**Independent Auditor's Report**

To the Honorable President and  
Members of the Town Council  
Town of North Smithfield, Rhode Island

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Smithfield, Rhode Island, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of North Smithfield, Rhode Island's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Smithfield, Rhode Island, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Notes 1 and 18 to the financial statements, the Town of North Smithfield, Rhode Island implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during fiscal year 2018. Our opinion was not modified with respect to this matter.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and supplementary other postemployment benefit and pension information on pages 4 through 12 and pages 78 through 94 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Smithfield, Rhode Island's basic financial statements. The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2018 on our consideration of the Town of North Smithfield, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of North Smithfield, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of North Smithfield, Rhode Island's internal control over financial reporting and compliance.

## **TOWN OF NORTH SMITHFIELD, RHODE ISLAND**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Management of the Town of North Smithfield provides this Management's Discussion and Analysis of the Town's Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of North Smithfield is for fiscal year ended June 30, 2018.

Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the Town's financial position. These tables will reflect governmental activities, business - type activities and total activities for the 2017 and 2018 fiscal years. We encourage readers to consider the information presented in this narrative in conjunction with additional information that we have provided herein.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Town's annual financial statements. The financial section of this report consists of four parts — management's discussion and analysis (this section), the basic financial statements, required supplementary information and other supplementary information that includes combining statements for non-major governmental funds and other fiduciary funds.

The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town's overall status. The remaining statements are fund-financial statements that focus on individual parts of the Town government, reporting the Town's operations in more detail than the government wide statements.

The governmental fund statements tell how general government services such as public safety were financed in the short term as well as what remains for future spending.

Proprietary fund statements offer short and long term financial information about the activities the Government operates like a business, such as the water and sewer system.

Fiduciary fund statements provide information about assets that are held by the Town as a trustee or agent for the benefit of someone or something other than the Town itself. The Town cannot use these assets to support its own programs.

The financial statements also include notes that provide more detailed data about some of the information in the financial statements. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental funds and fiduciary funds, which are added together and presented in a single column in the basic financial statements. The Town of North Smithfield adopted the provision of Governmental Accounting Standards Board Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions and Governmental Accounting Standards Board Statement No. 34, Basic Financial statements Management's Discussion and Analysis – for State and Local Governments as of July 1, 2002.

## Government-Wide Statements

The government-wide statements report information about the Town as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Town's net position and how they have changed. Net position — the difference between the Town's assets and deferred outflows of resources, and liabilities and deferred inflows of resources — is one way to measure the Town's financial health, or position.

Over time, increases or decreases in the Town's net position are an indicator of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the Town, you need to consider additional non-financial factors such as changes in the Town's property tax base and the condition of the Town's infrastructure such as the Town's roads.

The government-wide financial statements of the Town are divided into two categories:

***Governmental activities*** - Most of the Town's basic services are included here, such as the police, fire, library, public works, parks & recreation and general administration. Property taxes, charges for services and state funding finance most of these activities.

***Business-Type activities*** - The Town charges fees to customers to cover the costs of certain services it provides. The Town Water and Sewer Enterprise Funds are included here.

The government-wide financial statements are reported on pages 13 and 14.

## Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements focus on individual parts of the Town government, reporting the Town's operations in more detail than the government - wide statements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

***Governmental Funds*** - Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund statements focus on *near-term inflows and outflows of spendable resources*. They also focus on the *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities.

The Town maintains 25 governmental funds; 3 are considered major funds for presentation purposes. That is, each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances. Data from the remaining 22 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of “combining statements” later in this report. The Town's three major governmental funds are:

1. General Fund
2. School Unrestricted Fund
3. Town Building Bond

The basic governmental fund financial statements can be found on pages 15 through 18 of this report.

***Proprietary Funds*** - The Town maintains two enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town maintains an enterprise fund to account for its Water and Sewer operations. The basic proprietary fund financial statements can be found on pages 19 through 22 of this report.

***Fiduciary Funds*** – The Town maintains one other post employment benefits trust fund, one private-purpose trust fund and eight agency funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary funds financial statements can be found on pages 23 and 24 of this report.

***Notes to the financial statements*** - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements and can be found on pages 25 through 77 of this report.

***Other Information*** - In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, which include reconciliation between the statutory revenues and expenditures for budgetary purposes and the revenues and expenditures for the General Fund and School Unrestricted Fund as presented in the governmental fund financial statements. Required supplementary information follows the notes to the financial statements and can be found beginning on page 78 of this report. The combining statements referred to earlier in connection with non-major governmental funds and other information related to the individual funds are presented immediately following the required supplementary information.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

### **Net position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Town's combined net position (government and business-type activities) totaled \$19,906,259 at the close of the most recent fiscal year.

The largest portion of the Town's net position, \$33,098,094 reflects its investment in capital such as land, building, equipment, and infrastructure, less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position, \$3,240,064 represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of (\$16,431,899) may be used to meet the Town's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position.

**Governmental Activities** - To aid in the understanding of the new Statement of Activities, some additional explanation is given. Of particular interest is the format which is different than a typical Statement of Revenues, Expenditures and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a net (expense)/revenue. The reason for this kind of format is to highlight the relative financial burden to our taxpayers of each of the Town's functions. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants. Governmental activities increased the Town's net position by \$2,486,075.

**Business-Type activities** - Business-type activities decreased the Town's net position by \$322,426.

### **Financial Analysis of the Government's Funds**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$16,026,358 an increase of \$1,033,176 (6.89%) in comparison with the prior year beginning fund balance. The General Fund and School Unrestricted Fund are the chief operating funds of the Town.

At the end of the current fiscal year, the total fund balance of the General Fund was \$7,348,812, of which \$5,391,633 is unassigned (73.37%). The General Fund total fund balance increased by \$1,293,507 (21.36%) during the current fiscal year. The unassigned fund balance in the General Fund represents 14.53% of the total Fiscal Year 2018 General Fund budgeted expenditures.

At the end of the current fiscal year, the total fund balance of the School Unrestricted Fund was \$2,468,997, of which \$2,207,005 is restricted for education with the balance being assigned for specific purposes. There are no unassigned balances in the School Unrestricted Fund. The School Unrestricted Fund total fund balance has increased by \$41,759 (1.72%) during the current fiscal year.

**Proprietary Funds:** The Town's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

At the end of the current fiscal year, net position of the Water Fund amounted to \$1,251,388, an increase of \$123,514 (10.95%) from the prior year Net Position. In the Sewer Fund, net position amounted to \$8,041,486, a decrease of \$445,940 (5.25%) from the prior year Net Position.

## **General Fund Budgetary Highlights**

The following Revenue Sources had revenue that was materially over/(under) budget for the fiscal year:

***Prior Year taxes*** - were \$52,661 over budget. A tax sale was held that generated payments on many delinquent accounts. Additionally, DMV registry blocks has aided in the collection of Motor Vehicle taxes.

***Building Permits & Zoning fees*** – were over budget by \$34,386 due to an increase in new construction in Town especially in commercial which has amplified building inspection fees as well as the budget committee’s conservative approach for revenue estimation.

***Other Revenues*** – were over budget by \$29,515 due to favorable collections of Rescue Service Fees and the budget committee’s conservative approach for revenue estimation.

***Interest Income*** – was over budget by \$35,248 due to favorable interest rates and cash management.

The following Departments had expenditures that were materially over/(under) budget for the fiscal year:

***General governmental expenditures*** - were under budget by \$54,538, primarily due to plant operations line items being under spent by \$30,815.

***Financial administration expenditures*** - were under budget by \$27,072, primarily due to the Audits and Computer Services expenditure line item under spent by \$10,161 and tax assessor salary line under spent by \$6,796.

**Amounts reported for Governmental Activities in the Statement of Activities are different because:**

Governmental Funds financial statements report capital outlays as expenditures. However, in the Government-Wide Statement of Activities, the cost of those assets is allocated over their estimated useful life as depreciation expense.

This is the amount of capital assets recorded in the current period. 1,172,870  
This is the amount of the loss on the disposal of capital assets during the current period. (20,554)

Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, depreciation expense is not reported in the Governmental Funds financial statements. (2,214,751)

New loans are reported as an increase in accounts receivable in the Government-Wide Statement of Net Position, but are reported as expenditures in the Governmental Fund Financial Statements. 9,650

Long-term compensated absences, net pension liabilities (assets) and net other post employment benefit (OPEB) liabilities are reported in the Government-Wide financial statements, but do not require the use of current financial resources. Therefore, compensated absences, net pension liabilities (assets) and net OPEB liabilities are not reported as expenditures in Governmental Funds financial statements. This amount represents the change in these long-term liabilities from the prior year. (595,395)

Bond, loan and lease proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Government-Wide Statement of Net Position. Repayment of debt principal and payments to escrow agents are expenditures or uses of current financial resources in Governmental Funds, but the payments reduce long-term liabilities in the Government-Wide Statement of Net Position. This amount represents long-term debt principal payments. 2,888,832

Debt issued at a premium provide current financial resources to Governmental Funds, but are deferred and amortized in the Government-Wide financial statements. Deferred amounts on refunding are expenditures in the Governmental Funds, but are deferred and amortized in the Government-Wide financial statements. This amount represents amortization of deferred amounts on refunding during the current period. (126,708)  
This amount represents amortization of premium on debt during the current period. 330,435

Accrued interest expense on long-term debt is reported in the Government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, accrued interest expense is not reported as an expenditure in Governmental Funds financial statements. The following amount represents the change in accrued interest from prior year. 17,334

Revenues in the Statement of Activities that are not available in Governmental Funds are not reported as revenue in the Governmental Funds. (8,814)

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

The financial statements of the Town of North Smithfield, Rhode Island, have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the Town's financial statements.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. REPORTING ENTITY**

The Town of North Smithfield, Rhode Island was incorporated under the provisions of Chapter 728 of the Public Laws of Rhode Island. The Town operates under a Town Council-Administrator form of government and provides the following services as authorized by its charter: public safety (police and fire), highway and streets, sanitation, health and social services, culture-recreation, education, public improvements, planning, zoning and inspection, and general administrative services.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, “Determining Whether Certain Organizations are Component Units”, GASB Statement No. 61 “Financial Reporting Entity-Omnibus” and GASB Statement No. 80 “Blending Requirements for Certain Component Units”. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or based on the nature and significance of the organization’s relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading. The Town of North Smithfield does not have any component units.

**B. BASIS OF PRESENTATION AND ACCOUNTING**

**Government-Wide Financial Statements**

The Town’s Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements report information about the reporting entity as a whole. Fiduciary activities of the Town are not included in these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through property taxes, intergovernmental revenue, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods and services rendered.

The Statement of Activities presents a comparison between direct expenses and program revenue for the business-type activities and for each function of the Town’s governmental activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including property taxes and general state aid, are presented as general revenues.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

These statements are presented on an “*economic resources*” measurement focus and the accrual basis of accounting. Accordingly, all the Town’s assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets, infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total column. In the Statement of Activities, those transactions between governmental and business-type activities have not been eliminated.

**Fund Financial Statements**

The Fund Financial Statements of the Town are organized into funds, each of which is considered to be a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific Town functions or activities. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures/expenses. Funds are organized into three categories: governmental, proprietary, and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the Fund Financial Statements.

**Governmental Fund Financial Statements**

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide Financial Statements.

All governmental funds are accounted for on a spending or “*current financial resources*” measurement focus and the modified accrual basis of accounting. Accordingly, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally collected 60 days after year-end) are recognized when due. The primary revenue sources which have been treated as susceptible to accrual by the Town are property tax and intergovernmental revenues. Expenditures are recorded in the accounting period in which the related fund liability is incurred, except for principal and interest on

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured.

**Major Governmental Funds:**

**General Fund** – The General Fund is used to account for resources devoted to financing the general services that the Town performs for its citizens and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted or reported in another fund.

**School Unrestricted Fund** – The School Unrestricted Fund is used to account for the budgeted resources devoted to financing the general operations of the School Department.

**Town Building Bond Fund** – This fund accounts for debt proceeds used for major capital projects for Town buildings.

**Proprietary Fund Financial Statements**

Proprietary Fund Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows.

Proprietary funds are accounted for using the “*economic resources*” measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) are included in the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The Town has two Enterprise Funds, which are major funds, as follows:

**Water Fund** – The Water Fund is used to account for the water use fees and the expenses associated with providing water services to Town residents.

**Sewer Fund** – The Sewer Fund is used to account for the sewer use and assessment fees and the expenses associated with providing sewer services to Town residents.

**Fiduciary Fund Financial Statements**

Fiduciary Fund Financial Statements include a Statement of Net Position and a Statement of Changes in Net Position. The Town’s Fiduciary Funds include an Other Post Employment Benefits Trust Fund, a Private Purpose Trust Fund and Agency Funds. Fiduciary Funds are used to account

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Funds are accounted for on a spending or “*economic resources*” measurement focus and the accrual basis of accounting. Agency funds are purely custodial and do not involve measurement of results of operations.

***Other Post Employment Benefits Trust Fund*** – This fund accounts for assets held under a trust arrangement to finance other post employment benefits of Town employees and payments of these benefits as they come due.

***Private Purpose Trust Funds*** – This fund accounts for assets held by the Town under a trust arrangement for the benefit of certain individuals.

***Agency Funds*** – These funds account for assets held by the Town for performance bonds, student activities and other activities.

**C. RECENTLY ISSUED ACCOUNTING STANDARDS**

The Town has implemented the following new accounting pronouncements:

- GASB Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective for the Town’s fiscal year ending June 30, 2018.
- GASB Statement No. 81 – *Irrevocable Split-Interest Agreements*, effective for the Town’s fiscal year ending June 30, 2018.
- GASB Statement No. 85 – *Omnibus 2017*, effective for the Town’s fiscal year ending June 30, 2018.
- GASB Statement No. 86 – *Certain Debt Extinguishment Issues*, effective for the Town’s fiscal year ending June 30, 2018.

The adoption of GASB Statement Number 75 resulted in a restatement of net position in the Government-Wide Financial Statements of \$(6,483,693) as discussed in Note 18. The adoption of GASB Statement Numbers 81, 85 and 86 did not have an impact on the Town’s financial position or results of operations.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 83 – *Certain Asset Retirement Obligations*, effective for the Town’s fiscal year ending June 30, 2019.
- GASB Statement No. 84 – *Fiduciary Activities*, effective for the Town’s fiscal year ending June 30, 2020.
- GASB Statement No. 87 – *Leases*, effective for the Town’s fiscal year ending June 30, 2021.
- GASB Statement No. 88 – *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, effective for the Town’s fiscal year ending June 30, 2019.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

- GASB Statement No. 89 – *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for the Town’s fiscal year ending June 30, 2021.
- GASB Statement No. 90 – *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61*, effective for the Town’s fiscal year ending June 30, 2020.

The impact of these pronouncements on the Town’s financial statements has not been determined.

**D. CASH AND CASH EQUIVALENTS**

The Town considers cash and cash equivalents in the Proprietary Funds to include cash on hand, time and demand deposits and short-term investments maturing within three months from the date of acquisition.

**E. INVESTMENTS**

The Town’s investments are reported at fair value.

**F. ACCOUNTS RECEIVABLE AND TAXES RECEIVABLE**

Accounts receivable and taxes receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables.

**G. PREPAID ITEMS**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**H. INVENTORY**

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory is generally recorded as expenditures/expenses when consumed.

**I. CAPITAL ASSETS**

Capital assets are reported in the Government-Wide Statement of Net Position. In the Fund Financial Statements, capital assets used in governmental fund activities are accounted for as capital expenditures. Capital assets used in proprietary fund operations are accounted for in the same manner as in the Government-Wide Financial Statements.

All capital assets are recorded at cost or estimated historical cost. Donated capital assets are recorded at acquisition value as of the date received.

Capitalized assets are defined by the Town as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year.

Infrastructure assets are defined generally as capital assets that are immovable and of value only to the governmental unit, including roads, bridges, sidewalks and street lighting.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Land improvements	20-50
Buildings and improvements	20-50
Motor vehicles, equipment and heavy machinery	5-20
Furniture and office equipment	5-10
Infrastructure	25-40
Water lines and projects	30-65
Sewer mains and laterals	30-65

***J. DEBT PREMIUMS***

In the Governmental Fund Financial Statements, debt premiums are reported as an “other financing source”. In the Government-Wide Statements, debt premiums are deferred and amortized over the term of the debt. Debt premiums are presented as an addition to the face amount of the debt payable.

***K. DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES***

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

In the Governmental Fund Financial Statements, deferred inflows of resources are reported for receivables recorded in the Governmental Fund Financial Statements for which the revenue is not available or amounts received before the period for which property taxes are levied. In the Government-Wide Financial Statements, deferred amounts are reported for amounts related to refunding debt issues which will be amortized as a component of interest expense in future years. Deferred outflows of resources and deferred inflows of resources are also reported for amounts related to the Town’s other post employment benefits plan and pension plans that will be amortized as a component of other post employment benefit expense and pension expense in future years.

***L. PROPERTY TAXES***

The Town is permitted by state law to levy property taxes. Current tax collections for the Town were approximately 98.3% of the total 2017 levy. The Town's fiscal 2017-2018 property taxes were levied on July 17, 2017 on assessed valuation as of December 31, 2016. Upon levy, taxes are due and payable on August 15 or may be paid quarterly on August 15, October 15, January 15, and April 15. Failure to mail payments by due dates will result in lien on taxpayer's property. Taxable assessed values are established by Tax Assessor's Office and are currently calculated at approximately 100% of current market value for real estate and 100% of current market value for motor vehicles.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

***M. COMPENSATED ABSENCES***

Under the terms of various contracts and agreements, Town employees are granted vacation and sick leave in varying amounts based on length of service.

Vacation benefits are accrued as a liability based on the accumulated benefits earned at June 30. Sick leave benefits are accrued based on the sick leave accumulated as of June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The liability is calculated at the rate of pay in effect at June 30, 2018.

The entire compensated absence liability is reported on the Government-Wide Financial Statements. For Governmental Fund Financial Statements, the amount of accumulated vacation and sick leave has been recorded as a current liability to the extent that the amounts are due to employees that have resigned or retired.

***N. ACCRUED LIABILITIES AND LONG-TERM DEBT***

All accrued liabilities and long-term debt are reported in the Government-Wide Financial Statements.

For Governmental Fund Financial Statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments and compensated absences paid from governmental funds are reported as a liability in the Governmental Fund Financial Statements only for the portion expected to be financed from expendable available financial resources. Long-term debt paid from governmental funds is not recognized as a liability in the Governmental Fund Financial Statements until due.

***O. PENSIONS***

For the purposes of measuring the net pension liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System of the State of Rhode Island, Teachers' Survivor Benefit and Municipal Employees' Retirement System plans and the additions to/deductions from each plan's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***P. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)***

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Town of North Smithfield's Other Post Employment Benefits Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable, in accordance with the benefit terms. Investments are reported at fair value.

***Q. USE OF ESTIMATES***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

***A. LEGAL DEBT MARGIN***

The Town’s legal debt margin as set forth by State Statute is limited to three percent of total taxable assessed value, which approximates \$48,120,118. As of June 30, 2018, the Town’s debt subject to the legal debt margin is \$5,938,060 and the Town is under the debt limit by \$42,182,058. The debt subject to the debt limitation is based on the type of debt that is issued.

***B. DEFICIT FUND BALANCES***

The following other nonmajor governmental funds have deficit fund balances as of June 30, 2018: School Building Fund \$(15,428); Renewable Energy Grant \$(126,496).

**NOTE 3 – CASH DEPOSITS**

***DEPOSITS*** – are in three financial institutions and are carried at cost. The carrying amount of deposits is separately displayed on the Balance Sheet of the Fund Financial Statements and the Statement of Net Position as “Cash and Cash Equivalents”.

	<b><i>Carrying</i></b>
	<b><u>Amount</u></b>
Total Deposits	\$19,134,766
Add: Petty cash and cash on hand	1,150
<b><i>Total Cash and Cash Equivalents</i></b>	<hr/>
<b><i>Reported in the Financial Statements</i></b>	<b><u><u>\$19,135,916</u></u></b>

***CUSTODIAL CREDIT RISK*** – custodial credit risk is the risk that in the event of the failure of a depository financial institution, the Town will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a formal deposit policy for custodial credit risk, but is governed by State laws as described below. As of June 30, 2018, \$19,431,630 of the Town’s bank balance of \$20,181,630 was exposed to custodial credit risk as follows:

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

	<u><b>Bank Balance</b></u>
Insured (Federal depository insurance funds)	\$750,000
Collateralized with securities held by pledging financial institution or its agent in the Town's name	15,749,961
Collateralized with securities held by pledging financial institution or its agent, but not in the Town's name	3,678,548
Uninsured and uncollateralized	3,121
<b>Total</b>	<u><u>\$20,181,630</u></u>

Under Rhode Island general laws, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits, which are time deposits with maturities greater than sixty (60) days. Any of these institutions which do not meet minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits, regardless of maturity. At June 30, 2018, the Town's uncollateralized deposits with institutions were \$3,121. These deposits are held by institutions that meet the minimum capital standards prescribed by the federal regulators.

**NOTE 4 – INVESTMENTS**

At June 30, 2018, the Town's investment balances were as follows:

<u><b>Investment</b></u>	<u><b>Fair Value</b></u>
Trust OPEB Funding Program	\$509,041
<b>Total Investments Reported In the Financial Statements</b>	<u><u>\$509,041</u></u>

The Town's General Fund investments are governed by Title 35, Chapter 10, Section 11 of the State's General Laws. This law generally allows for short-term investments, such as Certificate of Deposits, Money Market Funds, Obligations guaranteed by the U.S. Government, etc. with the goal of seeking responsible income while preserving capital.

**Interest Rate Risk** – The Town does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** –The Town does not have a formal policy that limits investment choices.

**Concentration of Credit Risk** –The Town does not have a formal policy that limits the amount that can be invested with one issuer.

**Custodial Credit Risk** – Custodial credit risk for investments is the risk that in the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a policy governing custodial credit risk.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 5 – FAIR VALUE MEASUREMENTS**

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Town had no recurring or nonrecurring fair value measurements as of June 30, 2018.

The valuation method for investments measured at net asset value (NAV) per share (or its equivalent) is presented in the following table:

	<u><i>Fair Value</i></u>	<u><i>Redemption Frequency</i></u>	<u><i>Redemption Notice Period</i></u>
Trust OPEB Funding Program	\$509,041	Daily	None

The Trust OPEB Funding Program investment utilizes a balanced strategy seeking both a reasonable level of income and long-term growth of capital and income. The Program invests in seven index and mutual funds: total stock market index fund, total international stock index fund, total bond market index fund, intermediate-term investment grade fund, short-term investment grade fund, inflation protected securities fund, and REIT index fund. The fair values of the underlying investments are used to determine NAV per share (or its equivalent) of the Trust OPEB Funding Program investment.

**E. PRIOR-YEAR DEFEASANCE OF DEBT**

In prior years, the Town defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Town's financial statements. On June 30, 2018, \$900,000 of bonds outstanding are considered defeased.

**NOTE 8 – INTERFUND BALANCES**

The Town reports interfund balances between many of its funds. Interfund balances at June 30, 2018 were as follows:

	<i>Due From:</i>				<i>Total</i>
	<i>General Fund</i>	<i>School Unrestricted Fund</i>	<i>Nonmajor Governmental Funds</i>	<i>Sewer Fund</i>	
<i>Due To:</i>					
General Fund	\$ 34,083	\$ -	\$ 185,009	\$ 15,570	\$ 234,662
School Unrestricted Fund	556,105	-	324,312	-	880,417

The balances primarily result from the time lag between the dates the 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

**NOTE 9 – INTERFUND TRANSFERS**

**NOTE 10 – DISAGGREGATION OF RECEIVABLE AND PAYABLE BALANCES**

**A. ACCOUNTS RECEIVABLE**

The Town disaggregates significant components of receivables in the financial statements. Receivable balances determined immaterial are included as other receivables. The Town expects to receive all receivables within the subsequent year, except for CDBG loan receivables which are due in accordance with individual loan amortization schedules and sewer assessment receivables which are payable over 20 years. The following allowances for doubtful accounts are included in the financial statements:

<u><b>Fund/Description</b></u>	<u><b>Allowance for Doubtful Accounts</b></u>
Governmental Activities/General Fund – Real estate and personal property tax receivable	\$696,480
Governmental Activities – Accrued interest receivable	\$343,245

**NOTE 11 – NET POSITION/FUND BALANCES**

The Government-Wide Financial Statements and Proprietary Fund Statements utilize a net position presentation. Net position is segregated into the following three categories:

***Net Investment in Capital Assets*** – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balance of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

***Restricted Net Position*** – This category represents balances limited to uses specified either externally by creditors, grantors, contributors, laws or regulations of other governments or imposed through constitutional provisions or enabling legislation.

***Unrestricted Net Position*** – This category represents the residual component of net position that does not meet the definition of “restricted” or “net investment in capital assets”.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

***Nonspendable Fund Balance*** – This classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The “not in spendable form” criteria includes items that are not expected to be converted to cash (e.g. inventories, prepaid amounts, and noncurrent receivables).

***Restricted Fund Balance*** – This classification includes amounts that have constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

***Committed Fund Balance*** – This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town’s highest level of decision-making authority. These committed amounts cannot be used for any other purpose unless the Town removes or changes the specific use by taking the same type of action it employed to previously commit those amounts.

***Assigned Fund Balance*** – This classification includes amounts constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed.

***Unassigned Fund Balance*** – This classification is the residual fund balance for the General Fund. This classification represents fund balance that has not been assigned to another fund and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Committed fund balances are established, modified or rescinded by an ordinance or resolution adopted by the Town Council. Assigned fund balances are authorized by the Town Council or an official that the governing body has delegated the authority to assign amounts to be used for specific purposes. The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Town considers unrestricted fund balance classifications to be used in the following order when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used: 1) committed; 2) assigned; and 3) unassigned.

The Town has established the following fund balance policies:

- General Fund unassigned fund balance will be maintained at a minimum of 12% but not more than 16% of General Fund expenditures in any given year.
- Enterprise Funds unrestricted net position will be maintained at a minimum of three months operating expenses plus 25% of the accumulated depreciation of the capital assets of the fund.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

(1) Because some property taxes and other revenues will not be collected soon enough after the Town's fiscal year end, they are not considered to be "available" revenues in the Governmental Funds.

Change in deferred property taxes	\$ (22,900)
Change in accrued interest receivable	14,837
Change in other deferred revenues	8,899
	<u>\$ 836</u>

Accrued interest on long-term debt is reported in the government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, it is not reported in the Governmental Funds financial statements.

Change in accrued interest payable	\$ (17,335)
------------------------------------	-------------

Change in on-behalf pension payments made by the State related to recording the net pension liability in the Government-Wide Statement of Activities.

Change in intergovernmental and grant revenue	\$ 129,060
Change in education expense	<u>\$ 129,060</u>

(2) When capital assets that are to be used in Governmental Activities are purchased or constructed, the resources expended for those assets are reported as expenditures in Governmental Funds. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decreases by the amount of depreciation expense charged for the year.

Capital outlay	\$ (1,172,870)
Depreciation expense	2,214,751
Loss on disposal of capital assets	20,554
	<u>\$ 1,062,435</u>

(3) Repayment of debt principal is reported as an expenditure in the Governmental Funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the Town as a whole, however, the principal payments reduce the liabilities in the Statement of Net Position and do not result in an expense in the Statement of Activities.

Bond principal payments made	\$ (2,743,208)
Lease principal payments made	(145,624)
	<u>\$ (2,888,832)</u>

Debt issued at a premium provide current financial resources to Governmental Funds, but are deferred and amortized in the Government-Wide financial statements. Deferred amounts on refunding are expenditures in the Governmental Funds, but are deferred and amortized in the Government-Wide financial statements.

Amortization of premium on long-term debt	\$ (330,434)
Amortization of deferred amounts on refunding	126,708
	<u>\$ (203,726)</u>

Certain accrued expenditures that do not use current financial resources are not reported in the Governmental Funds financial statements. However, in the Statement of Activities these accrued expenses are recognized and charged to current activities.

Net increase in compensated absences	\$ 79,955
Net change in net OPEB liabilities and related deferred outflows/inflows	(148,843)
Net change in net pension liabilities (assets) and related deferred outflows/inflows	664,283
	<u>\$ 595,395</u>

**NOTE 13 – RISK MANAGEMENT**

The Town of North Smithfield is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement which outlines the rights and responsibilities of both the Trust and the Town. The agreement states that

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its members. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years, except for in fiscal year 2017 the Town paid \$155,000 related to a settled claim that exceeded Trust coverage.

**NOTE 14 – LITIGATION AND CONTINGENCIES**

**A. LITIGATION**

The Town is a party to various claims, legal actions and complaints. The potential liability to the Town, if any or an evaluation of the outcome of these matters cannot be made at the present time.

**B. FEDERALLY FUNDED PROGRAMS**

The Town participates in a number of federally funded programs. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

**NOTE 15 – OTHER POST-EMPLOYMENT BENEFIT PLANS**

**A. TOWN PLAN**

**Plan Description**

**Plan Administration** - The Town of North Smithfield administers a single-employer, defined benefit post-employment benefit plan. This plan does not include the pension benefits discussed in Note 16. On August 21, 2017, the Town Council authorized the creation of an OPEB Trust Fund. The Finance Director is responsible for administration of the plan in accordance with the Trust Agreement effective August 21, 2017 with Town Council oversight. The plan is reported as a Trust Fund in the Town's financial statements. The plan does not issue a publicly available financial report.

**Plan Membership** - As of June 30, 2018, the plan membership data is as follows:

Active employees	70
Inactive employees receiving benefits	16
	86

members. Benefit provisions are established and amended by the union contracts through negotiations between the Town and the respective unions. The plan provides the following benefits based on employee group upon retirement:

- *Police Officers* – Medical and dental coverage (single or family) for police officers who retired on or after June 30, 1990 until the retiree secures employment with equivalent coverage or until Medicare eligible. Effective July 1, 2007, the retiree will receive the same coverage in effect at the date of retirement and will continue to pay any co-share in effect at the date of retirement. Members who retire before July 1, 2007 will not contribute to the cost of coverage.
- *Local 937 Municipal and Public Works Employees* – Medical and dental coverage (single or family) for employees hired prior to July 1, 2005 who retire with 20 years of service. Coverage will continue for a period of 5 years from date of retirement.

**Contributions** - Contribution requirements are negotiated between the Town and the respective unions. The Town is required to contribute the cost of medical and dental benefits, less the amount of any applicable retiree share of premiums. For the year ended June 30, 2018, the Town's contribution was based on the current year cost of retiree benefits plus amounts committed for OPEB in the current fiscal year and prior fiscal years. For the fiscal year ended June 30, 2018, the Town contributed \$804,219 to the plan. Administrative costs are paid from plan assets.

### **Summary of Significant Accounting Policies**

**Basis of Accounting** – The Other Post-Employment Benefits Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

**Method Used to Value Investments** – Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

### **Investments**

**Investment Policy** – The Finance Director may invest funds held in the OPEB Trust Fund in accordance with the Trust Agreement and State Law. The Town has selected a balanced investment strategy which seeks to provide capital appreciation and current income.

**Rate of Return** – For the year ended June 30, 2018, the annual money-weighted rate of return on investments, net of investment expense, was 1.43%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amounts actually invested.

**Net OPEB Liability of the Town Plan**

The components of the net OPEB liability of the Town at June 30, 2018, were as follows:

Total OPEB Liability	\$5,441,736
OPEB Plan Fiduciary Net Position	(509,041)
Net OPEB Liability	<u>\$4,932,695</u>

Plan Fiduciary Net Position as a percentage of the Total OPEB Liability	9.35%
--	-------

**Actuarial Assumptions** – The total OPEB liability was determined by an actuarial valuation as of July 1, 2017 rolled forward to June 30, 2018, the measurement date. The following actuarial assumptions applied to all periods in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age Normal Cost Method		
Salary Increases	3% per annum		
Inflation	3% per annum		
Discount Rate	2.98%		
Mortality	RP-2014 mortality table with MP-2016 projection		
Health Care Trend Rates	<u>Year</u>	<u>Medical</u>	<u>Dental</u>

	4	6.5%	5.0%
	5	6.0%	5.0%
	6	5.5%	5.0%
	7+	5.0%	5.0%

**Discount Rate** – The discount rate used to measure the OPEB liability was 2.98% for the Town Plan. The projection of cash flows used to determine the discount rate assumed that the plan was unfunded since the Trust Fund has been open less than one year. Based on those assumptions, the Town Plan’s net fiduciary position was not projected to be available to make all projected future benefit payments of current plan members. The municipal bond rate of 2.98% (S&P Municipal Bond 20-year High Grade Rate Index) was applied to all years in the analysis.

**B. SCHOOL PLAN**

**Plan Description**

**Plan Administration** - The North Smithfield School Department's defined benefit OPEB plan (the plan) provides OPEB for certified teachers and support staff of the School Department. The plan is a single-employer defined benefit OPEB plan administered by the School Department. Benefit terms and financing requirements are established and amended by the union contracts through negotiations between the School Department and the respective unions. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

**Plan Membership** - As of June 30, 2018, the following employees were covered by the benefit terms:

Active employees	231
Inactive employees receiving benefits	5
	236

**Benefits Provided** - The Plan provides medical and dental insurance for eligible retirees through the School Department’s group health and dental insurance plans, which cover both active and inactive members. Benefit provisions are established and amended by the union contracts through negotiations between the School Department and the respective unions. The plan provides the following benefits based on employee group upon retirement:

- *Certified Teachers* – For employees retiring on or after the completion of the 1997-1998 school year with 25 or more years of service in North Smithfield, individual health and dental insurance for a maximum period of 7 years from retirement, but in no event beyond the date the retiree attains age 65. Retirees receive the same health and dental insurance and shall contribute the same cost share as contributed by employees per the union agreement and successive union agreements. Benefits shall terminate if the retiree or spouse secures employment with comparable coverage or if the retiree become eligible for Medicare.
- *Support Staff* – For retirees who have completed 15 or more years of service, individual health insurance for a maximum period of 5 years from retirement, but in no event beyond the date the retiree attains age 65. Retirees receive the same health insurance and shall contribute the same cost share as contributed by employees per the union agreement and successive union agreements. Eligible retirees may obtain a family plan from the School Department if the retiree pays the difference between the individual and family plan. The family plan is available until the earlier of the retiree’s or spouse’s attainment of age 65. Benefits shall terminate if the retiree or spouse secures employment with comparable coverage or if the retiree become eligible for Medicare.

**Total OPEB Liability of the School Plan**

The School Department’s total OPEB liability of \$3,942,629 was measured as of June 30, 2018, the measurement date, and was determined by an actuarial valuation as of July 1, 2017 rolled forward to June 30, 2018.

**NOTE 16 – PENSION PLANS**

**A. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND PLANS**

**Defined Benefit Plan**

**General Information about the Pension Plan**

**Plan Description** - Certain employees of the North Smithfield School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans administered by the System. The report may be obtained at <http://www.ersri.org>.

**Benefit Provisions** – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

**Contributions** - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2018, North Smithfield School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The State and the North Smithfield School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the State and the remaining 60% is to be paid by the North Smithfield School Department; the rates were 9.89% and 13.24% of annual covered payroll for the fiscal year ended June 30, 2018 for the State and the North Smithfield School Department, respectively. The North Smithfield School Department contributed \$1,685,417, \$1,515,153 and \$1,562,602 for the fiscal years ended June 30, 2018, 2017 and 2016, respectively, equal to 100% of the required contributions for each year. The State's share of contributions totaling \$1,240,389 for fiscal year 2018 are reflected as on-behalf payments and are included as both revenue and expenditures in the Governmental Funds financial statements.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources**

At June 30, 2018, the North Smithfield School Department reported a liability of \$20,295,425 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the State. The amount recognized by the North Smithfield School Department as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the North Smithfield School Department were as follows:

North Smithfield School Department's proportionate share of the net pension liability	\$20,295,425
State's proportionate share of the net pension liability associated with the North Smithfield School Department	<u>15,338,465</u>
Total net pension liability	<u>\$35,633,890</u>

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

The net pension liability was measured as of June 30, 2017, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017. The North Smithfield School Department's proportion of the net pension liability was based on a projection of the North Smithfield School Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2017 the North Smithfield School Department's proportion was 0.64346444%.

For the year ended June 30, 2018, the North Smithfield School Department recognized in the Government-Wide financial statements gross pension expense of \$2,950,246 and revenue of \$1,369,449 for support provided by the State. At June 30, 2018, the North Smithfield School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources:	
Contributions subsequent to the measurement date	\$1,685,417
Change of assumptions	1,772,513
Changes in proportion and differences between employer contributions and proportionate share of contributions	161,264
Net difference between projected and actual earnings on pension plan investments	512,676
Total	<u><u>\$4,131,870</u></u>
Deferred inflows of resources:	
Change of assumptions	\$319,824
Differences between expected and actual experience	481,157
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,465,619
Total	<u><u>\$2,266,600</u></u>

\$1,685,417 reported as deferred outflows of resources related to pensions resulting from the North Smithfield School Department contributions in fiscal year 2018 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Year ended June 30:	
2019	\$(17,663)

2021	70,158
2022	(286,579)
2023	10,682
Thereafter	83,026

**Actuarial Assumptions** - The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0% to 13.5%
Investment rate of return	7.0%

Mortality – Variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

The actuarial assumptions used in the June 30, 2016 valuation rolled forward to June 30, 2017 and the calculation of the total pension liability at June 30, 2017 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2017 expected arithmetic returns over the long-term (20-years) by asset class are summarized in the following table:

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**

<b>Volatility Protection</b>		
IG Fixed Income	11.50%	2.12%

Cash	3.00%	0.83%

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

The following changes in actuarial assumptions have been made since the prior measurement date: inflation was changed from 2.75% to 2.5%; salary increases were changed from 3.5% -13.5% to 3% -13.5%; investment rate of return was changed from 7.5% to 7.0%; and mortality was changed from 97% (males) and 92% (females) of rates in the GRS table based on teacher experience projected with scale AA from 2000 to variants of the RP-2014 tables with MP-2016 projection scale.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The prior measurement date used a discount rate of 7.5%.

**Defined Contribution Plan**

***Plan Description***

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants.

Employees contribute 7% of their annual covered salary and employers contribute between 3% and 3.5% of annual covered salary depending on the employee’s total years of service as of June 30, 2012. The employer contribution is split between the State and the school department. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The North Smithfield School Department recognized pension expense of \$359,084 and employees contributed \$797,396 for the fiscal year ended June 30, 2018. For financial reporting purposes, the State’s share of contributions totaling \$51,954 for fiscal year 2018 are reflected as on behalf-payments and are included as both revenue and expenditures in the accompanying financial statements.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the System. The reports can be obtained at <http://www.ersri.org>.

**General Information about the Pension Plan**

**Plan Description** - Certain employees of the North Smithfield School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit (TSB) plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans administered by the System. The report may be obtained at <http://www.ersri.org>.

**Eligibility and Plan Benefits** - The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit are subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Highest Annual Salary	Basic Monthly Spouse's Benefit
\$17,000 or less	\$750
\$17,001 to \$25,000	\$875
\$25,001 to \$33,000	\$1,000
\$33,001 to \$40,000	\$1,125
\$40,001 and over	\$1,250

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 Child	Parent and 2 or more Children	One Child Alone	Two Children Alone	Three or more Children Alone	Dependent Parent
150%	175%	75%	150%	175%	100%

**Contributions** - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The North Smithfield School Department contributed \$19,613, \$14,976, and \$17,184, for the fiscal years ended June 30, 2018, 2017 and 2016, respectively, equal to 100% of the required contributions for each year.

**Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources**

At June 30, 2018 the North Smithfield School Department reported an asset of \$2,100,264 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2017, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017. The North Smithfield School Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2017 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2017 the North Smithfield School Department's proportion was 2.53880669%

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

For the year ended June 30, 2018 the North Smithfield School Department recognized pension expense of \$452,614. At June 30, 2018 the North Smithfield School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources:	
Contributions subsequent to the measurement date	\$19,613
Change of assumptions	346,000
Difference between expected and actual experience	414,502
Changes in proportion and differences between employer contributions and proportionate share of contributions	171,775
Net difference between projected and actual earnings on pension plan investments	134,188
Total	<u><u>\$1,086,078</u></u>
Deferred inflows of resources:	
Difference between expected and actual experience	\$441,347
Changes in proportion and differences between employer contributions and proportionate share of contributions	8,725
Total	<u><u>\$450,072</u></u>

\$19,613 reported as deferred outflows of resources related to pensions resulting from the North Smithfield School Department's contributions in fiscal year 2018 subsequent to the measurement date will be recognized as an addition to the net pension asset for the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2019	\$96,712
2020	199,978
2021	124,688
2022	13,925
2023	75,279
Thereafter	105,811

**Actuarial Assumptions** - The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Inflation	2.5%
Salary increases	3.0% to 13.5%
Investment rate of return	7.0%

Mortality – variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

Cost of Living Adjustments – eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment – for valuation purposes, a 2.75% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2016 valuation and the calculation of the total pension liability at June 30, 2017 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2017 expected arithmetic returns over the long-term (20 years) by asset class, are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
<b>Global Equity</b>

**JUNE 30, 2018**

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

The following changes in actuarial assumptions have been made since the prior measurement date: inflation was changed from 2.75% - 2.5%; salary increases were changed from 3.5% - 13.5% to 3% - 13.5%; investment rate of return was changed from 7.5% to 7.0%; and mortality was changed from 97% (males) and 92% (females) of rates in the GRS table based on teacher experience projected with scale AA from 2000 to variants of the RP-2014 tables with MP-2016 projection scale.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The prior measurement date used a discount rate of 7.5%.

**Sensitivity of the Net Pension Asset to Changes in the Discount Rate** - The following presents the net pension asset calculated using the discount rate of 7.0 percent as well as what the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

1.00% Decrease (6.0%)	Current Discount Rate (7.0%)	1.00 Increase (8.0%)
\$1,436,522	\$2,100,264	\$2,594,403

**Pension Plan Fiduciary Net Position** - Detailed information about the pension plan’s fiduciary net position is available in the separately issued ERSRI financial report.

**C. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND PLANS**

**Defined Benefit Plans**

**General Information about the Pension Plan**

**Plan Description** - The Municipal Employees’ Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee’s Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at <http://www.ersri.org>.

**Benefits Provided** – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable. The Town of North Smithfield has only general employees and police officers that participate in the MERS Plan.

**Salary:** Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

**Service:** Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

**Final Average Compensation (FAC):** Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

Subsequent to June 30, 2015, litigation challenging the various pension reform measures enacted in previous years by the General Assembly (2009, 2010, and 2011) was settled. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly. These amended benefit provisions, which have been included in the determination of the total pension liability at the June 30, 2017 measurement date and are reflected in the summary of benefit provisions described below.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

**General Employees** - Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior retirement date, described below, and the retirement age applicable to members hired after June 30, 2012. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior retirement date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior retirement date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

**Police and Fire Employees** - Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior retirement date before age 52 may retire at age 52.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Active members on June 30, 2012 may choose to retire at their prior retirement date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012, benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC. The Town of North Smithfield has elected to participate in the 20-year retirement provision.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described above and one calculated based on a 2.25% multiplier for all years of service.

**Other Benefit Provisions** - Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

a.) The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

b.) Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

c.) The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (a) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017. The Town of North Smithfield has elected the optional cost-of-living provision for general employees and police officers.

**Employees Covered by Benefit Terms** - At the June 30, 2016 valuation date, the following employees were covered by the benefit terms:

	General Employees Plan	Police Officers Plan
Retirees and Beneficiaries Inactive, Nonretired	72	19
Members	71	1
Active Members	93	27
Total	236	47

**Contributions** - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 2% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 9.25%. Police officers are required to contribute 10% of their salaries. The Town of North Smithfield contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of North Smithfield contributed the following amounts in the year ended June 30, 2018: general employees plan - \$186,431 and police officers plan - \$331,340. The Town's contributions represented the following percentages of annual covered payroll: general employees plan - 4.58%; police officers plan - 20.33%.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

**Net Pension Liability** - The total pension liability was determined by actuarial valuations performed as of June 30, 2016 and rolled forward to June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement.

<b>Summary of Actuarial Assumptions Used in the Valuations to Determine the Net Pension Liability at the June 30, 2017 Measurement Date (June 30, 2016 valuation rolled forward to June 30, 2017)</b>	
Actuarial Cost Method	Entry Age Normal - The Individual Entry Age Actuarial Cost methodology is used.
Amortization Method	Level Percent of Payroll – Closed
Actuarial Assumptions:	
Investment Rate of Return	7.0%
Projected Salary Increases	General Employees - 3.50% to 7.50% ; Police Officers - 4.00% to 14.00%
Inflation	2.5%
Mortality	Variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.
Cost of Living Adjustments	A 2% COLA is assumed after January 1, 2014.

The actuarial assumptions used in the June 30, 2016 valuation rolled forward to June 30, 2017 and the calculation of the total pension liability at June 30, 2017 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2017 expected arithmetic returns over the long-term (20-years) by asset class are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
<b>Global Equity</b>		
US Equity	20.60%	6.85%
International Developed Equity	15.90%	6.71%
Emerging Markets Equity	3.50%	8.91%
<b>Private Growth</b>

<b>Crisis Protection Class</b>		
Treasury Duration	4.00%	0.83%
Systematic Trend	4.00%	3.81%
<b>Inflation Protection</b>		
Core Real Estate	3.60%	5.17%
Private Infrastructure	2.40%	5.57%

<b>Volatility Protection</b>		
IG Fixed Income	11.50%	2.12%
Absolute Return	6.50%	3.81%
Cash	3.00%	0.83%

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

The following changes in actuarial assumptions have been made since the prior measurement date: inflation was changed from 2.75% to 2.5%; investment rate of return was changed from 7.5% to 7.0%; and mortality was changed from 115% (males) and 95% (females) of RP-2000 combined healthy with white collar adjustments projected with scale AA from 2000 to variants of the RP-2014 tables with MP-2016 projection scale.

**Discount Rate** - The discount rate used to measure the total pension liability of the plans was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The prior measurement date used a discount rate of 7.5%.

**Defined Contribution Plan**

***Plan Description***

Certain general employees participating in the defined benefit plan, as described above, also participate in a defined contribution plan of the Employees' Retirement System as authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants.

Certain general employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on years of service. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Town of North Smithfield recognized pension expense of \$40,043 and employees contributed \$187,348 for the fiscal year ended June 30, 2018.

The System issues an annual financial report that includes financial statements and required supplementary information for plans administered by the System. The reports can be obtained at <http://www.ersri.org>.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

**NOTE 19 – TAX ABATEMENTS**

**Renewable Energy Systems** - The Town established in 2014 by ordinance a tax stabilization program for qualifying property that is used for renewable energy systems pursuant to Section 44-3-21 of Rhode Island General Laws. The purpose of the program is to encourage the development of cost-effective, domestically-produced renewable energy.

The Town Council has the authority to exempt from payment of personal property taxes, in whole or in part, or to stabilize the amount of personal property taxes on property that will be used exclusively for the production of renewable energy for sale beyond the property. The Town shall enter into a contractual agreement approved by the Town Council.

The Town had two taxpayers participating in the tax stabilization program in fiscal year 2018.

<u>Effective Date</u>	<u>Term</u>	<u>Tangible Property Abatement Granted Fiscal Year 2018</u>
12/1/2014	20 years	\$54,731
12/31/2016	20 years	\$65,746

As the result of a change in the Rhode Island General Laws, which changes how cities and towns tax “renewable energy resources and associated equipment” the Town amended in October 2017 the ordinance establishing the tax stabilization program described above. The two taxpayers that have an agreement with the Town under the prior ordinance would not be effected by the change and will continue to pay taxes under the existing stabilization agreements.

**Commercial Expansion and New Development** – The Town established in 2017 by ordinance a tax stabilization program to encourage and facilitate the expansion of the Town’s real property tax base through the expansion, re-development and rehabilitation of existing commercial property. The program does not apply to retail, residential or mixed use property. The Town Council may authorize, for a period not to exceed 10 years, to exempt from payment in whole or in part real and/or personal property used for manufacturing or commercial purposes or to determine a stabilized amount of taxes to be paid on such property, notwithstanding the valuation or the rate of tax. Applications shall be filed with the Town Administrator. The Town Council shall conduct a public hearing and after the public hearing make a determination to grant or deny the tax exemption or stabilization. The granting of the exemption or stabilization will inure to the benefit of the Town by reason of:

- a) The willingness of the manufacturing or commercial firm or concern to locate in Town;
- b) The willingness of the manufacturing or commercial firm or concern to expand facilities with an increase in employment; or
- c) The willingness of the manufacturing or commercial firm or concern to replace, reconstruct, expand or remodel existing buildings, facilities, fixtures, machinery or equipment with modern buildings, facilities, fixtures, machinery or equipment resulting in an increase in plant or commercial building investment by the firm or concern in the Town.

***TOWN OF NORTH SMITHFIELD, RHODE ISLAND***  
***NOTES TO FINANCIAL STATEMENTS***  
***JUNE 30, 2018***

The Town has one taxpayer participating in the tax stabilization program. A five-year tax stabilization agreement for tangible property was granted on March 19, 2018 and is not effective until the fiscal year 2020 tax bill.

**TOWN OF NORTH SMITHFIELD, RHODE ISLAND**  
**Notes to Required Supplementary Information**  
**June 30, 2018**  
**“Unaudited”**

**NOTE 1 – OPEB PLANS**

The actuarial methods and assumptions used to calculate the total OPEB liabilities are described in Note 15 to the financial statements.

The net OPEB liability amount presented for each fiscal year was determined as of the fiscal year-end.

The schedules are intended to present ten years of data. Additional years of data will be presented as they become available.

**Actuarially Determined Contributions:**

The following actuarial methods and assumptions were used to determine contribution amounts reported in that schedule:

- Actuarial cost method – Entry Age Normal
- Amortization method – Level percentage of payroll, closed
- Amortization period – 20 years
- Asset valuation method – market value
- Inflation – 3%
- Investment rate of return – 2.98%
- Salary increases – 3%
- Mortality – RP-2014 mortality table with MP-2016 projection
- Health care cost trend rate – 8% decreasing to an ultimate rate of 5%

**NOTE 2 – PENSION PLANS**

The actuarial methods and assumptions used to calculate the total pension liability (asset) are described in Note 16 A, B and C to the financial statements.

The net pension liability (asset) amounts presented for each fiscal year were determined as of the June 30 measurement date prior to the fiscal year-end.

The schedules are intended to present ten years of data. Additional years of data will be presented as they become available.

As part of the 2017 Actuarial Experience Investigation Study for the six-year period ending June 30, 2016 as approved by the System Board on May 15, 2017, certain assumptions were modified and reflected in the determination of the net pension liability (asset) at the June 30, 2017 measurement date. The following summarizes the more significant changes in assumptions:

- Decreased the general inflation assumption from 2.75% to 2.50%;
- Decreased the nominal investment return assumption from 7.50% to 7.00%;
- Decreased the general wage growth assumption from 3.25% to 3.00%;
- Decreased salary increase assumptions; and
- Updated the post-retirement mortality tables to variants of the RP-2014 table. For the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

**Actuarially Determined Contributions:**

Actuarially determined contribution rates are calculated as of June 30 of each plan year and effective 2 years after the actuarial valuation. The following actuarial methods and assumptions were used to determine contribution amounts reported in that schedule:

- Actuarial cost method – Entry Age Normal
- Amortization method - Level percentage of payroll, closed
- Remaining amortization period - 20 years
- Asset valuation method – 5-year smoothed market
- Inflation – 2.75%
- Investment return - 7.50%
- Salary increases –3.50% to 13.50% for teachers; 3.50% to 7.50% for general employees; 4% to 14% for police and fire employees.
- Retirement age – Experienced-based table of rates that are specific to the type of eligibility condition.
- Mortality – Males, General, Police and Fire Employees – 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000.
- Mortality – Females, General, Police and Fire Employees – 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000.
- Mortality – Males and Females, Teachers – 97% and 92%, respectively, of rates in GRS table based on male and female teacher experience, projected with Scale AA from 2000.

Employers participating in the Employees’ Retirement System are required by RI General Laws, Section 36-10-2, to contribute an actuarially determined contribution rate each year. Employers participating in the Teachers’ Survivors Benefit Plan contribute at a rate established by RI General Laws, 16-16-35. Employers participating in the Municipal Employees’ Retirement System are required by RI General Laws, Section 45-21-42, to contribute an actuarially determined contribution rate each year.

**NOTE 3 - BUDGETARY DATA AND BUDGETARY COMPLIANCE**

The Town Charter provides that the Administrator, with the Town Budget Committee, must submit a proposed operating budget, capital budget and a budget message containing an explanation of proposed financial policies and the important features of the budget plan to the Town Council by the third Monday in March. The budget must reflect all anticipated revenues and proposed expenditures and the proposed expenditures cannot exceed anticipated revenues. The budget is presented to the public on the third Monday in May at a public hearing. The Town Council may revise the budget, but the final adoption of the budget shall be voted no later than June 30th. The Town Charter requires annual budgets for the General Fund and School Unrestricted Fund.

Reportable Government Services with  
MTP2 Notes  
Fiscal Year Ended June 30, 2018

Notes to Supplementary Information – *Annual Supplemental Transparency Report (MTP2)*

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the annual financial statements is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department - police officers (e.g., uniform personnel - including, leadership positions)
- Fire Department - fire fighters (e.g., uniform personnel - including, leadership positions)
- Centralized Dispatch Department - civilian dispatchers only
- Education Department - professional staff providing direct services to students
- For the remaining departments - all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>.

***REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS***

***Independent Auditor's Report***

To the Honorable President and  
Members of the Town Council  
North Smithfield, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Smithfield, Rhode Island as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of North Smithfield, Rhode Island's basic financial statements, and have issued our report thereon dated December 20, 2018.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Town of North Smithfield, Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of North Smithfield, Rhode Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of North Smithfield, Rhode Island's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town of North Smithfield, Rhode Island's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2018-001.

### **Town of North Smithfield, Rhode Island's Response to Findings**

The Town of North Smithfield, Rhode Island's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town of North Smithfield, Rhode Island's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL  
PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE***

***Independent Auditor's Report***

To the Honorable President and  
Members of the Town Council  
Town of North Smithfield, Rhode Island

***Report on Compliance for Each Major Federal Program***

We have audited the Town of North Smithfield, Rhode Island's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of North Smithfield, Rhode Island's major federal programs for the year ended June 30, 2018. The Town of North Smithfield, Rhode Island's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the Town of North Smithfield, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of North Smithfield, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of North Smithfield, Rhode Island's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the Town of North Smithfield, Rhode Island complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

### ***Report on Internal Control Over Compliance***

Management of the Town of North Smithfield, Rhode Island is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of North Smithfield, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of North Smithfield, Rhode Island's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

*For the Fiscal Year Ended June 30, 2018*

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**FINDING OF NONCOMPLIANCE**

***2018-001 Levy and Assessment of Taxes***

**Criteria:** *Rhode Island General Law 44-5-1* states that the electors of any town qualified to vote on any proposition to impose a tax or for the expenditure of money, when legally assembled, may levy a tax for the purpose authorized by law, on the ratable property of the Town, either in a sum certain, or in a sum not less than a certain sum and not more than a certain sum.

**Condition:** The Town of North Smithfield approved a resolution that levied and ordered the assessment and collection of taxes for the 2018 fiscal year for a sum between \$34,325,000 and \$34,375,000. The actual tax levy was \$33,897,089 and is not within the range approved by the Town Council. The Town is not in compliance with *Rhode Island General Law 44-5-1*.

**Cause:** The State budget which included a change to the motor vehicle phase out exemption amount was enacted after the Town's budget and tax levy resolution were approved. The Town delayed the levy of the motor vehicle tax to incorporate the changes enacted in the State budget. The State approved motor vehicle phase out exemption resulted in a lower motor vehicle tax levy than was initially approved, but the Town did not amend the tax levy resolution for the change.

**Recommendation:** We recommend that the Town verify the actual tax levy is within the range stated in the tax levy resolution once the levy is certified to ensure compliance with *Rhode Island General Law 44-5-1*.

**Views of Responsible Officials/Corrective Actions:** The final adoption of the Fiscal Year 2018 budget was on 7/17/17 with a levy of \$34,349,827. At that time, the Town decided to only certify Real Estate, Commercial and Tangible and hold Motor Vehicle until the legislation passed. The Tax Assessor certified the tax roll on 7/24/17 in the amount of \$30,133,257 which excluded the motor vehicle levy in the amount of \$4,215,266. The State filed Article 11 which changed the method of motor vehicle assessment for municipalities on 8/3/17. The Tax Assessor ran the tax roll using the new method and at that time the Motor Vehicle levy was certified at \$3,763,831 which is a difference of \$451,435. The amount was supplemented from the State as a Motor Vehicle Phase Out revenue.

## **TOWN OF NORTH SMITHFIELD, RHODE ISLAND**

*Notes to Schedule of Expenditures of Federal Awards*

*For the Fiscal Year Ended June 30, 2018*

### **NOTE 1 – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the Town of North Smithfield, Rhode Island under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of North Smithfield, Rhode Island, it is not intended to and does not present the financial position, changes in financial position, or cash flows of the Town of North Smithfield, Rhode Island.

### **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, or the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

### **NOTE 3 – INDIRECT COST RATE**

The Town of North Smithfield, Rhode Island has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.
