This report presents the results of our actuarial valuation of the City of Newport, Rhode Island Fire Pension System (the Plan) as of July 1, 2016.

The valuation includes a general discussion and comments on the various schedules included in the report. These schedules summarize the underlying calculations, asset information, participant data, plan benefits and actuarial assumptions, and should be considered an integral part of the valuation.

Purpose

The main purposes of this report are to provide to the City of Newport (the City):

- The pension contribution under the City's funding policy for the 2017-2018 plan year;
- The financial condition of the Plan; and
- Information relating to the disclosure and reporting requirements of Statements No. 25, and No. 27 of the Governmental Accounting Standards Board.

Certification

To the best of our knowledge, this report is complete and accurate and all costs and liabilities have been determined in conformance with generally accepted actuarial principles and on the basis of actuarial assumptions and methods which are reasonable (taking into account past experience under the Plan and reasonable expectations) and which in combination represent our best estimate of anticipated experience under the Plan.

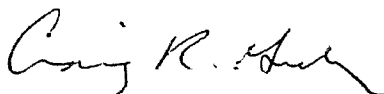

The actuaries certifying to this valuation are members of the Society of Actuaries or other professional actuarial organizations, and meet the General Qualification Standards of the American Academy of Actuaries for purposes of issuing Prescribed Statements of Actuarial Opinion.

Respectfully submitted,

KORN FERRY HAY GROUP, INC.

Enrolled Actuary No. 14-7319

Comments on the Valuation

This is Korn Ferry Hay Group's fifth valuation of the Plan. This report includes results for prior years based on methods and assumptions developed by the prior actuary.

Plan Contribution

The Valuation Highlights exhibit shows the development of the Plan's contribution for the 2017-2018 fiscal year, developed in accordance with the City's funding policy. The total contribution is \$6,142,577. This total cost has increased from \$5,708,437, which was developed for the 2016-2017 fiscal year. The main reasons for the increase were the reduction in the assumed interest rate from 7.50% to 7.25% plus the asset losses during the year.

If the City wishes to pay the contribution on a monthly basis, beginning on July 31, the monthly payment would be \$495,620.

Funding Policy

The funding requirement is the sum of two components, an annual normal cost and an amortization payment which will change from year to year in response to evolving plan experience. It is our understanding that beginning with the July 1, 2002 valuation, the amortization period was reduced from 30 to 29 years, and that for each year the amortization period decreases by one year. Thus, the amortization period for the July 1, 2016 valuation is 15 years. The normal cost and amortization is then offset by anticipated employee contributions to the Plan, to arrive at the net City contribution.

Plan Assets

Schedule A contains information about the Plan's assets. As of June 30, 2016, the market value of the Plan's assets is \$46,760,579 and the actuarial value of plan assets is \$50,962,019. The overall rate of return achieved for the 2015-2016 plan year was -3.0 percent on a market value basis.

The asset information used for the valuation was provided by the City. We have not audited such information, but have checked it for reasonableness and consistency.

Funding Status

Schedule B provides the information on pension plans required by Statement Number 25 of the Governmental Accounting Standards Board.

Schedule C provides the information on pension plans required by Statement Number 27 of the Governmental Accounting Standards Board.

Schedule D discloses estimated City contributions and Plan benefits over the next twenty years. This open group projection suggests that the Plan will emerge from "critical status" (i.e., have a market value funding ratio of greater than 60%) by the year 2024, if the actuarial assumptions are reflective of the actual experience.

Participant Data

Schedule E provides a distribution of the active participants as of July 1, 2016 by age and length of service. It also shows the average salary by age and service brackets. Schedule E also includes a breakdown of the inactive participants, by age and benefit amounts.

Although we have made tests to check for the reasonableness and consistency of the participant data, we have not audited the data but have relied on it as submitted by the City.

Actuarial Assumptions and Methods

Schedule F summarizes the actuarial assumptions and cost methods used for the valuation. Effective with this July 1, 2016 valuation, we lowered the annual investment return assumption from 7.50% to 7.25% and revised the asset valuation method from market value to 5-year smoothed market value. Otherwise, there were no changes in actuarial assumptions or cost methods since the prior valuation.

Plan Provisions

Schedule G contains a summary of the principal provisions of the plan in effect as of July 1, 2016.

Schedule D: Forecast of Plan Contributions and Benefit Payments

The following table discloses the estimated City contributions and benefits to be paid from the Plan over the next twenty years, under the current set of actuarial assumptions, except that this projection assumes that new entrants will enter the Plan each year. Underlying this so-called “open group” projection is the assumption that the current number of active members will remain constant throughout the projection period.

Schedule F: Actuarial Methods and Assumptions

Actuarial Cost Method:	Individual Entry Age Normal Actuarial Cost Method - Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percentage of the individual's projected compensation between entry age and assumed exit. The normal cost is the portion of the actuarial present value allocated to the valuation year. For inactive members, the actuarial accrued liability is equal to the present value of benefits. Inactive members do not have a normal cost. The portion of this actuarial present value not provided for at the valuation date by the sum of the actuarial value of the assets and actuarial present value of future normal costs is the unfunded actuarial accrued liability. The unfunded actuarial accrued liability represents the excess of the total actuarial accrued liability over the valuation assets.
Asset Valuation Method:	5-year smoothed market value
Actuarial Assumptions:	
1. <i>Interest</i>	7.25% per year, net of investment expenses, effective June 30, 2016.
2. <i>Salary Increases</i>	First 10 years beginning with July 1, 2012: 2.75% per year. Thereafter, 3.00% per year plus longevity increases of 3.00% after seventh year of employment and 0.50% for each year of employment thereafter through the thirty-first year of employment. No longevity increases are assumed after the thirty-first year of employment.
3. <i>Cost of Living Increases</i>	Members retired prior to August 26, 2011: 2.75% for 10 years beginning with July 1, 2012, 3.0% thereafter. Members retired on or after August 26, 2011: Bureau of Labor Statistics CPI for Northeast Urban Wage Earners, not exceeding 3.00% or less than 0.50%, except that for retirees after July 1, 2012, approximated the temporary 10 years of 2.75% salary increases and 3.0% thereafter by assuming cost of living increases of 2.9% in all future years.

4. *Mortality*

- a. Healthy Members RP-2000 Combined Healthy Mortality Table, applied on a fully generational basis using Mortality Projection Scale AA. This table contains sufficient margin for improvement in life expectancy.
- b. Disabled Members The 1985 Wyatt Pension Disability Table (unisex rates)

5. *Disability*

Rates of disability are based on an employee's age. Selected ages are listed below. 90% of disabilities are assumed to be service related.

<u>Attained Age</u>	<u>Probability of Disability</u>
25	0.17%
35	0.29%
45	0.72%
55	1.21%

6. *Withdrawal*

Rates of withdrawal are based on an employee's length of service, as follows:

<u>Years of Service</u>	<u>Probability of Withdrawal</u>
Less than 1	3.00%
1	2.25%
2	2.00%
3	1.75%
4	1.50%
5	1.25%
6	1.00%
7	0.75%
8	0.50%
9	0.25%
10 or more	0.00%

7. *Retirement*

Rates of retirement are based on an employee's length of service, as follows:

Years of Service	Probability of Retirement
20	10%
21	2%
22	2%
23	2%
24	2%
25	40%
26	10%

29	10%
30	40%
31	20%
32	20%
33	20%
34	20%
35+	100%

8. *Administrative Expenses*

Assumed to be paid by the Plan Sponsor outside the trust.

9. *Benefit Compensation Limits*

Benefit limits under Section 415 and compensation limits under Section 401(a)(17) of the Internal Revenue Code are assumed to have no impact on benefits earned under this Plan.

10. *Marriage/Dependents*

90% of active firefighters are assumed to be married. For all participants, wives are assumed to be three years younger than their husbands. For the purposes of valuing the death benefit, unmarried members are assumed to have no dependent children at death.

11. *Valuation Date*

July 1, 2016.

Schedule G: Summary of Plan Provisions as of July 1, 2016

1. *Effective Dates*

Most recent amendment August 31, 2011

2. *Eligibility*

All firefighters who contribute to the pension fund.

3. *Retirement*

a. Eligibility

Members retired prior to July 1, 2011: 20 years of service.

Members retired on or after July 1, 2011: earlier of attainment of age 58 or completion of 30 years of service.

b. Benefit Formula

The annual benefit at retirement is equal to the percentage of final annual salary specified in the table below, plus \$100 per year for each year of service over 25 (maximum \$1,000). For pension purposes, annual salary includes regular and longevity pay.

<u>Years of Service</u>	<u>Benefit as a Percentage of Final Annual Salary</u>
20	50%
21	52%
22	54%
23	56%
24	58%
25	65%
26	66%
27	67%
28	68%
29	69%
30 or more	70%

c. Commencement Date

Retirement benefits commence as of the first payroll period after retirement.

d. Form of Payment

The annual benefit calculated in accordance with the formula in (b) above is payable monthly for the remainder of the retired member's life, with 67.5% of the member's benefit payable for the lifetime of the member's surviving spouse.

4. *Vested Termination*

- a. Eligibility Upon termination of employment after 10 years of service, a member is eligible for a benefit deferred to retirement age.
- b. Benefit Formula 2.5% of final annual salary multiplied by full years of service at termination.
- c. Commencement Date 25th anniversary of employment.
- d. Form of Payment Same as retirement.

5. *Disability Retirement*

- a. Eligibility A member who is retired because of mental or physical incapacity is eligible to receive disability retirement benefits.

- b. Benefit Formula

- i. Non-Service Related

If a member has fewer than 10 years of service, benefit is 25% of final annual salary. If a member has more than 10 years of service, benefit is 25% of final annual salary plus an additional 2.5% of final annual salary for each year over 10, up to a maximum of 62.5% of final annual salary.

- ii. Service Related

66-2/3% of final annual salary.

- iii. Regular Retirement

If an employee has 25 or more years of service at disability, his pension will be the greater of the disability or retirement pension.

- c. Commencement Date

Benefits commence as of the first payroll period after disability.

- d. Form of Payment

Same as retirement.

6. *Non-Vested Termination of Employment*

A member who leaves employment prior to completing 10 years of service will receive a lump sum payment of accumulated contributions.

7. *Death Before Retirement - Survivor Annuity Benefits*

- a. Eligibility

Death while actively employed.

- b. Benefit Formula

Surviving spouse (or, if none, dependent children) receives benefit of 67.5% of final annual salary, reduced pro rata if the deceased member had less than 20 years of service.

- c. Commencement Date

Benefits commence as of the first payroll period after death.

- d. Form of Payment

Monthly life annuity.

8. *Retiree Cost of Living Increase*

Members retired prior to August 26, 2011: Pensions for retirees and disabled retirees (but not beneficiaries) are indexed to the negotiated pay increases for active firefighters. Terminated vested members receive 3% annual increases after benefit commencement.

Members retired on or after August 26, 2011: For those entitled to annual increases, they will equal the Bureau of Labor Statistics CPI for Northeast Urban Wage Earners, but will not exceed 3% nor be lower than 0.5%.

9. *Employee Contributions*

9% of salary.
