CITY OF WARWICK FINANCE DEPARTMENT

3275 POST ROAD WARWICK, RHODE ISLAND 02886 (401) 738-2000

March 14, 2018

To the Honorable Mayor, President and Members of the Warwick City Council, and Citizens of the City of Warwick:

We hereby submit the Comprehensive Annual Financial Report for the City of Warwick, for the fiscal year ended June 30, 2017. The report has been prepared in accordance with generally accepted accounting principles (GAAP), adhering to the format promulgated through the Governmental Accounting Board's Statement 34. Responsibility for the accuracy of the data presented, as well the fairness of the representations contained within the report, rests with the City's management. To provide a reasonable basis for making these representations, the City of Warwick has established a comprehensive internal control framework that is designed to protect the government's assets from theft, loss or misuse, and to promote the compilation of reliable financial information for reporting and forecasting purposes. Since the cost of the internal control system should not outweigh its benefits, the City's internal control system has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge, and in all material respects, this report is fair, complete, and summarizes the City's financial position in a comprehensive manner.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical, and Single Audit. The Introductory Section contains this letter of transmittal, an organizational chart, and a listing of City Officials. The Financial Section contains the independent auditor's report, the management discussion and analysis (which should be read in conjunction with this transmittal letter to provide the reader with a greater understanding of the City's net position and fund activity), the city-wide financial statements, the basic financial statements of major and non-major funds, notes to the financial statements, and other supplementary information. The Statistical Section provides selected financial and demographic information presented on a multi-year basis.

In conformity with the Single Audit Act of 1996 and the United States Office of Management and Budget Uniform Guidance, "Audits of States, Local Governments, and Non-Profit Organizations", the City is required to submit to an annual audit of all federal grant awards. The Single Audit represents the final section of our report and contains the schedule of expenditures of federal grant awards.

GOVERNMENT PROFILE

The City of Warwick was established in 1642 and incorporated in 1931. The City has the second largest population in the State of Rhode Island and has total land area of approximately 35 square miles with another 14 square miles of inland water. Located 10 miles south of Providence, in Kent County, the City is centrally located within the State and connected to the northeast corridor by a network of interstate highways, including Interstate 95 and Interstate 295.

The City operates under a legislative charter providing for a nine-member council elected for two-year terms. All legislative powers of the City are vested in the City Council. Members of the Council are elected from each of the City's nine wards. In addition, a Mayor is elected for a two-year term and is the chief executive officer of the City. The Mayor is responsible for the administration and management of all offices, departments, and agencies except as otherwise provided by the City Charter. Duties of the Mayor include appointment of officers and employees of the City, preparation and presentation of the annual budget to the City Council, and the performance of other duties as required by ordinance or resolution. The Mayor has veto power over ordinances passed by the City Council, and may be overridden by a two-thirds vote of the City Council.

PUBLIC EDUCATION

A five-member School Committee directs the general administration of the City's school system. Three members are elected from designated school districts and two are elected at-large. The School Committee directs and controls all policies affecting the administration, construction, maintenance and operation of the public schools. The School Committee also appoints a superintendent of schools as its chief administrative agent and such other administrative officers as are considered necessary.

The City Charter provides that, based on budget estimates submitted by the School committee, the City Council establishes the School Department's appropriation in total only, and that the School Committee determines the allocation of the amounts appropriated.

The City's school system consists of 16 elementary schools, 2 junior high schools, 2 senior high schools, an early childhood center and a career technical center. Most of these schools have been constructed in the last 40 years and the City does not anticipate the need for additional construction of school facilities in the near future, although renovations and additions to existing facilities are ongoing.

There is presently a professional staff of 962 in the school system, 912 of whom are teachers. In the graduating class of 2017 approximately 89% of all high school graduates continued their education by attending two and four year colleges, technical institutes, or other forms of post-secondary education.

The following is a summary of the actual school population trends in the City:

Schedule of Enrollment						
2000	12,375					
2001	12,382					
2002	12,205					
2003	12,078					
2004	12,003					
2005	11,709					
2006	11,385					
2007	10,944					
2008	10,818					
2009	10,525					
2010	10,507					
2011	10,277					
2012	9,977					
2013	9,675					
2014	9,409					
2015	9,277					
2016	9,130					
2017	8,897					

During fiscal 2017, the City appropriated \$161,135,284 to the School Department. In addition, the Department's fiscal 2016 operating surplus, \$3,185,454, was re-appropriated to them. Final expenditures totaled \$163,033,893. Their fiscal 2018 expense appropriation is \$162,238,442. An additional \$3,000,000 was recently appropriated to fund the new teacher's contract. The total fiscal 2018 State Aid for school operations has been budgeted at \$39,004,478.

MUNICIPAL SERVICES

In addition to its schools, the City provides major public services, certain of which are described below:

Executive and Administration

The Mayor with the assistance of the Finance, Personnel and Legal Departments exercises general oversight of the City. The City Clerk's Office is responsible for all record maintenance and supervision of the municipal and probate courts. During fiscal 2017, the Executive and Administrative Divisions expended \$14.5 million, of which \$8.7 million represented debt service. The fiscal 2018 budget has been set at \$15.2 million.

Public Safety

A three member Board of Public Safety appointed by the Mayor, oversees the City's Police Department, Fire and Rescue Services Departments and serves as license commissioners for the City.

Police: The City Police Department has 254 authorized positions consisting of 175 sworn officers, 23 school crossing guards and 56 civilian personnel. The police station, built in 1975, provides facilities for public safety issues. During fiscal 2017, the Police Department expended \$19.2 million. For fiscal 2018, \$20.4 million has been designated for operations.

Fire and Rescue: The City Fire Department and Rescue Service has 239 authorized positions consisting of 227 uniformed fire and rescue personnel and 12 civilian personnel, staffing nine stations throughout the City. Fire and Rescue expended \$22.7 million during fiscal 2017 and \$22.2 million was budgeted for fiscal 2018.

Animal Shelter: The Animal Shelter consists of 5 employees and is responsible for administering care to the animal population. The fiscal 2017 expenditures totaled \$202,057 with \$219,011 budgeted for fiscal 2018.

Building Inspector: The City Building Inspection Department consists of 16 authorized positions responsible for insuring compliance with local and state building code ordinances and laws. The fiscal 2017 expenditures totaled \$785,059; \$953,574 was budgeted for fiscal 2018.

Social Services

Parks and Recreation: A staff of 15 maintains two indoor skating rinks, an indoor swimming pool with an adjacent therapeutic pool, 7 beaches, 60 athletic fields, 32 basketball courts, 39 tennis courts and 9 parks. They are assisted by the Public Works Field Maintenance Division. The Department is also responsible for regulating the City's three major harbors in Narragansett Bay. During fiscal 2017 the Department expended \$1.8 million. The fiscal 2018 budget has allotted \$2.0 million for recreation.

Warwick Public Library: The City library consists of a main library and three branches. The main facility contains over 215,000 items and provides research services to the City's residents and business community. Total library related expenditures for fiscal 2017 totaled \$2.8 million. These funds supported the acquisition of books and materials as well as an authorized staff of 51. The central library facility serves over 395,000 visitors a year. The fiscal 2018 budget amounts to \$2.95 million.

Human Services: This Department provides social and transportation services to the City's seniors at three neighborhood senior centers. It also provides contributive and in-kind support to non-profit organizations in the City. Fiscal 2017 expenditures totaled \$1.2 million, and the fiscal 2018 budget has been set at \$1.2 million.

Physical Resources

Planning and Community Development: A staff of 12 provides professional guidance on the physical and social development of the City and administers the Federal Community Development Block Grant Program and the Lead Hazard Reduction Program. Fiscal 2017 expenditures for these programs totaled \$833,889, with \$1.1 million allocated for fiscal 2018.

Tourism, Culture, and Development: This Department, working closely with the Mayor's Office, assists the private sector in finding suitable facilities in the City. Also, the Department promotes the City and its lodging facilities through general circulation and trade advertising. Fiscal 2017 expenditures totaled \$682,565 and \$748,420 has been set aside for fiscal 2018 operations.

Public Works: An authorized staff of 131 maintains the City's 4980 miles of roads, monitors the disposal operations of 25,000 tons of trash per year, maintains the City's fleet of vehicles, maintains approximately 40 buildings, and designs new infrastructure projects. During fiscal 2017 the Department expended \$12.5 million and has been allocated \$14.3 million through the fiscal 2018 budget.

Sewer and Water: These departments operate as enterprise funds, collecting revenue which is sufficient to support their operations. They are responsible for overseeing the City's water and wastewater treatment facilities.

ECONOMIC CONDITIONS AND OUTLOOK

POPULATION

The table below shows the City's population trends:

Year	<u>City</u>
2017	81,576
2016	81,699
2015	81,963
2010	84,760
2005	87,365
2000	85,808
1990	85,427
1980	87,123
1970	83,694
1960	68,504
1950	43,028
1940	28,757
1930	23,196
1920	13,481

INCOME LEVELS

According to the US Census Bureau, 2011-2015 American Community Survey (5 Year Estimates), the median family income of the City of Warwick was \$82,937. Median family income in the City increased 47.5% from 2000.

HOUSING

According to the US Census Bureau, 2010 Demographic Profile Data, there were 37,730 dwelling units in the City compared to 37,085 dwelling units in 2000.

ECONOMIC DEVELOPMENT

General: The Warwick Department of Tourism, Culture and Development is engaged in an ongoing effort to promote and assist new, existing and expanding businesses. In this capacity, the

Department serves as a liaison between City government and the private sector in the location of available land and facilities, and in the determination of available financing.

State Airport: Warwick's premier asset is also its greatest business convenience. Located directly in the heart of the City is T.F. Green Airport, the state's major commercial airport. The Rhode Island Airport Corporation opened a new \$200 million, two-level terminal in September of 1996 augmented with a landscape beautification program on the airport grounds and along its entrance on Post Road. Featuring separate arrival and departure access along with 22 gates and in improved baggage claim area, T.F. Green Airport has already attracted expanded service and increased passenger volume.

MAJOR INITIATIVES

The City of Warwick maintains a bond rating of A1as determined by Moody's Investors Service, and a recently upgraded rating of AA from Standard & Poor's. These ratings are the result of firm and steady financial planning. They reflect Warwick's strong tax base, consistent financial performance, and manageable levels of bonded debt. Warwick was also recently named the best place to live in Rhode Island by MONEY Magazine.

Annually, the City develops a Capital Improvement Plan. This plan serves as a blueprint for capital projects to be undertaken over a five-year period.

Open Space/Recreation:

The City remains especially committed to preserving recreational and open space areas. In 2007, the City purchased 40.9 acres at the site of the former Rocky Point Amusement Park in the Warwick Neck area. In March 2013, the Rhode Island Department of Environmental Management (RIDEM) purchased the remaining 82 acres from the U.S. Small Business Administration. The park is now fully open and operational, drawing thousands of visitors each year to enjoy the breathtaking bay views, passive recreation, and a wide variety of community events such as the Movies in the Park series, an annual 5K road race, family-friendly Food Truck nights, and the Summer Concert Series.

A recent grant from the Rhode Island Foundation has allowed the City to restore and repaint the iconic arch that once served as an entry point to the former amusement park, and a series of signs have been installed around the property, highlighting some of the most beloved attractions and areas that were enjoyed by generations of Rhode Islanders.

The City and the State Department of Environmental Management also recently entered into a lease agreement that will allow for construction of a new fishing pier, which will include a roughly 260-footlong wooden walkway leading out to a main deck elevated 13 feet off the surface of Narragansett Bay. Construction is slated for completion in 2019.

T.F. Green Airport and Intermodal Facility:

The City continues to receive additional revenue from airport-related activities. Taxes on airport parking and rental cars generated approximately \$2.7 million in revenue during fiscal 2017. The City also received airport-related funding from the Economic Development Commission. This revenue totaled \$774,835. The state's meal tax also generated approximately \$2.9 million for the City.

Safety and runway improvements - including runway expansion and the relocation of portions of Main Avenue - have been completed, and the Airport has recently welcomed new international carriers offering direct access to destinations that include Ponta Delgada, Frankfurt, Edinburgh and a number of counties in Ireland, even as additional domestic flights have been increased.

The Warwick Intermodal Train Station, known as the InterLink, continues to operate successfully. A combination of federal and state funds financed approximately \$267 million in construction costs. The facility gives Warwick one of, if not the closest, air-rail links in the country and provides MBTA commuter train service among Warwick, Providence and Boston, with service to Wickford Junction as well. It includes a bus hub, a six-level parking garage for rail commuters and car-rental companies, and a 1200-foot, enclosed, elevated walkway with moving sidewalks over Post Road that connects T.F. Green Airport to the Station.

City Centre Warwick:

There have also been significant developments related to City Centre Warwick, the transit-oriented neighborhood surrounding the Airport and InterLink. A zone change to expand the City Centre Warwick Intermodal District from 95 acres to 110 has been approved, allowing the City and developers the opportunity to further capitalize on the tremendous infrastructure investment and locational advantage of the area. The City also approved legislation, which complements state law and applies to new developments costing \$5 million or more, to allow for Tax Stabilization Agreements within City Centre. This initiative has helped jumpstart redevelopment and revitalization in the area.

A design manual for City Centre Warwick has been approved, and the City has been working closely with property owners to retrofit and make aesthetic improvements to existing facilities to help create a unique character for the area. The \$3.8-million Coronado Road improvement project is complete, bringing with it pedestrian, safety and aesthetic improvements, to very positive reviews. The newest project underway within City Centre is the construction of the 125-room Hyatt Place Hotel, slated for completion this year. A number of other projects are in the development stages.

City Centre Warwick and the adjacent "business innovation district" offers up to 3 million square feet for redevelopment, all located within a half-mile radius of the airport, commuter rail station and Interstates 95 and 295. At full build-out, it's expected that City Centre Warwick will create between 2,000 and 3,000 new jobs. The City continues its collaboration with state and federal partners, local stakeholders and the Central Rhode Island Chamber of Commerce to further economic development and revitalization in the area.

Pontiac Mills:

The revitalization of the Pontiac Mills complex – former home of The Fruit of the Loom – also continues. The project, financed in part by \$9 million in historic tax and federal credits, will allow for the transformation of the property into residential and mixed-use spaces. Current plans call for construction of 150 apartments, in two phases, and a third development phase that would include commercial uses and/or residential units. The developer is committed to preserving as many historic features as possible for this culturally and historically significant landmark nestled along the Pawtuxet River.

Apponaug Bypass:

The Apponaug Bypass Project has been completed. This innovative transportation project included reconstructing the Apponaug circulator and opening it to two-way traffic. The project offers numerous benefits for our community, including reduction of traffic volume at Apponaug Four Corners (from 28,000 average daily trips to an estimated 4,000, making the area more pedestrian-friendly), increasing recreational and alternative transportation options with the creation of a dedicated bicycle lane that connects the Warwick Bicycle Network, creation of additional open space in Apponaug Center, the beautification of Apponaug Village with new landscaping, curbing and decorative street lighting, and the preservation of the historic sawtooth building for redevelopment by AAA.

The bypass project, together with Village Zoning regulations, has furthered the City's ongoing efforts to revitalize the historic village into a more pedestrian-friendly neighborhood that offers increased "live/work" opportunities to increase economic development and provide unique residential choices for citizens. It enables development and redevelopment of the village center in keeping with its historic character and with an eye to the future.

FINANCIAL INFORMATION

The City's Comprehensive Annual Financial Report provides detailed information on the City's current financial position. Our Management Discussion and Analysis will provide additional analysis.

BUDGETARY CONTROL

At least forty five days prior to the start of the fiscal year, the Mayor submits a budget to the City Council for consideration. Before the budget is adopted, a public hearing is held and taxpayers are given the opportunity to comment on the budget. After the hearing, the Council reviews the budget. They have the authority to increase or decrease budget line items. The budget is adopted on an affirmative vote of the majority of the City Council – this vote must occur at least 15 days prior to the start of each fiscal year. If the City Council has not adopted the budget by this date, the Charter stipulates that the Mayor's budget is deemed to have been adopted by the Council.

The operating budget is tracked via a budgetary control system. The system tracks expenditures and encumbrances, and compares them to budget. The report also calculates the amount of appropriation remaining. The Finance Department monitors spending and issues reports to departments to assist them in budget management.

CASH MANAGEMENT

Cash requirements are strictly monitored, and excess cash is invested in appropriate short term instruments. These investments are intended to maximize investment earnings, while maintaining an appropriate level of liquidity. The pension funds are invested in longer term investments- both bonds and equities- and are managed by consultants, hired to maximize the rates of return. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not represent trends which can be anticipated or recognized as permanent additions to the funds. They are completely dependent on economic conditions, and may never be realized, especially for investments held for the long term.

RISK MANAGEMENT

The City is a member of the RI Interlocal Risk Management Trust. This organization was established as a joint venture to provide insurance coverage to local municipalities. The City of Warwick maintains insurance coverage for property, general liability, professional liability, and auto liability. The City self-insures for workers compensation. Beacon Mutual Insurance Company administers this program.

DEBT ADMINISTRATION

The ratios of net bonded debt to total assessed (property) valuation and net bonded debt per capita provide useful information when evaluating the City's financial position. These indicators were as follows on June 30, 2017:

Net Direct Bonded Debt	Ratio of Debt to Assessed Value	<u>Debt Per</u>
Capita		
\$ 45,140,189.	.48%	\$ 553.35

(Please See Statistical Tables for Additional Information)

INDEPENDENT AUDIT

Per the Warwick City Charter, and the General Laws of the State of Rhode Island, an independent audit of the City's financial statements and operations has been completed by the firm of Blum, Shapiro & Company, P.C. Their opinion is included within this document.

ACKNOWLEDGEMENT

The preparation of this Comprehensive Annual Financial Report would not have been possible without the efficient and dedicated efforts of the staff of the Treasury and Finance Divisions. Their competent efforts are greatly appreciated. Special thanks to Mayor Scott Avedisian, Council President Joseph Solomon, and the members of the City Council for their support in maintaining the highest standards of professionalism in the management of the City of Warwick's finances.

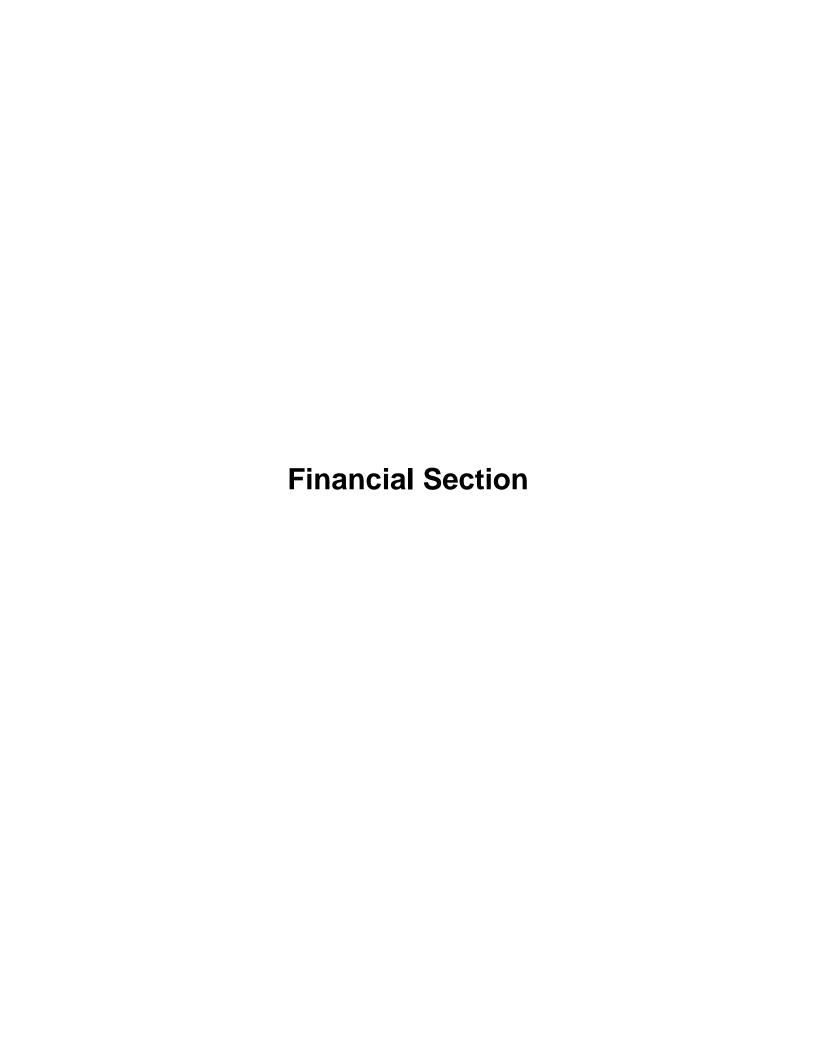

Respectfully submitted,

Bruce R. Keiser

Interim Finance Director

Kenneth R. Alfano

Controller

Independent Auditors' Report

To the Honorable President and Members of the City Council City of Warwick, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Warwick, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of June 30, 2017 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 19 to the financial statements, during the fiscal year ended June 30, 2017, the City adopted new accounting guidance, GASB Statement No. 77, *Tax Abatement Disclosures*. Our opinion is not modified with respect to this matter.

Prior Period Adjustment

As discussed in Note 21 to the financial statements, the beginning net position for governmental activities and business-type activities has been restated in order to correct transactions incorrectly recorded in prior years. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 15, the budgetary comparison information on pages 96 through 101 and the pension and OPEB schedules on pages 102 through 115 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Warwick, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and is also not a required part of the financial statements of the City of Warwick, Rhode Island.

The combining and individual nonmajor fund financial statements and schedules and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 14, 2018 on our consideration of the City of Warwick, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warwick, Rhode Island's internal control over financial reporting and compliance.

CITY OF WARWICK, RHODE ISLAND MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Warwick, we offer readers of the City of Warwick's financial statements this overview and analysis of the financial activities of the City of Warwick for the fiscal year ended June 30, 2017. We encourage readers to consider this information in conjunction with the additional information that is furnished in the letter of transmittal, which can be found preceding this narrative, and with the City's financial statements which follow.

Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the City's financial position. These tables will reflect governmental activities, business-type activities, and total activities for the 2016 and 2017 fiscal years.

FINANCIAL HIGHLIGHTS

At the close of the fiscal year, the liabilities of the City of Warwick exceeded its assets by \$347,182,615 (*Net Position*).

The City's total net position decreased by \$13.3 million during fiscal year 2017. One key factor was the accrual of an additional \$18.8 million in post-retirement benefits in accordance with GASB45. Additionally, a \$19.8 million decrease in the City's net pension liabilities was reduced by an increase in the net deferred pension inflows which also totaled \$19.8 million, and a decrease in the deferred pension outflows which totaled \$9.1 million. The City's total long term debt decreased by \$8.9 million and year-end accounts payable and accrued liabilities decreased by \$4.3 million.

At the close of the current fiscal year, the City's governmental funds reported *combined* ending fund balances of \$42,762,384, an increase of \$8,664,140 from those of the prior year. This was primarily due to surpluses in the General Fund and the Non-major Governmental Funds.

Fiscal 2017 operating results for the general fund reflected a net increase in total fund balance of \$6,828,833, resulting in an ending fund balance of \$29,020,619. The fund's ending unassigned fund balance increased by \$4,080,777 to a total of \$22,566,957 or 7.46% of the total 2017 final budgeted expenditures.

The City's overall investment in capital assets (net of accumulated depreciation) decreased by \$1.6 million during this year. Key additions this year included fire code improvements in various city and school buildings, and the sewer levee reconstruction project.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Warwick's basic financial statements. The City's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the financial statements. This report also contains other supplementary information including combining statements for non-major governmental funds, enterprise funds, and other fiduciary funds. Figure 1 below graphically depicts the required elements of the financial report:

Required Components of the Annual Financial Report

Figure A-1

Management Discussion And Analysis Summary **Basic Financial Statements** Fund Government-wide Notes To The Financial **Financial Financial** Statements Statements Statements Required Supplementary Information Summary Detail

Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

- ➤ The first two statements within the basic financial statement structure are government-wide financial statements that provide both long-term and short-term information about the City's overall status.
- The remaining statements are fund financial statements that focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements.
 - o The *governmental fund* statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.
 - Proprietary fund statements offer short and long term financial information about the activities the government operates like businesses, such as the sewer and water systems.
 - Fiduciary fund statements provide information about assets that are held by the City as a trustee or agent for the benefit of someone or something other than the City itself. The City cannot use these assets to support its own programs.
- > The financial statements also include notes that provide more detailed data about some of the information in the financial statements.
- > The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.
- In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental funds, enterprise funds, and fiduciary funds, which are added together and presented in a single column in the basic financial statements.

Major Features of the City of Warwick's Government-Wide and Fund Financial Statements

Figure A- 2

			Fund Statements	
	Government-Wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire City Government (Except Fiduciary Funds)	The activities of the City that are not proprietary or fiduciary, such as Police, Fire, and DPW	Activities the City operates similar to private businesses, such as the sewer or water systems	Instances in which the City is the trustee or agent for someone else's resources
Required Financial Statements	Statement of Net Position Statement of Activities	Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balance	Statement of Net Position Statement of Revenues, Expenses, and Changes in Net Position Statement of Cash Flows	Statement of Net Position Statement of Changes in Net Position
Accouting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Assets/ Liability Information	All assets and liabilities both financial and capital, and short-term and long-term.	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets are included	All assets and liabilities both financial and capital, and short-term and long-term.	All assets and liabilities both financial and capital, and short-term and long-term.
Type of Inflow/ Outflow Information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during, or soon after the end of the year; expenditures when goods or services have been	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report on the City's *net position* and how it has changed. Net position - the difference between the City's assets and liabilities - is one way to measure the City's financial health.

- Over time, increases or decreases in the City's net position are indicators of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as changes in the City's property tax base and the condition of the City's roads.

The government-wide financial statements of the City are divided into three categories.

- Governmental activities Most of the City's basic services are included here, such as education, public safety, library, recreation, social services, public works and general administration. Property taxes, charges for services and state funding finance most of these activities.
- Business-Type activities The City charges fees to customers to cover the costs of certain services it provides. The City's water and sewer systems are included here.
- Component units The City does not have any entities that are deemed to be component units.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds - not the City as a whole. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental Funds - Most of the basic services provided by the City are reported in governmental funds, which focus on (1) how money flows into and out of those funds and (2) the balances remaining at year end that are available for spending during the next year. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations that helps the reader to determine whether or not there are more or fewer financial resources that can be spent in the near future to finance City programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. To facilitate this comparison, a reconciliation between the governmental funds statements and the government-wide statements has been provided.

The City maintains seventy eight governmental funds and two are considered major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The two major governmental funds are the General Fund and the School Unrestricted Fund.

The basic governmental fund financial statements can be found on pages 18-21 of this report.

Proprietary Funds - The City of Warwick maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its sewer and water operations. *Internal Service Funds* are used to accumulate and allocate costs internally among functions. The City uses internal service funds to account for the workers compensation self insurance fund and the healthcare self insurance funds. Because this operation benefits predominantly governmental rather than business activities, the internal service fund has been included within the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 22-24 of this report.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 25-26 of this report.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, as well as information concerning the City's progress in funding its obligation to provide pension benefits to employees. Required supplementary information follows the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial health. The City's combined net position (government and business-type activities) totaled (\$347,182,615) at the close of the most recent fiscal year. The largest portion of the City's net position reflects its investment in capital assets such as land, building, equipment, and infrastructure, less any related outstanding debt. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

		Governmental Activities		Busines	s-Type		
	_			Activi	ties	Total

Total Net Position	\$_	(470,530,654) \$	(445,301,166) \$	123,348,039 \$	111,402,934 \$	(347,182,615) \$	(333,898,232)

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the City's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position. At the end of the current fiscal year, the City's unrestricted net position total was negative – this was primarily due to the full accrual of the current net pension liabilities for all six city pension plans. This accrual included Warwick's portion of the net pension liability for the state controlled teacher pension plan.

Changes in Net Position

During fiscal 2017, the government's total net position decreased by \$13,284,383, plus a prior period adjustment of \$521,304 as indicated below:

		nmental vities	Busines: Activi		Total

Net Assets at Beginning of Year, as Restated	(445,301,166)	(402,534,021)	111,402,934	103,143,959	(333,898,232)	(299,390,062)		
Net Assets at End of Year	\$ (470,530,654)	\$ (445,301,166)	123,348,039 \$	111,402,934 \$	(347,182,615) \$	(333,898,232)		

Governmental Activities.

Governmental activities decreased the City's net position by \$25.2 million. Key elements are as follows:

- 1. The City's net position increased by \$19.0 million due to a decrease in the City's accrued net pension liabilities which include six city and school pension plans. Accordingly the City's net position decreased by \$28.9 million following increases of net deferred inflows (liabilities) and decreases in net deferred outflows (assets) relating to pension expense amortizations.
- 2. Per GASB45, the City accrued additional other post-employment benefits which decreased net position by \$18.8 million.
- 3. General Fund GAAP surplus increased the City's net position by 6.8 million. Additionally, surpluses in the non-major governmental funds increased the net position by \$1.8 million.

- 4. Capital asset additions (net of CIP) totaled \$7.7 million while fiscal 2017 depreciation expense also amounted to \$7.7 million. There was no impact on net position.
- 5. Changes in deferred revenue accruals decreased the City's net position by \$1.7 million, and decreases in long term debt (bonds and leases) increased net position by \$400,000.

Business-type Activities.

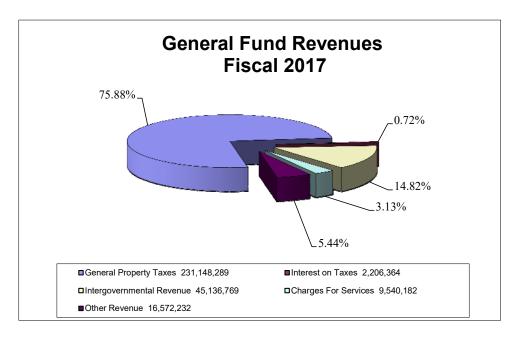

Business-type activities increased the City's net position by \$11.95 million. The key elements are as follows:

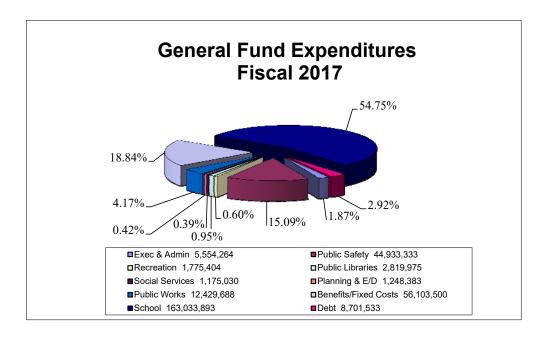

- 1. The Sewer Department reflected an overall increase in net position which totaled \$12.1 million. One key factor contributing to the increase was the accounting reclassification of \$11.2 million in debt principal expense to the bonds payable liability account. Additionally operating revenues increased by approximately \$550,000.
- 2. The Sewer Assessment Fund's ending net position totaled \$5.4 million, a decrease of \$120,456 from the prior year.
- 3. The Water Department reflected a net position increase of \$2.2 million. This was primarily due to rate increases which increased net position by \$1.5 million.
- 4. The Non-Major Enterprise Funds reflected an overall decrease in net position of \$2.2 million. This was primarily due to the Enterprise Emergency Fund which recorded a \$2.2 million decrease in net position after transferring assets from the completed sewer levee reconstruction project to the Sewer Operating Fund.

Financial Analysis of the Government's Funds

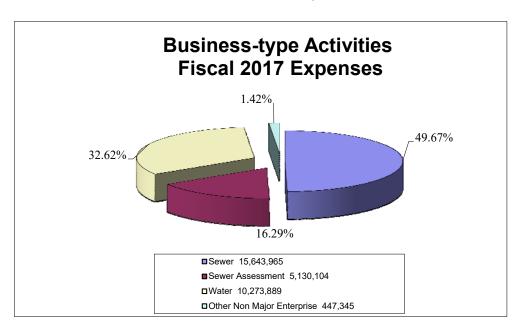

.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$42,762,384, an increase of \$8,664,140 in comparison with the prior year balances. \$22,566,957 or 52.8% of this the total fund balance represents unassigned fund which is available for spending at the government's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been restricted or committed.

Note: Transfers to and from other funds have been integrated into their respective categories.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the general fund was \$22,566,957. Total fund balance was \$29,020,619. As a measure of the general fund liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 7.46% of total general fund budgeted expenditures. During fiscal 2017, the unassigned fund balance of the City's general fund increased by \$4,080,777. This is a 22.07% increase from the prior year unassigned fund balance.

Proprietary Funds:

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position of the Sewer Department amounted to \$102,463,344. The funds invested in capital assets total \$93,482,933, restricted funds total \$5,473,902, and unrestricted net position totals \$3,506,509. This year Sewer's unrestricted net position continued to increase.

The net position of the Sewer Assessment Fund totaled \$5,363,582. This entire amount is unrestricted.

The net position of the Water Department totaled \$9,534,899. Of this, \$11,198,672 represents the investment in capital assets while the unrestricted portion totals (\$1,663,773). During fiscal 2017 Water's net position increased by \$2,192,681.

The unrestricted net position of the workers compensation internal service fund amounted to \$506,065. Net assets increased by \$55,785 due primarily to a decrease in the outstanding claim reserve. The net position of the City's medical healthcare internal service fund totaled \$802,679. The fund's net position balance is primarily composed of cash reserves which were previously held in escrow by health insurers when the City was self-insured, as well as a premium offset credit.

The Warwick School Department's medical healthcare internal service fund reflected a net position balance which totaled \$1,991,478. This balance represents a combination of \$1,434,300 in escrow cash reserves held by the insurers, plus \$1,943,822 in surplus funds (excess of premiums paid vs. claims paid) held by WB Community Health, less outstanding IBNR claims totaling \$1,386,444.

General Fund Budgetary Highlights

During fiscal 2017, the City's original budget of \$298,728,119 was increased by \$3.64 million to \$302,365,132. The following budgetary adjustments were made during the year:

- A budget transfer in the amount of \$3,185,454 represented the re-appropriation of the fiscal 2016 school surplus to the School Department. The prior year education reserve funded this transfer.
- Revenue and expenditure budgets were increased by \$451,559 to reflect additional grant funding received from federal and state government agencies.

Capital Assets and Debt Administration

Capital Assets.

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2017, amounted to \$311,125,510 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery & equipment, roads and construction in progress. During this year, the City's overall investment in capital assets (net of accumulated depreciation) decreased by approximately \$1.6 million.

Major capital asset additions during the current fiscal year included the following:

- 1. Fire Code Improvements-Various City Buildings \$905,551
- 2. School Consolidation Improvements \$4,125,663.
- 3. Sewer Levee Reconstruction Project \$5,093,544.

Additional information on the City's capital assets can be found in Note 9 of the notes to the financial statements of this report.

Long-term Debt.

At the end of the fiscal year, the City had total bonds and loans outstanding of \$145,564,654. It is broken down as follows:

•	General Fund Bonds Payable	\$ 46,554,440.
•	Water Bonds Payable	\$ 91,934.
•	Sewer Bonds Payable	\$ 10,041,626.
•	Sewer SRF Loans Payable	\$ 88,876,654.

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens. During fiscal 2017, the City of Warwick's general fund general obligation debt reflected a net decrease of \$586,663. Sewer debt decreased by \$7,461,384, and water debt decreased by \$27,290.

The City's bond ratings are as follows:

Moody's		A1
Standard	& Poors	AA

State statue limits the amount of bonds a governmental entity can issue to 3% of its total assessed valuation. The current debt limitation for the City is \$281,239,857. As of June 30, 2017 the City's current outstanding general fund debt falls under the debt limitation by \$234,685,417.

Additional information on the City's long-term debt can be found in Note 10 of the notes to the financial statements and in the statistical tables.

Economic Factors and Next Year's Budgets and Rates

- Warwick's average unemployment rate is 4.02%.
- Median family income in Warwick was \$84,421.
- Warwick ranks second in population among Rhode Island's 39 cities and towns.

The following factors were considered in preparing the City's operating budget for the 2017-18 fiscal year.

- The School Department budget will increase to \$162.2 million.
- The City's health care coverage will be administered by WB Community Health.
- Initially \$1.3 million was drawn from the City's fund balance and designated for the FY2018 operating budget.
- Subsequently an additional \$3.0 million was drawn from the fund balance and allocated to the School Department following the settlement of a new teachers' contract.

Currently, the unassigned fund balance in the general fund totals \$22,566,957. While the City has maintained its commitment toward ensuring a steady growth for the City surplus, it has sometimes been necessary to utilize part of this surplus to ease the burden on its taxpayers. This was the case with the fiscal 2018 budget - part of the fund balance was drawn to achieve a zero tax increase budget. In the final fiscal 2018 budget, the tax rate for residential property remained constant at \$20.24, the commercial and industrial tax rate remained constant at \$30.36, and the tangible personal property rate remained constant at \$40.48. Per Rhode Island law, the inventory tax was phased out and the motor vehicle tax rate remained constant at \$34.60.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to the Controller, City of Warwick Treasurer's Office, 3275 Post Road, Warwick, RI 02886-7145.

CITY OF WARWICK, RHODE ISLAND BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED) JUNE 30, 2017

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position (Exhibit I) are different because of the following:

Fund balances - total governmental funds (Exhibit III)

\$ 42,762,384

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Governmental capital assets
Less accumulated depreciation
Net capital assets

422,904,153 (302,043,766)

120.860.387

Other long-term assets and deferred outflows are not available to pay for current-period expenditures and, therefore, are deferred in the funds:

Property tax receivables greater than 60 days	4,232,240
Interest receivable on property taxes	276,978
Other departmental revenues	3,159,809
Deferred outflows related to pensions	78,728,668
Deferred charges on refunding	129,691

Internal service funds are used by management to charge the costs of risk management to individual funds. The assets and liabilities of the internal service funds are reported with governmental activities in the statement of net position.

3,300,222

Long-term liabilities, including bonds payable and deferred inflows of resources are not due and payable in the current period and, therefore, are not reported in the funds:

Bonds payable	(46,554,440)
Unamortized bond issue premium	(1,504,538)
Capital lease	(5,905,962)
Compensated absences	(12,723,194)
Retroactive payroll due in more than one year	(1,198,141)
Interest payable on bonds and loans	(490,625)
Net pension liability	(456,769,388)
Net OPEB obligation	(158,701,793)
Deferred inflows related to pensions	(40,132,952)

Net Position of Governmental Activities (Exhibit I) \$\(\begin{array}{c} (470,530,654) \\ \end{array}

CITY OF WARWICK, RHODE ISLAND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30. 2017

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

Net change in fund balances - total governmental funds (Exhibit IV)

\$ 8,664,140

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

 Capital outlay
 7,159,096

 Depreciation expense
 (7,694,913)

 Loss on disposal
 (75,380)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes collected after 60 days

Property interest and lien revenue - accrual basis change

Other departmental revenues

Deferred outflows related to pensions

(87,468)

(112,468)

(1,522,626)

(8,496,522)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Bonds issued	(4,755,000)
Premium on issued bonds	(488,469)
Bond payments	5,341,662
Capital lease issued	(1,527,826)
Capital lease payments	1,337,388
Accrued interest	145,699

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Amortization of deferred charges in refunding

Deferred inflows related to pensions (23,012,971)Amortization of bond premiums 213,150 Deferred charges on refunding (66,715)Change in compensated absences (239,097)Change in retroactive payroll 65,215 Change in amount due to federal and state government for financing capital asset additions 350,000 Change in net pension liability 18,622,865 Change in net OPEB obligation (18,061,667)

The net expense of the internal service funds is reported with governmental activities. (987,581)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Warwick, Rhode Island (the City) have been prepared in conformity with principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing government and financial reporting principles. The following notes to the basic financial statements are an integral part of the City's Comprehensive Annual Financial Report.

A. Reporting Entity

The City was established in 1642 and incorporated in 1931. In some matters, including the issuance of short- and long-term debt, the City is governed by the general laws of the State of Rhode Island. The City operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police, fire and inspections), public works (sanitation, highways and streets, engineering and building maintenance), education, parks and recreation, social services, and general administrative services.

The City complies with generally accepted accounting principles (GAAP). GAAP include all relevant Government Accounting Standards Boards (GASB) pronouncements. In the government-wide statement of net assets and statement of activities, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Enterprise funds also apply the same principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the City applied the criteria prescribed by GASB Statement No.61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- The primary government is legally entitled to or can otherwise access the organization's resources.
- The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- The primary government is obligated in some manner for the debt of the organization.

The following entities were considered for classification as component units for fiscal year 2016:

Warwick School Department

Although Warwick School Department met certain criteria of the tests listed above, it is not deemed to have separate legal status apart from the City. As a result, the financial data of the Warwick School Department has been included as a major special revenue fund within the City's financial statements.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and statement of activities report information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues and expenditures. Funds are organized into three major categories: governmental, proprietary and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements. A fund is considered a major fund if it is the primary operating fund of the City or meets the following criteria:

- Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures of the individual, governmental fund or enterprise funds are at least 5% of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

The *General Fund* is the City's primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

The *Special Revenue Funds* are used to account for the proceeds of specific revenue sources that are committed or restricted to expenditures for specific purposes other than debt service or capital projects.

The Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The *Permanent Funds* account for assets held by the City pursuant to trust agreements. The principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

The Proprietary Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the proprietary funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenue. Operating expenses for the enterprise funds includes costs of providing services, including administration and depreciation on capital assets. All other expense items not meeting the above criteria are reported as non-operating expenses. The City has three internal service funds which are used to pay insurance expenses relating to workers and employee fringe benefits claims.

The *Agency Funds* account for assets held by the City in a purely custodial capacity for various student groups, funds held in probate and funds held in escrow for other parties.

The *Pension Trust Funds* account for the funding and payment of pension benefits provided to police officers, fire fighters and municipal and school employees.

The *Private Purpose Trust Funds* account for resources legally in trust held by the City under various trust arrangements for the benefit of certain individuals and groups.

Major Funds

The City reports the following major funds:

Fund	Brief Description
Governmental	
General Fund:	See above description
School Unrestricted Fund:	The fund is used to report all financial transactions of the City of Warwick's School Department, which are not legally required to be accounted for separately. The set aside funds: School Debt Service Fund, Early Childhood, Literacy, Student Equity, Language Assistance, Technology, Building Use, Adult Continuing Education, Athletic Gate Receipts. Summer School and Commercial Foods are included in this fund.
Proprietary	
Sewer Fund:	Accounts for sewer use fees and the expenses associated with providing sewer services to City residents.
Sewer Assessment Fund:	Accounts for special assessments related to the construction of the City's sewer system, which are payable over 20 years.
Water Fund:	Accounts for water use fees and the expenses associated with water services to City residents.

Measurement Focus

On the government-wide statement of net position and the statement of activities both governmental and business-like activities are presented using the economic resources management focus as defined in item (b) below and the accrual basis of accounting. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- All governmental funds utilize a "current financial resources" measurement focus and the modified
 accrual basis of accounting. Only current financial assets, deferred outflow of resources, liabilities and
 deferred inflow of resources are generally included on their balance sheets. Their operating statements
 present sources and uses of available spendable financial resources during a given period. These
 funds use fund balance as their measure of available spendable financial resources at the end of the
 period. The City considers property taxes as available if they are collected within 60 days after year
 end.
- The proprietary funds and private purpose trust funds utilize "economic resources" measurement focus
 and the accrual basis of accounting. The accounting objectives of this measurement focus are the
 determination of net income, financial position and cash flow. All inflows of resources associated with
 their activities are reported. Fund equity is classified as net position.
- Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide statement of net position and statement of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets used. Revenues, expenses, gains, losses, assets, deferred outflow of resources, liabilities, and deferred inflow of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues such as property taxes, are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, private purpose trust funds, police, fire & city and school employees' pension trust funds, and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded as when the liability is incurred or the economic asset is used.

Amounts reported as program revenues include, charges to customers or applicants for services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with proprietary fund's principal operation. The principal operating revenue of the enterprises fund are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise fund include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as nonoperating revenues and expenses.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

C. Cash

Cash and cash equivalents are carried at cost. Cash equivalents include amounts invested in certificate of deposits as management believes that these certificates can be accessed at any point in time. Substantially, all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public institutions are required to insure accounts which hold public funds in excess of the \$250,000 which is guaranteed by FDIC. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

D. Investments

Investments are reported at fair value. Investments are disclosed in accordance with GASB Statement No. 40, *Deposits and Investments Risk Disclosures*.

E. Accounts and Taxes Receivable

Receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes, other receivables and intergovernmental receivable. Business-type activities report service fees as its major receivables.

Accounts receivable and taxes receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables. In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes collected within 60 days of year-end, grants, and other similar intergovernmental revenues since they are usually both measureable and available. Nonexchange transactions earned/measureable but not yet available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivables are based upon historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts receivable amounted to \$11,546,158 for the general fund and \$499,191 for business-type activities at June 30, 2017.

Major receivable balances for the governmental activities include property taxes, amounts due from federal and state government and other receivables (49% of total government receivables). Business-type activities report service fees as its major receivables.

F. Unbilled Services Receivable

Sewer and water revenue is recorded when earned. Customers are billed quarterly. The estimated value of services provided, but unbilled at year-end has been included in the accompanying financial statements.

G. Property Taxes

Real and personal property taxes are based on values assessed as of each December 31 (lien date) and attach as an enforceable lien on property as of July 1 (levy date). Taxes are due in equal quarterly installments on July 15, October 15, January 15 and April 15 annually. Taxes due and unpaid after the respective due dates are subject to interest rate at the rate of 12% per annum, calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of levy. Property tax revenues are recorded in accordance with the modified accrual basis of accounting in the fund financial statements.

H. Inventory

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory consists primarily of materials and supplies. Inventory maintained in governmental funds are recorded as expenditures when at the time of purchase.

I. Capital Assets

The accounting treatment for property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

The government-wide financial statements include all infrastructure assets in accordance with GASB Statement No. 34.

Depreciation of all exhausted capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net Position.

Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Description	Useful Life
Land improvements	20 years
·	20 years
Buildings	50 years
Roads and resurfacing	20 years
Bridges	50 years
Traffic signals	10 years
Main extensions	75 years
Pumping stations and hydrants	50 years
Wastewater collection system	50-75 years
Meters	20-40 years
Distribution lines	65 years
Machinery, equipment and furniture	5-30 years
Vehicles	5-8 years

Government-Wide Financial Statements

All capital assets are value at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets, which are being recorded at their estimated fair value at the date of donation. Capital assets that are not being depreciated are placed in service using the replacement method of cost for any new assets and the expense is charged to depreciation.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide financial statements.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension in the government- wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The City reports advance property tax collections in the government-wide statement of net position and in the governmental funds balance sheet. The City also reports deferred inflows of resources related to pensions in the government-wide statement of net position. Advance property tax collections represent taxes inherently associated with a future period. This amount is recognized during the period in which the revenue is associated. A deferred inflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). In addition, for governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, other City billings and solid waste management receivables. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

K. Inter-fund Transactions

Inter-fund activity within and among the funds of the City have been classified and reported as follows:

Reciprocal Inter-Fund Activities

Inter-fund loans are reported as inter-fund receivables in the lending fund and inter-fund payables in borrower funds.

Inter-fund services are reported as revenues in the seller fund and as expenditures on expenses in the purchasing fund.

Non-Reciprocal Inter-Fund Activities

Inter-fund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers are reported after nonoperating revenues and expenses.

Inter-fund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.

Inter-fund transactions are accounted for as expenditures/expenses when they constitute reimbursements from one fund to another. These transactions are accounted for as expenditures/expenses in the reimbursing fund and are recorded as reductions of expenditures/expenses in the fund receiving the reimbursement. All other inter-fund transactions are reported as transfers.

L. Taxes Collected in Advance

Tax collected in advance pertains to property taxes levied on June 30, 2017 (for fiscal year 2018) and paid prior to June 30, 2017. These advance payments could not be recognized as revenue in fiscal year 2017 and instead were reported as deferred inflows at June 30, 2017.

M. Self-Insurance

The City's self-insurance costs for health and general liabilities are accounted for in the City's internal service funds. Claims incurred but not paid, including those which have not been reported, are accounted for as expenses and accrued claims in those funds when incurred.

N. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds. Open encumbrances at year-end are reported as restricted, committed or assigned, and should not result in separate display of the encumbered amount within those classifications. Encumbrances do not constitute expenditures or liabilities under generally accepted accounting principles.

O. Net Position/Fund Balance Classifications

Government-Wide Statements

Net position is classified as net assets and displayed in three components:

- Net investment in capital assets, net of related debt consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bond, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, laws/regulations of other governments, law through constitutional provisions, or enabling legislation.
- Unrestricted net position All remaining net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements

Governmental fund equity is classified as fund balance in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. These categories are described below:

- Nonspendable Includes the amount of fund balances that cannot be spent because it is either not in spendable form or legally or contractually required to be maintained intact.
- Restricted Includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balance Includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The City Council is the highest level of decision-making authority and utilizes City Ordinances as a formal procedure to commit fund balance. In addition, the passage of the budget by the taxpayers at the annual financial City meeting is considered the commitment of funds for the line items included in the fiscal budget.
- Assigned Fund Balance Includes amounts that are constrained by the government's intent to be used
 for specific purposes, but are neither restricted nor committed. The intent should be expressed by the
 governing-body itself or a body (a budget or finance committee) or official to which the governing-body
 has delegate the authority to assign amounts to be used for specific purposes. The Mayor through the
 City Council has the authority to assign fund balance. Fund balance assigned by the Finance Director
 is documented through issuance of a memorandum
- Unassigned Fund Balance Is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The unassigned fund balance may also include negative balances for any governmental funds if the expenditures exceed amounts restricted, committed, or assigned for specific purposes.

Application of Funds

The following policy has been established by the City in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No., 54, Fund Balance Reporting and Governmental Funds Definitions. The policy is created in consideration of unanticipated events that could adversely affect the financial condition of the City and jeopardize the continuation of necessary public service. The policy ensures that the City maintains an adequate fund balance and reserves in order to:

- Provide sufficient cash flow for daily financial needs
- Provide funds for unforeseen expenditures related to emergencies
- Offset significant economic downturns or revenue shortfalls
- · Maintain investment grade bond ratings

The City maintains a spending policy in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy states when an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, it shall be the policy of the City is to consider restricted amounts to have been used first. When expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City that committed funds would be spent first, followed by assigned amounts and then unassigned amounts.

Proprietary fund equity is classified the same as in the government-wide statements.

P. Judgments and Claims

Liabilities for legal cases and other claims against governmental funds are recorded when the ultimate liability can be estimated and such cases are expected to be liquidated with expendable available financial resources. Proprietary fund types record these liabilities using the accrual basis of accounting.

Q. Compensated Absences

Under the terms of various contracts and agreements, City employees are granted vacation, sick and personal leave in varying amounts based on length of service and bargaining unit. Unused vacation leave is paid upon an employee's termination. Up to one-half of unused sick-leave is paid upon termination, retirement or death depending on bargaining unit. Severance pay and personal days are also paid to terminating employees depending on bargaining unit. The liability is calculated at the rate of pay in effect at June 30, 2017. The City estimates the long-term versus short-term amount of earned but unpaid vacation and sick leave relating to governmental fund employees and records it in the applicable section of the liabilities in the government-wide financial statements.

R. Recent Accounting Pronouncements

Effective for the fiscal year ended June 30, 2018, the City will be required to adopt the provisions of Statement No. 75 of the Government Accounting Standards Board, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, GASB 75. GASB 75 establishes standards for measuring and recognizing liabilities, deferred inflows of resources, deferred outflows of resources, and expenditures related to other postemployment benefits (OPEB) administered through trusts or equivalent arrangements. GASB 75 identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Additionally, GASB 75 will require more extensive footnote disclosures in the financial statements. The effect of GASB 75 adoption on the City's financial statements has not yet been determined.

Effective for the fiscal year ended June 30, 2018, the City will be required to adopt the provisions of Statement No. 82 of the Government Accounting Standards Board, *Pension Issues - an Amendment of GASB Statements No. 67, No. 68 and No. 73*, GASB 82. GASB 82 addresses the presentation of payroll-related measures in required supplementary information, the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and the classification of payments made by employers to satisfy employee contribution requirements. The effect of GASB 82 adoption on the City's financial statements has not yet been determined.

S. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's various pension plans (described in greater detail in Note 14) and additions to/deductions from the pension plans net position have been determined on the same basis as they are reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. OPEB

The net OPEB obligation represents the cumulative difference between the annual OPEB cost and the City's contributions to the plan. These amounts are calculated on an actuarial basis and are recorded as noncurrent liabilities in the government-wide financial statements.

U. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data and Budgetary Compliance

In accordance with the Warwick City charter, the City has formally established budgetary accounting control for the General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. The General Fund is subject to an annual operating budget submitted and recommended by City Mayor and adopted by the City Council. The City Council must hold a public hearing on the budget prior to adoption and may make changes to the budget. The General Fund Budget must be adopted no later than June 15. Should the City Council take no formal action on or prior to such day, the budget as submitted by the Mayor, shall be deemed to have been finally adopted by the City Council. The School Unrestricted Fund is subject to an annual operating budget provisionally approved by the School Committee, forwarded to the Mayor, for his review and possible amendment, with final adoption by the City Council. The annual operating budgets; appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The City's General Fund and School Unrestricted Fund annual operating budgets are in conformance with the legally enacted budgetary basis, which is not in conformance with accounting priniciples generally accepted in the United States of America. The accompanying budgetary comparison schedules are reflected on the budgetary basis. The difference between the budgetary basis and the accounting principles generally accepted in the United States of America basis is explained below.

The City of Warwick makes use of an encumbrance system. Encumbrances are commitments related to unperformed contracts for goods and services. When a purchase order or commitment is placed, the City reduces the amount of the budgetary authority remaining in a budget category and records an encumbrance. When goods or services are received, the encumbrance balance is reduced and an expenditure and liability is recorded. The City's outstanding encumbrances at year-end are carried forward as a component of committed fund balance.

Appropriations in addition to those contained in the annual operating budgets, except for the purpose of meeting a public emergency, are made upon the recommendation of the City Mayor and by a resolution adopted by the favorable votes of at least five members of the council. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Director of Finance, subject to approval of the Mayor, may at any time transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department or agency. At the request of the Mayor and within the last three months of the fiscal year, the Council may by resolution transfer any unencumbered appropriation balance or portion thereof from one office, department or agency to another. The level at which General Fund expenditures may not legally exceed appropriations is at the department level. The Schools Unrestricted Fund, a Special Revenue Fund, does not have a legal level of control over expenditures, except that total expenditures may not exceed available revenues. Appropriations which are not expended or encumbered lapse at year end.

B. Excess of Expenditures over Appropriations

For the year ended June 30, 2017, expenditures exceeded appropriations in the following categories:

Probate court	\$ 7,329
City tax collection	125,464
Fire department	601,021
Organized crime/drug enforcement task force	8,638
Alcohol and highway safety enforcement	5,291
Fire grants	60,205
Emergency management	106,685
Board of public safety	906
William Thayer memorial ice rink	95,910
Administrative division	14,669
Engineering division	164,951
Insurance	127,157
Postage	3,746
Fixed costs	75,510
Pension	513,691

3. DIFFERENCES BETWEEN GOVERNMENTAL FUNDS AND GOVERNMENT-WIDE STATEMENTS

Total fund balances of the City's governmental funds of \$42,762,384 differs from net position of governmental activities of (\$470,530,654) reported in the statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

		Total Governmental Funds	Long-Term Assets/ Liabilities (1)	Reclassifications and Eliminations (2)	Statement of Net Position
Assets:					
Cash and cash equivalents	\$	34,778,410 \$;	\$ 640,066 \$	35,418,476

Deferred Outflows of Resources:					
Deferred charges on refunding			129,691		129,691
Deferred outflows - related to pensions			78,728,668		78,728,668
Total deferred outflows of resources		- -	78,858,359		78,858,359
Liabilities and Fund Balances:					
Liabilities:					
Cash overdraft		1,000,652			1,000,652
Accounts payable and accrued expenses		16,623,989		1,550,645	18,174,634
Accrued interest payable			490,625		490,625
Due to federal and state governments		171,667			171,667
Internal balances		23,514,254		(23,514,254)	
Unearned revenue				2,767,534	2,767,534
Long-term liabilities:					
Due within one year			7,919,191		7,919,191
Due in more than a year			675,438,265		675,438,265
Other liabilities		5,291,902			5,291,902
Total liabilities		46,602,464	683,848,081	(19,196,075)	711,254,470
Deferred Inflow of Resources:					
Unavailable revenue - taxes		4,232,240	(4,232,240)		
Unavailable revenue - other		6,056,148	(3,288,614)	(2,767,534)	
Advance tax collections		1,456,551			1,456,551
Deferred inflows - related to pensions			40,132,952		40,132,952
Total deferred inflows of resources		11,744,939	32,612,098	(2,767,534)	41,589,503
Fund Balances:					
Total Fund Balances/Net Position	\$	42,762,384 \$	(516,593,260)	\$ 3,300,222 \$	(470,530,654)

The "net change in the fund balances" for governmental funds \$8,664,140 differs from the "change in net position" for governmental activities (\$25,229,488) reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

		Total Governmental Funds		Long-term Revenues/ Expenses & Reclassifications (1)	Capital- related Items (2)		Internal Service Fund (3)	Long-term Debt Transactions (4)		Statement of Activities Totals
Revenues:										
General property taxes	\$	231,148,289	\$	(87,468) \$		\$	\$;	\$	231,060,821

4. CASH DEPOSITS WITH FINANCIAL INSTITUTIONS

A. Deposits

Substantially, all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by FDIC. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

B. Deposit Custodial Credit Risk

Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the City's deposits may not be returned. The State of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The City does not have a formal deposit policy for custodial credit risk, but is governed by State laws as described above.

As of June 30, 2017, the City's entire bank balance of \$68,359,973 was covered by either FDIC insurance or collateral held in the City's name.

C. Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. As of June 30, 2017, the cash equivalent amounted to \$3,536,053. The cash equivalents consisted of money market type mutual funds held at banking institutions and were not rated.

5. INVESTMENTS

The City invests in various types of investments, which are stated at fair value, except for nonparticipating interest earning investment contracts, which are recorded at amortized cost. By Charter the Finance Director and Treasurer have the authority to make investments subject to rules and regulations that the City Council may prescribe by ordinance. The Finance Director shall have the authority to purchase and invest prudently in the following investments for funds other than pension funds:

- Obligations of the United States government, and its agencies and instrumentalities.
- Certificates of deposit and other evidence of deposit at banks, credit unions, and savings and loan associations with offices in the State.
- Bankers' acceptance of banks with offices in the State.
- Commercial paper of banks with offices in the State.
- Repurchase agreements whose underlying collateral consists of U.S. government agency securities
 and U.S. government sponsored corporations, plus the above, and which are offered by banks with
 offices in the State.
- Money market funds whose portfolios consist of the above instruments, and any other investments specifically approved by the City council.
- No-load open-end diversified management investment companies incorporated under Rhode Island General Laws designed exclusively for all State government entities, agencies and instrumentalities.

Interest Rate Risk

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The City has no investments that are subject to interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The City has no formal investment policy that limits investment choices for its pension funds.

Concentration of Credit Risk

The City does not have a formal investment policy that limits the amount that can be invested with one issuer. Currently, the City has no investments, to which this requirement applies, in any one issuer that represents more than 5% of the total investments.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of financial institution failure, the City's deposits and/or investments may not be returned. The City does not believe that it has significant custodial credit risk as substantially all investments securities are registered and held in the name of the City. Additionally, the City places deposits in financial institutions that are FDIC insured up to \$250,000, rated "well capitalized" on its most recent audited financial statement/SEC filings if deposits exceed engage an outside rating agency to determine status of the institution. The City also ensures that all uninsured deposits greater than \$250,000 are collateralized.

The following is a schedule of the City's Investments by classification:

				Investm	ent Maturities (Y	ears)
	_	Fair Value		Less than 1	1-10	More than 10
Interest-bearing investments at fair value: Fixed income securities	\$	54,832,501	\$_	556,158 \$	36,388,072 \$	17,888,271
Equity investments Mutual funds Index funds Group annuity contracts	_	86,627,115 275,935,282 78,325,038 4,615,800	_			
Total Investments	\$_	500,335,736	=			

Presented below is the ratings of the City's fixed income securities:

Average Rating	_	Fixed Income Securities
Aaa Aa2 Aa3 A1 A2 A3 Baa1 Baa2 Baa3 Ba1	\$	28,181,365 320,456 464,944 917,729 1,665,522 2,864,000 6,298,658 4,129,546 2,247,751 946,884 6,795,646
	\$_	54,832,501

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The City has the following recurring fair value measurements as of June 30, 2017:

		Fair Value		Level 1		Level 2		Level 3
Investments by fair value level:			_					
Fixed income securities	\$	54,832,501	\$		\$	54,832,501	\$	
Equity investments		86,627,115		86,627,115				
Mutual funds		275,935,282		275,935,282				
Index funds		78,325,038		78,325,038				
Group annuity contracts	_	4,615,800					_	4,615,800
Total Investments by Fair Value	\$_	500,335,736	\$_	440,887,435	\$_	54,832,501	\$	4,615,800

6. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Legal Debt Margin

The City's legal debt margin as set forth by the State Statute is limited to 3% of total taxable assessed value, which approximates \$281,239,857. As of June 30, 2017, the City's debt applicable to the debt limitation is under the debt limit by \$234,685,417. All other City debt has been incurred through special statutory authority which consists of approval by the legislature and voter referendum.

7. PROPERTY TAXES

The City is responsible for assessing, collecting and distributing property taxes in accordance with enabling state legislation.

Net property taxes levied for the fiscal year 2017 were based on a gross assessed value of approximately \$9,767,709,331 less exemptions of \$393,047,437 for a net assessed valuation of \$9,374,661,894 at December 31, 2015 and amounted to a levy of \$233,268,842. After abatements and adjustments, the net levy amounted to \$231,933,541. Collections through June 30, 2017 amounted to \$228,316,990, which represents approximately 98.0% of the adjusted tax levy.

The City recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the Codification of Governmental Accounting and Financial Reporting Standards on the fund statements. Unpaid property taxes as of June 30, 2017 amount to \$16,949,327 and are recorded as a receivable, net of an allowance for uncollectible property taxes of \$11,546,161.

Those net property taxes receivable, which were not collected within the 60 days immediately following June 30, 2017 are recorded as deferred and amounted to \$4,232,240. Property taxes recognized as revenue on the fund statements for the fiscal year ended June 30, 2017 (due to their collection within the 60 days immediately following June 30, 2017) amounted to \$1,170,926. Taxes are due in equal quarterly installments on July 15, October 15, January 15 and April 15 during fiscal year.

8. RECEIVABLES

Below is the detail receivables as of year end for each major fund and the aggregate remaining funds, including the applicable allowances for uncollectible accounts:

		General	 School Restricted Fund	 Sewer Fund		Sewer Assessment Fund	_	Water Fund	_	Nonmajor and Other Funds		Total
Receivables:

Payments on the bonds and capital leases payable that pertain to the City's Governmental Activities are made by the Debt Service Fund. The compensated absences liability attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The net pension obligation and net other post-employment benefits obligation attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The accrued retroactive payroll will be paid by the School Unrestricted Fund.

School RIHEBC Bonds

The proceeds from the bonds were used to finance the acquisition, construction, furnishing and equipping of schools and school facilities, including but not limited to various school renovation projects, and to pay the costs of issuance. The \$3,908,000 bond and \$4,212,000 bond require sinking fund deposits to be held on deposit by the trustee and will be paid to the bondholders in full May 2027 for both bonds. While these sinking fund deposits do not allow the City to present these payments as retirements of the respective debt, the City has effectively accumulated \$3,045,000 to retire the debts in 2027. These restricted funds are shown as restricted fund balance within the debt service fund.

The future sinking fund deposit required to amortize the 2010 Revenue Bonds of \$3,908,000 and \$4,212,000 are as follows:

	\$3,908,	000 Revenue Bo	nd		212,000 Revenue I	Bond

D. Loans Payable

The City has entered into nineteen loan agreements with the Rhode Island Infrastructure Bank, formerly known as Rhode Island Clean Water Finance Agency. The loan proceeds are to be used by the City for the extension and upgrade of the City's sewer system. The Bank advances loan proceeds to the City periodically to reimburse the City for capital costs incurred on the projects. The following loan agreements were active as of June 30, 2017:

			Interest				
Agreement Date	Agreement Date		Rate	Maturity Dates			
June 26, 1998	\$	10,200,000	2.57%	September 1, 1999-2019			
August 25, 1999		14,750,000	2.84%	September 1, 2002-2019			
December 19, 2000		20,232,323	2.90%	September 1, 2001-2020			
April 25, 2002		12,000,000	1.25%	September 1, 2002-2022			
October 24, 2002		20,000,000	1.00%	September 1, 2004-2022			
November 13, 2003		20,000,000	1.34%	September 1, 2005-2024			
December 30, 2004		20,000,000	1.40%	September 1, 2006-2025			
December 15, 2005		5,000,000	1.41%	September 1, 2007-2026			
December 21, 2006		9,500,000	1.27%	September 1, 2008-2027			
December 12, 2007		6,942,000	1.185-1.645%	September 1, 2009-2028			
April 30, 2008		4,000,000	4.85%	September 1, 2009-2028			
October 6, 2009		1,169,026 *	2.16%	September 1, 2010-2029			
June 26, 2012		2,400,000	3.29%	September 1, 2012-2022			
March 6, 2014		7,000,000	2.71%	September 1, 2014-2034			
March 31, 2015		3,500,000	1.95%	September 1, 2015-2034			
July 30, 2015		10,574,900	2.16%	September 1, 2015-2034			
June 2, 2016		8,000,000	1.74%	September 1, 2016-2035			
April 13, 2017		3,730,000	1.90%	September 1, 2018-2037			

^{*}SFR/Stimulus Loan is shown net of \$178,601 principal forgiveness the City pays an additional 0.5% finance fee on all loans except for the loan dated April 30, 2008

The loan proceeds are to be used by the City for the extension and upgrade of the sewer system. The Bank pays project invoices certified by the City directly to the contractors or reimburses the City for costs incurred on the projects. As of June 30, 2017, loans payable of \$88,876,654 are reflected in the Sewer Fund. A due from the Rhode Island Infrastructure Bank of \$13,884,097 is shown for that portion of the loans, which has not been advanced as of June 30, 2017. The City is responsible to draw down and to repay the full amount of the loan.

The debt service through maturity for the above loans is as follows:

Fiscal Year Ending June	 Principal	Interest	
2018	\$ 9,473,886	\$ 2,004,847	
2019	9,839,149	1,841,348	
2020	10,046,111	1,611,013	
2021	8,543,796	1,399,396	
2022	7,378,378	1,229,951	
2023-2027	25,481,456	4,138,544	
2028-2032	10,857,978	1,931,518	
2033-2037	7,255,900	415,266	
	\$ 88,876,654	\$ 14,571,883	

Interest, at the fixed rates indicated above, is calculated monthly based on the loan balances outstanding. The City has not completely drawn down all of the loans as of June 30, 2017. The interest through maturity shown above is based upon estimated amortization schedules prepared by Rhode Island Infrastructure Bank. The Rhode Island Infrastructure Bank loans dated December 30, 2004, December 15, 2005, December 21, 2006, December 12, 2007, April 30, 2008, October 6, 2009, June 26, 2012, March 6, 2014 and March 31, 2015, July 30, 2015, June 2, 2016, and April 13, 2017 are revenue loans. The revenue loans are secured by the revenues derived from the operation of the City's wastewater collection system.

E. Debt Service Requirements

The City's business-type debt service requirement relating to outstanding bond and loan obligations consist of the following:

					Debt
Fiscal Year Ending June		Principal		Interest	 Service
2018	\$	10,987,977	\$	2,272,543	\$ 13,260,520
2019		11,150,955		2,067,807	13,218,762
2020		11,395,411		1,805,499	13,200,910
2021		9,925,456		1,562,779	11,488,235
2022		8,594,962		1,362,465	9,957,427
2023-2027		28,841,576		4,333,300	33,174,876
2028-2032		10,857,977		1,931,519	12,789,496
2033-2037		7,255,900		415,266	 7,671,166
			_		
	\$_	99,010,214	\$_	15,751,178	\$ 114,761,392

F. Bonds Authorized but Unissued

The following table sets forth amounts, purposes and statutorily authorized, but unissued general obligation debt of the City.

Purpose	Statutory Authorization		Authorized But Unissued Debt
Incinerator purposes	P.L. Ch. 33-1966	\$	1,900,000 *
Energy conservation	P.L. Ch. 65-1980		600,000
Sewer improvements	P.L. Ch. 223-1994		417,677
Open space	P.L. Ch. 77-2000		175,000
Open space	P.L. Ch. 125/479-2006		2,000,000
Recreation	P.L. Ch. 77-2000		500,000
Parks and recreation	P.L. Ch. 74/147-2006		3,500,000
Drainage	P.L. Ch. 78-2002		3,000,000
Building repairs	P.L. Ch. 426/527-2006		5,500,000
Mickey Stevens Sports Complex	P.L. Ch. 385-2006		7,000,000
School renovations	P.L. Ch. 386/516-2006	_	4,460,000
		\$_	29,052,677

^{*} The City does not plan to issue the \$1,900,000 authority for incinerator purposes

G. Capital Lease Commitments

The City's capital lease program consists of two leases for the purchase of various vehicles and equipment valued at \$8,742,878. Depreciation expense for the year on those assets was \$1,044,941. The City may purchase leased vehicles and equipment as set forth in the lease agreements. Leases are renewed annually based on the City's appropriation of funds sufficient to pay the obligations under the lease agreements.

Obligations of Governmental Activities under capital leases at June 30, 2017 were as follows:

Fiscal Year Ending June 30,	_	Lease Payment Required
2018	\$	1,472,655
2019		1,472,655
2020		1,123,854
2021		695,094
2022		357,678
2023-2026		1,180,249
Future minimum rental commitments	•	6,302,185
Interest portion of payments		396,223
·	•	
Principal Portion of Payments	\$	5,905,962

11. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances represent short-term advances from one fund (primarily the General Fund) to another fund. The advances may represent balances resulting from operating advances or reimbursement for expenditures paid by one fund or may simply be the result of pooling financial resources to maximize income. The composition of interfund balances at June 30, 2017 is as follows:

	_	Due From Other Funds		Due To Other Funds
General Fund	\$_	17,981,824	\$_	18,740,622
School Unrestricted Fund	-	14,671,718		2,178,124
Nongovernmental Funds:				
Special detail fund		191,231		
City Clerk restricted fund		1,002,860		
Emergency operations - City		253,413		
Warwick Public library restricted fund		8,378

12. FUND BALANCES

As stated in Note 1, fund balance may be classified as one of five categories: nonspendable, restricted, committed, assigned or unassigned. See Note 1 of these financial statements for definitions of these five fund balance categories. The detail of the composition of nonspendable, restricted, committed and assigned fund balance follows.

	_	General	School Unrestricted Fund	_	Nonmajor Governmental Funds	Total Governmental Funds
Fund balances:						
Nonspendable for:						
Prepaid expenses	\$	249,434	\$	\$		\$ 249,434
Restricted for:						
Subsequent year's budget		1,295,271				1,295,271
Entitlement Community program of U.S. Housing					497,971	497,971
CDBG Seed program					13,340	13,340
Drug related property seizure					155,409	155,409
Open space acquisition					295,873	295,873
Library operations					101,826	101,826
Pilgrim Senior Center					26,863	26,863

Debt service					3,045,000	3,045,000
Committed for:						
Education		4,218,671				4,218,671
Other		690,286				690,286
Unassigned	_	22,566,957		-		22,566,957
Total Fund balances	\$_	29,020,619		\$	13,741,765	\$ 42,762,384

Encumbrances totaling \$454,562 are included in the "committed other" line in the General Fund.

13. INTER-FUND TRANSFERS

The principal purpose of inter-fund transfers is to provide a financing source to various funds that may not have the ability to cover all costs with revenue generated by the fund. The composition of inter-fund transfers for the year ended June 30, 2017 is as follows:

	_	Transfers In	_	Transfers Out
Major Funds:				
•	\$	771,231	\$	128,876,412
School unrestricted fund		121,449,247		1,734,481

Total	\$_	151,745,092	\$_	151,745,092

14. DEFINED BENEFIT PENSION PLANS

A. City Employees' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The City Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City Employees' Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City Employees' Pension Plan covers all City employees not covered by other plans. Nonelected employees are eligible to participate after six months of employment. Elected officials are eligible on the date they assume their elected position. The City Employees' Pension Plan is a single employer defined benefit pension plan that was established in 1965. The Municipal Retirement Board is responsible for the administration of the plan. The Board is comprised of (11) members consisting of the City's Finance Director, Personnel Director, Municipal Union President, Chairperson of the City Finance Committee, (1)

Union Employee, (1) Non-Union Employee, (1) Municipal Retiree, and (4) Members of the Public. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the City Employees' Pension Plan.

As of July 1, 2016, employee membership data related to the pension plan was as follows:

Active Plan Members	369
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	369
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	28
	766

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have attained age 65 and have reached their fifth anniversary of participation may retire. The normal monthly retirement benefit is equal to 2.5% of their final average monthly compensation multiplied by years of creditable service. Final average monthly compensation is onetwelfth of the average of the highest three consecutive years of base compensation. However, no elected member will receive less than one-twelfth of the sum of \$1,500 plus \$200 multiplied by years of creditable service; the sum not to exceed \$5,500. Effective September 1, 1994, the plan compensation is equal to the sum of base compensation and longevity pay. Eligibility for early retirement is after age 55 with at least 10 years of creditable service or any member whose age plus service totals 80 or more. Effective for new hires after July 1, 2012, the eligibility requirement changes to the attainment of age 59 with 25 years of service, or age 65 if vested. Additionally, the monthly retirement benefit decreases to 2% of final average monthly compensation multiplied by years of creditable service. Benefits will be calculated based upon the average of the last three years of service. Effective September 1, 1994, an elected official is eligible upon the attainment of age 55 with at least six years of service. The retirement benefit for early retirement is determined under the normal retirement formula above reduced for commencement prior to age 65. The reduction is equal to 1/2% per month for the first sixty months prior to age 65 plus 1/3% per month in excess of sixty. If the sum of the retired member's years of age plus service is at least equal to 80, there is no reduction for early commencement. The provision for late retirement is continued employment beyond normal retirement. The retirement benefit for late retirement is the same as the normal retirement benefit formula determined as of the member's actual retirement date.

Upon termination of employment, a nonelected member is eligible for a benefit deferred to retirement age after 10 years of creditable service. An elected member is eligible after 6 years of creditable service. The benefit is the same as early retirement. For all members except elected officials, the benefit amount determined under the normal retirement formula is increased by 3% per year between termination and retirement. In lieu of receiving retirement benefits, a member may receive a lump-sum payment of his or her accumulated contributions with interest at any time prior to the commencement of retirement benefits.

A nonelected member who leaves employment prior to completing 10 years of creditable service or an elected member who leaves prior to completing 6 years of creditable service will receive a lump-sum payment of his or her accumulated contributions with interest.

A nonelected member who has completed 10 years of creditable service or an elected member who has completed 6 years of creditable service, and who is totally disabled as determined by the City's medical board is eligible for disability retirement. The disability retirement benefit formula is the same as normal retirement, but reduced by worker's compensation payments.

Any married nonelected member with 10 years creditable service or any married elected member with 6 years of creditable service who dies while still employed after age 50 is eligible for pre-retirement death benefits. The benefit is the same as vested deferred or early retirement with reduction for each month by which benefit commencement precedes age 65 and further reduced to reflect the optional form of payment which provides payments at the same rate to the surviving spouse. A member's surviving spouse may elect to receive a lump sum payment equal to the member's accumulated contributions with interest in lieu of the annuity described above.

Any terminated member with a deferred vested benefit or an active member not eligible for the surviving spouse's annuity described above is eligible for death benefits before retirement benefits equal to one lump sum pay of the member's accumulated contributions with interest.

Effective September 1, 1994, a member may, in lieu of receiving one half of his or her accumulated sick pay in cash at termination or retirement, receive a pension service credit for unused sick pay (6 month maximum).

Contributions

The City's annual contribution to the plan is based upon an actuarially determined amount recommended by an independent actuary. During fiscal 2017, this contribution amounted to 26.12% of covered payroll. In addition, the nonelected plan members contribute 8.5% of their annual base compensation and longevity compensation. Elected plan members contribute 8.5% of their annual base compensation plus \$20.00 per month. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by a majority vote of the Municipal Pension Board members. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long-term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Fixed income core	37.50%	3.90%		
Large cap domestic equity	30.00%	7.80%		
Small cap domestic equity	12.50%	8.25%		
International equity developed	13.75%	7.80%		
International equity emerging	5.00%	8.75%		
Commodities	1.25%	4.65%		

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 12.78%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2017. The components of the net pension liability of the City at June 30, 2017 were as follows:

Total pension liability	\$	170,101,420
Plan fiduciary net position	_	124,934,249
	_	
City's net position liability	\$_	45,167,171
	_	
Plan fiduciary net position as a percentage		
of the total pension liability		73.45%

Actuarial Assumptions

The following actuarial assumptions were used in the actuarial valuation dated July 1, 2016, and were rolled forward to the measurement date of June 30, 2017.

Actuarial cost method Inflation	Entry Age Normal Actuarial Cost Method 2.75%
Salary increases	3.00% to 7.00% including inflation
Investment rate of return	6.90%
Mortality rates	Based upon the RP-2000 Healthy Annuitant Mortality
	Tables for Males and Females, as appropriate, projected
	with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan' fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

		Increase (Decrease)					
	_	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	_	Net Pension Liability (a)-(b)		
Balances as of June 30, 2016	\$_	164,959,238 \$	112,475,888	\$_	52,483,350		
Changes for the year:							
Service cost		3,265,824			3,265,824		
Interest		11,177,444			11,177,444		
Contributions - employer			5,764,819		(5,764,819)		
Contributions - employee			1,765,310		(1,765,310)		
Net investment income			14,263,989		(14,263,989)		
Benefit payments, including refunds of contributions		(9,301,086)	(9,301,086)		-		
Administrative expense			(34,671)		34,671		
Net changes	_	5,142,182	12,458,361	_	(7,316,179)		
Balances as of June 30, 2017	\$_	170,101,420 \$	124,934,249	\$_	45,167,171		

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (5.90%) or 1 percentage point higher (7.90%) than the single discount rate:

		Current					
	_	1% Decrease (5.90%)		Discount Rate (6.90%)	1% Increase (7.90%)		
City Employees' Pension Plan	\$	64,834,203	\$	45,167,171 \$	28,652,511		

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the City Employee Pension Plan recognized pension expense of \$9,182,959. As of June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	· -	Deferred Inflows of Resources
Difference between expected and actual experience Changes of assumptions Net difference between projected and actual	\$ 537,233 4,858,813	\$	301,426
earning on pension plan investments	8,488,199	-	5,251,526
Total	\$ 13,884,245	\$	5,552,952

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,		Net Deferred Outflows (Inflows) Resources
2018	\$	4,169,911
2019		3,985,534
2020		1,488,728
2021	_	(1,312,880)
	\$	8,331,293

B. Police I and Fire Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Police I and Fire Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police I and Fire Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick's Police I and Fire Pension Plan covers all City Police Officers that were appointed before February 1, 1971, and all permanent members of the City's Fire Department appointed before May 29, 1992. The Police I and Fire Pension Plan is a single-employer defined benefit pension plan that was established in 1953. There is no separate financial report issued for the pension plan. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the Police I and Fire Pension Plan.

As of July 1, 2016, employee membership date related to the pension plan was as follows:

Active Plan Members	31
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	404
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	-
	435

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions - Police Officers

Benefits provided to remaining active police officers are in accordance with the City's Code of Ordinances. Retirement, death, and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Benefit Provisions - Firefighters

Participating firefighters in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of highest annual salary plus 1% of salary for each year of service in excess of 20 years (maximum 10). For pension purposes, annual salary includes regular, longevity and holiday pay.

Any firefighter retiring after July 23, 1996 may also irrevocably elect to have his or her pension calculated under the City's Fire II Pension Plan. The Fire II benefit formula is 50% of the final year's compensation. Plus 2% for each year of service from 20 to 25 years, plus 3% for each year of service from 25 to 30 years with a fixed compounded cost of living adjustment.

A participant who is unable to perform active duty as a firefighter, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service related disability retirement benefit for disabilities involving heart, lung, cancer or other social security disabilities is 66 2/3% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The other service related and nonservice related benefit is 50% of annual salary.

A member is eligible for a return of contributions without interest for terminations prior to the completion of 10 years of service. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2 1/2% of annual salary at termination, multiplied by the number of full years of service, payable on the 20th anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For non-service related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service related death is 75% of the deceased member's highest annual salary and for non-service related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Benefits provided to remaining active police officers and firefighters are in accordance with the proposed restatement of Section 15-19 of the City's Code of Ordinances. Retirement, death and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Funding Policy

Active plan members contribute 7% of their covered earnings (regular, holiday and longevity). In addition, the City is required to contribute an actuarially determined amount each year, calculated in accordance with its pension ordinances. The statutory contribution level includes a 40-year amortization of the unfunded actuarial liability as a level percentage of payroll. During fiscal 2017, this contribution amounted to \$17,465,464. Administrative costs are netted against investment return in the actuarial valuation.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Finance Director. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long-term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 14.2%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2017 were as follows:

Total pension liability	\$	294,066,490
Plan fiduciary net position		71,756,352
•	_	
City's net position liability	\$	222,310,138
Plan fiduciary net position as a percentage		
, , ,		24.400/
of the total pension liability		24.40%

Actuarial Assumptions

The following actuarial assumptions were used in the July 1, 2016 valuation and rolled forward to the measurement date of June 30, 2017.

Actuarial cost method	Entry Age Normal Actuarial Cost Method
Inflation	2.25%
Salary increases	3.50% to 13.50% including inflation
Investment rate of return	6.90%
Mortality rates	Based upon the RP-2000 Healthy Annuitant Mortality
•	Tables for Males and Females, as appropriate, projected
	with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

		Increase (Decrease)			
	_	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	_	Net Pension Liability (a)-(b)
Balances as of June 30, 2016	\$_	294,678,763 \$	66,038,452	\$_	228,640,311

C. Police Pension II Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Police II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police II Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick, Rhode Island's Police II Pension Plan covers all City Police Officers that were appointed after February 1, 1971. The Police Pension II Plan is a single-employer defined benefit pension plan that was established in 1971. There is no separate financial report issued for the pension plan. The pension plan is reported as a Pension Trust Fund in the City's financial statements.

The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the Police II Pension Plan.

As of July 1, 2016 employee membership data related to the pension plan was as follows:

Active Plan Members	161
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	174
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	4
	·
	339

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of annual salary at retirement plus incremental increases of 2% per year between the 20th and 25th years, and annual increases of 3% between the 26th and 30th years. For pension purposes, annual salary includes regular, longevity and holiday pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years.

A member who is unable to perform active as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service related disability retirement benefit is 66 2/3% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The nonservice related benefit is 50% of annual salary.

A member who leaves employment prior to completing ten years of service will receive a lump-sum payment of accumulated contributions without interest. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2 1/2% of annual salary at termination, multiplied by the number of full years of service, payable on the 20th anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice related death, the annual benefit is 30% of the deceased member's highest annual salary.

payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service related death is 75% of the deceased member's highest annual salary and for nonservice related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to 1/3 of the actuarially determined contribution rate. The City is required to contribute 2/3 of the actuarially determined contribution rate. For fiscal year 2017, employees were required to contribute 14.21% and the City was required to contribute 28.42% of covered earnings. The statutory contribution level includes a 20, 25 and 30 year amortization of the unfunded actuarial liability as a level percentage of payroll. Administrative costs are netted against investment return in the actuarial valuation.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Finance Director. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long-term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	TargetAllocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 13.2%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2017 were as follows:

Total pension liability	\$ 234,308,479
Plan fiduciary net position	193,183,186

City's net position liability 41.125.293

Plan fiduciary net position as a percentage of the total pension liability

82.45%

Actuarial Assumptions

The following actuarial assumptions, used in the valuation dated July 1, 2016, and rolled forward to the measurement date of June 30, 2017.

Actuarial cost method Entry Age Normal Actuarial Cost Method

Inflation 2.25%

Salary increases 3.50% to 13.50% including inflation

Investment rate of return

Based upon the RP-2000 Healthy Annuitant Mortality Mortality rates

Tables for Males and Females, as appropriate, projected

with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	Increase (Decrease)

D. Fire II Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Fire II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fire II Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and

refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick's Fire Pension II Plan covers all City firefighters who were appointed after May 29, 1992. The Fire Pension II Plan is a single employer defined benefit pension plan that was established in 1992. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate, publicly available report that includes financial statements and required supplementary information (RSI) for the Fire II Pension Plan.

As of July 1, 2016, employee membership data related to the pension plan was as follows:

Active Plan Members	178
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	10
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	
	188

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

A member who has completed 20 years of service may retire. Such member shall receive an annual benefit equal to 50% of their last year's salary, plus 2% of their average salary for each of service from 20-25, plus 3% for each year of service from 25-30. For pension purposes, annual salary includes regular, holiday and longevity pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years. Currently, this new benefit provision is being contested by the Local 2748 International Association of Firefighters AFL-CIO.

A member who is unable to perform active duty as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The annual benefit for a service related disability involving any heart, lung, cancer or other social security disability is 66-2/3% of the member's average salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of salary. The benefit for other service related and nonservice related disabilities is 50% of the member's average salary.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if

such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service related death is 75% of the deceased member's highest annual salary and for nonservice related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Any member who terminates employment with 10 years or more of creditable service, but less than 20 years of creditable service, shall receive an annual benefit commencing at normal retirement age equal to 2.5% of average salary multiplied by full years of service at termination.

Any member who terminates employment prior to the completion of ten years of creditable service will receive a lump sum payment of his or her accumulated contributions without interest.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to 1/3 of the actuarially determined contribution rate. The City is required to contribute 2/3 of the actuarially determined contribution rate. Administrative costs are netted against investment return in the actuarial valuation. For fiscal year 2017, employees were required to contribute 10.72% and the City was required to contribute 21.43% of covered earnings.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Treasurer. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 14.4%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2017 were as follows:

Total pension liability	\$	74,128,449
Plan fiduciary net position		64,558,640
·	-	
City's net position liability	\$	9,569,809
	•	· · · · · ·

Plan fiduciary net position as a percentage of the total pension liability 87.09%

Actuarial Assumptions

The following actuarial assumptions were used in the actuarial valuation dated July 1, 2016 and rolled forward to the measurement date of June 30, 2017.

Actuarial cost method Entry Age Normal Actuarial Cost Method

Inflation 2.25%

Salary increases 3.50% to 13.50% including inflation

Investment rate of return 6.90%

Mortality rates Based upon the RP-2000 Healthy Annuitant Mortality

Tables for Males and Females, as appropriate, projected

with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

E. Warwick Public School Employees' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Warwick Public School Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Warwick Public School Employees' Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due.

Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The Warwick Public School Employees' Pension Plan, a single-employer defined benefit public employee pension plan. There is no separate financial report issued for this plan, however it is audited as part of the City of Warwick's Pension Trust Funds and is reported within the City's Annual Financial Report. All eligible Warwick Public School employees other than teachers are eligible to participate on the first of the month after completing three months of service. A person is eligible if they are a) employed 20 hours or more per week and covered under the collective bargaining agreement, or b) employed 20 hours or more per week in a noncertified management position, or c) an elected School Committee member. There are two committees that oversee the administration of this plan. The Executive Administration Board is comprised of the School's Chief Budget Officer, the Director of Human Resources and the Warwick Independent Employees' Union President. The Executive Administration Board delegates investment responsibilities to the Pension Investment Administration Committee, which is comprised of (2) Warwick Public School Administrative Employees, the Chief Budget Officer, the Controller, and (2) Warwick Independent Employees' Union Representatives, who are appointed by the Union leadership.

As of July 1, 2017, employee membership data related to the pension plan was as follows:

Active Plan Members	311
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	127
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	26
	464

Benefit Provisions

Participants are eligible for normal retirement at the later of age 62 or 10 years of plan participation or at any age upon completion of 32 years of service with 10 years of plan participation. The normal retirement benefit is 1.67% of average monthly earnings times years of participation, plus .33% times the average monthly earnings times years of participation exceeding 20 years. The normal form of benefit is a life annuity. Average monthly earnings are the monthly average of total compensation for the 3 consecutive years of highest compensation over the last 10 years.

The yearly annuity amount for a School Committee member who becomes a retired member is \$1,000 plus 4.8% times the salary amount for each plan year in which one made mandatory employee contributions.

The plan also provides death and disability benefits.

The following table summarizes the plan's requirements and benefits:

Plan Provisions

Eligible Class

Effective Date:

Plan Year Beginning:

July 1, 1965

July 1, 2016

Requirements

Minimum Age: 0

Minimum months of service: 3

An elected school committee member or a member covered by

the collective bargaining agreement.

1st day of the month coinciding with or next following the date

Entry Dates the plan requirements are met.

Employee Contributions 5% of earnings

Normal Retirement Date First day of the month coinciding with or next following

attainment of age 62, or if later, the 10th anniversary of plan entry, or 32 years of service with 10 years of plan participation.

Normal Retirement Benefit 1.67% of the member's average monthly earnings multiplied by

years of participation, plus .33% times average monthly earnings times years of participation greater than 20.

Average Monthly Earnings Monthly average of total compensation for the 3 consecutive

years of highest compensation of the previous 10 years.

Maximum Annual Benefit \$215,000 as adjusted per IRC Sec 415 for retirement age other

than social security retirement age and annuity form.

Normal Form of Benefit Life Annuity

Accrued Benefit Normal Retirement Benefit based on earnings and participation

to date.

Early Retirement Benefit Minimum Age: 52

Minimum Service: 10 years

Benefit Amount: Accrued benefit, reduced by 7% for each year

by which early retirement precedes normal retirement.

Pre-Retirement Death Benefit Member contributions with interest, plus a \$5,000 lump-sum

benefit.

Disability Benefit Determined in the same manner as the normal retirement

benefit.

Vest Termination Benefit Upon termination after 10 years of service, 100% of the

accrued benefit, deferred until the normal retirement date. A school committee member is vested after six years of plan

participation.

Contributions

Plan members contribute 5% of earnings during the year. The School Department contributes based upon an annual actuarial valuation. During fiscal 2017, the School Department's contribution totaled \$2,044,880. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

Investment information has been provided by USI Advisors.

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Warwick School Committee by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

This is an ongoing plan with a perpetual time horizon. For this reason, long-term capital market assumptions (20+ years) are applicable to approximate future real rate of return expectations. A modified building blocks methodology was used because being able to identify historical return premiums of asset classes in the context of varying market environments provides a reasonable basis to estimate the performance of asset classes going forward.

Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
LIC Facility Large Con	25 600/	0.700/
US Equity-Large Cap	25.69%	8.70%
US Equity-Small/Mid Cap	15.61%	9.80%
Non-US Equity - Developed	9.40%	8.70%
Non-US Equity - Emerging	5.56%	9.60%
US Corporate Bonds - Core	11.06%	5.10%
US Corporate Bonds - High Yield	4.80%	7.70%
Non-US Debt - Emerging	3.87%	6.80%
TIPS (Inflation Protected)	3.84%	5.30%
US Treasuries (cash equivalents)	20.17%	0.00%
Real Estate	0.00%	7.20%

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 12.61%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2017. The components of the net pension liability of the City at June 30, 2017, were as follows:

Total pension liability \$ 53,267,565 Plan fiduciary net position \$ 48,797,539

City's net position liability \$ 4,470,026

Plan fiduciary net position as a percentage

of the total pension liability 91.61%

Actuarial Assumptions

The following actuarial assumptions were used in the June 30, 2017 actuarial valuation:

Actuarial cost method Individual Entry Age Normal Actuarial Cost Method

Amortization method Level Amortization

Salary increases 3.00% Investment rate of return 7.00%

Mortality rates Prescribed IRS Static Mortality Tables for the Year of the

Valuation

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 7.0% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.0%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Increase (Decrease)						
	Total Pension Liability (a)			Plan Fiduciary Net Position (b)		Net Pension Liability (a)-(b)	
Balances as of June 30, 2016	\$_	48,504,159	\$	42,643,238	\$	5,860,921	
Changes for the year:							
Service cost		1,085,156				1,085,156	
Interest		3,405,815				3,405,815	
Differences between expected and actual experience		2,093,032				2,093,032	
Assumption changes		81,200				81,200	
Contributions - Employer				2,044,880		(2,044,880)	
Contributions - Employee				803,054		(803,054)	
Net investment income				5,414,063		(5,414,063)	
Benefit payments, including refunds of contributions		(1,901,797)		(1,901,797)		- -	
Administrative expense				(205,899)		205,899	
Net changes	_	4,763,406		6,154,301	-	(1,390,895)	
Balances as of June 30, 2017	\$_	53,267,565	\$	48,797,539	\$	4,470,026	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability (asset) if it was calculated using a single discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the single discount rate:

		Current				
	_	1% Decrease (6.0%)		Discount Rate (7.0%)		1% Increase (8.0%)
Warwick School Employees	\$	10,737,939	\$	4,470,026	\$	(879,983)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the Warwick Public School Employees Pension Plan recognized pension expense of \$1,403,504. As of June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources	-	Deferred Inflows of Resources
Difference between expected and actual experience Changes of assumptions Net difference between projected and actual	\$	1,919,288 144,090	\$	246,737
earning on pension plan investments	-	1,610,789	-	1,922,853
Total	\$_	3,674,167	\$	2,169,590

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

	Net Deferred Outflows (Inflows)			
Year Ended June 30,	Resources			
2018	\$ 520,185			
2019	520,187			
2020	288,117			
2021	(112,102)			
2022	288,190			
	\$ 1,504,577			

F. Warwick Public School Teachers' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System Plan (ERS) and the additions to and deductions from ERS' fiduciary net position have been determined on the same basis as they are reported by ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description

Certain employees of the Warwick Public School system participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than five years of service as of July 1, 2012. Members are vested after five years of service.

The plan provides for survivor's benefits for service connected death and certain lump-sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Funding Policy

The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2017, Warwick Public School System Teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 who must contribute 11% of their annual covered salary. The State and Warwick Public Schools are required to contribute at an actuarially determined rate, 40% of which is to be paid by the State and the remaining 60% is to be paid by Warwick Public Schools; the rates were 9.95% and 13.18% of annual covered payroll for the fiscal year ended June 30, 2017 for the State and Warwick Public Schools, respectively. Warwick Public Schools contributed \$10,619,358, \$10,888,514 and \$10,546,876 for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017, Warwick Public Schools reported a liability of \$140,460,773 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by Warwick Public Schools as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with Warwick Public Schools were as follows:

Warwick Public School's proportionate share of the Net Pension Liability	\$	140,460,773
State of Rhode Island's proportionate share of the Net Pension Liability	_	96,195,004
Total Net Pension Liability	\$_	236,655,777

The net pension liability was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016. Warwick Public School's proportion of the net pension liability was based on a projection of Warwick Public School's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2016, Warwick Public School's proportion was 4.71%.

For the year ended June 30, 2017, Warwick Public Schools recognized gross pension expense of \$18,696,476 and revenue of \$8,052,143 for support provided by the State. At June 30, 2017, Warwick Public Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Outflows of Resources	_	Deferred Inflows of Resources
\$	\$	2,771,369 2,909,571
15,894,526		4,933,618
10 300 657		6,497,571
	\$	17,112,129
	Resources	* \$ \$ 15,894,526

\$10,300,657 reported as deferred outflows of resources related to pensions resulting from Warwick Public School's contributions in fiscal year 2017 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	-	Net Deferred Outflows (Inflows) Resources
2018	\$	(201,705)
2019		(201,705)
2020		2,265,104
2021		439,441
2022		(2,164,943)
Thereafter		(1,353,795)
	-	
	\$	(1,217,603)

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75%

Salary increases 3.50% to 13.50%

Investment rate of return 7.50%

Mortality - male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

Investments

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 23 sources. The June 30, 2015 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Global Equity:	38.00%	
U.S. Equity		6.98%
International Developed		7.26%
International Emerging Markets		9.57%
Equity Hedge Funds	8.00%	4.10%
Private Equity	7.00%	10.15%
Core Fixed Income	15.00%	2.37%
Absolute Return Hedge Funds	7.00%	4.10%
Infrastructure	3.00%	5.58%
Real Estate	8.00%	5.33%
Other Real Return Assets:	11.00%	
Master Limited Partnerships		4.97%
Credit		4.97%
Inflation Linked Bonds		1.76%
Cash Overlay, Money Market	3.00%	0.82%
	100.00%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Measurement of the Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the single discount rate (7.5%):

		Current					
	_	1% Decrease (6.5%)		Discount Rate (7.5%)		1% Increase (8.5%)	
School Teacher's Pension Plan	\$	173,456,764	\$	140,460,773	\$	113,448,807	

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

15. DEFINED CONTRIBUTION PLAN

Defined Contribution Plan Description

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

Warwick Public Schools recognized pension expense of \$423,450 for the fiscal year ended June 30, 2017.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at http://www.ersri.org.

16. OTHER POST-EMPLOYMENT BENEFITS

A. Other Post-Employment Benefits - City

Plan Description

The City administers a single-employer defined benefit healthcare plan. This plan does not include the pension benefits discussed in Note 14. The plan provides medical/drug and dental (police officers only) benefits for eligible retirees and their dependents through the City group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report.

Funding Policy

Contribution requirements are negotiated between the City and the respective unions. The City is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable copayments in effect at the time or retirement. For the year ended June 30, 2017, the plan operated on a pay-as-you-go basis and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2017, the City contributed \$8,004,053 to the plan.

At July 1, 2015, membership consisted of:

	City, Police, Fire
Active employees	757
Retired	631
Total	1,388

B. Other Post-Employment Benefits - School

Plan Description

The Warwick School Department administers a single-employer defined benefit healthcare plan. The plan provides medical/drug benefits for eligible retirees and their dependents through the City's group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report. All benefits terminate at age 65.

CITY OF WARWICK, RHODE ISLAND NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

Teaching Employees are eligible for GASB Statement No. 45 benefits after serving the district for 20 to 30 years depending on their date of hire. Other district employees are required to reach age 62 and have 25 years of service. Teaching employees contribute 20 to 60% for coverage depending on their date of hire. Other employees will contribute 20% for coverage. Spouses of teaching employees are not covered by the plan. Spouses of other district employees will contribute 20% for coverage. Surviving beneficiaries continue to receive access to the districts medical coverage through COBRA after the death of the retired employee. Survivors are required to pay the full cost of benefits.

Funding Policy

Contribution requirements are negotiated between the Warwick School Department and the respective unions. The Warwick School Department is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payments in effect at the time of retirement. For the year ended June 30, 2017, the plan operated on a pay-as-you-go basis and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2017, the Warwick School Department contributed \$1,518,339 (estimated) for its employees.

At July 1, 2015, membership consisted of:

17. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Litigation

Liabilities for legal cases and other claims against governmental funds are recorded in the governmental funds when the ultimate liability can be estimated and such cases are expected to be settled with available expendable financial resources.

At June 30, 2017, the City had several lawsuits pending. The total maximum damages being sought from the City to these cases are not known. In the opinion of the City officials and the City's legal counsel, the City's ultimate liability with respects to these cases, if any, will be immaterial.

Commitments

The City had several outstanding construction projects as of June 30, 2017. These projects are evidenced by contractual commitments with contractors and include:

Contract		Spent to Date		Remaining Commitment	Funding Source(s)		
NW Gorton's Pond	\$	242,194	\$	72,884	SRF Capital Contracts		
Governor Francis III		167,288		9,899	SRF Capital Contracts		
AWT II Phopserus Removal/Upgrade		14,995,742		309,528	SRF Capital Contracts		
East Natick III		29,838		122,253	SRF Capital Contracts		
Primary Clarifier		125,970		21,450	SRF Capital Contracts		
Fire Code Compliance Program		247,381		16,904	GO Bond		
Fire Code Compliance Program		120,780		17,920	GO Bond		
Fire Code Compliance Program	_	221,310		73,490	GO Bond		
	\$_	16,150,503	\$	644,328			

Grants

The City has received federal and state grants for specific purposes that are subject to audit by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. City officials believe such allowances, if any, would be immaterial.

18. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.), which provides coverage for property/liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members.

There have been no significant reductions in insurance coverage during the year ended June 30, 2017 as compared to the previous year. The claims incurred did not exceed insurance coverage this year.

CITY OF WARWICK, RHODE ISLAND NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

The changes in workers' compensation claims liability are as follows:

	Beginning Fiscal Year Liability		Current Year Claims and Changes in Estimate	Claim Payments	Balance Fiscal Year End
2015-2016 2016-2017	\$	94,018 218,950	\$ 377,176 388,607	\$ 252,244 443,556	\$ 218,950 164,001

For its employer health insurance coverage, the School Department has chosen to participate in the Health Benefit Project provided by the WB Community Health, an independent, non-profit organization. The School Department is also self-insured for the dental insurance coverage through WB Community Health. Deposits made to the Collaborative are treated as expenditures when it is probable that a claim has been incurred, and include estimates amounts for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim and health care trends, and other economic and social factors.

The City is fully insured for its employee health plan through the RI Interlocal Risk Management Trust, effective July 1, 2013. The City's employee dental plan is provided by Blue Cross on a fully insured basis. Prior to July 1, 2013, the City was self-insured with participation in WB Community Health.

An analysis of claims activity is presented below:

		Liability July 1,	_	Claims and Changes in Estimates		Claims Payments	_	Liability June 30,
School City	\$	1,143,132	\$_	21,730,563 21,038,213	\$_	21,653,020 21,038,213	\$_	1,220,675 -
2015-2016	\$	1,143,132	\$_	42,768,776	\$_	42,691,233	\$_	1,220,675
School City	\$	1,220,675	\$	22,289,468 20,851,583	\$_	22,123,499 20,851,583	\$_	1,386,644
2016-2017	\$ <u></u>	1,220,675	\$_	43,141,051	\$_	42,975,082	\$_	1,386,644

19. ABATEMENTS

The City has two tax agreements in place in conjunction with the City's tax stabilization ordinance for Warwick Intermodal and Historic Districts. The tax relief relative to these agreements does not begin until fiscal year 2019.

20. ON-BEHALF PAYMENTS

The amount recognized in the School Unrestricted Fund revenues and education expenditures for contributions made by the state on behalf of the City's teachers to the State Employees' Retirement System of Rhode Island was \$7,250,385.

21. PRIOR PERIOD ADJUSTMENT AND RESTATEMENT

The following restatements were recorded to the beginning net position and fund balance for Governmental Activities, School Unrestricted Fund and Healthcare Management School Department:

	_	Governmental Activities	School Unrestricted Fund	_	Healthcare Management School Department
Net position/fund balance as previously reported at June 30, 2016	\$	(444,779,862) \$	(26,136)	\$	4,318,061
To correct overstated receivable balance		(1,100,158)			(1,100,158)
To correct understated capital assets		552,718			
To correct various account balances	_	26,136	26,136	_	
Net Position/Fund Balance as Restated at July 1, 2016	\$_	(445,301,166) \$	-	\$_	3,217,903

22. SUBSEQUENT EVENTS

On October 17, 2017, the City issued \$4,460,000 in general obligation bonds through the Rhode Island Health & Educational Building Corporation. The proceeds will be used by the Warwick School Department to fund school building improvements.

During fiscal 2018, the School Committee and School Teachers Union both voted to approve a new teachers' contract. Given the lengthy negotiation period, the contract was issued in two parts - the first comprised the period September 1, 2015 to August 31, 2017, and the second comprised the period September 1, 2017 to August 21, 2020.

Notes to Schedule of Contributions

Valuation date June 30, 2015

Notes Actuarially determined contribution rates are calculated as of June 30, effective for the fiscal year that begins 12 months after the

valuation date.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method For funding purposes, the Entry Age Normal Actuarial Cost Method is used.

Single Equivalent Amortization Period 11 Years Closed Amortization Period for New Gains/Losses 20 years Closed

Asset Valuation Method 5 Year Smoothed Market

Inflation 2.75%

Salary Increases 3.50% to 7.50% including inflation

Investment rate of return 7.50%

Retirement age Experienced-based table of rates that are specific to the type of eligibility condition.

Mortality (Male) 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000.

(Female) 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000.

Other Information:

Notes There were no benefit changes during the year.

Supplemental, Combining and Individual Fund Statements and Schedules

Nonmajor Governmental Funds

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS:

Special Revenue Funds are used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government, and which therefore cannot be diverted to other uses. The following is a list of special revenue funds in this section:

Special Detail Fund - Established to account for the rescue service fees and any related expenditures.

City Clerk Restricted Fund - Established to account for fees and expenditures related to the enhancement of the vital statistic and land evidence systems.

Emergency Operations City - Established to account for the revenues and expenditures associated with the March 2010 Flood Disaster.

Warwick Public Library Restricted Fund -Established to account for receipt and disbursements of grants/donations and related expenditures for library operations.

Open Space Land Dedication Fund - Established to account for residential subdivision fees and related expenditures for public recreation land acquisitions in districts containing these subdivisions.

Sewer Connection Grant - Established to account for the receipt and disbursement of funds relating to a grant program which assists residents with the cost of new sewer connections.

Excess Hotel Tax Fund - Established to reserve economic development portion of state hotel tax exceeding current year tourism related expenditures.

Mooring Fee Reserve Fund - Established to account for waterfront safety fees and related expenditures.

Senior Center Gift Shop - Established to account for receipts and expenditures related to the operation of Pilgrim Senior Center.

JAG Grant - Established to account for grant proceeds received from the U.S. Department of Justice for the purpose of enhancing law enforcement operations and public safety.

Drug Seizure Fund - Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

State Asset Forfeiture - Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS (CONTINUED):

Community Development Block Grant - Established to account for the annual Entitlement Community program of the U.S. Department of Housing and Urban Development and related expenditures addressing housing and community development needs throughout Warwick. It provides assistance to the low and moderate income population of the City of Warwick.

Lead Reduction Program - Established to account for a grant received from the U.S. Department of Housing and Urban Development. Expenses relate to oversight and monitoring of lead reduction programs for low and moderate income residents of the City of Warwick.

Disaster Recovery Program - Established to account for a grant received from the U.S. Department of Housing and Urban Development. Expenses relate to assisting individuals and businesses affected by the March 2010 flood, with regard to repairing and rehabilitating housing units and public facilities.

School Restricted Funds - Funds established to account for federal, state, and private grant monies used for the benefit of the Warwick School Department. The following is a list of the School funds included in this section:

- IDEA
- IDEA Pre-School
- Title I
- Title II
- E2T2 Training Consortium Title III
- Perkins Voc Even Year/Perkins Voc Odd Year
- Homeless Even Year/Homeless Odd Year
- Fresh Fruit/Veg Program
- Skills USA
- · Big Yellow Bus
- Scott Tech Donations
- Esther Chester Donations
- Mary Maini Memorial Fund
- City/Town Contributions Sports
- Walmart
- Full Day Kindergarten
- Injury Fund
- Emergency Repairs-Tech
- Feinstein
- Rhode Island Foundation
- · Dorothy Rich Association
- Holliman Yearbook
- · Cedar Library Books

- Target
- Shapiro Fund for Warwick
- Generation Youth Foundation
- · English Learner Categorical
- IGT Charitable Contribution
- Patricia St. Amant Afterschool
- Technology Self Insurance
- Leadership Minigrant
- Staples Foundation

NONMAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECT FUNDS:

The Capital Project Funds account for all resources used for the acquisition and/or construction of capital facilities by the City, except those financed by the Enterprise Funds.

2000 Open Space Bond Fund -to acquire and preserve open space within the City.

2006 Fire Station Bond Fund - to account for capital improvements related to the fire station.

2006 School Bond Fund -to account for capital improvements related to schools.

2002 Drainage Bond Fund - to account for various improvements to the drainage system of the City.

2006 City Buildings Bond Fund - to account for capital improvements related to municipal facilities.

Capital Leases Fund - to account for expenditures relating to the City's lease purchase program for the acquisition of capital equipment and vehicles.

Road Bridge Fund - to account for expenditures relating to road and bridge work.

DEBT SERVICE FUND:

• The Debt Service Fund is used to account for the payment of interest and principal on all general long-term debt other than that payable from the Enterprise Funds.

Nonmajor Enterprise Funds

NONMAJOR ENTERPRISE FUNDS

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprise or where the City has decided that periodic determination of net income is appropriate for capital maintenance, management control, accountability, public policy or other purposes.

The following is a list of Nonmajor enterprise funds in this section:

Emergency Operations Enterprise Fund - Accounts for the revenue and expenditures associated with the 2010 flood.

On-Site Revolving Loan Fund - Established to account for the receipt and disbursement of funds relating to a loan/grant program for residents who need to replace their existing septic systems.

Sewer Infrastructure Replacement Fund - Established to provide a funding source for scheduled sewer infrastructure repairs or expansion.

Sewer Renewal & Replacement Fund - Established to provide a funding source for the replacement of sewer equipment and vehicles.

Water Renewal & Replacement Fund - Established to provide a funding source for the replacement of water equipment and vehicles.

Water Restricted Emergency Fund - Established to provide a funding source for emergency water infrastructure repairs.

Water Infrastructure Replacement Fund - Established to provide a funding source for scheduled water infrastructure repairs or expansion.

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- Financial trends information is intended to assist users in understanding and assessing how financial position has changed over time.
- Revenue capacity information is intended to assist users in understanding and assessing the factors affecting the ability to generate own-source revenues (property taxes, charges for services, etc.).
- Debt capacity information is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- Demographic and economic information is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- Operating information is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.

CITY OF WARWICK, RHODE ISLAND NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30. 2017

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the City of Warwick, Rhode Island, under programs of the federal government for the year ended June 30, 2017. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Because the Schedule presents only a selected portion of the operations of the City of Warwick, Rhode Island, it is not intended to, and does not, present the financial position, changes in fund balance, changes in net position or cash flows of the City of Warwick, Rhode Island.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported using the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. NONCASH AWARDS

Donated commodities in the amount of \$137,677 are included in the Department of Agriculture's National School Lunch Program, CFDA #10.555. The amount represents the market value of commodities received.

4. INDIRECT COST RECOVERY

The City of Warwick, Rhode Island, has elected not to use the 10% de minimis indirect cost rate provided under Section 200.414 of the Uniform Guidance.

5. HAZARD MITIGATION GRANT

Expenditures of \$4,575,607 reported under CFDA #97.039 represent 90% of eligible costs relative to the City's levee mitigation project. As this is a reimbursable grant, the possibility exists that the entire amount may not be reimbursed by the grantor.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Mayor and Members of City Council City of Warwick, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Warwick, Rhode Island's basic financial statements, and have issued our report thereon dated March 14, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Warwick, Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Warwick, Rhode Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warwick, Rhode Island's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance

To the Honorable Mayor and Members of City Council City of Warwick, Rhode Island

Report on Compliance for Each Major Federal Program

We have audited the City of Warwick, Rhode Island's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Warwick, Rhode Island's major federal programs for the year ended June 30, 2017. The City of Warwick, Rhode Island's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Warwick, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Warwick, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Warwick, Rhode Island's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Warwick, Rhode Island, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of the City of Warwick, Rhode Island, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Warwick, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
