INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the Town Council
Town of North Providence, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Providence, Rhode Island as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town of North Providence, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Providence, Rhode Island, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the required schedules related to pension plans, and OPEB Plans on Pages 4 through 11, Pages 80 through 84, Pages 85 through 95, and Page 96 through 99, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Providence, Rhode Island's financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedule of property taxes receivable, annual supplemental transparency report (MTP2), and combining schedule of reportable governmental services with reconciliation to MTP2 municipal and education department are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform of Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the financial statements.

Other Matters (Continued)

Other Information (Continued)

The combining and individual nonmajor fund financial statements, schedule of property taxes receivable, annual supplemental transparency report (MTP2), combining schedule of reportable governmental services with reconciliation to MTP2 municipal and education department, and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of property taxes receivable, annual supplemental transparency report (MTP2), combining schedule of reportable governmental services with reconciliation to MTP2 municipal and education department, and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2020, on our consideration of the Town of North Providence, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of North Providence, Rhode Island's internal control over financial reporting and compliance.

Prior Year Comparative Information

The financial statements include partial prior-year comparative information for the proprietary funds. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Town of North Providence, Rhode Island's financial statements for the year ended June 30, 2018, from which the partial information was derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2019

As management of the Town of North Providence (the Town), we offer readers of the financial statements of the Town of North Providence this narrative overview and analysis of financial activities of the Town for the fiscal year ended June 30, 2019.

Financial Highlights

- For the year ended June 30, 2019, the government-wide Statement of Activities reports a decrease of \$6,252,308 in Net Position.
- As of year-end June 30, 2019, the Town's General Fund had a total fund balance of \$13,935,895. This is an increase of \$295,975 over last year's total fund balance of \$13,639,920.
- As of June 30, 2019 the School's Unrestricted Fund Balance had a total fund balance of \$270,561. This is a decrease of \$744,704 over last year's total fund balance of \$1,015,265.
- The Town has one Business-Type Fund, the School Cafeteria Fund. At June 30, 2019, this fund had an overall net position of \$114,991.
- On the budgetary basis of accounting, the Town's General Fund reported an excess of revenues and other financing sources over expenditures and other financing uses of \$295,975. The School Unrestricted Fund reported a deficiency of revenues and other financing sources over expenditures and other financing uses of (\$402,678) utilizing the budgetary basis of accounting.
- The Town has ended fiscal year 2019 with its tenth consecutive year of an operating surplus.

Overview of the Financial Statements

This management discussion and analysis is intended to serve as an introduction of the basic financial statements of the Town. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements.

The basic financial statements and other supplementary financial information of the Town provide information about all the Governments' activities. Such information provides both a short-term and a long-term view of the financial health of the Town as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements

Government-wide financial statements are designed to provide readers with a broad overview of the finances of the Town, in a manner which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information showing how the net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items

that will only result in cash flows in the future fiscal periods (e.g. uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the Town which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government and administration, public safety, education, development services, cultural and recreational services.

The government-wide financial statements are reported on Pages 12 and 13.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than that of the government-wide financial statements; accordingly, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, School Unrestricted Fund (Special Revenue Fund), Debt Service Fund, and Federal Forfeiture Fund which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental funds statements are presented on Pages 14 through 17.

Proprietary Funds

The proprietary funds of the Town are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has only one proprietary fund, this being an enterprise fund, the North Providence School Cafeteria Fund. This fund operates as a federally mandated school food service system which services all students including those students that qualify for “free or reduced” meals on a for profit basis.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The North Providence School Cafeteria fund, which is not a major fund, is presented in the proprietary funds.

The basic proprietary fund financial statements are presented on Pages 18 through 20.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the programs of the Town. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements are presented on Pages 21 through 22.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on Pages 23 through 79.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the operations of the Town. Required Supplementary information is presented on Pages 80 through 99.

The combining statements referred to earlier in connection with non-major governmental funds, and fiduciary funds (Agency Funds) (as applicable) are presented on Pages 100 through 107.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. In the case of the Town, its Net Position decreased for the year ended June 30, 2019, by \$6,252,308.

The largest portions of the net position of the Town consists of investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets still outstanding and net position restricted for use by the U.S. Department of Justice. The Town uses capital assets to provide services to its citizens. Consequently, these assets are not available for future spending.

Although the investment of the Town in capital assets is reported net of related debt, it should be noted that the resources needed to pay this debt must be provided from other sources, since the capital assets themselves are highly unlikely to be used to liquidate such liabilities.

Financial Analysis of Town Funds

As noted earlier, the Town of North Providence uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the Town’s governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the net resources available for spending at the end of the fiscal year.

As of June 30, 2019, the governmental funds reported a combined ending fund balance of \$35,442,284. Unassigned fund balance amounted to \$10,382,602 with non-spendable fund balance of \$451,723, committed fund balance of \$4,447,210, and restricted fund balance of \$20,160,749.

The General Fund is the operating fund of the Town. For the year ended June 30, 2019 the General Fund of the Town reported an increase in fund balance of \$295,975. As of June 30, 2019, the cumulative surplus fund balance in the General Fund was \$13,935,895. The unassigned portion of the fund balance/cumulative surplus as of June 30, 2019 was \$10,578,046 which represents approximately 10.6% of the fiscal 2019 budget.

The School Unrestricted Fund (School General Fund) had an operating deficit of \$744,704 for the fiscal year ended June 30, 2019. At June 30, 2019, the fund balance of the School Unrestricted Fund totaled \$270,561, or .5% of the School’s fiscal 2019 operating budget.

Proprietary Funds

The proprietary fund statements provide the same type of information as presented in the government-wide financial statements, but in more detail. Total net position of the proprietary fund is \$114,991 at June 30, 2019.

General Fund Budgetary Highlights

Total revenues in the General Fund of the Town exceeded budgeted revenues by \$3,894,485 for the year ended June 30, 2019. The most significant favorable revenue variances were in the collection of property taxes, State Aid, and departmental revenue. Total expenditures in the General Fund of the Town were more than the budget by \$2,206,350 for the year ended June 30, 2019. The most significant unfavorable expenditure variances were in Public Buildings, Public Safety, and contingent land acquisition. The excess of revenues and other financing sources over expenditures and other financing uses on a budgetary basis of accounting in the Town’s General Fund was \$295,975 for the year ended June 30, 2019.

Total revenues in the School Unrestricted Fund exceeded budget by \$39,649 for the year ended June 30, 2019. Total expenditures in the School Unrestricted Fund was more than budget by \$443,327. On a budgetary basis of accounting the School Unrestricted Fund had an operating deficit of \$403,678 for fiscal 2019. In accordance with GAAP basis of accounting this deficit was \$744,704. The difference between the GAAP basis deficit and budget basis deficit of the School Unrestricted Fund was \$341,026 and was the result of the School Department utilizing fund balance reserves to cover the cost of mold remediation in one of the schools.

Capital Assets and Debt and Administration

Capital Assets

The Town's investment in capital assets for its governmental and business-type activities amounts to approximately \$148,405,339 net of accumulated depreciation at June 30, 2019. Included are land, land improvements, building and improvements, vehicles, equipment, furniture and fixtures, and infrastructure. Information on the capital assets can be found in Note 7, Page 41.

Subsequent to June 30, 2019, the Town completed building the new Public Safety Complex. The final total cost of this project was approximately \$30,845,600 and funded utilizing federal forfeiture funds.

The School Department received "Approval of Necessity of School Construction" from the State of Rhode Island's Council on Elementary and Secondary Education on May 17, 2016 for School construction projects totaling \$73,509,339. Accordingly, the cost of construction, which includes debt service, will qualify for approximately 54% reimbursement from the State of Rhode Island through their Housing Aid Program. The funding for this project will be through the sale of bonds which were overwhelmingly approved by the voters in a Bond Referendum held on November 8, 2016. The Town issued \$36,655,000 in Bonds through RI Health Educational & Building Corporation (RIHEBC) in August 2017, and received net proceeds of \$40,998,070. The Town issued the remaining \$30,045,000 Bonds through RI Health Educational & Building Corporation (RIHEBC) in April 2019, and received net proceeds of \$34,867,292.

Long Term Debt

As of June 30, 2019, the Town had total bonded debt (net of bond premium) of \$74,351,000. Of this amount, 100% comprises bonded debt backed by the full faith and credit of the government. In addition to the bonded debt, the Town has direct borrowings and direct placements outstanding in the amount of \$1,826,366 at June 30, 2019.

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds (Exhibit B-2) to the Statement of Activities (Exhibit A-2)
Year Ended June 30, 2019**

Net Change in Fund Balances - Total Governmental Funds (Exhibit B-2):	\$ (32,098,862)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	71,354,459
Proceeds from issuance of long-term debt and premium is reported as an other financing source in the Fund Statements. However these proceeds are reported as long-term obligations in the Government-wide statements.	(34,867,292)
Governmental funds report principal repayments on debt obligations as an expenditure. However, the repayment of principal has no effect on the net position.	1,776,957
Changes in the Net Pension Asset, Deferred Outflows of Resources related to pension plans, Net Pension Liability, and Deferred Inflows of Resources related to pension plans results in an increase or decrease to the pension expense reported in the Statement of Activities. For fiscal 2019 the effect of these adjustments resulted in an increase in the pension expense reported in the Statement of Activities as compared to the fund statements.	(9,417,970)
Governmental funds do not report estimated accrued IBNR claims as a liability in the Fund Statements if they are not going to be paid with current available resources. These liabilities are reported in the government-wide financial statements as long-term debt. This adjustment reflects the increase in the estimate from the amount reported at June 30, 2018.	(12,604)
Revenues, net of an allowance, in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds. Unavailable tax and other revenue decreased from fiscal 2018.	(3,045,889)
Accrued interest on debt obligations is not recorded in the governmental funds as it will not be paid with current measurable and available resources. The change in accrued interest is reported in the government-wide statement of activities. This is the increase in the accrual for the year ended June 30, 2019 versus June 30, 2018.	(303,000)
Net OPEB Liability and related deferred inflows and outflows of resources are reported in the government-wide statement of activities but have no effect on the activity reported in the governmental funds. For fiscal 2019 the effect of the OPEB Liability and related components resulted in an increase in OPEB expense reported in the Government-Wide Statement of Activities as compared to the fund statements.	(191,208)
Premium on bond issuance is reported as revenue in the fund statements when it is received. However, the premium is recorded as a component of long-term debt in the government-wide statements and amortized over the life of the bond issuance. This is the amount bond premium amortized and which is recorded as a reduction of interest expense in the government-wide statement of activities.	271,604
Decrease in compensated absences. The governmental fund reflects this activity when it will be paid with measurable and available resources. The change from prior year balances is reflected in the statement of activities and changes in net position.	<u>262,576</u>

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town complies with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Reporting Entity

The Town of North Providence was incorporated in 1765. The Town operates under a Council/Mayor form of government, with a seven member Town Council headed by a Council President.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- a. The primary government is legally entitled to or can otherwise access the organization's resources.
- b. The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- c. The primary government is obligated in some manner for the debt of the organization.

The financial statements include the North Providence Education Foundation and the North Providence Senior Center Association (501(C)3 entities) as blended component units which are reported as non-major Special Revenue Funds.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities report information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grant and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Basis of Presentation (Continued)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, deferred outflow of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements. A fund is considered a major fund if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type,

and

- (b) Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Debt Service Funds

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds are used to report resources if legally mandated.

Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Governmental Funds (Continued)

Permanent Funds

The Permanent Funds account for assets held by the Town pursuant to trust agreements. The principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund. The Town does not currently maintain any Permanent Funds.

Proprietary Funds

Proprietary funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The Proprietary Funds include both Enterprise and Internal Service Funds. The Town currently has one Enterprise Fund and no Internal Service Funds.

Fiduciary Funds (Not included in government wide statements)

Agency Funds

Agency funds account for assets held by the Town in a purely custodial capacity. The reporting entity includes eight agency funds at June 30, 2019. Agency funds are custodial in nature (i.e. assets equal liabilities), and do not involve the measurement of results of operations. The agency funds are as follows:

- Seized Property
- Animal Care Donations
- Food Pantry Fund
- Realty Tax Transfer Account
- Student Activities Fund (comprised of 15 Student Activity accounts)
- Low Cost Spay/Neuter
- Animal Care Adoptions
- Performance Bond Fund

Private-Purpose Trust Funds

Private-Purpose trust funds are used to account for resources legally held in trust for use by parties outside of the Town, and cannot be used at the Town's discretion or to support the Town's general operations. The reporting entity currently does not have any funds that meet the definition of a private-purpose trust fund.

Pension and Other Post Employment Benefit Trust Funds (OPEB)

Pension and Other Post Employment Benefit (OPEB) Trust Funds are used to account for resources legally held in trust for use for payment of pension and OPEB benefits, and cannot be used at the Town's discretion or to support the Town's general operations. The reporting entity has two such trust funds, Police Pension Trust Fund, and OPEB Trust Fund. These funds are used to account for the activity and balances of funds restricted for the future retirement benefits of public safety personnel and OPEB benefits for all Town personnel.

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Brief Description</u>
Major:	
General Fund:	See above for description.
Special Revenue Funds:	
School Unrestricted Fund	This fund is used to report all financial transactions of the North Providence School Department, which are not legally required to be accounted for separately.
Federal Forfeiture Fund	This fund is used to report all the financial transactions of the Town of North Providence relative to funding received from the Department of Justice from federal seizures. The funding is restricted for expenditures relative to the Police Department operations.
Capital Project Fund:	
School Bond Fund	This fund is used to report all the financial transactions of the Town of North Providence relative to construction of new schools and improvements to existing school buildings.
Proprietary Funds:	
School Cafeteria	Accounts for the operations of the school breakfast and lunch programs of the North Providence School Department. <i>(This fund did not meet the definition for classification as a major fund. However, management has elected to present the fund as a major fund.)</i>
Non-Major:	
Special Revenue Funds:	The Town of North Providence currently maintains thirty-five (35) Special Revenue Funds which are considered to be non-major governmental funds. The School Restricted Funds is comprised of 16 individual Special Revenue Funds. The details of the Special Revenue Funds can be found in the combining fund exhibits located in supplementary information.
Capital Project Funds:	The Town of North Providence currently maintains four (4) Capital Project Funds which have been classified as non-major governmental funds. The details of these funds can be found in the combining fund exhibits located in supplementary information.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below and the accrual basis of accounting.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- (a) All governmental funds utilize a "current financial resources" measurement focus and the modified accrual basis of accounting. Only current financial assets, deferred outflow of resources, liabilities, and deferred inflow of resources are generally included on their balance sheets. Operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes, State PILOT revenue, Telephone Tax revenue, and other miscellaneous revenue from the State of Rhode Island as available if they are collected within 60 days after year end. Grant revenue of the governmental funds is generally recognized as revenue when earned as long as the payment is expected to be received within twelve months after fiscal year end. Substantially all other revenue of the governmental funds is recognized utilizing the modified accrual method of accounting and as such is recognized as revenue when received.
- (b) The proprietary funds and pension and OPEB trust funds utilize "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position, and cash flows. All assets, deferred outflow of resources, liabilities (whether current or noncurrent), and deferred inflow of resources associated with their activities are reported. Fund equity is classified as net position.
- (c) Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflow of resources, liabilities, and deferred inflow of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, agency funds, pension and OPEB trust funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used.

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Amounts reported as program revenues include charges to customers or applicants for licenses, fees, goods, services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal operation. The principal operating revenues of the enterprise funds are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise funds include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as nonoperating revenues and expenses.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance
Cash and Cash Equivalents

Cash equivalents include all highly liquid investments with an original maturity of three months or less when purchased. Substantially, all of the Town's cash and cash equivalents are held in public deposit institutions. Under Rhode Island general laws, depository institutions must insure deposits of municipalities or pledge eligible collateral equal to 100% of deposits maturing in greater than 60 days. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of the date of maturity. At times, the Town pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

State statutes and the Town charter authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, and repurchase agreements.

Investments

The Town invests in various types of investments, which are stated at fair value based on quoted market prices.

Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts receivable amounted to approximately \$5,753,200 at June 30, 2019. The allowance for uncollectible accounts includes approximately \$4,000,000 for property taxes, \$735,900 for tax lien property, \$132,000 for municipal court fines, and \$885,300 for EMS rescue billing. Major receivable balances for the governmental activities include property taxes (approximately 78% of the net receivable balance at June 30, 2019).

In the fund financial statements, receivables in governmental funds include revenue accruals such as property taxes, EMS billings, municipal court, police details, and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are reported as unearned revenue in the fund financial statements in accordance with modified accrual, but not reported as unearned in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance (Continued)

Property Taxes

Real and personal property taxes are based on values assessed as of each December 31 (lien date) and attach as an enforceable lien on property as of August 1 (levy date). Assessed values are established by the Tax Assessor's Office and are currently calculated at 100% of the value. Taxes are due in equal quarterly installments on August 1, November 1, February 1, and May 1 following the levy date or taxes may be payable by a 10 month payment plan starting in September and lasting through June. Taxes due and unpaid after the respective due dates are subject to interest at a rate of 12% per annum calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of the levy. Property tax revenues are recorded in accordance with the modified accrual basis of accounting in the fund financial statements.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid assets. Prepays recorded in governmental type funds do not reflect current appropriated resources and, thus, an equivalent portion of the fund balance is reported as nonspendable fund balance.

Capital Assets

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements as discussed below.

Government-Wide Statements

In the government-wide financial statements, all capital assets are valued at historical cost, or estimated historical cost if actual cost is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.

The Town has adopted a formal capitalization policy which defined capital assets as assets with an estimated useful life in excess of one year and a cost basis of \$5,000 or more, except for land acquisitions which are recorded as capital assets regardless of the cost.

The government-wide financial statements include all infrastructure assets in accordance with GASB Statement #34.

Depreciation of all exhaustible capital assets is recorded, as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the estimated useful life using the straight-line method of depreciation.

Capital Assets (Continued)

Government-Wide Statements (Continued)

The estimated useful lives by type of asset is as follows:

Land Improvements	20 years
Buildings and improvements	20 to 100 years
Equipment, Furniture, and Fixtures	3 to 20 years
Vehicles	3 to 20 years
Infrastructure	20 to 50 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for in the same manner as in the government-wide statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period which will not be recognized as an outflow of resources (expense/expenditure) until that later date. At June 30, 2019 the Town of North Providence, Rhode Island had items qualifying as deferred outflows of resources in the government-wide statement of net position related to the pension and OPEB plans. These deferred outflow of resources related to pension and OPEB plans are deferred and included as a component of pension/OPEB expense in future periods using a systematic and rational manner.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. Deferred inflows of resources represents the acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until a later date. At June 30, 2019 the Town of North Providence, Rhode Island had one item qualifying as a deferred inflow of resources in the governmental funds balance sheet and items reported in the government-wide statement of net position related to pension and OPEB plans. Unavailable revenue – property taxes, EMS, Fines etc. reported in the fund statements represents property taxes receivables which are assessed on December 31, 2017 and prior and are not collected within 60 days of June 30, 2019 as well as fees for rescue services and fines billed but deemed unavailable at year end. The deferred inflows of resources reported on the government-wide financial statements are related to pension and OPEB plan reporting requirements in accordance with GASB Statement #68 and #75, respectively. These deferred inflows consisted of the difference between actual and expected experience; difference between projected & actual earnings; and changes in assumptions. These deferred inflows related to pension and OPEB plans are deferred and included in pension/OPEB expense in future periods using a systematic and rational manner.

Interfund Transactions

Interfund activity within and among the funds of the Town have been classified and reported as follows:

- Reciprocal interfund activities:
 - Interfund loans are reported as interfund receivables in the lending fund and interfund payables in borrower funds.
 - Interfund services are reported as revenues in the seller fund and as expenditures or expenses in the purchasing fund.

- Non-reciprocal interfund activities:
 - Interfund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds transfers are reported after nonoperating revenues and expenses.
 - Interfund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.

Net Position

Net position is classified in three components:

- (a) Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- (b) Restricted net position - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

- (c) Unrestricted net position – All remaining net position that does not meet the definition of "restricted" or "net investment in capital assets". A deficit would require future funding.

Fund Balance

In accordance with GASB Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions* fund balance is classified as nonspendable, restricted, committed, assigned, or unassigned. These categories are defined below:

Fund Balance (Continued)

- (a) Non-spendable Fund Balance – Amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- (b) Restricted Fund Balance – Amounts that are restricted to specific purposes. Amounts are reported as restricted when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislature.
- (c) Committed Fund Balance – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specific use by taking the same type of action it employed to previously commit those amounts. The highest level of decision-making authority for the Town of North Providence is the Town Council. The Town Council passes Town Ordinances to establish committed fund balance.
- (d) Assigned Fund Balance – Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the governing body itself or (2) a body (a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. The Town currently does not have a policy defining who has the ability to assign fund balance.
- (e) Unassigned Fund Balance – is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that should report a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may need to report a negative unassigned fund balance.

Application of Funds

Expenditures may be incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) amounts are available. Composition of the ending fund balance will be determined by applying the following: In those instances where restricted and unrestricted amounts are available, restricted amounts will be considered to have been spent first [as allowed and in compliance with stated and specified terms or requirements], followed by committed amounts, followed by assigned amounts, and then unassigned amounts.

Compensated Absences

Employees are granted vacation and sick leave in varying amounts. Upon retirement, termination or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay. The amount recorded is the unused days earned at the current rate of pay. Compensated absences are accrued at varying amounts based on the collective bargaining unit contracts of the various unions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reconciliation of Government-wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$145,664,717 are as follows:

Bonds & notes payable, including bond premium....	\$ 85,222,610
Accrued IBNR claims.....	559,945
Net OPEB liability	52,807,557
Compensated absences.....	7,074,605

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$71,354,459 difference are as follows:

Capital outlays capitalized Government-wide	\$73,463,298
Depreciation expense.....	<u>(2,108,839)</u>
Net adjustment – increase net position	<u>\$71,354,459</u>

Another element of that reconciliation states that, “Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds.” The details of this (\$3,045,889) difference are as follows:

Unavailable revenue - ending.....	\$ 4,926,649
Unavailable revenue – beginning.....	<u>(7,972,538)</u>
Net adjustment –decrease net position	<u>(\$ 3,045,889)</u>

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

For purposes of measuring the net pension liability, net pension asset, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town of North Providence, Rhode Island's various pension plans (described in more detail in Note 12) and additions to/deductions from the pension plans fiduciary net position have been determined on the same basis as they have been reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Town of North Providence's OPEB Trust Fund and additions to/subtractions from the OPEB Trust Fund's fiduciary net position have been determined on the same basis as they are reported by the Trust Fund. For this purpose, the OPEB Trust Fund recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments that have a maturity at the time of purchase of one year or less, which are reported at original cost.

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services (example - outstanding unfilled purchase orders). Encumbrance accounting is utilized by the Town's General Fund to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances are reported as expenditures for budgetary purposes but are not reported as expenditures in accordance with GAAP. At June 30, 2019 and 2018, the Town did not have any encumbrances outstanding.

Comparative Information

The financial statements include partial prior year comparative information. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Town of North Providence, Rhode Island's financial statements for the year ended June 30, 2018 from which the partial information was derived

2. BUDGETARY PROCESS

(a) Adoption

In accordance with the North Providence Legislative Charter, the Town has formally established budgetary accounting control for its General Fund and the School Unrestricted Fund. The annual operating budget for the General Fund is subject to adoption by the Town Council. The School Unrestricted Fund is subject to an annual operating budget approved by the School Committee and adopted by the Town Council. The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. Appropriations, which are not expended lapse at year end. The Town's General Fund and School Unrestricted Fund operating budgets are in conformance with generally accepted accounting principles and the budget to actual presentations reflect the same basis of accounting.

Amendments to the operating budget that do not result in additional appropriations may be made within departments by means of a transfer. The Mayor has authority to make such transfers within departments. Any other transfers made outside the department level during the fiscal year require Town Council approval. The level on which all budgeted funds may not legally exceed appropriations is at the departmental level.

3. CASH AND INVESTMENTS

The State of Rhode Island requires, that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its Federal regulator must be collateralized.

Deposits

The carrying amount of the Town's cash and cash equivalents at June 30, 2019 was \$32,041,800 (including Fiduciary Funds of \$1,924,396) while the financial institution balance was approximately \$33,283,700. Of the balance maintained at the financial institutions, approximately \$7,403,000 was covered by federal depository insurance, \$855,769 was maintained at an investment brokerage firm and was uninsured, while the remaining amount was collateralized. The deposits noted above do not include cash held in escrow at June 30, 2019, totaling \$24,616,429, which represent proceeds from School Bond issues which had not been requested as of June 30, 2019.

Investments

Investments of all idle funds shall be made through national banks or trust companies, providing that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution shall not exceed 5% of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments will be made as would be done by prudent persons of discretion and intelligence in such matters who are seeking a reasonable rate of return and preservation of capital.

3. CASH AND INVESTMENTS (Continued)

Interest Rate Risk

The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools. The investments noted above do not specify a rate of return rather the rate of return is dependent on operating results and economic conditions.

Concentration of Credit Risk

At June 30, 2019, the Town had a diversified portfolio and was not deemed to be concentrated in any one investment category. Although virtually all of the investments are held in common stock and mutual funds, these investments were in a wide range of companies and various industries enabling the Town to minimize its risk.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of financial institution failure, the Town's deposits and/or investments may not be returned. The Town does not believe that it has a significant custodial credit risk as substantially all investments securities are registered and held in the name of the Town. Additionally, the Town places deposits in financial institutions that are FDIC insured up to \$250,000, rated "well capitalized" on its most recent audited financial statement/SEC filings if deposits exceed \$250,000, and if the capital ratios are currently acceptable but appear to be in jeopardy, the Town will engage an outside rating agency to determine status of the institution. The Town also ensures that all uninsured deposits greater than \$250,000 are collateralized.

Credit Risk

Generally credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation and the Town will not be able to recover the value of its investment or collateral securities possessed by another party. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk exposure. At June 30, 2019, the Town's investments included investments in corporate and municipal bonds totaling \$4,688,105, which are subject to credit risk of the issuing entity.

4. PROPERTY TAXES

During the year ended June 30, 2019, the Town received \$2,662,883, from the State of Rhode Island as payment in accordance with legislation regarding the phase-out of motor vehicle tax. Under the law, excise tax on motor vehicles and trailers were originally supposed to be phased out entirely over a seven-year period commencing with the 1999-2000 fiscal year. Based on fiscal problems with the State budget over the last few years the program has been reduced to a maximum exemption of \$6,000 as of June 30, 2007 in accordance with legislation passed as part of the State's budget for the fiscal year ended June 30, 2007. The phase-out program freezes the tax rate at \$41.95 which was the rate in fiscal year 1997-1998. The exemption remained at \$6,000 per vehicle for the 2007-2008, 2008-2009, and 2009-2010 fiscal years. During fiscal 2010 the State reduced the reimbursement amount for the 3rd and 4th quarters of the fiscal year. Effective July 1, 2010 the State reduced the exemption amount to \$500 per vehicle however the Town was required to maintain the rate frozen at \$41.95.

4. PROPERTY TAXES (Continued)

During fiscal 2018, the State of Rhode Island passed legislation to reinstate that motor vehicle phase-out program. The details of the motor vehicle phase-out program are covered under Rhode Island General Laws 44-34.1-1 and 44-34.1-2. In summary, for fiscal 2018 municipalities shall provide an exemption equal to the greater of \$1,000 or the exemption which the municipality was providing in fiscal 2017. This exemption increases by \$1,000 per year commencing in fiscal 2019 through fiscal 2023 when the exemption will be equal to \$6,000. Effective with fiscal 2024 and thereafter, no tax may be levied on motor vehicles. In addition, the tax rate on motor vehicles may not exceed the rate which was in effect for fiscal 2017 and shall not exceed the following per thousand of assessed value: \$60 for fiscal 2018; \$50 fiscal 2019; \$35 fiscal 2020 and 2021; \$30 for fiscal 2022; and \$20 fiscal 2023. The maximum taxable value of the motor vehicle must be at the percentages prescribed in Rhode General Law 44-34-11. The percent in effect for fiscal 2018 was 95%. This percentage is reduced by 5% annually commencing with fiscal 2019 through fiscal 2023 when the percentage would be 70%. The Town's fiscal 2018, baseline for reimbursement was calculated as the motor vehicle and trailer excise tax levy that would be generated by applying the fiscal 2017, motor vehicle and trailer excise tax calculation methodology to the assessed value of motor vehicles and trailers as of fiscal 2018. The amount of the reimbursement received was the difference between the fiscal 2018, baseline and the certified levy as confirmed by the Rhode Island Department of Revenue.

An automatic lien is placed on the taxpayer's property if payment has not been received by the due date. Interest is charged on past due accounts at a rate of 12% per annum calculated on the unpaid portion of the total tax. The Town does not record interest on delinquent taxes until payment is received.

Net property taxes levied for fiscal year 2019 were based on a net assessed value of approximately \$2,335,579,300 at December 31, 2017, and amounted to approximately \$69,574,000. Collections on this assessment through June 30, 2019, amounted to approximately \$67,978,700, which represents approximately 97.7% of the total tax levy. The collection percentage including the 60 day rule receipts and less abatements and adjustments was approximately 98.6% for fiscal 2019.

The Town recognizes property tax revenues in accordance with generally accepted accounting principles on the Fund statements. Unpaid property taxes as of June 30, 2019 (\$2,702,640) are recorded as a receivable, net of an allowance for uncollectible property taxes of \$4,000,000. Those net property taxes receivable which were not collected within the 60 days immediately following June 30, 2019 are recorded as unavailable revenue and amounted to \$1,987,170 at June 30, 2019. Property taxes recognized as revenue on the Fund statements for the fiscal year ended June 30, 2019 (due to their collection within the 60 days immediately following June 30, 2019) amounted to \$715,470.

5. ABATEMENTS – TAX TREATY AGREEMENTS

The Town of North Providence may, from time to time, enter into tax abatement agreements (tax treaty agreements) with local businesses in accordance with provisions of Rhode Island Public Laws, 1960, Chapter 7, Section 44-3-9, and various provisions of the General Laws of the State of Rhode Island. In accordance with the applicable Public Law and the General Laws of the State of Rhode Island, the Town may enter into tax treaty agreements which provide exemption or stabilization of taxes as a means to induce businesses to locate to the Town. These agreements are considered to be in the best public interest of the Town as they provide incentives for businesses to locate, maintain, or expand business in the Town which will result an increase in the tax base of the Town, provide increased tax revenue, enhance property values in Town, help the overall economic climate of the Town, and in some instances, create employment opportunity for the residents of the Town. As of June 30, 2019, the Town of North Providence maintained two tax treaty/tax abatement agreements in accordance with Town Ordinances establishing Article V of Chapter 32 of the Code of Ordinances of the Town of North Providence. These agreements provided tax relief to businesses in the form of tax exemption and tax stabilization agreements for real and tangible property taxes. Listed below is a summary of information pertaining to these agreements for the fiscal year ended June 30, 2019.

10. LONG-TERM DEBT (Continued)

(b) Additional Debt Information

State law limits the amount of bonded debt that a municipality can enter into without legislation. The debt cap cannot exceed 3% of the assessed value of taxable property of the Town. Accordingly, the maximum bonded debt obligations that the Town of North Providence could enter into is approximately \$70,100,000 which is 3% of the assessed value of property at December 31, 2017 (\$2,335,600,000). The Town's total bonded debt at June 30, 2019 was \$74,351,000 which is more than the maximum amount allowed. However, the School Bonds in the amount of \$66,700,000 are exempt from the 3% calculation and therefore, the Town is in compliance with the legal debt limits.

Interest accrued on debt obligations is reported as a liability and expense in the government-wide financial statements. However, it is not reported in the Fund Statements until it is paid with measurable and available resources. Accrued interest expense recorded for the tax anticipation note obligations and long-term debt obligations of the Governmental Activities was approximately \$606,600 at June 30, 2019.

Compensated absences of \$7,074,605 at June 30, 2019 represent vested sick, personal, and vacation time earned by employees as of June 30, 2019 in accordance with their applicable employment contracts. This balance is comprised of \$4,443,635 for Town personnel and \$2,630,970 for School Department personnel.

(c) Debt Service Requirements

The Town's future debt service requirements relating to outstanding bond and lease purchase obligations consist of the following and are planned to be raised through future property tax levies, fee assessments, and state aid for school housing and library improvements. The future maturities presented below does not include the amortization of the bond premium.

(d) Advanced and Current Refundings and Defeased Debt

Proceeds of refunding bonds are deposited into an irrevocable escrow trust. The trust is held by an independent trustee and is invested in obligations of the United States Government which mature and bear interest in such amounts and at such times as will be sufficient to pay the principal and interest of the defeased bonds upon maturity. Accordingly, the escrow trust fund, as well as the defeased bonds, would not be reflected in the financial statements of the Town of North Providence, Rhode Island. The Town does not have any defeased bonds outstanding at June 30, 2019.

(e) Schedule of long-term debt by purpose at June 30, 2019 is as follows:

	<u>Amount</u>	<u>Percent</u>

The Town of North Providence does not currently have a spending policy regarding the order in which restricted, committed, assigned, and unassigned fund balances are spent when more than one amount is available for the expenditures incurred. Accordingly, by default, the Town is following the policy prescribed by GASB Statement No. 54 which specifies that fund balance is reduced first by committed, then by assigned, then by unassigned when expenditures are incurred for purposes for which any unrestricted fund balance could be used. In all situations, the Town considers restricted fund balance to be used first when available and when expenditures are incurred that meet the requirements of the restricted fund balance.

13. DEFINED BENEFIT PENSION PLANS

(a) Agent Multiple Plans Administered by the State of Rhode Island Retirement Board

General Information about the Pension Plan

Plan Description - The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island's (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org.

Benefits provided – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

13. DEFINED BENEFIT PENSION PLANS (Continued)

(a) Agent Multiple Plans Administered by the State of Rhode Island Retirement Board (Continued)

General employees

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012 in (a) above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and Fire employees in MERS

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior Retirement Date before age 52 may retire at age 52.

13. DEFINED BENEFIT PENSION PLANS (Continued)

(a) Agent Multiple Plans Administered by the State of Rhode Island Retirement Board (Continued)

Police and Fire employees in MERS

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012: benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described in (a) and (b) above and one calculated based on a 2.25% multiplier for all years of service.

Police Officers in the Town of North Providence do not participate in the MERS Plan.

Other benefit provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

13. DEFINED BENEFIT PENSION PLANS (Continued)

(a) Agent Multiple Plans Administered by the State of Rhode Island Retirement Board (Continued)

Other benefit provisions (Continued)

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

- a. The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.
- b. Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%
- c. The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (i) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.
- d. The Town of North Providence has not adopted the COLA plan for its' general or fire employees. However, the Town is paying a COLA to Fire Department personnel in accordance with the terms of the collective bargaining agreement. The Town of North Providence's Fire Plan under MERS adopted the 20-year option described above.

Employees covered by benefit terms.

At the June 30, 2017 valuation date, the following employees were covered by the benefit terms:

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees under the COLA plan are required to contribute 2% while General employees under the non COLA plan contribute 1% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 10% of their salaries. The Town of North Providence, Rhode Island contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The contribution rates for fiscal 2019, were determined by the actuarial valuation dated June 30, 2016.

The contribution information for the fiscal year ended June 30, 2019, for the MERS Plans is as follows:

	General Employees MERS Plan	Fire Employees MERS Plan
Employer Contributions (rounded)	\$ 477,800	\$ 1,473,500
Covered Payroll (rounded)	\$ 8,084,600	\$ 5,787,500
Percentage of annual covered payroll	5.91%	25.46%

Net Pension Liability (Asset) - The total pension liability for the MERS Plans were determined by actuarial valuations performed as of June 30, 2017, and rolled forward to June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2018, expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Type of Investment	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
Growth:		
Global Equity:		
U.S. Equity	20.80%	6.43%
International Developed Equity	14.40%	6.72%

Absolute Return	6.50%	4.00%
Cash	3.00%	0.61%
Sub-total	<u>21.00%</u>	
Total	<u>100.00%</u>	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(b) Teacher's Pension Plan – Employees' Retirement System (ERS)

General Information about the Pension Plan

Plan description - Certain employees of the Town of North Providence's School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans covering state employees and teachers reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2018, the Town of North Providence's School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 who must contribute 11% of their annual covered salary. The state and the Town of North Providence are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Town of North Providence; the rates were 10.06% and 13.45% of annual covered payroll for the fiscal year ended June 30, 2019, for the State and Town of North Providence, respectively. The Town of North Providence was required to contribute 23.51% of federally funded salaries. The Town of North Providence's School Department contributed approximately \$3,633,000, \$3,538,000, and \$3,339,000 for the fiscal years ended June 30, 2019, 2018, and 2017, respectively, equal to 100% of the required contributions for each year. The on-behalf contribution made by the State of Rhode Island for the defined benefit plan for the fiscal year ended June 30, 2019, was approximately \$2,489,200. This amount has been included in the Fund Statements as revenue and educational expenditures for fiscal 2019.

Pension Liabilities and Pension Expense

At June 30, 2019, the Town of North Providence reported a liability of \$45,260,377 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the State. The amount recognized by the Town of North Providence as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the Town of North Providence were as follows:

Town of North Providence's proportionate share of the net pension liability.....	\$45,260,377
State of Rhode Island's proportionate share of the net pension liability associated with the Town of North Providence	<u>33,760,990</u>
Total net pension liability.....	<u>\$79,021,367</u>

The net pension liability was measured as of June 30, 2018, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018. The Town of North Providence's proportion of the net pension liability was based on a projection of the Town of North Providence's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2018, the Town of North Providence's proportion was 1.424515%.

For the year ended June 30, 2019, the Town of North Providence recognized gross pension expense in the Government-wide financial statements of approximately \$9,101,800 and operating grants and contributions for education of approximately \$3,948,400 for support provided by the State.

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0% to 13.5%
Investment rate of return	7.0%

Mortality – variants of the RP-2014 mortality tables – for the improvement scale, updated to the ultimate rates of the MP-2016 projection scale.

The actuarial assumptions used in the June 30, 2017, valuation rolled forward to June 30, 2018, and the calculation of the total pension liability at June 30, 2018, were consistent with the results of an actuarial experience study performed as of June 30, 2016.

(c) Police Pension Plan – Trust Fund

All North Providence Police Officers participate in a single-employer retirement plan which was established in accordance with the North Providence Town Charter. The plan is considered part of the Town's financial reporting entity and is included as a pension trust fund (Fiduciary Fund) in the annual financial report for the fiscal year ended June 30, 2019. The covered payroll for employees covered by the plan for the year ended June 30, 2019, was approximately \$4,116,000.

Plan Description

The plan became effective July 1, 1978. All police officers working 1,000 hours or more in a plan year and contributing to the plan are eligible for retirement benefits. Participants are eligible for vested benefits after 10 years of service. The plan provides retirement benefits as well as death and disability benefits. Participants in the plan are eligible to retire at the completion of 20 years of service. Normal retirement benefit is 2.5% of average compensation for each year of credited service, up to 20 years, plus 2% of average compensation for each year of credited service in excess of 20 years with a maximum of 75% of average compensation. Benefit is payable as an unreduced 67.5% Joint and Survivor Annuity. Average compensation is defined as the average of the 3 highest non-consecutive years during the last 10 years of base annual pay including longevity pay and excluding overtime.

Participants are eligible for non-occupational disability benefits after 7 years of service. Occupational disability benefits are provided to all employees immediately. Non-occupational disability benefits are 50% of average compensation as of the disability date while occupational disability benefits are equal to 66.67% of average compensation as of the date of disability. Pre-Retirement Spouse's Death Benefit is immediate. The spouse is entitled to 40% of final average salary plus 10% for dependent children, subject to a maximum of 50%. If no surviving spouse, 15% of final average salary for each dependent subject to maximum of 45% and ceasing when the last child has attained his/her 18th birthday. The benefit is payable immediately following the death of the participant. The plan provides benefits prior and subsequent to retirement. The death benefit prior to retirement is \$400 times the number of years of service, subject to a minimum of \$2,000 and a maximum of \$8,000, but no less than the employee accumulation. If death occurs after termination of employment, only the employee accumulation is payable. The death benefit subsequent to retirement is determined as above reduced by ¼ for each year subsequent to retirement, subject to a minimum of \$2,000 or the employee accumulation less annuity payments received. If employment is terminated prior to his/her retirement date, only the employee accumulation less payments received is payable.

Cost of living increases – Participants retiring between July 1, 1986 and prior to July 1, 2004, with 20 years of service, a lump sum payment will be made on each January 1st. The payment is initially 3% of the annual retirement allowance, increasing each year by 1% to a maximum of 12%. For participants retiring after July 1, 2004 and prior to July 1, 2007, with 20 years of service, a lump sum payment will be made on each January 1st beginning January 1, 2008. The payment is 3% of the initial annual retirement allowance, not compounded, for a period of 15 years. Those retiring after July 1, 2004 but prior to January 1, 2007 shall receive the COLA set forth above until January 1, 2008 at which time the 3% COLA will commence. Those participants retiring after July 1, 2007, with 20 years of service will receive a lump sum payment on each January 1st following the date of retirement and each January 1st thereafter for 25 years. The payment is 3% per year of the original benefit, not compounded. At the end of 25 years, the COLA will not increase, but the final benefit will continue to be paid thereafter.

Contributions Required and Contributions Made

Under the provisions of the plan, employees are required to contribute 9% of their compensation. The plan actuarial valuation dated July 1, 2016, was used to determine the Town's annual required contribution for the fiscal year ended June 30, 2019. The Town's actuarially determined contribution for the fiscal year ended June 30, 2019, was \$1,079,745. The Town contributed \$1,118,098 or 103.6% of the required contribution for fiscal 2019. The additional contribution was the result of pension benefits on salaries being paid through Special Revenue Funds.

Actuarial Methods and Assumptions:

The following are the actuarial methods and assumptions used in the Police Pension Plan Annual Actuarial Valuation as of July 1, 2016, which was used to determine the fiscal 2019 annual required contribution and July 1, 2018 which is the most recent report available. There were no significant changes to the plan provisions between the July 1, 2016 and July 1, 2018 actuarial valuation. The following are changes and key notes that were made on the July 1, 2018, valuation as compared to the July 1, 2016 valuation.

- Asset experience – The 5-year smoothed value of assets was phasing in the flat asset returns for fiscal 2015 and 2016. This results in an increase in the annual contribution rate.
- The discount rate was decreased from 7.25% to 7.0% which resulted in an increase in the annual required contribution rate.
- The salary scale was changed from a flat 2% scale to 3% resulting in an increase in the required contribution rate.
- The update of the mortality tables decreased the annual required contribution rate. Tables have been updated from the 2015 Social Security Administration's Trustees Report to the 2017 Social Security Administration's Trustees Report.
- The employees require contribution rate increased from 8% to 9% effective July 1, 2018.
- The amortization method has changed from an open 10-yr level percent to a closed 10-year level percent of pay amortization.

As a result of the above revisions, market conditions, and experience, the actuarially recommended contribution has been increased from 28.3% to 35% of covered payroll. The calculated annual contribution requirement as of July 1, 2018 and effective for fiscal 2020 and 2021 is \$1,442,262.

Plan Administration

The Town is charged by law with the responsibility for the management of the assets of the Trust Fund. The Town has engaged an investment advisor to help oversee the management of the Fund in accordance with the Statement of Investment Policy, Objectives, and Guidelines of the Town of North Providence, Rhode Island Police Pension Plan. Although the Town is not subject to the Employment Retirement Income Security Act of 1974 (ERISA), it shall conduct its pension activities in accordance with the spirit of ERISA.

Investment Policy

The Town's investment policy provides guidance over the types of investments which are allowed to be held in the plan and stipulates to ensure marketability and liquidity all equity transactions will be made through the New York Stock Exchange; American Stock Exchange; and/or the NASDAQ over the counter market. In addition, the following asset allocation guidelines (at market value) should be followed by the Fund.

Asset Class:	Minimum	Maximum	Preferred
Equities	35%	75%	60%
Fixed Income	35%	70%	37%
Cash and Equivalents	0%	10%	3%

Concentrations

At June 30, 2019, the Town's Police Pension Trust Fund held investments in the following which represented 5% or more of the police pension plan's net position.

Investment:	Police Pension Trust Fund Fair Market Value	% of Fiduciary Net Position
Vanguard 500 Index Admiral	\$ 9,933,640	23%

Vanguard Developed Mrkts Index Admiral	\$ 2,880,210	7%
JP Morgan High Yield Bond Fund Class I	\$ 2,794,361	6%

Rate of Return

For the year ended June 30, 2019, the annual money-weighted weighted rate of return on pension plan investments, net of pension plan expense was 6.73%. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the beginning of each month. External cash flows are netted with external cash outflows, resulting in a net external cash flow in each month.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Rate of Return (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2019, are summarized in the following table:

Asset Class:	Target Allocation	Long-Term Expected Rate of Return
Cash	1.5%	0.00%
Equity	59%	4.95%
Fixed Income	28.5%	1.68%
Real Estate	8.5%	5.25%
Other	2.5%	0.39%
Total	100%	

Net Pension Liability

The net pension liability consisted of the following components at June 30, 2019:

Component:	Police Pension Plan Trust Fund
Total pension liability	\$50,155,232
Plan fiduciary net position	\$43,168,556
Net pension liability	\$6,986,676
Plan fiduciary net position as a percentage of the total pension liability	86.07%

Discount Rate

The blended discount rate used to measure the total pension liability was 7.0%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability was set equal to the long-term expected rate of return.

(d) Fire COLA Plan

As noted in previous sections of this disclosure, firefighters (fire department personnel) participate in the MERS pension plan administered by the Employees Retirement System of Rhode Island. The Town did not opt the COLA provisions of the MERS plan. However, in accordance with the terms of the collective bargaining agreement the Town provides an annual COLA to any retiree that retired with 20 or more years of service and their surviving spouses. The COLA is also provided to any disabled retiree that is receiving an occupational disability benefit.

The annual benefit is a 3% simple COLA paid annually on January 1 for all retirees with 20 or more years of service and for all occupational disabled retirees. If a member became occupationally disabled after July 1, 2015 and before attaining 20 years of service, COLA payments will begin on January 1 following their 20th employment anniversary.

At the June 30, 2019, valuation date the following employees were covered by the benefit terms:

	Fire Employees COLA Plan
Retirees and Beneficiaries	84
Inactive, Nonretired Members	1
Active Members	89
Total	174

The Town's Fire COLA Plan operates on a pay-as-you-go basis and as such there is no annual required contribution percentage and an annual required contribution amount was not determined for fiscal 2019. Rather, the Town is required to pay the retirees the annual COLA and CPI payments. Expenditures incurred by the Town's General Fund related to the Fire COLA Plan for the fiscal year ended June 30, 2019, were approximately \$947,000. However, the Town's actuarial valuation report as of July 1, 2019, does report an actuarial recommended contribution of \$6,072,853, or 106.9% of the estimated annual covered payroll.

Discount rate - the discount rate used to measure the total pension liability was 3.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Professional judgment on future contributions has been applied in those cases where contribution patterns deviate from the actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The changes in the Net Pension Liability for the fiscal year ended June 30, 2019, were as follows:

Fire Employees COLA plan:	Changes in the Net Pension Liability (Asset)

For the year ended June 30, 2019, the Town of North Providence recognized pension expense of \$6,348,589 in the Government-wide financial statements for the Fire COLA Pension Plan administered by the Town.

Actuarial Assumptions:

The following is a summary of some of the actuarial assumptions used in the July 1, 2019, actuarial valuation of the Fire COLA Plan. A complete copy of the Actuarial Valuation can be obtained by contacting the Town's Finance Department.

Inflation rate	2.5%
Salary increases	4.0% - 14%
Investment rate of return	3.5%
Cost of living increases.....	3.0%
CPI Payments.....	Any disabled retiree currently receiving a CPI payment is assumed to receive a 5% increase in their CPI payment from the prior year.
Retirement rates	20 years of service – 12%; 21-23 years – 10%; 24 years – 12%; 25 years – 14%; 26 years - 16%; 27 years 18%; 28-29 years – 20%; 30-34 years – 35%; 35+ years – 100%.
Supplemental benefits	One in five participants that become disabled will receive a supplemental disability benefit in an amount of 50% of their regular monthly benefit. The benefit is payable immediately upon disability until a participant's death. The frequency and amount of this benefit was determined to be a reasonable approximation based on the current population of disabled participants receiving this benefit.
Assumption Changes	The discount rate was decreased from 7% to 3.5% to reflect the discount rate for a 20-year, tax exempt general obligation municipal bond with an average rating of AA/Aa or higher as of June 30, 2019. This change was required due to the funding status of the plan.

14. DEFINED CONTRIBUTION PENSION PLAN

Plan Description:

General municipal, certified school, and noncertified school employees participating in the defined benefit plans administered by the State of Rhode Island with less than 20 years of service as of June 30, 2012, as described in Note 13, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Town contributed approximately \$318,300 (before reimbursement as noted below) during the fiscal year ended June 30, 2019. The employer contribution of \$318,300 consisted of approximately \$42,500 for general municipal employees, \$26,700 for noncertified school employees, and \$249,100 for certified teachers.

Although the Town (School Department) is required to contribute 1% to 1.5% towards the plan for certified teachers, the School Department receives reimbursement from the State of Rhode Island for .4% of 1% to 1.5% of the required contributions. For financial reporting purposes, the School Department reflected this reimbursement from the State of Rhode Island as a credit to expenditures. The State's share of the contribution for the defined contribution plan for the fiscal year ended June 30, 2019, amounted to approximately \$88,600.

15. DEFERRED COMPENSATION PLAN

The Town offers its municipal employees a deferred compensation plan established in accordance with the provisions of Internal Revenue Code Section 457 (g). The Town has not reported these plans on its financial statements in accordance with GASB No. 32, "Accounting for Internal Revenue Code Section 457 Deferred Compensation Plans", since the Town does not have fiduciary responsibility for these plans. The Plans, available to all municipal employees, permit the deferral of a portion of their salary. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan is administered by an outside agency and the Town is only liable for remitting employee withholdings.

16. RISK MANAGEMENT AND HEALTH CARE MANAGEMENT PLAN

The Town of North Providence is exposed to various risks related to torts; theft of, damage to and destruction of assets; errors and omissions; workers' compensation claims; and natural disasters for which the Town carries commercial insurance. Premiums are charged as expenditures as incurred. Settled claims resulting from these risks have not created additional premiums to the Town over the past several years and it is not anticipated that additional premiums will result from current year activity. There have been no significant reductions in insurance coverage from prior years.

The Town has a cost-plus financing plan in order to finance the costs of its health, dental, and workers compensation insurance benefits. Under this cost-plus plan the Town pays for the actual cost of covered health care and dental services plus a fee to the provider for the administration of the program. The Town is a member of Rhode Island Municipal Insurance Corporation (RIMIC), a collaborative of various municipal entities, for health and dental insurance claims. All departments of the Town participate in the self-insurance program (cost plus basis) through RIMIC.

The Town currently maintains stop loss insurance to protect the taxpayers from catastrophic loss resulting from excessive health insurance claims. At June 30, 2019, the stop loss insurance contract covered all claims exceeding \$160,000 per individual on an annual basis. In addition, specific stop loss maximum for the Town for the year is maintained at approximately \$1.8 million.

The Town's Finance Department oversees the self-insured program for all Town employees and claims payment services are provided by Blue Cross and Blue Shield of Rhode Island (Plan Administrator). At June 30, 2019 the Town has estimated a liability for incurred but not reported claims (IBNR) based on an estimate of actual claims paid subsequent to year end but related to claims incurred prior to July 1, 2019. Approximate changes in the balances of self-insured claims liabilities as of and during the year ended June 30, 2019 were as follows:

Incurred but not reported claims (IBNR), June 30, 2018.....	\$ 547,341
Approximate amount of incurred claims	12,519,056
Paid claims including amount in accounts payable at June 30, 2019	<u>(12,506,452)</u>
Estimated IBNR Claims outstanding at June 30, 2019	<u>\$ 559,945</u>

Approximate changes in the balances of self-insured claims liabilities as of and during the year ended June 30, 2018 were as follows:

Incurred but not reported claims (IBNR), June 30, 2017.....	\$ 740,642
Approximate amount of incurred claims	10,006,157
Paid claims including amount in accounts payable at June 30, 2018	<u>(10,199,458)</u>
Estimated IBNR Claims outstanding at June 30, 2018	<u>\$ 547,341</u>

The estimated IBNR claims liability represents claims which occurred prior to June 30, 2019, but which were not reported until after year-end. These claims are recorded as a long-term obligation in the Governmental Activities in the government-wide Statement of Net Position as they are not expected to be paid with current measurable and available resources at June 30, 2019. The IBNR claims outstanding at June 30, 2019, are comprised of \$304,969 and \$254,976, related to Town and School employees, respectively.

16. RISK MANAGEMENT AND HEALTH CARE MANAGEMENT PLAN (Continued)

At June 30, 2019, the Town of North Providence has a deposit with the Plan Administrator totaling \$349,000. This deposit was required as part of the contract with the Plan Administrator to ensure reimbursement of claims is made in a timely manner. This deposit has been classified as a prepaid expense and as such has been included in nonspendable fund balance in the governmental activities of the Fund Statements.

17. COMMITMENTS AND CONTINGENCIES

Liabilities for legal cases and other claims against governmental funds are recorded in the governmental funds when the ultimate liability can be estimated and such cases are expected to be settled with available expendable financial resources.

The Town, including the School Department has received grants from various federal and state agencies for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to request for reimbursement to the grantor agencies for expenditures disallowed under the terms of the grant. Town officials are of the opinion that such disallowances, if any, would be immaterial.

During the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations, labor issues, and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel they do not anticipate any of the claims to have a material financial impact, or at this time legal counsel has been unable to assess the liability, if any, on the part of the Town. Accordingly, no liability has been reported in the government-wide Statement of Net Position at June 30, 2019.

18. OTHER POST EMPLOYMENT BENEFITS – OPEB PLAN

In addition to the pension benefits described in Notes 13 and 14, the Town provides post-employment health care benefits and dental in accordance with certain union contracts. The Town administers a single-employer defined benefit plan and presents the information for this Plan in the Fiduciary Fund Statements and the OPEB liability and related deferred inflows and outflows in the Government-Wide Statement of Net Position in accordance with GASB No. 75.

Eligibility:

Police: Members who have retired under the Town's Police Retirement Plan with at least 20 years of service, shall be eligible to receive medical and dental benefits for self and spouse. Cost Sharing: 100% Town paid up to age 65. Upon retiree reaching age 65, under age 65 spouse and dependents can elect COBRA for 36 months.

Fire: Firefighters are eligible for retiree health benefits (medical and dental) until Medicare eligibility if they are eligible to retire under Rhode Island Municipal Employees Retirement System (RI MERS).

School Teachers and Administrators: Members who have retired under the Employees' Retirement System of Rhode Island (ERSRI), with a minimum of 15 years of service (20 years of service for Schedule B members) with the North Providence School System, shall be eligible to receive medical and dental benefits for self and spouse. Eligibility for retirement is as follows: If vested by 7/1/2005 (Schedule A): The earlier of 28 years of service, or age 60 with 10 years of service. If vested after 7/1/2005 (Schedule B): Normal retirement is the earlier of age 65 with 10 years of service, or age 59 with 29 years of service. Early retirement is age 55 with 20 years of service. Cost Sharing – 50% retiree paid coverage is pre-65 only. Members eligible for retirement after July 1, 2012, with at least five years of service as of June 30, 2012 are eligible for Normal Retirement at an individually determined age. This age is based on the members' social security retirement age with a proportional downward adjustment based on years of service prior to July 1, 2012. The minimum retirement age is 59 with 5 years of service.

Town Local 1033 – Members who have retired under MERS with at least 20 years of service receive medical and dental for self and spouse.

General Employees:

Town Council 94 – Members who have retired under MERS with at least 18 years of service receive medical and dental for self and spouse.

School Local 2435 – Members hired after 7/1/1989 and who have retired under MERS with at least 20 years of service (10 years if hired prior to 7/1/1989) receive medical and dental for self and spouse.

General employees listed above receive 100% paid benefits for retiree and spouse for a period of up to 36 months.

Additional information on the description of benefits and coverage is provided in the report of the *Town of North Providence – GASB 74/75 Actuarial Valuation for the fiscal year ending June 30, 2018*. This report dated February 20, 2019 can be obtained by contacting the Town's Finance Department.

18. OTHER POST EMPLOYMENT BENEFITS – OPEB PLAN (Continued)

Discount Rate:

The long-term expected rate of return in the Town's OPEB plan investments is 6.5%. The discount rate used when the OPEB plan investments are insufficient to pay for future benefit payments should be the yield for a 20-year tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Accordingly, for the fiscal year ended June 30, 2019, the discount rate utilized for both the Town and School OPEB plan was 3.51% (3.87% at June 30, 2018). The basis for utilizing this discount rate was that the Town will contribute \$250,000 to the OPEB plan annually, and pay-as-you-go costs will continue to be paid from the General Fund since the Trust will not accumulate enough assets at the end of 50 years to cover future benefit payments.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate:

The following presents the net OPEB liability as of June 30, 2019, calculated using the discount rate assumed (3.51%) and what the liability would be using a discount rate that is 1% higher and 1% lower than the current rate.

	Ending Net OPEB Liability (Asset)		
	1% Decrease (2.51%)	Current Discount Rate (3.51%)	1% Increase (4.51%)

School OPEB Plan	\$ 6,418,090	\$ 6,131,693	\$ 5,851,418

Healthcare Trend Rates:

The healthcare trend rates refers to the change in the per capita health claims costs over time as a result of factors such as medical inflation, utilization of healthcare services, plan design, and technological developments. The June 30, 2018, valuation assumes that the healthcare trend rates will commence at 9% in fiscal 2019 and be reduced annually by .5% through fiscal 2027 at which time the trend rate for medical and prescriptions will remain at 5% annually.

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates:

The following presents the net OPEB liability as of June 30, 2019, calculated using the healthcare trend rates assumed in the valuation and what the liability would be using a healthcare trend rate that is 1% higher and 1% lower than the current rate.

Rate of Return

For the year ended June 30, 2019, the annual money-weighted rate of return on OPEB plan investments, net of plan expense was 6.26%. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the beginning of each month. External cash flows are netted with external cash outflows, resulting in a net external cash flow in each month.

Concentrations

At June 30, 2019, the Town's OPEB Trust Fund held investments in the following which represented 5% or more of the OPEB Plan's net position.

19. FEDERAL FORFEITURE FUND

The Federal Forfeiture Fund (a Major Special Revenue Fund) includes \$2,638,538 due from federal and state governments. This amount has also been reported as unavailable revenue at June 30, 2019 for the fund financial statements. This receivable and deferred inflow of resources represents the remaining proceeds from the Google settlement to be drawn down and utilized in future periods in accordance with the provisions stipulated by the Department of Justice. During the fiscal year ended June 30, 2019, the Town had drawdowns of the Google settlement funds for approximately \$2,282,000 for public safety projects and expenditures.

20. SUBSEQUENT EVENTS

Subsequent to year end, the COVID-19 coronavirus has significantly impacted the financial markets and resulted in economic uncertainties. The most significant financial impact of the COVID-19 coronavirus is expected to be related to the net position of the various pension and OPEB plans maintained by the Town of North Providence. The impact of the COVID-19 coronavirus may be seen in future valuations of investments, investment income, and the future actuarially determined contributions for the pension and OPEB plans.

MERS Pension Plans Administered by ERSRI**

The following reflects the actuarial assumptions related to the pension plans which are administered by the Employee Retirement System of Rhode Island (ERSRI).

Actuarial determined contribution rates are calculated as of June 30th of each plan year and effective two years after the actuarial valuation. Therefore the valuation as of June 30, 2015 determined the contribution rates for measurement date 6/30/2018.

Actuarial Cost Method:	Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used.
Amortization Method:	Level percentage of payroll, closed
Remaining Amortization Period:	24 years at June 30, 2015, which is the date used to determine the contribution requirement for the fiscal year ended June 30, 2018 (the measurement date).
Asset Valuation Method:	5 year smoothed market
Investment rate of return:	7.00%
Projected salary increases:	3.5% - 7.5% for general employees 4% to 14% for police and fire employees
Inflation:	2.75%
Mortality:	Males: 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000. 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA for 2000.
Cost of Living Adjustments:	A 2% COLA is assumed after January 1, 2014.
Retirement Age:	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation.

MERS and Teachers (ERS) Pension Plans Administered by ERSRI**

Changes in benefit provisions:

The June 30, 2018, measurement date did not contain any changes in actuarial methods or assumptions in calculating the net pension asset or liability as compared to the June 30, 2017, measurement date.

The June 30, 2017 Measurement Date: As part of the 2017 Actuarial Experience Investigation Study for the six year period ending June 30, 2016, as approved by the ERSRI Systems Board on May 15, 2017, certain assumptions were modified and reflected in the determination of the net pension liability or asset at the June 30, 2017 measurement date. The following summarizes the more significant changes in assumptions for the June 30, 2017, measurement date related to the MERS, and Teachers Pension Plans administered by the ERSRI.

Decreased the general inflation assumption from 2.75% to 2.5%.

Decreased the nominal investment return assumption from 7.5% to 7%.

Decreased the general wage growth assumption from 3.25% to 3.0%.

Decreased salary increase assumptions.

Updated the post-retirement mortality tables to variants of the RP-2014 table. For the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

The June 30, 2016 and 2015, measurement dates did not contain any changes in actuarial methods or assumptions in calculating the net pension asset or liability as compared to the June 30, 2015 or 2014, respectively, measurement dates.

The June 30, 2015, measurement date determination of the net pension liability for the ERS and MERS plans reflects changes in benefits resulting from the settlement of litigation challenging the various pension reform measures enacted in previous years by the RI General Assembly. The final settlement approved by the Court on July 8, 2015, also included enactment of the pension settlement provisions by the RI General Assembly.

TOWN OF NORTH PROVIDENCE

AGENCY FUNDS

Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, and other governments. The following funds are reported in this section:

Seized Property – To account for property that was obtained by the Town during police investigations and is to be remitted to the State or Federal Government or returned to the original owner.

Low Cost Spay/Neuter – To provide assistance to low income families for pet spay or neutering.

Animal Care Donations – To provide financial support to low income families whose pets are in need of miscellaneous care.

Animal Care Adoptions – To provide financial support to families seeking to adopt animals from the Town's animal shelter.

Realty Tax Transfer – To collect fees on real estate property transfers. This account is used to hold the portion of the fees that are due to the State of Rhode Island.

Student Activities Fund – To account for funds held in various school programs. During fiscal 2019 the North Providence School Department was administering approximately 15 separate accounts for student activity funds.

Food Pantry Fund – To account for funds received which are to be used to support low income families seeking assistance.

Performance Bond Fund – To account for funds received from developers as security to ensure that projects are completed in accordance with Town requirements. Bond payments are refunded to contractors/developers once the project is completed and approved by the Town.

TOWN OF NORTH PROVIDENCE, RHODE ISLAND
NOTES TO SUPPLEMENTARY INFORMATION
ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT (MTP2)
FISCAL YEAR ENDED JUNE 30, 2019

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location. The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses. For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department - police officers (e.g., uniform personnel - including, leadership positions)
- Fire Department - fire fighters (e.g., uniform personnel - including, leadership positions)
- Centralized Dispatch Department - civilian dispatchers only
- Education Department - professional staff providing direct services to students
- For the remaining departments - all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor
and Members of the Town Council
Town of North Providence
North Providence, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of North Providence, Rhode Island, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town of North Providence, Rhode Island's basic financial statements, and have issued our report thereon dated March 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of North Providence, Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of North Providence, Rhode Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of North Providence, Rhode Island's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2019-01 to 2019-04 that were considered to be material weaknesses. In addition, we identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2019-05 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of North Providence, Rhode Island's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of North Providence's Responses to Findings

The Town of North Providence, Rhode Island's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Town of North Providence, Rhode Island's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Mayor
and Members of the Town Council
Town of North Providence
North Providence, Rhode Island

Report of Compliance for Each Major Federal Program

We have audited the Town of North Providence, Rhode Island's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of North Providence, Rhode Island's major federal programs for the year ended June 30, 2019. The Town of North Providence, Rhode Island's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of North Providence, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles*, and *Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of North Providence, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of North Providence, Rhode Island's compliance.

Basis for Qualified Opinion on the School Lunch Cluster

As described in the accompanying schedule of findings and questioned costs, the Town of North Providence, Rhode Island, did not comply with the requirements of CFDA #10.555 School Lunch Program as described in finding 2019-006 and 2019-007 for special test and provisions and eligibility, respectively. Compliance with such requirements are necessary, in our opinion, for the Town of North Providence, Rhode Island, to comply with the requirements applicable to that program.

Qualified Opinion on the School Lunch Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the Town of North Providence, Rhode Island complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the School Lunch Cluster for the year ended June 30, 2019.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the Town of North Providence, Rhode Island, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2019.

Other Matters

The Town of North Providence, Rhode Island's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town of North Providence, Rhode Island's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the Town of North Providence, Rhode Island, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of North Providence, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of North Providence, Rhode Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2019-008 to be material weaknesses.

The Town of North Providence, Rhode Island's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town of North Providence, Rhode Island's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOWN OF NORTH PROVIDENCE, RHODE ISLAND

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2018**

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the activity of the Town of North Providence, Rhode Island under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance).

This Schedule presents only a selected portion of the activity and operations of the Town of North Providence, Rhode Island. This schedule is not intended to, and does not, present the financial position, changes in fund balance/net position, or cash flows of the Town of North Providence.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or limited as to reimbursement. The Schedule also includes \$61,122 for the value of food commodities. These commodities have not been reported in revenue or expenses of the Business-Type Activities for financial statement purposes.

3. Determination of Major Programs

The determination of major federal awards programs was based upon the overall level of expenditures for all federal programs for the Town of North Providence, Rhode Island. As such, the threshold for determining Type A programs are defined as those with federal program expenditures equal to \$750,000 when the total federal program expenditures are between \$750,000 but less than or equal to \$25 million. For fiscal 2019, type A programs were all programs with federal program expenditures of \$816,516 or more.

4. Matching Requirements

The Town may receive federal grants which contain stipulations that requires the Town to contribute non-federal funds to supplement the federal program or project. The Town monitors these requirements and has complied with all matching provisions for the fiscal year ended June 30, 2019. The schedule of expenditures of federal does not include the expenditures covered by the matching funds.

5. Indirect Cost Rate

The Town of North Providence, Rhode Island, has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

SECTION II. FINANCIAL STATEMENT FINDINGS

2019-001: Maintenance and Review of General Ledger

Criteria: Internal controls should be established to ensure that financial records are complete and accurate so that the financial results and financial position of the Funds maintained by the Town of North Providence, Rhode Island (including the North Providence School Department) are fairly presented in accordance with governmental accounting standards.

Condition: Our audit of the financial records of the North Providence School Department identified a deficiency in internal controls over the maintenance, review, and reconciliation of the general ledger activity and account balances which we believe results in the material misstatement of the financial statements related to the Funds administered by the School Department. Specifically, we noted the following:

- Cash accounts are not being reconciled on a monthly basis. Also, when they were reconciled they were not compared to the general ledger account balance to ensure agreement.
- Cash reconciliations are not approved by someone independent of the preparation of the reconciliation.
- Interfund activity, specifically amounts due to/from the Town, is not reconciled on a monthly basis to ensure that all activity is being reported in the general ledger accounting records.
- The School Department processes some transactions utilizing manual checkbooks rather than processing the transaction through the Munis Accounting System. As a result, this activity is not properly recognized in the general ledger accounting records as it occurs. Rather, the transactions were recorded in one batch entry at the end of the fiscal year. As a result, the details of the activity could not be specifically identified in the Munis Accounting System.

Cause: We believe that the deficiency is the result of a lack of formal policies, procedures, and properly trained personnel to ensure that a thorough periodic review of the general ledger accounting records is completed in a timely manner and that all transactions are properly posted to the Munis Accounting System.

Effect: The lack of controls over the maintenance and review of the general ledger accounting records could result in the material misstatement of the financial activity and financial position of the School Department which, in turn, could lead to management's inability to effectively manage the financial operations of the department. In addition, the lack of controls over the general ledger accounting records increases the risk of intentional or unintentional errors and irregularities from occurring and going undetected by management.

Recommendation: We recommend that management along with School Officials establish formal policies and procedures requiring all financial transactions to be processed directly in the Munis Accounting System, and that the School Department be prohibited from using manual checkbooks. Processing all financial transactions directly in the Munis Accounting System will increase transparency in financial reporting and reduce the risk of unreported activity. In addition, we recommend that these policies and procedures include reconciliation of account balances to applicable subsidiary records on a periodic basis (at a minimum quarterly but preferably monthly), and that the completion of the procedures be documented and reviewed by personnel independent of the reconciliation process.

View of Responsible Official and Corrective Action: See response at the end of the Single Audit Section.

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2019**

SECTION II. FINANCIAL STATEMENT FINDINGS (Continued)

2019-002: Separation of Duties Related to Payroll Processing

Criteria: Proper separation of duties is an instrumental component of an effective internal control. Establishing and maintaining adequate separation of duties helps to mitigate the risk of intentional or unintentional misuse or misappropriation of Town assets. As such, no-one individual should have access to all components of a financial reporting process without having adequate controls in place. An entity may maintain either preventative or detective internal controls to help mitigate the risk of intentional or unintentional misuse of assets.

Condition: The payroll administrator at the School Department currently has access to all components related to payroll. The administrator has the ability to add new employees, change rates of pay, withholding amounts, benefit amounts, and enter direct deposit information. The North Providence School Department had implemented a detective control to help mitigate the risk of intentional or unintentional errors or irregularities related to the processing of payroll. This detective control included a review of the final payroll register by someone independent of the processing of the payroll. This detective control was established by management due to the lack of preventative controls over payroll. During our audit we noted that the School Department was not complying with the control procedures requiring payroll registers to be reviewed by someone independent of the payroll process. However, we did note that in the last quarter of the fiscal year the School's Director of Finance began requiring the payroll administrator to complete an excel analysis of the payroll which the Director of Finance would review for consistency and agreement with the anticipated payroll expenditure.

Cause: The lack of control is the result of the failure of management to establish, maintain, and comply with sound internal control policies and procedures. In addition, the School Department experienced a significant amount of turnover in recent years and has not properly assigned roles and responsibilities to mitigate the risk of intentional or unintentional errors or irregularities.

Effect: The lack of establishing and maintaining proper separation of duties and/or the establishment and implementation of preventative or detective internal controls increases the risk of intentional or unintentional misstatements from occurring and going undetected by management.

Recommendation: We recommend that School Officials along with the Director of Finance review, and document the roles and responsibilities of finance personnel as it relates to maintaining, processing, and reporting the financial activity of the School Department. Management should, whenever possible, establish policies and procedures that maintain adequate separation of duties. We recommend that management consider removing certain access rights from the payroll administrator and placing those rights and responsibilities with the Human Resource Director or other properly trained personnel who is independent of payroll processing. In addition, we recommend that controls be established which require the review and approval of each bi-weekly payroll register by someone independent of the payroll processing process. The person completing the review and approval should sign and date each final payroll register report to document the completion of the review.

View of Responsible Official and Corrective Action: See response at the end of the Single Audit Section.

2019-003: Cutoff Procedures

Criteria: The establishment of policies and procedures related to the proper cutoff of financial reporting transactions helps to ensure that the accounting records and financial statements are complete and accurate. The accuracy and completeness of the accounting records is imperative to allow management to make informed financial decisions.

SECTION II. FINANCIAL STATEMENT FINDINGS (Continued)

2019-003: Cutoff Procedures (Continued)

Condition: During our audit we noted that the School Department does not have adequate policies or procedures in place to ensure that all financial transactions are recorded in the proper period. As a result, there is an increase in the risk of material misstatement of accounts payable and accrued liabilities by the School Department at year end. In addition, the School Department did not have procedures in place to ensure that all receivables owed to the Department were properly recorded at year end. We also noted instances at the Town where Town finance personnel failed to record the liability related to retainage payable on construction contracts at year end. Although the retainage payable on the construction contract has no impact on the Town's General Fund, it does impact the financial position of the Government-wide Statement of Net Position and the Fund level financial statements of major capital project and special revenue funds.

Cause: The School Department personnel do not have adequate training and experience with the Munis Accounting System and as such, personnel have not utilized the period 13 accounts payable reporting allowed in the Munis Accounting System. In addition, subsequent activity was not thoroughly analyzed to ensure that it was presented in the proper period. The Town properly recorded all amounts invoiced and applicable to fiscal 2019 in the proper period, however, management failed to identify the retainage withholding noted on the construction contract invoices to properly record the liability and expenditure incurred related to major construction projects.

Effect: Failure to establish proper controls over cutoff increases the risk of material misstatement to the financial position and results of operations in the Government-wide and Fund level financial statements.

Recommendation: We recommend that school finance personnel obtain the proper training and that the Director of Finance establish formal policies and procedures for utilizing period 13 and 14 within the Munis Accounting System for reporting accounts payables at year end. In addition, we recommend that policies and procedures be developed to ensure that proper controls are in place to review and record transactions in a timely manner to reduce the risk of misstatement of accounts payable, accrued liabilities, and receivables at year end. We recommend that the Town's Finance Director meet with finance personnel to review construction contract invoices to ensure that any retainage amounts are properly recorded as expenditure and payable at the end of the fiscal year.

2019-004: Compensated Absences

Criteria: Employees of the School Department are eligible for sick and vacation time in accordance with the provision of various collective bargaining agreements or other employment contracts. The provisions of these contracts allow employees to accumulate time and be compensated for that time, in varying amounts, upon retirement.

Condition: During our audit testing of the accumulated compensated absence balance at June 30, 2019, we noted errors in the calculation of the accumulated liability. In addition, upon further inquiry with School Department personnel we learned that the balance of accumulated time being communicated to employees was incorrect as they rollover of the system from year to year was not completed properly.

Cause: We believe that the cause of this deficiency was the lack of review by personnel independent of the maintenance of the compensated absence schedule and calculation of the estimated liability.

SECTION II. FINANCIAL STATEMENT FINDINGS (Continued)

2019-004: Compensated Absences (Continued)

Effect: Understatement of estimated liability at year end as reported in the Government-wide Financial Statements. In addition, failure to properly monitor and record the amount of compensated absences accumulated by employees may result in employees receiving compensation in excess of the amount they earned and which they are entitled to under the applicable employment contract.

Recommendation: We recommend that the Director of Finance, Superintendent, and School Committee review the current process and procedures for maintaining compensated absences and for communicating the available balance of compensated absences to employees. We further recommend that management look into the possibility of utilizing the Munis Payroll module to maintain the compensated absence records since it can be directly interfaced with the payroll system which should help reduce potential errors which currently occur as a result of manual error.

View of Responsible Official and Corrective Action: See response at the end of the Single Audit Section.

2019-005: Student Activity Funds

Criteria: The School Department maintains a policy which requires the principals or others responsible for maintaining student activity accounts to submit invoices over \$500 to the Finance Department for approval prior to the payment being processed

Condition: During our audit testing of the financial transactions reported in the Student Activity Funds we noted instances where the custodians of some of these funds were not in compliance with the established policy. The results of our testing also identified a number of instances where documentation could not be provided to substantiate the disbursement transaction, and one instance where the custodian of an account signed a check payable to themselves for reimbursement of an expenditure however, support for the expenditure was not maintained. In addition, we noted that the Finance Department was not properly preparing and/or maintaining reconciliations of these bank accounts and reporting the balances within the general ledger accounting system.

Cause: The lack of monitoring of compliance by School Department finance personnel and the failure to obtain monthly bank statements and reconciliations so that the balances can be properly reported in the general ledger accounting system.

Effect: Noncompliance with policies related to the internal controls over the transactions using the custodial funds maintained by the School Department. In addition, financial statements may contain misstatements of the assets and liabilities which are maintained in custodial nature by the School Department.

Recommendation: We recommend that the Director of Finance prepare a formal policy and procedure document which governs the use of, and accounting for, custodial funds maintained by the School Department. This document should then be reviewed with all personnel responsible for administering the student activity funds to ensure future compliance. In addition, we recommend that the monthly bank statements for all student activity funds along with the bank reconciliations be forwarded to the Finance Department so that the activity can be reviewed and balances properly updated in the general ledger accounting records. Furthermore, we recommend that the Director of Finance conduct periodic internal audit of these activity accounts to ensure the proper utilization of funds and compliance with the procedures approved by the School Committee. Lastly, we recommend that the School Committee prohibit all employees from signing a check payable to themselves. Reimbursements to authorized check signers should be processed and approved by personnel other than the listed payee.

SECTION III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2019-006: School Lunch Cluster – CFDA #10.555 and #10.553 - Eligibility

Criteria: The North Providence School Department participates in the school lunch and breakfast program funded by the federal government passed-through the State of Rhode Island Department of Education. One of the compliance requirements related to the school lunch and breakfast program relates to determining the eligibility of students who may qualify for free or reduced lunch. Administrators of school lunch and breakfast programs are required to obtain and maintain documentation to substantiate a student's eligibility to receive free or reduced lunch.

Condition: In order to test compliance with the requirements related to eligibility for free or reduced lunch/breakfast we tested seventy-five participants who were receiving free or reduced meals. The results of that testing identified three instances where the eligibility determination did not coincide with the eligibility status being applied to the students accounts. In each of the three discrepancies the students should have had the status of full paid. However, in one instance the student was receiving free lunch while in the other two instances the students were receiving reduced lunch.

Cause: The discrepancies appear to be the result of errors made when completing the certification of eligibility applications and inputting the eligibility status into the food service system.

Effect: Lack of compliance with the federal requirements governing eligibility and therefore, inaccurate submission for reimbursement of meals served to eligible "free" and "reduced" students.

Recommendation: We recommend that management of the School Department develop adequate policies and procedures for maintaining and reviewing eligibility applications. We recommend that someone independent of the eligibility determination review applications to ensure compliance with federal requirements. We further recommend that procedures be established whereby finance personnel periodically compare the served meal reports to eligibility information to ensure that the School Department is properly seeking reimbursement for meals served to those individuals that qualify under "free" or "reduced" status.

SECTION III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2019-007: School Lunch Cluster – CFDA #10.555 and #10.553 – Special Tests and Provisions

Criteria: The North Providence School Department participates in the school lunch and breakfast program funded by the federal government passed-through the State of Rhode Island Department of Education. One of the special tests and provisions of the compliance requirements related to the school lunch and breakfast program requires an annual test of applications submitted for eligibility by families of students who may qualify for free or reduced lunch.

Condition: Annually in October the School Department is required to select a sample of eligibility applications (usually from those deemed to be error prone) and contact the family to request documentation to substantiate the information which was provided on the application. The Department is required to select a specific number of applications based on the sample size determined by federal guidelines. The Department must document the selection process, communications provided to the applicant, and results of the testing. Based on the applications tested, the Department must then adjust the eligibility status to reflect the proper determination of “free”, “reduced”, or “paid,” as applicable. School Department personnel were unable to provide documentation to support compliance with this requirement to complete annual testing of applications.

Cause: School Department personnel indicated that they believe the compliance testing was completed however, due to significant turnover in the Finance Department documentation could not be located to substantiate the compliance with the special test and provision for testing the eligibility applications.

Effect: Lack of compliance with the federal requirements governing special tests and provisions over eligibility applications which could result in students that have error prone applications continuing to receive “free” or “reduced” meals when they are not eligible to be receiving that benefit.

View of Responsible Official and Corrective Action: See response at the end of the Single Audit Section.

2019-008: School Lunch Cluster – CFDA #10.555 and #10.553

Criteria: Students whose family meet certain income guidelines may qualify for “free” or “reduced” meals. In order to qualify the family must submit applications to the School Department on an annual basis providing information on the family size and household income. Although, families meeting certain requirements may qualify for free lunch if they are included on a direct certification listings provided by the State of Rhode Island. Applications and direct certifications are reviewed by school department personnel and information entered into the computer program to determine eligibility. Annually, the school personnel must complete a verification testing of a limited number of applications as determined by the federal regulations.

Condition: The North Providence School Department currently has one employee who is responsible for reviewing and entering the applications to determine a student’s eligibility for free or reduced priced meals. This employee is also responsible for completing the annual verification of applications. The North Providence School Department currently has no policy or procedures in place requiring someone, independent of the approval process, to review and approve the application entry conclusion or verification testing.

Cause: Failure to establish adequate controls to ensure compliance with maintenance of documentation to substantiate eligibility for free or reduced priced meals.

SECTION III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2019-008: School Lunch Cluster – CFDA #10.555 and #10.553 (Continued)

Effect: The lack of controls results in the increase in risk that intentional or unintentional errors or irregularities may occur and go undetected by management.

Recommendation: We recommend that the Director of Finance establish formal policies and procedures for maintaining and reviewing applications submitted by families for free and reduced priced meals. We further recommend that these controls include requirements that someone independent of the initial application determination perform a periodic testing of the applications to ensure completeness and accuracy. In addition, the annual verification requirement completed by the school personnel should be reviewed and approved for compliance.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2019**

SECTION IV. PRIOR AUDIT FINDINGS RELATED TO AUDIT OF FINANCIAL STATEMENTS

2018-001: Maintenance and Review of General Ledger

Criteria: Internal controls should be established to ensure that financial records are complete and accurate so that the financial results and financial position of the Funds maintained by the Town of North Providence, Rhode Island (including the North Providence School Department) are fairly presented in accordance with governmental accounting standards.

Condition: During our audit of the financial records of the North Providence School Department we noted a deficiency in internal controls over the maintenance and review of the general ledger activity and balances which we believe could result in the material misstatement of the financial statements related to the Funds administered by the School Department. Specifically, we noted that the School Department does not currently process all financial transactions directly in the Munis Accounting System when the transaction occurs. Some of the financial activity of the School Department was being processed through the use of manual checkbooks and then summarized for input into the Munis System. However, the School Department did not have a policy or adequate procedures in place to ensure that all transactions were entered into Munis and accounts reconciled on a periodic basis.

Status: See current year finding 2019-001.

2018-002: Separation of Duties Related to Payroll Processing

Criteria: Proper separation of duties is an instrumental component of an effective internal control. Establishing and maintaining adequate separation of duties helps to mitigate the risk of intentional or unintentional misuse or misappropriation of Town assets. As such, no-one individual should have access to all components of a financial reporting process without having adequate controls in place. An entity may maintain either preventative or detective internal controls to help mitigate the risk of intentional or unintentional misuse of assets.

Condition: The payroll administrator at the School Department currently has access to all components related to payroll. The administrator has the ability to add new employees, change rates of pay, withholding amounts, benefit amounts, and enter direct deposit information. The North Providence School Department had implemented a detective control to help mitigate the risk of intentional or unintentional errors or irregularities related to the processing of payroll. This detective control included a review of the final payroll register by someone independent of the processing of the payroll. This detective control was established by management due to the lack of preventative controls over payroll. During our audit we noted that the School Department was not complying with the control procedures requiring payroll registers to be reviewed by someone independent of the payroll process.

Status: See current year finding 2019-002.

SECTION IV. PRIOR AUDIT FINDINGS RELATED TO AUDIT OF FINANCIAL STATEMENTS (CONTINUED)

2018-003: Cutoff Procedures

Criteria: The establishment of policies and procedures related to the proper cutoff of financial reporting transactions helps to ensure that the accounting records and financial statements are complete and accurate. The accuracy and completeness of the accounting records is imperative to allow management to make informed financial decisions.

Condition: During our audit we noted that the School Department does not have adequate policies or procedures in place to ensure that all financial transactions are recorded in the proper period. As a result, there is an increase in the risk of material misstatement of accounts payable and accrued liabilities by the School Department at year end. In addition, the School Department did not have procedures in place to ensure that all receivables owed to the Department were properly recorded at year end.

Status: See current year finding 2019-003.

2018-004: Student Activity Funds

Criteria: The School Department maintains a policy which requires the principals or others responsible for maintaining student activity accounts to submit invoices over \$500 to the Finance Department for approval prior to the payment being processed

Condition: During our audit testing of the financial transactions reported in the Student Activity Funds we noted instances where the custodians of some of these funds were not in compliance with the established policy. In addition, we noted that the Finance Department was not properly preparing and/or maintaining reconciliations of these bank accounts and reporting the balances within the general ledger accounting system.

Status: See current year finding 2019-005.

SECTION V. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2018-005: School Lunch Cluster – CFDA #10.555 and #10.553

Criteria: One of the special tests and provisions of the compliance requirements related to the School Lunch Cluster is the requirement for “Paid Lunch Equity.” Under this provision the School Department is required to ensure that sufficient funds are provided to its school food service program from lunches served to students who are not eligible for free or reduced price meals. The School Department is required to make sure that the fee charged to full pay students is not less than the federal reimbursement rate paid for free lunch less the subsidy paid for full pay lunches. The calculation of this requirement should be completed annually utilizing the meal activity from October of the previous fiscal year.

Condition: The weighted average price requirement for fiscal 2018, was calculated to be \$2.85 while the actual calculated weighted average price was calculated at \$2.58. The variance of \$0.27 per meal is not required to be increased in one year, rather the School Department should be increasing the paid lunch fee by no more than \$0.10 per year until they are in compliance with the paid lunch equity calculation.

Status: The federal regulations removed this requirement for fiscal 2019 and therefore the finding is not applicable. However, the School Department did increase the meal price by \$0.10 in fiscal 2020 which will help to close the variance in the paid lunch equity calculation.

2018-006: School Lunch Cluster – CFDA #10.555 and #10.553

One of the compliance requirements related to the school lunch and breakfast program relates to determining the eligibility of students who may qualify for free or reduced lunch. Administrators of school lunch and breakfast programs are required to obtain and maintain documentation to substantiate a student's eligibility to receive free or reduced lunch.

Condition: In order to test compliance with the requirements related to eligibility for free or reduced lunch/breakfast we tested seventy-five participants who were receiving free or reduced meals. The results of that testing identified three instances where finance personnel could not provide documentation to support the free meals being provided, one instance where the application did not identify the number of members of the household and therefore, did not support the free lunch being provided, and two instances where the direct certification report that included the child for free lunch was not within the time period of when the meals were being provided.

Status: See current year finding 2019-006.

2018-007: School Lunch Cluster – CFDA #10.555 and #10.553

Criteria: Students whose family meet certain income guidelines may qualify for "free" or "reduced" meals. In order to qualify the family must submit applications to the School Department on an annual basis providing information on the family size and household income. Although, families meeting certain requirements may qualify for free lunch if they are included on a direct certification listings provided by the State of Rhode Island. Applications and direct certifications are reviewed by school department personnel and information entered into the computer program to determine eligibility. Annually, the school personnel must complete a verification testing of a limited number of applications as determined by the federal regulations.

Condition: The North Providence School Department currently has one employee who is responsible for reviewing and entering the applications to determine a student's eligibility for free or reduced priced meals. This employee is also responsible for completing the annual verification of applications. The North Providence School Department currently has no policy or procedures in place requiring someone, independent of the approval process, to review and approve the application entry conclusion or verification testing.

Status: See current year finding 2019-008.

2018-008: Equitable Sharing Program - CFDA #16.922

Criteria: Non-Federal entities are prohibited from contracting with or making subawards to parties that are suspended or debarred. Accordingly, the Town of North Providence should have policies and procedures to ensure that federally funded contracts are not being awarded to suspended or debarred parties.

Condition: During our testing of controls and allowable costs related to the construction of a new public safety complex, we noted that the Town of North Providence does not currently have a policy or procedures for determining if a contractor is suspended or debarred.

Status: The Town implemented a new policy during fiscal 2019 which requires the purchasing agent to document compliance with the requirement to ensure the contractor is not suspended or debarred from working on federally funded Town projects.

MANAGEMENT'S CORRECTIVE ACTION PLAN FOR THE YEAR ENDED JUNE 30, 2019

Section II. Financial Statement Findings

2019-03: Cutoff Procedures

Condition:

We also noted instances at the Town where Town Finance Personnel failed to record the liability related to retainage payable on construction contracts at year end. Although the retainage on the construction contract has no impact on the Town's General Fund, it does impact the financial position of the Government-wide Statement of Net Position and the Fund level financial statements of major capital projects and special revenue funds.

Cause:

The town properly recorded all amounts invoiced and applicable to fiscal 2019 in the proper period, however, management failed to identify the retainage withholding noted on the construction invoices to properly record the liability and expenditure incurred related to major construction projects.

Recommendation:

We recommend that the Town's Finance Director that the Town's Finance Director meet with finance personnel to review construction contract invoices to ensure that any retainage amounts are properly recorded as expenditure and payable at the end of the fiscal year.

Response:

Town management agrees with the auditor's recommendation regarding the retainage payable obligations at year-end. The Town's Finance Director has put into place procedures where contractor's invoices will be reviewed to ensure that any retainage payable noted on a contractor's invoice is properly identified and included in accounts payable/accrued liabilities and expenditures at the end of each fiscal year. Management believes that adequate controls are in place to ensure proper cutoff and reporting expenditures, however, the Finance Director has put in place additional controls to require contractor invoices to be reviewed by the Finance Director at year-end to ensure that the retainage payable is properly recorded.

MANAGEMENT'S CORRECTIVE ACTION PLAN FOR THE YEAR ENDED JUNE 30, 2019

2019-001: Maintenance and Review of General Ledger

Management of the School Department agrees with the finding regarding lack of controls over the maintenance and review of general ledger accounting records. Management within the school department is currently making sure all transactions are recorded in Munis when they occur. Manual checkbooks are still currently used, however the transactions are posted into Munis at the time they occur. Management is also ensuring that all reconciliations are now being done on a monthly basis and reviewed and signed off on by management. Interfund activity is currently being reconciled on a monthly basis to ensure accuracy. Actual written procedures will be created outlining these practices. The written procedures will be complete by June 30, 2020.

2019-002: Separation of Duties Related to Payroll Processing

Management of the School Department agrees with the finding regarding lack of appropriate segregation of duties. Management within the School department has already taken steps to ensure all new employees are added into the accounting system by the Human Resource department. Any changes to an employee's benefits or rate of pay is to come directly from Human Resources in a form of a memo to the payroll administrator. The payroll register is currently reviewed and signed off on by the Comptroller. The written procedures will be complete by June 30, 2020.

2019-003: Cutoff Procedures

Management of the School Department agrees with the finding regarding the establishment of policies and procedures related to the proper cutoff of financial reporting to ensure the accounting records are accurate and reliable. Management has contacted Tyler Technologies to get training scheduled within the next few months. The current management of the Finance department has experience with year-end procedures for payable and receivables and has already discussed this with the department. Written procedures will be prepared and complete by June 30, 2020.

2019-004: Compensated Absences

Management of the School Department agrees with the finding regarding the Compensated Absences calculation. The Finance Department will work with Human Resources to come up with procedures to ensure the accuracy of employee's leave balances. Management will also look into utilizing the Munis system to track these absences. Written procedures will be complete by June 30, 2020.

2019-005: Student Activity Funds

Management of the School Department agrees with the findings regarding Student Activity Funds. We are in the process of updating the account information in Munis. We have also been in communication with all principals regarding following policy in place and the consequences of not doing so. Management also plans to meet with all principals regarding these accounts and the proper use of the funds. We are also following up to ensure all reconciliations are being done and sent over for review by the Comptroller or Finance Director and signed off on. Any additional changes to the procedures currently in place will be completed by June 30, 2020.

2019-006: School Lunch Cluster - CFDA #10.555 and #10.553 - Eligibility

Management of the School Department agrees with the finding regarding the failure to establish formal policies and procedures for obtaining, maintain and reviewing eligibility applications. We will put procedures in place to have a second review of the applications by another individual in the Finance Department to ensure the compliance and correct determination. We will also establish procedures to ensure that the served meals reports are reviewed and compared to eligibility information to ensure that the School Department is properly seeking reimbursement for meals served to those individuals that qualify under "free" or "reduced" status.

2019-007: School Lunch Cluster - CFDA #10.555 and #10.553 - Special Tests and Provisions

Management of the School Department agrees with the finding regarding the compliance testing of applications. Going forward we will ensure the testing is done as required by the federal guidelines and appropriate documentation is kept to support compliance with this requirement.

2019-008: School Lunch Cluster - CFDA #10.555 and #10.553

Management of the School Department agrees with the finding of lack of controls in reviewing and determining a student's eligibility for free or reduced priced meals. Management will determine procedures to ensure the individual who is making the initial determination is not the same individual who is reviewing them periodically for compliance. Written procedures will be completed by June 30, 2020.
