Annual Supplemental Transparency Report

INDEPENDENT AUDITOR'S REPORT

To the Honorable President and Members of the Town Council Exeter, Rhode Island

Opinion

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Exeter, Rhode Island, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town of Exeter, Rhode Island's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Exeter, Rhode Island as of June 30, 2023, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Exeter, Rhode Island and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Exeter, Rhode Island's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Exeter, Rhode Island's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Exeter, Rhode Island's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 – 10 and 38 – 39 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Exeter, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedule of property tax receivables, schedules of long-term liabilities, and annual supplemental transparency report and the accompanying notes on pages 40-63, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of property tax receivables, schedules of long-term liabilities, and annual supplemental transparency report and the accompanying notes are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2023, on our consideration of the Town of Exeter, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Exeter, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Exeter, Rhode Island's internal control over financial reporting and compliance.

West Warwick, Rhode Island

WADDVICK + COMPANY

November 6, 2023

Unaudited For the Fiscal Year Ended June 30, 2023

As the management of the Town of Exeter (Town), we offer readers of the Town's Financial Statements this narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2023. Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the Town's financial position. These tables will reflect governmental activities for the fiscal years ended 2023 and 2022.

FINANCIAL HIGHLIGHTS

- ❖ On the government-wide basis, the assets of the Town of Exeter exceeded its liabilities at the close of the most recent fiscal year ended by \$10,653,315. Of that amount, \$4,294,348 may be used to meet the Town's ongoing obligations to citizens and creditors in accordance with the Town's fund designation and fiscal policies.
- The Town's net position decreased by \$95,192 or approximately 0.4% through current year activities. This decrease was mainly due to increased expenditures and reduced investment revenues.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$4,157,297. Approximately 26.1% of this amount, \$1,084,052 is unassigned and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general fund's unassigned fund balance was \$1,084,052, or 6.4% of the total general fund expenditures for the fiscal year. The general fund's current fiscal year expenditures and transfers exceeded revenues and transfers by \$287,677 on the Fund Financial Statement basis.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains required supplementary information and other supplementary information.

The Town's basic financial statements and supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

<u>Government-wide financial statements</u> – are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

Unaudited For the Fiscal Year Ended June 30, 2023

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public works, public safety, health and welfare, conservation and development, parks and recreation, and planning and zoning. The Town had no business activities as of June 30, 2023.

The government-wide financial statements are reported on pages 11 and 12.

<u>Fund Financial Statements</u> – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds. For the fiscal year ending June 30, 2023, the Town does not have any proprietary funds.

<u>Governmental Funds</u> – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, which is considered to be a major fund. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

<u>Fiduciary Funds</u> – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs.

Unaudited For the Fiscal Year Ended June 30, 2023

The basic fiduciary fund financial statements can be found on pages 18 and 19.

<u>Notes to Financial Statements</u> – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements are presented on pages 20 through 37.

<u>Other Information</u> – In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations.

Required Supplementary Information is presented on pages 38 and 39.

The combining statements and supplementary information referred to earlier in connection with non-major governmental funds are presented on pages 40 through 55.

<u>Annual Supplementary Transparency Report (MTP2)</u> – This is a supplemental schedule required by the State of Rhode Island. This report is presented on pages 56-61.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of the Town of Exeter's Net Position

As noted earlier, the Town's net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. In the case of the Town of Exeter, assets exceeded liabilities by \$10,653,315 as of June 30, 2023. This reflects a decrease of \$95,192 for the current year's activity.

Listed below is a comparison of the current and prior fiscal years net position:

	Governmental Activities					
	2023	2022				
ASSETS						
Current Assets	\$ 6,976,114	\$ 6,046,040				
Capital Assets	6,613,056	6,489,500				
TOTAL ASSETS	13,589,170	12,535,540				
LIABILITIES						
Current Liabilities	2,665,045	1,537,781				
Long-term Liabilities	270,810	249,252				
TOTAL LIABILITIES	2,935,855	1,787,033				
NET POSITION						
Net invested in Capital Assets	6,329,835	6,158,039				
Restricted	2,469,113	2,452,308				
Permanent	29,132	29,132				
Unrestricted	1,825,235	2,109,028				
TOTAL NET POSITION	<u>\$ 10,653,315</u>	\$ 10,748,507				

Unaudited

For the Fiscal Year Ended June 30, 2023

The largest portion of the Town's net position \$6,329,835 (59.4%) consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

Analysis of the Town of Exeter's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2023. Governmental activities decreased the Town's net position by \$95,192 for the current period.

Listed below is a comparison of the current and prior fiscal year's change in net position:

	Government	tal Ac	ctivities
	 2023		2022

Unaudited For the Fiscal Year Ended June 30, 2023

<u>FINANCIAL ANALYSIS OF THE TOWN OF EXETER'S FUNDS</u>

<u>Governmental Funds</u> – The focus of the Town of Exeter's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$4,157,298. Approximately 39.9% of the total amount, or \$1,659,053 constituted unassigned fund balances. The remainder of the fund balance is non-spendable, restricted, committed or assigned. The fund balance in the General Fund decreased by \$287,676.

Reserved Fund Balances:

Re-appropriated for fiscal year 2023/2024

\$290,000

GENERAL FUND BUDGETARY HIGHLIGHTS

The final amended budget for the Town's General Fund reflected total revenues and re-appropriations of \$17,688,109 and total expenditures and transfers to other funds of \$17,688,109. Actual total revenues were \$17,438,390 which includes transfers from other funds of \$160,549 and total expenditures were \$16,925,143 which included transfers to other funds of \$660,729 resulted in a deficit of \$147,482.

REVENUES

- Property taxes were over budget by \$100,828 as a result of timely collections and increased collections of delinquent taxes
- The State motor vehicle tax phase-out program was over budget by \$95,618 as a result of a late change in the State of Rhode Island's governors' budget which increased the amount owed.
- The State meals tax was over budget by \$21,796 as a result of higher than projected meals and beverage income.
- Town clerk collections were over budget by \$98,783 as a result of increased activity in Town Clerk's office.
- License and permits were over budget by \$68,571 as a result of an increased construction, permits and projects by taxpayers.

EXPENDITURES

- Medical and dental expenses were under budget by \$35,642 as a result of fewer employees that required coverage.
- Transfer station expense was under budget by \$36,173 as a result of Town purchasing the land which reduced rents.
- The contingency fund was over budget by \$7,990 as matters arose which were not previously budgeted.
- Computer support was under budget by \$33,668 as a result of a decrease in the annual support cost due to hiring an IT Director, thereby needing less support from outside vendors.
- Highway workers' salary expense was under budget by \$16,507 as a result of turnover in the public works employees.
- Highway supplies and expenses was over budget by \$43,566 as a result of higher than projected fuel and repair costs.

Unaudited For the Fiscal Year Ended June 30, 2023

CAPITAL ASSETS

The Town of Exeter's investment in capital assets for its governmental activities amounts to \$6,489,500, net of accumulated depreciation at June 30, 2023. Included are land, intangible assets, infrastructure, building and improvements, motor vehicles, machinery and equipment, and office furniture and equipment (which are fully depreciated as of June 30, 2023).

TOWN OF EXETER'S CAPITAL ASSETS AT YEAR END NET OF ACCUMULATED DEPRECIATION

	 2023	 2022		
Land	\$ 486,651	\$ 486,651		
Development rights - Schartner Farms	3,450,000	3,450,000		
Buildings and improvements	1,243,917	1,141,321		
Motor vehicles	215,083	254,808		
Machinery and equipment	451,112	367,062		
Infrastructure	 766,293	 789,658		
	\$ 6,613,056	\$ 6,489,500		

Additional information on the Town of Exeter's capital assets is located in Note 6 of the notes to the financial statements. The Town intends on reporting infrastructure assets as required with full historical disclosure in subsequent reporting periods.

DEBT ADMINISTRATION

At the end of the current fiscal year, the Town of Exeter had a total bonded debt of \$-0-. All bonded debt is backed by the full faith and credit of the Town.

TOWN OF EXETER'S OUTSTANDING DEBT AT FISCAL YEAR END BONDS, NOTES AND CAPITALIZED LEASES PAYABLE

	 2023	 2022
Development rights bond	\$ -	\$ 45,023
Landfill post-closure care costs	201,838	201,838
Compensated absences	 81,382	84,600
	\$ 283,220	\$ 331,461

The State of Rhode Island imposes a limit of three percent (3%) of the fair value of all taxable Town property on the general obligation debt that a municipality can issue. The Town of Exeter's limit is \$30,551,297 (based on net assessed valuation at December 31, 2020 of \$1,056,752,611) at June 30, 2023. The town's outstanding general obligation debt is \$-0- at June 30, 2023, which is \$30,551,297 under the State-imposed limitation.

Additional information on the Town of Exeter's long-term debt can be found in Note 7 of the financial statements and on pages 55 through 57.

Unaudited For the Fiscal Year Ended June 30, 2023

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Town of Exeter's total general fund budget for fiscal year 2023-2024 is \$17,902,840, which is an increase from the fiscal 2022-2023 budget of \$17,688,109. Of the Town's 2023-2024 budget, \$4,255,549 or 23.7% is budgeted for the general government and \$13,647,291 or 76.3% is budgeted for education. The State of Rhode Island is budgeted to contribute \$2,547,779 in State aid.

The Town's tax rate for fiscal 2023-2024 is \$14.27 per thousand, with 23.8% allocated for general government and 76.2% allocated for education. For fiscal 2022-2023 the Town's tax rate was \$13.94 per thousand, with 24.2% allocated for general government and 75.8% allocated for education. The increase in tax rates from \$13.94 to \$14.27 resulted in a \$0.33 increase or 2.4% increase in the tax rate.

TOWN OF EXETER RHODE ISLAND FUND FINANCIAL STATEMENTS

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2023

\$ (287,679)Net Change in Fund Balances - Total Governmental Funds Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the increase in capital outlays of \$385,499 is more than depreciation of \$261,943 in the current period. 123,556 Property taxes that are not collected in the current period and do not represent current financial resources are deferred in the fund financial statement, however they are recognized as revenues in the statement of activities. This is the amount the 20,690 unavailable revenue - property taxes increased from the prior year. Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available. This is the amount the accrued compensated absences decreased from the prior year. 3,218 Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available. This is the amount of 45,023 principal payments made on long-term debt

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Exeter, Rhode Island (Town), have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The government's significant accounting policies are described below.

FINANCIAL REPORTING ENTITY

The Town was founded in 1742. The town is governed largely by the Town Charter, which was adopted as of January 6, 1997 with amendments through November 2, 2010. In some matters, including the issuance of short and long-term debt, the Town is governed by the general laws of the State of Rhode Island. The Town operates under a Town Council form of government. The Town provides various services including a public library, public works, social services, and general administrative services.

Members of the Town Council are elected by taxpayers for a term of two years. The Town Council is granted all power to enact, amend or repeal ordinances relating to the Town's property, affairs and government, including the power to create offices, departments or agencies of the Town, preserving the public peace, health and safety, establishing personnel policies, giving effect to any vote of the Financial Town Meeting authorizing the issuance of bonds and debt and providing for an annual audit of the Town's records.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 61. Under GASB Statement No. 61, a legally separated entity is required to be included as a component unit if is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burden on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any of the following conditions are met:

- (a) The primary government is legally entitled to or can otherwise access the organization's resources.
- (b) The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- (c) The primary government is obligated in some manner for the debt of the organization.

The accompanying financial statements present the Town's primary government and certain component units which are financially dependent on the Town. The Town's component units are as follows:

Blended Component Units

The Exeter Public Library is governed by a board of trustees appointed by the Town Council. The library's trustees govern the library in accordance with applicable state laws. For financial statement purposes, the Exeter Public Library is reported as if it were part of the Town's operations because its purpose is to provide library services to the citizens of the Town and is dependent upon the Town for most if its financial resources.

Recently Issued Accounting Standards

During the fiscal year ended June 30, 2023, the Town implemented the following accounting pronouncements:

GASB Statement No. 91 – Conduit Debt Obligations

GASB Statement No. 93 – Replacement of Interbank Offered Rates

GASB Statement No. 94 – *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*

GASB Statement No. 96 – Subscription-Based Information Technology Arrangements

The following are recently issued governmental accounting standards which will be applicable in future years:

GASB Statement No. 99 - Omnibus 2022, effective for fiscal year ending June 30, 2024

GASB Statement No. 100 – Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62, effective for fiscal year ending June 30, 2024

GASB Statement No. 101 – Compensated Absences, effective for fiscal year ending June 30, 2025

The Town has not evaluated the effect of any of these standards on the Town's financial statements.

BASIS OF PRESENTATION

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds are reported in the statement of fiduciary net position and changes in fiduciary net position. The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Town had no business-type activities for the fiscal year ended June 30, 2023.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are normally organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type, and;
- (b) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to the financial statement users (for example, because of public interest or consistency) may be reported as a major fund. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental Fund Types

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund – is used to account for resources devoted to financing the general services the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds – are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally restricted to expenditures for specified purposes.

Capital Project Funds – are used to account for financial resources restricted for the acquisition or construction of major capital facilities (other than those financed by Proprietary or Trust funds).

Permanent Funds – are used to account for assets held by the Town where the principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund. The Town's only permanent fund is for perpetual care of cemeteries and was determined to be non-major.

Proprietary Fund Types

These fund types account for operations that are organized to be self-supporting through user charges. For the year ended June 30, 2023, the Town held no proprietary funds.

Fiduciary Fund Types

These fund types account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. *Fiduciary Fund types are not part of the reporting entity in the Government-wide financial statements*. These funds are as follows:

Pension Trust Fund – is established to provide pension benefits to various employees of the Town. The principal revenue source for this fund is employer contributions.

Private Purpose Trust Funds – are used to account for assets held by the Town under various trust arrangements for the benefit of certain individuals and groups.

Custodial Funds – are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties. As of June 30, 2023, the Town reported no custodial funds.

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

<u>Fund</u> <u>Brief Description</u>

Major:

General Fund: See above for description
Special Fund: Landfill Closure Fund
Special Fund: American Rescue Plan

Non-Major:

Special Revenue Funds: Preservation & Technology; RIEMA/FEMA Grants; Emergency

Management; Planning Board Project Review Fees; Capital

Facilities Impact Fees; CDBG; Property Revaluation;

Spay/Neuter; Memorial Day Parade; Pension Liability; Historic Preservation; Veteran's Memorial, Animal Shelter Donations; Social Service Grants; Open Space and Performance Bonds.

Capital Projects Fund: Vehicle Replacement; Public Works/Roads; Computer Upgrades;

Public Works/Equipment; Town Hall Renovations; Chelsea Park Renovation; Video Equipment; Office Equipment; GIS Mapping Systems; Transfer Station More; New Town Hall Fund;

Comprehensive Town Plan; Animal Shelter Improvements, Transfer Station Improvements, Website Development, Economic Development; Library; Opioid Settlement Fund and Spill Control

& Countermeasures.

Permanent Fund: Cemetery Fund

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement Focus

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) are presented using the "economic resources" measurement focus as defined in item (b) below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a) All governmental funds utilize a "current financial resource" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes as available if they are collected within sixty days after year end.
- b) Under the "economic resources" measurement focus, the accounting objectives are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.
- c) Custodial funds utilized the "economic resources" measurement focus as noted above.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities the activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All custodial funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Amounts reported as program revenues include charges to customers or applicants for goods, services or privileges provided and operating grants and contributions. Internally dedicated resources are reported general revenues rather than as program revenues. Likewise, general revenues include all taxes.

<u>Cash and Cash Equivalents</u> – Cash and cash equivalents are carried at cost. Cash equivalents are all highly liquid investments with a maturity of three months or less when purchased. Substantially all of the Town's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of

the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts which hold public funds in excess of \$250,000 which is guaranteed by the FDIC. The Town pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. Cash in excess of current requirements is invested in short-term treasury securities or as disclosed as part of the Town's investments. The Town had no cash equivalents at June 30, 2023.

<u>Investments</u> – are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental and Fiduciary Fund Types, which are recorded at fair value.

<u>Accounts Receivable</u> – In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes (levied on July 1, 2022 of the current year), intergovernmental grants and aid and other receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes collected within 60 days of year-end and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis.

Allowances for uncollectible accounts receivables are based upon historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts receivable amounted to \$77,730 at June 30, 2023. Major receivable balances for the governmental activities include property taxes and intergovernmental receivables.

<u>Property Taxes</u> – The Town is permitted by state law to levy property taxes. Current tax collections for the Town were approximately 99.8% of the total December 31, 2021 levy. The tax rate of the Town is established by the Town Council. The Town's fiscal 2023 property taxes were levied on July 1, 2022 on assessed valuation as of December 31, 2021. Upon levy, taxes are billed yearly and due quarterly on September 1st, December 1st, March 1st, and June 1st. A fifteen (15) day grace period from the due date is given. Failure to postmark payments by the 15th will result in a lien on taxpayer's property, and eventually to the sale of the same. A complete revaluation of all property was completed December 31, 2020 as per State requirements. On December 31, 2018, a statistical revaluation was completed. The town is currently undergoing a statistical revaluation update which should be completed by December 31, 2023.

<u>Inventory, Prepaid Expenses, and Accruals</u> – Expenditures for inventory-type items are not recorded as assets, but rather as expenditures at the time purchased. Prepaid expenses are not recorded within governmental funds. Accruals are recorded when liabilities are incurred.

<u>Capital Assets</u> – Governmental Fund type, operations are accounted for using the "current financial resources" measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, bridges curbs and gutters, streets and sidewalks, and drainage systems), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of

GASB Statement No. 34, the Town has chosen to prospectively report infrastructure assets as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are charged to expenditures as incurred.

The Town capitalizes certain interest cost in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment are valued at historical costs. Building improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives (years)
Building and improvements	40
Motor Vehicles	5
Machinery and equipment	10
Office furniture and equipment	3-10

<u>Interfund Transactions</u> – Interfund activity within and among the funds of the Town have been classified and reported as follows:

Reciprocal interfund activities:

- Interfund loans are reported as interfund receivables in the lending fund and interfund payables in borrower funds.
- Interfund services are reported as revenues in the seller fund and as expenditures or expenses in the purchasing fund.

Non-reciprocal interfund activities:

- Interfund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.
- Interfund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.
- Interfund transactions are accounted for as expenditures/expenses when they constitute reimbursements from one fund to another. These transactions are recorded as expenditures/expenses in the reimbursing fund and are recorded as reductions of expenditures/expenses in the fund receiving the reimbursement. All other interfund transactions are reported as transfers.

<u>Unearned/Unavailable Revenues</u> – Represent funds received or billed in advance of being owed, or receivables, which will be collected and included in revenues of future fiscal years. In the General Fund (of the fund financial statements), unearned/unavailable revenues relate to grants and property tax receivables. Receivables were assessed on or before December 31, 2021 and not collected within 60 days following June 30, 2023. Net unavailable taxes included in the fund financial statements were \$166,182

In the government-wide financial statements, unearned revenue represents funds received in advance of being earned/owed or receivables which will be collected and included in revenues of future fiscal years. Unearned revenues reported in the government-wide financial statements represent deferred grants.

<u>Long-Term Obligations</u> – In the government-wide financial statements, long-term debt and long-term compensated absences are reported as liabilities in the statement of net position. Bond issuance costs are deferred and amortized over the term of the related debt.

In the governmental fund financial statements, long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Bond issuance costs are expensed as incurred.

<u>Compensated Absences</u> – Under the terms of various contracts and agreements, Town employees are granted vacation and sick payouts in varying amounts based on length of service. For Governmental Fund Types accrued compensated absences are presented as a current liability for those amounts expected to be paid with current financial resources. In governmental funds compensated absence expenditures are only reported when vested. For those compensated absences not to be paid with current financial resources the liability is recorded in the Statement of Net Position of the government-wide financial statements.

<u>Net Position (Government-Wide Statements)</u> – The Town's net position has been segregated into the following three components in accordance with GASB Statement No. 34:

- Net Invested in Capital Assets represents the net book value of all
 capital assets less the outstanding balances of bonds and other debt used to acquire,
 construct or improve these assets.
- Restricted consist of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- *Unrestricted* Any other net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt".

<u>Fund Financial Statements (Governmental Funds)</u> – The Town has adopted the requirements of the Government Accounting Standards Board (GASB) Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions. Issuance of this statement has changed the presentation of the elements of fund balances as listed in the new fund balance categories below:

- *Non-spendable* are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- Restricted requires that inflows and outflows of resources and balances be constrained to a specific purpose enabling legislation, external parties or constitutional provisions.

- *Committed* are balances with constraints imposed by the government's highest level of decision-making authority. These constraints can only be removed or changed by the same decision-making authority.
- Assigned are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- *Unassigned* are balances available for any purpose. They are not precluded by a management decision, law constitutional provisions in the general fund.

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council, via a resolution or vote, is the highest level of decision-making authority and a meeting of the Town Council is required to establish, modify or rescind a fund balance commitment.
- b) For assigned fund balance: the Town's Treasurer is authorized to assign amounts to a specific purpose and un-assign amounts to a specific purpose. This authorization was given to that position by the Town Council through resolution.
- c) The Town considers amounts that are committed, assigned or unassigned to have been spent when an expenditure is incurred for the purpose of which any amounts in any of the unassigned fund balance classifications could be used.
- d) The Town considers restricted amounts to have been spent when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when an expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

<u>Revenues, Expenditures and Expenses</u> – Revenues for governmental fund types are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental fund types are recorded when the related liability is incurred. The Town will make use of available restricted resources first when determining expendable funds. Operating revenues are defined as those revenues generated from fees and assessments, all others are deemed non-operating. It is the Town's policy when both restricted and unrestricted funds are available to reduce the liability to first use restricted resources.

<u>Program Revenues and Expenses</u> – In the statement of activities specific revenues are allocated to program expenses due to their direct relationships. Collections for licenses, fees, tickets and fines are among some of the revenue sources that are program revenues. Indirect expenses are not allocated to functions in the statement of activities.

<u>Use of Estimates</u> – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

<u>Subsequent Events</u> – The Town has evaluated subsequent events for recognition and disclosure through November 6, 2023, which is the date the financial statements were available to be issued.

NOTE 2 – BUDGETARY AND LEGAL COMPLIANCE

Budgetary Data

The Town Council adopts an annual budget for the General Fund. The Town Council is authorized to transfer budgeted amounts within and among departments and to authorize emergency expenditures. Any revisions that alter total expenditures must be approved by the taxpayers by a vote at a Financial Town Meeting. Management cannot make any transfers without prior Council approval. The governing Council did not make any supplemental budgetary appropriations during the fiscal year. The budget for the General Fund is presented in the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual. All unused annual appropriations lapse at fiscal year-end unless specifically approved for carryover to the following year by the taxpayers by a vote at a Financial Town Meeting.

The Town does not budget for the combined Special Revenue Funds and Capital Project Funds since budgetary control is maintained on an individual fund basis. Since grant periods may differ from the Town's fiscal year, and although most grants comprise an annual time period not all grants operate on a twelve-month period, a comparison of budgetary information may not be meaningful and has not been presented in the accompanying financial statements.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to preserve that portion of the applicable appropriation, is employed in the General Fund Budget. Open encumbrances are reported as reservations of fund balances. Encumbrances do not constitute expenditures or liabilities. There were no open encumbrances at June 30, 2023.

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

<u>Legal Debt Margin</u> – The Town's legal debt margin as set forth by State Statute is limited to three percent of total taxable assessed value that approximates \$30,639,981 based on the December 31, 2021 assessment. As of June 30, 2023, the Town's debt is under this limit by \$30,639,981.

NOTE 4 – CASH AND INVESTMENTS

<u>Deposits</u> – The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

<u>Investments</u> – Investment of all idle funds must be made through national banks or trust companies, providing that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed five (5) percent of that institution's capital and surplus as set for in the institution's most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

<u>Interest Rate Risk</u> – The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools. This only applies to investments held by Citizens Bank on behalf of the Reynolds Fund.

<u>Concentrations</u> – The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity. This only applies to investments held by Citizens Bank on behalf of the Reynolds Fund.

Custodial Credit Risk:

<u>Deposits</u> – This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2023, all the Town's bank balance of \$6,389,207 was insured or collateralized.

<u>Investments</u> – This is the risk that in the event of failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and investments of the Town consist of the following at June 30, 2023:

Cash and Cash Equivalents Deposits with financial institutions	\$ 6,389,207
Investments Equities Mututal funds	 781,722 1,006,426
Total Cash, Cash Equivalents and Investments	\$ 8,177,355

Cash and investments are classified in the accompanying financial statements as follows:

\$ 6,660,302
88,462
 1,788,148
\$ 8,536,912
\$

<u>Interest Rate Risk</u> – This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Town did not have any debt type investments that were exposed to interest rate risk as defined by GASB Statement No. 40.

<u>Credit Risk</u> – Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk exposure. The Town did not have any debt type investments that were exposed to credit risk as defined by GASB Statement No. 40.

NOTE 5 – PROPERTY TAXES

The Town's property tax is levied each July 1, for its next fiscal year on the assessed valued listed as of the prior December 31, for all real property, tangible property and motor vehicles located in the Town. Assessed values of real property and tangible personal property were established by the Town Assessor's office at 100% of appraised market value as of December 31, 2021. A complete revaluation of all property was performed as of December 31, 2021 as required by the State. The assessed values were effective for the property levy for fiscal year 2022-2023. The assessed value of motor vehicles is determined annually at 100% of retail market value, net of State of Rhode Island credits. Taxes are due in equal quarterly installments on September 1st, December 1st, March 1st, and June 1st during the fiscal year. A fifteen (15) day grace period from the due date is given before penalties and interest are incurred.

The Town entered into a contractual relationship with a law firm to act as a collection agency to pursue delinquent tangible and personal property accounts. The Town has forwarded past due accounts for collection. At June 30, 2023, an allowance for doubtful accounts totaling \$77,730 has been established for the property taxes considered uncollectible.

An automatic lien is placed on the taxpayer's real property if payment has not been received by the due date. Interest is charged on past due accounts at a rate of 12% per annum calculated on the unpaid portion of the total tax.

The Town recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the *Codification of Governmental Accounting and Financial Reporting Standards* in the governmental fund financial statements. In those statements, unpaid property taxes at year end are recorded as property tax receivable and those property tax receivables which were not collected within 60 days immediately following the fiscal year are recorded as unavailable revenue. Unavailable revenue at June 30, 2023 amounted to \$166,184.

Net property taxes levied for the fiscal year 2022-2023 were based on an assessed value of approximately \$1,054,666,042 at December 31, 2021 and amounted to \$13,952,547. Total property tax recognized for the current fiscal year amounted to \$13,936,060 which represents 99.8% of the total 2022 levy. Of that amount, \$69,223 was collected within 60 days following year end, including tax revenue relating to current and prior years. Tax abatements for the year ended June 30, 2023 totaled \$16,968.

NOTE 6 – INFORMATION ABOUT CAPITAL ASSETS

Capital asset activity consists of the following at June 30, 2023:

<u>Accrued Compensated Absences</u> – Town employees receive vested rights to paid vacation and sick time at the end of their year of full-time employment with no pro rata payment if employment is terminated before the completion of a full year of service. An expenditure/expense is recognized each month as benefits are used, consistent with the standards established by GASB Statement No. 16.

NOTE 8 – NET POSITION/FUND BALANCE

The difference between assets, liabilities and deferred inflows and outflows is "Net Position" on the government-wide and fiduciary funds financial statements and "Fund Balance" on the governmental fund financial statements.

Financial statement presentation follows GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions. Under GASB Statement No. 54, fund balances are classified as non-spendable, restricted, or unrestricted (committed, assigned, or unassigned). Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town Council, such as appropriation or legislation. Assigned fund balance is constrained by the Town Council's intent to be used for specific purposes. The Town reports information regarding its financial position and activities in accordance with three classifications of fund balance: restricted, committed and assigned.

	Restricted Purposes		Committed Purposes		Assigned Purposes	
General Fund						
Education Contingency	\$	-	\$	-	\$	575,000

Cemetery Fund	29,307	-	
	\$ 210,533 \$	572,734	\$ 2,289,978

NOTE 9 – NET ASSETS - RESTRICTED

As of June 30, 2023, the Town has restricted \$3,073,245 of its General, Landfill Closure, and Special Revenue funds for contingency appropriations as follows:

General Fund Balance	\$ 1,159,950
Landfill Closure Fund Balance	84,482
Non-Major Governmental Fund Balance	 1,828,813
	\$ 3,073,245

NOTE 10 - INTERFUND RECEIVABLES AND PAYABLES

These balances resulted from the short-term advances from one fund (primarily the General Fund) to another fund. These advances were provided as either operating advances or reimbursement for expenditures that were paid by one fund on behalf of another fund. These amounts are expected to be repaid at certain future dates.

Interfund receivable and payable balances at June 30, 2023 are as follows:

Due From			Due to
O	ther Funds	O	ther Funds
\$	228,822	\$	2,097,737
	84,482		-
	916,990		227,663
	1,096,265		-
			1,159
\$	2,326,559	\$	2,326,559
	0	Other Funds \$ 228,822 84,482 916,990 1,096,265 -	Other Funds S 228,822 \$ \$ 84,482 916,990 1,096,265

Transfers are used to 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, 2) move receipts restricted to debt service from the funds collecting receipts to the debt service fund as debt service payments become due, and 3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary information.

Transfers between funds during the fiscal year ended June 30, 2023 are as follows:

	Tra	ansfers from	T	ransfers to
Fund	o	ther funds	C	ther funds
General Fund	\$	344,149	\$	(660,729)
Special Revenue Funds		21,000		(376,149)
Capital Projects Funds		671,729		
	\$	1,036,878	\$	(1,036,878)

NOTE 11 – LANDFILL POST-CLOSURE CARE COSTS

GASB Statement No. 18 – Accounting for Municipal Solid Waste Landfill Closure and Post-Closure Care Costs, requires the recognition of closure and post-closure costs of landfills as long-term liabilities. State and federal laws and regulations require the Town perform certain maintenance and monitoring functions for 30 years after its landfill has been closed. The estimated liability of \$736,290, was reported in the Town's financial statements as a long-term debt. This estimate is made up of costs for a bulldozer and excavator in the amount of \$233,460, and survey, site preparation and remedial work in the amount of \$502,830. During fiscal year 2023, no expenses were incurred for survey, site preparation or remedial work, leaving a closure cost balance of \$201,838 at June 30, 2023.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

At June 30, 2023, the Town had several lawsuits pending and had been placed on written notice of potential claims. The Town intends to vigorously pursue its claims and/or defend its position with respect to each matter. In the opinion of the Town's legal counsel, the Town's liability with respect to these cases, if any, was not determinable. It is the opinion of Town management, based in part on the advice of legal counsel, that settlement on the above lawsuits will not materially affect the Town's financial position.

NOTE 13 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town maintains insurance covering each of those risks of loss.

The Town is insured under a statewide municipal risk management pool. Rhode Island Inter-Local Risk Management Trust, Inc. (the Trust) requires annual premiums based on the pool's experience. The Trust offers Rhode Island cities and Towns general liability and workers compensation insurance which is self-sustaining through member premiums and is reinsured through commercial companies to reduce its exposure to large losses. The agreement with the Trust states that for premiums paid by members, the Trust will assume financial responsibility for members' losses up to the maximum amount of insurance purchased, less deductible amounts. If a single loss is above the Trust's retention and reinsurance coverage the excess liability reverts to the member organization against which the claim was originally made. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 14 – PENSION PLAN

Effective October 1, 1979, the Town established a defined contribution plan, the Town of Exeter Money Purchase Pension Plan, to provide retirement benefits to all eligible employees as approved by the Town Council. The plan provides for employer only contributions made at rate of 8.0% of total compensation. Eligibility requirements call for employees to have completed one year and one thousand hours of service. Contributions are made by the Town on behalf of eligible employees in accordance with a vesting schedule documented within the retirement plan. Any amends to the plan require authorization from the Town Council. As of November 1, 2010, the Town retained the services of the International City County Management Association (ICMA) to administer the plan on an ongoing basis. All assets were transferred to ICMA who handles distributions, plan administration, investing, etc. As of June 30, 2023, the plan had 21 active participants and made contributions totaling \$128,519.

NOTE 15 – DEFERRED COMPENSATION PLAN

The Town offers its municipal employees a deferred compensation plan established in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to certain municipal employees, permits the deferral of a portion of their salary until future years. The deferred compensation is payable to employees upon termination, retirement, death or unforeseen emergency.

The Town placed the deferred compensation plan assets into trust for the exclusive benefit of plan participants and beneficiaries in accordance with Governmental Accounting Standards Board (GASB) Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans,

The Town has little administrative involvement and does not perform the investing function for the plan; the Town does not hold the assets in a trustee capacity and does not perform fiduciary accountability for the plan. Therefore, the Town employees' deferred compensation plan created in accordance with IRC 457 is not reported in the financial statements of the Town.

NOTE 16 – RELATED PARTIES

The Town of Exeter reviews its records on an annual basis to determine if any related party transactions exist that would represent a conflict of interest with parties related to its officers and department heads. No such transactions were noted in the fiscal year ended June 30, 2023.

TOWN OF EXETER, RHODE ISLAND OTHER SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY COMPARISON – GENERAL FUND June 30, 2023

Budgetary Basis of Accounting: The General Fund annual operating budget is in conformity with the legally enacted budgetary basis, which differs from accounting principles generally accepted in the United States (U.S. GAAP) in several regards. Budgets are adopted on the modified accrual basis of accounting, except that budgetary revenues include subsidies from fund balance previously recognized under U.S. GAAP and budgetary expenditures when legally binding orders (encumbrances) are placed.

<u>Budgetary adoption</u>: It is the responsibility of the Town Council to prepare a proposed budget for the Town for the following fiscal year no later than 10 days prior to the Financial Town Meeting held to adopt said budget. Public hearings are conducted on the recommended budget and the final recommended budget is legally enacted through an ordinance at the Financial Town Meeting. All budget appropriations except an appropriation for capital expenditures, lapse at the end of each fiscal year. An appropriation for a capital expenditure shall continue in force until the purpose for which it was made has been accomplished or abandoned; an appropriation is considered abandoned if two fiscal years following the date of appropriation pass without any disbursement from or encumbrance of the appropriation.

<u>Budget control</u>: The level of budgetary control for the General Fund (that is, the level at which expenditures cannot legally exceed appropriations) is fixed by resolution of the Annual Financial Town Meeting. The resolution authorizes the Town Council to spend within the total sum appropriated for municipal purposes. While this restriction prohibits spending in excess of the authorized budget, the policy enables the Town Council to use the Fund Balance within the overall appropriations budget to offset over expenditures that may arise within a specific budget account.

Because accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other sources of financial resources over expenditures and other uses of financial resources for the year ended June 30, 2023, is presented below:

	_	eneral Fund GAAP Basis
Total Revenues and Other Financing Sources General Fund - GAAP	\$	17,621,990
Total Revenues - Budgetary Basis	\$	17,621,990
Total Expenditures and Other Financing Uses General Fund - GAAP Less: State trooper education expenditures, not part of budget	\$	17,769,474 (183,600)
Total Expenditures - Budgetary Basis	\$	17,585,874
Change in Fund Balance - General Fund - GAAP State trooper education expenditures, not part of budget	\$	(147,484) 183,600
Excess of Revenues over Expenditures - Budgetary Basis	\$	36,116
		,

NONMAJOR OTHER GOVERNMENTAL FUNDS

Special Revenue Funds:

Special Revenue Funds are used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government, and which therefore cannot be diverted to other uses.

Preservation and Technology Fund – This fund accounts for amounts allocated from fees collected for filing of deeds and other instruments and to use such amounts for document preservation and technological upgrades.

Emergency Management – This fund accounts for the amounts received from various sources to assist the Town with emergencies situations.

Planning Board Project Review Fees – This fund accounts for the amounts received from developers to be held for disbursement for consultants and other expenses related to the Town's review of development plans.

Capital Facilities Impact Fees – This fund accounts for the amounts received for impact fees assessed for new residential building permits, which shall be maintained by the Town until such time as to be expended for construction of public facilities capital improvements of reasonable benefit to the development paying the fee.

Community Development Block Grant (CDBG) – This fund accounts for the amounts received from the Federal Housing and Urban Development grant monies from the State of Rhode Island for distribution to area grant applicants for the benefit of low to moderate income recipients.

Property Revaluation Fund – This fund accounts for the amounts received from annual appropriations from approved General Fund budgets to be set aside for costs of state-mandated revaluations.

Spay/Neuter Fund – This fund accounts for amounts received from dog license fees to be expended for the spay/neuter program. In addition, the fund holds deposits from citizens adopting dogs and/or cats that have not been neutered until such time as those individuals submit evidence of the animals neutering. Amounts that may be forfeited shall be used for approved spay/neuter program.

Memorial Day Parade – This fund accounts for amounts received from the parade committee that they collected from public donations and to disburse those funds at direction of the committee. In the years that the Town makes an appropriation for the parade, that amount would also become part of the fund.

Pension Liability Fund – This fund accounts for the amounts appropriated for contingency related to possible amounts that may be required in bringing the pension plan up to requirement of various changes in pension laws and regulations.

Historic Preservation Fund – This fund accounts for the amounts appropriated for the preservation and restoration of historic buildings in Town.

Veterans' Memorial Fund – This fund accounts for the amounts appropriated for the repairs and maintenance of a memorial in Town.

Animal Shelter Donations Fund – This fund accounts for all appropriations and donations made to the shelter by residents.

Social Service Grants— This fund accounts for the amounts received from grantors and donors for the welfare office to assist those in need.

Open Space – This fund accounts for the amounts received from appropriations and donations made for land dedications and preservation.

Performance Bonds – This fund was established to account for all cash received from perform bonds on all remaining improvements (i.e. landscaping, asphalting, solar, other) required to be completed. In the event the developer does not perform the required tasks, the Town will use these funds to complete the required improvements. If all requirements are met, the bods are returned at the end of the process.

Capital Projects Funds:

The Capital Projects Funds account for all resources used for the acquisition and/or construction of capital facilities by the Town.

Vehicle Replacement Fund – This fund is designated to receive amounts billed to others for Town vehicles used for traffic control. Such amounts are expended to purchase replacement vehicles as needed.

Public Works/Roads – This fund accounts for the amounts appropriated for road resurfacing projects.

Computer Upgrades Fund – This fund accounts for the amounts appropriated to be expended to improve computer equipment for the Town.

Public Works/Equipment – This fund accounts for the amounts appropriated for the initial payments for new equipment for the Public Works Department.

Town Hall Renovations Fund – This fund accounts for the amounts appropriated to be expended for upgrades, improvements and retrofitting of offices at Town Hall.

Chelsea Park (Renovations and Playground) Fund – This fund accounts for the amounts appropriated to be expended for preventive maintenance and renovations for the Library and Chelsea Park Playground.

Video Equipment Fund – This fund accounts for the amounts appropriated to be expended for video equipment and broadcasting fees for Council meetings.

Office Equipment Fund – This fund accounts for the amounts appropriated to be expended for purchasing new office equipment.

GIS Mapping System Fund – This fund accounts for the amounts appropriated to be expended for purchasing the new GIS mapping system.

Transfer Station Move Fund – This fund accounts for the amounts appropriated related to possible amounts that may be required to move the transfer station from its current location.

New Town Hall Fund – This fund accounts for the amounts appropriated related to possible amounts that may be required to move or renovate the Town Hall building.

Comprehensive Town Plan – This fund accounts for the amounts appropriated to be expended for the Town's comprehensive plan.

Animal Shelter Improvements Fund – This fund accounts for the amounts appropriated to be expended for improvements to the animal shelter facility.

Transfer Station Improvements Fund – This fund accounts for the amounts appropriated to be expended for improvements to the transfer station.

Website Development Fund – To set aside funds to develop a professional website for the town and subsequently for future updates that may be needed.

Economic Development Fund – A fund established to accumulate and serve to offset expenses incurred for economic development throughout the town.

Library Fund – The board of the library voted to allow certain money received such as grants or other funds that the library board deems appropriate to be held by the Town of Exeter to accumulate and be used for capital projects to be determined by the Library Board as they are identified and approved.

Spill Control & Countermeasure Fund – To set aside funds required by the Department of Emergency Management for projects at the Department of Public Works.

Opioid Settlement Fund – This fund accounts for payments given from the opioid settlement. The money is set aside for opioid related expenditures.

GPS Mapping & Stormwater Fund – This fund accounts for the amounts appropriated to be expended for purchasing and updating the GPS mapping and stormwater systems.

Permanent Fund:

The Permanent funds are resources that are legally restricted to the extent that only earnings and not principal may be used for purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry.

Cemetery Fund – This fund was established to account for the assets received by the Town from the families of Exeter residents with the understanding that the Town would provide grounds care for certain cemetery plots in the Town.

TOWN OF EXETER, RHODE ISLAND ANNUAL SUPPLEMENTARY INFORMATION NOTES TO THE ANNUAL SUPPLEMENTARY REPORT (MTP2) June 30, 2023

NOTE 1 – BASIS OF PRESENTATION

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2 – REPORTABLE GOVERNMENT SERVICES

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3 – ALLOCATIONS

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's (or Town's) budget and accounting system. To report these costs, the City (or Town) made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4 – EMPLOYEE GROUPS – COMPENSATION AND BENEFIT COSTS

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department police officers (e.g., uniform personnel including, leadership positions)
- Fire Department fire fighters (e.g., uniform personnel including, leadership positions)
- Centralized Dispatch Department civilian dispatchers only
- Education Department professional staff providing direct services to students
- For the remaining departments all employees' compensation and benefits are reported under Group A

TOWN OF EXETER, RHODE ISLAND ANNUAL SUPPLEMENTARY INFORMATION NOTES TO THE ANNUAL SUPPLEMENTARY REPORT (MTP2) June 30, 2023

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5 – EDUCATION REVENUE AND EXPENDITURES

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: http://www.municipalfinance.ri.gov/.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable President and Members of the Town Council Exeter, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Exeter, Rhode Island, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town of Exeter, Rhode Island's basic financial statements, and have issued our report thereon dated November 6, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Exeter, Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Exeter, Rhode Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Exeter, Rhode Island's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Exeter, Rhode Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
