## TOWN OF BARRINGTON RHODE ISLAND

KATHLEEN A. RAPOSA, CPA

December 28, 2020

To the Honorable President and Members of the Town Council Barrington, Rhode Island

The Comprehensive Annual Financial Report of the Town of Barrington, for the fiscal year ending June 30, 2020, is hereby submitted. This report was prepared by the Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Town's management. We believe the information, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations and cash flows of the Town; and that all disclosures necessary to enable the reader to gain an adequate understanding of the Town's financial affairs have been included.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The introductory section includes this transmittal letter, the Town's organizational chart, and a reproduction of our 2019 GFOA Certificate of Achievement for Excellence in Financial Reporting, and a list of principal officials. The Financial Section includes the Independent Auditors' Report, the Management Discussion and Analysis, the basic financial statements and required and other supplementary information. The Statistical Section includes selected financial and demographic information generally presented on a multi-year basis.

The Town is required to undergo an annual Single Audit in conformance with the provisions of the Single Audit Act of 1996 and Uniform Guidance. The Schedule of Expenditures of Federal Awards and Independent Auditors' Report on the internal control structure and compliance with laws and regulation are included in the Single Audit Section of this report.

## **GENERAL**

The Town of Barrington, incorporated as a Town on June 16, 1770, is located in Bristol County on the east side of Narragansett Bay in the State of Rhode Island, approximately 9 miles southeast of Providence. It is bounded by the City of East Providence on the northwest, the Town of Swansea, MA to the northeast, the Town of Warren on the south, by the Warren River on the East, and Narragansett Bay on the west and south. The Town of Barrington is made up of predominately single-family homes and a small mix of multifamily homes and commercial clusters.

#### **GOVERNMENT**

The Town operates under a charter form of government, which provides for a five member Town Council that is elected at large, for staggered four-year terms, at the regular biennial elections. They are responsible for enacting local legislation, and an appointed Town Manager executes the laws and oversees the administration of the town government. The electors of the Town qualified to vote upon a proposition to impose a tax or for the expenditure of money, may at an Annual or a Special Financial Town Meeting; authorize the acquisition of money and issuance of bonds pursuant to the statutes now or hereafter in effect.

## **EDUCATION**

A five Member School Committee that is elected at large, for staggered four-year terms, at the regular biennial elections, directs the general administration of the Barrington School System. The School Committee determines and controls all policies affecting the administration, maintenance, and operation of the public schools in town, which consist of four elementary schools, one middle school and one high school. The School Committee appoints a Superintendent as its chief administrative agent; submits a detailed budget of expenditures and determines the allocation of the amount appropriated. The school enrollment for September 2, 2020 was 3,355 students. The cost per student was \$15,713 shared by the Town and the State of Rhode Island in the form of School Operation Aid. The total State Aid for school operation for fiscal year 2019/20 was \$5,704,121.

As of October, at the beginning of each school year, the student enrollment in the Barrington School System for the past ten years has been:

<u>Year</u>	<b>Enrollment</b>
2011	3371
2012	3327
2013	3318
2014	3267
2015	3298
2016	3330
2017	3354
2018	3393
2019	3399
2020	3355
	2011 2012 2013 2014 2015 2016 2017 2018 2019

#### MUNICIPAL SERVICES

The Town provides the following major public services:

<u>Public Works</u> - The Town of Barrington Public Works Department provides a full range of services including street maintenance, snow removal, and maintenance of Town property.

<u>Public Safety</u> - The Town of Barrington provides fire prevention and suppression, emergency medical rescue, police patrol, investigations, community education, animal control and harbor control.

<u>Barrington Police Department</u> – The Town has a force that consists of a Police Chief, 32 full-time police officers and support personnel.

<u>Barrington Fire Department</u> – The Town has one fire station staffed by a Fire Chief and 28 full-time fire fighters.

<u>Wastewater</u> - Barrington's sanitary sewerage is treated by the City of East Providence. The Town pays the City of East Providence a fee based on the amount of sewerage treated at the Wastewater facility. Residents are billed annually by the Town of Barrington for sewer usage based on water consumption.

<u>Water</u> - Bristol County Water Authority supplies residents with water. Customers are billed directly by this agency.

#### LONG-TERM FINANCIAL PLANNING

Each year the Town adopts a six-year Capital Improvement Program. This plan helps identify projects that should be undertaken in the next six years. This long-range planning is essential in addressing the future development and growth of the Town. The Town has continually funded its capital requirements aggressively and maintains a pay as you go funding for most of its capital needs, which limits its' borrowing requests.

## ECONOMIC CONDITIONS AND OUTLOOK

Barrington is primarily a suburban residential community. Residential property accounts for 89% of the total tax roll. In terms of real estate tax revenue, 90% of the Town's tax revenue is derived from residential real estate.

## **EMPLOYMENT**

Most employment opportunities extend outside the Town to the Cities of Providence and Boston. In the first quarter of 2020 the town had 550 private businesses and 12 government units. The private sector employed an average of 2,432 with wages totaling \$27,272,271. Governmental jobs employed an average of 709 with wages totaling \$10,698,800.

## **HOUSING**

During 2020, sale prices for single-family homes in Barrington ranged from \$195,000 to more than \$2,800,000. The fiscal year 2020 median sales price for homes in Barrington was \$487,000.

#### POPULATION TRENDS

In 2010 Barrington was ranked 21st in population among the thirty-nine cities and towns in Rhode Island.

<u>Year</u>	<u>Population</u>
1950	9,105
1960	14,850
1970	17,375

#### ECONOMIC DEVELOPMENT

Barrington's commercial tax base has increased in recent years, growing by \$15.5 million between 2012 and 2019, or 11.1 percent. Commercial properties represent approximately 4.8 percent of the Town's overall tax base, as of December 31, 2019.

## **MAJOR INITIATIVES**

## New Subdivisions and Non-Residential Development:

- *Palmer Pointe*. The development on Sowams Road includes 40 new affordable housing units. The development was completed in 2019, reaching full occupancy December 2019. In addition to Palmer Pointe, East Bay CDC in 2019 completed three new duplex buildings (six units) at Sweetbriar on Washington Road (all occupied).
- 60 Bay Spring Ave. The owner in 2019 received Planning Board approval at the master plan stage for a 12-unit apartment building similar to the existing multi-unit buildings at the site. Construction started in 2020; anticipated completion in 2021.
- 55 Wood Ave. Construction of six new duplex units was completed in 2020. Two of the units qualify as affordable housing. The property, at the corner of Waseca and Wood Avenues, includes off-street parking, walkways and landscaping. As part of the project the applicant built a 200-foot public sidewalk, including curbing, along the Waseca Avenue frontage.
- *Haines Park Village II*. Construction continues at 187 County Road, which includes the addition of a second floor to the commercial building at the northwest corner of Washington Road and Bay Spring Avenue (zoned Residence-Business Flex). The proposal calls for construction of one live-work unit, plus three apartments including one affordable. Project is expected to be finished in 2021.

• Continuing Care Retirement Community at the former "Zion Bible Institute" campus. The Planning Board in February 2016 approved the master plan for a senior residential community at the former Zion Bible Institute campus. The master plan, which remains valid until mid-2021, includes more than 210 "independent living" units in cottages and multifamily buildings, a 50-unit assisted living and a 24-unit memory care facility. The development includes the renovation of Belton Court, a 50,000-square-foot former residence listed on the National Register of Historic Places. The Tax Stabilization Agreement between the Town and owner has expired.

<u>Park Improvements:</u> The Town in 2020 completed improvements at Latham Park, utilizing a \$234,400 State grant plus local funds. The project includes a new playground, improved volleyball court, additional parking, walkways and benches. The Town in 2020 secured about \$400,000 for completing a recreational and resilience improvement project at Walker Farm, which will include raising the gravel roadway to reduce flooding, installing a new floating dock for kayakers and rowers, expanding the parking lot, fixing shoreline erosion, and establishing coastal marsh within a low area that frequently floods.

<u>COVID-Related Activities.</u> In response to the pandemic, the Town relaxed regulatory restrictions that allowed six restaurants to establish outdoor seating, approved the free use of Town open space by businesses, and worked with the State to secure \$50,000 in MicroEnterprise Grants providing up to \$5,000 to qualified businesses. Two grants were approved as of September 1, 2020.

## **LIBRARY**

The mission statement of Barrington Public Library (the Library) is "to provide, without charge, diverse and easily accessible materials, services and programs to educate, inform, enrich and entertain all residents of Barrington and the greater Rhode Island community." The Library carries out its mission by providing a broad, diverse, and in-depth collection of books, movies, audiobooks in both physical and electronic formats. Patrons enjoy up-to-date technology and fast and free internet. Free public programs on timely and popular topics are offered to children, teens, and adults.

The Library is the fifth-busiest public library in the state, behind only the cities of Providence, Cranston, Warwick, and East Providence. The Library has the highest per capita use regarding visits, program attendance and the borrowing of books and materials in the state. Much of the Library's success is due to having the highest level of public financial support per capita in the Rhode Island.

In 2017, the Library renovated approximately 14,000 square feet on the 2nd floor of the Library/Peck Center building. The project redesigned and relocated the popular children's room, upgraded the auditorium and program spaces, and added more flexible meeting room space. Funding for the project came from a combination of sources, including a municipal bond through the Town of Barrington, to be fully reimbursed by the Office of Library and Information Services (OLIS); private fundraising within the community, and grants from the Champlin Foundations and the Rhode Island State Council on the Arts. The renovation yielded a substantial increase in the use of meeting rooms by the general public and town organizations and establishes the Library as the cornerstone of the community.

#### THE BAY TEAM

The Barrington Adult Youth Team (The BAY Team) is the Barrington's substance abuse prevention coalition. The BAY Team is led by Denise Alves, Coalition Director and Dr. Kristen Westmoreland, Outcomes Director. The coalition is comprised, under the state of Rhode Island regional prevention model, of six sectors of the community-government, business, community/family supports, education, safety, medical/health. Its mission is to create a safe and healthy community through communication and collaboration. The staff and volunteers meet monthly in a town hall (currently by zoom) conference room.

In 2017 the coalition was awarded the East Bay Region 5 prevention grant by the Department of Behavioral Health, State of RI. This 5-year grant is to manage a regional coalition model for Barrington, Bristol, East Providence, and Warren with the goal of working collaboratively on prevention efforts. We are currently completing Year 4. Through this grant The BAY Team also received additional funding: the PFS (Partnership for Success) grant (4/19-1/20 and renewable for 4 years based on federal funding-currently in Year 2) and SOR (State Opioid Response) grant (4/19-1/20 and renewable for 1 year based on federal funding-currently completing Year 2). Both funding sources are for the benefit of the region. The Tobacco Free Youth Initiative grant that The BAY Team managed for the past 3 years ended 11/18, however, The BAY Team was then awarded a contract for the next round of Tobacco Free Teen Alliance funding that began 12/18 and will run through 11/19 with 2 years renewable based on federal funding. We are currently completing Year 2 of 3.

## **FINANCIAL INFORMATION**

A detail understanding of the financial position and operating results of the Town is provided in the Comprehensive Annual Financial Report (CAFR). The Management's Discussion and Analysis starting on page 4 of the CAFR provides additional information to assess the Town's financial condition.

#### INTERNAL CONTROLS

In developing and evaluating the Town's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization, procedures, and records that are concerned with the safeguarding of assets and the reliability of financial records and consequently is designed to provide reasonable assurance that:

- Transactions are executed in accordance with management's general or specific authorization.
- Transactions are recorded as necessary (1) to permit preparation of financial statements in conformity with generally accepted accounting principles or any other criteria, such as finance related legal and contractual compliance requirements applicable to such statements, and (2) to maintain accountability of assets. Access to assets is permitted only in accordance with management's authorization.

• The recorded accountability of assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

The definition of accounting control presumes reasonable, but not absolute, assurance that the objectives expressed in it will be accomplished by the system. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits to be derived. The benefits consist of reductions in the risk of failing to achieve the objectives implicit in the definition of accounting control.

All internal control evaluations occur within the above framework. We believe that the Town's internal accounting control adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

#### **DEBT ADMINISTRATION**

The Town's management actively manages the Town's long-term debt. As the Town analyzes its Capital Improvement Program, any projects that are too large to be funded out of the current year capital funding are listed as possible bond items. The projects needs are then compared to the Town's debt service schedule. The Town strives to maintain somewhat level debt service payments year-to-year to minimize large fluctuations in the tax rate. As a general rule, new bonds are approved and debt service payments are calculated and issued to correspond to debt maturities and retirements. In 2017, the Town bonded \$68.4 million for a new middle school. There was no debt issued in 2018 and in 2019 debt was issued for the Peck Center, Roads and Open Space. No debt was issued in 2020.

The Debt Capacity section in the statistical section of this report presents more detailed information about the debt position of the Town.

#### INDEPENDENT AUDIT

In accordance with the Town's Charter an audit of the accounts and financial statements has been completed by the Town's independent Certified Public Accountants, Bacon & Company, LLC and their opinion are included herein.

## REPORTING ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Barrington for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019. This was the twenty-first consecutive year that the government has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

## **ACKNOWLEDGMENT**

The preparation of the Comprehensive Annual Financial Report on a timely basis could not have been accomplished without the efforts and dedication of the competent staff of the Finance Department. I would also express my appreciation to other personnel from various departments who assisted in its preparation. Finally, I would like to thank the Town Manager and the Town Council for their support in planning and conducting the financial operation of the Town in a dedicated, professional and responsible manner.

Respectfully,

Kathleen Raposa Finance Director

## Independent Auditor's Report

To the Honorable President and Members of the Town Council Town of Barrington, Rhode Island

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Barrington, Rhode Island, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Barrington, Rhode Island's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Barrington, Rhode Island, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and supplementary pension and other postemployment benefit information on pages 4 through 15 and pages 83 through 99 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Barrington, Rhode Island's basic financial statements. The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic

financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the combining fiduciary fund financial statements, Annual Supplemental Transparency Report (MTP2), other supplementary information, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## TOWN OF BARRINGTON MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Town of Barrington provides this Management's Discussion and Analysis of the Town of Barrington's Comprehensive Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of Barrington is for the fiscal year ended June 30, 2020. We encourage readers to consider this information in conjunction with the additional information that is furnished in the letter of transmittal, which can be found preceding this narrative, and with the Town's financial statements that follow.

#### FINANCIAL HIGHLIGHTS

At the end of the current fiscal year unassigned fund balance for the general fund was \$20,074,536 or 28.4% of total 2020 budgeted expenditures. This is an increase of \$653,668 from the prior year unassigned fund balance.

The Town ended fiscal year 2020 with a budgetary operating surplus of \$625,084. Of this, \$297,025 was due to positive revenue variances. More revenue was received than budgeted due to realty stamp funds because more homes were sold than anticipated for budget purposes. Additional money was received on investments due to stable interest rates. Inspection permits were higher than budgeted and Police revenue from details received more funds than budgeted due to more than anticipated road details. There were positive expenditure variances in the amount of \$328,059 due to budget verses actual positive variances in the Police Department, Dispatch and Department of Public Works salary line and overtime line. The salary variances generated a positive budget to actual amount in benefit expenditures. The Library and the Senior Center also had reduced salaries due to COVID19. There was also savings on the Town Solicitor line, less time than expected was spent on legal consultations.

The School ended with a budgetary operating surplus of \$2,498,734. The school operating surplus was a result of mostly COVID-related factors. Favorable variances in salaries and benefits are attributed to a drop in the need for substitute teachers as a result of distance learning. Favorability to budget in the purchased services accounts is attributed to savings in services that were not able to be provided or needed in a distance learning environment, such as transportation of students. Favorability to budget in the supplies and materials accounts is attributed to classroom supplies and utility costs that were not needed as students were not in the district's facilities during distance learning.

The Town's internal service fund (medical fund) ended the year with a net position of \$3,245,124 which is a decrease of \$117,411.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Town's annual audit report. The financial section of this report consists of **four** parts – management's discussion and analysis (this section), the basic financial statements, required supplementary information, and other supplementary information that includes combining statements for non-major governmental funds and other fiduciary funds.

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town's overall status.
- ➤ The remaining statements are fund financial statements that focus on individual parts of the Town government, reporting the Town's operations in more detail than the government-wide statements.
  - ✓ The *governmental funds* statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.
  - ✓ *Proprietary fund* statements offer short- and long-term financial information about the activities the government operates like businesses, such as the sewer system.
  - ✓ *Fiduciary Fund* statements provide information about assets that are held by the Town as a trustee or agent for the benefit of someone or something other than the Town itself. The Town cannot use these assets to support its own programs.

The financial statements also include notes that provide more detailed data about some of the information in the financial statements. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, also included is a section of combining statements that provide details about our non-major governmental funds and fiduciary funds, which are added together and presented in a single column in the basic financial statements.

Figure A-2 summarizes the major features of the Town's financial statements, including the portion of the Town government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

#### **Government-wide Statements**

The government-wide statements report information about the Town as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflow of resources. All the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Town's *net position* and how it has changed. Net position – the difference between the Town's assets, deferred outflows of resources and liabilities and deferred inflow of resources – is one way to measure the Town's financial health.

- Over time, increases or decreases in the Town's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Town you need to consider additional non-financial factors such as changes in the Town's property tax base, the condition of the Town's roads and facilities, etc.

The government-wide financial statements of the Town are divided into three categories.

- Governmental activities Most of the Town's basic services are included here, such as the police, fire, school, library, public works and general administration. Property taxes, charges for services and state funding finance most of these activities.
- Business-Type activities The Town charges fees to customers to cover the costs of certain services it provides. The Town's sewer system is included here.
- *Component units* The Town has one discretely presented component unit, the Barrington Public Library Corporation.

## **Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements focus on individual parts of the Town government, reporting the Town's operations in more detail than the government-wide statements. All the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental funds – Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirement.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By

doing so, readers may gain a better understanding of the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities.

The Town maintains 52 governmental funds. Two of these are considered a major fund for presentation purposes. That is, each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The Town's major governmental funds are the General Fund and the Bonded Construction Projects Fund.

The basic governmental fund financial statements can be found on pages 18-23 of this report.

**Proprietary Funds** – The Town maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses an enterprise fund to account for its sanitary sewer operations. *Internal Service Funds* are used to report activities that provide supplies and services for the Town's other programs and activities – such as the Town's Employee Medical Insurance Fund.

The basic proprietary fund financial statements can be found on pages 24-27 of this report.

**Fiduciary Funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 28-29 of this report.

**Notes to the financial statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

Other information — In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, which includes reconciliation between the statutory fund balance for budgetary purposes and the fund balances for the General Fund as presented in the governmental fund financial statements. Required supplementary information follows the notes to the financial statements.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

## **Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Town's combined net position (government and business-type activities) totaled \$60,363,250 at the close of the most recent fiscal year.

The largest portion of the Town's net position (107%) reflects its investment in capital such as land, building, equipment, and infrastructure, less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Governmental activities**: Governmental activities increased the Town's net position by \$4,095,649. The key element for this increase is as follows:

1. An increase in assets due to an increase in capital assets.

**Business-type activities**: The net position for business-type activities decreased by \$351,554. The key element for this decrease is as follows:

Expenses exceeded revenues in the current year, this was mostly due to unbudgeted depreciation exceeding budget principal payments.

## Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

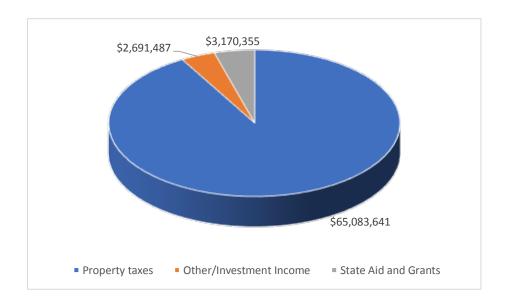

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$43,948,487 a decrease of \$9,235,477 in comparison with the prior year. The majority of this decrease is due to a \$12,715,553 decrease in the restricted fund balance for capital projects and an increase of \$2,220,123 in Education Programs Fund Balance. Unassigned fund balance represents \$20,074,536 or 45.7% of the total amount, which is the residual fund balance that is available for spending at the government's discretion. For a detailed explanation of fund balance, refer to Note 9 – Net position /Fund Balances on pages 50, 51 and 52.

Although shown in the General Fund, the school department maintains its own operating budget. Any excess funds remaining at year-end remain with the School department to be used at their discretion, per State law. At the end of the fiscal year, the fund balance, restricted for education programs was \$3,004,088. The School Committee plans to use \$1,430,368 for capital projects and the remainder of \$1,573,720 to maintain a minimum restricted fund balance. This is an increase of \$2,217,038 from the prior year's restricted fund balance.

The cemetery fund is overseen by a cemetery commission. The commission has full control and management of all cemetery and burial grounds belonging to the Town and controls the funds investment portfolio. During the current year, the fund spent \$164,315 on the maintenance of grounds and collected \$118,694 from lot sales and other revenue. The fund balance restricted for cemetery and burial grounds now stands at \$2,331,570 a decrease of \$97,789 over the prior year. This decrease was a result of losses on investments and expenditures greater than receipts.

The general fund is the chief operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the general fund was \$20,074,536. Total fund balance was \$25,010,824. As a measure of the general fund liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 28.4% of total FY20 general fund budgeted expenditures. The unassigned fund balance of the Town's general fund increased by \$653,668 during the current fiscal year. This is an 3.4% increase from the prior year.

## GOVERNMENT FUND GENERAL FUND REVENUES

**Proprietary Funds:** The Town has two proprietary funds, the sewer enterprise fund and the medical internal service fund. These proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

For the fiscal year ended June 30, 2020 the sewer fund had a decrease in net position of \$351,554. This net decrease was the result of unbudgeted depreciation costs exceeding budgeted principal debt payments.

Unrestricted net position in the medical internal service fund at the end of the year amounted to \$3,245,124. The decrease in net position is \$117,411. The decrease in net position was mainly due to increased health insurance claims over deposits.

**Fiduciary Funds:** The Town has eight fiduciary funds, the post-employment benefits trust fund, the Amey Tucker Spencer trust fund, four small private purpose trust funds and two small agency funds. The post employment benefits trust fund had a net increase in net position of \$1,221,960

The Amey Tucker Spencer trust fund is a trust fund specific to the needs of the poor and less fortunate residents in Town. This fund had an increase in net position of \$251,281 mostly due to investment earnings.

## **General Fund Budgetary Highlights**

The Town ended fiscal year 2020 with a budgetary operating surplus of \$625,084. Of this, \$297,025 was due to positive revenue variances. More revenue was received than budgeted due to realty stamp funds because more homes were sold than anticipated for budget purposes. Additional money was

received on investments due to stable interest rates. Inspection permits were higher than budgeted and Police revenue from details received more funds than budgeted due to more than anticipated road details. There were positive expenditure variances in the amount of \$328,059 due to budget verses actual positive variances in the Police Department, Dispatch and Department of Public Works salary line and overtime line. The salary variances generated a positive budget to actual amount in benefit expenditures. The Library and the Senior Center also had reduced salaries due to COVID19. There was also savings on the Town Solicitor line, less time than expected was spent on legal consultations.

## **Capital Assets and Debt Administration**

Capital Assets: The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2020 amounted to \$145,337,077 (net of accumulated depreciation). This investment in capital assets includes land, buildings, infrastructure, improvements, machinery & equipment, roads and construction in progress. The total increase in the Town's investment in capital assets for the current year was \$10,182,458.

Major capital asset events during the current fiscal year included the following:

1.	Water park at Police Cove	\$200,941

Additional information on the Town's capital assets can be found in NOTE 2 – CAPITAL ASSETS, starting on page 38.

**Long-term debt:** At the end of the fiscal year, the Town had total governmental boned debt outstanding of \$4,515,000, loans payable of \$62,110,000, bonds and loans from direct borrowings of \$12,471,198 and capital leases of \$633,141. Principal retirements on all debt totaled \$2,509,687 General obligation bonds are backed by the full faith and credit of the Town, including the Town's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens.

The Town has an Aa1 rating from Moody's Investors Service and an AAA from Standard & Poor's.

State statute limits the amount of bonds a governmental entity can issue to 3% of its total assessed valuation. As of June 30, 2020, the current debt limitation for the Town is \$94,942,662.

Additional information on the Town's long-term debt can be found in NOTE 6 – LONG TERM LIABILITIES, starting on page 45.

## **Economic Factors and Next Year's Budgets and Rates**

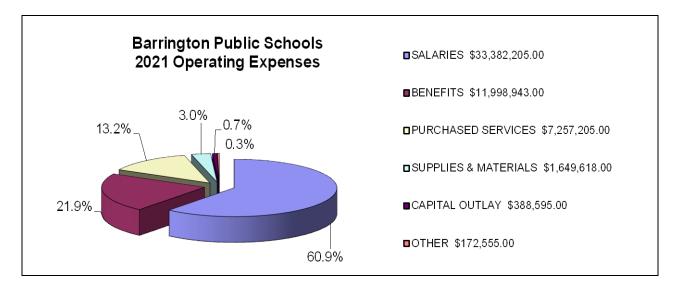

As of June 2020, the unemployment rate for the Town of Barrington is 7.8 percent. This compares favorably to the State's unemployment rate of 12.4 percent and the national average of 11.2 percent. Per capita and median family income remains some of the highest in the State and favorable nationally.

	Per Capita	<b>Median Family</b>
Barrington *	\$61,553	\$143,843
Rhode Island **	\$34,619	\$ 81,822
United States *	\$32,621	\$ 60,293

- \* Obtained from US Census Bureau–5-year average (2014-2018)
- \*\*RI Department of Labor

The following factors were considered in preparing the Town's budget for the 2020-21 fiscal year.

• The School budgeted operating and capital costs increased from \$52,842,348 to \$54,849,121. The dollar amount of the increase is \$2,006,773. The School local appropriation represents 63.34% of the total budget.

- Capital expenditures were \$1,737,795. This level is needed to protect and maintain the town's assets.
- Medical insurance increased 2% for fiscal 2021.
- State law limits the amount a municipality can raise taxes to 104.00 % of the prior year tax levy. The levy for 20-21 was certified at 4.11%.
- The motor vehicle phase-out reimbursement according to State law should be \$3,000. The Town is waiting for the State of Rhode Island to finalize a budget due to COVID-19, prior to issuing motor vehicle tax bills.

The tax rate set for fiscal year ended June 2021 is \$20.90. The Sewer fees is a three-part charge. The usage fee remained the same at \$4.85 per HFC. The fixed-cost charge remained the same at \$128.50 per connection and the sewer improvement assessment remained the same at \$203.00. The sewer improvement assessment is solely to fund the debt service costs incurred for the reconstruction of the Town's sewer infrastructure. The Town of Barrington is not aware of any facts, decisions, or conditions that would have a significant impact on fiscal year 2021 or beyond.

Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position June 30, 2020

Total Fund Balances - Total Governmental Funds	\$ 43,948,487
Amounts reported for Governmental Activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the Governmental Funds Balance Sheet. See note 2 to the financial statements.	128,505,699
Accrued interest receivable on property taxes is reported as revenue in Government-Wide financial statements in the period earned. In Governmental Funds financial statements, interest on property taxes is reported when received.	125,723
Other long-term receivables are not available to pay for current period expenditures and, therefore, are reported as deferred inflows of resources in Governmental Funds financial statements.	176,152
Delinquent taxes are recognized as revenue in the period for which levied in the Government-Wide financial statements, but are reported as deferred inflows of resources in Governmental Funds financial statements.	668,348
Interest payable on long-term debt does not require current financial resources. Therefore, interest payable is not reported as a liability in Governmental Funds Balance Sheet.	(778,894)
The Internal Service Fund is used by management to charge the costs of Health and Dental Insurance to individual funds. The assets and liabilities of the Internal Service Fund are included in Governmental Activities in the Government-Wide Statement of Net Position.	3,245,124
Long-term liabilities (including bonds, loans, and capital leases payable, compensated absences, settlements, and net pension liabilities) are not due and payable in the current period and therefore they are not reported in the Governmental Funds Balance Sheet. See note 6 to the financial statements.	(146,680,008)
Net pension asset and net OPEB asset are not available to pay for current period expenditures and, therefore, are not reported in the Governmental Funds financial statements.	7,848,099
Deferred pension and OPEB amounts are not reported in the Governmental Funds financial statements, but are reported in the Government-Wide financial statements as follows:  Deferred outflows of resources  Deferred inflows of resources	14,124,502 (7,717,278)
Deferred amounts on refunding are not reported in the Governmental Funds financial statements, but are reported net of accumulated amortization as deferred outflows of resources in the Government-Wide financial statements.	4,975

For the Year Ended June 30, 2020

Net Changes in Fund Balances - Total Governmental Funds	\$	(9,235,477)
Amounts reported for Governmental Activities in the Statement of Activities are different because:		
Governmental Funds financial statements report capital outlay as expenditures. However, in the Government-Wide Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital asset additions recorded in the current period.		14,138,055
Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in Governmental Funds financial statements.		(2,602,316)
Long-term compensated absences are reported in the Government-Wide Statement of Activities, but do not require the use of current financial resources. Therefore, long-term compensated absences are not reported as expenditures in Government Funds financial statements. Notes to Financial Statements June 30, 2020

The financial statements of the Town of Barrington, Rhode Island, have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the Town's financial statements.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. REPORTING ENTITY

The Town of Barrington was founded in 1770. The Town is governed largely under the 1958 Barrington Home Rule Charter. In some matters, including the issuance of short and long-term debt, the Town is governed by the general laws of the State of Rhode Island. The Town operates under a Town Council-Town Manager form of government and provides the following services as authorized by its charter: public safety (police, fire, civil preparedness and harbor control); public works (sanitation, highways and streets, engineering and building maintenance); code enforcement; recreation; education; libraries; social services; and general administrative services.

In evaluating the inclusion of potential component units within its financial reporting entity, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" and GASB Statement No. 61 "Financial Reporting Entity-Omnibus". A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. Through the application of GASB Statements Nos. 14, 39 and 61 criteria, the Barrington Public Library Corporation (BPLC) has been discretely presented as a component unit of the Town in the Government-Wide Financial Statements.

The BPLC is a not-for-profit organization exempt from Federal income taxes under section 501(c) (3) of the Internal Revenue Code. The Board of Directors of the BPLC is appointed by the Town Library Board of Trustees and a financial benefit relationship exists between the BPLC and the Town. The fiscal year of the BPLC ends on December 31. The BPLC does not issue separate financial statements.

#### B. BASIS OF PRESENTATION AND ACCOUNTING

#### **Government-Wide Financial Statements**

The Town's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements report information about the reporting entity as a whole. Fiduciary activities of the Town are not included in these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through property taxes, intergovernmental revenue, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods and services rendered.

Notes to Financial Statements June 30, 2020

The Statement of Activities presents a comparison between direct expenses and program revenue for the business-type activities and for each function of the Town's governmental activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including property taxes and general state aid, are presented as general revenues.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets, infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

#### **Fund Financial Statements**

The Fund Financial Statements of the Town are organized into funds, each of which is considered to be a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific Town functions or activities. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures/expenses. Funds are organized into three categories: governmental, proprietary, and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the Fund Financial Statements.

#### **Governmental Fund Financial Statements**

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide Financial Statements.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are

Notes to Financial Statements June 30, 2020

recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally collected 60 days after year-end) are recognized when due. The primary revenue sources which have been treated as susceptible to accrual by the Town are property tax and intergovernmental revenues. Expenditures are recorded in the accounting period in which the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured.

#### Major Governmental Funds:

**General Fund** – The General Fund is used to account for resources devoted to financing the general services that the Town performs for its citizens and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted or reported in another fund.

**Bonded Construction Projects Fund** – The Bonded Construction Projects Fund accounts for debt proceeds used for major construction projects, other than those financed by proprietary funds.

#### **Proprietary Fund Financial Statements**

Proprietary Fund Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows. A column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the Governmental Activities in the Government-Wide Financial Statements.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) are included in the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The Town has one Enterprise Fund as follows:

*Wastewater Fund* – The Wastewater Fund is used to account for the sewer use fees and the expenses associated with providing wastewater services to Town residents.

The Town has one Internal Service Fund as follows:

*Medical Fund* – The Medical Fund is used to account for the Town's self-insured health and dental care programs.

Notes to Financial Statements June 30, 2020

#### **Fiduciary Fund Financial Statements**

Fiduciary Fund Financial Statements include a Statement of Net Position and a Statement of Changes in Net Position. The Town's Fiduciary Funds include the Post Employment Benefits Trust Fund, Private Purpose Trust Funds and Agency Funds. Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting. Agency funds are purely custodial and do not involve measurement of results of operations.

**Post Employment Benefits Trust Fund** – This fund was established by Town ordinance effective December 2006 to account for funds to finance other post employment benefits paid by the Town and the payment of these benefits as they come due. The fund presently is accounting for surplus funds derived from the Town's Medical Internal Service Fund in conformance with the Town ordinance and the payment of retirees' benefits on a "pay as you go" basis.

*Private Purpose Trust Funds* – These funds account for funds held by the Town under various trust arrangements for the benefit of certain individuals. The Private Purpose Trust Funds includes the Land Easement Security Fund, the Amey Tucker Spencer Trust Fund, the Nicholas Gizzarelli Trust Fund, the Patrick Murphy Trust Fund and the William Vendituoli Trust Fund.

Agency Funds – These funds account for assets held by the Town as agent for various student groups and for funds held for performance bonds. The Agency Funds include the Performance Bond Fund and the Student Activity Funds.

#### C. RECENTLY ISSUED ACCOUNTING STANDARDS

The Town has implemented the following new accounting pronouncements:

• GASB Statement No. 95 – Postponement of the Effective Dates of Certain Authoritative Guidance, effective for the Town's fiscal year ending June 30, 2020.

The adoption of GASB Statement Number 95 did not have an impact on the Town's financial position or results of operations.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 84 *Fiduciary Activities*, effective for the Town's fiscal year ending June 30, 2021.
- GASB Statement No. 87 *Leases*, effective for the Town's fiscal year ending June 30, 2022.
- GASB Statement No. 89 Accounting for Interest Cost Incurred before the End of a Construction Period, effective for the Town's fiscal year ending June 30, 2022.
- GASB Statement No. 90 Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61, effective for the Town's fiscal year ending June 30, 2021.
- GASB Statement No. 91 *Conduit Debt Obligations*, effective for the Town's fiscal year ending June 30, 2023.

Notes to Financial Statements June 30, 2020

- GASB Statement No. 92 *Omnibus 2020*, effective for the Town's fiscal year ending June 30, 2022, except for the requirements related to the effective date of Statement 87 and Implementation Guide 2019-3 which are effective upon issuance.
- GASB Statement No. 93 *Replacement of Interbank Offered Rates*, effective for the Town's fiscal year ending June 30, 2021, except for paragraphs 11b, 13 and 14 which are effective for the Town's fiscal year ending June 30, 2022.
- GASB Statement No. 94 *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for the Town's fiscal year ending June 30, 2023.
- GASB Statement No. 96 Subscription-Based Information Technology Arrangements, effective for the Town's fiscal year ending June 30, 2023.
- GASB Statement No. 97 Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans an amendment of GASB Statements No. 14 and No. 84, and a suppression of GASB Statement No. 32, effective for the Town's fiscal year ending June 30, 2022, except for paragraphs 4 and 5 which are effective upon issuance.

The impact of these pronouncements on the Town's financial statements has not been determined.

#### D. CASH EQUIVALENTS

The Town considers cash and cash equivalents in the Proprietary Funds to include cash on hand, time and demand deposits, and short-term investments maturing within three months from the date of acquisition.

#### E. INVESTMENTS

The Town's investments are reported at fair value, except for money market funds and pooled investments, which are reported at net asset value per share (which approximates fair value).

#### F. ACCOUNTS RECEIVABLE AND TAXES RECEIVABLE

Accounts receivable and taxes receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables.

Property taxes which were levied on September 1, of the current year and other delinquent balances are recorded as receivables.

#### G. PREPAID ITEMS

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

#### H. UNBILLED SERVICES RECEIVABLE

Wastewater revenue is recorded when earned. Customers are billed annually. The estimated value of services provided, but unbilled at year-end has been included in the accompanying financial statements.

Notes to Financial Statements June 30, 2020

#### I. INVENTORY

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory is generally recorded as expenditures/expenses when consumed.

#### J. CAPITAL ASSETS AND DEPRECIATION

Capital assets are reported in the Government-Wide Statement of Net Position.

In the Fund Financial Statements, capital assets used in governmental fund activities are accounted for as capital expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for in the same manner as in the Government-Wide Financial Statements.

All capital assets are recorded at cost (or estimated historical cost). Donated capital assets are recorded at acquisition value as of the date received. The Town follows the policy of not capitalizing assets with a cost of less than \$10,000 and a useful life of less than 1 year. The Town retroactively adjusted for infrastructure assets in fiscal year 2004.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	Estimated <u>Useful Lives</u>
Land improvements	20 - 50 years
Buildings, improvements, pump stations and infrastructure	20 - 50 years
Machinery and equipment	5 - 30 years
Vehicles	5-15 years

#### K. DEBT PREMIUMS

In the Governmental Fund Financial Statements, debt premiums are reported as an "other financing source". In the Government-Wide Statements, debt premiums are deferred and amortized over the term of the debt. Debt premiums are presented as an addition to the face amount of the debt payable.

## L. DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

In the Governmental Fund Financial Statements, deferred inflows of resources are reported for receivables recorded in the Governmental Fund Financial Statements for which the revenue is not available or amounts received before the period for which property taxes are levied. In the Government-Wide Financial Statements, deferred inflows of resources are reported for amounts

Notes to Financial Statements June 30, 2020

received before the period for which property taxes are levied and deferred amounts related to refunding debt issues which will be amortized as a component of interest expense in future years. Deferred outflows of resources and deferred inflows of resources are also reported for amounts related to the Town's pension plans and other post employment benefit plan that will be amortized as a component of pension and other post employment benefit expense in future years.

#### M. PROPERTY TAXES

The Town is permitted by state law to levy property taxes. Current tax collections for the Town, including the 60-day collections, were approximately 98.8% of the total 2019 levy. The tax rate of the Town is established by the citizens at the Financial Town Meeting.

The Town's fiscal 2019-2020 property taxes were levied on September 1, 2019 on assessed valuation as of December 31, 2018. Upon levy, taxes are due and payable on September 1 or may be paid quarterly on September 30, December 30, March 30, and June 30. Failure to mail payments by due dates will result in lien on taxpayer's property. Taxable assessed values are established by Tax Assessor's Office and are currently calculated at approximately 100% of current market value for real estate and motor vehicles. A revaluation of all property was completed as of December 31, 2014.

#### N. COMPENSATED ABSENCES

Under the terms of various contracts and agreements, Town employees are granted vacation and sick leave in varying amounts based on length of service. Vacation benefits are accrued as a liability based on the accumulated benefits earned at June 30. Sick leave benefits are based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The liability is calculated at the rate of pay in effect at June 30, 2020.

The entire compensated absence liability is reported on the Government-Wide Financial Statements. For Governmental Fund Financial Statements, the amount of accumulated vacation and sick leave has been recorded as a current liability to the extent that the amounts are due to employees that have resigned or retired.

#### O. ACCRUED LIABILITIES AND LONG-TERM DEBT

All accrued liabilities and long-term debt are reported in the Government-Wide Financial Statements.

For Governmental Fund Financial Statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments and compensated absences paid from governmental funds are reported as a liability in the Governmental Fund Financial Statements only for the portion expected to be financed from expendable available financial resources. Long-term debt paid from governmental funds is not recognized as a liability in the Governmental Fund Financial Statements until due.

Notes to Financial Statements June 30, 2020

#### P. PENSIONS

For purposes of measuring the net pension liabilities (assets), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System plan, the Teachers' Survivor Benefit plan, and the Municipal Employees' Retirement System plans and the additions to/deductions from each respective plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Q. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Town of Barrington's Post Employment Health Insurance Plan (the plan) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, the plan recognizes benefit payments when due and payable, in accordance with the benefit terms. Investments are reported at fair value.

#### R. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### A. LEGAL DEBT MARGIN

The Town's legal debt margin as set forth by State Statute is limited to three percent of total taxable assessed value which approximates \$94,942,662. As of June 30, 2020, the Town's debt subject to the legal debt margin is \$24,150,509 and the Town is under the debt limit by \$70,792,153. The debt subject to the debt limitation is based on the type of debt that is issued.

#### **NOTE 4 – CASH DEPOSITS**

**DEPOSITS** – are in four financial institutions and are carried at cost. The carrying amount of deposits is separately displayed on the Balance Sheet of the Fund Financial Statement and Statement of Net Position as "Cash and Cash Equivalents".

	Carrying <u>Amount</u>
Total Deposits	\$35,049,700
Add: Petty Cash	1,650
Total Cash and Cash Equivalents Reported in the Financial Statements	\$35,051,350

CUSTODIAL CREDIT RISK – custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Town will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a formal deposit policy for custodial credit risk, but is governed by State Laws as described below. As of June 30, 2020, \$28,544,084 of the Town's bank balance of \$30,085,676 was exposed to custodial credit risk as follows:

Notes to Financial Statements June 30, 2020

Total Investments Reported in the Financial Statements \$29,235,118

Notes to Financial Statements June 30, 2020

The Town has investment policies for the following funds:

General Fund investments are governed by Title 35, Chapter 10, Section 11 of the State's General Laws. This law generally allows for short-term investments, such as certificate of deposits, money market funds, obligations guaranteed by the U.S. government, etc. with the goal of seeking reasonable income while preserving capital.

Capital Project funds (Reserve Funds) are governed by Title 45, Chapter 11, Section 1 of the State's General Laws. This law permits, with advice from the Town Council, savings accounts, certificate of deposits, obligations of the U.S. government or its agencies or in any other short-term investment, as would be made by prudent persons of discretion and intelligence.

The Cemetery funds are invested at the discretion of the Cemetery Commission. The policy allows for diversity in equity, fixed income and cash equivalents and to provide a balance in investment return while avoiding speculative issues and avoiding concentration in individual issues or sectors.

The Amey Tucker Spencer private-purpose trust fund's investment policy is a general 'balanced return' strategy. It intends to provide long-term total return opportunities through an allocation of both equities (40% - 60%) and fixed income investments (40% - 60%).

Interest Rate Risk — The Town does not have any restrictions in any of its investment policies that limit investment maturities. In order to minimize risk of fair value losses arising from interest rate fluctuations, the Town uses the three-month U.S. Treasury Bill as a performance benchmark.

Credit Risk – The Town is governed by State Laws that limit investment choices to short-term investments for its public deposits (General Fund) and reserve funds (Capital Projects). The Town has further limited its investment in the Capital Project funds to obligation of the U.S. government and its agencies and the top two tiers of commercial paper. The investment choices in the other funds are not limited.

**Concentration of Credit Risk** – The Town does not have any policies that limit the amount that can be invested with one issuer.

Custodial Credit Risk – Custodial credit risk for investments is the risk that in the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's corporate stock of \$2,810,254 and municipal bonds of \$172,583 are held by the investment's counterparty in the Town's name. The Town does not have a policy governing custodial credit risk.

Notes to Financial Statements June 30, 2020

**Foreign Currency Risk** – The Town does not have a policy governing foreign currency risk. The Town's exposure to foreign currency risk is as follows:

	Currency	<u>Maturity</u>	Fair Value
International Stock	Chinese renminbi	N/A	\$ 53,278
International Equity Funds	N/A	N/A	224,573
International Equity Funds	N/A	N/A	22,940
International Equity Funds	N/A	N/A	64,505

International Equity Funds	N/A	N/A	10,697
International Fixed Income Funds	N/A	Average - 2.76 years	38,639
Total Foreign Currency Risk			\$ 544,581

Fair Value Measurements – The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2020:

• The following investments are valued using quoted market prices (Level 1 inputs): stocks and equity funds \$4,849,507 and fixed income funds \$2,100,988. Municipal bonds of \$172,583 are valued using multi-dimensional relational models and matrices that consider benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data (Level 2 inputs).

All money market investments have a maturity of less than one year. The fair value of these money market funds reflects the net asset value reported by the fund administrator which is a stable \$1 per unit. The underlying investments, which are short-term cash equivalent type investments are generally carried at amortized cost which approximates fair value. There are no participant's withdrawal limitations.

The valuation method for pooled investments measured at net asset value (NAV) per share (or its equivalent) is presented in the following table:

		Redemption	Redemption Notice
	Fair Value	Frequency	Period
Trust OPEB Funding	_		
Program	\$14,648,617	Daily	None

Notes to Financial Statements June 30, 2020

The Trust OPEB Funding Program investment utilizes a growth strategy seeking both a reasonable level of income and long-term growth of capital and income. The Program invests in seven index and mutual funds: total stock market index fund, total international stock index fund, total bond market index fund, intermediate-term investment grade fund, short-term investment grade fund, inflation protected securities fund, and real estate index fund. The fair values of the underlying investments are used to determine NAV per share (or its equivalent) of the Trust OPEB Funding Program investment.

**Discretely Presented Component Unit** – As of December 31, 2019, the BPLC's investments were as follows:

#### E. LOANS PAYABLE

Governmental Activities – On April 20, 2017, the Town entered into a loan agreement in the amount of \$63,480,000 with Rhode Island Health and Educational Building Corporation to be used to construct a new Middle School. The loan bears interest of 2 to 5% and is due April 1, 2019-2042. As of June 30, 2020, a loan payable of \$62,110,000 is reflected in the Government-Wide Financial Statements – Governmental Activities.

The Town of Barrington has entered into four loan agreements with the Rhode Island Infrastructure Bank as follows:

	Original		
Loan Date	Loan Amount	Interest Rate	Matures
March 29, 2011	\$3,270,400	.92% - 3.83%	September 1, 2012 - 2031
June 2, 2016	\$3,000,000	.81% - 2.74%	September 1, 2017 - 2035
October 4, 2018	\$2,500,000	1.272% - 2.752%	September 1, 2019 - 2033
October 4, 2018	\$3,500,000	1.06% - 2.48%	September 1, 2019 - 2038

The loan proceeds are to be used by the Town for various landfill, drainage, roads and efficient buildings projects. The RI Infrastructure Bank pays project invoices certified by the Town directly to the contractors or reimburses the Town for costs incurred on the projects. As of June 30, 2020, loans payable of \$10,406,198 are reflected in the Government-Wide Financial Statements - Governmental Activities. A due from the Rhode Island Infrastructure Bank of \$3,483,695 is shown for that portion of the loans which have not been advanced as of June 30, 2020. The Town is responsible to drawdown and repay the full loan amounts.

**Business-Type Activities** – The Town of Barrington has entered into three loan agreements with the Rhode Island Infrastructure Bank as follows:

	Original		
Loan Date	Loan Amount	Interest Rate	Matures
December 30, 2004	\$4,392,000	1.208%	September 1, 2005 - 2024
December 21, 2006	3,908,000	1.240%	September 1, 2008 - 2027
December 12, 2007	3,156,170	1.344%	September 1, 2008 - 2027

The loan proceeds were used by the Town for the upgrade of the sewer treatment system. The RI Infrastructure Bank pays project invoices certified by the Town directly to the contractors or reimburses the Town for costs incurred on the projects. As of June 30, 2020 loans payable of \$4,376,170 are reflected in the Waste Water Fund. The loans are secured by a pledge of waste water system revenues.

#### NOTE 7 – INTERFUND BALANCES

The Town reports interfund balances between many of its funds. The totals of all balances agree with the sum of interfund balances presented in the fund statements.

	Due From:					
	General Fund	Nonmajor Governmental Funds	Other Post Employment Benefits Trust Fund	Agency Funds	Total	
Due To:						
General Fund	\$ 3,031,716	\$ 1,219,853	\$ 9,500	\$ 261,324	\$ 4,522,393

Total	\$ 1,450,768	\$	58,549	\$ 1,509,317	

Transfers are used to move revenues from the fund that the budget requires to collect them, to the funds that the budget requires to expend them.

#### **NOTE 9 – NET POSITION/FUND BALANCES**

The Government-Wide Financial Statements utilize a net position presentation. Net position is categorized as net investment in capital assets; restricted; and unrestricted.

**Net Investment in Capital Assets** – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Notes to Financial Statements June 30, 2020

**Restricted Net Position** – This category represents external restrictions imposed by grantors or laws and regulations.

*Unrestricted Net Position* – This category represents net position of the Town, not restricted for any project or other purpose.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

**Nonspendable Fund Balance** – This classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash (e.g. prepaid expenditures, inventories and tax title property).

**Restricted Fund Balance** – This classification includes amounts that have constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

**Committed Fund Balance** – This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision-making authority.

**Assigned Fund Balance** – This classification includes amounts constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed.

*Unassigned Fund Balance* – This classification is the residual fund balance for the General Fund which is the only fund that reports a positive unassigned fund balance amount. This classification represents fund balance that has not been assigned to another fund and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Committed fund balances are established, modified or rescinded by a resolution adopted by the taxpayers at a Financial Town Meeting or an ordinance adopted by the Town Council. The Town Council has designated the Finance Director the authority to classify amounts for specific purposes through assigned fund balances. Assigned fund balances are also authorized by the School Committee for education related expenditures, as empowered by state law. The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Town considers unrestricted fund balance classifications to be used in the following order when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used: 1) committed; 2) assigned; and 3) unassigned.

The Town has the following minimum fund balance and net position policies:

Notes to Financial Statements June 30, 2020

- General Fund -30% of regular general fund operating expenditures or no less than 3 months of regular general fund operating expenditures.
- Wastewater Fund one year worth of sewer use charges.
- Medical Fund excess claims reserve plus equivalent of 2-months of premiums.

#### NOTE 10 – DISAGGREGATION OF RECEIVABLE AND PAYABLE BALANCES

#### A. ACCOUNTS RECEIVABLE

The Town disaggregates significant components of receivables in the financial statements. Receivable balances determined immaterial are included as other receivables. The Town expects to receive all receivables within the subsequent year. The real estate and personal property tax receivable includes an allowance for doubtful accounts of \$764,985 and other receivables – rescue services include an allowance for doubtful accounts of \$87,606.

#### B. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The accounts payable and accrued liabilities at June 30, 2020, were as follows:

#### **NOTE 11 – POST EMPLOYMENT BENEFITS**

#### Plan Description

**Plan Administration** – The Town of Barrington administers a single-employer, defined benefit post-employment health insurance plan. This plan does not include the pension benefits discussed in Note 15. The Finance Director is responsible for administration of the plan in accordance with Town Ordinance with Town Council oversight. The plan is reported as a Trust Fund in the Town's financial statements. The plan does not issue a publicly available financial report.

*Plan Membership* – As of July 1, 2018 the plan membership data is as follows:

Active employees	357
Retirees	45
	402

**Benefits Provided** – The plan provides medical insurance for eligible retirees and their dependents through the Town's group health insurance plan, which covers both active and retired members.

Notes to Financial Statements June 30, 2020

Benefit provisions are established and amended by the union contracts through negotiations between the Town and the respective unions or as established by the Town Ordinance for non-union employees. The plan provides the following benefits based on employee group upon retirement:

- Police Medical coverage (single or family) for remainder of the fiscal year of retirement plus 5 additional years or until Medicare eligible or until retiree secures employment with equivalent coverage. Officers may continue coverage for up to 4 additional years with the entire cost paid by the retiree. Effective 10/1/2012, new hires are not eligible for postretirement medical coverage.
- Fire Medical coverage (single or family) for remainder of the fiscal year of retirement plus 5 additional years or until Medicare eligible or until retiree secures employment with equivalent coverage. In no event does coverage continue past age 65. Firefighters retiring after 7/1/1989 must contribute 20% of the premium. Effective 10/1/2012, new hires are not eligible for postretirement medical coverage.
- Public Works Medical coverage (single or family) for 5 years after retirement or until Medicare eligible. Members hired after 7/1/1991 must contribute 15% of the premium and those hired after 7/1/2007 must contribute 20% of the premium. Employees hired after 7/1/1995 are not eligible for postretirement medical coverage.
- Dispatchers Medical coverage (single or family) for remainder of the fiscal year of retirement plus 2 additional years or until Medicare eligible or until retiree secures employment with equivalent coverage. Members hired after 7/1/1995 receive coverage for the remainder of the fiscal year of retirement. Members hired after 7/1/1993 must contribute 20% of the premium. Effective 10/1/2012, new hires are not eligible for postretirement medical coverage.
- Other Town Employees Upon retirement with 20 years of service, medical coverage (single or family) for remainder of the fiscal year of retirement plus 5 additional years or until Medicare eligible or until retiree secures employment with equivalent coverage. Upon retirement with 10 to 19 years of service, coverage is extended for only 3 years past the fiscal year of retirement. Members hired after 7/1/1991 must contribute 20% of the premium. Employees hired after 9/1/1994 are not eligible for postretirement medical coverage.
- Certified Teachers Medical coverage (single or family) for the amount of years following retirement based on years of service as follows:

Service	<i>Individual</i>	<b>Family</b>	
10-24	7	3	
25-29	7	4	
30±	7	5	

Notes to Financial Statements June 30, 2020

Effective for new retirees after 7/1/2013, medical coverage is:

<u>Service</u>	<u>Individual</u>	<u>Family</u> N/A	
10-24	5		
25+	7	N/A	

Retirees hired after 7/1/1994 will contribute 20% of the premiums. Effective for new retirees after 7/1/2013, coverage will end at such time as the retiree is eligible for Medicare or other federally subsidized programs, whichever occurs first. Effective 5/1/2013, all newly hired certified teachers are no longer eligible for postemployment health insurance benefits.

• School Custodians – Medical coverage (single or family) for the amount of years following retirement based on years of service as follows:

<u>Service</u>	<u>Individual</u>	Family 3	
10-19	7		
20+	7	5	

Retirees hired before 7/1/2007 contribute 17.5% of the premium. Retirees hired after 7/1/2007 contribute 20% of the premium. Effective 6/1/2010, new employees are not eligible for postemployment health insurance benefits. Effective for new retirees after 7/1/2013, coverage will end at such time as the retiree is eligible for Medicare or other federally subsidized programs, whichever occurs first.

• School Support Staff and Non-Union – Medical coverage (single or family) for the amount of years following retirement based on years of service as follows:

Employees hired before 12/31/1997:

10-19	7	4	
20+	7	5	

Employees hired after 12/31/1997:

<u>Service</u>	<u>Individual</u>	<u>Family</u>
10-14	5	3
15-19	6	4
20+	7	5

Retirees contribute 15% of the premium. Members may elect to deny coverage and receive a "buyback" of \$1,500 per year.

Notes to Financial Statements June 30, 2020

Effective for new retirees after 6/30/13, medical coverage is:

<u>Service</u>	<u>rvice</u> <u>Individual</u>	
10+	4	N/A

Effective 8/31/2011, all newly hired employees are no longer eligible for postemployment health insurance benefits.

Contributions – Contribution requirements are negotiated between the Town and the respective unions or are established by Town Ordinance for non-union employees. The Town contributes an amount to the plan each year based on the current year cost of retiree benefits plus any surplus funds derived from the medical fund. For the fiscal year ended June 30, 2020, the Town contributed \$1,382,277 and plan members contributed \$0 to the plan.

# Summary of Significant Accounting Policies

**Basis of Accounting** – The Post Employment Benefits Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

*Method Used to Value Investments* – Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates.

#### Investments

*Investment Policy* – The Finance Director may invest funds held in the OPEB Trust Fund at his/her discretion in any personal property including, but not by way of limitation, common or preferred stocks, bonds, certificates of deposit, interest or participation, mutual funds, and other forms of security investments.

**Rate of Return** – For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 4.71%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amounts actually invested.

#### Net OPEB Liability (Asset) of the Town

The components of the net OPEB liability (asset) of the Town at June 30, 2020, were as follows:

Total OPEB Liability	\$12,221,029
OPEB Plan Fiduciary Net Position	(14,839,117)
Net OPEB Liability (Asset)	\$ (2,618,088)
Plan Fiduciary Net Position as a percentage of	
the Total OPEB Liability	121.42%

Notes to Financial Statements June 30, 2020

Actuarial Assumptions – The total OPEB liability was determined by an actuarial valuation as of July 1, 2018 rolled forward to June 30, 2020, the measurement date. The following actuarial assumptions applied to all periods in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age Actuarial Cost Method
Salary Increases	2%
Inflation	3%
Investment Rate of Return	7%
Healthcare Cost Trend Rates	5.50% per year graded down by the Getzen
	model to an ultimate rate of 4.04% per year
Mortality	2010 Public Sector Retirement Plans Mortality
	table for general/safety/teacher employee
	populations with MP-2019 mortality
	improvement scale

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target <u>Asset Allocation</u>	Long-Term Expected Real Rate of Return
Large Cap US Equity	48.30%	8.00%
Small / Mid Cap US Equity	8.00%	6.80%
International Equity	20.70%	8.60%
Intermediate to Long Bonds	19.40%	3.54%
Short-Term Bonds and Cash	3.60%	3.90%
	100.00%	

The following changes in actuarial assumptions have been made since the prior measurement date:

- Mortality was changed from 2010 Public Sector Retirement Plans Mortality table for general/safety/teacher employee populations with MP-2018 mortality improvement scale to 2010 Public Sector Retirement Plans Mortality table for general/safety/teacher employee populations with MP-2019 mortality improvement scale.
- Healthcare cost trend rate was changed from 5.70% per year graded down by the Getzen model to an ultimate rate of 3.94% per year to 5.50% per year graded down by the Getzen model to an ultimate rate of 4.04% per year.

Notes to Financial Statements June 30, 2020

**Discount Rate** – The discount rate used to measure the OPEB liability was 7%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the expected benefit payments. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability for the plan.

#### Payable to the OPEB Plan

At June 30, 2020, the Town reported a payable of \$200,000 for the outstanding amount of contributions to the Plan required for the year ended June 30, 2020.

#### **NOTE 12 – COMMITMENTS AND CONTINGENCIES**

#### A. LITIGATION

During the ordinary course of its operations, the Town is a party to various claims, legal actions and complaints. In the opinion of the Town's management and legal counsel, these matters are not anticipated to have a material financial impact on the Town.

Notes to Financial Statements June 30, 2020

#### B. FEDERALLY ASSISTED PROGRAMS – COMPLIANCE AUDITS

The Town and School Department participate in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2020 were audited in connection with the accompanying financial statements under the Single Audit concept and the auditor's reports thereon are presented in the Single Audit Section of this report. The amount, if any, of expenditures which may be disallowed by a grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

#### C. CONTRACT COMMITMENTS

The Town has contract commitments related to the Middle School project totaling \$384,782 as of June 30, 2020.

#### **NOTE 13 – MEDICAL FUND**

The Town established a Medical Fund to account for its health and dental care coverage programs which are accounted for in an Internal Service Fund.

The Town utilizes a "cost plus basis" plan under which the Town pays for the actual cost of covered health care services plus a fee to the provider for the administration of the program.

In order to avoid catastrophic losses, the Town purchases specific stop loss re-insurance. Under the stop loss re-insurance, the Town is covered for medical claims in excess of \$225,000 per person per contract period.

The Town oversees the self-insured program and claims payment services are provided by WB Community Health, the plan administrator. All funds of the Town, except for School Department funds, participate in the program and make payments to the Medical Fund based on recommendations made by the plan administrators. Effective July 1, 2018, the School Department purchased premium based health and dental insurance and is no longer self-insured. In fiscal year 2008, the Town established a Post Employment Benefit Trust Fund. The cost of retirees' participation in the Medical Fund is accounted for in the Post Employment Benefit Trust Fund.

The claims liability of \$34,905 reported in the Medical Fund at June 30, 2020 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Notes to Financial Statements June 30, 2020

Changes in the Medical Fund's claims liability for the past three fiscal years were:

		Current Year		
	Beginning	Claims and		Balance
	Fiscal Year	Changes In	Claims	Fiscal
	Liability	Estimate	Payments	Year End
2017-2018	\$247,259	\$6,213,408	\$6,171,853	\$288,814
2018-2019	\$288,814	\$1,028,093	\$1,206,955	\$109,952
2019-2020	\$109,952	\$977,090	\$1,052,137	\$34,905

#### **NOTE 14 – RISK MANAGEMENT**

The Town of Barrington is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement which outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its members. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years.

#### **NOTE 15 – PENSION PLANS**

# A. <u>EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND PLANS</u> Defined Benefit Plan

### General Information about the Pension Plan

*Plan Description* – Certain employees of the Barrington School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans administered by the System. This report may be obtained at <a href="http://www.ersri.org">http://www.ersri.org</a>.

Notes to Financial Statements June 30, 2020

Benefit Provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions – The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2020, Barrington School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The State and the Barrington School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the State and the remaining 60% is to be paid by the Barrington School Department; the rates were 10.49% and 14.12% of annual covered payroll for the fiscal year ended June 30, 2020 for the State and the Barrington School Department, respectively. The Barrington School Department contributed \$3,704,612, \$3,510,164, and \$3,366,722 for the fiscal years ended June 30, 2020, 2019 and 2018, respectively, equal to 100% of the required contributions for each year. The State's share of contributions totaling \$2,700,305 for fiscal year 2020 are reflected as on-behalf payments and are included as both revenue and expenditures in the Governmental Funds financial statements.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2020, the Barrington School Department reported a liability of \$44,477,132 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the State. The amount recognized by the Barrington School Department as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the Barrington School Department were as follows:

Notes to Financial Statements June 30, 2020

The net pension liability was measured as of June 30, 2019, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019. The Barrington School Department's proportion of the net pension liability was based on a projection of the Barrington School Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2019 the Barrington School Department's proportion was 1.39393155%.

For the year ended June 30, 2020, the Barrington School Department recognized in the Government-Wide financial statements gross pension expense of \$8,452,997 and revenue of \$3,696,204 for support provided by the State. At June 30, 2020, the Barrington School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to Financial Statements June 30, 2020

\$3,704,612 reported as deferred outflows of resources related to pensions resulting from the Barrington School Department contributions in fiscal year 2020 subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended June 30:

2021	\$722,843
2022	(48,289)
2023	384,722
2024	377,618
2025	164,584
Thereafter	(8,777)

*Actuarial Assumptions* – The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0% to 13.0%
Investment rate of return	7.0%

*Mortality* – Variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

The actuarial assumptions used in the June 30, 2018 valuation rolled forward to June 30, 2019 and the calculation of the total pension liability at June 30, 2019 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2019 expected arithmetic returns over the long-term (20 years) by asset class, are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

**Discount Rate** – The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability calculated using the discount rate of 7.0 percent as well as what the net

#### **Defined Contribution Plan**

#### Plan Description

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants.

Employees contribute 7% of their annual covered salary and employers contribute between 3% and 3.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. The employer contribution is split between the State and the school department. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Barrington School Department recognized pension expense of \$627,890 for the fiscal year ended June 30, 2020. For financial reporting purposes, the State's share of contributions totaling \$106,224 for fiscal year 2020 are also reflected as on behalf-payments and are included as both revenue and expenditures/expenses in the accompanying financial statements.

#### B. TEACHERS' SURVIVORS BENEFIT PLAN

#### General Information about the Pension Plan

**Plan Description** – Certain employees of the Barrington School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit (TSB)

Notes to Financial Statements June 30, 2020

plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans administered by the System. This report may be obtained at <a href="http://www.ersri.org">http://www.ersri.org</a>.

Eligibility and Plan Benefits – The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit are subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

Highest Annual	Basic Monthly
Salary	Spouse's Benefit
\$17,000 or less	\$825.00
\$17,001 to \$25,000	962.50
\$25,001 to \$33,000	\$1,100.00
\$33,001 to \$40,000	\$1,237.50
\$40,001 and over	\$1,375.00

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Notes to Financial Statements June 30, 2020

	Parent and	One	Two	Three or more	
Parent and	2 or more	Child	Children	Children	Dependent
1 Child	Children	Alone	Alone	Alone	Parent

Contributions – The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$11,500 (\$9,600 prior to July 1, 2017); one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The Barrington School Department contributed \$34,536, \$34,385, and \$34,426 for the fiscal years ended June 30, 2020, 2019 and 2018, respectively, equal to 100% of the required contributions for each year.

# Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2020 the Barrington School Department reported an asset of \$5,230,011 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2019, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019. The Barrington School Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2019 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2019 the Barrington School Department's proportion was 4.61013799%.

For the year ended June 30, 2020 the Barrington School Department recognized pension expense of \$(9,931) – an increase in the net pension asset. At June 30, 2020 the Barrington School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

\$34,536 reported as deferred outflows of resources related to pensions resulting from the Barrington School Department's contributions in fiscal year 2020 subsequent to the measurement date that will be recognized as an addition to the net pension asset in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

*Actuarial Assumptions* – The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0% to 13.0%

Salary increases 3.0% to 13.0%

Investment rate of return 7.0%

Mortality – Variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

Cost of living adjustments – Eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment – for valuation purposes, a 2.5% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2018 valuation and the calculation of the total pension liability at June 30, 2019 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

Notes to Financial Statements June 30, 2020

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Notes to Financial Statements June 30, 2020

**Discount Rate** – The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Asset to Changes in the Discount Rate – The following presents the proportionate share of the net pension asset calculated using the discount rate of 7.0 percent as well as what the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

# C. <u>MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND PLANS</u>

#### **Defined Benefit Plans**

#### General Information about the Pension Plan

**Plan Description** – The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employees' Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans administered by the System. This report may be obtained at <a href="http://www.ersri.org">http://www.ersri.org</a>.

**Benefits Provided** – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police

Notes to Financial Statements June 30, 2020

officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

*General Employees* – Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior retirement date, described below, and the retirement age applicable to members hired after June 30, 2012 as described above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior retirement date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior retirement date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Notes to Financial Statements June 30, 2020

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

**Police and Fire Employees** – Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior retirement date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior retirement date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012, benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Notes to Financial Statements June 30, 2020

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described above and one calculated based on a 2.25% multiplier for all years of service.

Other Benefit Provisions – Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

- a.) The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.
- b.) Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%.
- c.) The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (a) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.

Notes to Financial Statements June 30, 2020

*Employees Covered by Benefit Terms* – At the June 30, 2018 valuation date, the following employees were covered by the benefit terms:

	General Employees Plan	Police Officers Plan	Fire 20- Year Service Plan	Fire 25- Year Service Plan
Retirees and Beneficiaries	127	26	30	1
Inactive, Nonretired				
Members	53	3	-	3
Active Members	173	23	1	27
Total	353	52	31	31

Contributions – The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 2% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 9.25%. Public safety employees are required to contribute 10% of their salaries. The Town of Barrington contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of Barrington contributed the following amounts in the year ended June 30, 2020: general employees plan - \$843,375; police officers plan - \$681,914; fire 20-year service plan - \$290,396; and fire 25-year service plan - \$198,502. The Town's contributions represented the following percentages of annual covered payroll: general employees plan - 10.09%; police officers plan - 35.20%; fire 20-year service plan - 412.55%; and fire 25-year service plan -10.47%.

**Net Pension Liability** – The total pension liability was determined by actuarial valuations performed as of June 30, 2018 and rolled forward to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement.

Notes to Financial Statements June 30, 2020

Summary of Actuarial Assumptions Used in the Valuations to Determine the Net Pension Liability at the June 30, 2019 Measurement Date (June 30, 2018 valuation rolled forward to June 30, 2019)			
Actuarial Cost Method	Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used		
Amortization Method	Level Percent of Payroll – Closed		
Actuarial Assumptions:			
Investment Rate of Return	7.0%		
Projected Salary Increases	General Employees - 3.50% to 7.50%; Police & Fire Employees - 4.00% to 14.00%		
Inflation	2.5%		
Mortality	Variants of the RP–2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.		
Cost of Living Adjustments	A 2% COLA is assumed after January 1, 2014		

The actuarial assumptions used in the June 30, 2018 valuations rolled forward to June 30, 2019 and the calculation of the total pension liability at June 30, 2019 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2019 expected arithmetic returns over the long-term (20-years) by asset class are summarized in the following table:

Notes to Financial Statements June 30, 2020

Absolute Return	6.50% 4	
Cash	3.00% 0.	
Sub-total	21.00%	
Total	100.00%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

**Discount Rate** – The discount rate used to measure the total pension liability of the plans was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### **Defined Contribution Plan**

### Plan Description

Certain general employees participating in the defined benefit plan, as described above, may also participate in a defined contribution plan as authorized by General Law Chapter 36-10.3. The

Notes to Financial Statements June 30, 2020

defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants.

General employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary, depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Town of Barrington recognized pension expense of \$84,988 for the fiscal year ended June 30, 2020.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the System. This report may be obtained at <a href="http://www.ersri.org">http://www.ersri.org</a>.

#### **NOTE 17 – UNCERTAINTIES**

The United States and State of Rhode Island declared a State of Emergency in March 2020 due to the global Coronavirus Disease (COVID-19) pandemic. In the weeks and months following the declaration, precautionary measures to slow the spread of the virus were ordered that have affected the Town's operations in fiscal year 2020. The length of time these measures will be in place and the extent of any future financial impact to the Town are unknown at this time.

#### TOWN OF BARRINGTON, RHODE ISLAND Notes to Required Supplementary Information June 30, 2020

#### NOTE 1 – OPEB PLAN

The actuarial methods and assumptions used to calculate the total OPEB liability are described in Note 11 to the financial statements.

The net OPEB liability (asset) amount presented for each fiscal year was determined as of the fiscal year-end.

The schedules are intended to present ten years of data. Additional years of data will be presented as they become available.

#### **Actuarially Determined Contributions:**

The following actuarial methods and assumptions were used to determine contribution amounts reported in that schedule:

- Actuarial cost method Entry Age Normal
- Amortization method Level percentage of payroll, open
- Amortization period 30 years
- Asset valuation method market value
- Inflation 3%
- Investment rate of return 7%
- Salary increases 2%
- Mortality 2010 Public Sector Retirement Plans Mortality table for general/safety/teacher employee populations with MP-2019 improvement scale (prior valuation 2010 Public Sector Retirement Plans Mortality table for general/safety/teacher employee populations with MP-2018 improvement scale)
- Health care cost trend rate -5.50% graded down by Getzen model to 4.04% (prior valuation 5.70% graded down by Getzen model to 3.94%)

#### TOWN OF BARRINGTON, RHODE ISLAND Notes to Required Supplementary Information June 30, 2020

#### **NOTE 2 – PENSION PLANS**

The actuarial methods and assumptions used to calculate the total pension liability (asset) are described in Note 15 A. B and C to the financial statements.

The net pension liability (asset) amounts presented for each fiscal year were determined as of the June 30 measurement date prior to the fiscal year-end.

The schedules are intended to present ten years of data. Additional years of data will be presented as they become available.

#### **Actuarially Determined Contributions:**

Actuarially determined contribution rates are calculated as of June 30 of each plan year and effective 2 years after the actuarial valuation. The following actuarial methods and assumptions were used to determine contribution amounts reported in that schedule:

- Actuarial cost method Entry Age Normal
- Amortization method Level percentage of payroll, closed
- Remaining amortization period 18 years
- Asset valuation method 5-year smoothed market
- Inflation 2.50% (prior valuation 2.75%)
- Investment return 7.00% (prior valuation 7.50%)
- Salary increases 3.00% to 13.00% for teachers (prior valuation 3.50% to 13.50%); 3.25% to 7.25% for general employees (prior valuation 3.50% to 7.50%); 4% to 14% for police and fire employees
- Retirement age Experienced-based table of rates that are specific to the type of eligibility condition
- Mortality Males, General, Police and Fire Employees Variants of the RP-2014 mortality tables, for the improvement scale, update to the ultimate rates of the MP-2016 projection scale (prior valuation -115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000)
- Mortality Females, General, Police and Fire Employees Variants of the RP-2014 mortality tables, for the improvement scale, update to the ultimate rates of the MP-2016 projection scale (prior valuation - 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000)
- Mortality Males and Females, Teachers Variants of the RP-2014 mortality tables, for the
  improvement scale, update to the ultimate rates of the MP-2016 projection scale (prior valuation 97% and 92%, respectively, of rates in GRS table based on male and female teacher experience,
  projected with Scale AA from 2000)

The employee and employer contribution rates for the Teachers' Survivors Benefit Plan were applied to the first \$11,500 of member salary for fiscal year 2018. In fiscal year 2017 and prior years, the rate was applied to salary up to \$9,600.

Employers participating in the Employees' Retirement System are required by RI General Laws, Section 36-10-2, to contribute an actuarially determined contribution rate each year. Employers participating in the Teachers' Survivors Benefit Plan contribute at a rate established by RI General Laws, 16-16-35. Employers participating in the Municipal Employees' Retirement System are required by RI General Laws, Section 45-21-42, to contribute an actuarially determined contribution rate each year.

Notes to Required Supplementary Information June 30, 2020

#### NOTE 3 - BUDGETARY DATA AND BUDGETARY COMPLIANCE

In accordance with the Barrington Home Rule Charter, the Town has formally established budgetary accounting control for its General Fund. The General Fund is subject to an annual operating budget approved by the taxpayers at the Annual Financial Town Meeting. The annual operating budget's appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the reappropriation of accumulated surpluses to the extent necessary. The General Fund operating budget is in conformance with the legally enacted budgetary basis, which is not in conformance with generally accepted accounting principles. The accompanying budgetary comparison schedule is reflected on the budgetary basis. The difference between the budgetary basis and generally accepted accounting principles is explained below.

Appropriations in addition to those contained in the annual operating budget require approval by the taxpayers at a Financial Town Meeting. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Town Manager has authority to make such transfers within departments. Transfers made outside the departmental level require approval by the Town Council. The level on which General Fund expenditures may not legally exceed appropriations is at the department level.

#### COMBINING FUND FINANCIAL STATEMENTS-NONMAJOR GOVERNMENTAL FUNDS

### THE FOLLOWING FUNDS OF THE TOWN ARE REPORTED IN THIS SECTION:

Special Revenue Funds
are used to account for
resources allocated to specific
purposes. A Special Revenue fund
continues in existence as long as governmental
resources are allocated to its specific purposes.

**School Restricted Fund** - was established to account for the receipt and disbursement of State and Federal grants for education.

**Food Service Fund** - was established to account for the fees and federal reimbursements and related expenditures for the School's food service program.

**Cemetery Fund** – was established to account for monies donated for the Town cemetery and for revenue from the sale of cemetery lots.

**Public Safety Donations** - was established to account for donations from citizens to be used for the benefit of public safety employees.

**10% Computer-Tech Fund** - was established to account for fees collected to fund expenditures for technology in the Town Clerk's Office.

**Substance Abuse Grant and Substance Abuse Regional** - were established to account for the Federal Substance Abuse Block Grant and related private contributions.

**Bicentennial** - was established to account for money remaining from 1988 and for future use in connection with the tricentennial celebration.

#### Town of Barrington, Rhode Island Reportable Government Services with MTP2 Notes Fiscal Year Ended June 30, 2020

Notes to Supplementary Information – Annual Supplemental Transparency Report (MTP2)

#### NOTE 1. Basis of Presentation

The Annual Supplemental Transparency Report (MTP2) is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the annual financial statements is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

#### NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

#### NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town made allocations of costs to the State's departmental groupings based on a reasonable basis.

#### NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department police officers (e.g., uniform personnel including, leadership positions)
- Fire Department fire fighters (e.g., uniform personnel including, leadership positions)
- Centralized Dispatch Department civilian dispatchers only
- Education Department professional staff providing direct services to students
- For the remaining departments all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

#### NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <a href="http://www.municipalfinance.ri.gov/">http://www.municipalfinance.ri.gov/</a>.

<u>Notes</u>							(Continued)

Tax rates are per \$1,000 of assessed valuation.

Personal property tax is assessed on all tangible personal property used in businesses that are operated in Barrington.

<sup>\*</sup>New revaluation data (2012 performed one year ahead of schedule). Assessed values for each fiscal year are based on the value as of December 31, prior to the start of the fiscal year. A State mandated revaluation of real property is performed every three years. After a full revaluation is performed, two statistical revaluations are performed in the intervening three year cycles.

<sup>\*</sup>New revaluation data (2012 performed one year ahead of schedule). Assessed values for each fiscal year are based on the value as of December 31, prior to the start of the fiscal year. A State mandated revaluation of real property is performed every three years. After a full revaluation is performed, two statistical revaluations are performed in the intervening three year cycles.

#### Notes

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. Tax rates are per \$1,000 of assessed valuation.

Rhode Island State Law limits the amount a municipality can raise real estate taxes to 104.00% of the prior year rate.

The Town does not have any overlapping governments.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### **Independent Auditor's Report**

To the Honorable President and Members of the Town Council Town of Barrington, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Barrington, Rhode Island, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Barrington, Rhode Island's basic financial statements, and have issued our report thereon dated December 28, 2020.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Barrington, Rhode Island's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Barrington Rhode Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Barrington, Rhode Island's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Barrington, Rhode Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFROM GUIDANCE

#### Independent Auditor's Report

To the Honorable President and Members of the Town Council Town of Barrington, Rhode Island

#### Report on Compliance for Each Major Federal Program

We have audited the Town of Barrington, Rhode Island's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the Town of Barrington, Rhode Island's major federal programs for the year ended June 30, 2020. The Town of Barrington, Rhode Island's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Barrington, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Barrington, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of Barrington, Rhode Island's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the Town of Barrington, Rhode Island complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

#### Report on Internal Control Over Compliance

Management of the Town of Barrington, Rhode Island is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of Barrington, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Barrington, Rhode Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Finding: 2019-001

Status – Corrected – The School Department has reemphasized with employees that are part of the grant tracking/accounting process that all employees that are charged to a Federal Grant must complete a semi-annual certification. The School Department has also reiterated that any employees that are charged to the grant during the summer (particularly the extended school year program) must complete a certification for that period and confirmed that certification was completed for appropriate employees for the subsequent summer session (2019).

Notes to Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2020

#### **NOTE 1 – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the Town of Barrington, Rhode Island under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Barrington, Rhode Island, it is not intended to and does not present the financial position, changes in financial position, or cash flows of the Town of Barrington, Rhode Island.

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

#### **NOTE 3 – INDIRECT COST RATE**

The Town of Barrington, Rhode Island has elected not to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.
