreciation expense		(1,069,517)
Difference	\$	(125,130)

- (3) Repayment of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the town as a whole, however, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities. Cost associated with the refinancing of debt are expensed in the fund financials but are long-term assets and liabilities in the statement of activities

Summary of Significant Accounting Policies

General Information about the Pension Plan

Plan Description - The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org

Benefits provided – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

(a) Municipal Employees' Retirement System of Rhode Island

General Information about the Pension Plan

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

Subsequent to June 30, 2015, litigation challenging the various pension reform measures enacted in previous years by the General Assembly (2009, 2010, and 2011) was settled. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly. These amended benefit provisions, which have been included in the determination of the total pension liability at the June 30, 2015 measurement date and are reflected in the summary of benefit provisions described below.

General Employees

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012 in (a) above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

12. RETIREMENT PLANS & POST EMPLOYMENT BENEFITS (Continued)

(a) Municipal Employees' Retirement System of Rhode Island

General Employees

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and Fire Employees

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior Retirement Date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012: benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

(a) Municipal Employees' Retirement System of Rhode Island

Police and Fire Employees

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described in (a) and (b) above and one calculated based on a 2.25% multiplier for all years of service.

Other Benefit Provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

a. The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

b. Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

c. The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (i) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.

Town General Employees:

Retirees and Beneficiaries	35
Inactive, Nonretired Members	32
Active Members	68
Total	135

Police Employees:

Retirees and Beneficiaries	13
Inactive, Nonretired Members	1

Total	30

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 1% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 9% of their salaries. The Town of Glocester contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of Glocester contributed \$434,265 in the year ended June 30, 2017 which was 12.2% of annual covered payroll.

Net Pension Liability (Asset) - The total pension liability was determined by actuarial valuations performed as of June 30, 2015 and rolled forward to June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement.

Cost of Living Adjustments	A 2% COLA is assumed after January 1, 2014.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2016 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(b) Defined Contribution Plan

Plan Description:

Certain employees participating in the defined benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute 1% of annual covered salary. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Town of Gloucester recognized pension expense of \$81,917 for the fiscal year ended June 30, 2017.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at <http://www.ersri.org>.

(c) Employees' Retirement System of Rhode Island

General Information about the Pension Plan

Plan description - Certain employees of the Gloucester School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

(c) Employees' Retirement System of Rhode Island (continued)

The plan provides for survivor benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2017, the Glocester School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The state and the Glocester School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Glocester School Department; the rates were 9.41% and 13.73% of annual covered payroll for the fiscal year ended June 30, 2017 for the state and Glocester School Department, respectively. The Glocester School Department contributed \$538,323, \$534,701 and \$446,319 for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017, the Glocester School Department reported a liability of \$7,120,328 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the Glocester School Department as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the Glocester School Department were as follows:

Glocester School Department's proportionate share of the net pension liability	\$ 7,120,328
State's proportionate share of the net pension liability associated with the Glocester School Department	<u>4,876,379</u>
Total net pension liability	<u>\$ 11,996,707</u>

The net pension liability was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016. The Glocester School Department's proportion of the net pension liability was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2016 the Glocester School Department's proportion was .23865067%.

(c) Employees' Retirement System of Rhode Island

\$545,789 reported as deferred outflows of resources related to pensions resulting from the Gloucester School Department's contributions in fiscal year 2017 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	\$ 88,303
2019	\$ 88,303
2020	\$ 213,352
2021	\$ 120,804
2022	\$ (11,219)
thereafter	<u>\$ (22,437)</u>
	<u>\$ 477,106</u>

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 6.50%
Investment rate of return	7.50%

Mortality – male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2016 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - the discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability (asset) to changes in the discount rate - the following presents the net pension liability (asset) calculated using the discount rate of 7.5 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

General Information about the Pension Plan

Plan description - Certain employees of the Gloucester School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Eligibility and plan benefits - the plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

(d) Teachers Survivor's Benefit Plan

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

<u>Highest Annual Salary</u>	<u>Basic Monthly Spouse's Benefit</u>
\$17,000 or less	\$ 750
\$17,001 to \$25,000	\$ 875
\$25,001 to \$33,000	\$ 1,000
\$33,001 to \$40,000	\$ 1,125
\$40,001 and over	\$ 1,250

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 child	Parent and 2 or more children	One child alone	Two children alone	Three or more children alone	Dependent parent
150%	175%	75%	150%	175%	100%

Contributions - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The Gloucester School Department contributed \$8,153, \$5,568 and \$5,280 for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017 the Gloucester School Department reported an asset of \$863,206 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2016. The Gloucester School Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2016 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2016 the proportion was 0.86691742%.

For the year ended June 30, 2017 the Gloucester School Department recognized pension expense of \$16,582 – an increase in the net pension asset. At June 30, 2017 the Gloucester School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

13. CONTINGENT LIABILITIES

Grants

Under the terms of federal and state grants, periodic compliance audits by the grantors or their representatives are required and, consequently, certain costs may be questioned as not being appropriate, and result in reimbursement to the grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies could not be determined at this time. Town officials believe that such disallowances, if any, would not be material.

Self-Insurance

The Town has elected to pay unemployment compensation on a claims-made basis rather than as a percentage of payroll. No accrual has been made for claims expected to arise from service related to fiscal 2017 because Town officials are of the opinion that any claims relating to this period will be immaterial.

Litigation

The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town's attorneys, the resolution of these matters will not have a materially adverse effect on the financial condition of the Town.

OPEB Trust (the Trust)

Plan Description

The Town of Glocester has established an irrevocable exclusive benefit trust solely to fund retiree health care benefits. The OPEB trust fund has been established in accordance with Section 115 of the Internal Revenue Code. Eligible town employees are town clerks, town police, and town non-contract employees. The benefit provisions and further eligibility conditions are as listed on subsequent sections of this note.

At this time school certified and non-certified employees are not part of the plan. It is expected the consideration of an irrevocable trust for this group will be passed in the near future.

The cost of postemployment health care benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in future years when it will be paid. The Town adopted the requirements of GASB No. 45 during the year ended June 30, 2009, and recognizes the cost of postemployment healthcare in the year when the employee services are rendered, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the Town's future cash flows.

Summary of Significant Accounting

Benefit Provisions and Contributions

Funding Policy

The town currently provides OPEB benefits on a pay as you go plan. Annual appropriations are made in the budget. Past practice has been that funds not spent in the year appropriated are assigned for the intended use of post-employment future costs. The town will continue with this practice until such time as the plan is fully funded. Contractual language dictates those employees eligible for such benefits. The terms and conditions vary with each group.

Annual OPEB Cost and Net OPEB Obligation

The Town may contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* to a trust. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. For fiscal year ending June 30, 2016, the Town created an OPEB Trust with the Rhode Island Interlocal Trust and made a contribution of \$384,191. The Town also elected to continue funding on a pay-as-you-go basis, which was determined to be \$37,820. These costs are recognized as an expense when claims or premiums are paid. The following table shows the components of the Town's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the Town's net OPEB obligation.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, participation rates and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liabilities for benefits.

Actuarial Methods and Assumptions

The above schedules of employer contributions present trend information about the amounts contributed to the Plan by employers in comparison to the ARC, an amount that is actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Benefit Provisions and Contributions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The annual OPEB cost was determined as part of the actuarial valuation. Additional information and assumptions used as of the last actuarial valuation are summarized below:

Benefits provided: For Town and public safety employees, the Town provides 100% of the medical and dental premium cost of individual health care coverage until they are Medicare eligible. For teachers who retired prior to July 1, 2006 the Town pays 100% of the medical premium costs of the individual health care coverage. For those who retired on or after July 1, 2006 but before July 1, 2010 the retiree contributes \$600 annually for the costs of individual medical coverage. For those teachers who retired on or after July 1, 2010 but before July 1, 2011 the retiree contributes 20% of the cost of individual coverage, up to a maximum of \$1,296 annually. For those teachers who retired on or after July 1, 2011 but before July 1, 2012, the retiree contributes 20% of the cost of individual coverage, up to a maximum of \$1,400 annually. For those teachers who retired on or after July 1, 2012 the retiree contributes the same amount as they were contributing during their final year of service for coverage up to a maximum of six years. For educational support staff who retired prior to July 1, 2009 the Town pays 100% of the premium cost of the individual health care coverage until they are Medicare eligible. For those staff who retired on or after July 1, 2009 the retiree contributes the same amount as they were contributing during their final year of service until they are Medicare eligible. Benefits are provided through a third-party insurer.

Contributions: The Town charter grants the authority to establish and amended the contribution requirements of the Town and plan members to the Trustees. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2017, the Town's average contribution rate was 4.19% of covered- employee payroll. Plan members are not required to contribute to the plan.

Investments

Investment policy: The Board's policy in regard to the allocation of invested assets is established and may be amended by the Board by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Board's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2017:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Equity Stock Index Fund	35%	N/A

16. FOSTER-GLOCESTER REGIONAL SCHOOL DISTRICT

The Foster-Glocester Regional School District (Regional School) was created to include the high school (Grades 9-12) and middle schools (Grades 6-8) for the Towns of Foster and Glocester (the Towns). The Regional School is a separate legal entity from the Towns. The voters of the participating Towns elect their respective School Committee members who are also ex-officio School Committee members for the Regional School District. The Regional School cannot assess and levy property taxes. Revenues are derived principally from the participating Towns of the Regional School, which contribute funds according to a financial formula based upon each Town's enrollment and from the State of Rhode Island. The Town of Glocester's budgeted contribution for the fiscal year ended June 30, 2017 was \$10,371,037. Financial statements for the Regional School are issued separately and may be obtained from the Foster-Glocester Regional School District Business Office, Central Administration Office, 91 Anan Wade Road, North Scituate, Rhode Island 02857.

17. RISK MANAGEMENT

The Town of Glocester and Glocester School Department are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors; omissions; injuries to employees; and natural disasters. As a result, the Town and School Department participate in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust on October 1, 1986, the Town and School Department signed a participation agreement which outlines the rights and responsibilities of both the Trust and the Town and School Department. The agreement states that for premiums paid by the Town or School Department, the Trust will assume financial responsibility for the losses up to the maximum amount of insurance purchased, minus the deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims for losses that are above the Trust's self-insured retention. Under the participation agreement, the Town is insured for general liability for a maximum of \$5,000,000 per occurrence and the School Department for a maximum of \$3,000,000 per occurrence. There have been no reductions in insurance coverage from coverage in the previous year. Settled claims resulting from these risks have not exceeded the Trust Coverage.

The Trust is obligated to make payments on the Town's behalf without any further obligation of the Town, unless the Town's applicable limit of liability was exhausted by the size of the loss or the nature of the loss would fall outside the parameters of the Trust policy. As of June 30, 2017, the Town believes there is minimal, if any, potential exposure for outstanding claims which would fall outside the parameter of the Trust policy.

19. LANDFILL POSTCLOSURE CARE COSTS

The Rhode Island Department of Environmental Management (RIDEM) has identified the Town's former landfill located off Chestnut Hill Road as a Site Remediation Program. RIDEM performed a Site Investigation in April 2005 and issued their report in May 2005.

The Town complied with RIDEM's remediation requirements by capping the landfill with two feet of clean fill and subsequently stabilizing it by planting grass. A plastic membrane was not deemed necessary. The work on the project is complete. The total cost was \$246,000. RIDEM has reviewed the Closure Certification Report and determined that it is in substantial compliance with Rule 2.1.09(C) of the Solid Waste Regulation NO.2.

RIDEM regulations require that post-closure monitoring be performed for a period of at least 30 years after the landfill is closed. Monitoring consists of analyzing groundwater samples and measuring landfill gas levels. Other tasks required are mowing the grass twice per year and field inspections to ascertain whether erosion is occurring and that no trees are growing. Annual monitoring is expected to cost \$9,700 per year. Actual costs may be higher due to inflation, changes in technology or changes in regulation. After the first few years of monitoring following final acceptance, the Town will request that RIDEM relax these requirements if monitoring results are in substantial compliance with the regulations. The Town has landfill post closure care costs as follows:

Town Landfill	Year of Closure	Capping Cost (Estimate)	Monitoring Costs (Estimate)	Years Remaining	Projected Liability	Short-Term Liability	Long-Term Liability
Chestnut Hill Rd.	1979	\$ -	\$ 9,700	23	\$ 223,100	\$ 9,700	\$ 213,400

20. PUBLIC ENTITY RISK POOL

The Health Pool

The Town participates in a public entity risk pool through the Rhode Island Interlocal Risk Management Trust (the Trust) entitled the Health Pool (the Pool), formerly known as The Governmental Health Group of Rhode Island, Inc. (through June 22, 2010). The Pool is part of a not-for-profit organization (the Trust) formed to provide programs of liability, workers compensation, and health insurance coverage to Rhode Island cities, towns and other governmental units. The Pool is governed by the Trust Board of Trustees (Board).

Upon joining the Pool, members execute a member agreement. That document, pursuant to which the Pool was established and operates, outlines the rights and responsibilities of both the members and the Pool. Members of the Pool participate in the Pool's health insurance plan administered through the Trust and Blue Cross Blue Shield of Rhode Island (BCBSRI).

Using the rate calculations prepared by The Trust, The Trust sets annual contribution rates for the subscribers of each member for each program offered. The Pool agreement requires that those contribution rates be set:

1. At a level sufficient, in the aggregate, to satisfy the funding requirements of the Pool, and
2. With the intent that over the long term each member is contributing its fair share.

The contributions of each member are used to pay for claims, reinsurance and all administrative expenses. The Pool agreement provides for an annual independent audit of its financial statements.

A member's share of surplus or deficit is equal to the ratio of the member's subscribers (employees and retirees) participating in the Pool's plan for each month of a policy year divided by the sum of all subscribers in the Pool for the same period.

The Pool agreement provides the Trust's Board a discretionary, fully allocable assessment feature with respect to specified circumstances.

After it has been a member of the Pool for an initial three-year period, a member may withdraw from participation in the Pool at its discretion, but a withdrawal may only be effective on June 30th of any year. Any election to terminate participation in the Pool requires a written notification to the Trust of such intent to withdraw no later than May 1st or two (2) months prior to the policy expiration date, whichever date is earlier. Liquidated damages would be assessed at the time of departure prior to the initial three-year period. The Trust may terminate a member's coverage for failure to pay amounts due. For the year ended June 30, 2017, unaudited results indicate that the Pool generated \$141,397,622 in revenues and had a change in net position, revenues less expenses, of (\$2,099,236). The Pool had \$56,071,374 in total assets and \$31,212,128 in total equity as of June 30, 2017.

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017

20. PUBLIC ENTITY RISK POOL

The Health Pool (continued)

The Pool retains certain levels of insurance risk. Specific losses in excess of \$1 million to a limit of \$2 million are covered by a Health Excess Claims Stoploss Account internal to the Trust that is funded by annual Stoploss Account payments from the Health Pool. As of June 30, 2017, the Pool's membership consisted of 45 cities, towns or other governmental units.

Separate financial statements are available at the RI Interlocal Risk Management Trust, 501 Wampanoag Trail, Suite 301, East Providence, RI 02915.

21. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2017 were audited in connection with the accompanying financial statements under the Single Audit Uniform Guidance Concept. The Town used the current standards of that guidance to determine that a Single Audit was not required for the fiscal year ended June 30, 2017.

Annual Supplemental Transparency Report (MTP2)
June 30, 2017

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town's made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department - police officers (e.g., uniform personnel - including, leadership positions)
- Fire Department - fire fighters (e.g., uniform personnel - including, leadership positions)
- Centralized Dispatch Department - civilian dispatchers only
- Education Department - professional staff providing direct services to students

TOWN OF GLOCESTER, RHODE ISLAND
Notes to Supplementary Information
Annual Supplemental Transparency Report (MTP2)
June 30, 2017

- For the remaining departments - all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>.

- (1) In 2003, Factory Mutual Insurance Co., (FMIC) the Town's largest taxpayer, entered into a 20 year payment-in-lieu-of-taxes (PILOT) agreement with the Town. Taxes due to the Town will not be based on assessed value during the time the agreement is in place.
- (2) In 2010, the Providence Water Supply Board (PWSB), an enterprise fund of the City of Providence, entered into a 10 year tax treaty with the Town. Taxes due to the Town will not be based on assessed value during the time the agreement is in place.
- (3) The Taxes assessed columns are displayed here to show that, even though the PILOT amount paid by FMIC is not based on assessments of their property, FMIC continues to be the Town's largest taxpayer.
- (4) Factory Mutual Insurance Co. changed the name on the property owned in the Town of Gloucester to West Gloucester LLC in 2010.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Glocester, Rhode Island as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of Glocester's basic financial statements, and have issued our report thereon dated December 26, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Glocester's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Glocester's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Glocester's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

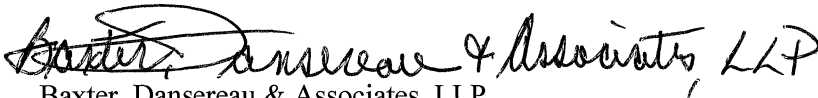

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Glocester's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
