Independent Auditors' Report

The Honorable Mayor and Members of the Johnston Town Council Town of Johnston, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Johnston, Rhode Island, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Johnston, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Johnston, Rhode Island, as of June 30, 2020 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial repotting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Johnston, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and Annual Supplemental Transparency Report are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the Annual Supplemental Transparency Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the Annual Supplementary Transparency Report are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 26, 2021 on our consideration of the Town of Johnston, Rhode Island's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Johnston, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Johnston, Rhode Island's internal control over financial reporting and compliance.

TOWN OF JOHNSTON, RHODE ISLAND

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2020

As management of the Town of Johnston, Rhode Island (Town), we offer readers of the Town of Johnston's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2020.

Financial Highlights

- The liabilities and deferred inflows of resources of the Town's governmental activities exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$303,890,806 (net position). Business-type activity assets and deferred outflows exceeded liabilities by \$12,731,250 at year end. On a government-wide basis, liabilities and deferred inflows exceeded assets and deferred outflows by \$291,159,556.
- The Town's total net position increased by \$3,459,785. This was primarily due to an increase in net position of governmental activities of \$5,680,700 and a decrease in net position of business-type activities of \$2,220,915.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$46,902,157, an increase of \$5,060,902 in comparison with the prior year. The increase is due to an operating surplus in the general fund of \$5,971,388, operating surplus of \$5,241 in the Town's nonmajor funds, offset by an operating deficit in the school unrestricted fund of \$915,727.
- At the end of the fiscal year, the unassigned fund balance for the General Fund was \$37,994,373 or 39.8% of total General Fund expenditures and transfers out.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and deferred outflows of resources less liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town of Johnston that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town of Johnston include legislative, judicial, and administrative; financial administration; assessor's office; public safety; public works; human resources; miscellaneous; planning and assessment board' library; education; other; interest on long-term debt; and debt issuance costs. The business-type activities of the Town of Johnston include water, sewer, cafeteria, summer school and athletic field operations.

The government-wide financial statements can be found on Exhibits I and II.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Johnston, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Johnston can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds and similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Johnston maintains fifty plus individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund and School Unrestricted Fund. Data from the remaining governmental funds are combined into single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the form of combining statements later in this report. The basic governmental fund financial statements can be found on pages 13 through 18 of this report. Details of the combined governmental funds can be found on pages 115 through 134.

Proprietary Funds

The Town of Johnston maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses an enterprise fund to account for its water operations and its sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Town's various functions. The Town uses an internal service fund to account for its medical benefits. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statement provides information for the water operations and for the sewer operations, which are considered to be major funds of the Town. The internal service fund financial statement provides information for the Town's medical plan benefits. The basic proprietary fund financial statements can be found on Exhibits V, VI and VII.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the Town. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on Exhibits VIII and IX.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-85.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Johnston's progress in funding its obligation to provide pension and other post-employment benefits to its employees and the budgetary information for the General Fund and School Unrestricted Fund.

The individual and combining statements and other schedules referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the Town of Johnston, liabilities and deferred inflows of resources exceeded assets and deferred outflows by \$291,159,556 at the close of the fiscal year.

Deferred inflows of resources	_	36,780,091	46,020,344	<u> </u>	<u> </u>	36,780,091	46,020,344
Net Position:							
Net investment in capital assets		30,615,578	30,758,982	9,368,389	11,805,169	39,983,967	42,564,151
Restricted		8,521,362	4,578,176			8,521,362	4,578,176
Unrestricted	_	(343,027,746)	(344,908,664)	3,362,861	3,146,996	(339,664,885)	(341,761,668)
Total Net Position	\$ _	(303,890,806) \$	(309,571,506) \$	12,731,250 \$	14,952,165 \$	(291,159,556) \$	(294,619,341)

The largest portion of the Town's net position, \$39,983,967, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, infrastructure) less any related debt and related liabilities used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities

Already noted was the statement of activities' purpose in presenting information on how the Town's net position changed during the most recent fiscal year. A summary of changes in net position follows. For the fiscal year, net position increased by \$5,680,700. The increase was due in part to an operating transfer in from the Water Control Fund of \$3,646,773. In addition to an increase in fund balance of \$2,491,871 in the Town's General Fund and the Town's Special Revenue Funds. The net decrease in fund balance of all other Governmental activities is \$457,944, which is primarily made up of the net decrease in the school unrestricted fund balance in the amount of \$915,727.

The reader should remember that the basis of accounting used in the government-wide statement of activities excludes capital expenditures, while its revenues include general taxes whose primary purpose is for the construction of those very assets or their related debt service.

- Significant changes from the prior year for revenues are as follows:
 - Property tax revenues decreased \$2,299,847. This was due in part to a change in the allowance methodology in the prior year.
 - Charges for services decreased \$1,482,995 predominantly due to decreases in public safety activities of approximately \$1.4 million.

Revenues

Governmental activities revenues totaled \$122,830,426 for the fiscal year. Property taxes are the largest revenue source for the Town and represent 64.0% of governmental revenues. Operating grants and contributions revenues are the Town's second largest revenue. Operating grants and contributions revenues include grants for education, general government, libraries and various other functions.

Operating grants and contributions revenues account for 21.7% of governmental revenues for the year. Charges for services accounts for 6.2% of governmental revenues and includes revenues from various sources including but not limited to police details, fire rescue services, property tax interest and liens, and permits and recording fees. Grants and contributions not restricted to specific programs account for 7.0%. Investment income represents roughly 0.8% of governmental revenue. Capital grants and miscellaneous revenues represent 0.3% of governmental revenues.

Expenses

Significant changes from the prior year are as follows:

• Public safety expenses increased by \$3,858,132 due to increases in legacy costs accounted for in fiscal 2020 for pension benefits, OPEB benefits and compensated absences.

Governmental activities expenses totaled \$120,796,499 for the fiscal year. Of the expenditures, 53.2% ere for education. Public safety expenses amounted to 33.4%, while public works amounted to 5.9%. Library expenses were 0.6%. Park and recreation expenses were 1.0%. Interest expense was 0.7%. General government expenses were 5.2%.

Business-Type Activities

Revenues

General revenues do not support the Town's business-type activities; thus, the largest source of revenues comes from charges for services and operating grants. Of the \$4,245,905 in revenues from the Water Control Fund, the Sewer Fund, the Cafeteria Fund and the Athletic Fund, 87.0% comes from charges for services 12.9% comes from operating grants. Investment income makes up the final 0.1% of revenues for the Town's business activities.

Expenses

Business-type expenses totaled \$1,284,954, \$652,937, \$861,186 and \$20,970 for the Water Control Fund, the Sewer Fund, Cafeteria Fund, and Summer School, respectively, for the fiscal year ended June 30, 2020.

Governmental Funds

The focus of the Town of Johnston's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town of Johnston's financing requirements. In particular, the unassigned fund balance of \$37,810,322 may serve as a valuable assessment of a government's net resources available for spending at the end of the fiscal year. As of June 30, 2020, the Town of Johnston's governmental funds reported combined ending fund balances of \$46,902,157.

The General Fund is the chief operating fund of the Town of Johnston, excluding its school department. As of June 30, 2020, the total fund balance of the general fund was \$38,817,872 of which \$37,994,373 was unassigned. The Town's General Fund also has \$823,499 of nonspendable fund balance as of June 30, 2020.

The fund balance of the General Fund increased by \$5,971,388 in fiscal year 2020. Actual revenues exceeded budgeted revenues by \$3,792,733 (see RSI-1). Increases in actual revenues versus budgeted revenues were realized in total tax revenues of \$2,233,823, and in departmental revenues and fees of \$1,038,064. Total expenditures and other financing uses were \$1,647,339 more than appropriated amounts (see RSI-1). The most significant departmental expenditures which exceeded budgeted expenditures were in the Police (\$1,247,776) and Fire (\$1,619,519) departments.

The School Unrestricted Fund is the principal operating fund of the school department. Revenues are derived principally from town appropriations and state aid supplemented by certain miscellaneous revenues, principally federal Medicaid reimbursements. Expenditures for education totaled \$59,788,367 including a state on-behalf payment to pension funds of \$2,644,000 on behalf of the school department. The School Unrestricted Fund expenditures, net of the state pension contribution, accounted for approximately 51% of the combined General Fund and School Unrestricted Fund expenditures.

Proprietary Funds

The Town's proprietary funds provide the same information found in the government-wide financial statements, but in more detail. The Town's enterprise fund posted an overall decrease in net position of \$2,220,915 for the fiscal year.

Water Fund

Unrestricted net position of the Water Control Fund at the end of the year amounted to \$2,214,741.

Sewer Fund

Unrestricted net position of the Sewer Fund at the end of the year amounted to \$1,003,969.

Cafeteria Fund, Credit Recovery, Summer School and Athletic Field

Unrestricted net position (deficit) of the Cafeteria Fund, Credit Recovery, Summer School and Athletic Field at the end of the year amounted to \$135,369, \$19,571, (\$46,087) and 35,298, respectively.

Other factors concerning the finances of these funds have been previously addressed in the discussion of the Town's business-type activities.

General Fund Budgetary Highlights

Overall, the Town finished the 2019-2020 fiscal year with a budgetary surplus of \$2,145,394.

Major General Fund Revenue Factors:

<u>General Property Taxes</u> - Property taxes are the largest single revenue source for the General Fund and account for 68.5% of total budgetary revenues. The town budgets current property tax at 94.5% of the assessment, while the actual collection rate was at approximately 96.9% of the original assessment.

Major Expenditure Factors:

Education Expense accounts for approximately 49.7% of the total budgetary expenditures within the General Fund of the Town, Public Safety representing 35.2%, Public Works representing 5.7% and the remaining functions represent 9.4%.

Capital Asset and Debt Administration

Capital assets

The Town of Johnston's investment in capital assets for its governmental and business-type activities as of June 30, 2020, amounts to \$61,150,041 net of accumulated depreciation. This investment in capital assets includes land, buildings, building improvements, vehicles, equipment, infrastructure, and construction in progress. The decrease in the Town of Johnston's net investment in capital assets for the current fiscal year was \$3,382,466 as depreciation of \$4,670,995 exceeded additions of \$1,288,529.

Major additions to the Town's capital assets related to its governmental fund activities realized during the year, included: the purchase of public safety vehicles; the purchase of public works vehicles; buildings improvements and road resurfacing.

Additional information on the Town of Johnston's capital assets can be found on pages 40 and 41.

Long-Term Debt

At the end of the current fiscal year, the Town of Johnston has total bonds and notes outstanding of approximately \$25,922,791. State statutes limit the amount of general obligation debt a governmental entity may issue to three percent of its total equalized valuation.

Town of Johnston, Rhode Island Bonds and Notes Payable June 30, 2020 and 2019

		Governm Activiti		Business Activiti		Total

Total	\$_	23,179,325 \$	25,821,556 \$	2,743,466 \$	3,103,562 \$	25,922,791 \$	28,925,118		

The Town currently has an "AA" rating from Standard and Poor's and a "A2" rating from Moody's for general obligation debt.

The current debt limitation for the Town of Johnston is approximately \$82,605,021 based on a net assessed value of \$2,753,500,683 at December 31, 2018, which significantly exceeds the Town of Johnston's current outstanding general obligation debt

Additional information on the Town's long-term debt can be found on pages 42-44.

Next Year's Budget and Rates

The Town elected and appointed officials considered many factors when setting the fiscal year 2020-2021 budget. The Town decided that it was important to continue the support of the schools and adopt a budget designed to promote long-term fiscal stability. In order to meet the objectives of the 2020-2021 budget, the Town recognized the need to continue its pattern of cost containment.

The 2020-2021 general fund budget will be \$113,706,054, an increase of \$2,473,314 over the fiscal year 2020 budget of \$111,232, 740. This represents an increase of 2.22%.

Requests for Information

This financial report is designed to provide a general overview of the Town of Johnston's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director's Office, Johnston Town Hall, 1385 Hartford Avenue, Johnston, RI 02919.

TOWN OF JOHNSTON, RHODE ISLAND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2020

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

Net change in fund balances - total governmental funds (Exhibit IV)

\$ 5,060,902

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and is reported as depreciation expense.

Capital outlay 1,238,585
Depreciation expense (4,266,787)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Property taxes collected after 60 days

Change in other receivables

Change in net pension asset

Change in deferred outflows related to pension

Change in deferred outflows related to OPEB

Change in deferred outflows related to OPEB

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issues, whereas these amounts are deferred and amortized in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:

Change in accrued interest on bonds	44,628
Amortization of deferred charge on refunding	(26,406)
Amortization of bond premium	10,537
Principal payments on bonds and notes	2,642,231
Capital leases payments	313.000

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Change in compensated absences	317,045
Change in OPEB obligation	(20,550,234)
Change in net pension liability	(2,157,358)
Change in deferred inflows related to pension	(1,308,402)
Change in deferred inflows related to OPEB	10,548,655

The net income of the internal service funds is reported with governmental activities 501,013

Change in Net Position of Governmental Activities (Exhibit II) \$ 5,680,700

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Town of Johnston, Rhode Island (the Town) was incorporated in 1759. The Town covers 24.4 square miles located in southeastern New England. The Town operates under a Council-Mayor form of government and the charter provides for public safety (police and fire), highway and streets, sanitation, health and social services, culture-recreation, education, public improvements, planning and zoning and general administrative services.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the Town's financial statements.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the Town applied the criteria prescribed by GASB Statement No. 61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and 1) it is able to impose its will on that organization, or 2) there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- The primary government is legally entitled to or can otherwise access the organization's resources.
- The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- The primary government is obligated in some manner for the debt of the organization.

The following entities were considered for classification as component units for fiscal year 2018:

- Johnston Senior Citizens Center, Inc.
- Johnston Housing Authority
- Johnston Municipal Land Trust

The entities noted above did not meet the criteria to be reported as component units and as such were omitted from these financial statements.

Although the Johnston School Department meets certain criteria of the tests listed above, this entity is not deemed to have separate legal status apart from the Town, and the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. As a result, the financial data of the Johnston School Department has been included as a major special revenue fund within the Town's financial statements.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and statement of activities report information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures. Funds are organized into three major categories: governmental, proprietary and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements. A fund is considered a major fund if it is the primary operating fund of the Town or meets the following criteria:

- Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures of that individual, governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category type, and
- Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures of the individual, governmental fund or enterprise funds are at least 5% of the corresponding total for all governmental and enterprise funds combined.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

The *School Unrestricted Fund* accounts for operations of the Johnston School Department. Revenues are derived primarily from transfers from the Town and State and Federal Aid.

TOWN OF JOHNSTON, RHODE ISLAND NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

The Town reports the following major proprietary funds:

The *Water Control Fund* accounts for fees and expenses associated with providing water services to Town residents.

The Sewer Fund is to account for sewer operations for the Town residents.

Additionally, the Town reports the following fund types:

The *Internal Service Fund* is to pay medical and dental costs incurred by those individuals covered by the Town and School Department health plans.

The *Agency Funds* account for assets held by the Town in a purely custodial capacity for various student groups and funds held in escrow for other parties.

The *Pension Trust Fund* accounts for the activities of the Local Police and Fire Pension Trust which accumulates resources for pension benefit payments to qualified participants.

The *OPEB Trust Fund* accounts for resources held in trust for other post-employment obligations of the Town.

The *Private Purpose Trust Funds* account for resources legally in trust held by the Town under various trust arrangements for the benefit of certain individuals and groups.

Measurement Focus

On the Government-wide Statement of Net Position and the Statement of Activities both governmental and business-like activities are presented using the economic resources management focus as defined below and the accrual basis of accounting.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

• All governmental funds utilize a "current financial resources" measurement focus and the modified accrual basis of accounting. Only current financial assets, deferred outflows of resources, liabilities and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes as available if they are collected within 60 days after year end. Grant revenue related to expenditure reimbursement grants of the governmental funds is generally recognized as revenue when earned as long as the payment is expected to be received within twelve months after year end. Substantially all other revenue (excluding municipal court fees and fines, and fire rescue services) of the governmental funds is recognized as it is earned and available. Municipal court fees and fines and fire rescue services are reported as receivable and unearned revenue until the amounts are collected.

TOWN OF JOHNSTON, RHODE ISLAND NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

- The proprietary funds and private purpose trust funds utilize "economic resources" measurement focus and the accrual basis of accounting. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flow. All inflows of resources associated with their activities are reported. Fund equity is classified as net position.
- Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide statement of net position and statement of activities both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis. Under this modified accrual basis of accounting, revenues such as property taxes, are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectable within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, agency funds, private purpose trust funds, police, fire and town and school employees' pension trust funds, and the OPEB Trust Fund utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred, or economic asset is used.

Amounts reported as program revenues include charges to customers or applicants for services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with proprietary fund's principal operation. The principal operating revenue of the enterprise fund are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise funds include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as nonoperating revenues and expenses.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Equity

C. Cash

Cash and cash equivalents are carried at cost. Cash equivalents include amounts invested in certificates of deposit as management believes that these certificates can be accessed at any point in time. Substantially all of the Town's cash and cash equivalents are held in public deposit institutions.

Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public institutions are required to insure accounts which hold public funds in excess of the \$250,000 which is guaranteed by FDIC. At times, the Town pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

State statutes authorize governments to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

D. Investments

The town invests in various types of investments, which are stated at fair value based on quoted market prices.

E. Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year end and not yet received. Accounts receivable are shown net of an allowance for uncollectable accounts. Allowances for accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Business-type activities report service fees as its major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes, fire rescue services, municipal court fees and traffic fines, grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectable but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year end and not yet received. Allowances for uncollectable accounts receivables are based upon historical trends and the periodic aging of accounts receivable.

F. Property Taxes

Real and personal property taxes are based on values assessed as of December 31 (lien date) and attach an enforceable lien on the property as of August 1 (levy date). Taxes may be paid in full or in equal installments on August 24, October 24, January 24 and April 24 following the levy date. Taxes due and unpaid after the respective due dates are subject to interest at a rate of 12% per annum calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of the levy. Property tax revenues are recorded in accordance with the modified accrual basis of accounting in the fund financial statements.

G. Prepaid Items

Prepaid items are accounted for under the allocation method whereby a prepaid asset is established at the date of payment and subsequently amortized over the accounting periods expected to benefit from the initial payment. Prepaid items recorded in the governmental-type fund do not reflect current appropriate resources and, as such, an equivalent portion of the fund balance is reported as nonspendable.

H. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in certain governmental funds. Open encumbrances are reported as restricted, committed or assigned, and should not result in separate display of the encumbered amount within those classifications. Encumbrances do not constitute expenditures or liabilities under generally accepted accounting principles.

I. Capital Assets and Depreciation

Government-Wide Statements

Long-lived assets are accounted for as capital assets and are reported in the government-wide statement of net position but are not reported in the governmental fund financial statements.

All capital assets are capitalized at historical or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at the estimated acquisition value as of the date received. The Town follows the policy of capitalizing assets with a cost of \$5,000 or more and a useful life of more than one year.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is calculated on the straight-line basis over the following useful lives:

Description	Useful Life
Buildings and improvements	10-50 years
Land improvements	20 years
Infrastructure	20-100 years
Machinery and equipment	5-10 years
Vehicles	5-10 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the government fund upon acquisition. Capital assets used in the proprietary fund operations are accounted for in the same manner as in the government-wide statements.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports a deferred charge on refunding and deferred outflows related to pension and OPEB in the government- wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town also reports deferred inflows of resources related to pensions and OPEB in the government-wide statement of net position. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). In addition, for governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes and other Town billings. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

K. Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

L. Self Insurance

The Town's self-insurance costs for healthcare is accounted for in the Town's internal service fund. Claims incurred but not paid, including those which have not been reported, are accounted for as expenses and accrued claims when incurred.

M. Long-Term Obligations

In the government-wide financial statement, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued, including capital leases, is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Principal payments, and issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Compensated Absences

Under the terms of various contracts and agreements, Town employees are granted vacation, sick and personal leave in varying amounts based on length of service and bargaining unit. Unused vacation leave is paid upon an employee's termination. Up to one-half of unused sick leave is paid upon termination, retirement or death depending on bargaining unit. Severance pay and personal days are also paid to terminating employees depending on bargaining unit. The liability is calculated at the rate of pay in effect at June 30, 2020. The Town estimates the long-term versus short-term amount of earned but unpaid vacation and sick leave relating to governmental fund employees and records it in the applicable section of the liabilities in the government-wide financial statements.

O. Net Pension Asset/Liability

The net pension asset/liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period. Investments are measured at fair value.

P. Net OPEB Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period. Investments are measured at fair value.

Q. Net Position/Fund Balance Classifications

Government-Wide Statements

Net position is classified as net assets and displayed in three components:

- Net investment in capital assets, net of related debt consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bond, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, laws/regulations of other governments, law through constitutional provisions or enabling legislation.

 Unrestricted net position - All remaining net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements

Governmental fund equity is classified as fund balance in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. Fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. These categories are described below:

- Nonspendable Includes the amount of fund balances that cannot be spent because it is either not in spendable form or legally or contractually required to be maintained intact.
- Restricted Includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balance Includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The Town Council is the highest level of decision-making authority and utilizes Town Ordinances as a formal procedure to commit fund balance. In addition, the passage of the budget by the taxpayers at the annual financial Town meeting is considered the commitment of funds for the line items included in the fiscal budget.
- Assigned Fund Balance Includes amounts that are constrained by the government's intent to be
 used for specific purposes but are neither restricted nor committed. The intent should be expressed
 by the governing-body itself or a body (a budget or finance committee) or official to which the
 governing-body has delegate the authority to assign amounts to be used for specific purposes. The
 Mayor through the Town Council has the authority to assign fund balance. Fund balance assigned by
 the Finance Director is documented through issuance of a memorandum
- Unassigned Fund Balance Is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The unassigned fund balance may also include negative balances for any governmental funds if the expenditures exceed amounts restricted, committed or assigned for specific purposes.

Application of Funds

The following policy has been established by the Town in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No., 54, Fund Balance Reporting and Governmental Funds Definitions. The policy is created in consideration of unanticipated events that could adversely affect the financial condition of the Town and jeopardize the continuation of necessary public service. The policy ensures that the Town maintains an adequate fund balance and reserves in order to:

- Provide sufficient cash flow for daily financial needs
- Provide funds for unforeseen expenditures related to emergencies
- · Offset significant economic downturns or revenue shortfalls

The Town maintains a spending policy in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy states when an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, it shall be the policy of the Town to consider restricted amounts to have been used first. When expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the Town that committed funds would be spent first, followed by assigned amounts and then unassigned amounts.

Proprietary fund equity is classified the same as in the government-wide statements.

R. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budget Process

Adoption

It is the responsibility of the Mayor to submit a proposed budget for the following fiscal year to the Town Council on or before the first day of April each year. Public hearings are conducted on the proposed budget and shall enact the budget ordinance on or before the first day of May each year. Annual appropriated budgets are adopted for the General Fund and the School Department Unrestricted Fund, which is a Special Revenue Fund. All annual appropriations lapse at the end of the fiscal year. During the last quarter of the budget year, the Town Council may revise the budget between departments other than the School Department.

General Fund

Actual General Fund expenditures on the schedule of revenues, expenditures and changes in fund balances - budget and actual (budgetary basis) (RSI-1) are adjusted to reflect the budgetary basis of accounting which differs from actual expenditures recognized for the General Fund in the statement of revenues, expenditures and changes in fund balance - governmental funds (Exhibit VI) in that School Aid, School Medicaid reimbursement and School's miscellaneous income is treated as revenue of the School Unrestricted Fund in accordance with the GASB No. 54 under generally accepted accounting principles purposes, but is reported as part of the Town's activity for budgetary purposes. In addition, activity of certain nonmajor governmental funds is combined with the General Fund in accordance with GASB No. 54 but is not reported for budgetary purposes.

Special Revenue Funds

The actual revenues and expenditures of special revenue funds included in the combined schedule of revenues, expenditures and changes in fund balances - budget and actual - School Unrestricted Fund (RSI-2) are presented on the budgetary basis of accounting which differs from actual revenues and expenditures recognized under generally accepted accounting principles (Exhibit VI) in that encumbrances are considered to be expenditures for budgetary purposes but not for purposes of generally accepted accounting principles.

The budget of the School Unrestricted Fund is prepared annually and submitted to the School Committee for approval. The amount of the annual transfer from the Town's General Fund to the School Unrestricted Fund is ultimately determined through the adoption of the General Fund budget by the Town Council.

Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to 3% of total taxable assessed value. The legal debt margin for the Town is approximately \$82,605,021. As of June 30, 2020, the Town's debt subject to legal debt margin is \$24,576,791, and the Town is under the debt limit by \$58,028,230.

Excess of Expenditures over Appropriations

For the year ended June 30, 2020, expenditures exceeded appropriations in the following categories:

General Fund	
Mayor	\$ 4,726
Courts	1,929
Police	1,247,776
Municipal Court	23,969
Fire	1,619,519
Streets and highways	33,772
Emergency Management	238
Building Maintanence	2,716
Fleet Maintenance	72,254
Inspector's Office	25,803
Parks and recreation	83,885
Personnel	4,662
Miscellaneous appropriations	126,054
School Unrestricted Fund	
Health and dental benefits	\$ 1,294,628
Out of District tuition	657,789

Fund Deficits

At June 30, 2020, the Town reported deficit fund balances for the following funds:

Nonmajor Governmental Funds:	
Preschool IDEA Section 619	\$ 1,213
School Implementation	6,200
Perkins Vocational	4,604
Race to the Top - HCD	1,000
Target Grant	3,786
Donations and miscellaneous grants	4,538
PTO Donations	144
Capital Lease Fund	162,566
Nonmajor Proprietary Funds:	
Summer School	46,087

The fund deficits will be eliminated by future grant funding and fund transfers.

3. CASH AND INVESTMENTS

Deposits

Substantially all of the Town's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by FDIC. At times, the Town pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

Deposit Custodial Credit Risk

Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the Town's deposits may not be returned. The State of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The Town does not have a formal deposit policy for custodial credit risk but is governed by State laws as described above.

As of June 30, 2020, the Town's entire bank balance of \$59,405,867 was covered by either FDIC insurance or collateral held in the Town's name.

Restricted Cash and Funds Held in Escrow

At June 30, 2020, the Police and Fire Pension Trust Fund reported restricted cash of \$200,631 representing post judgment statutory interest on \$832,727 of cash held in escrow by the Rhode Island Superior Court. These funds are the result of litigation between certain police retirees and the Town. Currently, the Town has appealed this judgment, and these funds are to be used to repay the plaintiffs should the Town lose its appeal.

Funds held in escrow of \$832,727 are reported in the Police and Fire Pension Trust Fund at June 30, 2020. These funds represent cash held on deposit with the Rhode Island Superior Court as a result of litigation between certain police retirees and the Town. These funds will be held in the Superior Court's Registry until the case is resolved.

Investments

General Fund investments are governed by Title 35, Chapter 10, Section 11 of the State's General Laws. This law generally allows for short-term investments, such as certificates of deposit, money market funds and obligations guaranteed by the United States government with the goal of seeking reasonable income while preserving capital. The Pension and OPEB Trust Fund's investments are not restricted in this manner.

As of June 30, 2020, the Town had the following investments:

Other investments:

Mutual Funds

\$ 50,698,791

Interest Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Town has made it a practice to limit the maturities on General Fund investments.

Credit Risk

State law limits investments in U.S. Treasury bills, U.S. Treasury notes and bonds, U.S. Agency obligations, certificates of deposit, repurchase agreements, commercial paper and money market mutual funds. The Town has no investment policy that would further limit its investment choices.

Concentration of Credit Risk

The Town does not have any policies that limit the amount that can be invested in any one issuer.

Custodial Credit Risk

For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a policy related to custodial credit risk. The Town's investments held by the Town's counterparty are held in the name of the Town.

Fair Value

The Town uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for certain assets or liabilities. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset or liability.

Fair value measurements focus on exit prices in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment.

The Town's fair value measurements are classified into a fair value hierarchy based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

The three categories within the hierarchy are as follows:

Level 1

Quoted prices in active markets for identical assets and liabilities.

Level 2

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, interest rates and yield curves observable at commonly quoted intervals, implied volatilities, credit spreads and market-corroborated inputs.

Level 3

Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flows methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment.

The Town has the following recurring fair value measurements as of June 30, 2020:

			s Using			
	-	Fair Value	 Level 1	 Level 2		Level 3
Investments by fair value level: Mutual Funds	\$	50,698,791	\$ 50,698,791	\$	\$	

4. RECEIVABLES

Receivable balances have been disaggregated by type and presented separately in the fund financial statements. Only receivables for the Town's government-wide financial statements with allowances for uncollectible accounts as of June 30, 2020, including the applicable allowances for uncollectible accounts, are presented below.

		General Fund	U —	School nrestricted Fund	_	Water Control Fund	_	Sewer Fund	_	Nonmajor and Other Funds
Receivables:										
Property taxes	\$	8,790,920	\$		\$		\$		\$	
Water and sewer use fees						2,316,863		1,228,779		
Intergovernmental		2,000,124		60,775						2,974,298
Other receivables		1,007,639		751,418						
Gross receivables	•	11,798,683		812,193		2,316,863		1,228,779		2,974,298
Less allowance for uncollectible		(3,663,462)	_		_		_	(98,153)	_	
Net Total Receivables	\$	8,135,221	\$_	812,193	\$_	2,316,863	\$_	1,130,626	\$_	2,974,298

5. INTERFUND BALANCES AND TRANSFERS

A summary of interfund balances as of June 30, 2020 is as follows:

	_	Due From Other Funds	_	Due To Other Funds
General fund	\$	135,630	\$	2,325,333
School unrestricted fund Nonmajor governmental funds		473,906 1,188,063		365,211 3,104,037
Sewer fund Nonmajor business-type activities		713,313 217,914		46,087
Internal service fund	-	3,111,842		
	\$_	5,840,668	\$	5,840,668

The General Fund holds primarily all the cash for the Town, and the resulting due to/from other funds results from these cash allocations.

A summary of interfund transfers for the year ended June 30, 2020 is as follows:

_	General Fund	School Unrestricted Fund	Total Transfers Out
¢	Φ.	27 520 045	¢ 27.520.015
Ф	3,646,773	37,529,015	\$ 37,529,015 3,646,773
\$	3 646 773 \$	37 529 015	\$ 41,175,788
	 \$ \$	Fund \$ \$ 3,646,773	General Fund Unrestricted Fund \$ 37,529,015 3,646,773

Transfers are used to account for the financing by the General Fund of various programs and activities in other funds.

6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

	_	Beginning Balance	_	Increases	_	Decreases	_	Transfers	_	Ending Balance
Governmental activities:										
Capital assets not being depreciated:										
Land	\$_	8,979,477	\$_		\$		\$_		\$_	8,979,477

General Obligation Refunding Bonds

On October 16, 2019, the Town issued \$2,800,000 of general obligation refunding bonds with interest rate of 2.07%. The bonds were issued to refund outstanding principal amounts of the 2009 series general obligation bonds. The net proceeds of \$2,759,900 (after payment of \$40,100 issuance costs) were deposited in an irrevocable trust fund under an escrow agreement dated October 16, 2019 between the Escrow Agent and the Town. The Escrow Agent will use such proceeds to purchase a portfolio of the United States Treasury State and Local Government Securities. All investment income on and the maturing principal of the escrow securities held in the escrow deposit fund will be irrevocably deposited by the Town for payment of the refunded bonds. The Town refunded the above bonds to reduce total debt service payments over the next 10 years by \$320,901 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$289,960. As of June 30, 2020, there is no defeased debt outstanding from this refunding. This amount is removed from the governmental activities column of the statement of net position.

Tax Increment Financing Bond

Tax increment financing (TIF) is an economic development tool in which a municipality earmarks a portion of its property taxes to help finance development in a particular area or site. During fiscal year 2017, the Town of Johnston participated in a tax incremental financing agreement with a local real estate developer to advance empty space along Hartford Avenue. The types of businesses that have been or will be completed on this site include: a supermarket, a bank, two restaurants and a gasoline station. All of the bond proceeds will go toward site improvements.

In fiscal year 2017, the Town issued \$1,400,000 in special obligation tax increment revenue bonds. The debt service on these bonds is payable solely from the tax increment generated by the property within the project area. The Town and its taxpayers are not liable for such bonds, except to the extent of the additional property taxes generated within the project area and dedicated to repayment of the bonds. If the project does not generate enough additional taxes to pay the debt service on the bonds, the bondholders do not have any rights for claims against the Town's other taxes and revenues. The special obligation tax increment revenue bonds are not general obligations of the Town nor do they count against the Town's statutory debt limit. Total principal and interest remaining on the bonds is \$2,230,794 payable through 2041. For the current year, principal and interest paid was \$19,000 and \$63,609, respectively, while total incremental property tax revenues generated were \$82,609.

Capital Leases

The Town has entered into various lease agreements as lessee for financing the acquisition of vehicles, machinery and equipment valued at \$666,542. For the year ended June 30, 2020, \$125,793 was included in depreciation expense. The depreciable assets have a five- to ten-year useful life. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020 are as follows:

	_	Governmental Activities
2021 2022	\$	172,824 119,947
2023 Total minimum lease payments Less amount for interest	-	292,771 (6,771)
Present Value of Minimum Lease Payments	\$_	286,000

8. FUND BALANCE

The components of fund balance for the governmental funds at June 30, 2020 are as follows:

9. DEFINED BENEFIT PENSION PLANS

A. Municipal Employees' Retirement System (MERS)

Plan Description

The Municipal Employees' Retirement System (MERS) - an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org.

Benefits Provided

General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary

Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service

Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC)

Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three-year FAC as of July 1, 2012 or the five-year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

General Employees

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30,2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and Fire Employees

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45 and had a prior Retirement Date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012 benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described above and one calculated based on a 2.25% multiplier for all years of service.

Other Benefit Provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50'% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%.

The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on every fourth-year provision described above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016 and \$26,098 for 2017.

Employees Covered by Benefit Terms

At the June 30,2018 valuation date, the following employees were covered by the benefit terms:

	General	Police	Fire	Total
Retirees and Beneficiaries	214		3	217
Inactive, Nonretired Members	118	1	4	123
Active Members	218	15_	70	303
Total	550	16	77	643

Contributions

The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 2% of their salaries. General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 10% of their salaries. The Town of Johnston contributes at a rate of covered-employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town contributed \$1,253,463 to the General Employees Plan, \$111,061 to the Police Plan and \$515,454 to the Fire Plan in the year ended June 30, 2020, which was 8% of General Employee annual covered payroll, 9% of Police annual covered payroll and 8% of Fire annual covered payroll.

Net Pension Liability (Asset)

The total pension liability was determined by actuarial valuations performed as of June 30, 2018 and rolled forward to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2019 measurement date (June 30, 2018 valuation rolled forward to June 30, 2019)					
Actuarial Cost Method	Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used.				
Amortization Method	Level Percent of Payroll - Closed				
Actuarial Assumptions					
Investment Rate of Return	7.00%				
Projected Salary Increases	General Employees - 3.50% to 7.50%; Police & Fire Employees - 4.00% to 14.00%				
Inflation	2.5 %				
Mortality	Mortality - variants of the RP-2014 mortality tables - for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.				
Cost of Living Adjustments	A 2% COLA is assumed after January 1, 2014.				

The actuarial assumptions used in the June 30, 2018 valuation rolled forward to June 30, 2019, and the calculation of the total pension liability at June 30, 2019 was consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2019 expected arithmetic returns over the long term (20 years) by asset class are summarized in the following table:

		Long-Term Expected Real Rate of
Type of Investment	Target Allocation	Return
Global Equity		
U.S. Equity	22.10%	6.16%
International Developed Equity	13.20%	6.83%
Emerging Markets Equity	4.70%	8.90%
Private Equity		
Private Energy	11.25%	9.81%
Non-Core RE	2.25%	5.51%
OPP Private Credit	1.50%	9.81%
Income		
High Yield Infrastructure	1.00%	3.98%
REITS	1.00%	5.51%
Liquid Credit	2.80%	3.98%
Private Credit	3.20%	3.98%
Crisis Protection Class		
Treasury Duration	4.00%	0.77%
Systematic Trend	4.00%	4.20%
Inflation Protection		
Core Real Estate	3.60%	5.51%
Private Infrastructure	2.40%	5.85%
TIPs	1.00%	1.37%
Natural Resources	1.00%	3.76%
Volatility Protection		
IG Fixed Income	11.50%	2.15%
Absolute Return	6.50%	4.20%
Cash	3.00%	0.77%
	100%	
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total pension liability of the plans was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability (asset) of the employers calculated using the discount rate of 7.0%, as well as what the employers' net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

General Employees:

	_	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
Net Pension Liability	\$	18,449,197	\$ 13,515,127 \$	9,476,312

Police:

		-	1% Decrease (6.00%)	 Current Discount Rate (7.00%)	 1% Increase (8.00%)
	Net Pension Liability	\$	143,642	\$ 28,018	\$ (66,564)
Fire:					
		-	1% Decrease (6.00%)	 Current Discount Rate (7.00%)	 1% Increase (8.00%)
	Net Pension Liability	\$	2,379,454	\$ 1,204,805	\$ 243,773

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2020, the employer recognized pension expense of \$2,108,087 for General Employees, \$112,368 for Police and \$661,365 for Fire. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

General Employees:

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience Changes of assumptions	\$	1,638 658,238	\$ 980,907
Net difference between projected and actual earnings on pension plan investments Contributions subsequent to measurement date	_	1,253,463	 44,858
Total	\$_	1,913,339	\$ 1,025,765

Police:

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$	26,531	\$ 79,562
Changes of assumptions		61,167	1,355
Net difference between projected and			
actual earnings on pension plan investments			16,441
Contributions subsequent to measurement date	_	111,061	
Total	\$	198,759	\$ 97,358

Fire:

_	Deferred Outflows of Resources		Deferred Inflows of Resources
\$	520,044	\$	525,102
	460,455		81,155
			92,677
_	515,454		
\$	1,495,953	\$	698,934
	- \$ - \$_	Outflows of Resources \$ 520,044	Outflows of Resources \$ 520,044 \$ 460,455

\$1,253,463, \$111,061 and \$515,454 for the General Employees, Police and Fire, respectively, reported as deferred outflows of resources related to pensions resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	_	General Employees Net Deferred		Police Net Deferred	Fire Net Deferred
Year Ending June 30	_	Outflows (Inflows) of Resource	,	Outflows (Inflows) of Resource	Outflows (Inflows) of Resource
2021	\$	275,637	\$	(2,437) \$	37,241
2022		(422,160)		(8,386)	(54,964)

2025				1,000	30,071
Thereafter	_	_		1,781	223,887
Total	\$_	(365,889)	\$	(9,660) \$	281,565

B. Teachers' Pension Plan - Employees' Retirement System

Plan Description

Certain employees of the Johnston School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service-connected death and certain lump-sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ended June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions

The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2019, Johnston School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The State and the Johnston School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the State and the remaining 60% is to be paid by the Johnston School Department; the rates were 10.49% and 14.12% of annual covered payroll for the fiscal year ended June 30, 2019 for the Johnston School Department, respectively. The Johnston School Department contributed \$3,191,214, \$3,588,539 and \$3,333,663 for the fiscal years ended June 30, 2020, 2019 and 2018, respectively, equal to 100% of the required contributions for each year. The State's share of contribution for fiscal 2020 was \$2,644,000 and is reported as on-behalf payments and included in both revenue and expenditures on the financial statements.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2020, the Town of Johnston reported a liability of \$44,624,312, its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the Johnston School Department as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the Johnston School Department were as follows:

Johnston School Department's proportionate share of the net pension liability	\$ 44,624,312
State of Rhode Island's proportionate share of the net pension liability	 33,428,231
Total Net Pension Liability	\$ 78,052,543

The net pension liability was measured as of June 30, 2019, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019. The Johnston School Department's proportion of the net pension liability was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2019, the Johnston School Department's proportion was 1.40%.

For the year ended June 30, 2020, the Johnston School Department recognized gross pension expense of \$8,859,462 and revenue of \$3,708,436, for support provided by the State. At June 30, 2020, the Johnston School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	_	Deferred Inflows of Resources
Differences between expected and actual experience	\$	543,410	\$	745,225
Changes of assumptions		2,611,226		352,191
Net difference between projected and actual earnings on pension plan investments				70,219
Changes in proportion and difference between employer contributions and proportionate share				
contributions		2,202,407		851,026
Contributions subsequent to measurement date	_	3,191,214	_	
Total	\$_	8,548,257	\$_	2,018,661

\$3,191,214 reported as deferred outflows of resources related to pensions resulting from the Town of Johnston School Department's contributions in fiscal year 2020 subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred Outflows (Inflows)		
Year Ending June 30		of Resource	
2021	\$	1,103,728	
2022 2023		330,044 778,330	
2024 2025		713,967 371,114	
Thereafter	_	41,199	
Total	\$_	3,338,382	

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0 to 13.5%
Investment rate of return	7.0%

Mortality - variants of the RP-2014 mortality tables - for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

The actuarial assumptions used in the June 30, 2018 valuation rolled forward to June 30, 2019 and the calculation of the total pension liability at June 30, 2019 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2019 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

		Long-Term Expected Real Rate of
Type of Investment	Target Allocation	Return
Global Equity		
U.S. Equity	22.10%	6.16%
International Developed Equity	13.20%	6.83%
Emerging Markets Equity	4.70%	8.90%
Private Equity	1.7070	0.0070
Private Energy	11.25%	9.81%
Non-Core RE	2.25%	5.51%
OPP Private Credit	1.50%	9.81%
Income		
High Yield Infrastructure	1.00%	3.98%
REITS	1.00%	5.51%
Liquid Credit	2.80%	3.98%
Private Credit	3.20%	3.98%
Crisis Protection Class		
Treasury Duration	4.00%	0.77%
Systematic Trend	4.00%	4.20%
Inflation Protection		
Core Real Estate	3.60%	5.51%
Private Infrastructure	2.40%	5.85%
TIPs	1.00%	1.37%
Natural Resources	1.00%	3.76%
Volatility Protection		
IG Fixed Income	11.50%	2.15%
Absolute Return	6.50%	4.20%
Cash	3.00%	0.77%
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability calculated using the discount rate of 7.0% as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

	Current				
	1% Decrease (6.00%)		Discount Rate (7.00%)	1% Increase (8.00%)	
Net Pension Liability	\$	55,148,065 \$	44,624,312 \$	36,009,561	

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

C. Local Police and Fire Pension Plan

Plan Description

The Town administers and contributes to the Police and Fire Pension Plan, a single employer retirement plan. The assets of the Police and Fire Pension Plan are held in a Trust which is reported in the fiduciary fund on the Town's annual financial statements. The Police and Fire Pension Plan was established by the Town in accordance with the Town Charter. The plan does not issue stand-alone financial statements.

Police and fire department employees are covered under this pay-as-you-go pension plan, except for firefighters hired after July 1, 1999 and police employees hired after July 1, 2010 who are covered under the State of Rhode Island MERS retirement system. The pay-as-you-go retirement plans are considered, in the labor contracts, to be defined benefit plans although they currently are not set up to meet the specifications of a defined benefit plan.

Any police officer or firefighter currently receiving a pension under the pay-as-you-go plan of the Town will also receive a cost of living allowance (COLA) equal to 50% of the increase awarded to current active police officers and firefighters.

As of June 30, 2020, membership in the plan was as follows:

Active participants - Police	46
Inactive employees or beneficiaries	
currently receving benefits - Police	105
Active participants - Fire	18
Inactive employees or beneficiaries	
currently receving benefits - Fire	93_
	_
Total Participants	262

Benefits Provided

In April 2011, the Town established an irrevocable Police and Fire Pension Trust Fund.

Effective July 1, 2012 and July 1, 1992, the required contribution rate for the pay-as-you-go police and fire pension plan, respectively is 8% by the employees and 12% by the Town. The contribution is calculated on the employee's annual salary, holiday pay, overtime pay, etc.

The police officer pay-as-you-go plan provides retirement benefits as well as death and disability benefits. All members of the police department hired before July 1, 2010 are eligible to participate. Participants in the plan are eligible to retire after 18 years of service. Benefits are equal to a percentage of the employee's final average salary, documented on the W-2 tax form, over a three-year period (see chart below). Employees are vested in their retirement benefits upon completion of 10 years of service. All police officers who retire on disability receive sixty-six and two-thirds percent of their salary as defined in their collective bargaining agreement, at the time of disability. For retirements prior to July 1, 2005, pensions for retirees are indexed to one-half of the negotiated base pay increases for active police after benefit commencement. For retirements after July 1, 2005, pensions for retirees shall increase by a 3.00% compounded Cost of Living Adjustment (COLA). The COLA shall begin in the 25th month following the date of the officer's retirement.

The firefighter pay-as-you-go plan provides retirement benefits as well as death and disability benefits. All members of the fire department hired before July 1, 1999 are eligible to participate. Participants in the plan are eligible to retire after 20 years of service. Benefits are equal to a percentage of the final average of the employee's three highest consecutive years of compensation based on the base salary, holiday, longevity, clothing allowance, clothing maintenance allowance, "severance pay" (unused sick and vacation pay distributed at retirement), and seventy-five percent of overtime pay (see chart below). Employees shall be able to accrue an addition 2-1/2% in benefits for each year of service credited over 20 years up to a maximum of 30 years for a benefit of 75% of final average salary. Employees are vested in their retirement benefits on completion of 10 years of service and attainment of age 55. All firefighters who retire on disability receive sixty-six and two-thirds percent of their final average salary. Retirees receive a COLA of one-half of the negotiated pay increases for active firefighters.

The following reflects the retirement benefits schedule for members of the police and fire departments:

Years of	Percentage of Final Average Salary		
Service	Police Fire		
18	45.0%		
19	47.5%		
20	50.0%	50.0%	
21	52.5%	52.5%	
22	55.0%	55.0%	
23	57.5%	57.5%	
24	60.0%	60.0%	
25	65.0%	62.5%	
26	66.0%	65.0%	
27	67.0%	67.5%	
28	68.0%	70.0%	
29	69.0%	72.5%	
30+	70.0%	75.0%	

Investment Policy

The Town's Retirement Board establishes the pension plan's policy regarding asset allocation. Plan assets are managed with a long-term objective of achieving a fully funded status of the benefit provided through the Plan. Market value as of the end of the 2019 fiscal year was used to determine the fair value of the Plan's investments.

Contributions

The amount of employee contributions has been established under the plan. For the police department, employee contributions are equal to 8% of gross pay. Police employees terminated before retirement may withdraw the employee-provided account and forfeit their right to pension benefits. The Town of Johnston has adopted a policy to increase the prior year's employer contribution 2.75% annually.

For the fire department, employee contributions are equal to 8% of salary including base, holiday, longevity, clothing allowance, clothing maintenance allowance, severance and overtime. The Town of Johnston has adopted a policy to increase the prior year's employer contribution 2.75% annually.

Investment Rate of Return

For the year ended June 30, 2020, the annual money-weighted rate of return on the Police and Fire Pension Plan investments, net of investment expenses, was (0.09%). The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The total net pension liability for the Police and Fire Pension Trust was measured as of June 30, 2020 determined by an actuarial valuation as of that date. The components of the net pension liability of the at June 30, 2020 were as follows:

	 Police	Fire
Total pension liability Plan fiduciary net position	\$ 79,561,721 22,740,001	\$ 80,481,832 23,315,819
Town's Net Pension Liability	\$ 56,821,720	\$ 57,166,013
Plan fiduciary net position as a percentage of the of the total pension liability	40.02%	40.79%

Actuarial Assumptions

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an experience study for the period July 1, 2014 to June 30, 2017.

Inflation	2.50%
Salary increases	3.75%
Investment rate of return	7.25%, net of pension plan investment
	expense, including inflation

Healthy mortality rates were based on the sex-distinct RP-2000 Combined Health White Collar Mortality Table using 115% of male rates and 95% of female rates for females, adjusted to the valuation date, using general projection under Scale AA to reflect future mortality improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 are summarized in the following table (rates shown include the inflation component). These rates are applicable for the Police and Fire Pension Trust Fund.

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Domestic equity	55.0%	6.40%
International equity - developed markets	10.0%	7.05%
International equity - emerging markets	5.0%	9.00%
Fixed income - core	20.0%	1.15%
Real estate	10.0%	4.50%
	100.0%	

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current 8% contribution rate and that the Town of Johnston's contributions of \$8.5 million for the fiscal year ended June 30, 2017 will increase 3.00% each year, unless otherwise provided. Based on these assumptions, the Pension System's fiduciary net position was not projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Pension Plan investment of 7.25% was applied to all periods.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the employers calculated using the discount of 7.25%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

The schedule of changes in the Town's net pension liability, employer contributions and investment returns are presented as required supplementary information following the notes to the basic financial statements.

Police:

		Current				
	_	1% Decrease (6.25%)	Discount Rate (7.25%)	1% Increase (8.25%)

D. Teachers' Survivor Benefit

Plan Description

Certain employees of the Johnston School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit (TSB) plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Eligibility and Plan Benefits

The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full-time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost of living adjustment for spouse's benefits is paid and based on the annual social security adjustment. Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

Highest Annual Salary	Basic Monthly Spouse's Benefit
\$17,000 or less	\$ 825.00
\$17,001 to \$25,000	\$ 962.50
\$25,001 to \$33,000	\$ 1,100.00
\$33,001 to \$40,000	\$ 1,237.50
\$40,001 and over	\$ 1,375.00

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 Child	Parent and 2 or More Children	One Child Alone	Two Children Alone	Three or more Children Alone	Dependent Parent
150%	175%	75%	150%	175%	100%

Contributions

The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$11,500; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The Johnston School Department contributed \$40,977, \$39,265 and \$38,175 for the fiscal years ended June 30, 2020, 2019 and 2018, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2020, the Johnston School Department reported an asset of \$5,972,304 for its proportionate share of the net pension asset related to its participation in the TSB plan. The net pension asset was measured as of June 30, 2019, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019. The Johnston School Department proportion of the net pension asset was based on its share of contributions to the TSB plan for fiscal year 2019 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2019, the Johnston School Department proportion was 5.264%.

For the year ended June 30, 2020, the Johnston School Department recognized negative pension expense of \$100,483 - an increase in the net pension asset. At June 30, 2020, the Johnston School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience Changes of assumptions	\$	650,845 520,396	\$ 1,586,130
Net difference between projected and actual earnings on pension plan investments Changes in proportion and difference between			58,813
employer contributions and proportionate share contributions			405,420
Contributions subsequent to measurement date	_	40,977	
Total	\$_	1,212,218	\$ 2,050,363

\$40,977 reported as deferred outflows of resources related to pensions resulting from the Johnston School Department's contributions in fiscal year 2020 subsequent to the measurement date will be recognized as an addition to the net pension asset in the subsequent period. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	(Net Deferred Outflows (Inflows)
Year Ending June 30		of Resources
2021	\$	4,923
2022	•	(224,755)
2023		(97,531)
2024		(65,731)
2025		(163,999)
Thereafter	_	(332,029)
Total	\$_	(879,122)

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00% to 13.00%
Investment rate of return	7.00%

Mortality - variants of the RP-2014 mortality tables - for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

Cost of living adjustment - eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment for valuation purposes, a 2.50% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2018 valuation and the calculation of the total pension liability at June 30, 2019 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2019 expected arithmetic returns over the long term (20 years) by asset class are summarized in the following table:

		Long-Term Expected Real Rate of
Type of Investment	Target Allocation	Return
Global Equity		
U.S. Equity	22.10%	6.16%
International Developed Equity	13.20%	6.83%
Emerging Markets Equity	4.70%	8.90%
Private Equity		
Private Energy	11.25%	9.81%
Non-Core RE	2.25%	5.51%
OPP Private Credit	1.50%	9.81%
Income		
High Yield Infrastructure	1.00%	3.98%
REITS	1.00%	5.51%
Liquid Credit	2.80%	3.98%
Private Credit	3.20%	3.98%
Crisis Protection Class		
Treasury Duration	4.00%	0.77%
Systematic Trend	4.00%	4.20%
Inflation Protection		
Core Real Estate	3.60%	5.51%
Private Infrastructure	2.40%	5.85%
TIPs	1.00%	1.37%
Natural Resources	1.00%	3.76%
Volatility Protection		
IG Fixed Income	11.50%	2.15%
Absolute Return	6.50%	4.20%
Cash	3.00%	0.77%
	100%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make *all* projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to *all* periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) calculated using the discount rate of 7.0% as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

	Current				
	1% Decrease (6.00%)		Discount Rate (7.00%)	1% Increase (8.00%)	
Net Pension (Asset) Liability	\$	(4,602,208) \$	(5,972,304) \$	(6,992,445)	

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

10. DEFINED BENEFIT CONTRIBUTION PLAN

Plan Description

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under Internal Revenue Service (IRS) Section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with IRS guidelines for such plans.

The Town of Johnston (including the School Department) recognized pension expense of \$750,314, for the fiscal year ended June 30, 2020. Of that amount, \$37,010 was for general employees, \$30,773 was for noncertified school employees and \$682,531 was for certified school employees.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at http://www.ersri.org.

11. OTHER POST EMPLOYMENT BENEFITS

Plan Description

The Town provides post-employment health benefits for Firefighters, Police Officers, Teachers and certain other retirees. This benefit is provided per various bargaining agreements. The Town pays for 100% of retiree and spouse costs. The Town is also required to provide dental insurance to certain other retirees until the retirees reach the age of 65 or unless covered elsewhere. The post-employment benefits plan is a single-employer defined benefit healthcare plan administered by the Town. The post-employment benefits plan is considered to be part of the Town's financial reporting entity and is included in the Town's financial report as the Other Post-Employment Benefits Trust Fund. The Town does not issue a separate stand-alone financial statement for this program. Management of the post-employment benefits plan is vested with the Town.

At June 30, 2020, the date of the latest actuarial valuation, plan membership consisted of the following:

Active employees	634
Retired employees	612
Total	1246

Funding Policy and Benefits Provided

The Town has established a trust fund to irrevocably segregate assets to fund the liability associated with post-employment benefits. The fund is reported as a trust fund in accordance with GASB guidelines. The annual actuarially determined contribution payment is transferred into this account annually from the General Fund and budgeted as part of the budgeting process, which is approved by the Town Council.

Firefighters are eligible for lifetime retiree health benefits upon attainment of 20 years of service.

Police officers are eligible for lifetime retiree health benefits upon attainment of 18 years of service.

Town general employees are eligible for lifetime retiree health benefits upon attainment of age 58 with 10 years of service or 26 years of service with no age requirement. For Laborers' Local 808, only employees hired prior to April 19, 2012 are eligible for retiree health benefits.

School Certified employees are eligible for retiree health benefits upon meeting Rhode Island Employees Retirement System eligibility requirements as described in the next section. Retirees electing spousal coverage are required to pay the full incremental spouse cost. No spousal coverage is available once the retiree reaches Medicare eligibility.

School Noncertified employees are eligible for retiree health benefits according to the requirements below:

Hired prior to September 1, 1999: age 58 with 15 years of service or 25 years of service

Hired on/after September 1, 1999: Age 60 with 20 years of service or age 55 with 25 years of service

There is no spousal coverage available at retirement (pre or post Medicare).

Investment Policy

OPEB Benefits Plan's policy in regard to the allocation of invested assets is established and may be amended by the Town's Board of Directors by a majority vote of its members. It is the policy of the Town to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Town's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

Rate of Return

For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was -0.57%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the Town

The Town's net OPEB liability was measured as of June 30, 2020. The components of the net OPEB liability of the Town at June 30, 2020.

Total OPEB liability	\$ 215,916,124
Plan fiduciary net position	5,474,837
Net OPEB Liability	\$ 210,441,287
	 _
Plan fiduciary net position as a	
percentage of the total OPEB liability	2.54%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 1.60%
Salary increases 3.00% per year
Investment rate of return 3.00%
Healthcare cost trend rates 8.50%, decreasing to 4.50%

Mortality rates used are as follows:

Healthy retiree: SOA Pub-2010 Total Dataset Mortality Table Headcount-Weighted fully generational projected using Scale MP-2019

Disabled retiree: SOA Pub-2010 Disabled Mortality Table Headcount-Weighted fully generational

projected using Scale MP-2019

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	-	Long-Term Exp Real Rate of R	
U.S. equity	48.3	%	5.10	%
Non-U.S. equity U.S. aggregate bonds	20.7 9.0	% %	7.40 1.20	% %
Intermediate-term credit	5.4	%	1.90	%
Short-term credit Intermediate-term TIPS	3.6 5.0		1.70 0.70	% %
REITs	8.0		4.00	% -
Total	100	%		

Discount Rate

The discount rate used to measure the total OPEB liability was 3.00%. The projection of cash flows used to determine the discount rate assumed that Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

	_		Inc	crease (Decrease)	
	_	Total OPEB Liability (a)		Plan Fiduciary Net Position (b)	Net OPEB Liability (a)-(b)

12. RISK MANAGEMENT AND HEALTHCARE MANAGEMENT FUND

Healthcare

Effective July 1, 2008 the Town of Johnston established a healthcare management fund (an internal service fund) to account for its healthcare coverage programs for current active and retired employees. In addition, effective July 1, 2008, the Town became a member of Rhode Island Municipal Insurance Corporation (RIMIC), a collaborative of various municipal entities, for health insurance claims. All departments of the Town participate in the self-insurance program (cost plus basis) through RIMIC. Effective fiscal year 2011, the Town also became self-insured for dental insurance.

The Town currently maintains stop loss insurance to protect the taxpayers from catastrophic loss resulting from excessive health insurance claims. At June 30, 2020, the stop loss insurance contract covered all claims exceeding \$250,000 per individual on an annual basis. In addition, specific stop loss maximum for the Town for the year is maintained at approximately \$1,750,000. Settlements have not exceeded coverage in any of the last three years.

The Town's finance department oversees the self-insured program for all Town employees and claims payment services are provided by Blue Cross and Blue Shield of Rhode Island and Delta Dental of Rhode Island (Plan Administration). All funds of the Town make payments to the Healthcare Management Fund (an Internal Service Fund) based on actual claims of estimated working rates.

An analysis of the activity in the claims liability for the medical insurance fund is as follows:

	urance						
	_	Liability July 1,	_	Current Year Claims and Changes in Estimates	_	Claim Payments	Liability June 30,
2018-19 2019-20	\$	2,443,138 1,200,277	\$	18,187,650 20,045,491	\$	(19,430,511) (19,305,659)	\$ 1,200,277 1,940,109

Unemployment

The Town is self-insured for unemployment benefits.

Other Insurance

The Town is a member of the Rhode Island Inter-Local Risk Management Trust. This cooperative pool with other Rhode Island cities and towns provides insurance coverage for the Town risks of loss.

The Trust provides all property and liability insurance coverage for the Town. Property and liability claims are subject to a \$2,500 per occurrence deductible with the exception of public officials' liability claims, which are subject to a \$5,000 per occurrence deductible. The Trust's self-insured retention levels range from \$100,000 to \$500,000 depending on the type of coverage provided. In addition to the self-insurance provided by the Trust, there is also reinsurance through third-party sources for claims up to \$4,000,000.

The Trust is a nonprofit organization which is governed by a board of Trustees composed of officials of member organizations or their representatives. In addition to insurance coverage, the Trust provides risk management services with emphasis on loss control, risk management, education and training, claims administrations and other services to its members.

Upon joining the Trust, members sign a participation agreement which outline the rights and responsibilities of both members and the Trust. The agreement states that for premiums paid by members, the Trust will assume financial responsibility for member's losses up to a maximum amount of insurance purchased, minus member's deductible amounts. Additionally, should a member decide to withdraw from the Trust, the participation agreement requires three months' notice and the payment of a severance penalty.

13. OTHER AGREEMENTS

In March 1996, the Town entered into an agreement with the Rhode Island Solid Waste Management Corporation (the Corporation). The agreement shall remain in effect for as long as the Corporation, its successor or assignee owns or operates solid waste management facilities and landfills on the property in the Town.

The terms of the agreement are as follows:

- The Town received \$3,150,000 in April 1996 as settlement of all disputed amounts owed to the Town by the Corporation from the beginning of time up to the effective date of the agreement.
- Annual payments shall be made to the Town in the amount of \$1,500,000 plus 3-1/2% of the Corporation's gross revenue. However, the annual payment must not be less than \$1,500,000 nor greater than 10% of the Corporation's gross revenue.
- The annual payments are due on a quarterly basis beginning July 1996. If the corporation fails to make a payment within thirty (30) days after the due date, interest shall accrue from the expiration of the due date at the rate of six percent (6%) per annum.
- For the contract year beginning April 1, 2001, and every five (5) years shall be increased ten percent (10%).

On March 16, 2015, the Town and Energy Rhode Island State Energy L.P. (ERISE) entered into an agreement regarding the supply of energy to certain parts of the Town. In May 1999, the town entered into the original agreement regarding this matter with predecessors' organizations. The current agreement commenced on January 2015 and expires on December 31, 2035.

ERISE agrees to provide energy at a significant benefit to the industrial customers located in the industrial park site where the energy facility is constructed. Also, the agreement provides additional benefits to the Town through the provision of discounted generation supply to the Town for use in its municipal facilities.

The agreement allows for an evaluation of the escalation rate every fifth year. Annual payments are due on or before January 31 of each year of the term.

Total revenue of \$3,247,296 was received under the terms of the agreement for the year ended June 30, 2020.

14. COMMITMENTS AND LITIGATION

Amounts received or receivable from federal and state grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

The Town is a defendant in various lawsuits and the outcome of these lawsuits is not presently determinable. In the opinion of the Town attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Town.

The Town was named as the defendant in a case involving the pension obligation to three retirees. In fiscal 2012, the Town was unsuccessful in its defense but has appealed the verdict to the Rhode Island Supreme Court. The obligation resulting from this case, including interest in accordance with the initial judgment, was estimated to be \$826,810. This potential obligation has been reported as a liability in the Police and Fire Pension Trust Fund as of June 30, 2020. The obligation is reported in the Police

and Fire Pension Trust Fund since the assets related to this obligation are a component of the assets which comprise the Trust Fund. At June 30, 2020, the Town has established a letter of credit for the potential interest owed on the judgment and deposited funds equal to that letter of credit into separate restricted cash accounts. In addition, the initial judgment of approximately \$199,130 has been placed on deposit with the State of Rhode Island Superior Court and is currently being held in escrow pending the outcome of the Town's appeal.

15. TAX ABATEMENTS

The Town of Johnston, Rhode Island, may, from time to time, enter into Tax Stabilization agreements (tax treaty agreements) with local businesses in accordance with provisions of Rhode Island Public Laws, 1960, Chapter 7, and various provisions of the General Laws of the State of Rhode Island. In accordance with the applicable Public Law and the General Laws of the State of Rhode Island, the Town may enter into tax treaty agreements which provide stabilization of taxes as a means to induce businesses to locate to the Town of Johnston. These agreements are considered to be in the best public interest of the Town as they provide incentives for businesses to locate in the Town of Johnston, which will result an increase in the tax base of the Town, provide increased tax revenue, enhance property values in Town, help the overall economic climate of the Town, and, in some instances, create employment opportunity for the residents of the Town of Johnston.

As of June 30, 2020, the Town of Johnston maintained two tax treaty/tax stabilization agreements. These agreements provided tax relief to businesses in the form of stabilization agreements for real and tangible property taxes. Listed below is a summary of information pertaining to these agreements for the fiscal year ended June 30, 2020.

Tax Treaty Agreements

- Agreement with Citizens Bank National Association entered into April 11, 2016, regarding the stabilized tax agreement at a new development site. The agreement shall be for a time period of 20 years. The developer and/or any other successor Project Owner shall make stabilized tax payments to the Town in the amount of \$250,000 per tax year, in lieu of any and all other real and personal property taxes during the term. The total taxes abated for the fiscal year ended June 30, 2020 were \$1.337.181.
- Agreement was entered into on March 21, 2007 between the Town and A. Duie Pyle, Inc., regarding tax stabilization. The term of the agreement is for the period of 17 years. The corporation made a one-time payment of \$650,000 due during the 17-year period. The total taxes abated for the fiscal year ended June 30, 2020 were \$54,021.

16. CORONVIRUS (COVID-19)

On January 30, 2020, the World Health Organization declared the coronavirus to be a public health emergency. On March 9, 2020, the Governor of the State of Rhode Island declared a state of emergency to combat a novel coronavirus disease (COVID-19).

The Town derives a significant portion of its revenues from property taxes. While the Town has not experienced any significant increase in the amount of delinquency from its taxpayers, the situation creates uncertainty about the impact of future revenues that might be generated. In addition, at this time, it is uncertain what the effects of the pandemic will be on the Town's health care costs, changes in interest rates, investment valuation and future federal or state fiscal relief.

17. SUBSEQUENT EVENTS

In July of 2020, the Town executed a lease purchase agreement to finance the purchase of \$1,310,000 of equipment.

On February 28, 2021, the Town entered into a Merger and Annexation Agreement with the City of Providence and the Providence Water Supply Board which will transfer all tangible and intangible assets of the Johnston Water Department to the Providence Water Supply Board.

Notes to Schedule

Valuation date June 30, 2020 Measurement date June 30, 2020

Actuarially-determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal Amortization method Level percent, closed

Remaining amortization period 27 years - Police, 27.33 years - Fire

Asset valuation method Market value Inflation 2.50% Salary increases 3.75%

Investment rate of return 7.25%, net of pension plan investment expense, including inflation

Retirement age Refer to June 30, 2017 actuarial valuation report Mortality Refer to June 30, 2017 actuarial valuation report

Valuation date June 30, 2018 Measurement date June 30, 2019

Actuarially-determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal
Amortization method Level percent, closed
Remaining amortization period 20 years at June 30, 2017

Inflation 2.50%

Salary increases Teachers - 3.0% to 13.0%

Investment rate of return 7.00%

Mortality

Males: PR-2014 Combined Healthy for Males with White Collar adjustments, projected with Scale Ultimate MP16. Females: PR-2014 Combined Healthy for Females with White Collar adjustments, projected with Scale Ultimate MP16.

Notes to Schedule

Valuation date June 30, 2018 Measurement date June 30, 2019

Actuarially-determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal
Amortization method Level percent, closed

Remaining amortization period 23 years

Asset valuation method 5-year smoothed market

Inflation 2.75%
Salary increases 3.5% to 7.50%
Investment rate of return 7.50%

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for 2014 valuation.

Mortality Males: 115% of RP-2000 Combined Healthy for Males with White Collar

adjustments, projected with Scale AA from 2000.

95% of RP-2000 Combined Healthy for Females with White Collar

adjustments, projected with Scale AA from 2000.

*Note: This schedule is intended to show information for ten years. Additional years' information will be displayed as it becomes available.

Notes to Schedule:

- 1. Mortality table has been updated from RPH-2018 Total Dataset Mortality Table fully generational using Scale MP-2018 for healthy retirees and RPH-2018 Disabled Mortality Table fully generational using Scale MP-2018 for disabled retirees to:
- Healthy Police/Fire participants: SOA Pub-2010 Public Safety Headcount Weighted Mortality Table fully generational using Scale MP-2019
- Healthy School Certified participants: SOA Pub-2010 Teachers Headcount Weighted Mortality Table fully generational using Scale MP-2019
- All other healthy participants: SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using Scale MP-2019
- Disabled Police/Fire participants: SOA Pub-2010 Public Safety Disabled Headcount Weighted Mortality Table fully generational using Scale MP-2019
- · All other disabled participants: SOA Pub-2010 Non-Safety Disabled Headcount Weighted Mortality Table fully generational using Scale MP-2019
- Surviving Spouses: SOA Pub-2010 Continuing Survivor Headcount Weighted Mortality Table fully generational using Scale MP-2019 The impact of this change is a slight decrease in the Town's liabilities.
- 2. The health care coverage election rate for active employees with current coverage has been updated from 100% to 90% based on the Town's 2019 experience study. This change has caused a decrease in liabilities.
- 3. The payroll growth assumption has been updated to follow the most recent tables from the RI ERS and MERS actuarial valuations as of June 30, 2019. This change led to a slight increase in liabilities.
- 4. Discount rate as of the Measurement Date has been updated based on a yield for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale) and the Town's expected asset rate of return. The current valuation uses a discount rate of 3.51% as of July 1, 2019 and 3.00% as of June 30, 2020. This change has caused an increase in liabilities.
- 5. Health care trend rates have been updated as follows. This change caused a decrease in the Town's liabilities.
- a. For medical and rx benefits, the trend rates have been updated to an initial rate of 8.00% decreasing by 0.50% annually to an ultimate rate of 4.50%.
- b. For HRA benefit, the trend rates have been reset to an initial rate of 1.70% decreasing annually to an ultimate rate of 0.40% in 9 years.
- c. For Medicare Part B benefit, the trend rates have been reset to an initial rate of 3.00% increasing by 0.25% annually to an ultimate rate of 4.50%.

Covered payroll		N/A	N/A								
Contributions as a percentage of covered payroll		N/A	N/A								

Valuation date: June 30, 2020 Measurement date: June 30, 2020

Notes to Schedule

Actuarially-determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age

Amortization method Level percentage of payroll, closed

Amortization period 19 years Asset valuation method Market value

Inflation 1.60%

Healthcare cost trend rates 8.00% initial, decreasing 0.50% per year to an ultimate rate of 4.50%

Salary increases 3.50% Discount rate 3.00%

Mortality See RSI-17 for details.

	2020	2019	2018	2017
Annual money-weighted rate of return, net of investment expense	-0.57%	8.01%	0.56%	3.56%

^{*}Note: This schedule is intended to show information for ten years. Additional years' information will be displayed as it becomes available.

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Community Development Block Grant - to account for the annual Entitlement Community program of the U.S. Department of Housing and Urban Development and related expenditures addressing housing and community development needs.

Police Special Account - to account for the receipt and disbursement of state and federal seizure funds.

Memorial Park Rec Fields Restoration - to account for receipts and disbursements related to Memorial Park

Blue Riptide Grant - to account for receipts and disbursements relative to this grant.

Scholarship Fund - to account for private contributions and related expenditures for various educational purposes.

Indoor Athletic Complex - to account for revenues generated by rents and vending machines utilized for operational expenses.

Historical Document Preservation - to account for receipts and disbursements associated with historical documents preservation.

Fire Plan Review - to account for receipts and disbursements associated with fire plan review.

Fire Prevention - to account for receipts and disbursements of fire inspection fees dedicated to fire prevention.

Memorial Library Fund - to account for library support services.

Special Revenue Funds

School Restricted Funds - Funds established to account for federal, state, and private grant monies used for the benefit of the Johnston School Department. The following is a list of the School funds included in this section:

- IDEA Part B
- Pre-School IDEA Section 619
- School Implementation
- Title I
- ATSI Grant
- Title II
- Title III
- Title IV
- Perkins Vocational
- USDA Fresh Fruit & Vegetables
- ESSER Grant
- Race to the Top HCD
- Evidence Based Science
- RIDHS Rising Star
- Pre-K Grant
- · Healthier US Schools and Communities
- Student Equity
- · General Assembly
- Pre-K Demonstration Project
- · RI State Council on the Arts
- Electrify RI
- CTE Categorical
- CS4RI
- ELL Grant
- Science Mini Grant
- RI Learning Champion
- SBA Tech
- · Champlin Foundation Manufacturing
- · Feinstein Foundation

- · RI Education Foundation
- Feinstein Elementary
- Verizon Foundation
- · Scholarship America
- · Janice Mele Scholarship
- Target Grant
- Walmart Grant
- Exxon Mobile
- Stop & Shop A+ Rewards
- Broadrock Energy
- Panther Partner Donation
- · Donations and Misc. Grants
- EDC Grant
- Lifetouch Commission
- PTO Donations
- SEAC
- · High School Donations

Capital Project Funds

The Capital Project Funds account for all resources used for the acquisition and/or construction of capital facilities by the Town, except those financed by the Enterprise Funds.

School Facilities Fund - to account for capital expenditures of the Johnston Schools.

Pezza Property Acquisition - to account for activities relative to the acquisition of the property.

Fire Equipment Fund - to account for revenues generated by ambulance rescue services which are then used to purchase fire equipment.

Dams Escrow Fund - to account for monies set aside per agreement for dam repairs.

Capital Project 2013 Series A - to account for proceeds used for capital expenditures relative to this bond issuance.

Capital Projects Fund - to account for proceeds used for capital expenditures relative to 2017 bond issuance.

2018 Capital Projects Fund - to account for proceeds used for capital expenditures relative to this bond issuance.

Capital Lease Fund - to account for expenditures of the 2020 capital lease proceeds.

Nonmajor Proprietary Funds

Nonmajor Proprietary Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges

Cafeteria Fund - This fund is to account for the activity associated with the school department's cafeteria operations

Credit Recovery - This fund is utilized to account for the school department's credit recovery program.

Summer School - This fund is used to account for the activity associated with summer school.

Athletic Field - This fund is used to account for activity of the school department's athletic fields.

Fiduciary Funds

Fiduciary Funds

Fiduciary funds are used to account for assets held by the Town in a trustee capacity for individuals, private organizations, other governments, and/or other funds.

Agency Funds

Student Activity - This fund is established to account for receipt of funds from school related activities. The funds are in turn expended to benefit the students (field trips, books, supplies).

Performance Bonds - This fund is utilized to account for the bonds required for various Town projects and building construction activity.

NOTES TO SUPPLEMENTARY INFORMATION ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT (MTP2) JUNE 30, 2020

1. BASIS OF PRESENTATION

The Annual Supplemental Transparency Report (MTP2) is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

2. REPORTABLE GOVERNMENT SERVICES

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services" (RGS) to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

3. ALLOCATIONS

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's (or Town's) budget and accounting system. To report these costs, the City (or Town) made allocations of costs to the State's departmental groupings based on a reasonable basis.

4. EMPLOYEE GROUPS - COMPENSATION AND BENEFIT COSTS

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department police officers (e.g., uniform personnel including, leadership positions)
- Fire Department fire fighters (e.g., uniform personnel including, leadership positions)
- Centralized Dispatch Department civilian dispatchers only
- Education Department professional staff providing direct services to students
- For the remaining departments all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either 1) contributions to a qualified OPEB trust, or 2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

5. EDUCATION REVENUE AND EXPENDITURES

The revenues and expenditures presented on the MTP2 under the Education Department are consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: http://www.municipalfinance.ri.gov/.
