Independent Auditors' Report

The Honorable Members of the Town Council Town of Bristol, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bristol, Rhode Island as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents. The financial statements of Bristol Warren Regional School District (BWRSD), which is a discretely presented component unit and not a major funds of the Town of Bristol, were audited by other auditors.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

We did not audit the financial statements of Bristol Warren Regional School District which represents 23 percent, -103 percent and 50 percent, respectively of assets, net position, and revenues of BWRSD and the Town of Bristol, Rhode Island combined. Those statements were audited by other auditors and insofar as it relates to the amounts included for the Town, is based solely on the report issued to Bristol Warren Regional School District.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bristol, Rhode Island, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

The Town implemented Governmental Accounting Standards (GASB) Statement No.84, Fiduciary Activities in fiscal year 2021.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, the Schedule of Funding Progress, Schedule of Changes in Net Pension Liability (Asset) and Related Ratios, and Schedule of Employer Contributions, Schedule of Investment Returns, and Schedule of Contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Bristol, Rhode Island's basic financial statements. The Combining Non-Major Governmental Funds, Combining Pension and Other Employee Benefit Trust Funds, Supplementary Tax Collector's Annual Report and Annual Supplemental Transparency Report (MTP2) as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Non-Major Governmental Funds, Combining Pension and Other Employee Benefit Trust Funds, Supplementary Tax Collector's Annual Report, and Annual Supplemental Transparency Report

(MTP2) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Non-Major Governmental Funds, Combining Pension and Other Employee Benefit Trust Funds, Supplementary Tax Collector's Annual Report and Annual Supplemental Transparency Report (MTP2) are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2022, on our consideration of the Town of Bristol, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Bristol, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Bristol, Rhode Island's internal control over financial reporting and compliance.

Haque, Sahady 2 Co. PC

Fall River, Massachusetts February 16, 2022

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

As management of the Town of Bristol, Rhode Island (Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2021 (FY2021).

Financial Highlights

- Government-Wide Financial Statements (Primary Government)
 - The assets of the Town exceeded its liabilities as of June 30, 2021, by \$57,170,718 (net position). The Town realized an increase in net position of \$ 12,945,249.
- Government-Wide Financial Statements (Business-Type Activities)
 - As of June 30, 2021, the business-type activities reported net position of \$22,295,741, an increase of \$221,798 in comparison to the prior year, principally the result of an increase in user fees revenue.
- Governmental Fund Financial Statements
 - As of June 30, 2021, the Town's governmental funds reported combined ending fund balances of \$19,619,332, an increase of \$4,194,224 in comparison with the prior year, principally the result of additional revenues.
 - As of June 30, 2021, the unassigned fund balance for the General Fund was \$7,550,337, or approximately 14% of total General Fund revenues.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements, which are comprised of three components (1) Government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on the entire Town's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. The amount of net position is widely considered a good measure of the Town's financial health as increases or decreases in the Town's net position serves as a useful indicator of whether the financial position is improving or deteriorating.

The *Statement of Activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of *the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave). The statement also presents a comparison between direct expenses and program revenues for each function of the Town.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

Overview of the Financial Statements (continued)

Government-wide financial statements (continued)

The Governmental Activities section is principally supported by taxes and intergovernmental revenues (federal and state grants.) The Business-Type Activities section is primarily supported by user fees or charges which are intended to recover all or a significant portion of the activities' costs.

The governmental activities of the Town include broad functions of the general government, public safety, public works, community services and education. The business-type activity of the Town is the Sewer operation.

In the Statement of Activities, the operations of the Town are presented in a format that reports the net of expenses and revenues of its individual functions – the objective being to report the relative burden of each of the Town's functions to the taxpayers. Revenues offsetting related functional expenses are separated into three categories: charges for services, operating grants and contributions, and capital grants and contributions.

The Statement of Net Position and Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. They take into account all revenues recognized and expenses incurred even if the cash has not been received or paid. The discretely presented component unit represents a legally separate entity, the Bristol-Warren Regional School District, for which the Town has financial accountability, but functions independent from the Town. The entity operates as a government but is reported on the accrual basis of accounting, similar to a private sector business. Additional information about the Town's component unit is presented in the notes to the financial statements.

The government-wide financial statements can be found on pages 12-15 of this report.

Fund financial statements. Traditional users of governmental fund financial statements will find the fund financial statement presentation to be the most familiar. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific projects, activities or objectives. The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Most of the basic services provided by the Town are financed through Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. This approach is known as the flow of current financial resources measurement focus and modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or susceptible to accrual (i.e. measurable and available to liquidate the liabilities of the current period.) Expenditures are generally recorded when liabilities are incurred except for those related to long-term liabilities, which are recorded when due and payable.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

Overview of the Financial Statements (continued)

Governmental funds (continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town maintains approximately 97 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data for the other governmental funds are combined into a single, aggregated presentation.

The Town adopts an annual appropriation budget for its General Fund. Budgetary comparison schedules have been provided for to demonstrate compliance with budgets and are presented on pages 95-96 of this report.

The basic governmental fund financial statements can be found on pages 16-19 of this report.

Proprietary funds. Proprietary funds are used to account for business-like activities provided to the general public (enterprise funds) or within the government (internal service funds). These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The economic resources measurement focus and the accrual basis of accounting is used for Proprietary funds. The town uses an enterprise fund to account for its sewer operations.

The basic proprietary fund financial statements can be found on pages 20-23 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Town's own programs. The economic resources measurement focus and the accrual basis of accounting is used for Fiduciary funds. The accounting used for Fiduciary funds is much like that used for proprietary funds. The Fiduciary funds maintained by the Town include several private-purpose trusts, the Police Retirement Trust Fund, the OPEB Trust Fund and Custodial funds. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The basic fiduciary fund financial statements can be found on pages 24-25 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26-95 of this report.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

Overview of the Financial Statements (continued)

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* which presents schedules relating to the Town's pension and other postemployment benefit plans, as well as budgetary comparison schedules for the General Fund to demonstrate compliance with its respective budget. Required supplementary information can be found on pages 96-116 of this report. *Other supplementary information* which presents combining financial statements, tax collector's annual report and annual supplemental transparency report is also presented. Other supplementary information can be found on pages 117-158 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows exceeded liabilities and deferred inflows by \$57,170,718 as of June 30, 2021.

	Governmental Activities			ss-Type vities	Total		
	2021	2020	2021	2020	2021	2020	
Assets							
Current assets	\$ 23,910,564	\$ 19,103,726	\$ 3,010,025	\$ 3,058,731	\$ 26,920,589	\$ 22,162,457

Net Position							
Net investment in capital assets	38,494,814	35,147,588	21,524,630	21,295,265	60,019,444	56,442,853	
Restricted	9,720,462	8,026,142	-	-	9,720,462	8,026,142	
Unrestricted	(13,340,299)	(19,460,288)	771,111	778,678	(12,569,189)	(18,681,610)	
Total net position	\$ 34,874,977	\$ 23,713,442	\$ 22,295,741	\$ 22,073,943	\$ 57,170,718	\$ 45,787,385	

The general capital assets (e.g., land, buildings, machinery, and equipment) of the governmental activities of the Town less related outstanding debt equals \$38,494,814. It should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. A portion of the outstanding debt of the governmental activities was incurred for the installation of infrastructure.

Governmental Activities. Governmental activities increased the Town's net position by \$12,723,451 principally the result of a decrease in expenditures and gain on disposal of assets in the current year.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

Business-Type Activities. Business-type activities increased the Town's net position by \$221,798 including transfers of \$75,000 to the governmental funds.

Government Activities Expenditure Chart

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2021, the Town's governmental funds reported combined ending fund balances of \$19,619,332. Approximately 20%, or \$4,004,110, constitutes committed and assigned fund balances, which the Town Council has designated for specific purposes. Approximately 30%, or \$5,894,760, constitutes unassigned fund balance, which is available for spending at the Town's discretion. Approximately 46%, or \$9,041,389, is restricted by outside parties to be used for specific purposes. The remaining 4%, or \$679,073, is nonspendable, representing 1) amounts required to be maintained intact, 2) unexpendable inventory items, or 3) notes receivable that will not be collected in time to liquidate current obligations.

The General Fund is the chief operating fund of the Town. As of June 30, 2021, the total fund balance of the General Fund was \$11,655,903 of which \$7,550,337 was unassigned. Unassigned fund balance represents approximately 14% of total General Fund revenues. Of the total fund balance, \$716,381 was assigned to meet fiscal year 2022 General Fund expenditures.

The fund balance of the General Fund was increased by \$3,408,235 in fiscal year 2021.

Proprietary Fund. The Town's Sewer Enterprise Fund provides the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

Unrestricted net position of the Sewer Enterprise Fund at the end of the fiscal year amounted to \$771,111.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

General Fund Budgetary Highlights

Actual Revenues exceed budgeted revenues by \$1,615,031, primarily as a result of Coronavirus Relief Funding (CRF) received by the Town. Investment earnings came in over budget due to greater than anticipated revenues primarily related to market conditions. Actual expenditures for the year were \$224,929 more than budgeted primarily due to an increase in general government expenditures of \$210,091 and public safety expenditures of \$119,511. Both expenditures for public works and community services were less than budgeted by \$28,803 and \$33,126 respectively.

Capital Assets and Debt Administration

Capital Assets

The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2021, amounts to \$123,070,297, net of accumulated depreciation. This investment in capital assets includes land, buildings and improvements, vehicles, machinery and equipment, infrastructure and construction in progress.

Several major additions to the Town's capital assets related to its governmental activities were made during the year, including sewer system repairs, school renovations, dock repairs and expansion, drainage projects, equipment purchases, and golf course improvements.

Additional information about the Town's capital assets can be found in Note 5 to the basic financial statements.

Management Discussion & Analysis (MD&A)

For the Year Ended June 30, 2021

Long-term debt

On June 30, 2021, the Town has total bonded debt, loans and capital leases outstanding of \$62,790,282, of which \$33,527,244 is backed by the full faith and credit of the Town.

State statutes limit the amount of general obligation debt a governmental entity may issue to 3% of its total equalized valuation. The current debt limitation for the Town is \$96,626,232, which significantly exceeds the Town's current outstanding general obligation debt.

Town of Bristol's Outstanding Debt - Primary Government

Additional information about the Town's long-term debt can be found in Note 6 to the basic financial statements.

Economic Factors and Next Year's Budgets and Rates

- The current 2021 average unemployment rate for Bristol County, which includes the Town, is 5.9%. This compares with an unemployment rate of 5.2% for the State of Rhode Island and a national unemployment rate of 5.2%.
- \$716,381 of the General Fund's fund balance was assigned to meet fiscal year 2022 General Fund expenditures.
- The Town's tax rate increased from \$14.07 to \$14.38 per thousand dollars of assessed value from the 2021 to the 2022 fiscal year.

Component Unit

The Bristol Warren Regional School District is a component unit of the Town. Refer to separately issued financial statements.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Treasurer's Office, Town Hall, 10 Court Street, Bristol, Rhode Island.

Reconciliation of the Governmental Funds Statements of Revenues, Expenditures and

Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2021

Net change in fund balances - total governmental funds	\$ 4,194,224
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	3,574,551
Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in deferred inflows of resources.	(151,524)
The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
items. Long term debt activity Deferred charges on bond refunding	(207,765) (66,440)
In the Statement of Activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due.	46,880
The OPEB expense reported in the Statement of Activities requires the use of current financial resources and is not reported as an expenditure in the governmental funds	1,792,114
Some expenses reported in the Statement of Activities, such as compensated absences do not require the current financial resources, and therefore, are not reported as expenditures in the governmental funds.	14,089
Some expenses reported in the Statement of Activities, such as state net pension liability do not require the current financial resources, and therefore, are not reported as expenditures in the governmental funds. MERS Retirement Plan	 (61,914) 3,589,236

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies:

The accompanying basic financial statements of the Town of Bristol, Rhode Island (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental entities (U.S. GAAP). In certain circumstances, summaries of the Town's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

Financial reporting entity:

The Town was founded in 1680 and is governed under the 1971 Bristol Home Rule Charter ("the Charter"), which provides for a Town Council/Town Administrator form of Government. Legislative authority is vested in a five-member Town Council elected to biennial terms. All legislative powers of the Town, except such powers as are reserved by state law, are vested in the Town Council by the Charter, including the ordering of any tax, making of appropriations and transacting of any other business pertaining to the financial affairs of the Town.

The biennially elected Town Administrator serves as chief executive officer over all municipal services, including public safety (police, fire, animal control, and harbor patrol); public works (sanitation, highways and streets, engineering, civic services and community development); community services; and general administrative services.

In 1991, the General Assembly authorized the Towns of Bristol and Warren to form a regional school district comprised of all public schools in the Towns of Bristol and Warren to include all grades and programs then provided and any other grades and programs specified by the regional school committee.

Component Unit:

The Component unit is reported in a separate column to emphasize that it is legally separate from the Town, but is included because the Town provides approximately 70% of the member Town contributions; as a result, the Bristol Warren Regional School District (the "District") is considered a component unit of the Town.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the Town applied the criteria prescribed by Governmental Accounting Standards Board ("GASB") Statement No. 14, as amended by GASB Statement Nos. 39 and 61. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Through the application of GASB criteria, the Bristol Warren Regional School District has been presented as component unit of the Town in the accompanying government-wide financial statements. The District operates the schools within the Towns of Bristol and Warren in Rhode Island. The School Committee is elected by the citizens of Bristol and Warren. The District does not have the authority to levy taxes and submits budget requests to the Towns of Bristol and Warren. Complete financial statements for the District can be obtained from the District's administrative office at 151 State Street, Bristol, Rhode Island 02809.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Basis of presentation:

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major and other funds.) Both the government-wide and fund financial statements are required to categorize primary activities as either governmental or business-type. The Town's public safety, public works, community services, education and general and financial administrative services are classified as governmental activities. The Town's Sewer Fund is classified as a business-type activity.

Government-wide financial statements:

The Statement of Net Position and Statement of Activities display information about the Town as a whole and distinguish between governmental and business-type activities. They include all funds of the Town except for fiduciary funds. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions (public safety, public works, etc.) The functions are also supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with functions (public safety, public works, community and economic development, etc.) Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function) are normally covered by general revenues (property, sales taxes, intergovernmental revenues, interest income, etc.)

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Basic Financial Statements - Fund financial statements:

Financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balances/net position, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. Separate fund financial statements are provided for governmental, proprietary and fiduciary funds. However, fiduciary funds are not included in the government-wide financial statements since these assets are held for the benefit of private parties and retirees and cannot be used to satisfy obligations of the primary government.

Major individual governmental and proprietary funds are emphasized by being reported as separate columns in the fund financial statements. Non-major governmental funds are reported in the aggregate in a separate column in the fund financial statements. A fund is considered major if it is the primary operating fund of the Town or meets both of the following criteria:

- (a) Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least ten percent (10%) of the corresponding total for all funds of that category or type; and
- (b) Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental fund or enterprise fund are at least five percent (5%) of the corresponding total for all governmental and enterprise funds combined.

All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Fund types used by the Town and a description of the funds comprising each are as follows:

Governmental funds:

Governmental funds are used to account for operations that supply basic government services. The Town uses the following governmental funds:

General fund:

The **General fund** is the primary operating fund of the Town and is always classified as a major fund. It is used to account for and report all financial resources and activities not accounted for and reported in another fund. The General fund is the only fund that operates a positive unassigned fund balance.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Governmental funds (continued):

Special revenue funds:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects. The Town's special revenue funds are all considered nonmajor funds.

Capital projects funds:

Capital projects funds are used to account for and report financial resources to be used for the acquisition or construction of major capital facilities or specific capital outlays. The Town's aggregate capital project funds are all classified as a non-major funds.

Permanent funds:

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings and not principal may be used for purposes that support the Town's programs. The Town's permanent funds are all considered non-major funds. All resources of these funds, including any earnings on investments, may be used except for \$577,617 required to be preserved as capital.

Proprietary funds:

Proprietary funds are used to account for business-like activities provided to the general public ("enterprise funds") or within the government ("internal service funds"). These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The Town's only enterprise fund, the **Sewer fund**, is considered a major fund. The Town has no internal service funds.

Fiduciary funds:

Fiduciary funds are used to report assets held by the Town in a trustee or agency capacity and, therefore, cannot be used to support the Town's own programs. The following fiduciary funds are used by the Town:

Police retirement trusts:

The **Police retirement trust fund** accounts for contributions made by the Town and its participating employees to provide retirement benefits to participating employees.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Fiduciary funds (continued):

Other postemployment benefits (OPEB) trust:

The **OPEB trust fund** accounts for contributions made by the Town and its participating employees to provide postemployment benefits (health and life insurance) to participating employees. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Town's Retiree Benefits Plan and additions to/deductions from the Town's fiduciary net position have been determined on the same basis as they are reported by the Town. For this purpose, the Town recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Private purpose trust:

The Town's **private purpose trust funds** are used to account for resources legally held in trust for use by parties outside of the Town in accordance with a donor's instructions, and cannot be used at the Town's discretion or to support the Town's general operations. These trusts are for the benefit of local educational organizations, social benefit groups, and other private parties.

Custodial:

Custodial funds are established when the Town holds assets in custody for others.

Measurement focus and basis of accounting:

The government-wide financial statements, proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are susceptible to accrual. Susceptibility occurs when revenues are both measurable and available for liquidating liabilities of the current period. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (sixty days). Revenues not considered to be measurable and available are recorded as deferred inflows of resources. Expenditures, including capital outlays, are recognized when a liability has been incurred, except for those involving debt service and other long-term obligations that are recognized when paid.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Measurement focus and basis of accounting (continued):

GASB 63 amended GASB 34 to incorporate deferred outflows of resources into the financial reporting model. Deferred outflows of resources are defined as a consumption of net position by the government that is applicable to a future reporting period. It has a positive effect on net position, similar to assets. Deferred inflows of resources are defined as an acquisition of net position by the government that is applicable to a future reporting period. It has a negative effect on net position, similar to liabilities.

Those revenues susceptible to accrual are property taxes, special assessments, federal impact aid, state aid, meals and hotel taxes collected by the State of Rhode Island (the State) on behalf of the Town, interest and charges for services. Fines, licenses and permit revenues are not susceptible to accrual because generally they are not measurable until received in cash; therefore, they are recognized when received.

Recognition of grant revenues is based on the susceptibility of accrual as determined by the legal and contractual requirements established by each grantor. For grants not restrictive as to specific purposes and revocable only for failure to comply with general prescribed requirements, revenues are recognized when actually received. Where expenditure is the prime factor in determining eligibility, grant revenue is recognized as allowable expenditures are made provided they are collected during the year or within 60 days subsequent to year-end. Prior to expenditure, proceeds are recorded as deferred inflows of resources.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, and then use unrestricted resources as they are needed.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Sewer Fund are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Cash and cash equivalents:

Cash and cash equivalents consist of cash on hand, time and demand deposits and short-term investments maturing within three months from the date of acquisition.

Under Rhode Island General Law, depository institutions holding deposits of the State, its agencies, or governmental subdivisions of the State shall, at a minimum, insure or pledge eligible collateral equal to 100% of the deposits which are time deposits with maturities greater than 60 days. Any institution not meeting certain minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to 100% of the deposits, regardless of maturities. The Town complied with these requirements. The Town does not have a deposit policy for custodial credit risk or other risks.

Investments:

The Town's investment in a certificate of deposit is recorded at cost or amortized cost.

Investments, excluding certificates of deposits, including those held in the Police Pension Trust, are reported at fair value, based on quotations from applicable national securities exchanges. Unrealized gains and losses from changes in fair value are recognized as investment income (loss). The State does not have pertinent laws regarding investments that apply to cities and towns. The Town has an investment policy for custodial credit risk or other risks relating to any investment of taxpayer dollars, except investments in the OPEB Trust. The investment policy applies to investments with a maturity of one year or less, with the primary objective being the preservation of capital. The investment policy authorizes investments in the following instruments: U.S. Treasury Bills, U.S. Treasury Notes or Bonds, U.S. Agency obligations, certificates of deposit, repurchase agreements, commercial paper, Eurodollar time deposits, money market mutual funds and collective short-term funds.

Fair value measurements:

The Town categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are inputs, other than quoted prices, that are observable for the asset, either directly or indirectly. Level 3 inputs are unobservable inputs for an asset.

Interfund transactions:

Transactions between funds have been eliminated in the government-wide financial statements but fully presented within the governmental fund financial statements with no elimination made between or within funds. Reimbursements are accounted for as expenditures in the reimbursing fund and reductions to expenditures in the reimbursed fund. All other interfund transactions in the governmental fund financial statements are operating transfers on the operating statements of the funds involved.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Interfund transactions (continued):

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due from/to other funds" (current portion) or "advances from/to other funds" (noncurrent portion). All other outstanding balances between funds are reported as "due from/to other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Intergovernmental receivables:

Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, receivables are recorded as soon as all eligibility requirements imposed by the provider have been met. For expenditure-driven grants, receivables are recorded when the qualifying expenditures are incurred and all other grants requirements are met.

These receivables are considered 100% collectible; therefore, the Town has not reported an allowance for uncollectible grants.

Inventory:

The Town maintains an "inventory" of fuel for use in Town-owned vehicles in various departments. Inventory is maintained on a periodic system and is stated at cost (first-in, first-out method of inventory valuation). Inventories in the governmental funds are recorded as expenditures when consumed.

Capital assets:

In the government-wide financial statements, fixed assets are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at the price that would be paid to acquire an asset or liquidate a liability at the date of donation (acquisition value).

Capitalizable fixed assets are defined by the Town as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Capital assets (continued):

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets estimated useful lives using the straight-line method. The ranges of estimated useful lives by type of asset are as follows:

	Years
Land improvements	15-30
Buildings and improvements	25-50
Machinery, equipment and furniture	3-30
Vehicles	3-25
Sewer lines	50-100
Infrastructure	20-65

Capital assets acquired by governmental funds are accounted for as capital outlay expenditures.

Compensated absences:

The liability for compensated absences reported in the government-wide and proprietary fund financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

In the governmental fund financial statements, vested or accumulated vacation and sick leave that is expected to be liquidated with expendable financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it.

Long-term obligations:

In the government-wide and proprietary fund financial statements, long-term debt and other longterm obligations (including compensated absences) are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the term of the related debt using the effective interest method. Bond issuance costs are expensed as incurred.

In the governmental fund financial statements, long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The proceeds of debt issued is reported as another financing source. Bond premiums are reported as other financing sources while discounts are reported as other financing uses.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Deferred inflows and outflows of resources:

Deferred inflows of resources represent the acquisition of net assets that is applicable to a future reporting period. Deferred outflows of resources represent the consumption of net assets that is applicable to a future reporting period.

Fund balance / net position:

Government-wide and proprietary fund financial statements:

The Town of Bristol's net position has been segregated into the following three components:

Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvements of those assets.

Restricted – assets that have been limited to uses specified either externally by creditors, contributors, laws or regulations of other governments or internally by enabling legislation or law; reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted – a residual category for the balance of net position. All other net positions that do not meet the definition of "restricted" or "net investment in capital assets."

Governmental fund financial statements:

Governmental fund equity is classified as fund balance. The Town's fund balance is reported in the following categories:

Non-spendable – amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact (such as corpus of an endowment fund).

Restricted – amounts that have been restricted to specific purposes either by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The Town's restricted fund balance consists principally of bond funds restricted for capital projects, amounts in permanent funds restricted for specific uses, and grant funds restricted for specific grant expenditures.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Fund balance / net position (continued):

Governmental fund financial statements (continued):

Committed – amounts constrained to specific purposes by the Town, using its highest level of decision-making authority.

Commitments will only be used for specific purposes pursuant to a formal action of the Town Council. A majority vote is required to approve, modify, or rescind a fund balance commitment.

Assigned – amounts that are intended by the Town to be used for specific purposes, but are neither restricted nor committed.

The Town Council delegates to the Town Administrator the authority to assign amounts to be used for specific purposes. Such assignments cannot exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund.

Unassigned – amounts available for any purpose; these amounts are reported only in the General fund.

Property taxes:

Real and personal property taxes are recognized as revenue in the year they are levied and become available. Taxes are levied in July on (a) eighty percent of the full and fair value of real and tangible personal property owned within the Town the previous December 31; and, (b) the value, as determined by the Rhode Island Vehicle Valuation Commission, of vehicles registered within the Town the previous calendar year, prorated for the actual number of days so registered, reduced by the amount exempt under the Motor Vehicle Phase-Out Program. Taxes levied in July are payable quarterly on August 15, November 15, February 15 and May 15. Taxes due and unpaid after the respective due dates are subject to interest and penalties. Failure to make payments by March 10 may result in a lien on the taxpayer's property.

Once levied, these taxes are recorded as receivables, net of estimated uncollectible amounts. In the governmental fund financial statements, property tax revenues have been recorded using the modified accrual basis of accounting. Under the modified accrual basis, real estate, personal property and other excise taxes levied are recorded as receivables in the year of the levy and as revenue when collected within the current year or expected to be collected within 60 days after the end of the current year. Taxes not collected within this time period are classified as deferred inflows of resources. Deferred inflows of resources are those where asset recognition has been met for which the revenue recognition criteria have not been met. The government-wide statements recognize property tax revenues when taxes are levied, net of an allowance for doubtful accounts. For 2021, Rhode Island general laws restrict the Town's ability to increase its total tax levy by more than 4.00% over that of the preceding fiscal year. An estimate for an allowance of uncollectible property taxes was recognized in 2021 for \$491,203.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Intergovernmental revenues:

State aid is recognized as revenue in the year in which funds are appropriated by the Rhode Island General Assembly, provided they are collected during the fiscal year

Expenditures may be incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. Composition of the ending fund balance will be determined by applying the following: In those instances where both restricted and unrestricted amounts are available, restricted amounts will be considered to have been spent first (as allowed and in compliance with stated and specified terms or requirements), followed by committed amounts, followed by assigned amounts, and then unassigned amounts.

Municipal Employees' Retirement System (MERS) of Rhode Island

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees' Retirement System (MERS) of Rhode Island and additions to/deductions from MERS' fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Bond issuance costs:

Bond issuance costs for governmental funds, government-wide operations and enterprise funds are recognized as expenditures/expenses in the current period.

Use of estimates:

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements. Estimates also affect the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1. Summary of significant accounting policies (continued):

Statement No. 95 "Postponement of the Effective Dates of Certain Authoritative Guidance." GASB statement No. 95 was effective immediately and postponed the effective dates of certain GASB Statements and Implementation Guides for one year from their respective original effectives dates to provide relief to governments and other stakeholders in light of the COVID -19 pandemic. The adoption of this statement provided for early adoption of any postponed GASB Statements and Implementation Guides.

Recently issued accounting pronouncements not yet effective:

GASB Statement 84, *Fiduciary Activities* is effective for periods beginning after December 15, 2019. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should present a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. The Town has implemented this standard in the current year.

GASB Statement 87, *Leases* is effective for periods beginning after June 15, 2021. The objective of this Statement is to improve accounting and financial reporting for leases by governments. It requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The impact of this standard will be evaluated by the Town of Bristol, Rhode Island's management.

GASB Statement 89, Accounting for Interest Cost Incurred before the End of a Construction Period is effective for periods beginning after December 15, 2019. The objectives of this statements are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This statement establishes accounting requirements for interest cost incurred before the end of a construction period be recognized as an expense for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The impact of this standard will be evaluated by the Town of Bristol, Rhode Island's management.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1.Summary of significant accounting policies (continued):

Recently issued accounting pronouncements not yet effective (continued):

GASB Statement 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61* is effective for periods beginning after December 15, 2019. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement also requires that a component unit in which a government has 100 percent equity interest account for its assets, deferred outflows of resources, liabilities and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component units. The Town of Bristol, Rhode Island has evaluated this standard and does not expect an impact to the financial reporting framework.

GASB Statement 91, Conduit Debt Obligations is effective for reporting periods beginning after December 15, 2021. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. A conduit debt obligation is defined as a debt instrument having all of the following characteristics: (a) There are at least three parties involved: (1) an issuer, (2) a third-party obligor and (3) a debt holder or a debt trustee; (b) The issuer and the third party obligor are not within the same financial reporting entity; (c) The debt obligation is not a parity bond of the issuer, not is it cross-collateralized with other debt of the issuer; (d) The third party obligor or its agent, not the issuer, ultimately receives the proceeds from the debt issuances; and (e) The third party obligor, not the issuer, is primarily obligated for the payment of all amounts associated with the debt obligation (debt service payments.) This Statement also addresses arrangements-often characterized as leasesthat are associated with conduit debt obligations. The Town of Bristol, Rhode Island is in the process of evaluating this Statement and will evaluate the impact prior to the required implementation of FY22.

GASB Statement No. 92, *Omnibus 2020* was originally effective for reporting periods beginning after June 15, 2020, however, it was postponed an additional year by GASB 95. The Statement is now effective for reporting periods after June 15, 2021. This statement enhances the consistency of authoritative literature by addressing practice issues identified during implementation and application of certain GASB Statements. The statement addresses a variety of topics including, but not limited to: effective dates of GASB 87 Leases for interim financial reports, reporting of transfers between the primary government and component unit defined benefit or defined benefit other post retirement benefit (OPEB) plan and the applicability of GASB 84 Fiduciary Activities to post employment benefit arrangements. The Town is in the process of evaluating this Statement and will evaluate prior to the required implementation of FY22.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 1.Summary of significant accounting policies (continued):

Recently issued accounting pronouncements not yet effective (continued):

GASB Statement No. 93, *Replacement of Interbank Offered Rates* was originally effective for reporting periods beginning after June 15, 2020, however, it was postponed an additional year by GASB 95. The Statement is now effective for reporting periods after June 15, 2021. The objective of this statement is to address those and other accounting and financial implications that result from the replacement of an IBOR. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate. LIBOR is expected to cease in exist in its current form at the end of 2021 prompting governments to amend or replace certain financial instruments. The Town is in the process of evaluating this Statement and will evaluate prior to the required implementation of FY22.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* is effective for fiscal years beginning after June 15, 2022. The primary objective of this statement is to improve financial reporting by addressing issues related to public-private and publicpublic partnership arrangements (PPPs.) A PPP is an arrangement in which a government contracts with an operator to provide public services by conveying the control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset for a period in time in an exchange or an exchange-like transaction. This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs.) An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining or operating an underlying nonfinancial asset for a period of time in an exchange-like transaction. The Town is in the process of evaluating this Statement and will evaluate prior to the required implementation of FY23.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* is effective for fiscal years beginning after June 15, 2022. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments.) This Statement (1) defines an SBITA, (2) establishes that an SBITA results in a right-to-use subscription asset, and intangible asset, and a corresponding subscription liability, (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of SBITA, and (4) requires note disclosures regarding a SBITA. The Town is in the process of evaluating this Statement and will evaluate prior to the required implementation of FY23.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* is effective for fiscal years beginning after June 30, 2021. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform, (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The Town is in the process of evaluating this Statement and will evaluate prior to the required implementation of FY22.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 2. Cash, cash equivalents and investments:

Cash and cash equivalents (deposits):

At June 30, 2021, the carrying amount of the Town's deposits, excluding the component unit and including \$9,464,318 of cash equivalents, was \$15,794,947 and the bank balance was \$16,071,668.

At June 30, 2021, the Town's deposits, including \$2,290,783 held in fiduciary funds, are categorized as follows:

	Insured/ collateralized in Town's		Total bank	Carrying
	name	Uninsured	balance	amount
Deposits:				
Demand deposits	\$ 6,607,350	\$ -	\$ 6,607,350	\$ 6,330,629
Money market	9,099,703	364,615	9,464,318	9,464,318
	\$15,707,053	\$364,615	\$16,071,668	\$15,794,947

At June 30, 2021, the carrying amount of the School District's deposits were \$9,491,873 and the bank balance was \$11,343,938, of which \$11,343,938 was insured was covered by either FDIC or collateral held in the District's name.

Other mutual funds	26,155,125	N/A	N/A	N/A
	\$44,013,918			

Interest rate risk:

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market value interest rates.

The majority of the Town's investments are held in stocks and mutual funds. These investments do not specify an interest rate; rather, the rate of return is dependent on operating results and economic conditions. The remaining investments are in long-term corporate and government bonds which have interest rates that are fixed for long-term periods and are subject to more variability in their fair value as a result of future changes in interest rates.

Credit risk:

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization to debt securities. At June 30, 2021, 2% of the Town's investments subject to credit risk were rated AAA, 4% were rated less than AAA, and 94% were not rated.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 2. Cash, cash equivalents and investments (continued):

Investments (continued):

Concentration of credit risk:

Concentration of credit risk is the risk of loss attributed to the magnitude of the investment in a single issuer. At June 30, 2021, the Town had a diversified portfolio with approximately 98% of investments held in stocks and mutual funds in a wide range of companies and various industries, enabling the Town to minimize its risk.

Custodial credit risk:

Custodial credit risk for deposits is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of the outside party. The Town does not believe that it has significant custodial risk with regard to investments as substantially all investments are registered and held in the name of the Town.

Note 3. Notes receivable:

Other notes receivable:

The Town has also recorded other note receivable for the North Burial Ground as of June 30, 2021. The long-term portion of the receivable is \$20,431.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 4. Interfund transactions:

The principal purpose of interfund transfers is to provide a financing source to various funds that may not have sufficient resources to cover all costs with revenue generated by the fund at the time the cost is uncured, or as a matter of administrative convenience in terms of where cash is deposited and drawn from Interfund receivables and payables at June 30, 2021 are as follows:

Business-Type Activities

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 6. Long-term obligations (continued):

General obligation bonds and loan payable:

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities; as well as to refund previously outstanding general obligation bonds. General obligation bonds pledge the full faith and credit of the Town.

Rhode Island General Law caps the amount of each municipality's general obligation bonds that may be outstanding to 3% of its assessed property values. Exceptions apply to bonds approved pursuant to special acts or financed from non-tax revenues; additional special exemptions are granted for other purposes as well. The net assessed value of the Town's properties at December 31, 2020 was \$3,220,874,385 limiting the amount of non-excepted general obligation bonds outstanding to \$96,626,232. At June 30, 2021, bonds outstanding, excluding component units, totaled \$34,118,335.

Events of default include failure to make principal and interest payments when due, defaults related to the performance or observance of any other covenants, agreements or conditions that have not been remedied, or the Town's inability to pay its debts. Upon notice of any events of default, all principal and accrued interest may be declared due and payable immediately.

Note 7. Postemployment benefits:

Plan description

The Town established the Postemployment Benefits ("OPEB") Plan (the "Plan") and Trust (the "Trust") on December 31, 2006. The Plan, a single-employer defined benefit plan, provides postemployment health care benefits to all Town employees who meet years of service and age requirements and, in some cases, to their surviving spouses, who are eligible under the terms of collective bargaining agreements or personal contracts. The Plan does not issue a stand-alone financial report. The Trust's assets and liabilities at June 30, 2021, and its activity for the year then ended are included in the statements of fiduciary net position and changes in fiduciary net position.

Benefits and employee contributions

The Trust paid 100% of the amount incurred by eligible retirees for medical and dental costs, which totaled \$769,514 for the year ended June 30, 2021. Employees hired after July 1, 1997, are offered \$50,000 whole life insurance. The Town, through the Trust, pays 100% of the cost of the insurance policies, which amounted to \$144,164 for the year ended June 30, 2021. Death benefits are split between the Trust and the employee's estate, with \$15,000 going to the employee's estate if the employee dies in active service; \$10,000 if the employee has retired. The balance is retained by the Trust.

Employees are required under terms of collective bargaining agreements or personal contracts to contribute to the Trust. The contribution, which ranges from 1 % to 1.5% of set salary amounts, is made in the form of payroll deductions. The Town has obtained an Internal Revenue Service private letter ruling that allows the employee contributions and any premium payments for medical coverage to be exempt from taxation.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

Benefits and employee contributions (continued):

Employee contributions are recognized in the Trust when withheld from the employees' pay. Employer contributions are recognized in the period to which the contribution relates. Benefit payments are charged to expense in the period paid.

Net OPEB Liability

The Town's net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial methods and assumptions

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate potential effects of legal or contractual funding limitations on the pattern of cost-sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Some key assumptions are as follows:

Description	Assumption
Single Equivalent Discount Rate	6.625%, net of OPEB plan investment expense, including inflation.
Inflation	2.75% as of June 30, 2021 and for future periods
Investment rate of return	6.625%, net of OPEB plan investment expense, including inflation.
Salary increases	4.25% annually as of June 30, 2021 and for future periods

Notes to Financial Statements For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

Investment Policy

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Arithmetic Real Rate of Return	Long-Term Expected Geometric Real Rate of Return
US Cash	16.70%	-0.07%	-0.06%
US Core Fixed Income	17.00%	1.60%	1.28%
US Credit Bonds	2.55%	2.05%	1.89%
US Large Caps	12.75%	4.55%	3.33%
US Small & Mid Caps	8.50%	5.84%	3.96%
US Large Growth	12.75%	4.89%	3.28%
US Large Value	12.75%	4.89%	3.67%
Foreign Developed Equity	17.00%	6.35%	4.75%
Total	100%		
Assumed Inflation - Mean		2.75%	2.75%
Assumed Inflation - Standard Deviation		1.65%	1.65%
Portfolio Real Mean Return		3.68%	3.10%
Portfolio Nominal Mean Return		6.44%	5.92%
Portfolio Standard Deviation			10.63%
Long-Term Expected Rate of Return			6.625%

Discount Rate

The discount rate used to measure the total OPEB liability was 6.625 percent. The projection of cash flows used to determine the discount rate assumed that Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended June 30, 2021 the Town recognized OPEB expenses of \$58,391 less an adjustment for recognition of economic/demographic gains or losses and assumption changes or inputs totaling \$789,144 resulting in an OPEB expense of \$(730,753). At June 30, 2021 the Town's deferred outflows and inflows of resources related to OPEB from the following sources:

Deferred inflows of resources:	
Difference between expected and actual experience	\$ (4,045,053)
Changes in assumptions	\$ (1,400,041)
Net differences between projected and actual earnings	(1,972,208)
Total	\$ (7,417,302)

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2022	\$ (1,312,084)
2023	(1,279,089)
2024	(1,270,554)
2025	(1,267,057)
2026	(789,144)
Thereafter	 (1,499,374)
Total	\$ (7,417,302)

Sensitivity of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the Town, as well as what the Town's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.625%) or 1 percentage-point higher (7.625%) than the current discount rate:

	Impact of 1% Change in Discount Rate		
	1% Decrease Current discount		1% Increase
	(5.625%)	rate (6.625%)	(7.625%)
Net OPEB liability	(3,769,513)	(2,609,456)	(1,257,177)

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

Sensitivity of the net OPEB liability to changes in the discount rate (continued)

The following presents the net OPEB liability of the Town, as well as what the Town's net OPEB liability would be if it were calculated using health care cost trend rates that are 1 percentage-point lower or 1 percentage point higher than the current discount rate:

	Impact of 1% Change in Healthcare Trend Rate		
	Current trend		
	1% Decrease	rate	1% Increase
Net OPEB liability	(1,507,076)	(2,609,456)	(3,588,609)

Rate of Return

For the year ended June 30, 2021, the annual money-weighted rate of return on investment, net of investment expense was 29.49%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

	June 30, 2021
Annual money-weighted rate of return,	
net of investment expense	29.49%

Component Unit: Information is presented for Fiscal year 2020

As of December 31, 1994, the District pays a percentage of the costs of health insurance benefits for all eligible retirees until age 65 or until Medicare-eligible. Employees are required to contribute a co-pay amount. For certain eligible employees with retirement prior to December 31, 1994, the District is required to pay 100% of the cost of health, dental and life insurance benefits for life. These benefits are provided under various employee contracts with the District. The District funds these benefits on a pay-as-you-go basis. During the year ended June 30, 2020, 182 retirees received benefits under this plan.

Plan description

The District established the Postemployment Benefits ("OPEB") Plan (the "Plan") on December 31, 1994. The Plan, a single-employer defined benefit plan, provides postemployment health care benefits to all District employees who meet years of service and age requirements and, in some cases, to their surviving spouses, who are eligible under the terms of collective bargaining agreements or personal contracts. The Plan does not issue a stand-alone financial report. The Trust's assets and liabilities at June 30, 2020, and its activity for the year then ended are included in the statements of fiduciary net position and changes in fiduciary net position of the District.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

Component Unit (continued):

Benefits and employee contributions

The School District will pay a percentage of the cost of health insurance benefits for all eligible retirees until age 65 or until Medicare eligible. Employees are required to contribute a co-pay amount. For certain eligible employees with retirement prior to December 31, 1994, the School District is required to pay 100% of the cost of health, dental, and life insurance benefits for life. These benefits are provided under various employee contracts with the School District as well as the former Bristol and Warren School Departments. The School District funds these benefits on a pay as you go basis.

	Active	Receiving	
Description	Employees	Benefits	Total
Participants	43	139	182

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial methods and assumptions

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate potential effects of legal or contractual funding limitations on the pattern of cost-sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Some key assumptions are as follows:

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 7. Postemployment benefits (continued):

Component Unit (continued):

Actuarial methods and assumptions (continued):

Description	Assumption
Single Equivalent Discount Rate	2.19%
Health Care Cost Trend Rates	Initial rate of 7.50% decreasing to an ultimate rate of 4.50%
Actuarial Cost Method	Entry Age Normal

Investment Policy

As there are no plan assets, the District does not have a corresponding investment policy.

Discount Rate

The discount rate used to measure the total OPEB liability was 2.19 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Net OPEB Liability

The components of the net OPEB liability of the District at June 30, 2021 were as follows:

Total OPEB liability	\$ 15,456,478
Plans fiduciary net position	
District's net OPEB liability	\$ 15,456,478
Plan net position as a percentage	
of the total OPEB liability	0.00%

Notes to Financial Statements For the Year Ended June 30, 2021

Note 8. Pension plans:

All eligible employees of the Town, exclusive of the District, are covered by one of two pension plans: the Municipal Employees' Retirement System of the State of Rhode Island ("MERS"), or the Town of Bristol, Rhode Island Police Retirement Plan ("Police Plan"). The Police Plan covers fulltime employees of the Police Department hired prior to March 22, 1998. The MERS Plan covers all other eligible employees. Total covered payroll under both plans during the year ended June 30, 2021, was \$8,477,164.

Eligible District employees participate in either the MERS plan or the Employees' Retirement System Teacher Employer Units Defined Benefit Pension Plan ("ERS"). Total covered payroll during the year ended June 30, 2020, was \$4,521,285 under the MERS and \$23,964,031 under the ERS.

Municipal Employees' Retirement System (MERS) Plan

Plan description:

The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at <u>www.ersri.org</u>

Benefits Provided:

General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and / or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and / or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Retirement eligibility and plan benefits:

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

Retirement eligibility and plan benefits (continued):

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Compensation: Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

General employees:

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012 as described above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

General employees (continued):

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and fire employees:

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior Retirement Date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012: benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

Police and fire employees (continued):

member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described in (a) and (b) above and one calculated based on a 2.25% multiplier for all years of service.

Other benefit provisions:

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

a. The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

b. Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

c. The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (a) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

Employees covered by benefit terms:

At the June 30, 2020 valuation date, the following employees were covered by the benefit terms:

	General	Police	Fire
Retirees and beneficiaries	73	1	2
Active members	95	39	3
Inactive, nonretired members	23	7	0
Total	191	47	5

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 1% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 9% of their salaries. The Town of Bristol contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of Bristol contribute \$1,086,744 in the year ended June 30, 2020 which was 12.82% of annual covered payroll.

Net Pension Liability (Asset) - The total pension liability was determined by actuarial valuations performed as of June 30, 2019 and rolled forward to June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2020 measurement date						
Actuarial cost method	Entry Age Normal					
Amortization method	Level percentage of payroll, closed					
Actuarial assumptions						
Investment rate of return	7.00%					
Projected salary increases	3.00% - 14.00% including inflation					
Inflation	2.50%					
Mortality	Male: RP-2014 Combined Healthy for Males with Blue Collar adjustments, projected with the ultimate values of MP Scale (thro Female: RP-2014 Combined Healthy for females, projected with the ultimate values of the MP scale (through 2019)					

The actuarial assumptions used in the June 30, 2019 valuation rolled forward to June 30, 2020 and the calculation of the total pension liability at June 30, 2020 were consistent with the results of an actuarial experience study performed as of June 30, 2019.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 39 sources. The June 30, 2020 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

		Long-term expected real
Asset Class	Target allocation	rate of return
Global equity:		
U.S. equity	23.00%	6.31%
International developed	12.10%	6.71%
International emerging markets	4.90%	8.69%
Private Growth		
Private Equity	11.25%	9.71%
Non-Core Real Estate	2.25%	5.66%
Opportunistic Private Credit	1.50%	9.71%
Income		
High Yield Infrastructure	1.00%	3.88%
REITS	1.00%	5.66%
Equity Options	2.00%	6.04%
EMD (50/50 Blend)	2.00%	2.28%
Liquid Credit	2.80%	3.88%
Private Credit	3.20%	3.88%
Crisis Protection Class		
Treasury Duration	5.00%	0.10%
Systematic Trend	5.00%	3.84%
Inflation Protection		
Core Real Estate	3.60%	5.56%
Private Infrastructure	2.40%	6.06%
TIPs	2.00%	0.74%
Volatility Protection		
IG Fixed Income	3.25%	1.54%
Securitized Credit	3.25%	1.54%
Absolute Return	6.50%	3.84%
Cash	2.00%	0.10%
	100.00%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

MERS Plan (continued):

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	 General	Police		Fire

Note 8. Pension plans (continued):

MERS Plan (continued):

\$1,086,916 reported as deferred outflows of resources related to pensions resulting from the Town of Bristol's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the subsequent period

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	General	Police	Fire
Net deferred outflows:			
2022	\$ 7,711	\$ (53,822)	\$ 5,854
2023	161,154	7,142	7,257
2024	24,408	26,595	8,950
2025	(115,136)	23,561	8,847
2026	(195,810)	(36,664)	(4,017)
Thereafter	(2,644)	(121,637)	-
Total	\$ (120,317)	\$ (154,825)	\$ 26,891

Component Unit:

At the June 30, 2020 valuation date, the following employees were covered by the benefit terms:

Retirees and Beneficiaries	129
Inactive, Non-retired Members	34
Active Members	113
Total	276

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 1% (2% if the employer opted to provide a COLA) of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 9% (10% if employer opted to provide a COLA) of their salaries. The School District contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The School District contribute \$709,586 in the year ended June 30, 2021 which was 15.38% of annual covered payroll.

Notes to Financial Statements

For the Year Ended June 30, 2021

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021 the employer recognized pension expense of \$1,266,212. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Contributions subsequent to the measurement date	\$ 709,586	\$ -	
Difference between expected and actual experience	401,691	295,074	
Change in assumptions	126,315	203,013	
Net difference projected and actual earnings on pension plan investments	505,774	186,954	
Total	\$1,743,366	\$ 685,041	
Deferred outflows/inflows of resources, net less subsequent contributions	\$ 348,739		

\$709,586 reported as deferred outflows of resources related to pensions resulting from the School District's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability for the year ended June 30, 2022.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Inflows of Resources
2022	\$ 57,905
2023	87,534
2024	140,763
2025	62,537
Total	\$ 348,739

Note 8. Pension plans (continued):

Employees' Retirement System (ERS):

Component Unit:

General Information about the Plan

Plan description - Certain employees of the Bristol-Warren Regional School District participate in a costsharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan administered by the Employees' Retirement System of the State of Rhode Island (System). Under a costsharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries. The System issues a publicly available report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service. The plan provides for survivor's benefits for service-connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016. The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2020, the School District teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The state and the School District are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by the Bristol Warren School District; the rates were 10.75% and 14.50% of annual covered payroll for the fiscal year ended June 30, 2021 for the state and the school district, respectively. The School District contributed \$3,584,205 \$3,383,724, and \$3,386,719 for the fiscal years ended June 30, 2021, 2020 and 2019, respectively, equal to 100% of the required contributions for each year. The State's share of contributions totaling \$2,513,827 for fiscal year 2020 are reflected as on behalf payments and are included as both revenues and expenditures in governmental fund financial statements.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Employees' Retirement System (ERS) (continued):

Component Unit (continued):

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources - At June 30, 2021, the School District reported a liability of \$42,411,649 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the School District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the School District were as follows:

BWRSD proportionate share of the net pension liability	\$ 42,411,649
State's proportionate share of the net pension liability associated with the	
BWRSD	31,512,894
Total net pension liability	<u>\$73,924,543</u>

The net pension liability was measured as of June 30, 2020, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020. The School District proportion of the net pension liability was based on a projection of the School District long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2020 the School District proportion was 1.33%

For the year ended June 30, 2021 the School District recognized gross pension expense of \$7,167,488 and revenue of \$3,189,142 for support provided by the State. At June 30, 2021 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description of Outflows/Inflows	Deferred Outflows of Resources		Deferred Inflow of Resources	
Differences between expected and				
actual experience	\$	414,673	\$	826,539
Changes of assumptions		1,893,324		988,333
Net difference between projected and actual earnings on pension plan investments		1,415,677		554,635
Changes in proportion and differences between System contributions and proportionate share contributions		1,016,113		1,600,414
Contributions subsequent to the				
measurement date		3,584,205		
	\$	8,323,992	\$	3,969,921
Net amount of deferred outflows and (inflows) excluding BWRSD contributions subsequent to measurement date			\$	769,866

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Employees' Retirement System (ERS) (continued):

Component Unit (continued):

\$3,584,205 reported as deferred outflows of resources related to pensions resulting from the School District's contributions in fiscal year 2021 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

\$ (117,543)
394,299
615,938
367,106
(225,183)
 (264,751)
\$ 769,866
<u> </u>

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00% to 13.00%
Investment rate of return	7.00%

Mortality – variants of PUB (10) tables for Healthy and Disabled retirees, projected with Scale Ultimate MP 16.

The actuarial assumptions used in the June 30, 2019 valuation rolled forward to June 30, 2020 and the calculation of the total pension liability at June 30, 2020 were consistent with the results of an actuarial experience study performed as of June 30, 2019.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Employees' Retirement System (ERS) (continued):

Component Unit (continued):

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 39 sources. The June 30, 2020 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Target allocation	Long-term expected real rate of return
Global equity:		
U.S. equity	23.00%	6.31%
International developed	12.10%	6.71%
Emerging markets equity	4.90%	8.69%
Private Growth		
Private Equity	11.25%	9.71%
Non-Core RE	2.25%	5.66%
Opportunistic Private Credit	1.50%	9.71%
Income		
High Yield Infrastructure	1.00%	3.88%
REITS	1.00%	5.66%
Equity Options	2.00%	6.04%
EMD (50/50 Blend)	2.00%	2.28%
Liquid Credit	2.80%	3.88%
Private Credit	3.20%	3.88%
Crisis Protection Class		
Treasury Duration	5.00%	0.10%
Systematic Trend	5.00%	3.84%
Inflation Protection		
Core Real Estate	3.60%	5.56%
Private Infrastructure	2.40%	6.06%
TIPs	2.00%	0.74%
Volatility Protection		
IG Fixed Income	3.25%	1.54%
Securitized Credit	3.25%	1.54%
Absolute Return	6.50%	3.84%
Cash	2.00%	0.10%

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Employees' Retirement System (ERS) (continued):

Component Unit (continued):

Discount rate - the discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability (asset) to changes in the discount rate - the following presents the net pension liability (asset) calculated using the discount rate of 7.0 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

1.00%	Current	1.00%
Decrease	Discount Rate	Increase
(6.0%)	(7.0%)	(8.0%)
\$ 50,887,270	\$ 42,411,649	\$ 32,182,966

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

Teachers' Survivors Benefit (TSB) Pension Plan:

Plan description - Certain employees of the School District participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employees' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Teachers' Survivors Benefit (TSB) Pension Plan (continued):

Component Unit (continued):

Eligibility and plan benefits - the plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are payable to the child benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

	Basic Monthly
Highest Annual Salary	Spouses' Benefit
\$17,000 or less	\$825
\$17,001 to \$25,000	\$963
\$25,001 to \$33,000	\$1,100
\$33,001 to \$40,000	\$1,238
\$40,001 and over	\$1,375

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1	Parent and 2 or	One Child	Two Child	Three or more	Dependent
Child	more Children	Alone	Alone	Children Alone	Parent
150%	175%	75%	150%	175%	100%

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Teachers' Survivors Benefit (TSB) Pension Plan (continued):

Component Unit (continued):

Contributions - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$11,500; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The Bristol Warren School District contributed \$32,870, \$32,732, and \$33,664 for the fiscal years ended June 30, 2021, 2020 and 2019, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2021 the School District reported an asset of \$5,212,653 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2020, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2019, rolled forward to 2020. The School District proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2020 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2021 the School District proportion was 4.39%.

For the year ended June 30, 2021 the School District recognized pension expense of (\$177,026) – an increase in the net pension asset. At June 30, 2021 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description of Outflows/Inflows	Deferred Outflows of Resources		erred Inflows Resources
Differences between expected and			
actual experience	\$	447,074	\$ 1,111,539
Changes of assumptions		351,717	360,208
Net difference between projected and actual earnings on pension plan investments		413,472	159,095
Changes in proportion and differences between System contributions and proportionate share contributions		202,242	117,058
Contributions subsequent to the measurement date	\$	<u>32,870</u> 1,447,375	\$ 1,747,900
Net amount of deferred outflows and (inflows) excluding BWRSD contributions subsequent to measurement date			\$ (333,395)

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Teachers' Survivors Benefit (TSB) Pension Plan (continued):

Component Unit (continued):

\$32,870 reported as deferred outflows of resources related to pensions resulting from the School District contributions in fiscal year 2021 subsequent to the measurement date will be recognized as an addition to the net pension asset for the year ended June 30, 2022. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2022	\$ (58,109)
2023	47,960
2024	74,473
2025	(29,165)
2026	(144,688)
Thereafter	 (223,866)
	\$ (333,395)

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00% to 13.00%
Investment rate of return	7.00%

Mortality – Variants of the PUB (10) Tables for Healthy and Disabled Retirees, projected with Scale Ultimate MP 16

Cost of living adjustment – eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment – for valuation purposes, a 2.75% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2019 valuation and the calculation of the total pension liability at June 30, 2020 were consistent with the results of an actuarial experience study performed as of June 30, 2019.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Teachers' Survivors Benefit (TSB) Pension Plan (continued):

Component Unit (continued):

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 39 sources. The June 30, 2020 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Target allocation	Long-term expected real rate of return
Global equity:		
U.S. equity	23.00%	6.31%
International developed	12.10%	6.71%
Emerging markets equity	4.90%	8.69%
Private Growth		
Private Equity	11.25%	9.71%
Non-Core RE	2.25%	5.66%
Opportunistic Private Credit	1.50%	9.71%
Income		
High Yield Infrastructure	1.00%	3.88%
REITS	1.00%	5.66%
Equity Options	2.00%	6.04%
EMD (50/50 Blend)	2.00%	2.28%
Liquid Credit	2.80%	3.88%
Private Credit	3.20%	3.88%
Crisis Protection Class		
Treasury Duration	5.00%	0.10%
Systematic Trend	5.00%	3.84%
Inflation Protection		
Core Real Estate	3.60%	5.56%
Private Infrastructure	2.40%	6.06%
TIPs	2.00%	0.74%
Volatility Protection		
IG Fixed Income	3.25%	1.54%
Securitized Credit	3.25%	1.54%
Absolute Return	6.50%	3.84%
Cash	2.00%	0.10%
	100.00%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - the discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

Defined Contribution Plan:

Plan description:

Employees participating in the General and Police Units of the MERS Plan, as described previously, may also participate in a defined contribution plan authorized by State of Rhode Island General Law Chapter 36-10.3. The defined contribution plan is established under Internal Revenue Service ("IRS") section 401 (a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants.

Employees in the General Unit contribute 5% of their annual covered salary and the employer contributes 1.25% or 1.50% of annual covered salary based on years of service. Employees in the Police and Fire Units contribute 3% of their annual covered salary and the employer contributes 3% of annual covered salary.

Employee contributions are immediately vested while employer contributions are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with IRS guidelines for such plans.

The Town recognized pension expense for the defined contribution plan of \$142,613 for the fiscal year ended June 30, 2021.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Defined Contribution Plan (continued):

Component Unit:

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly. The District contributed \$635,254 for the fiscal year ended June 30, 2021.

Police Plan:

Plan Description:

The Town administers and contributes to the Police Plan, a single-employer public employee retirement plan. The assets of the Police Plan are held in a Trust which is reported as a fiduciary fund in the accompanying financial statements. The Police Plan was established by the Town in accordance with the Town Charter. The Town's payroll for employees covered by the Police Plan for the year ended June 30, 2021, was \$0.

Retirees and beneficiaries	44
Terminated vested & other inactive	-
Actives	-
Total	44

Benefits provided:

All full-time employees of the Police Department hired prior to March 22, 1998, were eligible to participate in the Police Plan. The Police Plan provides retirement benefits as well as death and disability benefits. Participants in the Police Plan were eligible for retirement at the completion of 20 or more years of service. The normal retirement benefit is 60% of average monthly salary for the two consecutive years which results in the highest salary, and 1 % of average monthly salary for each completed year of service in excess of 20 years to the maximum of ten additional years. Average monthly salary is base pay plus longevity and holiday pay. The retirement benefit for late retirement is the same as above, except that salary and years of service are recognized to late retirement date (maximum of 30 years). Participants are eligible for disability benefits after ten years of service or immediately if the disability results from performance of duties. The benefit is 75% of average monthly salary and will be adjusted annually on July 1 each year by a 3% costof-living adjustment. Upon reaching normal retirement date, the disability benefit will cease and the retirement benefit based on the accrued benefit at the time of disability will begin.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Police Plan (continued):

Eligibility for preretirement survivor's benefits is death as a result of performance of duties or completion of at least five years of service. The spouse is entitled to 67.5% of the accrued benefit; children are entitled to 22.5% until the earliest of the child's 22nd birthday, unless disabled, or marriage of the child. If the spouse is more than three years younger than the participant, the survivor's benefit is reduced to the actuarial equivalent of a survivor's benefit where the spouse is precisely three years younger. A maximum of three children is eligible to receive benefits for each death claim.

Eligibility for post-retirement survivor's benefits is if death occurs after retirement. The spouse is entitled to 67.5% of the normal retirement benefit; children are entitled to 22.5% (i.e., one-third of 67.5%) until the earliest of the child's 22nd birthday, discontinuance of school attendance, unless disabled, or marriage. If the spouse is more than three years younger than the participant, the survivor's benefit is reduced to the actuarial equivalent of a survivor's benefit where the spouse is precisely three years younger. A maximum of three children is eligible to receive benefits for each death claim.

An additional death benefit is given if death occurs after the participant's actual retirement date.

A participant is eligible for severance benefits for less than ten years of service. The benefit is the greater of the participant's accumulations or two weeks pay for each year of service.

Participants are eligible for vested severance benefits after ten years of service. The benefit is the greater of the normal retirement benefit reduced by the ratio of actual years of service at date of termination over total years of service the participant would have worked had they continued working to their normal retirement date, or the greater of three weeks pay for each year of service or the total of their contributions to the fund with interest at 3%.

All participants retiring on and after April 1, 1998, will be eligible for annuity payments with an annual 3% cost-of-living adjustment. The-cost-of-living increase is payable on July 1 of each year.

Contributions:

Total contributions to the Police Plan during the year ended June 30, 2021, amounted to \$1,613,776 made by the Town, of which \$1,613,776 were required to be made by the Town. For the year ended June 30, 2021 there was no covered payroll under this plan. Administrative costs are included in the actuarial valuation as part of the normal cost and are financed through contributions.

Receivables:

Employer and Employee contributions for the month of June in the current fiscal year are made in July of the following fiscal year and are included in plan assets.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Police Plan (continued):

Actuarial assumptions:

The total pension liability was determined by actuarial valuations performed as of July 1, 2020, and rolled forward to June 30, 2021, using the following actuarial assumptions applied to all periods included in the measurement.

The Town's contribution to the Police Plan was determined as part of the July 1, 2018, actuarial valuation using the entry age normal actuarial cost method. Normal cost is funded on a current basis. The unfunded actuarial accrued liability is funded over a decreasing 20-year period. The amortization period remaining on the unfunded actuarial accrued liability at July 1, 2019, was 11 years. Periodic contributions for both normal cost and the amortization of the unfunded actuarial accrued liability are based on the level percentage of payroll method. The actuarial assumptions included (a) 6.625% interest compounded annually, (b) cost of living adjustments of 3.00% and (c) inflation of 2.5%.

Periodic contributions for both normal cost and the amortization of the unfunded actuarial accrued liability are based on the level percentage of payroll method. The actuarial assumptions included:

Inflation	2.50%
Salary increases	N/A
Cost of living adjustments	3.00 percent
Investment rate of return	6.625%

The assumptions did not include postretirement health insurance benefit increases, which are funded by the Town on a pay-as-you-go basis. The asset valuation method used is designed to stabilize the investment yield credited for actuarial valuation purposes. The method does not distinguish investment yield by source such as interest, dividends or realized or unrealized capital gains. Investment yield variances from the expected yield, the valuation interest rate applied to market value, are spread over five years. Assets used for valuation purposes are equal to the market value. The most recent valuation was performed on July 1, 2019. Mortality rates were based on the RP-2000 Combined Healthy Mortality Table with generational projection for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Investment rate of return:

For the year ended June 30, 2021, the annual money-weighted rate of return on Police Plan investments, net of investment expense, was 29.51%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 8. Pension plans (continued):

Police Plan (continued):

Investment Policy

The long-term expected rate of return on Police Plan investments was determined using a building block method on which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the Police Plan's target allocation as of June 30, 2021, are summarized in the following table:

	-	Long-Term	Long-Term
Asset Class	Target Allocation	Expected Arithmetic Real Rate of Return	Expected Geometric Real Rate of Return
US Cash	2.00%	-0.07%	-6.00%
US Core Fixed Income	26.50%	1.36%	1.28%
US High Yield Bonds	6.50%	4.07%	3.57%
US Large Caps	21.00%	4.55%	3.33%
US Equity Market	13.50%	4.84%	3.52%
Foreign Developed Equity	9.00%	6.35%	4.75%
Emerging Markets Equity	8.00%	8.40%	5.53%
US REIT's	3.50%	5.35%	3.62%
Non-US REIT's	5.00%	6.68%	4.60%
Master Limited Partnerships	5.00%	5.55%	3.47%
Total	100%		
Assumed Inflation - Mean		2.50%	2.50%
Assumed Inflation - Standard Deviation		1.65%	1.65%
Portfolio Real Mean Return		4.28%	3.66%
Portfolio Nominal Mean Return		6.79%	6.24%
Portfolio Standard Deviation			10.96%

Discount rate:

The discount rate used to measure the total pension liability was 6.625%. The projection of cash flows used to determine the discount rate assumed the Town contributions will continue to follow the current funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 10. Tax stabilization agreements:

The Town offers an economic growth tax stabilization agreement through Town Ordinance Section 27-5. The agreement is offered to new and improved commercial and manufacturing businesses in an effort to encourage employment and economic growth in the Town.

The Town Council, in its sole discretion, is authorized but not required to phase in over a period of up to five years, but not more than ten years, the taxes due on certain commercial and industrial properties. The exemption schedule is as follows:

	TT X <i>T</i>	
	Five-Year	Ten-Year
	Program:	Program:
Year of	% Exempt from	% Exempt from
Exemption	Taxation	Taxation
Year 1	100%	90%
Year 2	90%	80%
Year 3	80%	70%
Year 4	70%	60%
Year 5	60%	50%
Year 6		40%
Year 7		30%
Year 8		20%
Year 9		10%
Year 10		0%

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 10. Tax stabilization agreements (continued):

The exemption begins on December 31st following the post-construction review and issuance of the certificate of occupancy. The value must be greater than \$250,000 and the improvement must represent greater than 50% of the assessed value of the existing building or structure. The stabilization program is not available for residential properties. There is one property that has entered into the current stabilization program, which became effective July 8, 2015.

There are three properties under the prior stabilization program, which was amended on July 8, 2015. While this program had primarily the same purpose, there was a requirement for the subject property to be in need of substantial rehabilitation and / or new construction and / or vacant for a period of twelve months prior to executing the agreement. A five-year option was provided for properties where the value of the improvement was 25% or more of the existing assessed value, up to \$500,000. A ten-year option was provided for properties where the value of the improvement was greater than \$500,000.

The prior stabilization program schedule was as follows:

	Five-Year Program:	Ten-Year Program:
Year of	% Exempt from	% Exempt from
Exemption	Taxation	Taxation
Year 1	100%	100%
Year 2	80%	90%
Year 3	60%	80%
Year 4	40%	70%
Year 5	20%	60%
Year 6	0%	50%
Year 7		40%
Year 8		30%
Year 9		20%
Year 10		10%
Year 11		0%

Under both stabilization programs, taxes are reduced through a reduction in assessed value. Under the prior agreement, the Town Council reserved the right to revoke the stabilization at any time. The current agreement allows for revocation by the Town Council only due to tax delinquency or in the event of fraud or misrepresentation. The following chart provides information on the stabilization agreements in place as of June 30, 2021:

Purpose for Stabilization Agreement	Stabilization Agreement	Starting Year	Term of Agreement	Taxe Du	nount of es Abated ring the cal Year
Demolition of Blighted					
Building/New Construction:					
Incubator space for new					
businesses	Pre-July 8, 2015	2015	10 Years	\$	6,243

New Construction					
Commercial business	Post-July 8, 2015	2015	10 Years		5,351
Commercial Rental Space					
Demolition of Building	Post-July 8, 2015	2019	10 Years		6,924
New Construction					

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 11. Risk management:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) (the "Trust") which provides coverage for property/liability and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement which outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its members. Under the participation agreement, the Town is insured for a maximum of \$3,000,000 per occurrence (\$5,000,000 for workers' compensation claims). Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage during the year ended June 30, 2021.

Note 12. Commitments and contingencies:

The Town also participates in the Health Pool (the "Pool"), a non-profit, public entity risk pool which provides programs of liability, workers' compensation, and health insurance coverage to Rhode Island cities, towns and other governmental units. Upon joining the Pool, members execute a member agreement. That document, pursuant to which the Pool was established and operates, outlines the rights and responsibilities of both the members and the Pool. Members of the Pool participate in the Pool's health insurance plan administered through the Trust and Blue Cross Blue Shield of Rhode Island ("BCBSRI"). Using the rate calculations prepared by BCBSRI, the Pool sets annual contribution rates for the subscribers of each member for each program offered. The Pool agreement requires that those contribution rates be set at a level sufficient, in the aggregate, to satisfy the funding requirements of the Pool. The contributions of each member are deposited into the General Fund and are used to pay for claims, reinsurance and all administrative expenses.

Under the terms of federal and state grants, periodic compliance audits by the grantors or their representatives are required; consequently, certain costs may be questioned as not being appropriate and may result in reimbursement to the grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. Town officials believe that such disallowances, if any, would not be material.

The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town's attorney's, the resolution of these matters will not have a material adverse effect on the financial condition of the Town.

The Town has active construction projects as of June 30, 2021 including land improvements, building construction and repairs, and sewer upgrades in designated areas of the Town.

Notes to Financial Statements

For the Year Ended June 30, 2021

Note 12. Commitments and contingencies (continued):

The Town is committed under construction contracts at June 30, 2021, as follows:

Project	Contract	Spent to date	Remaining commitment
5			
Headworks & Misc. Improvements	\$2,559,477	\$2,355,921	\$ 203,556

Public Works Capital	 (440,769)
	\$ (1,504,082)

Note 14. Subsequent Events:

Management has evaluated subsequent events through the report date February 16, 2022. No material events have occurred that require disclosure.

On March 9, 2020 the governor of the State of Rhode Island declared a State of Emergency in response to limit the spread of COVID-19 Coronavirus which the World Health Organization characterized as being a pandemic. As a result of the spread of COVID-19 there is considerable uncertainty around the duration of the pandemic accordingly, the financial impact related to State funding, other revenues, and other potential financial impacts cannot be reasonably estimated at this time. Management is carefully monitoring the situation.

Notes to Financial Statements For the Year Ended June 30, 2021

Note 15. Restatement:

The following was the restatement that occurred at the Governmental Fund statement level.

	Governmental Funds

Required Supplementary Information Notes to the Required Supplementary Information Budgetary Comparison Schedule – General Fund *For the Year Ended June 30, 2021*

Budgetary preparation and budgetary basis of accounting:

In accordance with the Town's Charter, the Town has formally established budgetary accounting control for its General Fund. The General Fund is subject to an annual operating budget legally adopted by the Town Council. The annual operating budget's appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund operating budget is in conformity with the legally enacted budgetary basis, which is not in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") in that budgetary other financing sources include Reappropriations from fund equity previously recognized under U.S. GAAP.

Appropriations in addition to those contained in the annual operating budget require Town Council approval. Amendments to the operating budget that do not result in additional appropriations may be made within departments by means of transfer. Transfers within the department can be approved by the Town Administrator or the Town Council. Transfers made outside the departmental level require Town Council approval. The level at which the General Fund budgeted expenditures may not legally exceed appropriations is at the department level. Unexpended appropriations lapse at fiscal year-end, but unexpended capital and special appropriations have historically been carried forward.

The following General Fund Departments have an excess of expenditures over appropriations:

Other Government Expenses	\$236,033
Police	129,659

Notes to Required Supplementary Information

MERS, ERS and TSB

For the Year Ended June 30, 2021

The amounts presented for each fiscal year were determined as of the June 30 measurement date prior to the fiscal year-end. The schedules are intended to show information for 10 years; additional years will be displayed as they become available.

Employers participating in the MERS Employees' Retirement System ("MERS") are required by Rhode Island General Laws ("RIGL"), Section 45-21-42, to contribute an actuarially determined contribution rate each year. Employers participating in the State Employees' Retirement System ("ERS") are required by RIGL, Section 36-10-2, to contribute an actuarially determined contribution rate each year. Employers participating in the Teachers' Survivors Benefit Plan ("TSB") contribute at a rate established by RIGL, Section 16-16-35.

Change in benefit provisions:

June 30, 2020 measurement date -

As part of the 2020 Actuarial Experience Study for the six-year period ending June 30, 2019 as approved by the System Board on May 22, 2020, certain assumptions were modified and reflected in the determination of net pension liability (asset) at the June 30, 2020 measurement date. The following summarizes the more significant changes in assumptions:

- Updated the underlying mortality tables from the RP-2014 set of tables to the public sector-based PUB (10) tables.
- Increased slightly the probabilities of turnover.
- Decreased slightly the probabilities of retirement.
- Modified slightly the probabilities of disability, including adding material incidence of disability for members in the age ranges that historically have been eligible to retire but under prospective provisions are not.

June 30, 2019 measurement date -

There were no changes in actuarial methods or assumptions reflected in the calculation of the net pension liability (asset) of the plans as of the June 30, 2019 measurement date compared to the June 30, 2018 measurement date.

June 30, 2018 measurement date –

There were no changes in actuarial methods or assumptions reflected in the calculation of the net pension liability (asset) of the plans as of the June 30, 2018 measurement date compared to the June 30, 2017 measurement date.

June 30, 2017 measurement date –

As part of the 2017 Actuarial Experience Investigation Study for the six-year period ending June 30, 2016 as approved by the System Board on May 15, 2017, certain assumptions were modified and reflected in the determination of the net pension liability (asset) at the June 30, 2017 measurement date. The following summarizes the more significant changes in assumptions:

- Decreased the general inflation assumption from 2.75% to 2.50%;
- Decreased the nominal investment return assumption from 7.50% to 7.00%;
- Decreased the general wage growth assumption from 3.25% to 3.00%;
- Decreased salary increase assumptions; and
- Updated the post-retirement mortality tables to variants of the RP-2014 table. For the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

June 30, 2016 measurement date -

There were no changes in actuarial methods or assumptions reflected in the calculation of the net pension liability (asset) of the plans as of the June 30, 2016 measurement date compared to the June 30, 2015 measurement date.

Notes to Required Supplementary Information

MERS, ERS and TSB

For the Year Ended June 30, 2021

June 30, 2015 measurement date -

There were no changes in actuarial methods or assumptions reflected in the calculation of the net pension liability (asset) of the plans as of the June 30, 2015 measurement date compared to the June 30, 2014 measurement date

The June 30, 2015 measurement date determination of the net pension liability for the ERS and MERS plans reflects changes in benefit changes resulting from the settlement of litigation challenging the various pension reform measures enacted in previous years by the General Assembly. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly. These amended benefit provisions, are summarized below:

- Employees with more than 20 years of service at July 1, 2012 will increase their employee contribution rates to 11% for state employees and municipal general employees will contribute 8.25% (9.25% for units with a COLA provision) and participate solely in the defined benefit plan going forward service credit accruals will increase from 1% to 2% per year.
- Members are eligible to retire upon the attainment of: age 65 with 30 years of service, 64 with 31 years of service, 63 with 32 years of service, or 62 with 33 years of service. Members may retire earlier if their RIRSA date is earlier or are eligible under a transition rule.
- MERS public safety employees may retire at age 50 with 25 years of service, or any age with 27 years of service. MERS public safety employees will contribute 9.00% (10.00% for units with a COLA provision)
- Employees with more than 10 but less than 20 years of service at July 1, 2012 will receive an increased employer contribution to the defined contribution plan. Also, members who earn less than \$35,000 per year will not be required to pay the administrative fees to the defined contribution plan.
- Members who retired from a COLA eligible plan before July 1, 2012 will received a one-time cost of living adjustment of 2% of the first \$25,000 paid as soon as administratively possible.
- Retirees as of June 30, 2015 will receive two \$500 stipends; the interim cost of living increases will occur at 4 year rather than 5 year intervals.
- The COLA formula was adjusted to: 50% of the COLA is calculated by taking the previous 5-year average investment return, less 5.5% (5yr Return 5.5%, with a max of 4%) and 50% calculated using previous year's CPI-U (max of 3%) for a total max COLA of 3.5%. This COLA is calculated on the first \$25,855, effective 01/01/16, and indexed as of that date as well. (The indexing formula is run annually regardless of funding level each year.)
- Minor adjustments were made to the actuarial reduction for employees choosing to retire early.

Teachers' Survivors Benefit Plan - the employee and employer contribution rates were applied to the first \$11,500 of member salary for fiscal year 2018. In fiscal 2017 and prior the rate was applied to salary up to \$9,600.

Covered employee payroll is the full amount of employee payroll for plan members and not just the capped salary amount to which the contribution rate is applied.

Notes to Supplementary Information - Annual Supplemental Transparency Report ("MTP2")

For the Year Ended June 30, 2021

Notes to Supplementary Information – Annual Supplemental Transparency Report (MTP2)

NOTE 1. Basis of Presentation

The Annual Supplemental Transparency Report (MTP2) is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's (or Town's) budget and accounting system. To report these costs, the City (or Town) made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department police officers (e.g., uniform personnel including, leadership positions)
- Fire Department fire fighters (e.g., uniform personnel including, leadership positions)
- Centralized Dispatch Department civilian dispatchers only
- Education Department professional staff providing direct services to students
- For the remaining departments all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Notes to Supplementary Information - Annual Supplemental Transparency Report ("MTP2")

For the Year Ended June 30, 2021

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <u>http://www.municipalfinance.ri.gov/</u>.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Honorable Members of the Town Council Town of Bristol, Rhode Island Bristol, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Bristol, Rhode Island (the Town), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated February 16, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Bristol, Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Bristol, Rhode Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fall River, Massachusetts February 16, 2022
