## INDEPENDENT AUDITORS' REPORT

Honorable Mayor  
and Members of the City Council  
City of Warwick, Rhode Island

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Warwick, Rhode Island's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Warwick, Rhode Island and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of a Matter***

As discussed in Note 1, effective July 1, 2021, the City adopted GASB Statement No. 87, *Leases*. The guidance requires lessees to recognize a right-to-use asset and corresponding liability and lessors to recognize a lease receivable and corresponding deferred inflow of resources for all leases with lease terms greater than twelve months. Our auditors' opinions were not modified with respect to this matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Honorable Mayor  
and Members of the City Council  
City of Warwick, Rhode Island

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Warwick, Rhode Island's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Warwick, Rhode Island's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and certain pension and other postemployment benefits information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and,

Honorable Mayor  
and Members of the City Council  
City of Warwick, Rhode Island

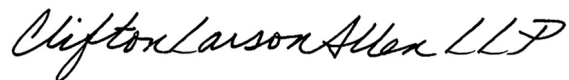

although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Warwick, Rhode Island's basic financial statements. The combining and individual fund financial statements and schedules, the tax collector's annual report, and the Annual Supplemental Transparency report are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules, the tax collector's annual report, and the Annual Supplemental Transparency Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated April 5, 2023 on our consideration of the City of Warwick, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warwick, Rhode Island's internal control over financial reporting and compliance.

**CITY OF WARWICK, RHODE ISLAND  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2022**

As management of the City of Warwick, we offer readers of the City of Warwick's basic financial statements this overview and analysis of the financial activities of the City of Warwick for the fiscal year ended June 30, 2022. We encourage readers to consider this information in conjunction with the City's basic financial statements which follow.

Included within our discussion will be a series of comparative tables, serving to illustrate changes more clearly in the City's financial position. These tables will reflect governmental activities, business-type activities, and total activities for the 2022 and 2021 fiscal years.

**FINANCIAL HIGHLIGHTS**

At the close of the fiscal year, the liabilities and deferred inflows of resources of the City of Warwick exceeded its assets and deferred outflows of resources by \$548,847,954 (*Net Position*).

The City's total net position increased by \$10,094,445 during fiscal year 2022, compared to an increase in net position of \$15,408,567 in the prior year. The key factor for the change in net position changes from the prior year was related to the changes in the City's net pension and OPEB liabilities, net of the related deferred outflows and inflows.

At the close of the current fiscal year, the City's governmental funds reported *combined* ending fund balances of \$73,283,724, an increase of \$19,123,223 from the prior year. This was primarily due to issuance of bonds and notes.

For the year ended June 30, 2022, operating results for the general fund reflected a net increase in total fund balance of \$2,098,561 resulting in an ending fund balance of \$35,166,719. The fund's ending unassigned fund balance totaled \$33,054,735 or 9.92% of the total fiscal year 2022 final budgeted expenditures.

The City's overall investment in capital assets (net of accumulated depreciation) increased by \$20,256,422 during this year.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City of Warwick's basic financial statements. The City's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the financial statements. This report also contains required supplementary and other information in addition to the basic financial statements.

**Government-Wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

**CITY OF WARWICK, RHODE ISLAND  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2022**

The two government-wide statements report on the City's *net position* and how it has changed. Net position—the difference between the City's assets and liabilities—is one way to measure the City's financial health.

- Over time, increases or decreases in the City's net position are indicators of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as changes in the City's property tax base and the condition of the City's roads.

The government-wide financial statements of the City are divided into two categories.

- *Governmental Activities* – Most of the City's basic services are included here, such as education, public safety, library, recreation, social services, public works, and general administration. Property taxes, charges for services and state funding finance most of these activities.
- *Business-Type Activities* – The City charges fees to customers to cover the costs of certain services it provides. The City's water and sewer systems are included here.

#### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

**Governmental Funds** – Most of the basic services provided by the City are reported in governmental funds, which focus on (1) how money flows into and out of those funds and (2) the balances remaining at year end that are available for spending during the next year. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations that helps the reader to determine whether or not there are more or fewer financial resources that can be spent in the near future to finance City programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. To facilitate this comparison, a reconciliation between the governmental funds' statements and the government-wide statements has been provided.

**CITY OF WARWICK, RHODE ISLAND  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2022**

The City maintains over 100 governmental funds and four are considered major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The three major governmental funds are the General Fund, the School Unrestricted Fund, the American Rescue Plan Act (ARPA) Fund, and the School Bonds Fund. Data from the other governmental funds are combined into a single, aggregated presentation titled *nonmajor governmental* funds. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements on pages 121-148 of this report.

The basic governmental fund financial statements can be found on pages 15-18 of this report.

**Proprietary Funds** – The City of Warwick maintains two different types of proprietary funds.

*Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its sewer and water operations.

*Internal Service Funds* are used to accumulate and allocate costs internally among functions. The City uses internal service funds to account for the workers compensation self-insurance fund and the healthcare self-insurance funds.

Because this operation benefits predominantly governmental rather than business activities, the internal service fund has been included within the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 19-21 of this report.

**Fiduciary Funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 23-24 of this report.

**Notes to Basic Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

**Required Supplementary and Other Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, as well as certain pension and other postemployment benefits information.

Required supplementary information can be found on pages 100-119 of this report.

The combining statements and schedules for governmental funds, enterprise funds and fiduciary funds are presented immediately following the required supplementary information on pages 120-163 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2022**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial health. The City's combined net position (government and business-type activities) totaled (\$548,847,954) as of June 30, 2022. The largest portion of the City's net position reflects its investment in capital assets such as land, building, equipment, and infrastructure, less any related outstanding debt. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the City's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position. At the end of the current fiscal year, the City's unrestricted net position total was negative—this was primarily due to the net pension liabilities for all six City pension plans and the total OPEB liabilities.

*Business-Type Activities*

Business-type activities increased the City's net position by \$11,172,105 to an overall ending balance amount of \$173,176,779. The key elements are as follows:

1. The Sewer Department reflected an overall increase in net position of \$9,640,954. The ending net position for the Sewer Department was \$154,216,070.
2. The Water Department reflected a net position increase of \$1,531,151 to an ending balance of \$18,960,709.

Financial Analysis of the Government's Funds

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$73,283,724, an increase of \$19,123,223 in comparison with the prior year balances. An amount of \$31,982,359 or 4.6% of this the total fund balance represents unassigned fund which is available for spending at the government's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it is considered nonspendable, or has been restricted, assigned, or committed.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the general fund was \$33,054,735. The total fund balance was \$35,166,719. As a measure of the general fund liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. The unassigned fund balance represents 9.92% of total general fund budgeted expenditures.

The City's general fund balance increased by \$2,098,561 during fiscal year 2022, as compared to an increase of \$2,781,551 in the prior year. The change is a result of the City's budgetary expenditure surplus of approximately \$4,200,000.

*Proprietary Funds*

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position of the sewer enterprise funds amounted to \$154,216,070. The net investment in capital assets total \$120,967,702, restricted funds total \$6,142,879, and unrestricted net position totals \$27,105,489. During fiscal year 2022, the net position increased by \$9,640,954.

The net position of the water enterprise funds totaled \$18,960,709. Of this, \$10,769,914 represents the net investment in capital assets while the unrestricted portion totals \$8,190,795. During fiscal year 2022, the net position increased by \$1,531,151.

The net position of the City's internal service fund amounted to \$15,470,288. During fiscal year 2022, the net position increased by \$8,918,807.

Additional information on the City's capital assets can be found in Note 8 of the notes to the financial statements of this report.

*Long-Term Debt*

At the end of the fiscal year, the City had total bonds and notes outstanding of \$133,770,335. It is broken down as follows:

General Fund Bonds and Notes Payable	\$75,772,438
Sewer Bonds and Notes Payable	\$57,997,897

**CITY OF WARWICK, RHODE ISLAND  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2022**

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens. During fiscal 2022, the City of Warwick's general fund general obligation debt reflected a net increase of \$18,705,195. Sewer debt increased by \$2,437,102, and water debt decreased by \$42,676.

The City's bond ratings are as follows:

Moody's .....A1  
Standard & Poors .....AA

State statute limits the amount of bonds a governmental entity can issue to 3% of its total assessed valuation. The current debt limitation for the City is \$319,684,842. As of June 30, 2022, the City's current outstanding general fund debt falls under the debt limitation by \$243,954,170.

Additional information on the City's long-term debt can be found in Note 10 of the notes to the financial statements and in the statistical tables.

Economic Factors and Next Year's Budgets and Rates

- Warwick's average unemployment rate is 2.50%.
- Median family income in Warwick was \$77,110.
- Warwick ranks 3rd in population among Rhode Island's 39 cities and towns.

The following factors were considered in preparing the City's operating budget for the 2022-23 fiscal year.

- The School Department budget will increase by \$4.7 million to \$178.7 million.

Currently, the unassigned fund balance in the general fund totals \$33,054,735. While the City has maintained its commitment toward ensuring a steady growth for the City surplus, it has sometimes been necessary to utilize part of this surplus to ease the burden on its taxpayers. In the final fiscal 20223budget, the tax rate for residential property was set at \$18.73, the commercial and industrial tax rate at \$28.10, and the tangible personal property rate at \$37.46. Per Rhode Island law, the motor vehicle tax rate was eliminated.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES**  
**IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
**YEAR ENDED JUNE 30, 2022**

Net Change in Fund Balances - Total Governmental Funds \$ 19,123,223

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	23,028,236
Depreciation Expense	(6,473,346)
Loss on Asset Disposal	(22,342)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 781,850

In the statement of activities, interest is accrued on outstanding long-term debt, whereas in the governmental funds interest is not reported until due. This amount represents the net change in accrued interest payable (73,726)

The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These amounts represent the related activity of the current period.

Proceeds from Issuance of Bonds and Notes	(30,330,000)
Proceeds from Premiums on Bonds and Notes	(3,536,795)
Bond Maturities	7,051,531

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These amounts represent the net changes.

Amortization of Bond Premiums	587,142
Deferred Charges on Refunding	(12,042)
Compensated Absences	(927,431)
Retroactive Payroll	69,756
Net Pension Liability, Net	(2,615,632)
Total OPEB Liability, Net	(16,646,891)

Internal service funds are used by management to account for health insurance activities. The net activity of the internal service fund is reported with governmental activities. 8,918,807

Change in Net Position of Governmental Activities \$ (1,077,660)

**CITY OF WARWICK, RHODE ISLAND**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the City of Warwick, Rhode Island (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. A description of the reporting entity and significant accounting policies are described herein.

**A. Reporting Entity**

The City was established in 1642 and incorporated in 1931. In some matters, including the issuance of short and long-term debt, the City is governed by the general laws of the state of Rhode Island. The City operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police, fire, and inspections), public works (sanitation, highways and streets, engineering, and building maintenance), education, parks and recreation, social services, and general administrative services.

For financial reporting purposes, the basic financial statements include all funds, organizations, agencies, boards, commissions and institutions that are not legally separate from the City.

The City has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and/or significance of their relationship with the City are such that exclusion would cause the basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the City (primary government) and its component units.

The City has included six entities as component units in the reporting entity, because of the significance of its operational and/or financial relationship.

Fiduciary Fund Component Units

- (1) The City Employees' Pension Trust Fund was established to provide retirement benefits to City employees not covered by other plans and their beneficiaries. The Board is comprised of 11 members consisting of the City's Finance Director, Personnel Director, Municipal Union President, Chairperson of the City Finance Committee, one Union Employee, one Nonunion Employee, one Municipal Retiree, and four Members of the Public. The pension plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.
- (2) The Police I and Fire Pension Trust Fund was established to provide retirement benefits to all City Police Officers that were appointed before February 1, 1971, and all permanent members of the City's Fire Department appointed before May 29, 1992. The plan is closed to new members. The Board is comprised on the Board of Public Safety of the City. The pension plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**A. Reporting Entity (Continued)**

- (3) The Police II Pension Trust Fund was established to provide retirement benefits to all City Police Officers that were appointed after February 1, 1971. The Board is comprised on the Board of Public Safety of the City. The pension plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.
- (4) The Fire II Pension Trust Fund was established to provide retirement benefits to all City fire fighters that were appointed after May 29, 1992. The Board is comprised on the Board of Public Safety of the City. The pension plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.
- (5) The Warwick Public School Employees' Pension Trust Fund was established to provide retirement benefits to all Warwick Public School employees except for teachers. There are two committees that oversee the administration of this plan. The Executive Administration Board is comprised of the School's Chief Budget Officer, the Director of Human Resources, and the Warwick Independent Employees' Union President. The Executive Administration Board delegates investment responsibilities to the Pension Investment Administration Committee, which is comprised of two Warwick Public School Administrative Employees, the Chief Budget Officer, the Controller, and two Warwick Independent Employees' Union Representatives, who are appointed by the Union leadership. The pension plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.
- (6) The City of Warwick OPEB Trust Fund was established to provide postretirement health care benefits to certain employees groups of the City and their beneficiaries. The City Treasurer is responsible for the administration of the plan. The OPEB plan is presented using the accrual basis of accounting and is reported as a Pension Trust Fund in the fiduciary fund financial statements.

**B. Implementation of New Accounting Principles**

For the year ended June 30, 2022, the City implemented GASB Statement No. 87, *Leases*. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The City adopted the requirements of the guidance effective July 1, 2021, and has applied the provisions of this standard to the beginning of the period.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**C. Government-Wide and Fund Financial Statements**

**Government-Wide Financial Statements**

The government-wide financial statements (statement of net position and the statement of activities) report information on all nonfiduciary activities of the primary government and its component units. *Governmental Activities*, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *Business-Type Activities*, which are primarily supported by user fees.

**Fund Financial Statements**

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and displayed in a single column.

Internal service funds and fiduciary funds are reported by fund type.

**D. Measurement Focus, Basis of Accounting and Basis of Presentation**

**Government-Wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include the following:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.
- Grants and contributions which are restricted to meeting the operational requirements of a specific function or segment.
- Grants and contributions which are restricted to meeting the capital requirements of a specific function or segment.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)**

**Government-Wide Financial Statements (Continued)**

Taxes and other items not identifiable as program revenues are reported as general revenues.

Except for charges between the general fund and enterprise funds, the effect of interfund activity has been eliminated from the government-wide financial statements. Elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

**Fund Financial Statements**

**Governmental funds** financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences, claims and judgments which are recognized when the obligations are expected to be liquidated with current expendable available resources.

Real estate and personal property tax revenues are considered available if they are collected within 60 days after the end of the fiscal year. Investment income is susceptible to accrual. Other receipts become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The following major governmental funds are reported:

The *General Fund* is the City's primary operating fund and is used to account for all activities except those legally or administratively required to be accounted for in other funds.

The *School Unrestricted Fund* is a special revenue fund used to account for the School Department's general operations.

The *ARPA Fund* is a special revenue fund used to account for the American Rescue Plan Act (ARPA) funding received by the City.

The *School Bonds Fund* is a capital project fund used to account for the school capital projects.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)**

**Fund Financial Statements (Continued)**

The nonmajor governmental funds consist of special revenue, capital projects, debt service and permanent funds that are aggregated and presented in the *nonmajor governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

*Special Revenue Funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

*Capital Projects Funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

*Debt Service Funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

**Proprietary funds** financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting, whereby revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The following proprietary funds are reported:

The *Sewer Enterprise Fund* is reported as a major fund and is used to account for sewer activities, including the special assessments related to the construction of the sewer system.

The *Water Enterprise Fund* is reported as a major fund and is used to account for water activities.

In addition, the following proprietary fund type is reported:

The *Internal Service Fund* is used to account for risk financing activities related to health and workers' compensation insurance.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)**

**Fund Financial Statements (Continued)**

**Fiduciary funds** financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the government's programs.

The following fiduciary fund types are reported:

The *Pension and OPEB Trust Funds* account for the funding and payment of pension benefits provided to police officers, fire fighters and municipal and school employees, and OPEB benefits provided to police officers, fire fighters and municipal employees.

The *Custodial Fund* account for assets held by the City in a custodial capacity.

**E. Cash and Cash Equivalents**

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition. Substantially, all of the City's cash and cash equivalents are held in public institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public institutions are required to insure accounts which hold public funds in excess of the \$250,000 which is guaranteed by the Federal Deposit Insurance Corporation (FDIC). At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

**F. Investments**

Investments are reported at fair value and contract value, as further discussed in Note 4.

**G. Accounts Receivable and Revenue**

The recognition of revenue related to accounts receivable reported in the government-wide, proprietary funds, and fiduciary funds financial statements are reported under the accrual basis of accounting. The recognition of revenue related to accounts receivable reported in the governmental funds financial statements is reported under the modified accrual basis of accounting.

**Property Taxes**

Real and personal property taxes are based on values assessed as of each December 31 (lien date) and attach as an enforceable lien on property as of July 1 (levy date). Taxes are due in equal quarterly installments on July 15, October 15, January 15, and April 15 annually. Taxes due and unpaid after the respective due dates are subject to interest at the rate of 12% per annum, calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of the levy.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**G. Accounts Receivable and Revenue (Continued)**

Water and Sewer

Water and sewer charges are billed quarterly based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Water and sewer charges are recorded as receivables when billed and are recorded under the accrual basis of accounting. The estimated value of unbilled amounts at year-end has been included in the accompanying financial statements.

Sewer Assessments

Sewer assessments are levied as needed based on the costs of construction related to the sewer system. Residents have the option of paying their respective share of the betterment in full or over a period of up to 30 years and are subject to penalties and interest if they are not paid by the respective due dates. Sewer betterments are recorded as receivables in the fiscal year of the levy and are recorded under the accrual basis of accounting.

Intergovernmental

Various state and federal operating and capital grants are applied for and received annually. For all grants, revenue is recognized as soon as all eligibility requirements imposed by the provider have been met. Intergovernmental receivables are considered 100% collectible.

Loans Receivable

The City administers various loan programs related to housing assistance to residents and capital needs assistance for small businesses. Loans are recorded as receivables upon issuance.

Leases

The City's leases certain assets for various terms under long-term, noncancellable lease agreements.

Other

Other receivables consist primarily of charges for rescue service fees and are recorded as receivables when services are provided.

Accounts receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables.

**H. Leases**

Lessor

The City determines if an arrangement is a lease at inception. Leases are included in lease receivables and deferred inflows of resources in the statements of net position and fund financial statements.

**CITY OF WARWICK, RHODE ISLAND**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**H. Leases (Continued)**

Lessor (Continued)

Lease receivables represent the City's claim to receive lease payments over the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease receivables are recognized at commencement date based on the present value of expected lease payments over the lease term, reduced by any provision for estimated uncollectible amounts. Interest revenue is recognized ratably over the contract term.

Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term.

Amounts to be received under residual value guarantees that are not fixed in substance are recognized as a receivable and an inflow of resources if (a) a guarantee payment is required and (b) the amount can be reasonably estimated. Amounts received for the exercise price of a purchase option or penalty for lease termination are recognized as a receivable and an inflow of resources when those options are exercised.

The City recognizes payments received for short-term leases with a lease term of 12 months or less as revenue as the payments are received. These leases are not included as lease receivables or deferred inflows on the statements of net position and fund financial statements.

The individual lease contracts do not provide information about the discount rate implicit in the lease. Therefore, the City has elected to use their incremental borrowing rate to calculate the present value of expected lease payments.

The City accounts for contracts containing both lease and nonlease components as separate contracts when possible. In cases where the contract does not provide separate price information for lease and nonlease components, and it is impractical to estimate the price of such components, the City treats the components as a single lease unit.

**I. Inventory**

Inventories is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory consists primarily of materials and supplies. Inventory maintained in governmental funds are recorded as expenditures at the time of purchase.

**CITY OF WARWICK, RHODE ISLAND**

**J. Capital Assets**

Capital assets are reported in the applicable governmental or business-type activities column of the government-wide financial statements. Capital assets are also reported in the enterprise (proprietary) funds financial statements. Capital assets acquired in the governmental funds are recorded as expenditures in the acquiring fund in the fiscal year of the purchase.

Capital assets are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated acquisition value at the date of donation.

All purchases and construction costs in excess of \$10,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year.

Capital assets (excluding land and construction in progress) are depreciated on a straight-line basis. The estimated useful lives of capital assets are as follows:

Land Improvements	20 Years
Buildings	50 Years
Roads and Resurfacing	20 Years
Bridges	50 Years
Traffic Signals	10 Years
Main Extensions	75 Years
Pumping Stations and Hydrants	50 Years
Wastewater Collection System	50-75 Years
Meters	20-40 Years
Distribution Lines	65 Years
Machinery, Equipment, and Furniture	5-30 Years
Vehicles	5-8 Years

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

**K. Unearned Revenue**

Unearned revenue is presented in the governmental-wide statement of net position and governmental funds balance sheet and represents federal grants received by the City in advance of meeting eligibility requirements for revenue recognition.

**CITY OF WARWICK, RHODE ISLAND**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**L. Deferred Outflows/Inflows of Resources**

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period or periods and so will not be recognized as an outflow of resources (expense) until then.

Deferred outflows of resources related to refunding transactions, pensions and OPEB are reported in the government-wide and proprietary funds statements of net position.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows of resources related to pensions and OPEB are reported in the government-wide and proprietary funds statements of net position.

Deferred inflows of resources are also reported for taxes collected in advance and leases in the governmental funds and government-wide statement of net position.

Unavailable revenue is reported in the governmental funds balance sheet. Unavailable revenue represents billed receivables that do not meet the availability criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting.

**M. Interfund Transactions**

Interfund activity within and among the funds of the City have been classified and reported as follows:

Reciprocal Interfund Activities

Interfund advances are reported as interfund receivables in the lending fund and interfund payables in borrower funds (due from/due to).

**CITY OF WARWICK, RHODE ISLAND**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**M. Interfund Transactions (Continued)**

Nonreciprocal Interfund Activities

Interfund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers are reported after nonoperating revenues and expenses.

Interfund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.

Interfund transactions are accounted for as expenditures/expenses when they constitute reimbursements from one fund to another. These transactions are accounted for as expenditures/expenses in the reimbursing fund and are recorded as reductions of expenditures/expenses in the fund receiving the reimbursement. All other interfund transactions are reported as transfers.

**N. Long-Term Debt**

Long-term debt is reported as liabilities in the government-wide and proprietary funds statements of net position. Material bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

The face amount of governmental funds long-term debt is reported as other financing sources when the debt is issued. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses.

**O. Self-Insurance**

The City and School's self-insurance costs for workers' compensation liabilities are accounted for in the City's internal service funds. In addition, the School's self-insurance costs related to health insurance are also accounted for in the internal service funds. Claims incurred but not paid, including those which have not been reported, are accounted for as expenses and accrued claims in those funds when incurred.

**P. Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds. Open encumbrances at year-end are reported as restricted, committed or assigned, and should not result in separate display of the encumbered amount within those classifications. Encumbrances do not constitute expenditures or liabilities under generally accepted accounting principles.

**Q. Net Position and Fund Balances**

Government-Wide Financial Statements and Proprietary Funds Financial Statements (Net Position)

Net position is classified and displayed in three components:

*Net Investment in Capital Assets* – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bond, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

*Restricted Net Position* – Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, laws/regulations of other governments, law through constitutional provisions or enabling legislation.

*Unrestricted Net Position* – All remaining net position that does not meet the definition of “restricted” or “net investment in capital assets”.

Governmental Funds Financial Statements (Fund Balances)

The following fund balance classifications describe the relative strength of the spending constraints:

*Nonspendable* – Includes the amount of fund balances that cannot be spent because it is either not in spendable form or legally or contractually required to be maintained intact.

*Restricted* – Includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or lawGovers or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance* – Includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The City Council is the highest level of decision-making authority and utilizes City Ordinances as a formal procedure to commit fund balance. In addition, the passage of the budget by the taxpayers at the annual financial City meeting is considered the commitment of funds for the line items included in the fiscal budget.

**Q. Net Position and Fund Balances**

Governmental Funds Financial Statements (Fund Balances) (Continued)

*Assigned Fund Balance* – Includes amounts that are constrained by the government’s intent to be used for specific purposes but are neither restricted nor committed. The intent should be expressed by the governing-body itself or a body (a budget or finance committee) or official to which the governing-body has delegated the authority to assign amounts to be used for specific purposes. The Mayor through the City Council has the authority to assign fund balance. Fund balance assigned by the Finance Director is documented through issuance of a memorandum.

*Unassigned Fund Balance* – Is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The unassigned fund balance may also include negative balances for any governmental funds if the expenditures exceed amounts restricted, committed, or assigned for specific purposes.

In circumstances when an expenditure is made for a purpose for which amounts are available for multiple fund balances classifications, fund balance is depleted in the order of restricted, committed, assigned and unassigned.

**R. Claims and Judgments**

Liabilities for legal cases and other claims against governmental funds are recorded when the ultimate liability can be estimated, and such cases are expected to be liquidated with expendable available financial resources. Proprietary fund types record these liabilities using the accrual basis of accounting.

**S. Compensated Absences**

Under the terms of various contracts and agreements, City employees are granted vacation, sick, and personal leave in varying amounts based on length of service and bargaining unit. Unused vacation leave is paid upon an employee’s termination. Up to one-half of unused sick leave is paid upon termination, retirement, or death depending on bargaining unit. Severance pay and personal days are also paid to terminating employees depending on bargaining unit. The liability is calculated at the rate of pay in effect at June 30, 2022.

Government-Wide and Proprietary Fund Financial Statements

Compensated absences are reported as liabilities and expenses as incurred.

Governmental Fund Financial Statements

Compensated absences, which will be liquidated with expendable available financial resources, are reported as expenditures and fund liabilities upon employee retirement or resignation.

**T. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System Plan - Teachers and additions to/deductions from the pension plans net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**U. Total Other Postemployment Benefits other than Pensions (OPEB) Liability**

The total OPEB liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service. The total OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year and no later than the end of the current fiscal year, consistently applied from period to period.

**V. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**W. Reclassifications**

Certain prior year amounts have been reclassified in the notes to the basic financial statements for consistency with the current year presentation.

**NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**A. Budgetary Data and Budgetary Compliance**

In accordance with the Warwick City charter, the City has formally established budgetary accounting control for the General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. The General Fund is subject to an annual operating budget submitted and recommended by the City Mayor and adopted by the City Council. The City Council must hold a public hearing on the budget prior to adoption and may make changes to the budget. The General Fund Budget must be adopted no later than June 15. Should the City Council take no formal action on or prior to such day, the budget as submitted by the Mayor, shall be deemed to have been finally adopted by the City Council. The School Unrestricted Fund is subject to an annual operating budget provisionally approved by the School Committee, forwarded to the Mayor, for his review and possible amendment, with final adoption by the City Council. The annual operating budgets; appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The City's General Fund and School Unrestricted Fund annual operating budgets are in conformance with the legally enacted budgetary basis, which is not in conformance with accounting principles generally accepted in the United States of America. The accompanying budgetary comparison schedules are reflected on the budgetary basis. The difference between the budgetary basis and the accounting principles generally accepted in the United States of America basis is explained below.

The City of Warwick makes use of an encumbrance system. Encumbrances are commitments related to unperformed contracts for goods and services. When a purchase order or commitment is placed, the City reduces the amount of the budgetary authority remaining in a budget category and records an encumbrance. When goods or services are received, the encumbrance balance is reduced and an expenditure and liability is recorded. The City's outstanding encumbrances at year-end are carried forward as a component of committed fund balance.

Appropriations in addition to those contained in the annual operating budgets, except for the purpose of meeting a public emergency, are made upon the recommendation of the City Mayor and by a resolution adopted by the favorable votes of at least five members of the council. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Director of Finance, subject to approval of the Mayor, may at any time transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department, or agency. At the request of the Mayor and within the last three months of the fiscal year, the Council may by resolution transfer any unencumbered appropriation balance or portion thereof from one office, department, or agency to another. The level at which General Fund expenditures may not legally exceed appropriations is at the department level. The Schools Unrestricted Fund, a Special Revenue Fund, does not have a legal level of control over expenditures, except that total expenditures may not exceed available revenues. Appropriations which are not expended or encumbered lapse at year-end.

**NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)**

**B. Excess of Expenditures over Appropriations**

For the year ended June 30, 2022, expenditures exceeded appropriations in the following categories:

Public Safety	\$ 1,682,191
Public Library	48,338

**C. Fund Deficits**

At June 30, 2022, the City reported deficit fund balances for the following funds:

Nonmajor Governmental Funds:	
FEMA COVID	\$ 626,136
Technology Self Insurance	232,362
Police JAG Grant	81,129
Johnny Rockets	54,965
Homeless Child/Youth	53,957
Workforce Partnership of Greater RI	7,243
Assistance to Firefighters Grant	9,987
Fresh Fruit/Veg Program	3,997
Learning Champions	1,076
Champlin Winman	977
Feinstein Holliman	525
Library Services	22
Total Nonmajor Governmental Funds	<u>\$ 1,072,376</u>

The fund deficits will be eliminated by future borrowings, grant funding, private contributions, and fund transfers.

**NOTE 3 CASH DEPOSITS WITH FINANCIAL INSTITUTIONS**

**A. Deposits**

Substantially, all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by FDIC. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

**CITY OF WARWICK, RHODE ISLAND**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 3 CASH DEPOSITS WITH FINANCIAL INSTITUTIONS (CONTINUED)**

**B. Deposit Custodial Credit Risk**

Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the City's deposits may not be returned. The state of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the state of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The City does not have a formal deposit policy for custodial credit risk but is governed by state laws as described above.

As of June 30, 2022, the City's entire bank balance of \$89,991,832 was covered by either FDIC insurance or collateral held in the City's name.

**C. Cash Equivalents**

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. As of June 30, 2022, cash equivalents amounted to \$47,738,599. The cash equivalents consisted of money market type mutual funds held at banking institutions and were not rated.

**NOTE 4 INVESTMENTS**

The City invests in various types of investments, which are stated at fair value, except for participating interest earning investment contracts, which are recorded at contract value. By Charter the Finance Director and Treasurer have the authority to make investments subject to rules and regulations that the City Council may prescribe by ordinance. The Finance Director shall have the authority to purchase and invest prudently in the following investments for funds other than pension funds:

- Obligations of the U.S. Government, and its agencies and instrumentalities.
- Certificates of deposit and other evidence of deposit at banks, credit unions, and savings and loan associations with offices in the state.
- Bankers' acceptance of banks with offices in the state.
- Commercial paper of banks with offices in the state.
- Repurchase agreements whose underlying collateral consists of U.S. Government agency securities and U.S. Government sponsored corporations, plus the above, and which are offered by banks with offices in the state.
- Money market funds whose portfolios consist of the above instruments, and any other investments specifically approved by the City council.
- No-load open-end diversified management investment companies incorporated under Rhode Island General Laws designed exclusively for all state government entities, agencies, and instrumentalities.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 4 INVESTMENTS (CONTINUED)**

For details on the various pension plans' investment policies and target asset allocations, see Note 13.

**Interest Rate Risk**

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The City has no investments that are subject to interest rate risk.

**Credit Risk**

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by nationally recognized statistical rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk exposure. The City has no formal investment policy that limits investment choices for its pension funds.

**Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a formal investment policy that limits the amount that can be invested with one issuer. At June 30, 2022, the City is not exposed to concentration risk.

**Custodial Credit Risk**

Custodial credit risk is the risk that in the event of financial institution failure, the City's investments may not be returned. The City does not have a policy related to custodial credit risk. The City does not believe that it has significant custodial credit risk as substantially all investments securities are registered and held in the name of the City.

The following is a schedule of the City's Investments by classification:

	Fair Value	Investment Maturities (in Years)

Total	<u>\$ 45,517,554</u>

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The City has the following recurring fair value measurements as of June 30, 2022:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Fixed Income Securities	\$ 45,517,554	\$ -	\$ 45,517,554	\$ -

**NOTE 5 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY LEGAL DEBT MARGIN**

**Legal Debt Margin**

The City's legal debt margin as set forth by the State Statute is limited to 3% of total taxable assessed value, which approximates \$319,684,842. As of June 30, 2022, the City's debt applicable to the debt limitation is under the debt limit by \$243,954,170. All other City debt has been incurred through special statutory authority which consists of approval by the legislature and voter referendum.

**NOTE 6 PROPERTY TAXES**

The City is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation.

Net property taxes levied for the fiscal year 2022 were based on a gross assessed value of \$11,189,200,999 less exemptions of \$533,039,583 for a net assessed valuation of \$10,656,161,416 at December 31, 2020 and amounted to a levy of \$240,570,704. After abatements and adjustments, the net levy amounted to \$237,731,457. Collections through June 30, 2022 amounted to approximately \$231,715,365, which represents approximately 97.5% of the adjusted tax levy.

The City recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the *Codification of Governmental Accounting and Financial Reporting Standards* on the fund statements. Unpaid property taxes as of June 30, 2022 amount to \$21,021,444 and are recorded as a receivable, net of an allowance for uncollectible property taxes of \$15,407,312.

Those net property taxes receivable, which were not collected within the 60 days immediately following June 30, 2022 are recorded as unavailable and amounted to \$4,105,608. Property taxes recognized as revenue on the fund statements for the fiscal year ended June 30, 2022 (due to their collection within the 60 days immediately following June 30, 2022) amounted to \$1,508,524. Taxes are due in equal quarterly installments on July 15, October 15, January 15, and April 15 during fiscal year.

The City has entered into numerous loan agreements with the Rhode Island Infrastructure Bank, formerly known as Rhode Island Clean Water Finance Agency. The loan proceeds are to be used by the City for the extension and upgrade of the City's sewer system. The Bank advances loan proceeds to the City periodically to reimburse the City for capital costs incurred on the projects.

The loan proceeds are to be used by the City for the extension and upgrade of the sewer system. The Bank pays project invoices certified by the City directly to the contractors or reimburses the City for costs incurred on the projects. As of June 30, 2022, loans payable of \$54,595,334 are reflected in the Sewer Fund. A due from the Rhode Island Infrastructure Bank of \$12,862,474 is shown for that portion of the loans, which has not been advanced as of June 30, 2022. The City is responsible to draw down and to repay the full amount of the loan.

School RIHEBC Bonds

The proceeds from the bonds were used to finance the acquisition, construction, furnishing, and equipping of schools and school facilities, including but not limited to various school renovation projects, and to pay the costs of issuance. The \$3,908,000 bond and \$4,212,000 bond require sinking fund deposits to be held on deposit by the trustee and will be paid to the bondholders in full May 2027 for both bonds. While these sinking fund deposits do not allow the City to present these payments as retirements of the respective debt, the City has effectively accumulated \$5,582,500 (excluding interest) to retire the debts in 2027. These restricted funds are shown as restricted fund balance within the debt service fund.

The future sinking fund deposits required to amortize the 2010 Revenue Bonds of \$3,908,000 and \$4,212,000 are as follows:

**Summary of Significant Accounting Policies**

Basis of Accounting

The City Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City Employees' Pension Plan covers all City employees not covered by other plans. Nonelected employees are eligible to participate after six months of employment. Elected officials are eligible on the date they assume their elected position. The City Employees' Pension Plan is a single employer defined benefit pension plan that was established in 1965. The City does not issue a separate publicly available financial report.

**A. City Employees' Pension Plan (Continued)**

As of July 1, 2021, employee membership data related to the pension plan was as follows:

Active Plan Members	317
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	447
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	50
Total	814

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have attained age 65 and have reached their fifth anniversary of participation may retire. The normal monthly retirement benefit is equal to 2.5% of their final average monthly compensation multiplied by years of creditable service. Final average monthly compensation is one-twelfth of the average of the highest three consecutive years of base compensation. However, no elected member will receive less than one-twelfth of the sum of \$1,500 plus \$200 multiplied by years of creditable service; the sum not to exceed \$5,500. Effective September 1, 1994, the plan compensation is equal to the sum of base compensation and longevity pay. Eligibility for early retirement is after age 55 with at least 10 years of creditable service or any member whose age plus service totals 80 or more. Effective for new hires after July 1, 2012, the eligibility requirement changes to the attainment of age 59 with 25 years of service, or age 65 if vested. Additionally, the monthly retirement benefit decreases to 2% of final average monthly compensation multiplied by years of creditable service. Benefits will be calculated based upon the average of the last three years of service. Effective September 1, 1994, an elected official is eligible upon the attainment of age 55 with at least six years of service. The retirement benefit for early retirement is determined under the normal retirement formula above reduced for commencement prior to age 65. The reduction is equal to 0.5% per month for the first 60 months prior to age 65 plus 0.33% per month in excess of 60. If the sum of the retired member's years of age plus service is at least equal to 80, there is no reduction for early commencement. The provision for late retirement is continued employment beyond normal retirement. The retirement benefit for late retirement is the same as the normal retirement benefit formula determined as of the member's actual retirement date.

**A. City Employees' Pension Plan (Continued)**

Upon termination of employment, a nonelected member is eligible for a benefit deferred to retirement age after 10 years of creditable service. An elected member is eligible after six years of creditable service. The benefit is the same as early retirement. For all members except elected officials, the benefit amount determined under the normal retirement formula is increased by 3% per year between termination and retirement. In lieu of receiving retirement benefits, a member may receive a lump-sum payment of his or her accumulated contributions with interest at any time prior to the commencement of retirement benefits.

A nonelected member who leaves employment prior to completing 10 years of creditable service or an elected member who leaves prior to completing six years of creditable service will receive a lump-sum payment of his or her accumulated contributions with interest.

A nonelected member who has completed 10 years of creditable service or an elected member who has completed 6 years of creditable service, and who is totally disabled as determined by the City's medical board is eligible for disability retirement. The disability retirement benefit formula is the same as normal retirement but reduced by worker's compensation payments.

Any married nonelected member with 10 years creditable service or any married elected member with six years of creditable service who dies while still employed after age 50 is eligible for pre-retirement death benefits. The benefit is the same as vested deferred or early retirement with reduction for each month by which benefit commencement precedes age 65 and further reduced to reflect the optional form of payment which provides payments at the same rate to the surviving spouse. A member's surviving spouse may elect to receive a lump-sum payment equal to the member's accumulated contributions with interest in lieu of the annuity described above.

Any terminated member with a deferred vested benefit or an active member not eligible for the surviving spouse's annuity described above is eligible for death benefits before retirement benefits equal to one lump-sum pay of the member's accumulated contributions with interest.

Effective September 1, 1994, a member may, in lieu of receiving one half of his or her accumulated sick pay in cash at termination or retirement, receive a pension service credit for unused sick pay (six-month maximum).

Contributions

The City's annual contribution to the plan is based upon an actuarially determined amount recommended by an independent actuary. During fiscal 2022, this contribution amounted to \$7,814,937. In addition, the nonelected plan members contribute 8.5% of their annual base compensation and longevity compensation. Elected plan members contribute 8.5% of their annual base compensation plus \$20.00 per month. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

*Investment Policy*

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by a majority vote of the Municipal Pension Board members. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	25.00 %	0.58 - 3.48%

Rate of Return

For the year ended June 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (14.8%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2022. The components of the net pension liability of the City at June 30, 2022 were as follows:

Total Pension Liability	\$ 204,363,004
Plan Fiduciary Net Position	<u>146,082,306</u>
City's Net Pension Liability	<u><u>\$ 58,280,698</u></u>

Actuarial Assumptions

The following actuarial assumptions were used in the actuarial valuation dated July 1, 2021 and were rolled forward to the measurement date of June 30, 2022.

Actuarial Cost Method	Entry Age Normal
Inflation	2.50%
Salary Increases	3.00% to 7.00% including inflation

Measurement of the Net Pension Liability

*Discount Rate*

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

**CITY OF WARWICK, RHODE ISLAND  
NOTES TO BASIC FINANCIAL STATEMENTS

**NOTE 13 DEFINED BENEFIT PENSION PLANS (CONTINUED)**

**A. City Employees' Pension Plan (Continued)**

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Plan Description

The City of Warwick's Police I and Fire Pension Plan covers all City Police Officers that were appointed before February 1, 1971, and all permanent members of the City's Fire Department appointed before May 29, 1992. The plan is closed to new members. The Police I and Fire Pension Plan is a single employer defined benefit pension plan that was established in 1953. The City does not issue a separate publicly available financial report.

As of July 1, 2021, employee membership data related to the pension plan was as follows:

Active Plan Members	2
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	399
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	1
Total	402

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions – Police Officers

Benefits provided to remaining active police officers are in accordance with the City's Code of Ordinances. Retirement, death, and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Benefit Provisions – Firefighters

Participating firefighters in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of highest annual salary plus 1% of salary for each year of service in excess of 20 years (maximum 10). For pension purposes, annual salary includes regular, longevity and holiday pay.

Any firefighter retiring after July 23, 1996 may also irrevocably elect to have his or her pension calculated under the City's Fire II Pension Plan. The Fire II benefit formula is 50% of the final year's compensation. Plus 2% for each year of service from 20 to 25 years, plus 3% for each year of service from 25 to 30 years with a fixed compounded cost of living adjustment.

**B. Police I and Fire Pension Plan (Continued)**

A participant who is unable to perform active duty as a firefighter, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service-related disability retirement benefit for disabilities involving heart, lung, cancer, or other social security disabilities is 66.67% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The other service-related and nonservice-related benefit is 50% of annual salary.

A member is eligible for a return of contributions without interest for terminations prior to the completion of 10 years of service. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2.5% of annual salary at termination, multiplied by the number of full years of service, payable on the 20<sup>th</sup> anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service-related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice-related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice-related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Benefits provided to remaining active police officers and firefighters are in accordance with the proposed restatement of Section 15-19 of the City's Code of Ordinances. Retirement, death, and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Funding Policy

Active plan members contribute 7% of their covered earnings (regular, holiday and longevity). In addition, the City is required to contribute an actuarially determined amount each year, calculated in accordance with its pension ordinances. The statutory contribution level includes a 40-year amortization of the unfunded actuarial liability as a level percentage of payroll. During fiscal 2022, this contribution amounted to \$19,990,062. Administrative costs are netted against investment return in the actuarial valuation.

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of annual salary at retirement plus incremental increases of 2% per year between the 20<sup>th</sup> and 25<sup>th</sup> years, and annual increases of 3% between the 26<sup>th</sup> and 30<sup>th</sup> years. For pension purposes, annual salary includes regular, longevity and holiday pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years.

A member who is unable to perform active as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service-related disability retirement benefit is 66.67% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The nonservice-related benefit is 50% of annual salary.

**C. Police II Pension Plan (Continued)**

A member who leaves employment prior to completing 10 years of service will receive a lump-sum payment of accumulated contributions without interest. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2.5% of annual salary at termination, multiplied by the number of full years of service, payable on the 20<sup>th</sup> anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service-related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice-related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice-related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday, and longevity) equal to  $\frac{1}{3}$  of the actuarially determined contribution rate. The City is required to contribute  $\frac{2}{3}$  of the actuarially determined contribution rate. For fiscal year 2022, employees were required to contribute 17.90% and the City was required to contribute 35.80% of covered earnings, which amounted to \$5,000,043. The statutory contribution level includes a 20, 25, and 30-year amortization of the unfunded actuarial liability as a level percentage of payroll. Administrative costs are netted against investment return in the actuarial valuation.

Investments

*Investment Policy*

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Finance Director. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

**NOTE 13 DEFINED BENEFIT PENSION PLANS (CONTINUED)**

**C. Police II Pension Plan (Continued)**

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	25.00 %	0.58 - 3.48%
Large Cap Equity	27.00	4.73
Small/Mid Cap Equity	9.00	5.78
International Equity	29.00	5.56 - 7.55
Inflation Protection	5.00	3.47
Multi Asset	5.00	3.63
Total	<u>100.00 %</u>	<u>4.50 %</u>

Rate of Return

For the year ended June 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (14.9%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

	(Female) 111% of PUB(10) Median Table for Health General Employee Males, projected with Scale Ultimate MP16

Measurement of the Net Pension Liability

*Discount Rate*

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Summary of Significant Accounting Policies**

Basis of Accounting

The Fire II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick's Fire Pension II Plan covers all City firefighters who were appointed after May 29, 1992. The Fire Pension II Plan is a single employer defined benefit pension plan that was established in 1992. The City does not issue a separate, publicly available report.

As of July 1, 2021, employee membership data related to the pension plan was as follows:

Active Plan Members	170
Inactive Plan Members or Beneficiaries Currently	
Receiving Benefits	38
Inactive Plan Members Entitled to, but not Yet	
Receiving Benefits	<u>3</u>
Total	<u><u>211</u></u>

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

A member who has completed 20 years of service may retire. Such member shall receive an annual benefit equal to 50% of their last year's salary, plus 2% of their average salary for each of service from 20-25, plus 3% for each year of service from 25-30. For pension purposes, annual salary includes regular, holiday and longevity pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years. Currently, this new benefit provision is being contested by the Local 2748 International Association of Firefighters AFL-CIO.

A member who is unable to perform active duty as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The annual benefit for a service-related disability involving any heart, lung, cancer or other social security disability is 66.67% of the member's average salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of salary. The benefit for other service-related and nonservice-related disabilities is 50% of the member's average salary.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service-related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice-related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice-related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Any member who terminates employment with 10 years or more of creditable service, but less than 20 years of creditable service, shall receive an annual benefit commencing at normal retirement age equal to 2.5% of average salary multiplied by full years of service at termination.

Any member who terminates employment prior to the completion of ten years of creditable service will receive a lump-sum payment of his or her accumulated contributions without interest.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to  $\frac{1}{3}$  of the actuarially determined contribution rate. The City is required to contribute  $\frac{2}{3}$  of the actuarially determined contribution rate. Administrative costs are netted against investment return in the actuarial valuation. For fiscal year 2022, employees were required to contribute 14.73% and the City was required to contribute 29.47% of covered earnings which amounted to \$4,906,175.

Investments

*Investment Policy*

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Treasurer. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Measurement of the Net Pension Liability

*Discount Rate*

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Summary of Significant Accounting Policies**

Basis of Accounting

The Warwick Public School Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The Warwick Public School Employees' Pension Plan, a single-employer defined benefit public employee pension plan. All eligible Warwick Public School employees other than teachers are eligible to participate on the first of the month after completing three months of service. A person is eligible if they are (a) employed 20 hours or more per week and covered under the collective bargaining agreement, or (b) employed 20 hours or more per week in a noncertified management position, or (c) an elected School Committee member. There is no separate financial report issued for this plan.

As of July 1, 2022, employee membership data related to the pension plan was as follows:

Active Plan Members	322
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	194
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	45
Total	561

Benefit Provisions

Participants are eligible for normal retirement at the later of age 62 or 10 years of plan participation or at any age upon completion of 32 years of service with 10 years of plan participation. The normal retirement benefit is 1.67% of average monthly earnings times years of participation, plus 0.33% times the average monthly earnings times years of participation exceeding 20 years. The normal form of benefit is a life annuity. Average monthly earnings are the monthly average of total compensation for the 3 consecutive years of highest compensation over the last 10 years.

The yearly annuity amount for a School Committee member who becomes a retired member is \$1,000 plus 4.8% times the salary amount for each plan year in which one made mandatory employee contributions.

The plan also provides death and disability benefits.

Contributions

Plan members contribute 5% of earnings during the year. The School Department contributes based upon an annual actuarial valuation. During fiscal 2022, the School Department's contribution totaled \$406,900. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

Investment information has been provided by USI Advisors.

*Investment Policy*

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Warwick School Committee by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

This is an ongoing plan with a perpetual time horizon. For this reason, long-term capital market assumptions (20+ years) are applicable to approximate future real rate of return expectations. A modified building blocks methodology was used because being able to identify historical return premiums of asset classes in the context of varying market environments provides a reasonable basis to estimate the performance of asset classes going forward.

Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

Rate of Return

For the year ended June 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (13.65%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2022. The components of the net pension liability of the City at June 30, 2022 were as follows:

Total Pension Liability	\$ 73,839,247
Plan Fiduciary Net Position	<u>57,573,102</u>
City's Net Pension Asset	<u><u>\$ 16,266,145</u></u>
 Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	  <u><u>77.97%</u></u>

Actuarial Assumptions

The following actuarial assumptions were used in the June 30, 2022 actuarial valuation:

Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Level Amortization
Salary Increases	4.50% for pre-age 50, 2.5% for post-age 50
Investment Rate of Return	6.75%
Mortality Rates	PubG-2010(B) with Generational Mortality Improvement and PubG-2010 Disabled Retiree Mortality with Generation Mortality Improvement

Measurement of the Net Pension Liability

*Discount Rate*

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.75% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.75%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Summary of Significant Accounting Policies**

Plan Description

Certain employees of the Warwick Public School system participate in a cost-sharing multiple-employer defined benefit pension plan—the Employees' Retirement System plan—administered by the Employees' Retirement System of the state of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates, and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than five years of service as of July 1, 2012. Members are vested after five years of service.

The plan provides for survivor's benefits for service-connected death and certain lump-sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ended June 30, 2016.

**F. Employees' Retirement System Plan – Teachers (Continued)**

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Funding Policy

The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2022, Warwick Public School System Teachers were required to contribute 3.75% of their annual covered salary, except for teachers with 20 or more years of service as of June 30, 2012 who must contribute 11% of their annual covered salary. The state and Warwick Public Schools are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Warwick Public Schools; the rates were 10.94% and 14.78% of annual covered payroll for the fiscal year ended June 30, 2022 for the state and Warwick Public Schools, respectively. Warwick Public Schools contributed \$12,641,040 for the fiscal year ended June 30, 2022, equal to 100% of the required contributions for each year. The State's share of contribution for fiscal year 2022 was \$1,440,464 and is reported as on-behalf payments and included in both revenue and expenditures on the financial statements.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2022, Warwick Public Schools reported a liability of \$101,879,992 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by Warwick Public Schools as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with Warwick Public Schools were as follows:

Warwick Public School's Proportionate Share of the Net Pension Liability	\$ 101,879,992
State of Rhode Island's Proportionate Share of the Net Pension Liability	<u>75,553,147</u>
Total	<u><u>\$ 177,433,139</u></u>

The net pension liability was measured as of June 30, 2021, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021. Warwick Public School's proportion of the net pension liability was based on a projection of Warwick Public School's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2021, Warwick Public School's proportion was 4.33%, compared to 4.32% in the prior year.

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary Increases	3.0% to 13.0%
Investment Rate of Return	7.0%
Mortality - variants of the PUB (10) Tables for Healthy and Disabled Retirees, projected with Scale Ultimate MP16.	

The actuarial assumptions used in the June 30, 2020 valuation rolled forward to June 30, 2021 and the calculation of the total pension liability at June 30, 2021 were consistent with the results of an actuarial experience study performed as of June 30, 2019.

Investments

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2021 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the single discount rate (7.0%):

	1% Decrease	Current Discount Rate	1% Increase

**Defined Contribution Plan Description**

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS Section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

Warwick Public Schools recognized pension expense of \$523,543 for the fiscal year ended June 30, 2022.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at <http://www.ersri.org>.

Actuarial Assumptions and Other Inputs

The total OPEB liability at the June 30, 2022 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.50%
Salary Increases	General: 0.00% to 4.00% (not including inflation) Fire: 0.00% to 10.00% (not including inflation) Police: 0.00% to 10.00% (not including inflation)
Long-term Rate of Return	6.00%
Discount Rate	3.69%
Healthcare Cost Trend Rates	Pre-65: Initial rate of 6.75% declining to an ultimate rate of 4.15% after 12 years Post-65: Initial rate of 5.20% declining to an ultimate rate of 4.15% after 11 years
Mortality	For healthy retirees, the gender-distinct PubG-2010 Healthy Retiree tables by Occupation were used, with male rates multiplied by 115% and female rates multiplied by 111%. Those rates were projected on a fully generational basis using the ultimate mortality improvement rates from the MP-2016 table.

Investment Policy

The Trust Fund investments are managed by Vanguard Institutional Advisory Services (VIAS) and services are administered by Public Agency Retirement Services. All costs for management and administration are paid by the assets in the Trust Fund. The long-term real rate of return on OPEB investments was determined using the Town's investment policy.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Diversified Index Fund	100.00 %	3.63 %

The annual money-weighted rate of return on OPEB plan investments was (34.49%). The money-weighted rate of return expresses investment performance, net of OPEB plan investment expense, adjusted for the changing amount actually invested.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.69%. The discount rate was selected using a blend of the Municipal Bond Index Rate (3.69% at June 30, 2022) for unfunded periods and the investment rate of return (6.00% at June 30, 2022).

Net OPEB Liability

The components of the net OPEB liability of the City at June 30, 2022, were as follows:

Total OPEB Liability	\$ 397,385,397
Plan Fiduciary Net Position	<u>222,837</u>
City's Net OPEB Liability	<u><u>\$ 397,162,560</u></u>

Plan Description

The Warwick School Department administers a single-employer defined benefit other postemployment healthcare plan. The plan provides medical/drug benefits for eligible retirees and their dependents through the City’s group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. All benefits terminate at age 65. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Teaching Employees are eligible for benefits after serving the district for 20 to 30 years depending on their date of hire. Other district employees are required to reach age 62 and have 25 years of service. Teaching employees contribute 20 to 60% for coverage depending on their date of hire. Other employees will contribute 20% for coverage. Spouses of teaching employees are not covered by the plan. Spouses of other district employees will contribute 20% for coverage. Surviving beneficiaries continue to receive access to the district’s medical coverage through COBRA after the death of the retired employee. Survivors are required to pay the full cost of benefits.

Benefits Provided

Benefits are negotiated between the Warwick School Department and the respective unions. The Warwick School Department is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payments in effect at the time of retirement. For the year ended June 30, 2022, the plan operated on a pay-as-you-go basis, and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2022, the Warwick School Department paid benefits in the amount of \$638,092.

At July 1, 2022, membership consisted of:

	School
Active Employees	1,262
Retired	57
Total	1,319

Total OPEB Liability

The Warwick School Department's total OPEB liability of \$27,688,549 was measured as of June 30, 2022 and was determined by an actuarial valuation as of July 1, 2022 which was rolled back to the measurement date of June 30, 2022.

Actuarial Assumptions and Other Inputs

The total OPEB liability as of June 30, 2022 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00%
Salary Increases	3.00%
Discount Rate	4.09%
Healthcare Cost Trend Rates	8.0%, decreasing 0.5% per year to an ultimate rate of 5.0%
Mortality	RP-2006 Mortality Table with MP-2019 Projection

The discount rate was based on the S&P Municipal Bond 20-year High Grade Rate Index as of June 30, 2022.

**NOTE 17 SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES**

**Litigation**

Liabilities for legal cases and other claims against governmental funds are recorded in the governmental funds when the ultimate liability can be estimated, and such cases are expected to be settled with available expendable financial resources.

At June 30, 2022, the City had several lawsuits pending. The total maximum damages being sought from the City to these cases are not known. In the opinion of the City officials and the City's legal counsel, the City's ultimate liability with respects to these cases, if any, will be immaterial.

**Commitments**

The City is committed under terms of various construction contracts in the amount of approximately \$40,300,000 as of June 30, 2022.

**Grants**

The City has received federal and state grants for specific purposes that are subject to audit by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. City officials believe such allowances, if any, would be immaterial.

**CITY OF WARWICK, RHODE ISLAND  
NOTES TO BASIC FINANCIAL STATEMENTS  
JUNE 30, 2022**

**NOTE 18 RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a nonprofit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.), which provides coverage for property/liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism, which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members. There have been no significant reductions in insurance coverage during the year ended June 30, 2022 as compared to the previous year. The claims incurred did not exceed insurance coverage this year.

The City is self-insured for workers' compensation and is liable for the payment of claims. The claims are administered by a third-party administrator and are funding on a pay-as-you-go basis. The changes in workers' compensation claims liability are as follows:

<u>Year</u>	<u>Beginning Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimate</u>	<u>Claims Payments</u>	<u>Balance Fiscal Year-End</u>
2020-2021	\$ 321,332	\$ 415,491	\$ 346,695	\$ 390,128
2021-2022	390,128	419,028	374,288	434,868

Health Insurance

The School Department participated in a multiemployer cost reimbursement healthcare self-insurance risk pool managed by WB Community Health (WBCH). The School Department pays WBCH monthly premiums based upon "working rates" that are periodically adjusted to reflect changes in actual costs. Funds on deposit with WBCH are made available to pay claims, claim reserves and administrative costs. Claim liabilities are calculated considering the effects of inflation, recent claim and health care trends, and other economic and social factors.

As of July 1, 2021, the City no longer participates in the WBCH self-insured plan and participates in the Rhode Island Interlocal Trust plan which is fully insured.

**NOTE 19 ABATEMENTS**

The City enters into tax abatement agreements in conjunction with the City's tax stabilization ordinance for Warwick Intermodal and Historic Districts pursuant to the Rhode Island General Laws 44-3-9. Under the ordinance, the first five years of the tax stabilization period the tax assessment shall be frozen at a base tax rate as determined by the City, beginning in year six the property will pay 90% of the assessed value exempt from tax which decreases each year by 10%.

As of and for the fiscal year ended June 30, 2022, the City's two agreements under the tax stabilization ordinance have not reached year six and therefore no abatements have occurred to date.

Valuation Date

July 1, 2020

Notes

Actuarially determined contribution rates are calculated as of June 30, effective for the fiscal year that begins 12 months after the valuation date.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method

For funding purposes, the Entry Age Normal Actuarial Cost Method is used.

Asset Valuation Method

Fair Market Value

Inflation

2.50%

Salary Increases

3.00% to 7.00% including inflation

Investment Rate of Return

6.90%

Retirement Age

**CITY OF WARWICK, RHODE ISLAND**  
**ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT (MTP2)**  
**NOTES TO SUPPLEMENTARY INFORMATION**  
**JUNE 30, 2022**

**NOTE 1 BASIS OF PRESENTATION**

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

**NOTE 2 REPORTABLE GOVERNMENT SERVICES**

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services," RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

**NOTE 3 ALLOCATIONS**

The state reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's budget and accounting system. To report these costs, the City made allocations of costs to the State's departmental groupings based on a reasonable basis.

**NOTE 4 EMPLOYEE GROUPS – COMPENSATION AND BENEFIT COSTS**

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

*Group A* – This group consists of employees who serve the primary function of the department.

- Police Department – police officers (e.g., uniform personnel – including, leadership positions)

**CITY OF WARWICK, RHODE ISLAND  
ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT (MTP2)  
NOTES TO SUPPLEMENTARY INFORMATION  
JUNE 30, 2022**

**NOTE 4 EMPLOYEE GROUPS – COMPENSATION AND BENEFIT COSTS (CONTINUED)**

- Fire Department – fire fighters (e.g., uniform personnel – including, leadership positions)
- Centralized Dispatch Department – civilian dispatchers only
- Education Department – professional staff providing direct services to students
- For the remaining departments – all employees’ compensation and benefits are reported under Group A

*Group B* – For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

*Group C* – This group is only used for the Education Department and it includes administrative and support staff.

Other postemployment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust, or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State’s Municipal Transparency portal website.

**NOTE 5 EDUCATION REVENUE AND EXPENDITURES**

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

*Additional guidance and definitions regarding the State’s Municipal Transparency Portal can be found on the state Division of Municipal Finance website:
